In October 2006, when Government responded to the recommendations of the independent Committee on Radioactive Waste Management (CoRWM), the Nuclear Decommissioning Authority (NDA) was given responsibility for taking forward development and implementation of a geological disposal facility for higher activity wastes. The NDA is working to produce a new model which will estimate the cost of implementing a deep geological disposal facility for a variety of scenarios i.e. geology type, geographical position and types and amounts of wastes. We anticipate the model to be complete during 2008.

Recycling: Finance

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the value of the recycle payment for each renewables obligation certificate held was on each occasion on which recycle payments have been made. [180446]

Malcolm Wicks: The Renewables Obligation (RO) was introduced in 2002. Recycle payments for each Renewables Obligation Certificate (ROC) presented to Ofgem by electricity suppliers in order to comply with their renewables obligation have been made as follows:

	RO England and Wales	RO Scotland	Per ROC Northern Ireland RO[1]
2002-03	15.94	23.55	
2003-04	22.92	23.70	
2004-05	13.66	19.99	
2005-06	10.21	10.21	10.21
2006-07	16.04	16.04	16.04

[1] The Northern Ireland RO was not introduced until 2005-06.

Regional Development Agencies: Finance

Mr. Prisk: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what requirements his Department has placed on regional development agencies in spending monies allocated via the single pot from his Department. [179227]

Mr. Timms: Government Departments and the RDAs agreed a Tasking Framework which came into effect from April 2005. This required each RDA to show in its corporate plans for 2005-08 how, in support of its statutory role and responsibilities, it would contribute to the delivery of the Government's Public Service Agreement (PSA) Targets on Regional Economic Performance, Sustainable Development and Productivity/Rural Productivity and, through these, how it would contribute to delivery of a range of other PSAs and output targets.

In line with the conclusions of the Review of Sub-national Economic Development and Regeneration, BERR is working with the RDAs and other Government Departments to set overarching regional economic growth objectives for the RDAs which will apply from April 2008 (and will replace the 2005 Tasking Framework). The regional growth objectives will be aimed at increasing regional GVA per head, consistent with the Government Regional Economic Performance PSA. From April 2008, RDAs will also be required to demonstrate regard to two underlying cross-cutting principles—sustainable development and economic opportunities for all—as they seek to achieve the regional growth objective.

The RDAs are currently developing new corporate plans, for the period 2008-11, in which they will set out corporate objectives showing how their activities will be aligned with their overarching regional growth objective and how they will apply the cross-cutting principles of sustainable development and economic opportunities for all. BERR and other Government Departments will review the new corporate plans and in my capacity as the Minister for the Regions, on behalf of Government, I will approve the new corporate plans for the eight RDAs outside London.

All RDA activity must be in line with the statutory purposes and powers set out for them in the Regional Development Agencies Act 1998. In addition, the RDA financial duties are set out in the Management Statement and Financial Memorandum.

Regulation

Mrs. May: To ask the Secretary of State for Business, Enterprise and Regulatory Reform for which regulators and inspectorates his Department has had responsibility in each year since 1997; what the budget was of each such body in each year; and what the cost to the public purse was of any restructuring of each such body in each year. [175310]

Mr. Thomas: The Department (and the former DTI) has sponsored the following inspectorates/regulators since 1997:

Inspectorates

Employment Agency Standards Inspectorate

Engineering Inspectorate

Regulators

Executive Agencies

Companies House

Insolvency Service

Executive NDPBs

Coal Authority

Competition Commission

Hearing Aid Council

The following bodies are financially independent but BERR/former DTI has had policy responsibility for the areas they cover:

Non Ministerial Departments

Office of Fair Trading

Office of Gas and Electricity Markets (Ofgem)

Postal Service Commission (Postcomm)

Public Corporation

Office of Communications (Ofcom). Ofcom absorbed the Radio Communication Agency at the end December 2003 which was a former regulatory agency of the DTI.

Other Bodies

Financial Reporting Council

Until June 2007, the Department also had responsibility for the following bodies, which were transferred to DIUS:

Executive Agencies

National Weights and Measures Laboratory Agency

UK Intellectual Property Office

Executive NDPBs

British Hallmarking Council (ENDPB)

The budgets and restructuring costs of these bodies are not held in a composite form and could be collated only at disproportionate cost. However, with the exception of the Engineering Inspectorate and Employment Agency Standards Inspectorate, budgets can be obtained from their past and present annual reports or the Central Government Supply Estimates in each of the relevant years.

Renewable Energy

Charles Hendry: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the percentage of UK electricity which will be supplied from renewable sources in each year until 2015. [180282]

Malcolm Wicks: Based on the Energy White Paper projections, the percentage of electricity supplied by renewables was assessed at between 8 and 10 per cent. in 2010, between 12 and 16 per cent. in 2015 and

between 12 and 19 per cent. in 2020[1]. Assessments for other years are not available.

Following the consultation on our proposed reforms of the renewables obligation (RO) we have revised our modelling of the likely deployment attributable to the RO. Our revised proposals were published on 10 January, and these new estimates have not yet been included in our formal energy projections.

[1] The figures represent the share of renewables, including waste streams, in electricity supply. The coverage of the industry is defined at footnote 21 of the document: http://www.berr.gov.uk//files/file39580.pdf

Renewable Energy: Contracts

Mrs. Gillan: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether he was *(a)* consulted on and *(b)* asked to approve the tendering process conditions imposed by the Welsh Assembly Government on renewable energy company investors in schemes that will exceed 50 megawatts; and if he will make a statement. [179933]

Malcolm Wicks: *[holding answer 17 January 2008]:* The tendering process for the Welsh National Forest Estate Wind Farm programme was a matter purely for the devolved administration and my Department had no role in it.

Renewable Energy: Planning

Gregory Barker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what proportion of the renewable energy projects built in the last 15 years would *(a)* have been large enough to qualify for decision making by the Infrastructure Planning Commission proposed in the Planning Bill and *(b)* would have been dealt with by local authorities. [179040]

Malcolm Wicks: The Planning Bill provides that renewable energy projects generating electricity over 50 megawatts onshore and those generating over 100 megawatts offshore in England and Wales will in future be dealt with by the Infrastructure Planning Commission (IPC). Approximately 3 per cent. (58.5 MW) of the 1,890 MW of constructed renewable generating capacity in England and Wales would have been consented via the IPC had it been in existence (Source: 2010 Planning Database). Another 390 MW of offshore wind generation has been constructed comprising of projects generating between 50 MW and 100 MW. The remainder of the constructed wind farms would have been decided by local authorities.

In addition, BERR has consented to more than 3,500 MW (around 3,000 MW offshore and 550 MW onshore) of renewable energy projects which have not yet been built but are above the threshold to be dealt with by the IPC in future.

Gregory Barker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what effect he expects the Planning Bill, if enacted, to have on the process for building new renewable generators. [179050]

Malcolm Wicks: The reforms will have no impact on the processes for building new energy infrastructure but are intended to improve the efficiency and transparency of the planning system and the speed with which applications are considered.

Renewable Energy: Standards

Gregory Barker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what representations he has received from the renewables industry on the Government's commitment to a EU 20 per cent. renewables target since that contract was made. [179043]

Malcolm Wicks: The Department has had representations from various industry and other stakeholders since the Government's commitment to the EU 20 per cent. target. The Department is planning further engagement with stakeholders this year to inform the development of the UK Renewable Energy Strategy which will set out how the UK intends to meet its share of the EU target.

Solar Power

Lynne Jones: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assumptions were made about the cost of solar electricity generation in the UK MARKAL-macro model. [179335]

Malcolm Wicks: The full results of the MARKAL-macro modelling for the Energy White Paper and are available at: http://www.berr.gov.uk/files/file38979.pdf. The assumptions used for solar photovoltaic power in the MARKAL-macro modelling were provided by AEA Technology and are shown in the following table. The capacity value factors vary according to the season so figures for summer and winter days have been provided. The figures in the final column show the estimated final production cost after taking account of capital cost, capacity factor, operation and maintenance costs and equipment lifetime. The capital costs are assumed to decline over time as a result of technological learning.

Technology description	*First year available*	*Capacity factor (percentage)*	*Cap cost (£/kW)*	*O and M (fix) (£/kW)*	*Life (years)*	*Costs (p/kWh)*
Solar PV (summer day)	2000	19.5	5,750	58	20	42.9
Solar PV (summer day)	2050	19.5	1,386	14	20	10.3
Solar PV (winter day)	2000	7.0	5,750	58	20	119.5

Technology description	First year available	Capacity factor (percentage)	Cap cost (£/kW)	O and M (fix) £/kW	Life (years)	Costs (p/kWh)
Solar PV (winter day)	2050	7.0	1,386	14	20	28.8

Trade Unions

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what meetings he has had with trade unions officials since 1 July 2007; on what dates; and with which trade unions. [179871]

Mr. Thomas: Ministers meet many people as part of the process of policy development. It is not normal practice to disclose details of such meetings.

Trading Schemes (Exclusion) Regulations 1997

John Penrose: To ask the Secretary of State for Business, Enterprise and Regulatory Reform when the draft regulations referred to in the memorandum and letter dated 15 July 1997 to Mr. Bigmore concerning the Trading Schemes (Exclusion) Regulations 1997 entered into force. [179827]

Mr. Thomas *[holding answer 17 January 2008]*: These regulations came into force on 21 August 1997.

Utilities: Disadvantaged

Martin Salter: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what recent discussions he has had with energy companies on support for vulnerable consumers. [180129]

Malcolm Wicks: Since the publication of the Energy White Paper, I have met the chief executives of all the energy supply companies with a view to improving support to those at risk of fuel poverty. The level of support has increased from £40 million to £56 million for this winter.

I will meet with all the chief executives again shortly to discuss the best way to ensure continued support for their most vulnerable consumers.

Utilities: Low Incomes

Mr. Holloway: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps the Government plan to take to assist people on low incomes to meet the cost of electricity and gas, with particular reference to recent price increases. [179689]

Malcolm Wicks: The Government have a package of measures in place to support vulnerable households to keep their homes warm. We have announced that spend on energy efficiency measures for those on low incomes for the period 2008-11 will be in excess of £2.3 billion. This is in addition to the winter fuel payments, payable to all pensioners, which will continue for the lifetime of this Parliament.

In addition, energy companies have recently increased the level of support they provide to vulnerable customers as a result of Government pressure. The level of support available this winter is now close to £60 million.

Utilities: Meters

Mr. Morley: To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) what the regulatory framework will be for the introduction of smart meters for electricity and gas; and if he will make a statement; [179722]

(2) what plans he has to implement the aim in the 2007 Energy White Paper that every home should have a smart meter for electricity and gas; and if he will make a statement. [179723]

Malcolm Wicks: The Government are assessing responses to their recent consultation on metering and billing, and will shortly set out their next steps, including their approach to the delivery of smart meters.

Utilities: Standards

Mr. Holloway: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps he has taken to ensure that consumers have access to information on the performance of energy suppliers in handling complaints; and if he will make a statement. [180190]

Malcolm Wicks: The statutory consumer body, Energywatch, currently provides consumers with a range of information about the performance of gas and electricity suppliers, although this focuses on areas of operation, rather than internal complaint-handling. Following the passage of the Consumers, Estate Agents and Redress Act 2007, Ofgem will set minimum standards for complaint-handling for suppliers, which will take effect from October 2008. The arrangements surrounding these standards are currently being developed.

Wind Power: Planning Permission

Gregory Barker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the number of wind power generation applications which are not being implemented as a result of network capacity constraints which prohibit their connection. [179044]

Malcolm Wicks *[holding answer 14 January 2008]*: National Grid is responsible for managing connection agreements for larger generation projects. Figures from National Grid indicate that developers of approximately 500MW of wind generation projects with planning permission have requested earlier connection dates than set out in their current connection agreements. Available network capacity is a key consideration in whether National Grid can agree to these requests.

Gregory Barker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the estimated *(a)* cost and *(b)* capacity is of those wind power projects that have been given planning permission which are waiting for connection permits. [179046]

Malcolm Wicks *[holding answer 14 January 2008]:* There are approximately 4.3GW of onshore and offshore wind power projects with planning permission under development. All these projects have signed connection agreements with National Grid. The Government are working with Ofgem and National Grid to seek to ensure that these projects are offered a connection date in line with the developer's preferred programme wherever possible.

The cost of developing these projects are met by the private sector within the regulatory framework set by Government.

JUSTICE

Bail

Andrew Selous: To ask the Secretary of State for Justice pursuant to the Prime Minister's oral answer to the hon. Member for South West Bedfordshire on 16 January 2008, *Official Report*, column 925 on bail, what steps he plans to take to review the issue raised and decide whether any changes in the law are necessary. [180868]

Mr. Straw: In determining applications for bail, the courts have to make difficult decisions within the statutory framework laid down by Parliament in the Bail Act 1976 as amended by the 1994 Criminal Justice and Public Order Act. The law and procedure governing bail is kept under constant review. We are currently considering whether any wider implications flow from relevant and high-profile cases.

British Nationality: Armed Forces

Colin Challen: To ask the Secretary of State for Justice (1) how many applications have been made for UK citizenship on behalf of children of members of UK armed forces who do not have UK citizenship over the last 10 years, broken down by country of origin; [179775]

(2) how many children of members of the armed forces who are citizens of other Commonwealth countries have been born in the UK and granted UK citizenship. [179776]

Mr. Byrne: I have been asked to reply.

The information requested could be obtained by the detailed examination of individual case records only at disproportionate cost.

Children: Protection

Mrs. Curtis-Thomas: To ask the Secretary of State for Justice what data protection obligations there are on *(a)* police authorities, *(b)* NHS trusts and *(c)* social services departments to (i) amend and (ii) delete data collected through child protection investigations undertaken on the basis of incorrect clinical diagnosis. [179555]

Mr. Wills: The obligations on data controllers processing personal data are set out in the Data Protection Act. It contains eight principles which govern the processing of personal data. They apply to all processing of data by all data controllers, including police authorities, NHS trusts and social services.

The fourth principle requires that personal data should be accurate and, where necessary, up to date. Correcting inaccuracies in data held could be achieved by deleting or amending, depending on the circumstances.

The Data Protection Act is administered and enforced by the Information Commissioner, Richard Thomas, independently of the Government. His office is able to provide advice on specific cases and situations relating to data protection.

ClearSprings Management: Offenders

Nick Herbert: To ask the Secretary of State for Justice (1) what the criteria are for selecting offenders to be accommodated in bail and home detention facilities managed by Clear Springs; [179904]

(2) how many offences have been committed by offenders housed in bail and home detention accommodation managed by Clearsprings, broken down by *(a)* number of offences, *(b)* category of offence and *(c)* location of the accommodation; [179905]

(3) what categories of offences were committed by offenders prior to their transfer to bail and home detention accommodation managed by Clearsprings; [179906]

(4) how many offenders housed in bail and home detention accommodation managed by Clearsprings have been returned to custody since the inception of the scheme; and for what reason in each case; [179907]

(5) what procedures are in place for notifying local residents that bail and home detention accommodation managed by Clearsprings is opening in their area; [179908]

(6) what procedures are in place for consulting local authorities on proposals to open bail and home detention accommodation managed by Clearsprings in their area. [179909]

Mr. Straw: The Bail Accommodation and Support Service provided by ClearSprings is for defendants on bail and offenders on Home Detention Curfew. The following are excluded from the scheme: (i) those convicted of or charged with sex offences, (ii) those convicted of arson in the last 10 years or charged with arson, (iii) those who are considered to pose a significant risk to the public or to ClearSprings staff or to others in a shared house and (iv) those sentenced prisoners who are excluded from HDC. The main exclusions from HDC are:

sex offenders subject to the notification requirements of the Sex Offenders Act 1997/Sexual Offences Act 2003;

violent and sex offenders currently serving an extended sentence;

prisoners currently serving a sentence for failing to return after a Release on Temporary Licence;

prisoners currently serving a sentence for failing to comply with a curfew order;

most prisoners who have been recalled to prison for failing to comply with the HDC curfew conditions.

fine defaulters and contemnors; and

foreign national prisoners who are liable to removal.

In addition, prisoners with any history of sexual offending (who are not required to register as a sex offender) or serving sentences for the following categories of offences are considered unsuitable for release on HDC and can apply for HDC only if there are exceptional circumstances:

homicide, including attempted murder, threats to kill, conspiring, aiding or inciting murder and death by reckless/dangerous driving;

causing explosions, placing explosives, possessing explosives;

possession of offensive weapons;

possession of firearms with intent;

cruelty to children; and

racially aggravated offences.

Defendants and offenders who are not excluded, who otherwise have no suitable address and who apply for bail or home detention curfew will be considered for the scheme. But a defendant will be released into the service only if granted bail by the court. The court can refuse bail if it considers that there is a risk that the defendant will abscond, offend or interfere with witnesses or otherwise obstruct the course of justice. An offender will be released into the service on Home Detention Curfew only on the decision of a prison governor following consultation with probation and a thorough assessment of risk and of the suitability of the proposed location.

Information on how many offences have been committed by defendants and offenders while accommodated by ClearSprings cannot be obtained except at disproportionate cost.

Information on the categories of offences committed by offenders prior to their transfer to bail and Home Detention Curfew cannot be obtained except at disproportionate cost. However the service is available only to those who are granted bail or who are released on Home Detention Curfew, and to those who have not committed offences or been charged with offences that would exclude them, as mentioned.

I will provide information on how many defendants or offenders released into ClearSprings service who have been returned to custody as soon as possible.

ClearSprings staff personally call on the immediate neighbours of a BASS property to provide information on the BASS scheme and a 24/7 contact telephone number. Where it is not possible to make face-to-face contact an introductory letter is left providing ClearSprings' contact details.

ClearSprings consult with local authorities, and with police and probation, when acquiring properties so that local knowledge can inform the selection of addresses and avoid inappropriate locations. The scheme endeavours to return people to their own communities unless there is reason not to.

Commission for Racial Equality

Dr. Vis: To ask the Secretary of State for Justice whether the Commission for Racial Equality was asked to conduct a race impact assessment on the introduction of the indeterminate sentence for public protection. [180285]

Mr. Hanson: The Commission for Racial Equality worked with the Home Office to identify a list of provisions in the Criminal Justice Act 2003, prior to its introduction, for impact assessment—this list did not include the provision relating to the sentence of imprisonment for public protection.

Community Orders: Expenditure

Mr. Bellingham: To ask the Secretary of State for Justice (1) how much was spent by his Department on programmes directed at offenders given community sentences in each of the last five years; [179661]

(2) how much was spent by his Department on programmes directed at offenders with community sentences in each of the last five years. [179897]

Maria Eagle: Probation boards meet the cost of delivering accredited programmes through their grant as they see fit to meet their statutory duties. Accredited programmes can be delivered to offenders on both community sentences and on licence in the community following a custodial sentence. Data are only available on the budgeted cost of delivering programmes to offenders under probation supervision and are not differentiated by sentence type. Probation boards' budgeted spend on Accredited programmes is as follows:

	£ million
2005-06	77
2006-07	85
2007-08	86.5

There is no information relating to expenditure for years leading up to 2005.

Community Orders: Per Capita Costs

Mr. Bellingham: To ask the Secretary of State for Justice how much his Department spent on administering each type of community sentence in each of the last five years; and what the cost per offender was in each category. [179896]

Maria Eagle: Probation Boards meet the cost of delivering community sentences through their grant as they see fit to meet their statutory duties. The Criminal Justice Act 2003 established the new community order as a single community sentence with a number of elements in respect of offences committed after 4 April 2005. This replaced the separate community sentences which existed previously. 2005-06 was a transitional year with pre-CJA 2003 and post CJA 2003 sentences. From 2005 to present, cost exercises have been carried out by Probation Boards annually and have produced the planned cost of a range of activities. These together represent the best available data on the planned cost of

administering and delivering the Community Order and include Probation Board overhead costs. The planned costs are as follows:

2005-06—£418 million—cost per offender commencement £2,400

2006-07—£519 million—cost per offender under supervision £1,831

2007-08—£496 million—cost per offender under supervision £1,677

The costing methodology changed between the 2005-06 and subsequent exercises which means that they are not directly comparable. The 2005-06 exercise provides a cost per offender commencement; subsequent exercises provide a cost per offender under supervision.

There is no information relating to expenditure for years leading up to 2005.

Departmental Data Protection

Mrs. Villiers: To ask the Secretary of State for Justice whether personal data for which his Department is responsible are *(a)* stored and *(b)* processed overseas; and if he will make a statement. [176016]

Mr. Wills: The Department does not have any personal data for which it is responsible stored or processed overseas.

Mrs. Villiers: To ask the Secretary of State for Justice what obligations his Department and its agencies place on contractors in relation to the audit of personal data and IT equipment. [176467]

Mr. Wills: The Department's information technology is provided mainly through contracts with external suppliers. The contracts place obligations on contractors to provide IT and data management systems that meet government security standards, including the standard for Information systems risk management known as HMG Infosec Standard 2, and the Ministry of Justice's own security policies and standards.

The contracts place obligations on contractors to comply fully with all legislative requirements, including the relevant provisions of the Data Protection Act.

There is also provision for the Department to undertake audits to ensure compliance with all provisions of the contracts. For example, all new systems, and any that involve a significant upgrade or change, are subject to rigorous audit before acceptance into live service.

The Department also has appropriate measures in place to protect the confidentiality and integrity of its data and systems. For example, contracted staff employed by Her Majesty's Prison Service (HMPS) and the National Probation Service, are security cleared to an appropriate level commensurate with the level of access they have to data.

Mrs. Villiers: To ask the Secretary of State for Justice what audits his Department and its agencies have carried out in relation to personal data and IT equipment in each of the last 10 years. [176473]

Mr. Wills: Our IT suppliers are contractually obliged to maintain the Department's IT systems in accordance with government security standards, and the relevant provisions of the Data Protection Act. Assurance that these security standards are being met is obtained through compliance with the HMG standard for information systems risk management, known as HMG Infosec Standard 2.

The Ministry of Justice and its agencies undertake a formal programme of audits each year as well as carrying out other internal reviews as required. The scope of these audits is dependent on the reason for the audit taking place, or the specific terms of reference for the review. Past audit programmes undertaken by the former Department for Constitutional Affairs have contained a number of audits that have included coverage of systems and procedures incorporating aspects of personal data, including their storage and processing. Audit reports have been issued and action taken where necessary.

Her Majesty's Prison Service (HMPS) is subject to continuous audit, under the oversight of the NAO. The results are considered by the HMPS's audit committee.

Departmental Marketing

Mr. Hoban: To ask the Secretary of State for Justice how many posters or displays there are in the offices of his Department and its agencies displaying the names and photographs of Ministers; and what the cost has been of producing such posters or displays since its establishment. [179914]

Maria Eagle: Since the Ministry of Justice was established on 9 May 2007, no posters or displays showing the names or photographs of Ministers have been displayed in the offices of the Ministry or of its agencies.

English Language

Damian Green: To ask the Secretary of State for Justice how much his Department has spent on English language classes for staff in the last year for which figures are available. [177488]

Maria Eagle: There is no centrally held information on English language classes for staff. Written and oral communication skills are tested as part of the recruitment process. Line Managers work with individuals to identify any learning and development needs. Staff who need to expand their English language skills are able to access support via the Department's Further Education Programme.

Forced Marriage

Dr. Kumar: To ask the Secretary of State for Justice what steps he is taking to ensure that people vulnerable to forced marriages are made aware of the provisions of the Forced Marriage (Civil Protection) Act 2007. [179606]

Mr. Wills: The Ministry of Justice is working closely with other Departments to decide the best ways in which to publicise the Forced Marriage (Civil Protection) Act 2007 to victims and potential victims of forced

marriage when it comes into force in autumn 2008. We will build on the ongoing outreach programme of the joint Home Office/Foreign and Commonwealth Office Forced Marriage Unit. The Forced Marriage Unit in collaboration with Karma Nirvana (an NGO based in Derby) are piloting a survivor's helpline this year, and helpline staff will receive guidance in the provisions of the Act. We are considering how best to engage public authorities and voluntary sector organisations before the Act is implemented, to raise their awareness and ensure they meet their statutory obligations and provide co-ordinated support for victims.

Harriet Harman

Adam Price: To ask the Secretary of State for Justice on what date the Permanent Secretary of the former Department for Constitutional Affairs received notice of each donation made to the then Minister of State in relation to her campaign for the deputy leadership of the Labour Party; and if he will make a statement. [180108]

Mr. Straw: In accordance with the requirements of the ministerial code, a list of Ministers' relevant interests declared to their permanent secretary will be published in due course.

HM Prison Service

Mr. Bellingham: To ask the Secretary of State for Justice if he will make a statement on the recruitment procedures in place for the appointment of the Director General of HM Prison Service. [180053]

Maria Eagle: As the Director General, HMPS has not indicated an intention to retire, there are no plans in place for recruitment of a successor.

Mr. Bellingham: To ask the Secretary of State for Justice whether the Director General of HM Prison Service has given notice of his intention to retire; and if he will make a statement. [180065]

Maria Eagle: It is not appropriate to comment on individuals and their future plans.

Retirement provisions are common across the senior civil service. In accordance with the provisions of the Employment Equality (Age) Regulations 2006, from 1 October 2006, retirement age for senior civil servants was raised to 65.

Homicide: Bail

Andrew Selous: To ask the Secretary of State for Justice what guidance his Department provides the judiciary on the granting of bail to people accused of murder; and if he will make a statement. [179695]

Mr. Straw: Whether to grant bail, or not, is and must remain a decision for the courts to make within the statutory framework provided by Parliament in the Bail Act 1976 as amended, taking account of relevant case-law. It is the responsibility of the Government to keep the statutory framework under careful review, bringing proposals for change to Parliament as necessary.

The 1976 Act as amended provides for a general presumption that bail will be granted in all cases, including murder, except in specific circumstances which have to be supported by evidence. The court can impose conditions to prevent absconding, committing further crime while on bail, interfering with witnesses or for the purpose of medical or other reports: s3(6A) deals with the need for such a report when bail is granted in murder cases. In addition, it may require a defendant to provide security. The exception to this, under section 25 of the Criminal Justice and Public Order Act 1994, is that bail can only be granted in exceptional circumstances in cases of homicide (or rape) where there has been a previous conviction for such an offence.

Nick Herbert: To ask the Secretary of State for Justice how many suspects were *(a)* remanded in custody, *(b)* bailed on tag and *(c)* bailed without tagging for a charge of (i) murder, (ii) rape, (iii) manslaughter and (iv) grievous bodily harm in the last year for which information is available. [179921]

Mr. Straw: Data published by my Department show that 13,900 persons were remanded in custody in 2006 for offences in the 'Violence against the Person' group, which includes the offences of murder, manslaughter and grievous bodily harm, as well as a wide range of other offences. 2,300 persons were remanded in custody for sexual offences, which include rape. These figures exclude persons held in police cells. These data are taken from the annual publication "Offender Management Caseload Statistics, 2006", table 7.2. No further breakdown is available by offence type within the groups.

64,800 persons were bailed by the courts for offences in the 'Violence against the Person' group in 2006. 10,100 persons were bailed for sexual offences. These figures include those also held in custody for some but not the whole period of the proceedings. These data are taken from the annual publication "Criminal Statistics 2006, England and Wales", table 4.9. No further breakdown is available.

The total number of times the courts imposed 'bail on tag' in 2006-07 was 18,321. A breakdown of data by offence type for bail involving electronic tagging is not available.

Honours

Andrew Rosindell: To ask the Secretary of State for Justice whether there is an upper limit on the number of honours awarded in *(a)* the new year honours list and *(b)* the birthday honours List to (i) citizens resident in the UK and (ii) citizens resident in the British Crown dependencies. [179804]

Mr. Wills: No more than 1,000 names may appear in the Prime Minister's recommendations for the new year honours list or the Queen's birthday honours list. There are no separate limits for citizens resident in the UK and citizens resident in the British Crown dependencies.

Andrew Rosindell: To ask the Secretary of State for Justice what arrangements are in place to administer nominations for honours for citizens of *(a)* the British overseas territories and *(b)* the UK. [179805]

Mr. Wills: Nominations for citizens of the overseas territories are administered by the Foreign and Commonwealth Office. Successful nominations appear on the diplomatic service and overseas list.

The process is the same for citizens of the British overseas territories as for citizens of the UK. Nominations are channelled through the relevant Department of State and submitted to the Cabinet Office ceremonial secretariat for consideration by the specialist honours sub-committees. The sub-committees make recommendations to the main Honours Committee which advises the Cabinet Secretary. The Cabinet Secretary puts the recommendations to the Prime Minister for onward transmission to the Queen. The Prime Minister has stated that he will not seek to amend the recommendations in any way.

Honours: Channel Islands

Andrew Rosindell: To ask the Secretary of State for Justice how many honours have been awarded to individuals from the Channel Islands since 1997. [179802]

Mr. Wills: Until June 1999 figures for the Channel Islands were amalgamated with those for the Isle of Man. Between January 1997 and January 1999 47 individuals from the Channel Islands and the Isle of Man inclusive were recognised in the Prime Minister's honours recommendations. Between June 1999 and December 2007 92 individuals from the Channels Islands were recognised in the Prime Minister's honours recommendations.

Honours: Crown Dependencies

Andrew Rosindell: To ask the Secretary of State for Justice what the process is whereby honours are awarded to citizens from British Crown dependencies. [179801]

Mr. Wills: In common with citizens in the UK there are two routes by which citizens from the British Crown dependencies enter the honours system:

Nomination by an individual or a public/private sector organisation familiar with the work of the candidate.

Submission by the Lieutenant Governors of the Crown dependencies, via the Ministry of Justice, who have identified candidates doing good work within their island communities or in a wider international field. (Candidates may be identified as a result of nominations sent to the Lieutenant Governors from public or private sources).

Honours: Public Service

Andrew Rosindell: To ask the Secretary of State for Justice whether individuals filling certain public roles are awarded honours as a matter of custom. [179806]

Mr. Wills: With the exception of High Court judicial appointments, honours are not automatically attached to particular posts in either the public or the private sector.

Land Registry Direct

Mr. Hoban: To ask the Secretary of State for Justice which Government *(a)* departments and *(b)* agencies have business user accounts with Land Registry Direct. [180373]

Mr. Wills: The following Government Departments and agencies have business user accounts with Land Registry Direct.

Assets Recovery Agency
Charity Commission
Child Support Agency
Crown Prosecution Service
Defence Estates
Department for Business, Enterprise and Regulatory Reform
Department for Communities and Local Government
Department for Environment, Food and Rural Affairs
Department for Work and Pensions
Environment Agency
Forestry Commission
Health and Safety Executive
Highways Agency
HM Courts Service
HM Prison Service
HM Revenue and Customs
Home Office
Home Office—Border And Immigration Agency
Insolvency Service
Legal Services Commission
National Offender Management Service
Rural Payments Agency
Serious Fraud Office
The Crown Estate
The Office of the Public Guardian
Treasury Solicitor's Department
Valuation Office Agency
Vehicle and Operator Services Agency

National Offender Management Service: Border and Immigration Agency

Nick Herbert: To ask the Secretary of State for Justice on what dates the Chief Executive of the National Offender Management Service and the Chief Executive of the Border and Immigration Agency have met in the last 12 months. [179898]

Mr. Straw: Over the last 12 months the chief executive of the National Offender Management Service and the chief executive of the Border and Immigration Agency have held regular meetings on both a bilateral and wider basis. These have been conducted through face to face and teleconferencing discussions.

Additionally, other NOMS and BIA directors have met on a regular basis to discuss issues concerning foreign national prisoners. Since April 2007 a monthly liaison meeting has been held between BIA and NOMS officials to ensure that the management of this group of prisoners and their detention and deportation, where appropriate, is as efficient as possible.

National Offender Management Service: Expenditure

Mrs. Gillan: To ask the Secretary of State for Justice how much was spent on central management for the Probation Service and subsequently the National Offender Management Services in England and Wales in each financial year since 1997-98. [173806]

Maria Eagle: The National Probation Directorate (NPD) was the sponsoring unit of the National Probation Service (NPS) from 1 April 2001 to 31 March 2007.

The responsibilities of NPD included a number of front line and support services as well as central management. Expenditure on central management is not separately identified, but expenditure on "Administration Costs" as opposed to "Programme Costs", was as follows:

	£ million
2001-02	10.858
2002-03	11.300
2003-04	14.267
2004-05	10.579
2005-06	4.887
2006-07	3.652

Since January 2005 certain functions have transferred from NPD to the centre of the National Offender Management Service and from 1 April 2007, expenditure is completely subsumed within NOMS centre.

NOMS central costs are not specifically allocated to separate activities including central management of probation services and to attempt to separately identify the costs would be a disproportionate cost.

Prior to 2001, the NPS and NPD did not exist as such and comparable figures are not available.

National Offender Management Service: ICT

Nick Herbert: To ask the Secretary of State for Justice how much has been spent by the National Probation Service on development of C-NOMIS; and how much has been spent in total by his Department on making C-NOMIS available to the Probation Service. [179368]

Mr. Straw: As stated in the written ministerial statement laid before Parliament on 8 January 2008, and following the Strategic Review of the NOMIS Programme, probation areas will no longer be receiving the C-NOMIS application.

However, the probation specific projects now established within the new NOMIS Programme, and those which will provide arrangements to allow the sharing of information between public prisons and probation areas, and replace at risk probation case management systems, will continue to derive benefit from the investment and work on NOMIS to date. In addition, work completed by the programme on dependent projects, such as improving the OMNI infrastructure, will also provide further benefit.

C-NOMIS has been, and continues to be, funded centrally through the National Offender Management Service and nearly all of the expenditure attributable to it is relevant to its future use in HMPS as 'Prison NOMIS'. No separate funding has been provided. About £1 million of computer hardware was acquired for use by probation in association with C-NOMIS. This is being reallocated to other projects which have similar hardware needs.

Offenders: Accommodation

Nick Herbert: To ask the Secretary of State for Justice (1) how many *(a)* suspects, *(b)* convicted unsentenced offenders, *(c)* convicted offenders on community sentences and *(d)* prisoners on licence were provided with accommodation by ClearSprings in each month since August 2007; [179922]

(2) how much was paid to ClearSprings for the provision of bail and home detention accommodation in each month since July; [179923]

(3) what the criteria are for identifying properties to be managed by ClearSprings for the provision of bail and home detention accommodation; [179924]

(4) what properties *(a)* are and *(b)* will be managed by ClearSprings for the provision of bail and home detention accommodation in England and Wales. [179925]

Mr. Straw: The Bail Accommodation and Support Service provided by ClearSprings is for defendants on bail and offenders on home detention curfew. It is not available for offenders on community sentences. Information on the breakdown of bail cases between those untried and those convicted but unsentenced cannot be obtained except at disproportionate cost. The numbers of those provided with accommodation in each month is shown in the following table:

	Bail (a) untried and (b) convicted unsentenced combined	*Home detention curfew (d)*
August 2007	23	7
September 2007	24	13
October 2007	36	23
November 2007	69	42
December 2007	55	47
January 2008 (up to 14 January)	16	20

During the period July to December 2007 £2,391,470 was paid to ClearSprings Management Ltd. in respect of accommodation provided.

The Regional Offender Managers in England and the director of Offender Management in Wales identify the towns in which accommodation is required based on the distribution pattern of remand prisoner and offender origins. ClearSprings consult with the police and local authorities and probation when acquiring properties so that local knowledge can inform the selection of addresses and to avoid inappropriate locations. The scheme endeavours to return people to their own communities unless there is reason not to.

A list of towns or areas, by county, where accommodation is currently provided or is being sought is in the following table. The distribution will be reviewed regularly by the Regional Offender Managers

in the light of experience and adjustments will be made to the locations of addresses to match supply to the pattern of demand, so that in general people can be placed in the communities from which they originate.

Offenders: Rehabilitation

Mr. Burrowes: To ask the Secretary of State for Justice what research was conducted into the effectiveness of offender behaviour programmes before they were put into use. [180323]

Mr. Hanson: The offending behaviour programmes that have been introduced into prisons and probation are based on the best available international evidence. This has included a thorough review of UK and international programmes and their evaluations to identify the types of programmes that appear to be the most effective in reducing re-offending and tackling key aspects of offenders' thinking and behaviour. Home Office Research Study 291 published in February 2005, 'The impact of corrections on re-offending: a review of what works' summarises some of the key findings. In order to ensure rigour in the design of programmes each one has had to demonstrate a sound theoretical, empirical and evidence base as part of the process of accreditation by a panel of independent experts. There is considerable evidence to support the effectiveness of offending behaviour programmes in reducing re-offending.

Mr. Burrowes: To ask the Secretary of State for Justice whether reduction of re-offending is an aim of offender behaviour programmes. [180324]

Mr. Hanson: Yes. One of the intended aims of offending behaviour programmes is to reduce re-offending. It aims to do this by contributing to the overall strategy to reduce recidivism by addressing attitudinal and behavioural factors known to be related to re-offending. There is considerable evidence to support the effectiveness of cognitive behavioural programmes in reducing re-offending.

Mr. Burrowes: To ask the Secretary of State for Justice how much offender behaviour programmes cost to implement in the latest period for which figures are available. [180325]

Maria Eagle: In relation to the probation service, data are only available on the budgeted cost of delivering programmes to offenders under their supervision in the community. Probation Boards meet the cost of delivering accredited programmes through their grant as they see fit to meet their statutory duties. Probation Boards' budgeted expenditure on accredited programmes for 2007-08 is £86.5 million.

In relation to the HM Prison Service, the funding for delivery of offending behaviour programmes is part of establishment baselines. Based on an estimated average cost per programme completion and the number of completions in 2006-07, we estimate that the cost of delivering accredited offending behaviour programmes in 2006-07 to be approximately £25 million.

Mr. Burrowes: To ask the Secretary of State for Justice how many prisoners participated in each type of offender behaviour programme in the latest year for which figures are available, broken down by prison establishment. [180329]

Maria Eagle: The following table sets out the number of accredited offending behaviour programmes completed by prisoners by establishment in 2006-07.

Offending behaviour programme completions by programme and establishment in 2006-07

[8] FOR—A resettlement programme

Prison Service: Dismissal

Mr. Paterson: To ask the Secretary of State for Justice how many Prison Service employees have been dismissed as a result of their non-compliance with rules on *(a)* sex and *(b)* race discrimination in the last five years for which figures are available. [179733]

Mr. Hanson: According to centrally held records in the public sector Prison Service, 24 employees were dismissed as a result of their non-compliance with rules on sex discrimination and race discrimination between January 2003 and December 2007.

Prisoners Release

Dr. Vis: To ask the Secretary of State for Justice what guidance is given to prison governors on arrangements for releasing juveniles at the end of their sentences when they have no accommodation arranged. [180288]

Maria Eagle: Prison Service Order 6400 requires that, where a prisoner has no address to go to on release, the relevant housing advice or resettlement/ youth offending team worker must be informed.

Planning for a young person's resettlement, in particular the living arrangements, must begin during induction and continue throughout the custodial period. The relevant youth offending team must ensure that each young person gains access, where appropriate, to the accommodation services which local authority social services and housing departments have a duty to provide.

Prisoners Release: Foreigners

Nick Herbert: To ask the Secretary of State for Justice how many convicted foreign national prisoners were released from prisons in England and Wales in the last 12 months. [179901]

Mr. Straw: There were 78,400 discharges from determinate sentences on completion of sentence or on licence of adult and young adult offenders in 2006 (the latest year for which data are available), of which around 7,300 (9 per cent.) were foreign nationals.

For the proportion of total prisoners who are foreign nationals, Council of Europe data on foreign national prisoners held in other major western countries reveal much higher proportions, for example in Austria (43 per cent.), Spain (33 per cent.), Germany (28 per cent.) and France (21 per cent.) than the figure for England and Wales (14 per cent.), based on 2006 population data.

The domestic figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Prisoners: Australasia

Mr. Jenkins: To ask the Secretary of State for Justice how many *(a)* Australian and *(b)* New Zealand nationals are in prison in the UK. [179492]

Mr. Hanson: At the end of September 2007, the latest date for which figures are currently available, there were *(a)* 26 Australian and *(b)* 10 New Zealand prisoners held in all prison establishments in England and Wales.

This information is available at the following website:

http://www.justice.gov.uk/docs/population-in-custodySep07.pdf

The following website gives the publishing schedule for Ministry of Justice statistical publications:

http://www.justice.gov.uk/docs/moj-stats-schedule.pdf

Data for December 2007 will be published on 31 January 2008.

Comparable information for Scotland and Northern Ireland is the responsibility of the Scottish Executive and the Northern Ireland Prison Service.

These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Prisoners: Foreigners

Nick Herbert: To ask the Secretary of State for Justice if he will place in the Library copies of all correspondence between the Border and Immigration Agency and the National Offender Management Service on policy towards foreign national prisoners. [179920]

Mr. Straw: Policy towards foreign national prisoners is the subject of joint work and ongoing discussions between NOMS and BIA. The revised Prison Service Order 4630 was agreed as part of continuing policy development and detailed discussions on other matters have been the subject of the monthly liaison meetings which have taken place since April 2007. I have placed a copy of the PSO in the Library.

Disclosure of correspondence into the public domain would prejudice the effective exchange of views between both BIA and NOMS which is necessary when developing policies and procedures in respect of foreign national prisoners.

Prisons

Nick Herbert: To ask the Secretary of State for Justice (1) what the estimated cost is of creating the Titan prison model, including resources to *(a)* develop, *(b)* design, *(c)* plan and *(d)* procure the prison; [176098]

(2) what the estimated annual total running cost is of a 2,500-bed Titan prison; [176099]

(3) what the estimated total running costs are of the additional prison places due to be delivered by 2014; [176101]

(4) pursuant to his statement of 5 December 2007, *Official Report*, column 827, on prisons: Carter Review, how much of the £1.2 billion for prisons announced in his Statement is available for his Department to spend *(a)* immediately and *(b)* after March 2011; [176265]

(5) pursuant to his statement of 5 December 2007, *Official Report*, on the Carter review of prisons, how much of the £1.2 billion for prisons will be available in each financial year up to 2014 for *(a)* capital construction and *(b)* resource spending; [176664]

(6) what proportion of the £1.2 billion for prisons announced in his statement of 5 December 2007, *Official Report*, column 828, on the Carter review of prisons, has been allocated for *(a)* building new prisons and *(b)* increasing capacity in existing prisons. [176665]

Mr. Straw: I announced on 5 December 2007 a programme for building 10,500 prison places to be delivered by 2014. This was in response to Lord Carter's Review on Prisons Securing the Future. The programme includes building up to three large 'Titan' prisons, housing around 2,500 prisoners each and closing old and inefficient prisons. The cost of construction (including development and design but not land) of the Titan prisons has been estimated to be around £350 million each at 2007-08 prices.

The indicative funding profile for this programme for the CSR period 2008-09 to 2010-11 is shown in the following table. The table also includes provision for

the purchase of land for Titans and for the possible conversion of a second military camp that has been provisionally allocated to the post 2011 SR period and will be subject to the usual SR process.

£ million

	2008-09	2009-10	2010-11	2011-12	Total
Resource	126.0	213.0	166.0	—	505.0
Capital	326.0	183.0	-10.0	—	499.0
Military camp (if required)	—	—	—	108.0	108.0
Land purchase for Titans	—	—	—	122.0	122.0
Total	452.0	396.0	156.0	230.0	1,234.0

[1] -£10 million represents funding moved into earlier years to allow faster progress on the programme

Around £700 million is estimated for the building and conversion of new places at existing prison sites. This is included in the aforementioned table. Funding does not include the construction and operating costs of the Titan prisons which are planned to open after 2011. This will also be subject to the usual SR process.

Sites have been identified for quick build units within the prison estate and are subject to the usual planning process. However, planning for the individual projects (which includes Titans), including the delivery timeframe and capital and resource requirements in each year, is being developed. Work is progressing to assess the various procurement options and associated costs to deliver Titan prisons.

The Carter Report (pages 19-20) gave estimates of a range of capital unit cost per place for the various security categories of prisoner accommodation. Currently the estimated capital cost of the programme announced on 5 December is £2.3 billion including the current CSR period and beyond.

Dr. Vis: To ask the Secretary of State for Justice what the certified normal accommodation was for each prison in each week since 26 January 2007. [180292]

Mr. Hanson: The following tables show the in-use CNA[1] for prisons in England and Wales on the last Friday of each month in 2007.

[1] In-use certified normal accommodation (in-use CNA), or uncrowded capacity, is the sum total of all certified accommodation in an establishment less those places not available for immediate use, for example: damaged cells, cells affected by building works. In-use CNA does not normally include cells in punishment or segregation units or health care cells or rooms in training prisons and YOIs that are not routinely used to accommodate long stay patients.

Mr. Hayes: To ask the Secretary of State for Justice if he will make a statement on the provision of acupuncture in prisons. [180343]

Maria Eagle: The provision of alternative or complementary therapies, such as acupuncture, in prisons in England is a matter for the primary care trust responsible for commissioning health services at the establishment concerned.

Mr. Hayes: To ask the Secretary of State for Justice what the average cost was of providing gyms in prisons in the latest period for which figures are available. [180344]

Mr. Hanson: Since 1997 new gymnasium facilities have been provided at HMP Lancaster Farms, HMP New Hall and HMP Shrewsbury. The average cost of providing these gyms in the public sector is in the region of £2.1 million. Most provision of new gymnasium facilities since 1997 have been provided by the private sector in newly constructed prisons, for which costs are not readily available.

Prisons: Drugs

Mr. Vara: To ask the Secretary of State for Justice how many cases of people smuggling drugs into prisons were detected in each of the last five years; and how many perpetrators in such were *(a)* prison staff, *(b)* inmates' visitors and *(c)* other people, broken down by category. [178358]

Mr. Hanson: The total number of recorded incidents of drugs/drug equipment being detected by prison staff being smuggled into prisons over the last five financial years are shown in table 1.

Table 1

	Total recorded incidents
2002-03	2,658
2003-04	2,939
2004-05	3,445
2005-06	3,551
2006-07	3,488

These figures include reported incidents of attempts by visitors and prisoners to bring drugs onto the premises. They also include other methods such as throwing drugs over the wall or use of the post.

(a) Staff who are caught smuggling drugs are reported to the local police but information about the cases is not collated centrally.

(b) A comprehensive framework is in place for dealing with visitors who seek to smuggle drugs through visits. The number of visitors suspected of involvement in drug smuggling and the number of recorded incidents involving visitors being detected with drugs are shown in table 2.

Table 2

	Visitors suspected of smuggling drugs	Visitor drug incidents[1,2]
2002-03	3,502	831
2003-04	3,598	946
2004-05	4,283	891
2005-06	5,422	850
2006-07	3,393	680

[1] May include some cases where a visitor was in possession of drugs for their own personal use rather than intending to smuggle drugs into prison.
[2] Incidents may involve more than one visitor

(c) Other recorded incidents of people bringing drugs/drug equipment into prison are split between prisoners, people throwing drugs into the prison

perimeters and other methods. Table 3 shows the recorded incidents of drugs being detected in each of these categories.

Table 3

	Entry method		
	Prisoners	*Thrown in*	*Others (typically by post)*
2002-03	122	319	1,386
2003-04	156	576	1,261
2004-05	156	793	1,605
2005-06	196	820	1,685
2006-07	179	753	1,876

These figures have been drawn from administrative data systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system.

The data are not subject to audit.

Prisons: Overcrowding

Mr. Fabian Hamilton: To ask the Secretary of State for Justice what policies are in place to reduce overcrowding in prisons. [180123]

Mr. Straw: On 5 December in their response to Lord Carter of Coles' review of prisons the Government announced an additional 10,500 prison places. This is on top of the existing 9,500 capacity programme. Our aim is to achieve capacity of 96,000 places by 2014.

We have also established a working group chaired by Lord Justice Gage which will look at Lord Carter's proposal for a Sentencing Commission in England and Wales. Experience from other jurisdictions suggests that such an approach can mean the drivers behind the prison population can be addressed and managed in a transparent, consistent and predictable manner. The Working Group is expected to report to the Lord Chief Justice and to the Secretary of State for Justice and Lord Chancellor by the summer of 2008.

Tasker Review: Freedom of Information

Mr. Bellingham: To ask the Secretary of State for Justice how many requests under the Freedom of Information Act 2000 have been submitted to his Department relating to the *(a)* Tasker Inquiry and *(b)* Stuart investigations; and if he will make a statement. [180063]

Maria Eagle: The National Offender Management Service has received, under the Freedom of Information Act 2000, four requests relating to the Tasker Inquiry and three requests relating to the Stuart investigations.

Trade Unions

Mr. Hoban: To ask the Secretary of State for Justice what meetings he has had with trade unions officials since 1 July 2007; on what dates; and with which trades unions. [179858]

Mr. Straw: Since I became the Secretary of State for Justice in late June 2007, I have met with trade union representatives on nine occasions regarding departmental business.

These have been with representatives from the Prison Officers Association, the Prison Governors Association, the Prison Service Joint Industrial Council, the Transport and General Workers' Union, Amicus, GMB, Unison and the Trade Union Congress.

If the hon. Member wishes to know about my time as Leader of the Commons he should let me know, please.

Young Offenders: Body Searches

Dr. Vis: To ask the Secretary of State for Justice on how many occasions each young offender institution has videoed the *(a)* strip searching and *(b)* restraint of children. [180516]

Mr. Hanson: The Prison Service is unable to respond to this question within the stipulated time-frame as these statistics are not collated centrally. In order to gain accurate figures, it will be necessary to consult with those young offender institutions which hold 15 to 17-year-old prisoners. This work is now under way and I will write when completed.

Young Offenders: North East Region

Dr. Kumar: To ask the Secretary of State for Justice how many children under 16 who had previously been convicted of drug-related offences in *(a)* the North East, *(b)* Teesside and *(c)* Middlesbrough South and East Cleveland constituency were prosecuted for drug dealing in each of the last 10 years. [179616]

Mr. Hanson: The information is not available. The published statistics on the criminal histories of offenders do not include figures at the requested level of detail.

The most recent available figures for the criminal history of offenders, which include details for juvenile offenders (Table 6.5) and for offenders convicted of drug offences (Table 6.3), are given in "Sentencing Statistics 2005" which is available in the House of Commons Library and can be found online at:

http://www.homeoffice.gov.uk/rds/pdfs07/hosb0307.pdf

Young Offenders: Teesside

Dr. Kumar: To ask the Secretary of State for Justice what facilities in Teesside are available to young people who have been convicted of drug offences to help prevent them from re-offending; and if he will make a statement. [179613]

Mr. Hanson: Youth offending teams (YOTs) currently screen and assess all young offenders, including those convicted of drug offences, on their needs in relation to substance misuse and ensure they access the substance misuse services they need.

For 2006-07 Teesside YOTs carried out 1155 screenings of those convicted of drug offences, with 230 assessments and referred over 200 young offenders to substance misuse interventions. In this area the Local Children

and Young Peoples Partnerships are required to provide a range of substance misuse treatment services including psychosocial interventions, work with the families and pharmacological interventions.

Eligible young offenders in Teesside can also access Resettlement and Aftercare Provision (RAP) attached to YOTs which engages young people with substance misuse problems. The core RAP provision provides up to 25 hours of planned support and activities each week including ongoing access to substance misuse and mental health treatment, support to access accommodation, education, training and employment as well as peer and family support work.

Written Answers to Questions

Monday 21 January 2008

HEALTH

Ambulance Services: South Lakeland

Tim Farron: To ask the Secretary of State for Health how many ambulances have broken down or required repair while on service in South Lakeland in each of the last five years. [180582]

Mr. Bradshaw: This information is not held centrally. The Department has not issued guidance on the operational life of ambulances, as it is a local issue for each trust based on the supplier they decide on.

Barnet Hospital: Psychiatry

Mr. Dismore: To ask the Secretary of State for Health what progress has been made on the new building for psychiatric services provision at Barnet hospital; and if he will make a statement. [178167]

Mr. Bradshaw: The provision of psychiatric services in Barnet is a matter for the local national health service.

However, we have been informed that the Barnet psychiatric unit is projected to be completed in February 2008, with services being provided from the site by April 2008.

Breast Cancer

Mr. Cameron: To ask the Secretary of State for Health whether the patient experience survey for breast cancer will seek information on the experience of patients with metastatic breast cancer. [177322]

Ann Keen: The patient experience survey will cover patients with all cancers, including metastatic breast cancer. An expert group will be set up in the first half of 2008 to design the technical specifications of the National Health Service Cancer Patient Experience Survey programme and a national contract will then be let for the collection, management and analysis of cancer patient experience surveys in 2008-09 with first results expected in 2009-10.

Mr. Cameron: To ask the Secretary of State for Health what steps his Department plans to take to improve the care and experience of patients with metastatic breast cancer. [177323]

Ann Keen: The Cancer Reform Strategy sets out a series of actions to improve the care and experience of all cancer patients, including those with secondary breast cancer.

Whether patients are living with or beyond cancer, high quality information and support will be available, tailored to the patient's personal needs. Action will be taken to inform and empower patients so that they can play as active a role in decisions about their treatment as they wish. Priority will be given to ensuring there is adequate provision of clinical nurse specialists, and effective systems will be in place so that care is seamless from a patient's perspective. There should be adequate provision of psychological support for patients, their families and carers, and a new national cancer survivorship initiative will be established to improve the ongoing support available to people who have been treated for a cancer. This initiative will include patients who are living with progressive disease and may be receiving treatment but are not in the terminal phase of illness.

In addition, to improve the care and experience of all cancer patients, we need to collect good quality information on cancer services and outcomes, which can be analysed and published in such a way that is useful to patients, commissioners, service providers and other interested parties. To co-ordinate this, a national cancer intelligence network (NCIN) will be developed, building, maintaining and quality assuring a new national repository of cancer data. One of the early products expected from the NCIN will be an evaluation of services for secondary cancer patients in specific tumour areas, including breast cancer.

Cardiovascular System: Health Services

Sandra Gidley: To ask the Secretary of State for Health what steps are being taken to ensure that national guidance on cardiovascular disease risk assessment and management, with particular reference to the Joint British Societies guidelines (JBS2) on cardiovascular disease prevention in clinical practice, is implemented at a primary care level. [177506]

Ann Keen: The Joint British Societies Guidelines on cardiovascular disease prevention in clinical practice have not been adopted by the Department of Health as national policy. This was made clear in a letter from Professor Roger Boyle, the National Clinical Director for Heart Disease and Stroke sent to the national health service in November 2006. A copy of this letter has been placed in the Library.

Cardiovascular System: Screening

Sandra Gidley: To ask the Secretary of State for Health (1) what progress has been made by the Department of Health Vascular Programme Board in reviewing recommendations from the National Screening Committee on vascular risk assessment; and when the results of the review will be published; [177416]

(2) whether modelling of the economic consequences of different approaches to risk factor assessment and management has been undertaken and the options and the implications for NHS implementation considered as recommended by Sir Muir Gray and the National Screening Committee; [177418]

(3) what progress has been made in the Department's consideration of a more integrated approach to vascular risk assessment and management since the publication of the National Institute for Health and Clinical Excellence's draft guidance on lipid modification. [177419]

Ann Keen: As announced by the Prime Minister in his speech about the national health service on 7 January, the Department will in the next few months bring forward proposals for a screening programme in the NHS to assess people for risk of vascular disease, including heart disease, stroke, kidney disease and diabetes. This is a complex area, which requires a critical and systematic review of the evidence for a vascular risk assessment. The impetus for this work came in part from the National Screening Committee's (NSC) recommendations, as well as from the chief medical officer's department in the Department of Health. When the current phase of analysis and modelling yields its results, we intend to use it as part of our consultation with stakeholders on the development of these proposals. The work of the National Institute for Health and Clinical Excellence on lipid modification is of considerable relevance to our plans for a wider programme of vascular risk assessment and we expect the two to be wholly complementary.

Cervical Cancer: Screening

Sandra Gidley: To ask the Secretary of State for Health whether the process of liquid based cytology has now been implemented by all 142 laboratories that process cervical screening. [177415]

Ann Keen: As of November 2007, 88 per cent. of laboratories that process cervical screening samples in England had converted to liquid based cytology (LBC).

All primary care trusts have indicated that they will have introduced LBC by October 2008, in line with National Institute of Health and Clinical Excellence and departmental guidance.

The number of inadequate tests has fallen from 9 per cent. in 2004-05 to 4.7 per cent. in 2006-07 as a direct result of the continued roll-out of LBC.

Clostridium

James Duddridge: To ask the Secretary of State for Health what assessment he has made of the effectiveness of organic probiotics in tablet form in reducing the risk of developing *Clostridium difficile*. [177517]

Ann Keen: There is currently insufficient clinical evidence to support the use of probiotics in any form for the prevention of *Clostridium difficile* infection.

Community Care: MRSA

Mr. Drew: To ask the Secretary of State for Health what research he has commissioned or funded on home-based care for patients with *(a)* MRSA and *(b)* clostridium difficile. [177633]

Ann Keen: The Department of Health has not commissioned or supported any research on home based care for patient with methicillin resistant "Staphylococcus aureus" (MRSA) or "Clostridium difficile" to date.

However, we know that some national health service organisations are investigating the options for more home based care in relation to patients with MRSA.

Confectionery

Mrs. James: To ask the Secretary of State for Health what legislation governs the sale of confectionery that contains alcohol. [179191]

Mr. Sutcliffe: I have been asked to reply.

In addition to the legislation covering the sale of goods and foodstuffs generally, there is also specific legislation under article 14 of Regulation (EC) 178/2002 which requires that the confectionery should not be unsafe, i.e. injurious to health or unfit for human consumption.

Furthermore, section 191 of the Licensing Act 2003 defines 'alcohol' for licensing purposes and includes a provision setting the maximum concentration of alcohol that may be sold in liqueur confectionery without an authorisation under the Act. This definition also applies in relation to offences of selling alcohol to minors (section 147), the consumption of alcohol by minors (section 150), delivering alcohol to minors (section 151), sending a child to obtain alcohol (section 152) and unsupervised alcohol sales by children (section 153). Additionally, section 148 of the 2003 Act creates offences of selling or supplying liqueur confectionery to children under 16.

Crimes of Violence: Mental Health Services

Anne Milton: To ask the Secretary of State for Health if his Department will undertake research on whether there is a relationship between numbers of violent attacks on patients and staff in mental health wards and numbers of available beds on mental health wards. [178007]

Mr. Ivan Lewis: The Department is not aware of evidence to suggest such a relationship and is not convinced that commissioning such research would be an effective use of resources.

Dental Services: Leicester

Sir Peter Soulsby: To ask the Secretary of State for Health what plans he has to increase the number of NHS dentists in Leicester. [177934]

Ann Keen: The dental reforms implemented in 2006 gave PCTs, for the first time, the responsibility for providing or commissioning dental services in their area. It is for PCTs to assess local needs, review current service provision and develop services to meet local needs. This information can therefore be obtained directly through the Leicester City Primary Care Trust.

Numbers of national health service dentists at primary care trust (PCT) and strategic health authority (SHA) level as at 31 March 1997 to 2006 are available in Annex E of the "NHS Dental Activity and Workforce Report, England: 31 March 2006".

This information is based on the old contractual arrangements. This report, published on 23 August 2006, is available in the Library and is available also at:

www.ic.nhs.uk/statistics-and-data-collections/primary-care/dentistry/nhs-dental-activity-and-workforce-report-england-31-march-2006

The numbers of NHS dentists at PCT and SHA level as at 30 June, 30 September, 31 December 2006 and 31 March 2007 are available in Table E1 of Annex 3 of the "NHS Dental Statistics for England: 2006-07" report. This information is based on the new dental contractual arrangements, introduced on 1 April 2006.

This report, published on 23 August 2007, is available in the Library and is also available at:

http://www.ic.nhs.uk/pubs/dental0607

The inclusion of dentists on trust led contracts in the data collection following the 2006 reforms means that data collected since April 2006 cannot be directly compared with data collected under the previous system.

The methodology and frequency for reporting work force information are currently being reviewed. The purpose of the review is to ensure that, following experience of the first year of the new dental contract, figures provide an appropriate measure of the work force, given the way that the work force reporting system is being used by PCTs. An update on the review will be provided in the quarter 2 publication, due to be published in February 2008.

Both reports have been published by the Information Centre for health and social care.

Departmental Christmas Cards

Mr. Burns: To ask the Secretary of State for Health how much his Department spent on *(a)* Christmas cards and *(b)* postage of Christmas cards in 2007. [176920]

Mr. Bradshaw: The amount the Department spent on purchasing Christmas cards for 2007 (inclusive of VAT) was £4,478.27.

All expenditure incurred in the purchase and postage of official Christmas cards is made in accordance with the Department's guidance on financial procedures and propriety, based on principles set out in government accounting.

Separate figures for postage costs are not available, as some cards would have been included with other correspondence or would have been hand-delivered. The vast majority of those that were not included with correspondence were sent using second-class post.

Departmental Contracts

Jim Cousins: To ask the Secretary of State for Health what the *(a)* objective and *(b)* value was of each contract placed with (i) Deloitte & Touche, (ii) Ernst & Young, (iii) KPMG, (iv) PricewaterhouseCoopers and (v) PA Consulting by his Department and its agencies in each year since 2004-05. [179025]

Mr. Bradshaw: The Department does not collect information on consultants in the format requested. To do so would attract disproportionate cost.

A new system will be introduced in April 2008 called SHOWA, which will be able to gather such information for the Department.

Departmental Public Expenditure

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 4 December 2007, *Official Report*, column 1118W, on departmental public expenditure, how much *(a)* near cash, *(b)* non cash and *(c)* capital expenditure was moved from each year; and to which year it was moved in the reprofiling of the Department's budgets. [178012]

Mr. Bradshaw: I refer the hon. Member to the answer given on 3 September 2007, *Official Report*, column 1867W to the hon. Member for Fareham (Mr. Hoban).

Mr. Lansley: To ask the Secretary of State for Health pursuant to paragraph 6.2 of his Department's resource accounts for 2006-07, for what reason the setting up of individual budget pilots was delayed; and by how long. [178272]

Mr. Bradshaw: The individual budgets underspend reported in the Department's resource accounts was not due to any delay in setting up the pilots as mistakenly stated. Unspent funds in 2006-07 were carried forward for use to 2007-08.

Mr. Lansley: To ask the Secretary of State for Health pursuant to paragraph 12, page 33 of his Department's resource accounts for 2006-07, which risks were *(a)* added to and *(b)* removed from his Department's high-level risk register in 2006-07. [178276]

Mr. Bradshaw: The "Department of Health Departmental Report 2007" contains examples of key risk areas included on the Department's risk register during 2006-07. A copy of the report is available in the Library.

The Department's risk register is a live document which is continuously updated and informs advice to Ministers from senior officials in the Department, and discussions between the Department and top management in the national health service and social care about key issues in policy, resourcing and service management and development. The risk register is not a public document.

Mr. Lansley: To ask the Secretary of State for Health pursuant to paragraph 10, page 60 of his Department's resource accounts for 2006-07, if he will break down the other non-cash items charged to operating expenditure. [178283]

Mr. Bradshaw: Other non-cash expenditure of £5,548,000 credited to operating expenditure can be analysed as follows;

credit of £5,750,000 in respect of an investment in Partnerships for Health previously charged to operating expenditure in 2005-06;

credit of £37,000 in respect of additional staff loans being brought onto the Department's balance sheet; and

charge of £238,000 in respect of consolidated fund extra receipts receivable incorrectly included in the 2005-06 accounts and amended in 2006-07.

Mr. Lansley: To ask the Secretary of State for Health pursuant to paragraph 10, page 60 of his Department's resource accounts for 2006-07, what stock items his Department was required to write-off; what bad debt expenses occurred; and what the value of each item was in each category. [178284]

Mr. Bradshaw: The stock write-off and bad debt expenses of £3,728,000 can be analysed as follows;

£2,096,000 stock write off is in respect of childhood vaccines that had date expired or were damaged and unusable.

£1,515,000 write-off of development costs for seven national decontamination of surgical instruments schemes

99 minor claims totalling £117,000 have been abandoned on value for money grounds.

Mr. Lansley: To ask the Secretary of State for Health pursuant to the publication of the NHS in England's Operating Framework for 2008-09, how much of the addition to his Department's baseline expenditure in 2008-09, set out on page 207 of the 2007 Pre-Budget Report and Comprehensive Spending Review, has not been allocated to primary care trusts, broken down into resource and capital resources. [178291]

Mr. Bradshaw: The following table shows the current disposition of additional funds for 2008-09.

Increases in national health service funding in 2008-09

£ billion

	Total	Allocated to primary care trusts (PCTs)
Total funding growth	6.2	
Capital[1]	0.4	0
Revenue[2]	5.8	3.8

[1] We do not allocate capital to PCTs.
[2] Additional elements of revenue will be allocated to NHS bodies but budgets and allocation mechanisms are not yet finalised.

Departmental Recycling

Mr. Hayes: To ask the Secretary of State for Health how much and what proportion of its waste his Department recycled in each of the last five years. [174422]

Mr. Bradshaw: On 12 June 2006, the Prime Minister and my right hon. Friend the then Secretary of State for the Environment, Food and Fisheries (David Miliband) announced revised sustainable operations targets for the Government estate. They focus on key areas such as carbon neutrality and emissions, energy efficiency, waste and water consumption.

The 2006 estate targets include:

Recycling

Departments to increase their recycling figures to 40 per cent. of their waste arisings by 2010 and to 75 per cent. of their waste by 2020.

These targets will apply for the reporting period April 2006 to March 2007 onwards.

Previous Government targets that applied to the Government estate were launched in March 2004 but have since been superseded by the new targets.

The Department has consistently exceeded the targets. Our performance over the past five years is as follows:

	Waste arisings (tonnes)	Proportion recycled (percentage)
2001-02	n/a	n/a
2002-03	908.69	79
2003-04	918.95	65
2004-05	1,152.76	68
2005-06	635.48	85

All figures exclude information technology (some is refurbished and resold; the rest is dismantled and disposed of in accordance with legislation)

Figures are not directly comparable from one year to another. Staff have moved from buildings where waste collected by departmental contractors to buildings managed by other Government Department (who include our staff in their returns). In addition, in some buildings waste streams have been added to what was previously collected under the departmental contract.

Figures for earlier years are less reliable than more recent figures.

Figures include the main departmental London estate, and departmental agencies.

The 2006 report is available at: www.sd-commission.org.uk/sdig2006/ and the 6th annual report is due to be published in spring 2008.

Departmental Standards

Mr. Lansley: To ask the Secretary of State for Health pursuant to paragraph 11, page 33 of his Department's resource accounts for 2006-07, to what extent each of his Department's five assurance standards were met in 2006-07, broken down by directorate. [178275]

Mr. Bradshaw: The Statement of Internal Control sets out how the Department has met the assurance standards and the control issues identified.

Mr. Lansley: To ask the Secretary of State for Health pursuant to paragraph 33, page 36 of his Department's resource accounts for 2006-07, what the 199 significant control issues were, broken down by reporting trust. [178280]

Mr. Bradshaw: The 199 significant control issues reported by national health service trusts and primary care trusts in their Statements of Internal Control for 2006-07, and referred to in the Department's resource accounts for 2006-07, a copy of their statements has been placed in the Library.

Family Practitioner Services: Barnet

Mr. Dismore: To ask the Secretary of State for Health what progress has been made in arrangements for GPs in Barnet to make direct referrals for diagnostic services; and if he will make a statement. [178165]

Mr. Bradshaw: This information is not collected centrally.

It is for local health communities to work together to decide the best setting to deliver diagnostic services for their patients. However, direct access to diagnostics from primary care can help with delivery of the 18 weeks target by improving the quality of referrals to secondary care by reducing the number of unnecessary referrals to secondary care outpatient clinics, and

removing unnecessary steps from the patient pathway. A number of initiatives are underway to support direct access diagnostics.

The payment by results for 2008-09 contains a number of indicative tariffs to support unbundling of services, for example for imaging scans. Unbundling diagnostics provides incentives for primary care trusts to commission diagnostics via direct access prior to referral.

The 18 weeks team have been working with clinical colleagues to develop commissioning pathways to support commissioners in challenging existing practice and transform services. The pathways, developed in conjunction with clinical colleagues, are based on best practice and include direct access diagnostics where this is appropriate.

Fractures

Lynne Jones: To ask the Secretary of State for Health what assessment he has made of the clinical efficacy of fracture liaison services to ensure patient concordance with medicines regimens which help prevent secondary fracture. [179181]

Ann Keen: We have made no assessment of the clinical efficacy of fracture liaison services.

Gastrointestinal System: Health Services

Mr. Lansley: To ask the Secretary of State for Health how many patients with each type of gastroenterological condition were seen by a consultant within 18 weeks of referral in the latest period for which figures are available. [178047]

Ann Keen: Referral to treatment data are not collected at a procedure level. The following table shows October 2007 referral to treatment data for the treatment function gastroenterology.

Referral to treatment data October 2007

				Completed within 18 weeks	
Treatment function	*Pathway type*	*Total number of completed pathways in October*	*Total with known referral date*	*Number of pathways*	*Percentage of pathways*
Gastroenterology	Admitted	10,881	7,905	6,699	85
	Non-admitted	16,816	15,581	11,206	72

Notes:
1. "Admitted patients" those admitted to hospital for definitive treatment, usually an operation.
2. "Non-admitted patients" those treated or otherwise without requiring admission e.g. those treated as out-patients.

Health Services: Overseas Visitors

Mr. Stephen O'Brien: To ask the Secretary of State for Health when he will publish his review of the rules governing access to the NHS by foreign nationals. [174315]

Dawn Primarolo: On 7 March 2007 the Home Office published Enforcing the rules: A Strategy to ensure and enforce compliance with our immigration laws. The DH is working with the Home Office on this review.

When the review is completed, the Home Office will be holding a public consultation in spring 2008.

Health Services: Screening

Mr. Lansley: To ask the Secretary of State for Health which organisations were consulted on screening for *(a)* heart disease, *(b)* kidney disease, *(c)* stroke and *(d)* diabetes prior to the Prime Minister's announcement of a new screening programme for these conditions on 8 January 2008. [178255]

Ann Keen: When proposals for a vascular screening programme have been developed further the Department intends to consult with various stakeholders including the National Screening Committee, the National Institute for Health and Clinical Excellence and a number of interested groups such as leading voluntary groups.

Mr. Lansley: To ask the Secretary of State for Health what estimate his Department has made of *(a)* the number of additional medical personnel, *(b)* the quantity of additional scanning equipment and *(c)* the increased analysis laboratory capacity required to deliver his Department's screening programme for (i) heart disease, (ii) kidney disease, (iii) stroke and (iv) diabetes. [178257]

Ann Keen: These assessments form part of the modelling work on the clinical and cost-effectiveness of a systematic, population-wide vascular risk assessment and management programme that is currently being carried out by the Department's analysts.

Mr. Lansley: To ask the Secretary of State for Health what estimate he has made of the cost of an individual screening for *(a)* heart disease, *(b)* kidney disease, *(c)* stroke and *(d)* diabetes. [178258]

Ann Keen: There is a departmental project currently under way to assess costs and benefits of an integrated, systematic population-wide vascular risk screening programme.

Mr. Lansley: To ask the Secretary of State for Health how much his Department plans to spend in each financial year until 2010-11 on advertising and education campaigns to encourage people to take up the offer of screening for *(a)* heart disease, *(b)* kidney disease, *(c)* stroke and *(d)* diabetes. [178260]

Ann Keen: The exact nature of a vascular risk assessment and management programme is still the subject of developmental work. It would be premature at this stage to set out specific spending figures on advertising and education campaigns.

Mr. Lansley: To ask the Secretary of State for Health what estimate his Department has made of the likely take-up of *(a)* universal and *(b)* targeted screening programme for (i) heart disease, (ii) kidney disease, (iii) stroke and (iv) diabetes. [178261]

Ann Keen: Take-up rates for a new service are, by their nature, unpredictable and will depend on the details of what is offered to whom, which will be worked out in part in discussions with stakeholders. However, a range of assumptions about likely take-up levels of a vascular risk assessment programme will be modelled into the analytical work being undertaken by the Department. Assumptions about likely take-up will also form part of the discussions we will have with stakeholders about the development of the practical aspects of the programme.

HealthSpace

Mr. Lansley: To ask the Secretary of State for Health how many patients have registered with HealthSpace in each year since it was established. [179129]

Mr. Bradshaw: Information is not held in the form requested. As at 10 January 2008, there were some 26,300 HealthSpace accounts.

Hospital Treatment Target

Mr. Dismore: To ask the Secretary of State for Health (1) what progress is being made towards the 18 week hospital treatment target in Hendon; [178064]

(2) what progress has been made in meeting the 18 week hospital treatment target for patients in the Barnet primary care trust area; and if he will make a statement. [179014]

Mr. Bradshaw: The information requested is not held centrally. However, referral to treatment (RTT) times for admitted pathways (RTT times for patients whose 18 week clock stopped during the month with an inpatient/day case admission), and for non-admitted pathways (RTT times for patients whose 18 week clock stopped during the month for reasons other than an inpatient/day case admission) in the Barnet primary care trust area from January 2007 to October 2007 can be found in the following table.

By December 2008, no one should have to wait more than 18 weeks from the time they are referred by their general practitioner (GP) to the start of their treatment unless it is clinically appropriate to do so or they choose to wait.

The national health service began measuring waits for GP referral to start of consultant led treatment from January 2007. This allows the Department and the NHS to monitor and track progress towards the maximum 18 week wait.

RTT data published on 10 January 2008 show that in October 2007, 60 per cent. of admitted patients waited no more than 18 weeks for their treatment following the initial referral by their GP—an improvement on snapshot figures released in December 2006, which showed that 35 per cent. of patients received treatment within 18 weeks. The figure for non-admitted patients for October was 77 per cent.

Referral to treatment data for Barnet PCT

	January 2007	*February 2007*	*March 2007*	*April 2007*	*May 2007*	*June 2007*	*July 2007*	*August 2007*	*September 2007*	*October 2007*
Admitted pathways										
Percentage of pathways completed within 18 weeks	35	34	35	35	43	36	36	38	42	54
Data completeness	—	—	48	51	47	41	36	75	527	70
Non-admitted pathways										
Percentage of pathways completed within 18 weeks	60	88	69	68	68	68	66	65	66	62
Data completeness	—	—	—	—	—	—	—	69	57	52

Monthly Referral To Treatment Data Collection.

Hospitals: Waiting Lists

Mark Simmonds: To ask the Secretary of State for Health if he will estimate the cost to the NHS of collecting figures for *(a)* inpatient and *(b)* outpatient waiting times in 2007-08. [175571]

Mr. Bradshaw: There are no figures available on the monetary cost of collecting figures on waiting times. However, the review of central returns process estimates the burden in terms of person years. The current estimated burden for providing monthly and quarterly inpatient and outpatient waiting times figures is 10.8 person years in total, 6.6 years for outpatients and 4.2 years for inpatients.

Inflammatory Bowel Disease: Drugs

Mr. Lansley: To ask the Secretary of State for Health what the drug budget for the treatment of inflammatory bowel conditions is in *(a)* England and *(b)* each strategic health authority area in 2007-08. [178036]

Ann Keen: Primary care and national health service trust drugs budgets are not determined centrally and therefore there are no drugs budgets for the treatment of inflammatory bowel conditions centrally. Trusts are responsible for setting their own budgets, decisions on the level of funding will depend on local priorities.

Learning Disability: Health Services

Stephen Hesford: To ask the Secretary of State for Health what steps his Department is taking to improve inpatient health care services for people with learning difficulties, with particular reference to Wirral West constituency; and if he will make a statement. [179160]

Mr. Ivan Lewis: The Department recognises that people with learning disabilities or mental health problems have faced significant physical health inequalities. "Promoting Equality", published in March 2007, set out the Department's action plan to tackle the inequalities experienced by people with learning disabilities in accessing primary care.

Since its publication the Department has:

developed and published a framework to support primary care trusts (PCTs) in commissioning primary care services for people with learning disabilities, including annual health checks;

developed a preferred framework for health checks, which the valuing people support team will be promoting at regional events this autumn; and

published guidance on the commissioning of specialist learning disability health services.

The Department has worked with the Disability Rights Commission to take forward the actions outlined in "Promoting Equality" and will continue to work with the new Commission for Equalities and Human Rights.

Guidance on the commissioning of specialist learning disability health services was published in October 2007 by the Department. To support the dissemination of the guidance and address the issues raised by the Healthcare Commission audit, the valuing people support team within the Care Services Improvement Partnership (CSIP), in conjunction with the Healthcare Commission, have planned three events across the country.

The events will be held in February and March and are aimed primarily at commissioners and providers. The events will cover the roll-out of the guidance and how it can be used to help respond to the issues raised by the audit. The events are intended to provide commissioners and providers with the necessary information to address any concerns in their locality.

The North West strategic health authority reports that Wirral PCT has recently published a five-year strategy identifying services for people with learning disabilities as a priority. An additional £0.5 million will be invested over the period of the strategy. Since 1999, the Wirral PCT and the Cheshire and Wirral Partnership NHS Foundation Trust have invested in the refurbishment and new build of two assessment and treatment units, with one further new unit scheduled to be completed in November 2009.

A number of initiatives are under way; for example, close working between inpatient units and specialist community services and primary care services to ensure a seamless service for people with learning disabilities.

Local services are benchmarked against the Healthcare Commission recommendations following inquiries into services at the Cornwall Partnership NHS trust and Sutton and Merton PCT. An action plan is being implemented to ensure high quality services for people with learning disabilities.

Medical Treatments: Waiting Lists

Mr. Jim Cunningham: To ask the Secretary of State for Health what steps the Government has taken to reduce referral to treatment waiting times since 1997. [179567]

Mr. Bradshaw *[holding answer 17 January 2008]*: This Government have taken a variety of steps to reduce referral to treatment (RTT) times, underpinned by record levels of investment and delivered through the hard work of national health service staff. Initially focused on reducing waits for individual stages of treatment, these include:

delivering a pledge to reduce the waiting list by 100,000. The waiting list is now at its lowest level since records began;

reducing the number of patients waiting over 13 weeks for a first out-patient appointment following general practitioner referral from over 338,000 in 1997 to less than 100 at the end of November 2007;

reducing over six month in-patient waits from over 283,000 in 1997 to 77 at the end of November 2007; and

introducing a diagnostic waiting time data collection, which has seen a reduction in the average waiting time from 6.8 weeks in April 2006 to 2.9 weeks at the end of November 2007.

These improvements have laid a solid base on which to reduce RTT times for all consultant-led elective care to a maximum of 18 weeks by December 2008. Latest data show that this pledge is already being delivered to over half of all admitted patients (patients who require admission to hospital for treatment) and over three quarters of non-admitted patients.

Mental Health Services: Greater London

Mr. Dismore: To ask the Secretary of State for Health if he will make a statement on Barnet, Enfield and Haringey Mental Health Trust's plans for foundation trust status. [178071]

Mr. Bradshaw: Barnet, Enfield and Haringey Mental Health National Health Service Trust's public consultation for NHS foundation trust (NHSFT) status is due to be completed on 16 January 2008. We are informed that the trust will then discuss the timescale for continuing their application for NHSFT status with NHS London.

Midwives: Manpower

Anne Milton: To ask the Secretary of State for Health what assessment he has made of the effect of the fertility rate projections published by the Office for National Statistics on 23 October 2007 on *(a)* future workforce requirements for midwifery and *(b)* the number of places provided for student midwives in the future. [177977]

Ann Keen: Local national health service organisations are responsible for the development of maternity services, ensuring that they meet the future needs of their local population and that there are sufficient staff, with the right skills.

The 2007-08 Operating Framework requires all NHS organisations to undertake a review of their maternity services, which included primary care trusts (PCTs) assessing the work force capacity required to deliver 'Maternity Matters'. We have built on this requirement within the Operating Framework 2008-09, which states

"that PCTs should aim to ensure that sufficient numbers of maternity staff and neo-natal teams are in place to meet local needs".

Local plans will need to consider a range of issues, including the projected number of births in their area to determine the work force capacity required to support the increased number of births and the implementation of 'Maternity Matters'.

NHS: Administration

Mr. Jim Cunningham: To ask the Secretary of State for Health what steps the Government has taken to improve record-keeping systems in the NHS since 1997. [179568]

Mr. Bradshaw *[holding answer 17 January 2008]:* The national health service information governance toolkit, established in 2003, is a web-based resource developed by the Department, which enables NHS organisations to measure their compliance with a range of information governance requirements and best practice, including standards in records management. In this respect it is underpinned by the Department's best practice guidance – "Records Management: NHS Code of Practice", published in April 2006, and supports the Healthcare Commission's NHS Standards for Better Health, many of which require quality and integrity of record-keeping systems.

Those bodies responsible for external monitoring of NHS performance, for example strategic health authorities and the Healthcare Commission, play a key role in ensuring that effective systems are in place to ensure conformity with the relevant requirements and standards.

NHS: Debts

Mr. Stephen O'Brien: To ask the Secretary of State for Health when he intends to write off the debt of trusts in the financially challenged trust regime. [174834]

Mr. Bradshaw: There are no plans to write off the debts of the organisations within the financially challenged trust regime.

NHS: Manpower

Mr. Hancock: To ask the Secretary of State for Health on what dates, in each of the last five years, the NHS hospital and community health services non-medical workforce census was published; and on what date this year's publication is expected to be published. [177370]

Ann Keen: The national health service hospital and community health services non-medical work force census results are scheduled for publication in March. The publication date will be confirmed in February.

The 2006 census results were published on 26 April 2007, 2005 results on 24 April 2006, 2004 results on 22 March 2005, 2003 results on 19 March 2004 and 2002 results on 24 June 2003.

Obesity

Mr. Lansley: To ask the Secretary of State for Health how many staff in his Department worked on the prevention and management of obesity in each of the last five financial years for which figures are available, broken down by payband. [179120]

Dawn Primarolo: Obesity is a complex, multi-factoral problem. Given the complexity and scale of the problem and the requirement for comprehensive action, the Department's obesity, nutrition and physical activity teams have worked jointly with a large number of different partners, including Government at central and local level and external stakeholders such as the commercial and voluntary sectors, on the prevention and management of obesity.

Obesity: North West Region

Stephen Hesford: To ask the Secretary of State for Health what studies his Department has commissioned into child obesity levels in the North West and their implications for the future health of people in the region. [179159]

Dawn Primarolo: The prevalence of childhood obesity is measured in the North West through the National Child Measurement Programme. This is a national programme through which the height and weight of children in reception (four and five-year-olds) and year 6 (10 and 11-year-olds) throughout the country are measured. This data is used to inform local planning and commissioning of services for children as well as providing population-level surveillance data to allow analysis of trends in growth patterns and obesity.

Assessment of the potential health impact will be made through a range of national studies. In particular, the Department has established the National Child Measurement Programme (which will report North West figures in 2008) as well as the Health Survey for England to measure obesity levels throughout England.

The North West strategic health authority reports that there are a number of actions being taken forward locally to help reduce overweight and obesity in the North West. This includes the development of two e-learning modules to provide flexible learning for front-line primary care staff in the region to enable them to support patients to reduce their levels of weight and obesity. The aim of these are to ensure that important messages about diet, physical activity and behavioural changes are consistent, high quality and that interventions are based in primary care settings across the North West.

Osteoporosis

Mark Hunter: To ask the Secretary of State for Health what steps his Department has taken to improve the *(a)* level, *(b)* quality and *(c)* accessibility of information and support offered to people with osteoporosis in the last 12 months. [179576]

Ann Keen *[holding answer 17 January 2008]:* We have taken no specific steps in the last 12 months to improve the level, quality or accessibility to information and support offered to those living with osteoporosis.

Osteoporosis: Stockport

Mark Hunter: To ask the Secretary of State for Health (1) what assessment he has made of the *(a)* level, *(b)* quality and *(c)* accessibility of information and support offered to people with osteoporosis in (i) the Stockport Primary Care Trust area and (ii) England; [179574]

(2) what assessment has been made of the effectiveness of provision of treatment for osteoporosis in *(a)* the Stockport Primary Care Trust area and *(b)* England. [179575]

Ann Keen *[holding answer 17 January 2008]:* We have made no assessment of the level, quality and accessibility of information and support, or the effectiveness of the provision of treatment, for those people living with osteoporosis in the Stockport primary care trust area, or in England.

Oxygen: Medical Equipment

Dr. Cable: To ask the Secretary of State for Health how many NHS patients are dependent upon oxygen cylinders; and how many were so dependent in each of the last three years. [179971]

Ann Keen *[holding answer 17 January 2008]:* Prior to the introduction of the new home oxygen service on 1 February 2006, patients received their oxygen through pharmacies and oxygen concentrator suppliers. Patient data prior to the introduction of the new service in 2006 are not held centrally.

The full transition to the new service was completed in November 2006. During transition the pharmacies continued to supply patients, therefore records from this period do not accurately reflect patient numbers. The first accurate patient data are available from January 2007 onwards. These data reflect the total number of patients receiving oxygen at home.

	January 2007	*January 2008*
Total number of patients in England	74,000	82,000
Total number of patients in Wales	7,000	7,000

Dr. Cable: To ask the Secretary of State for Health which companies supply oxygen cylinders and oxygen to the NHS; and what minimum standards of service are required of them. [179974]

Mr. Bradshaw *[holding answer 17 January 2008]:* The current suppliers to the Home Oxygen Service are Air Products, Air Liquide and BOC. Air Liquide acquired Linde UK Gas on 31 May 2007, and Allied Respiratory on 30 September 2007, who were previous additional oxygen suppliers.

With the introduction of the new Home Oxygen Service on 1 February 2006, the service contract requires the suppliers to meet specific response times for each oxygen service provided under the contract.

These are:

emergency or urgent supply of oxygen to be delivered within four hours of receipt of an order from a healthcare professional;

an order supporting the discharge of a patient from hospital to be delivered on the day following receipt of the order or on a date specified by the healthcare professional in the order; and

an order for short burst oxygen therapy, long-term oxygen therapy, or an ambulatory oxygen service to be provided within three working days of receipt of an order either from a healthcare professional or from the patient directly.

Each supplier must meet these service requirements under the terms of the contract and delivery times are a key indicator used in monitoring supplier performance.

Patient Choice Schemes: Barnet

Mr. Dismore: To ask the Secretary of State for Health how many and what percentage of Barnet patients' appointments were made through the choose and book system in *(a)* 2006-07 and *(b)* 2007-08 to date; and if he will make a statement. [179015]

Mr. Bradshaw: The number and percentage of Barnet primary care trust's general practitioner (GP) referrals to first out-patient appointments booked through the choose and book system was 13,634 (20 per cent.) in 2006-07 and 14,364 (25 per cent.) in the first nine months of 2007-08 (April to the end of December). This compares with national averages of 27 per cent. in 2006-07 and 39 per cent. in 2007-08 to date.

Patients: Television

Stephen Hesford: To ask the Secretary of State for Health what estimate he has made of the average charge made to hospital patients to access personal television facilities; and what steps hospitals are taking to ensure that use of such facilities does not have an adverse effect on other patients. [179157]

Mr. Bradshaw: The Department has not estimated the average charge to patients to access personal television services in hospitals.

The service providers set their own charges. The Department is not party to the contracts which exist between the service providers and the individual national health service trusts. If patients do not wish to or are unable to afford the cost of the bedside television, they can still watch the free to view television in the hospital day room or communal areas.

It is a matter for each individual trust and the service providers to ensure that the bedside systems are operated with minimum disruption to other patients. Each bedside system is equipped with personal headphones to ensure that noise from the television is kept to a minimum and the screens can be turned off when not in use.

Primary Care Trusts and NHS Reconfigurations

Norman Lamb: To ask the Secretary of State for Health (1) whether he has asked primary care trusts to inform him of consultations and formal reviews which they hold into the future provision of services; [177201]

(2) if he will place in the Library reconfiguration returns from the NHS from the last 12 months. [177202]

Ann Keen: Proposals for the reconfiguration of services are a matter for the national health service locally, working in conjunction with clinicians, patients and other stakeholders.

Primary care trusts do not inform the Secretary of State of the outcomes of consultations and formal reviews which they have held into the future provision of services. Consequently, no returns relating to local consultations have been placed in the Library.

Psychological Therapist: Training

Mr. Harper: To ask the Secretary of State for Health what his estimate is of the average time taken to train a psychological therapist in the latest period for which figures are available; and what the average cost was of such training. [177239]

Mr. Ivan Lewis: The information is not available centrally in the format requested. Psychological therapy encompasses a number of different disciplines and the associated training varies in time and cost.

Sheep Meat: Safety

Mrs. Gillan: To ask the Secretary of State for Health how many successful prosecutions there have been in the UK over the last 10 years for the preparation, marketing or selling of prepared sheep meat known as smokies; and what sentences or penalty was imposed in each case. [179623]

Dawn Primarolo: Information on this type of enforcement action undertaken by local authorities is not held centrally.

Smoking: Health Services

Mark Simmonds: To ask the Secretary of State for Health what each primary care trust's budget for smoking cessation services was in each of the last five years; and if he will make a statement. [175574]

Dawn Primarolo: The following table shows primary care trust (PCT) stop smoking services allocations from the Department's central budget programme which were included alongside their general revenue allocations for the last five years between 2003-04 and 2007-08.

The 'Choosing Health' White Paper funding separately identified in 2006-07 and 2007-08 PCT revenue allocations to support implementation of various public health initiatives included an additional £5 million each year for PCT stop smoking services. PCTs were informed of their shares of the total White Paper funding rather than their allocations for each initiative.

PCT allocations for stop smoking services between 2003-04 and 2007-08

£000

CHILDREN, SCHOOLS AND FAMILIES

Academies

Mr. Laws: To ask the Secretary of State for Children, Schools and Families whether his Department will publish the 10 Downing Street Delivery Unit report on academies; and if he will make a statement. [166468]

Jim Knight: I refer the hon. Member to my reply to his questions 165167, 165168 and 165169 on 19 November 2007, *Official Report*, column 624W.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families (1) whether he plans to make a statement on the conclusions of the Delivery Unit Report on academies; [169832]

(2) if he will list the *(a)* officials, *(b)* special advisers and *(c)* Ministers who attended the Academies Seminar on 1 November 2007. [169833]

Jim Knight: I refer the hon. Member to my reply to his questions 165167, 165168 and 165169 on 19 November 2007, *Official Report*, column 624W. No special advisers attended the seminar referred to.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families if he will publish the outcome of the review of academies which concluded on 4 January 2008. [177827]

Jim Knight: I refer the hon. Member to my reply to his questions 165167, 165168 and 165169 on 19 November 2007, *Official Report*, column 624W.

Academies: Curriculum

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many academies do not follow national curriculum programmes of study in *(a)* English, *(b)* mathematics, *(c)* science and *(d)* ICT; and if he will make a statement. [172106]

Jim Knight: The Department does not collect the information requested.

Academies: Finance

Mr. Clappison: To ask the Secretary of State for Children, Schools and Families how much funding was contributed to the academy programme by *(a)* companies and *(b)* other bodies, including non-profit-making organisations, in each year since the inception of the programme. [178993]

Jim Knight: Information on sponsors' contributions received to date towards academies' capital costs is given in the following table. In noting the contributions, which are made to academy trusts, the Department does not differentiate between those made by companies and those made by named individuals or other types of organisations, because evidence received from trusts does not identify the sponsor involved and many academies have more than one sponsor.

There may be some payments that have been made but are not recorded in the table as the relevant trusts have yet to submit evidence to the Department that sponsorship has been paid and used to meet capital costs.

We have now changed the sponsorship model and sponsors will now, in most cases, establish an endowment fund rather than contributing to capital costs. Detailed monitoring of such contributions will commence at the end of February 2008, in respect of contributions made in the first half of the 2007-08 academic year.

Academies may also receive other donations apart from sponsorship. The Department does not collect details of these, but they are recorded in academies' published accounts.

	Confirmed capital contribution from sponsors (£000)
2001-02	1,160
2002-03	2,958
2003-04	4,961
2004-05	12,091
2005-06	12,339
2006-07	15,723
Up to 31 December 2007	14,685
Total	63,917

Academies: Fire Extinguishers

Bob Russell: To ask the Secretary of State for Children, Schools and Families if he will make it a requirement for academy schools to be fitted with fire sprinkler systems in accordance with the guidance in Building Bulletin 100: Design for Fire Safety in Schools; and if he will make a statement. [179284]

Jim Knight: It is our expectation that all academies will now be designed to incorporate sprinklers. This is not a compulsory measure, but to demonstrate that sprinklers are not needed, the academy trust will need to be able to demonstrate that its buildings are low risk and that incorporation of sprinklers would not represent good value for money. For academies in the

Building Schools for the Future programme the decision to install sprinklers will be shared between the academy trust and the relevant local authority.

Bob Russell: To ask the Secretary of State for Children, Schools and Families how many academy schools have been fitted with fire sprinkler systems in accordance with the guidance in Building Bulletin 100: Design for Fire Safety in Schools. [179285]

Jim Knight: This information is not immediately available to the Department. However, we intend to gather the information and once this exercise is complete, I will write to the hon. Member.

Academies: Free School Meals

Mr. Laws: To ask the Secretary of State for Children, Schools and Families in which academies the proportion of pupils known to be eligible for free school meals is *(a)* higher and *(b)* lower than the corresponding proportion in the local school catchment area; and if he will make a statement. [176723]

Jim Knight: The annual School Census for January 2007 shows that of the 46 academies then open, 10—including four former city technology colleges (CTCs)—had a lower proportion of pupils known to be eligible for free school meals than the proportion living in the local authority area:

St Paul's Academy, Greenwich;
Burlington Danes Academy, Hammersmith and Fulham;
Habedashers' Aske's Hatcham Academy (former CTC);
Sandwell Academy, Sandwell;
Walsall Academy, Walsall;
Salford City Academy, Salford;
Dixons City Academy (former CTC), Bradford;
The Kings Academy, Middlesbrough;
Macmillan Academy (former CTC), Middlesbrough; and
Landau Forte College (former CTC), Derby.

The 36 academies with a higher proportion of pupils known to be eligible for free school meals than the proportion living in the local authority area are

Mossbourne Community Academy, Hackney;
Petchey Academy, Hackney;
Lambeth Academy, Lambeth;
Haberdashers' Aske's Knights Academy, Lewisham;
City of London Academy, Southwark;
the Academy at Peckham, Southwark;
Harris Academy, Bermondsey, Southwark;
Harris Girls' Academy, East Dulwich, Southwark;
Paddington Academy, Westminster;
Westminster Academy, Westminster;
London Academy, Barnet;
Business Academy, Bexley;
Capital City Academy, Brent;
West London Academy, Ealing;
Greig City Academy, Haringey;
Stockley Academy, Hillingdon;
Harefield Academy, Hillingdon;
Harris Academy, Merton;
St Mark's Church of England Academy, Merton;
Walthamstow Academy, Waltham Forest;
Grace Academy, Solihull;
the Academy of St Francis of Assisi, Liverpool;
North Liverpool Academy, Liverpool;
Manchester Academy, Manchester;
Barnsley Academy, Barnsley;
Trinity Academy, Doncaster;
Sheffield Park Academy, Sheffield;
Sheffield Springs Academy, Sheffield;
David Young Community Academy, Leeds;
the City Academy Bristol, City of Bristol;
Unity City Academy, Middlesbrough;
John Madejski Academy, Reading;
Gateway Academy, Thurrock;
Marlowe Academy, Kent;
Djanogly City Academy, City of Nottingham; and
Northampton Academy, Northamptonshire.

Details of the number and proportion of pupils eligible for free school meals in each academy and their local authorities are given in the following table.

			Academies		*Local authority*	
Predecessor academy	*Year open*	*Local authority*	*Number of pupils known to be eligible for free school meals*	*Percentage of pupils known to be eligible for free school meals*	*Number known to be eligible for free meals*	*Percentage known to be eligible for free meals*

[1] Former CTC.

Academies: Sponsorship

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what obligations are placed on new sponsors of academy schools; and if he will make a statement. [166106]

Jim Knight: When setting up an academy, the Department places requirements on the academy trust set up by the sponsor, rather than the sponsors themselves. The requirements are set out in the Funding Agreement and Deed of Gift. Copies of the model Funding Agreement and Deed of Gift have been placed in the House Library.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families if he will list the public-sector *(a)* sponsors and *(b)* co-sponsors of academies in each quarter since 1 January 2002. [172501]

Jim Knight: The names of public-sector sponsors and co-sponsors for open academies are shown in the following table. Information relates to the quarter in which each academy was opened.

Academy name	*Opening date*	*Sponsor*	*Co-sponsor*	*Opening quarter*
City of London Southward Academy	September 2003	Corporation of London	—	3rd quarter
Macmillan Academy	September 2005	Macmillan CTC	—	3rd quarter
Dixons City Academy	September 2005	Dixons CTC	—	3rd quarter
Madeley Academy	April 2007	Thomas Telford School (CTC)	—	2nd quarter
John Cabot Academy	September 2007	John Cabot CTC Trust	—	3rd Quarter
The Bristol Brunel Academy	September 2007	John Cabot Academy	—	3rd quarter
Marsh Academy	September 2007	Microsoft and Tonbridge School	Kent CC	3rd quarter
Leigh Technology Academy	September 2007	Leigh CTC	—	3rd quarter
Harris City Academy, Crystal Palace	September 2007	CTC Trust/Harris Federation of South London Schools Trust	—	3rd quarter
Cornwallis (name TBC), South Maidstone Federation	September 2007	Cornwallis Online Learning	Kent CC	3rd quarter
New Line Learning Academy	September 2007	Cornwallis Online Learning	Kent CC	3rd quarter

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many *(a)* public sector bodies and *(b)* local authorities (i) sponsored and (ii) co-sponsored academies prior to 1 May 2007; and if he will make a statement. [173241]

Jim Knight: Prior to 1 May 2007 Funding Agreements had been signed for academies where the Royal borough of Kensington and Chelsea and Kent county council were co-sponsors, and where the Corporation of London was the lead sponsor. In addition to these, Funding Agreements had been signed where the following public sector bodies are acting as lead sponsors of academies:

Macmillan City Technology College;

Dixons City Technology College;

Thomas Telford School;

John Cabot City Technology College;

Leigh City Technology College;

Harris City Technology College; and

Brooke Weston City Technology College.

Academies: Standards

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what powers are available to *(a)* his Department and *(b)* local authorities to deal with underperforming academies; and if he will make a statement. [163564]

Jim Knight: A range of possible measures available to the Department to deal with underperforming academies, similar to the range of interventions are available for dealing with other underperforming state-funded schools. These range from providing support through School Improvement Partners and Educational Advisers to powers vested in the Secretary of State, which include the power to close an academy in the unlikely event that other interventions have not worked.

Academies are independent schools, and local authorities have no powers of intervention relating to an Academy's performance. However, each academy has at least one local authority representative on its governing body.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what comparative assessment he has made of the comparative effectiveness of academies and fresh start schools in improving academic comparative performance. [166107]

Jim Knight: The February 2007 National Audit Office report on the academies programme found that for three main measures of GCSE performance in 2006, academy pupils gained on average better results than fresh start schools. The percentage of pupils in academies with five or more grades A*-C was 40 per cent. in comparison to 35 per cent. in fresh start schools; the percentage in academies with five or more grades A*-G was 80 per cent. in comparison to 79 per cent., and the percentage with five or more grades A*-C including English and maths was 22 per cent. in comparison to 17 per cent. in fresh start schools.

Assessments

Rosie Cooper: To ask the Secretary of State for Children, Schools and Families whether any examination dates were set for students after they had finished term and left school in 2007. [180645]

Jim Knight: The Joint Council for Qualifications (JCQ) is responsible for setting the timetable for GCSE and A level examinations and does this after consulting on a provisional timetable a year in advance of when the examinations are taken. In the 2007 summer examination series, the final date for GCSE examinations was 27 June, the final date for GCE examinations was 28 June and for the final date for AEA examinations

was 29 June. Across England local authorities (and independent schools) set term dates in full knowledge of these dates and typically finish summer term in mid-July.

Assessments: Standards

Rosie Cooper: To ask the Secretary of State for Children, Schools and Families if he will bring forward proposals to establish an independent regulator of examination standards. [180646]

Jim Knight: My right hon. Friend the Secretary of State announced on 26 September 2007 his intention to establish an independent regulator of examinations and tests. On 17 December my Department, with the Department for Innovation, Universities and Skills, published the consultation paper "Confidence in Standards: Regulating and developing qualifications and assessment" (Cm 7281), which sets out the detail of our proposals. Copies of the consultation paper are available in the House Library.

We are consulting on these proposals until 10 March 2008 and will bring forward legislation to establish the new regulator at the earliest opportunity.

Biometrics: Fingerprints

Annette Brooke: To ask the Secretary of State for Children, Schools and Families if he will commission a review of the academic literature on the reversibility of biometric templates to recreate fingerprints. [177868]

Jim Knight: The Department has no plans to commission a review of the academic literature on the reversibility of biometric templates to recreate fingerprints. The British Educational Communications and Technology Agency is responsible for monitoring this and other aspects of technology in schools and will take appropriate action as it considers necessary. BECTA published guidance on the use of biometric technology in July 2007.

Buildings Schools for the Future Programme: Sustainable Development

Ms Gisela Stuart: To ask the Secretary of State for Children, Schools and Families what steps have been taken to ensure that developments under the Building Schools for the Future programme have the lowest possible environmental impact. [179587]

Jim Knight: The Department recently introduced new standards for carbon emissions from new school buildings. The Children's Plan contains a new requirement for all new build schools to reduce carbon emissions by at least 60 per cent. It also includes our longer-term ambition for all new school buildings to be zero carbon by 2016 and we are now appointing a taskforce to advise on how this can be achieved.

These targets for carbon emission complement our requirements for environmental assessments using BREEAM, the Building Research Establishments Environmental Assessment Methodology, which we have adapted for schools. Since 2005 it has been our requirement that major school building projects achieve a minimum BREEAM rating of 'very good'.

Education Maintenance Allowance

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 7 January 2008, *Official Report*, columns 212-14W, on education maintenance allowance, what the reasons were for the increase in the administration costs of the education maintenance allowance between 2003-04 and 2004-05. [180458]

Jim Knight: The education maintenance allowance (EMA) was piloted in England from 1999, and launched nationally from September 2004. The administration costs increased as the scheme became available across the country from that date.

Education Maintenance Allowance: Copeland

Mr. Jamie Reed: To ask the Secretary of State for Children, Schools and Families (1) how many pupils within Copeland have been eligible to receive education maintenance allowance over the last three years; [175942]

(2) how many pupils were eligible in *(a)* Cumbria and *(b)* Copeland to receive education maintenance allowance at (i) £30, (ii) £20 and (iii) £10 over the last three years. [175991]

Jim Knight: These are matters for the Learning and Skills Council (LSC) which operates the education maintenance allowance (EMA) for the Department for Children, Schools and Families (DCSF) and holds the information about take-up and payments made under the scheme. Mark Haysom, the council's chief executive, will write to the hon. Gentleman with the information requested and a copy of his reply will be placed in the House Library.

Letter from Mark Haysom, dated 8 January 2008:

I am writing in response to your Parliamentary Questions that asked:

"How many pupils within Copeland have been eligible to receive education maintenance allowance over the past three years"; and

"How many pupils were eligible in (a) Cumbria and (b) Copeland to receive education maintenance allowance at (i) £30, (ii) £20 and (iii) £10 over the last three years."

Information on the number of young people who have applied, enrolled and received Education Maintenance Allowance (EMA) is available at Local Authority Level, but not at constituency level. EMA take-up is defined as young people who have received one or more EMA payments in the academic year.

To be eligible for an EMA a young person must be aged 16-19 and be in full-time learning or following a valid Entry to Employment Programme led Apprenticeship (at least 16 guided learning hours per week). Applications are income assessed, based on the learner's total household income, with the maximum income to be eligible in 2007-08 of £30,810.

In the first year of national roll out (2004/05) EMA was available to all 16 year olds across England and to 17 and 18 year olds in former pilot areas (as Cumbria was not a pilot area this did not apply to them). In 2005/06 EMA roll out continued and EMA was available to all 16 and 17 year olds nationally. In 2006/07 EMA is available to all 16, 17 and 18 year olds nationally.

The following table shows the percentage of young people receiving EMA in Cumbria Local Authority area during each academic year since national roll out. The reasons why young people did not receive EMA may be that: they were not eligible, they did not apply, or they were in employment, NEET, etc.

Percentage of population cohort receiving EMA in each academic year—Cumbria

	Percentage
2004-05 (16-year-olds only)	33
2005-06 (16 and 17-year-olds)	27
2006-07 (16, 17 and 18-year-olds)	23

Percentage of population cohort receiving EMA in each academic year—Cumbria

	Percentage
2006-07[1] (16, 17 and 18-year-olds)	29

[1] To end December.

The following table shows EMA take-up data split by payment band for Cumbria Local Authority area during each academic year since national roll out.

Take-up of EMA in each academic year—Cumbria local authority

	Band						
	£30		£20		£10		Total
	Number	Percentage	Number	Percentage	Number	Percentage	
2004-05	1,587	74	238	11	329	15	2,154
2005-06	2,845	76	445	12	458	12	3,748
2006-07	3,724	79	504	11	491	10	4,719
2007-08[1]	3,494	79	468	11	439	10	4,401

[1] To end December.

I hope you find this information useful. EMA take-up data showing the number of young people who have received one or more EMA payments during 2004/05, 2005/06, 2006/07 and to date in 2007/08 is now also available on the LSC website, at the following address:

http://www.lsc.gov.uk/providers/Data/statistics/learner/EMA_take_up.htm

Education Maintenance Allowance: Peterborough

Mr. Stewart Jackson: To ask the Secretary of State for Children, Schools and Families how many young people in the Peterborough constituency received the education maintenance allowance in the last year for which figures are available. [174520]

Jim Knight: This is a matter for the Learning and Skills Council (LSC), which operates the education maintenance allowance (EMA) for the Department for Children, Schools and Families (DCSF) and hold the information about take-up and payments made under the scheme. Mark Haysom, the council's chief executive, will write to the hon. Gentleman with the information requested and a copy of his reply will be placed in the House Library.

Letter from Mark Haysom, dated 19 December 2007:

I am writing in response to your Parliamentary Question that asked:

"How many young people in Peterborough constituency received education maintenance grants in the last year for which figures are available."

Information on the number of young people who have applied, enrolled and received Education Maintenance Allowance (EMA) is available at Local Authority Level, but not at constituency level.

EMA take-up is defined as young people who have received one or more EMA payments in the academic year. EMA take-up for City of Peterborough Local Authority area is as follows:

2006/07 2,017

I hope you find this information useful. EMA take-up data showing the number of young people who have received one or more EMA payments during 2004/05, 2005/06, 2006/07 and to date in 2007/08 is now also available on the LSC website at the following address:

http://www.lsc.gov.uk/providers/Data/statistics/learner/EMA_take_up.htm

Further Education: Essex

Bob Russell: To ask the Secretary of State for Children, Schools and Families what proportion of young people in *(a)* the Colchester constituency and *(b)* Essex County Council area remained in full-time education in the year after they ended compulsory schooling in each year since 1997. [180361]

Jim Knight: The following table shows the proportion of all academic age 16-year-olds participating in full-time education in Essex local authority in each year since 1997. These figures are not currently available at parliamentary constituency level.

Participation of 16-year-olds in education and training is published in the Statistical First Release: Participation in Education, Training and Employment by 16 to 18-year-olds in England: 2005 and 2006 and Participation in Education and Training by 16 and 17-year-olds in each local area in England: 2004 and 2005. See the following link:

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000734/index.shtml

Participation of 16-year-olds in full-time education, Essex

										Percentage
	1997	1998	1999	2000	2001 (a)	2001 (b)	2002	2003	2004	2005
Essex[1]	71	72	71	70	68	69	71	70	72	74
Essex[1]		71	72	70	67	70	72	71	73	75
Southend-on-Sea		78	79	76	77	65	74	67	74	74
Thurrock		64	60	64	61	64	64	67	66	72
England	70	70	72	71	71	71	72	72	73	76

[1] The two figures for Essex are for (i) Essex county council and (ii) Essex unitary authority (UA). The former contains Essex UA, Southend-on-Sea UA and Thurrock UA. Figures for these UAs are not available for 1997.

Notes:

1. Learner in Special Designated Institutes (SDIs) and External Institutes (EIs) have been included from 2002 onwards.
2. For 2001 onwards, information for pupils in maintained schools, CTCs and academies is included by the pupil's residence, rather than the address of the school. The table 2001 (a) provides the figures on the old basis, 2001 (b) on the new basis.

Further Education: Staffordshire

Mr. Jenkins: To ask the Secretary of State for Children, Schools and Families what proportion of young people in *(a)* the Tamworth constituency and *(b)* Staffordshire County Council area remained in full-time education in the year after they ended compulsory schooling in each year since 1997. [179421]

Jim Knight: The following table shows the proportion of all academic age 16-year-olds participating in full-time education in Staffordshire local authority in each year since 1997. These figures are not currently available at parliamentary constituency level.

Participation of 16-year-olds in education and training is published in the Statistical First Release: Participation in Education, Training and Employment by 16-18 Year Olds in England: 2005 and 2006 and Participation in Education and Training by 16 and 17 Year Olds in each Local Area in England: 2004 and 2005, please see the following link:

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000734/index.shtml

Table 1: Participation of 16-year-olds in full-time education, Staffordshire

Percentage

	1997	*1998*	*1999*	*2000*	*2001 (a)*	*2001 (b)*	*2002*	*2003*	*2004*	*2005*
Staffordshire[1]	64	65	67	67	67	68	67	70	71	72
Staffordshire[1]	68	69	70	68	69	70	69	72	73	74
Stoke-on-Trent	50	52	58	61	59	60	59	62	64	67
England	70	70	72	71	71	71	72	72	73	76

[1] The two figures for Staffordshire are for (a) Staffordshire county council and (b) Staffordshire unitary authority (UA). The former contains both Staffordshire UA and Stoke-on-Trent UA.

Notes:

1. Learners in special designated institutes (SDIs) and external institutes (EIs) have been included from 2002 onwards.
2. For 2001 onwards, information for pupils in maintained schools, CTCs and academies is included by the pupil's residence, rather than the address of the school. The table 2001 (b) provides the figures on the new basis, 2001 (a) on the old basis.

GCE A-Level

Mr. Duncan Smith: To ask the Secretary of State for Children, Schools and Families what his policy is on the promotion of A-levels to students at schools. [179822]

Jim Knight *[holding answer 17 January 2008]:* All young people should receive high-quality information, advice and guidance on learning and careers options from their schools and from other learning providers, and from the Connexions service so that they can make informed choices. We expect this advice to promote the proven benefits of further education and training. However, it is important that information, advice and guidance are impartial, reflecting needs of the learner, not of the institution providing the advice.

It is not the Department's policy to promote one learning route over another. Our interest in ensuring that each learner is helped into education and training that is the best for that individual and which is most likely to sustain their participation in learning and lead to the highest level of attainment. For many learners A-levels are the most appropriate way forward; for others, different routes will be appropriate.

GCE A-Level: Standards

Mr. Willetts: To ask the Secretary of State for Children, Schools and Families what proportion of children in the top 5 per cent. in Key Stage Two tests achieved three A grades at A-level in each of the last three years. [175719]

Jim Knight: The information can be provided only at disproportionate cost.

General Certificate of Secondary Education

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what proportion of pupils achieved five A* to C GCSEs *(a)* including mathematics and English and *(b)* excluding mathematics and English in (i) the 10 per cent. most deprived neighbourhoods and (ii) the 10 per cent. least deprived neighbourhoods in each year since 1995; and if he will make a statement. [177627]

Jim Knight: The information for the past two years can be found in the Library or on table 21 at the following links:

2005/06: http://www.dcsf.gov.uk/rsgateway/DB/SFR/s000702/index.shtml

2006/07: http://www.dcsf.gov.uk/rsgateway/DB/SFR/s000768/index.shtml

The information for other years can be provided only at disproportionate cost.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many and what proportion of secondary schools had 50 per cent. or more pupils failing to secure five A* to C grades in GCSEs *(a)*

including English and mathematics and *(b)* excluding English and mathematics in each year since 1990; and if he will make a statement. [177628]

Jim Knight: Information for the last four years is in the Library.

Information for further years can be provided only at disproportionate cost.

General Certificate of Secondary Education: Standards

Mr. Frank Field: To ask the Secretary of State for Children, Schools and Families what target his Department has set for the percentage of pupils attaining five passes at grade A* to C GCSE including English and mathematics. [179305]

Jim Knight: As part of the 2007 comprehensive spending review (CSR), a new set of public service agreements and national targets was announced in October 2007. From 2009 onwards there is a dual focus on ensuring that pupils reach the levels expected for their age in both English and mathematics (threshold targets) and improving the rates of progress made by pupils from five to 16 (new progression targets) with increased attention to achieving faster progress for underachieving groups such as children in care and ethnic-minority pupils.

The key stage 4 threshold target is for 53 per cent. of pupils to achieve 5A*-C GCSEs (and equivalent), including GCSEs in both English and maths by 2011.

The progression targets will be a major factor in helping all pupils—regardless of their background and circumstances—to realise their potential in English and mathematics in particular. By 2011 we want to see a 15 percentage point improvement in the number of pupils making two levels of progress in English and a 13 percentage point improvement in those making two levels of progress in mathematics between key stage 3 and key stage 4.

We have also made the commitment that, by 2012, no secondary school should have fewer than 30 per cent. of pupils achieving five GCSEs at grade A*-C including English and mathematics. This children's plan, launched last month, also sets out the ambition that, by 2020, at least 90 per cent. of young people should achieve the equivalent of five higher GCSEs at age 19.

Gifted Children: Staffordshire

Mr. Jenkins: To ask the Secretary of State for Children, Schools and Families how many children in *(a)* Tamworth constituency and *(b)* Staffordshire County Council area have been identified as gifted and talented since 2001. [179499]

Jim Knight: The available information is given in the tables. Information on gifted and talented pupils was collected for the first time via the school census in 2006.

Maintained primary and secondary schools[1], number and percentage of gifted and talented pupils[2], position as at summer each year 2006 and 2007, Tamworth parliamentary constituency and Staffordshire local authority

2006

School Census.

Home Education

Dr. Vis: To ask the Secretary of State for Children, Schools and Families whether the term, "education otherwise than at school" is taken by his Department to include elective home education. [179001]

Jim Knight: Yes: this is explained in the guidelines for local authorities on monitoring elective home education that were published in November 2007. A copy of the guidelines has been placed in the House of Commons Library.

Paul Holmes: To ask the Secretary of State for Children, Schools and Families whether he plans to meet Education Otherwise and other home education organisations. [179960]

Jim Knight: I have no plans to meet Education Otherwise and other home education organisations. My officials are in regular contact with them.

Languages: General Certificate of Secondary Education

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families how many mainstream secondary schools did not enter students for a GCSE in a modern language in each of the last three years. [177817]

Jim Knight: The numbers of maintained mainstream schools with no students entered for a GCSE in a modern language in each of the last three years are as follows:

	Number
2006/07	27
2005/06	27
2004/05	38

The 2004/05 figure relates to French, German or Spanish only.

Languages: Primary Education

Mr. Evennett: To ask the Secretary of State for Children, Schools and Families (1) how many primary schools in each London borough teach a modern foreign language; [179546]

(2) which modern foreign languages are taught in primary schools in London. [179547]

Jim Knight: The table details the proportion of primary schools in each London borough which reported in autumn 2006 that they were teaching languages in class time. The data were obtained from ongoing research commissioned by the Department, which estimated the proportion of schools teaching languages in class time. The figures are based on a representative sample of maintained primary schools and the survey achieved a 48 per cent. response rate nationally.

The major languages taught in primary schools in London were French, German, Italian and Spanish. Other languages taught in a small number of schools included Chinese, Japanese, Urdu, Panjabi, Hebrew, Turkish, Albanian and Bengali.

London LAs	*Percentage of responding primary schools teaching languages in class time*
Camden	100.00
Greenwich	78.57
Hackney	77.78
Hammersmith and Fulham	83.33
Islington	100.00
Kensington and Chelsea	83.33
Lambeth	81.25
Lewisham	50.00
Southwark	78.57
Tower Hamlets	25.00
Wandsworth	93.75
Westminster	100.00
Barking and Dagenham	100.00
Barnet	66.67
Bexley	100.00
Brent	71.43
Bromley	86.67
Croydon	63.16
Ealing	72.22
Enfield	86.67
Haringey	71.43
Harrow	100.00
Havering	86.67
Hillingdon	76.92
Hounslow	84.62
Kingston on Thames	66.67
Merton	91.67
Newham	90.91
Redbridge	57.14
Richmond upon Thames	100.00
Sutton	90.91
Waltham Forest	36.36

Mandarin: Primary Education

Ben Chapman: To ask the Secretary of State for Children, Schools and Families what steps he is taking to promote the teaching of Mandarin in primary schools. [179630]

Jim Knight: The Children's Plan, published in December 2007, confirmed that the primary curriculum will be reviewed, including introducing languages as a compulsory subject. This takes forward the recommendation in Lord Dearing's Languages Review that languages should become a compulsory part of the primary curriculum, and builds on the existing entitlement for all Key Stage 2 pupils to learn a language in class time by 2010.

Members: Correspondence

Mr. Andrew Turner: To ask the Secretary of State for Children, Schools and Families when he will respond to the letter of 29 November from the hon. Member for Isle of Wight on changes to the school system on the Isle of Wight. [176827]

Jim Knight: A reply to this letter was provided by Lord Adonis on 20 December 2007.

Private Education: Academic Year

Dr. Vis: To ask the Secretary of State for Children, Schools and Families on what basis he decided on the figures of *(a)* 28 weeks of education in an academic year and *(b)* 12.5 hours of education in a week in seeking to define an independent academic institution. [178994]

Jim Knight: We want an 'independent educational institution' to be one that provides the main part of a child's education. As 28 weeks' education per year and 12.5 hours' education per week together constitute more than half a school year and more than half a typical school week for primary age children, these institutions will provide the main part of their pupils' education.

Pupils: Accidents

Mr. Jenkins: To ask the Secretary of State for Children, Schools and Families how many pupils were taken to hospitals owing to accidents within schools in Tamworth constituency in each of the last five years. [179392]

Jim Knight: The Health and Safety Executive has provided details, as requested, in the following table:

Injuries to students in schools in the local authority of Tamworth, reported to HSE, 2002/03 to 2006/07[1]

	Non-fatal injuries
2002/03	4
2003/04	
2004/05	1
2005/06	5
2006/07[1]	7

[1] Provisional.

Notes:

1. Injuries are reported and defined under the Reporting of Injuries, Diseases and Dangerous Occurrences Regulations (RIDDOR) 1995. The information available under RIDDOR 95 includes two categories of severity for members of the public (the category under which students are recorded): fatal injuries and non-fatal injuries that cause a person to be taken from the site of the accident to hospital. Across the period shown there are no recorded fatal injuries to students in Tamworth reported to HSE under RIDDOR.
2. Identified using Standard Occupational Classification 2000 (SOC2000) code 0002 'Student'.
3. Identified using Standard Industrial Classification 1992 (SIC92) codes 80100 'Primary education', 80200 'Secondary education' and 80210 'General secondary education'.
4. The annual basis is the planning year from 1 April to 31 March.

Pupils: Data Protection

Annette Brooke: To ask the Secretary of State for Children, Schools and Families what steps his Department is taking to prevent school staff removing unencrypted sensitive pupil data from school premises. [178044]

Jim Knight: The British Educational Communications and Technology Agency is responsible for producing and publishing guidance for schools on how to ensure the security of their IT systems. BECTA's latest guidance was published in September 2007 and is available on its website. This guidance includes information for schools on monitoring the physical security of ICT equipment, data security and the security of pupil information and data.

Pupils: Drugs

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many pupils were stopped on school premises for being in possession of *(a)* alcohol and *(b)* drugs in the most recent year for which figures are available. [179406]

Jim Knight: The requested information is not collected centrally.

Information on the number of exclusions (permanent and fixed period) from schools by reason for exclusion (which includes the category 'drug and alcohol related') has been placed in the Library.

Pupils: English Language

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many children with English as a second language there were in *(a)* primary and *(b)* secondary schools in each English local authority in (i) 1997, (ii) 2001, (iii) 2005, (iv) 2006 and (v) 2007. [179954]

Jim Knight: The available information shows the number of pupils whose first language is known or believed to be other than English. Figures for the years requested have been placed in the Library. Data for the earlier years (1997 and 2001) have been included in the workbook but as the information is not directly comparable owing to a change in the coding framework, it has not been amalgamated into the time series.

The information is published annually in Schools and Pupils in England: January 2007 (Final). The latest figures relate to 2007 and are available at:

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000744/index.shtml

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how much funding was available to support pupils with English as a second language in each English local authority area in *(a)* 1997, *(b)* 2001, *(c)* 2005, *(d)* 2006 and *(e)* 2007 in 2005-06 prices; how much has been made available for 2008; and if he will make a statement. [179965]

Jim Knight: The Department does not collect this information. It is a matter for each local authority to determine locally the level of funding for each of its services in the light of local circumstances.

School Leaving

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the effectiveness of imposing sanctions on young people to keep them in education and training; and if he will make a statement. [163759]

Jim Knight: Without compulsion, there is a risk that young people with lower aspirations, who may come from families and communities which have a poor experience of education and training, are missed as participation increases, and this group will become more marginalised. That is why we believe that to galvanise the system to provide better for this group we

must go further, and a different approach is needed. The experience of other countries suggests that if this policy is to have the impact we want, we need to be clear that it can be enforced if necessary. For example, Western Australia raised the participation age from 15 to 16 and has seen the participation rate at 16 rise from 80 per cent. to 98 per cent. The Netherlands has recently changed the law too, and we will look to learn from its experience. Under plans to raise the participation age, sanctions will only be used as a last resort and the focus will be on ensuring there is the right provision and the right support for young people to participate in education and training post-16.

School Meals

Mr. Laws: To ask the Secretary of State for Children, Schools and Families whether schools may spend profits on their school meal services in other areas of school expenditure; and if he will make a statement. [163319]

Jim Knight: Schools may spend all their income, whether from the Dedicated Schools Grant or other sources, including profit on school meals where the service is not contracted out, on expenditure for the purposes of the school or pupils in other maintained schools. Local Management of Schools means that schools are expected to budget within their resources however they are derived, and to manage their own expenditure in the way that best fits the priorities and local needs of the school.

Schools: Admissions

Mr. Laws: To ask the Secretary of State for Children, Schools and Families which *(a)* academies and *(b)* other schools use their powers to admit up to 10 per cent. of children on the basis of aptitude. [164018]

Jim Knight: The Department does not collect this information.

Schools: Armed Forces

Bob Russell: To ask the Secretary of State for Children, Schools and Families how many of the recommendations relating to his Department contained in the Defence Committee report "Educating Service Children" (HC (2005-06) 1054), have been implemented; and if he will make a statement. [180359]

Jim Knight: The Defence Committee recommendations for the then DfES that have been implemented are as follows.

We have included an indicator in the January 2008 school census which will facilitate research into service children's outcomes;

We are working closely with the devolved Administrations on the MOD's new cross border forum discussing provision for service children across the whole UK, particularly provision for those with statements of special educational needs (SEN) who move between countries within the UK;

To improve the transfer of pupil records when they move school, we have continued to publicise the statutory "15 school day rule" to ensure that all schools are aware of their responsibilities;

We are working with a group of heads of schools which have high mobility due to large numbers of service children, to develop best practice guidance to help schools deal with the difficulties mobility causes, and to ease the impact that frequent moves can have on the children;

The School Admissions Code requires admission authorities to take account of service families' needs and allows them to allocate places in advance where families are moving to their area, using the unit HQ address if necessary where families have yet to be given an address. These provisions have been welcomed by the MOD.

One recommendation about children with statements of SEN was not accepted. For those children with statements who move frequently, there are regulations governing the transfer of information between local authorities, and the timing of reviews of the statements and any necessary reassessments of the children's SEN. Previously statemented children who return from abroad may have been away for a considerable period and their needs may have changed. It is right that their needs are reassessed on return.

Schools: Biometrics

Annette Brooke: To ask the Secretary of State for Children, Schools and Families if he will commission an independent assessment of the security of biometric systems used in schools *(a)* in libraries, *(b)* in canteens and *(c)* for registration. [177867]

Jim Knight: The Department has no plans to commission an assessment of the security systems used in schools *(a)* in libraries, *(b)* in canteens and *(c)* for registration. The British Educational Communications and Technology Agency is responsible for monitoring this and other aspects of technology in schools and will take appropriate action as it considers necessary. BECTA published guidance on the use of biometric technology in July 2007.

Schools: Buildings

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many *(a)* primary and *(b)* secondary schools in each local authority are using temporary mobile classrooms; and how many such classrooms there are in each local authority. [177828]

Jim Knight: Data on school temporary buildings were supplied to my Department by local education authorities in 2001, 2003 and 2005. However, checks on recent months indicate that the completeness and quality of the data was not good enough to accurately assess the number of buildings.

Central Government capital support for investment in schools has increased from under £700 million in 1996-97 to £6.4 billion in 2007-08 and will rise further to £8 billion by 2010-11. Progress is being made year by year on improving the quality of the school building stock. The bulk of schools capital is now allocated by formula to authorities and schools so that they can address their local priorities, including the replacement of decayed temporary accommodation, on which we have set a high priority. Given the high levels of funding, authorities have the opportunity to replace temporary buildings when they are considered to be unsuitable.

Modern, high-quality mobile or demountable buildings provide a good environment for teaching and

learning where there is short-term need. When they are new, they are required to meet the same building environmental standards as buildings that are not demountable. They might, for instance, be needed to cope with a short-term increase in pupil numbers, or where extensive remodelling or rebuilding of permanent accommodation means providing temporary accommodation on the school site, rather than transporting children elsewhere.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families if he will establish a national minimum expected condition for school buildings. [178496]

Jim Knight: The Education (School Premises) Regulations 1999 set out minimum standards for schools. These regulations are currently under review. The Department has also published a wide range of guidance and building bulletins on design and standards for school buildings.

Schools: Buses

Willie Rennie: To ask the Secretary of State for Children, Schools and Families how many designated school buses are fitted with seat belts. [179578]

Jim Fitzpatrick *[holding answer 17 January 2008]:* I have been asked to reply.

The Department does not hold information on the number of designated school buses that are fitted with safety belts.

Schools: Curriculum

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families (1) how many schools have adopted the Opening Minds curriculum; [173812]

(2) when he will reply to question 173812, on the Opening Minds curriculum, tabled by the hon. Member for Bognor Regis and Littlehampton on 10 December 2007. [180586]

Jim Knight: We do not collect data about which approaches schools take to planning their curriculum. That is a matter for schools themselves, as long as they meet the statutory requirements. The Opening Minds website www.rsa.org.uk, however, suggests that

"there are now over 135 schools using the Opening Minds framework of competences".

Schools: Finance

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the difference between budgeted and actual costs incurred in the construction of all new *(a)* schools and *(b)* academy schools; and if he will make a statement. [166105]

Jim Knight: The schools for which the Department holds cost information are academies, as follows, with estimated costs including sponsorship. My Department does not hold cost information for other recently completed schools, which were procured locally. Building prices vary significantly according to the size of school, site development costs and local prevailing construction pricing levels.

Academy	*Area*	*£ million*
Bradford Academy	Bradford	20.5
Brunel Academy	Bristol	24.0
City of London Academy (Southwark)	Southwark	33.7
David Young Community Academy	Leeds	23.6
Djanogly City Academy	Nottingham	23.7
Folkestone Academy	Kent	36.8
Grace Academy	Solihull	31.7
Haberdashers' Aske's Knights Academy	Lewisham	40.5
Harris Academy	Croydon	38.0
John Madejski Academy	Reading	27.7
Leigh Technology Academy	Kent	36.6
London Academy	Barnet	34.4
Northampton Academy	Northampton	27.4
Paddington Academy	Westminster	31.5
Salford City Academy	Salford	16.7
Sandwell Academy	Sandwell	27.1
Stockley Academy	Hillingdon	27.5
The Academy at Peckham	Southwark	30.2
The Academy of St. Francis of Assisi	Liverpool	20.9
The Bridge Academy	Hackney	47.7
The City Academy	Bristol	27.7
The Marlowe Academy	Kent	27.8
The Petchey Academy	Hackney	34.2
The Samworth Enterprise Academy	Leicester	19.5
Thomas Deacon Academy	Peterborough	50.4
Trinity Academy	Doncaster	25.1
West London Academy	Ealing	32.2
Westminster Academy	Westminster	30.6

Mr. Dismore: To ask the Secretary of State for Children, Schools and Families what the amount of guaranteed funding per school pupil in Hendon is from the *(a)* dedicated schools grant and *(b)* other specific grants in (i) 2007-08 and (ii) 2008-09. [177925]

Jim Knight: The Department allocates education so funding to local authorities the requested information for the Hendon constituency is not available. The guaranteed unit of funding per pupil for Barnet local authority for 2007-08 was £4,344 and for 2008-09 it will be £4,559. We do not apply a guaranteed unit of funding to specific grants.

Schools: Inspections

Mr. Dismore: To ask the Secretary of State for Children, Schools and Families how many schools in Hendon were inspected by Ofsted in the last 12 months; what the outcome was of each inspection; and if he will make a statement. [177692]

Jim Knight: This is a matter for Ofsted. Her Majesty's chief inspector of schools, Christine Gilbert, has written to my hon. Friend and a copy of her reply has been placed in the Library.

Letter from Christine Gilbert, dated 14 January 2008:

Your recent parliamentary question has been passed to me, as Her Majesty's Chief Inspector, for a response.

Ofsted has inspected 18 schools in Hendon constituency in the last 12 months from 1 January 2007 to 31 December 2007. The grades and the date on which they were inspected are shown in the table below.

URN	*Inspection date*	*Grade*	*School name*
134798	26 February 2007	2 good	London Academy
101336	27 February 2007	2 good	St. Joseph's RC Infant School
101355	14 March 2007	3 satisfactory	Dollis Junior School
101326	21 March 2007	2 good	St. Paul's CofE Primary School
130935	21 March 2007	3 satisfactory	The Hyde School
101359	25 April 2007	2 good	Mill Hill County High School
103119	15 May 2007	2 good	St. Mary's and St. John's CE Primary School
101364	17 May 2007	2 good	St. James' Catholic High School
101258	22 May 2007	1 outstanding	Barnfield Primary School
101357	24 May 2007	2 good	Hendon School
101395	14 June 2007	1 outstanding	Northway School
101376	28 June 2007	1 outstanding	Mathilda Marks-Kennedy Jewish Primary School
101339	3 July 2007	2 good	Blessed Dominic RC School
133749	11 September 2007	2 good	Northgate School
101274	14 November 2007	1 outstanding	Deansbrook Infant School
101342	29 November 2007	1 outstanding	The Annunciation RC Junior School
101275	10 December 2007	3 satisfactory	Dollis Infant School
101343	11 December 2007	1 outstanding	Independent Jewish Day School

Ofsted has four categories for grading school inspection: grade 1 is outstanding, grade 2 good, grade 3 satisfactory, and grade 4 inadequate. Grade 1 is exceptionally and consistently high, grade 2 is generally above average with no criteria significantly below average, grade 3 is broadly average, and grade 4 is exceptionally low. Grade 4 schools can either be placed in 'special measures' or be given a 'notice to improve'.

A copy of this reply has been sent to Jim Knight MP, Minister of State for Schools and Learners and will be placed in the library of both Houses.

Schools: Isle of Wight

Mr. Andrew Turner: To ask the Secretary of State for Children, Schools and Families what discussions he has had with officials on changes to numbers of teaching staff resulting from the reorganisation of schools on the Isle of Wight. [180732]

Jim Knight: I have had no discussions with officials on changes to numbers of teaching staff resulting from the reorganisation of schools on the Isle of Wight. This is entirely a matter for the local authority.

Mr. Andrew Turner: To ask the Secretary of State for Children, Schools and Families who would be responsible for funding for redundancies arising from the reorganisation of schools on the Isle of Wight. [180733]

Jim Knight: It will be the responsibility of Isle of Wight council to fund any redundancy payments that may result from the reorganisation of schools on the island for which the council is responsible.

Mr. Andrew Turner: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the cost of redundancy payments brought about by the reorganisation of schools on the Isle of Wight. [180734]

Jim Knight: No estimates have been made in respect of any redundancies that may result from the reorganisation of schools on the Isle of Wight, as these decisions are a matter for local determination.

Mr. Andrew Turner: To ask the Secretary of State for Children, Schools and Families whether his Department has conducted a study of the effect of the reorganisation of schools on the Isle of Wight on the number of road miles driven and car journeys made to travel to schools. [180735]

Jim Knight: No such study has been undertaken by the Department. It is for local authorities to decide how best to organise the schools in their areas in the light of local circumstances. Concerns about the proposal should therefore be directed to Isle of Wight council.

In making proposals, authorities must consider the implications for school travel and transport; and the Department's statutory guidance to decision-makers makes clear that they should bear in mind that proposals should not unreasonably extend journey times or increase transport costs. In addition, the proposals should not result in too many children being prevented from walking or cycling to school because routes are unsuitable.

Schools: Listed Buildings

Mr. Hayes: To ask the Secretary of State for Children, Schools and Families how many educational establishments in receipt of funding from his Department are accommodated in listed buildings; and how many of these have been designated as in need of significant repair. [180350]

Jim Knight: The Department does not hold information on which educational buildings are listed.

The bulk of schools capital is allocated by formula to authorities and schools, so that they can address their local asset management planning priorities, including any necessary repairs to listed buildings. Schools decide on the amount of revenue funding to allocate to building repairs and maintenance.

Central Government capital support for investment in schools has increased from under £700 million in 1996-97 to £6.4 billion in 2007-08, and will rise further to £8 billion by 2010-11. While reducing maintenance requirements is a long-term aim, the primary objectives for funding are to raise educational standards and tackle local deprivation. A substantial proportion of capital funding is targeted at transformational programmes, such as Building Schools for the Future and the primary capital programmes. Over time, these programmes will significantly reduce future maintenance requirements.

Schools: Repairs and Maintenance

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the effectiveness of funding arrangements outside centralised programmes for the allocation of resources to ensure that schools are properly maintained; and if he will make a statement. [178583]

Jim Knight: The Department does not collect the information requested from schools or local authorities. It is the responsibility for each local authority and its schools to make decisions locally on repairs and maintenance.

Schools: Rural Areas

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how much funding was allocated to each local authority to support small rural schools in the latest year for which figures are available; and if he will make a statement. [178452]

Jim Knight: The allocation formula for dedicated schools grant (DSG) does not separately allocate money to support small rural schools; it starts from local authorities' spending on schools for 2005-06, which is closely related to the formula for schools formula spending shares in use that year. That formula took account of the needs of sparsely populated authorities to keep open small rural primary schools, using an indicator of sparsity. The following table sets out estimated amounts within 2007-08 allocations of DSG, derived from the amounts allocated through the schools FSS formula in 2005-06 on the basis of sparsity, updated appropriately.

Schools: Staffordshire

Mr. Jenkins: To ask the Secretary of State for Children, Schools and Families what factors were taken into account in deciding the amount allocated to Staffordshire for the school funding settlement for 2008-09 to 2010-11; and if he will make a statement. [179761]

Jim Knight: Staffordshire's allocation of dedicated schools grant (DSG) for 2008-09 to 2010-11 depends on the following factors: the authority's 2007-08 guaranteed unit of funding for DSG and the number of pupils aged three to 15 in the authority's schools and early years providers. It includes an increase of £2.5 million for pockets of deprivation. Full details of the calculation of dedicated schools grant allocations may be found on TeacherNet at

http://www.teachernet.gov.uk/docbank/index.cfm?id=12222.

Schools: Standards

Mr. Todd: To ask the Secretary of State for Children, Schools and Families whether he has discussed with Ofsted the commissioning of research on the relative frequency of primary schools, junior schools and infant schools being placed in either special measures or notice to improve categories. [179397]

Jim Knight: Ofsted and the DCSF have discussed the relative performance of different types of school in the primary age phase, and are continuing to analyse relevant data. I will write to the hon. Member with further details.

Schools: Training

Mr. Hayes: To ask the Secretary of State for Children, Schools and Families which obligatory training courses school staff must attend annually. [180356]

Jim Knight: There is a range of training and development opportunities available to all school staff. However, there are no obligatory training courses which the Department requires school staff to attend annually.

Science: Secondary Education

Adam Afriyie: To ask the Secretary of State for Children, Schools and Families (1) what *(a)* curricular and *(b)* extra-curricular programmes his Department is supporting to encourage the study of science at key stages 3 and 4; [179583]

(2) how much his Department spent on promoting the study of science, technology, engineering and mathematics at key stage 3 in each year since 1997. [179584]

Jim Knight: The Government are supporting a number of curricular and extra curricular programmes that aim to encourage the study of science at key stages 3 and 4 and beyond. These include

The introduction of a new science programme of study at key stage 3 for first teaching from September 2008. As with the new science programme of study at key stage 4 that was introduced in 2006 it will maintain the breadth, depth and challenge of the previous curriculum, but will have a better balance between knowledge and understanding.

The secondary national strategy which provides a comprehensive professional development programme for teachers which includes training and materials and support from local consultants who are experts in their field. The strategy sets high expectations and is designed to raise standards for all pupils in all circumstances, but also focuses on pupils who need extra support and who are falling behind.

The national network of science learning centres to provide professional development for science teachers and technicians. The training focuses on encouraging innovative and exciting teaching practice that will enthuse and inspire young people and improve the subject specialism of science teachers.

Piloting 250 after school science and engineering clubs offering an engaging and stretching programme of activities to key stage 3 pupils with interest and potential in science. A further 250 clubs will be established from September 2008.

Establishing a system for coordinating the many enhancement and enrichment activities that are available to make it easier for schools to access them. This will include the publication of directories of nationally available activities.

Project Faraday, which is developing inspirational exemplar designs for school laboratories which will reflect the latest thinking on what is required to ensure effective science teaching. A book showing the exemplar designs will be published in early 2008.

The new triple science support programme, delivered by the Learning and Skills Network, which provides practical advice and support to schools to offer separate GCSEs in biology, physics and chemistry.

Information on how much has been spent on science, technology, engineering and mathematics at key stage 3 since 1997 can be provided only at disproportionate cost, or cannot be disaggregated from wider budgets.

From September 2008 the Government want to make GCSEs in the individual sciences of physics, chemistry and biology (triple science) more accessible to pupils who would benefit. To achieve this we are introducing a non-statutory entitlement to triple science for all pupils who achieve level 6 in science at key stage 3. All specialist science colleges will be expected to deliver triple science from 2008. The Government have also put in place the triple science support programme to support schools as mentioned above. This will include the delivery of 600 days of training to schools by the end of March 2008. The programme has also established 40 local triple science networks to support schools starting to offer triple science.

Science: Teachers

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what estimates he has made of the proportion of *(a)* science and *(b)* mathematics teachers in secondary schools who were not qualified at degree level in these subjects in each year from 1995 to 2007. [163548]

Jim Knight: The information is not available in the format requested, but information on the level of qualification of full-time teachers in service in secondary schools in the subjects they teach is available from the Secondary School Curriculum and Staffing Survey (SSCSS) an occasional sample survey undertaken in the years 1988, 1992, 1996, 2002 and 2007. Figures for 2007 are expected to be published in early 2008.

The following tables show the number of full-time teachers employed in maintained secondary schools by the highest post A-level qualification held in the subjects they taught in 1996 and 2002, the years for which figures are currently available.

Teachers in service: Full-time teachers in maintained secondary schools—highest level of qualification[1] by subject of qualification[2], at November 1996, England

	Percentage						Total

[1] Where a teacher has more than one post A-level qualification in the same subject, the qualification level is determined by the highest level reading from left (degree) to right (other qualifications). For example, teachers shown under PGCE have a PGCE but not a degree or BEd in the subject, while those with a PGCE and a degree are shown only under degree.
[2] Teachers are counted once against each subject in which they have a post A-level qualification
[3] Includes higher degrees but excludes BEds.

Secondary Education: GCE A-Levels

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many and what proportion of secondary schools with sixth forms submitted more than one pupil for A-Level in *(a)* mathematics, *(b)* physics, *(c)* chemistry, *(d)* biology, *(e)* French, *(f)* Spanish, *(g)* German and *(h)* Mandarin in the latest year for which figures are available; and if he will make a statement. [178451]

Jim Knight: The 2006-07 revised figures are provided as follows:

	Number of secondary schools with sixth forms who submitted more than one pupil for A level	Percentage of secondary schools with sixth forms who submitted more than one pupil for a level
Mathematics	2,353	92.9
Physics	2,060	81.3
Chemistry	2,202	86.9
Biology	2,270	89.6
French	1,561	61.6
Spanish	810	32.0
German	1,032	40.7
Mandarin	297	11.7

Secondary Education: Newcastle-Upon-Tyne

Jim Cousins: To ask the Secretary of State for Children, Schools and Families how many children aged 11 to 16 years *(a)* there were in Newcastle-upon-Tyne local education authority schools and *(b)* were resident in Newcastle-upon-Tyne in each year from 2004 to 2007. [178192]

Jim Knight: The information requested is set out as follows:

Local authority cross border movement of pupils resident in England

Newcastle upon Tyne local authority	2007	2006	2005	2004
Secondary[1, 2]				
Number of pupils residing in LA[3]	14,574	14,812	15,059	14,038
Number of pupils[4] attending schools maintained by the LA	14,115	14,414	14,687	13,920
Number of pupils in residence and attending schools maintained by the LA	13,316	13,565	13,820	13,054
Special[1, 5]				
Number of pupils residing in LA[3]	291	286	244	246
Number of pupils[4] attending schools maintained by the LA	306	306	296	296
Number of pupils in residence and attending schools maintained by the LA	248	246	218	214

[1] Excludes pupils reported to be boarders.
[2] Includes; Solely registered and main registration of dually registered pupils. Pupils aged 11 to 15 as at 31 August attending local authority maintained secondary middle deemed secondary, city technology colleges and academies.
[3] Includes pupils attending maintained schools outside the LA.
[4] Includes unmatched records, (i.e. with missing or invalid postcodes)
[5] Includes: Solely registered and main registration of dually registered pupils. Pupils aged 11 to 15 as at 31 August 2006 attending maintained and non-maintained special schools.

Secondary Education: Teaching Methods

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families what estimate has been made of the cost of introducing small group tuition into secondary schools. [180467]

Jim Knight: There is no single DCSF programme of small group tuition, although there are various programmes which encourage its use, including the Every Child a Reader and Every Child Counts programmes in primary schools, and Study Plus in secondary schools.

This range of programmes and the variety and flexibility of approaches used in schools already mean that we cannot give a simple cost for small group teaching in either primary or secondary schools. However, £1.6 billion has been committed to support personalised learning over the Comprehensive spending review SR period 2008-11, building on the £990 million allocated over the last two years. This funding is designed to ensure that every school has the capacity to deliver personalised learning, including the use of smaller groups where appropriate.

Specialised Diplomas

Mr. Laws: To ask the Secretary of State for Children, Schools and Families if he will make a statement on the equivalence between diplomas and GCSEs. [179707]

Jim Knight: On 18 December 2007, the Qualifications and Curriculum Authority (QCA) announced that the diplomas would be judged equivalent to 5 GCSEs grade A*-G at the foundation level, 7 GCSEs grade A*-C at the higher level and 3.5 A-levels grade A*-E at the advanced level. The equivalence given to diplomas reflects the size and challenge of completing a large composite qualification.

Mr. Hayes: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the cost of introducing the new system of school diplomas. [180445]

Jim Knight: The estimated cost of introducing diplomas for 2008/09 is as follows:

KS4: £158 million direct/indirect costs of delivery

£45 million for the additional costs of work force development

The LSC will provide funding for 16 to 18-year-olds taking up diplomas in sixth forms and colleges based on the funding rates published on 21 December 2007 at http://www.lsc.gov.uk/providers/funding-policy/strategic-overview. These are based on an assessment of cost for each diploma line and level of learning.

The cost in subsequent years will not be known until the number of places and learners are confirmed.

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families when he plans to publish the curriculum specification for the diploma qualifications in *(a)* Construction and Built Environment, *(b)* Information Technology, *(c)* Creative and Media, *(d)* Society, Health and Development and *(e)* Engineering at the (i) Foundation Diploma level, (ii) Higher Diploma level and (iii) Advanced Diploma level. [180799]

Jim Knight: To support the delivery of Diploma learning, we have developed and published guidance in September 2007 for the first five lines of learning, at Foundation Level (level one), Higher Level (level two) and Advanced Level (level three). The purpose of publishing this guidance early at least a year before first teaching of the Diplomas is to support partnership curriculum planners and teachers in making decisions about introducing the Diploma and devising schemes of work. The following curriculum specifications have been accredited and published for first teaching in September 2008:

Construction and the Built Environment

Creative and Media

Engineering

Information Technology

Society, Health and Development.

The guidance is available online at:

www.qca.org.uk/diploma

Specialised Diplomas: Finance

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what additional finance will be made available to schools for each student studying for a diploma; and if he will make a statement. [179706]

Jim Knight: An initial allocation of £26 million to cover the additional costs of diplomas in respect of pupils starting diplomas at key stage 4 in 2008/09 was notified to local authorities on 18 December 2007. The average level of funding payable per student from this source in 2008-09 will amount to £1,000.

The LSC will provide funding for 16 to 18-year-olds taking up Diplomas in sixth forms and colleges based on the funding rates published on 21 December 2007.

Further details of the funding available and the rates that apply can be accessed through the 14-19 education and skills website at

http://www.dfes.gov.uk/14-19/index.cfm?sid=43

Specialist Schools: Barnet

Mr. Dismore: To ask the Secretary of State for Children, Schools and Families which schools in Barnet have specialist status; what their specialisms are in each case; what funding was made available to each in the latest period for which figures are available; what outstanding applications for specialist status there are; and if he will make a statement. [177527]

Jim Knight: The following table shows the information requested. There are 13 maintained secondary schools in Brent local authority, all of which have specialist status. The Government remain committed to the specialist schools programme as a means of raising attainment and achievement for all secondary-age pupils.

School name	Specialism	Second specialisms	Leading options	Specialist school recurrent funding 2007-08 (£)
Alperton Community School	Maths and Computing	—	—	181,379
Cardinal Hinsley Mathematics and Computing College	Maths and Computing	—	—	59,985
Claremont High School	Arts	Maths and Computing	Vocational	343,989
Convent of Jesus and Mary Language College	Language	—	—	159,000
Copland—A Specialist Science Community College	Science	—	—	215,559
JFS	Humanities	—	—	223,209
John Kelly Boys' Technology College	Technology	—	—	94,170
John Kelly Girls' Technology College	Technology	Language	—	211,260
Kingsbury High School	Maths and Computing	—	—	226,653
Preston Manor High School	Science	—	Raising Achievement Transforming Learning	220,185
Queen's Park Community School	Business and Enterprise	—	—	129,000
St. Gregory RC High School	Science	—	—	129,000
Wembley High Technology College	Technology	—	Training School	190,134

Teachers

Norman Baker: To ask the Secretary of State for Children, Schools and Families if he will bring forward measures to establish the status of teachers in classrooms as in loco parentis; and if he will make a statement. [178162]

Jim Knight: Taken together, the Children Act 1989 and the Education and Inspections Act 2006 give teachers the powers they need to manage pupils' behaviour, so new legislation in this area is unnecessary.

Teachers: Greater London

Mr. Hands: To ask the Secretary of State for Children, Schools and Families how many *(a)* full-time and *(b)* part-time (i) primary and (ii) secondary school teachers there were in each London borough in each of the last five years; and if he will make a statement. [179290]

Jim Knight: The following tables provide separately the full-time and part-time head count and part-time full-time equivalent (FTE) number of regular teachers employed in local authority-maintained nursery/primary and secondary schools in England, London and each London local authority from January 2003 to 2007.

Headcount of full-time regular teachers[1] in local authority maintained nursery/primary and secondary schools in England and each London local authority, January 2003 to 2007

Note:

Figures are rounded to the nearest 10.

Teachers: Public Opinion

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 18 December 2007, *Official Report*, column 1282W, on teachers: public opinion, what *(a)* discussion groups and *(b)* other qualitative and quantitive opinion research of teachers commissioned by his Department have been conducted in each of the last six months. [178424]

Jim Knight: The Department often commissions research which involves both quantitive and qualitative research methods. However, the appropriate data collection method varies depending on the research aims and the time and budget available to carry out the research project. Data on *(a)* other discussion groups and *(b)* other qualitative and quantitive opinion research of teachers commissioned by my Department is not readily available. Gathering this information would involve disproportionate cost.

Tyndale Academy

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families what recent representations he has received on the registration of Tyndale Academy. [180561]

Jim Knight: In the last three months we have received one representation from the proprietor and one from a member of staff at Tyndale academy about the institution's registration.

HOME DEPARTMENT

Airports: Security

Mr. Gregory Campbell: To ask the Secretary of State for the Home Department pursuant to the answer of 17 December 2007, *Official Report*, column 1165W, on airports: security, whether photographic security procedures applied to people travelling to Belfast from UK airports are applied to passengers travelling to other UK destinations in an identical manner. [178581]

Mr. McNulty *[holding answer 14 January 2008]:* As the Under-Secretary of State for Transport, my hon. Friend the Member for Poplar and Canning Town (Jim Fitzpatrick), stated in his answer on 17 December 2007, the aviation security measures in place in the UK apply equally to all airports within the National Aviation Security programme.

Separately, the police require airlines to present passengers in a manner that would prevent any attempt to evade police scrutiny. To meet this requirement a number of airports across the United Kingdom have deployed digital imaging to ensure that the passenger who actually boards the aircraft is the same passenger that checked in. Digital imaging has been determined as the least intrusive method of meeting the police requirement, but there may be some variation in practice between airports.

Antisocial Behaviour

Mr. Hollobone: To ask the Secretary of State for the Home Department how many incidents of antisocial behaviour were reported to the Respect Task Force in each of the last three years. [168506]

Mr. Coaker: The Home Office does not record incidents of antisocial behaviour. Any such incidents are usually reported to the police, local authority, landlord or other frontline agency public whose task it is to deal directly with that problem. However, in common with many other Departments—for example the Department for Communities and Local Government and the Ministry of Justice—we do receive representations from members of the public, directly or through their Member of Parliament, about our policies in the field of antisocial behaviour. We received over 2,000 such letters and e-mails in the three years from 2005 to 2007.

Arrests: Drugs

Mr. Ruffley: To ask the Secretary of State for the Home Department how many people have been tested for illegal drug use who have been arrested on suspicion of other non-drug-related crimes; and how many of those tested positive for illegal drug use in *(a)* England and Wales and *(b)* broken down by police force area in each year since 1997. [176109]

Mr. Coaker: Since 2003, drug testing of offenders for specified Class A drugs in police custody has operated as part of the drug interventions programme.

The police currently have the power to request persons aged 18 and over in police detention who have been charged or arrested with a "trigger offence" to provide a sample for testing for the presence of a specified Class A drug. Drug testing can be conducted only for offences with a substantial link to the use of heroin or cocaine/crack.

The trigger offences are set out in schedule 6 to the Criminal Justice and Court Services Act 2000. These are the offences which have been shown to have the clearest link with drug misuse, particularly the misuse of heroin and cocaine/crack.

A person arrested or charged with a non-trigger offence may be tested if a police officer decides that there are reasonable grounds to suspect that Class A drug use caused or contributed to the offence. The decision to authorise a sample must be referred to a police officer of at least the rank of inspector.

Given the framework above, the data requested are not available.

Asylum Seekers

Mr. Hayes: To ask the Secretary of State for the Home Department what the procedures are for reporting cases of physical and verbal abuse *(a)* by and *(b)* against failed asylum seekers during the removal process; and how many cases there have been of each in the last 12 months. [172269]

Mr. Byrne: When an incident of verbal or physical abuse occurs against escort staff by detainees (which includes failed asylum seekers), staff are required to

complete an incident report and submit it to senior managers. Staff can also report the matter to the police. Detainees wishing to complain against escort staff use complaints forms that are freely available in removal centres and submit them in confidence to the Border and Immigration Agency removal centre manager. Information on cases of physical and verbal abuse by and against failed asylum seekers is not collected separately and is therefore not available.

Asylum: Entry Clearances

Mr. Clappison: To ask the Secretary of State for the Home Department pursuant to the answer of 7 January 2008, *Official Report*, column 261W, on asylum: entry clearances, whether the number of asylum applicants granted discretionary leave to remain in each of the categories set out in criteria for granting discretionary leave is recorded by her Department. [179815]

Mr. Byrne *[holding answer 17 January 2008]:* Grants of discretionary leave (DL) are recorded on individual files. Information is collated on the total number of grants of DL and the number of grants of DL made at initial decision on applications by unaccompanied asylum-seeking children aged 17 and under at the time of decision, but not by sub-category. Information at sub-category level can be obtained only by examination of individual records at disproportionate cost.

Asylum: Housing

Jim Cousins: To ask the Secretary of State for the Home Department how many people were supported in National Asylum Support Service and Border and Immigration Agency accommodation in *(a)* Newcastle and *(b)* the north-east in each quarter of (i) 2005, (ii) 2006 and (ii) 2007. [178190]

Mr. Byrne *[holding answer 15 January 2008]:* The numbers of asylum seekers in receipt of support, broken down by Government office region and local authority, are published on a quarterly and annual basis. Copies of these publications are available from the Home Office Research, Development and Statistics website at

http://www.homeoffice.gov.uk/rds/immigration1.html.

Further breakdowns of those in receipt of support by parliamentary constituency are available from the Library of the House.

Asylum: Newcastle City Council

Jim Cousins: To ask the Secretary of State for the Home Department what National Asylum Support Services contract costs were paid to Newcastle city council in *(a)* 2004-05, *(b)* 2005-06 and *(c)* 2006-07; and how much is expected to be paid in 2007-08. [178068]

Mr. Byrne: The Border and Immigration Agency (BIA) has in place a contract with NECARS (the North East Consortium for Asylum and Refugee Support) for which the lead authority is Newcastle city council. The BIA does not hold a separate contract for asylum support with Newcastle city council.

Asylum: North Shields

Jim Cousins: To ask the Secretary of State for the Home Department how many failed asylum seekers were asked to report to North Shields immigration office in *(a)* 2005, *(b)* 2006 and *(c)* 2007. [178067]

Mr. Byrne: This information is not centrally recorded and could be obtained only at disproportionate cost.

Asylum: Somalia

Tony Lloyd: To ask the Secretary of State for the Home Department how many failed asylum seekers of each age group and sex were returned to Somalia in the six months from 1 July 2007; what her policy is on returning women and children to Somalia; and what areas in Somalia are considered safe for return. [177821]

Mr. Byrne: A breakdown of removals to Somalia according to age and sex is set out in the following table. Information relating to the number of asylum applicants removed from the UK during the last quarter of 2007 will be published shortly in the Asylum Statistics: 4th Quarter 2007 bulletin, copies of which will be available from the House Library.

All returns to Somalia, including returns of women and children, are assessed on their individual merits against the background of the latest country information and will only take place when it is established that there are no protection needs.

Those without any legal basis of stay in the UK may also return voluntarily to Somalia. There are scheduled air services to a number of destinations in Somalia—Mogadishu, Bosasso, Hargeisa, Berbera, Burao and Galcaiyo.

Removals, voluntary departures and assisted returns[1] of asylum applicants, including dependants, to Somalia, July to September 2007[2]

Number of removals

Age of applicant at removal date	*Gender*		
	Male	*Female*	*Total*
Under 18	—	—	—
18-29	•	—	•
30-39	5	•	5
40-49	•	—	•
50-59	—	—	—
60+	—	•	•
Total	5	•	10

[1] Includes enforced removals, persons departing voluntarily after enforcement action had been initiated against them, persons leaving under Assisted Voluntary Return Programmes run by the International Organisation for Migration and those who it is established have left the UK without informing the immigration authorities.

[2] Figures are rounded to the nearest five (— = 0, • = 1 or 2) and may not sum to the totals shown because of independent rounding.

Note:
Persons who had sought asylum at some stage, including dependants.

Burglary: Schools

Bob Spink: To ask the Secretary of State for the Home Department how many thefts of IT equipment were reported in schools in Essex in each of the last three years. [179236]

Mr. McNulty: The information requested is not collected centrally.

Community Support Officers

Paul Rowen: To ask the Secretary of State for the Home Department what the retention level of police community support officers was in each police authority area in each year since 2002-03. [179303]

Mr. McNulty *[holding answer 15 January 2008]:* Information on the retention rate of police community support officers is a matter for each police authority and chief constable.

Crime Prevention: Young People

Mr. Ruffley: To ask the Secretary of State for the Home Department what *(a)* methods and *(b)* technologies her Department has recommended to (i) police forces and (ii) local authorities for controlling the unlawful assembly of young people. [177990]

Mr. McNulty: The Government have provided police and local authorities with a number of legislative options to maintain public order on our streets. The use of tactics, methods and technologies to control the unlawful assembly of young people, working within these legislative options, are operational matters for the police working with local authorities.

Crime: Internet

James Brokenshire: To ask the Secretary of State for the Home Department what plans the Government have to ratify the Council of Europe convention on cybercrime; and if she will make a statement. [167533]

Mr. Coaker: The Government remain committed to ratifying the Council of Europe convention on cybercrime, which we signed in 2001. The Government intend to begin the work of ratifying the convention in April 2008.

Crime: Surrey

Mr. Malins: To ask the Secretary of State for the Home Department (1) how many crimes involving the fraudulent use of credit or debit cards in Surrey were *(a)* reported and *(b)* successfully detected in each of the last five years for which figures are available; [178095]

(2) how many thefts were reported in Surrey in each of the last five years for which figures are available; and what percentage were successfully detected; [178098]

(3) what the detection rate for domestic burglary was in Surrey in each of the last six years. [178099]

Mr. McNulty: The information requested is shown in the following table.

Table 1: Cheque and credit card fraud offences and theft offences recorded and detected in Surrey

	Cheque and credit card fraud		*All theft offences*	
	Recorded	*Number detected*	*Recorded*	*Percentage detected*
2002-03	2,349	576	27,789	13
2003-04	1,800	445	28,986	13
2004-05	1,466	743	25,374	14
2005-06	1,071	581	24,636	14
2006-07[1]	2,489	2,209	25,857	17

[1] The Fraud Act 2006 commenced on 15 January 2007, altering the definition and coverage of fraud and forgery offences. At that time, the counting of cheque and plastic card fraud changed to a "per account" basis rather than a "per transaction" basis.

Table 2: Detection rate for domestic burglary offences recorded by the police in Surrey

	Percentage detected
2001-02	12
2002-03	11
2003-04	13
2004-05	14
2005-06	12
2006-07	15

Crimes of Violence

Mr. Jenkins: To ask the Secretary of State for the Home Department how many *(a)* violence against the person, *(b)* criminal damage and *(c)* drug-related offences have been recorded in Tamworth since 2000. [179383]

Mr. McNulty: The information requested is shown in the following table.

Selected offences recorded by the police in Tamworth

	Violence against the person	*Criminal damage*	*Drug offences*
2000-01	1,610	1,721	103
2001-02[1]	1,884	2,025	142
2002-03	1,905	1,872	116
2003-04	2,003	2,029	157
2004-05	2,240	1,907	212
2005-06	2,125	2,020	270
2006-07	2,214	1,950	337

[1] The national crime recording standard was introduced in April 2002. Figures before and after that date are not directly comparable.

Crimes of Violence: Elderly People

Dr. Kumar: To ask the Secretary of State for the Home Department how many elderly people in Teesside reported being a victim of violent crime in *(a)* Teesside and *(b)* Middlesbrough South and East Cleveland in each of the last 10 years. [179612]

Mr. Coaker: The information requested is not available.

Police recorded crime statistics are available at police force and local authority area level, but details relating to the age of victims of crime is not collected. The British Crime Survey does collect this information and can provide the data at national level, but not at police force or local authority area level.

Criminal Proceedings: Disclosure of Information

Mr. Ruffley: To ask the Secretary of State for the Home Department if she will list the codes of practice issued under the *(a)* Police and Criminal Evidence Act 1984 and *(b)* Criminal Procedure and Investigations Act 1996 on the disclosure of information to defendants; what changes have been made to each since their original publication date; which have been subject to (i) a review and (ii) a public consultation by her Department; and if she will make a statement. [176104]

Mr. McNulty: The information requested is as follows:

PACE Codes

The following Codes of Practice have been issued under the provisions of section 60 and Part VI of the Police and Criminal Evidence Act 1984. These are:

Code A: Stop and Search introduced 1 January 1986 SI 1985/1937

Code B: Entry search and seizure introduced 1 January 1986 SI 1985/1937

Code C: Detention Questioning and Treatment (excluding terrorism cases) introduced 1 January 1986 S11985/1937

Code D: Identification introduced 1 January 1986 SI 1985/1937

Code E: Tape/Audio recording of interviews with suspects introduced on 20 July 1988 SI 1988/1200

Code F: Visual Recording of interviews with suspects introduced on 30 October 2002 SI 2002/2527. Selected force areas for pilot purposes. Order revoked 1 November 2003 SI 2003/2463

Code G: Arrest introduced on 1 January 2006 SI 2005/3503

Code H: Detention Questioning and Treatment (terrorism cases only) introduced on 25 July 2006 SI 2006/1938

All changes proposed to the PACE codes are subject to parliamentary scrutiny and approval. Prior to presentation before Parliament, there is either a full public consultation or a consultation with statutory stakeholders in accordance with section 67 (4) of PACE. The determination of the consultation process is carried out in discussion with the Home Affairs Committee.

The codes have been subject to change since their introduction in 1986. These changes have been carried out to reflect changes in the provisions of PACE and other legislation governing police powers and procedure. The changes have been detailed and extensive. An itemised list of all changes made since 1986 is not held centrally. However, I have placed in the Library a list of the relevant statutory instruments relating to the introduction of and revision to the PACE Codes since 1986 with a brief description of their effect; and details of the more recent changes can be found on the Home Office websites at

http://police.homeoffice.gov.uk/operational-policing/powers-pace-codes/pace-code-intro

In March 2007 we announced the review of the Police and Criminal Evidence Act 1984 and associated codes of practice (see PACE Review page on the Home Office website). We are currently considering final proposals on making the contents of the codes more accessible to both practitioners and members of the public. Final proposals will be subject to a final consultation in spring 2008.

CPIA Code

The original Code of Practice under section 23(1) of the Criminal Procedure and Investigations Act 1996 (CPIA) was introduced by SI 1997/1033 and came into effect on 1 April 1997. A new version of this code of practice was introduced by SI 2005/985 and came into effect on 4 April 2005 (http://www.opsi.gov.uk/si/si2005/20050985.htm). The 2005 version of this code was preceded by a review and a public consultation exercise, "Criminal Justice Act 2003 Implementation: Disclosure Codes of Practice A Consultation Document". (http://www.homeoffice.gov.uk/documents/2004-cons-cja-implementation/2004-cons-cja-implementation-doc?view=Binary)

The main changes made in the revised version include new provision for deputy disclosure officers and greater facility for the retention of copies instead of original investigative material.

Dangerous Driving

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department what steps the Government plan to take to reduce levels of street racing. [177317]

Mr. Coaker: It is an offence under section 12(1) of the Road Traffic Act 1988 for a person to promote or take part in a race between motor vehicles on a highway. The offence carries a maximum fine at level 4 (£2,500), obligatory disqualification and obligatory endorsement of between three and 11 penalty points on the offender's licence. The police also have a power under section 59 of the Police Reform Act 2002 to seize a vehicle that is being driven carelessly or inconsiderately on road contrary to section 3 of the 1988 Act and in such a way as to cause or be likely to cause alarm distress or annoyance. Enforcement of the law and exercise of the seizure power are operational matters for the police.

Departmental Data Protection

Mr. Philip Hammond: To ask the Secretary of State for the Home Department (1) what reviews have been undertaken of her Department's rules on data protection in the last two years; if she will place in the Library a copy of the report of the last review of her Department's compliance with data protection laws; and if *(a)* her Department and *(b)* her Department's agencies will undertake a review of their compliance with data protection laws; [168090]

(2) on how many occasions in *(a)* her Department and *(b)* its agencies confidential data have been downloaded on to compact discs (i) without and (ii) with encryption in the last 12-month period for which figures are available; how many of those discs have been posted without using recorded or registered delivery; what procedures her Department has in place for the (A) transport, (B) exchange and (C) delivery of confidential or sensitive data; what records are kept of information held by her Department being sent outside the Department; what changes have been made to her Department's rules and procedures on data protection in the last two years; on how many occasions her Department's procedures and rules on data protection have been breached in the last five years; what those breaches were; what procedures her Department has in place on downloading confidential data on to computer discs before its transfer; what technical protections there are in her Department's computer systems to prevent access to information held on those systems which is not in accordance with departmental procedures; and if she will place in the Library a copy of each of her Department's rules and procedures on the protection of confidential data on individuals, businesses and other organisations; [168256]

(3) how many employees of each grade in her Department *(a)* have access to confidential or sensitive data and *(b)* are authorised to download such data to disc; how many of her Department's employees have undergone data protection training in the last 12 months; what the average length of time is that each employee of (i) her Department and (ii) her Department's agencies has spent on data protection training; how many investigations of employees of her Department for improperly accessing confidential information have taken place in the last 12 months; how many such investigations resulted in cases of disciplinary action; and what the circumstances of each of those cases were; [168276]

(4) what steps have been taken to protect individuals in the event of a data breach of the National Identity Register. [171889]

Mr. Byrne: I refer the hon. Member to the statement made by my right hon. Friend the Prime Minister on 21 November 2007, *Official Report*, column 1179W. The review by the Cabinet Secretary and security experts is looking at procedures within Departments and agencies for the storage and use of data. A statement on Departments' procedures will be made on completion of the review.

Keith Vaz: To ask the Secretary of State for the Home Department what procedures are in place in her Department to ensure that personal information relating to members of the public is *(a)* stored and *(b)* transported securely. [168474]

Mr. Byrne: I refer my right hon. Friend to the statement made by my right hon. Friend the Prime Minister on 21 November 2007, *Official Report*, column 1179W. The review by the Cabinet Secretary and security experts is looking at procedures within Departments and agencies for the storage and use of data. A statement on Departments' procedures will be made on completion of the review.

Mr. Walker: To ask the Secretary of State for the Home Department whether her Department's information technology and data management systems are BS7799 compliant. [168746]

Mr. Byrne: I refer the hon. Member to the statement made by my right hon. Friend the Prime Minister on 21 November 2007, *Official Report*, column 1179W. The review by the Cabinet Secretary and security experts is looking at procedures within Departments and agencies for the storage and use of data. A statement on Departments' procedures will be made on completion of the review.

Departmental Freedom of Information

David Davis: To ask the Secretary of State for the Home Department what requests were made to her Department under the Freedom of Information Act (FOI) 2000 in each of the last two years; and what the *(a)* FOI case reference number, *(b)* request summary, *(c)* request outcome and *(d)* where appropriate, reason for exemption was in each case. [171782]

Jacqui Smith: In 2005, 1,970 requests were received in the Home Office, of which 1,469 were resolvable. The non-resolvable cases were those where no information was held or where advice and assistance were provided. Of the 1,469 resolvable requests, 42 per cent. of the requests were granted in full and 35 per cent. were withheld in full. The remainder of requests resulted in a partial disclosure or the requests were not replied to in 2005.

In 2006, 2,861 requests were received of which 1,790 were resolvable. Of the resolvable requests, 42 per cent. were granted in full and 33 per cent were withheld in full. The remainder resulted in a partial disclosure or the requests were not replied to in 2006.

Between 1 January and 30 September 2007, 1,849 requests were received, of which 1,270 were resolvable. Of the resolvable requests, 50 per cent. were granted in full and 24 per cent. were withheld in full. The remainder resulted in a partial disclosure or the requests were still being processed after 30 September last year. All percentages have been rounded to the nearest whole number.

All Freedom of Information requests are logged on an Access database. An automatic case reference number is generated by the database when a new case is added.

Unfortunately a summary of each request received by the Department could be provided only at disproportionate cost. FOI requests are often contained in letters detailing individuals' personal circumstances. To put the details of the requests into the public domain would require personal information (which would allow identification of the individual to be ascertained) to be removed. This could be done only at disproportionate cost. The Home Office disclosure log provides a useful picture of the types of request received by the Department and the information which has been disclosed as a result. The disclosure log can be found at

http://www.homeoffice.gov.uk/about-us/freedom-of-information/released-information/

It is also impossible to provide the specific reason why an exemption is applied without consulting each FOI response issued by the Department. This information could be collated only at disproportionate cost. It may however be useful to see the top ten exemptions used by the Department from September 2006 to August 2007.

1. S40 Personal information (139).
2. S31 Law enforcement (105).
3. S22 Information intended for future publication (89).
4. S35 Formulation of government policy (49).
5. S36 Prejudice to effective conduct of public affairs (44).
6. S43 Commercial interests (38).
7. S23 Information supplied by or related to bodies dealing with security matters (32).
8. S38 Health and safety (30).
9. S24 National security (29).
10. S42 Legal professional privilege (22).

The right hon. Gentleman should be aware that more than one exemption can be applied for withholding information within a single request.

Departmental Marketing

Mr. Hoban: To ask the Secretary of State for the Home Department how many posters or displays there are in the offices of her Department and its agencies displaying the names and photographs of Ministers; and what the cost has been of producing such posters or displays in the last five years. [179837]

Mr. Byrne: At present there are four displays in the Home Office and its agencies displaying the work and organisational structure of the Department, which include names and photographs of Ministers.

It is not possible without incurring disproportionate costs to identify separately the costs of specifically updating the ministerial information.

Driving Offences: Fixed Penalties

Mr. Lansley: To ask the Secretary of State for the Home Department how many driving licences submitted to fixed penalty offices have been lost before return to the holder. [177295]

Maria Eagle: I have been asked to reply.

The information requested is not held centrally and could be provided only at disproportionate cost. In the event of a driving licence being lost, Royal Mail will pay compensation to replace the licence and the national fixed penalty forum will assist with the claims.

Drugs: Children

Dr. Kumar: To ask the Secretary of State for the Home Department (1) how many children under 16 in *(a)* the north-east, *(b)* Teesside and *(c)* the Middlesbrough South and East Cleveland constituency were arrested for possession of class (i) A drugs, (ii) B drugs and (ii) C drugs in each of the last seven years; [179614]

(2) how many children under 16 were arrested in *(a)* the North East and *(b)* Middlesbrough, South and East Cleveland constituency for dealing class (i) A drugs, (ii) B drugs and (ii) C drugs in each of the last seven years. [179615]

Mr. Coaker: The information requested is not available centrally.

The arrests collection undertaken by the Ministry of Justice provides data on persons arrested for recorded crime (notifiable offences), by age group, gender, ethnicity, and main offence group, i.e. violence against the person, sexual offences, robbery, burglary, drugs offences etc. More detailed data about specific offences do not form part of this collection.

Drugs: Misuse

Mr. Ruffley: To ask the Secretary of State for the Home Department what percentage of those brought into a police station tested positively for Class A drugs in each year since 1997; and what the level was of voluntary take-up of treatment. [166840]

Mr. Coaker: Following a successful pilot in a limited number of sites between 2001 and 2003, drug testing of offenders for specified Class A drugs (heroin and cocaine/crack) in police custody came into operation from 2003 across 30 BCUs as part of the Drug Interventions Programme. Since that time the programme has expanded in a phased approach to 66 basic command units in 2004 and some 107 BCUs in 2005.

Only offenders arrested or charged with a "trigger offence"—largely acquisitive crime related offences—are required to provide a sample to be tested for specified Class A drugs.

Between 2003 and 2005, the programme operated drug testing at the point of charge. The average rate of positive tests for specified Class A drugs for offenders charged with a trigger offence was as follows:

2003-04: 54 per cent.

2004-05: 46 per cent.

From 2005 to the present time the programme operated drug testing at the point of arrest and the average rate of positive tests for specified Class A drugs for offenders arrested for a trigger offence was:

2005-06: 45 per cent.

2006-07: 37 per cent.

From 2003 the number of offenders entering treatment voluntarily through the Drug Interventions Programme are as follows:

	Number
2003-04	1,950
2004-05	16,517
2005-06	24,557
2006-07	39,903

Mr. Malins: To ask the Secretary of State for the Home Department which recommendations of the Downing street strategy unit report on drugs of 2005 have been implemented. [178109]

Phil Hope: I have been asked to respond.

The strategy unit report on high-harm-causing drugs was undertaken in 2003, and contributed to wider policy debate across Government. The report did not make any formal recommendations to the Home Office, but helped to inform the development of the Government's existing drug strategy, which sets out a range of policies and interventions focusing on the most dangerous drugs that cause the most harm to communities and individuals.

Entry Clearances: Fraud

Mr. Holloway: To ask the Secretary of State for the Home Department on how many occasions sponsors of visa applications have been found to be under investigation for obtaining indefinite leave to remain by fraudulent means; and if she will make a statement. [177815]

Mr. Byrne: The information requested could be obtained only through detailed examination of individual case records at disproportionate cost.

Essex Police Authority: Finance

Mr. Amess: To ask the Secretary of State for the Home Department (1) what the total police grant funding was for Essex police authority in each year since 1990; [174086]

(2) how much funding was allocated per head of population to Essex police authority in each year since 1990. [174083]

Mr. McNulty: Essex police authority in its present format came into existence on 1 April 1995. Revenue grants for Essex police authority since 1995-96 are set out in the following table.

The Government do not distribute grant to police authorities purely on the basis of population. The police funding formula uses a range of data relating to demographic and social characteristics to reflect the relative needs of each authority. Grant allocations also take into account the relative tax base of each authority. Grant allocations are stabilised by damping to limit year-on-year variations.

Essex police authority government revenue grant allocations 1995-96 to 2007-08

	Government grant[1] *(£ million)*	*Resident population (million)*
1995-96	123.29	1.56
1996-97	127.31	1.57
1997-98	129.70	1.58
1998-99	131.53	1.59
1999-2000	132.75	1.60
2000-01	142.51	1.61
2001-02	152.99	1.62
2002-03	157.94	1.62
2003-04	169.34	1.63
2004-05	173.67	1.64
2005-06[2]	181.81	1.65
2006-07[3,4]	180.43	1.65
2007-08	187.91	1.66

[1] Revenue funding includes all grants inside Aggregate External Finance (AEF) (i.e. revenue grants paid for councils' core services), and includes formula grant and all specific grants.
[2] 2005-06 figures have been adjusted for purposes of comparison with future years following the transfer of pensions and security funding from general grant in 2006-07.
[3] 2006-07 Government grant figures are provisional outturn figures. 2007-08 figures are budget figures.
[4] In keeping with an initiative by the Chartered Institute of Public Finance and Accountancy, the data for 2006-07 have been collected on a Financial Reporting Standard 17 (FRS17) basis. On this basis, decisions relating to pensions are accounted for in the year they are taken, rather than the year to which they apply. As a result some expenditure on pensions may be reflected in the data and consequently comparisons between 2006-07 and data on a non-FRS17 basis may not be valid.
Source:
Population: Office of National Statistics, mid year population estimates and projections. Grants: DCLG.

Essex Police: Manpower

Mr. Amess: To ask the Secretary of State for the Home Department how many *(a)* police officers and *(b)* operational police officers per head of population there were in Essex police authority in each year since 1990. [174084]

Mr. McNulty: The data for police officers are taken from the Home Office Statistical Bulletin series "Police Service Strength England and Wales" which was first published in 1998, so the data are available from 1998 onwards. The data for operational police officers have been centrally collected since 2003, so the data are available from 2003 onwards. The available data are given in the following table.

Police officer strength for Essex police force area, as at 31 March (FTE)[1,2]

	Total officers per 100,000 population[3]	*Total operational officers per 100,000 population*[3]
1998	193	—
1999	190	—
2000	183	—
2001	179	—
2002	181	—
2003	186	177
2004	192	182
2005	198	187
2006	203	192
2007[4]	203	196

[1] Full-time equivalent. This figure includes those on career breaks or maternity/paternity leave.
[2] This and other tables contain full-time equivalent figures that have been rounded to the nearest whole number. Because of rounding, there may be an apparent discrepancy between totals and the sums of the constituent items.
[3] Officers per 100,000 population for City of London and Metropolitan Police are combined.
[4] Functional group totals do not match published figures. Data quality may be an issue with this force.

European Police Office

Mr. Hayes: To ask the Secretary of State for the Home Department how many non-UK Europol officers have permission to operate within the United Kingdom; and if she will make a statement. [178229]

Mr. Byrne: No non-UK Europol officers currently have permission to operate within the United Kingdom.

Foreign Workers: Care Homes

Mrs. Moon: To ask the Secretary of State for the Home Department what assessment has been made of the effects of the introduction of additional transitional measures to case worker guidance on handling work permit applications relating to senior care worker posts and applications from senior care workers previously refused extensions on grounds that their new posts were not advertised nationally. [179760]

Mr. Byrne: The work permit arrangements do not require now, did not require under transitional arrangements introduced in August 2007, and did not require prior to the introduction of these transitional arrangements, jobs to be advertised nationally when a work permit holder changes employer but continues to do the same type of job. Normally this only applies when an application is received either before permit holders leave their current employment or within 28 days of their last day of work with their previous employer.

Applicants whose work permits have already expired should apply for extensions as soon as possible. Caseworkers consider all aspects of each individual case when making a decision.

Fraud: Credit Cards

Mr. Jenkins: To ask the Secretary of State for the Home Department how many crimes involving fraudulent use of credit or debit cards in Tamworth were *(a)* reported and *(b)* successfully detected in each of the last five years for which figures are available. [179384]

Mr. McNulty: The available information relates to offences of cheque and credit card fraud recorded in the Tamworth Crime and Disorder Reduction Partnership (CDRP) area and is given in the following table. Detections data is not available at CDRP level.

Cheque and credit card fraud offences and theft offences recorded and detected in Tamworth

	Cheque and credit card fraud	
	Recorded	*Number detected*
2002-03	239	[1]
2003-04	287	[1]
2004-05	234	[1]
2005-06	126	[1]
2006-07[2]	98	[1]

[1] Not available.
[2] The Fraud Act 2006 commenced on 15 January 2007, altering the definition and coverage of fraud and forgery offences. At that time, the counting of cheque and plastic card fraud changed to a "per account" basis rather than a "per transaction" basis.

Genetics: Databases

Mr. Clegg: To ask the Secretary of State for the Home Department what estimate she has made of the cost to date of removing errors from the National DNA Database. [167031]

Jacqui Smith: A number of procedures carried out by police forces, forensic suppliers and the National DNA Database Custodian's staff are in place to ensure that information is recorded as accurately as possible on the National DNA Database. These procedures are designed to ensure as far as possible that errors are not included on the database in the first place rather than removing them once they are on. It is not possible to disaggregate the costs of these procedures from the general costs of work done by these organisations.

Human Trafficking

David Davis: To ask the Secretary of State for the Home Department whether the security of the support and accommodation arrangements provided for child victims of human trafficking in the north-west, north-east and midlands will be reviewed; what representations she has received from campaign organisations on the safety and security of trafficked children within the care of local authorities; and if she will make a statement. [177079]

Jacqui Smith: Under the Children Acts 1989 and 2004, it is the responsibility of local authorities rather than central Government to safeguard and promote the welfare of any child who is assessed to be at risk of harm and in need of accommodation. Any review of the security of the support and accommodation arrangements provided for child victims of human trafficking in particular areas would, therefore, be for the relevant local authorities.

On 7 December 2007 the Government published supplementary guidance, Working Together to Safeguard Children—Safeguarding Children who may have been Trafficked, which actively guides practitioners towards making appropriate decisions for safeguarding children they suspect may have been trafficked. The Government will also shortly publish their reform programme for unaccompanied asylum seeking children which will include proposals on how safe arrangements for trafficked children may be further improved.

The Under-Secretary of State for the Home Department, my hon. Friend the Member for Gedling (Mr. Coaker), who is responsible for crime reduction, has met representatives from children's charities to discuss the safeguarding of trafficked children, and informed them of the Government's policy aims for safeguarding child victims of trafficking.

David Davis: To ask the Secretary of State for the Home Department what plans the Government have for provision of support for people who have been trafficked beyond the current funding arrangement for the Poppy Project. [177080]

Mr. Straw: I have been asked to reply.

The Government have announced their intention to accelerate plans to ratify and implement the Council of Europe Convention on Action against Trafficking in Human Beings by the end of 2008, which sets a minimum framework of support for all identified victims of trafficking. This will enable us to enhance our existing arrangements and build on the support provided by the Poppy Project.

David Davis: To ask the Secretary of State for the Home Department how many *(a)* prosecutions and *(b)* convictions there have been for human trafficking offences in each year since 2001, broken down by type of offence. [177083]

Jacqui Smith: The Sexual Offences Act 2003 came into force on 1 May 2004. Prosecution and conviction figures under dedicated trafficking legislation are as follows:

	Court cases	*Guilty verdicts*
2004	4	3
2005	41	21
2006	78	27
2007	45	17

All the above figures relate to cases of human trafficking for the purpose of sexual exploitation. There have been no convictions to date for trafficking for exploitation under the Asylum and Immigration (Treatment of Claimants, etc.) Act 2004 which came into force on 1 December 2004.

David Davis: To ask the Secretary of State for the Home Department what recent estimate she has made of the number of people trafficked into the UK in each year since 2001. [177084]

Jacqui Smith: The nature of the crime makes it difficult to make an accurate assessment of the extent of the problem. In order to understand the situation better, the Serious Organised Crime Agency and with the United Kingdom Human Trafficking Centre continue to work on improving intelligence collection as a priority. The intelligence collected as part of the current Operation Pentameter 2 will help to improve our understanding of the nature and scale of trafficking throughout the UK.

However, findings from a Home Office research paper estimate that at any one time in 2003 there were in the region of 4,000 female victims of trafficking for prostitution in the UK.

Identity Cards: Foreigners

David Davis: To ask the Secretary of State for the Home Department whether she expects the target to roll out identity cards to non-EEA foreign nationals by the end of 2008 to be met. [166090]

Jacqui Smith: Yes. The UK Borders Act confirms the introduction of ID cards for foreign nationals from 2008, and we are on target.

David Davis: To ask the Secretary of State for the Home Department whether identity cards issued to foreign nationals will contain information on their right to work in the UK. [166095]

Jacqui Smith: Yes.

Immigration Controls

Mr. Clappison: To ask the Secretary of State for the Home Department what estimate she has made of the proportion of *(a)* inward migration and *(b)* employment-related inward migration which would have been covered by the points-based system in the most recent year for which figures are available. [177461]

Mr. Byrne: Persons from outside the European economic area wishing to come to the UK to work or study and their dependants will need to apply under the points-based system once it is introduced.

Immigration: Children

Ms Abbott: To ask the Secretary of State for the Home Department if she will take steps to improve the publication of the statistics on children being held in immigration removal centres to ensure that interested parties are able to see how many children are held, and how long they have been held for; and if she will make a statement. [172613]

Mr. Byrne: The Home Office publishes a quarterly snapshot of people detained solely under Immigration Act powers on the last Saturday of each quarter, including a breakdown of children by length of detention. The latest published information pertains to people detained as at 29 September 2007.

Published statistics on immigration and asylum are also available from the Library of the House.

The Border and Immigration Agency is reviewing what statistics are published (all aspects of the statistics, not only statistics on children). A consultation document was issued on 6 December and a copy can be found at

http://www.homeoffice.gov.uk/rds/pdfs07/bia-immig-stat-review-07.pdf

Immigration: Deportation

Mr. Clappison: To ask the Secretary of State for the Home Department how many cases of removal following the legacy exercise fell into each category of removal including *(a)* enforced removals, *(b)* persons leaving voluntarily after enforcement action against them and *(c)* persons leaving under assisted voluntary return programmes. [177336]

Mr. Byrne: We do not hold this information in this format and to obtain it would entail work being carried out at a disproportionate cost.

Immigration: EC Countries

Mr. Ellwood: To ask the Secretary of State for the Home Department what the Government's policy is on whether the UK should join the *(a)* Schengen area and *(b)* Schengen visa system in the future. [177355]

Mr. Byrne *[holding answer 10 January 2008]:* The UK is not a member of the Schengen area as we believe that maintaining our frontier controls, including a national visa system, is the most effective way to combat illegal migration and transnational crime. We work closely with our EU partners to ensure there is effective management of the migration into the EU.

Immigration: Kosovo

Mrs. Moon: To ask the Secretary of State for the Home Department (1) what percentage of applicants for British citizenship from Kosovo were *(a)* refused and *(b)* found not to be of Kosovan origin in the latest period for which figures are available; [177557]

(2) what percentage of applications for British citizenship from Kosovans made since 2000 were processed within *(a)* three months, *(b)* six months and *(c)* one year; and if she will make a statement. [177558]

Mr. Byrne: Out of the total number of people with their nationality recorded as Kosovan that were decided in 2007, 22.5 per cent. were refused. There is no record held of the number of individuals who have applied and subsequently been found not to be of Kosovan origin, and this information could be obtained by the detailed examination of individual case records only at disproportionate cost.

Please see the following table which shows the processing times of files from Kosovo.

The information has been provided from local management information and is not a National Statistic. As such, it should be treated as provisional and therefore subject to change.

Processing times of people recorded as Kosovan

	Cases created	*Percentage within three months*	*Percentage within six months*	*Percentage within one year*
2002	915	17.4	45.7	93.9
2003	815	46.7	70.3	90.4
2004	920	61.6	81.3	98.9
2005	3,395	61.3	88.8	97.6
2006	785	58.1	87.6	94.0
2007	315	64.6	78.4	92.4

Notes:
1. The information has been provided from local management information and is not a National Statistic. As such, it should be treated as provisional and therefore subject to change.
2. Cases created in year rounded to nearest 5.
3. Local management information can only be obtained from the end of 2001, therefore figures only show complete years 2002 to 2007.
4. Applications relate to those cases with their nationality recorded as Kosovan.
5. These figure are based upon the number of cases created in the year.

Immigration: Sri Lanka

Keith Vaz: To ask the Secretary of State for the Home Department how many people from Sri Lanka have been granted indefinite leave to remain in the UK in the last 10 years; and if she will make a statement. [179403]

Mr. Byrne: Statistics on Sri Lankan nationals granted settlement (indefinite leave to enter or remain), 1996 to 2006, are published in Table 5.7 in the Command Paper "Control of Immigration: Statistics United Kingdom 2006". This publication may be obtained from the Library of the House and from the Home Office Research, Development and Statistics website:

http://www.homeoffice.gov.uk/rds/immigration1.html

Immigration: Work Permits

Damian Green: To ask the Secretary of State for the Home Department how much her Department spent in relation to appeals against decisions not to grant people work permits *(a)* in total, *(b)* on legal counsel and *(c)* on immigration tribunal staffing, administration and accommodation costs in the last 12 months. [178537]

Mr. Byrne: Within the immigration rules there is no right of appeal against the refusal to issue a work permit and as such information on work permit appeals is not available. If a work permit is refused, the applicant can apply for a review of the case. The purpose and scope of the review is to consider whether the correct administrative procedures have been followed in reaching a decision on the application.

Independent Police Complaints Commission

Mr. Amess: To ask the Secretary of State for the Home Department (1) under what legislation the awarding of compensation to complainants whose complaints have been upheld by the Independent Police Complaints Commission is regulated; what recent representations she has received about the operation of this legislation; and if she will make a statement; [177567]

(2) what guidance she *(a)* has issued and *(b)* plans to issue to police forces in England and Wales about the awarding of compensation to complainants whose complaints have been upheld by the Independent Police Complaints Commission; what recent representations she has received about the issue; and if she will make a statement. [177568]

Mr. McNulty: Under Section 88 of the Police Act 1996, any decision to award compensation following inappropriate police conduct, including following a complaint upheld by the Independent Police Complaints Commission, is a matter for the chief officer of the force. No representations have been received.

Mr. Amess: To ask the Secretary of State for the Home Department what legislation regulates the Independent Police Complaints Commission; what amendments have been made to, and what recent representations she has received about the operation of this legislation; what *(a)* statutory instruments, *(b)* departmental circulars and *(c)* other documents she (i) has issued and (ii) plans to issue in the next 12 months consequential to the provisions of this legislation; and if she will make a statement. [177569]

Mr. McNulty: The Independent Police Complaints Commission (IPCC) was established under the Police Reform Act 2002, with a remit covering complaints and conduct matters involving persons serving with the police service in England and Wales. The IPCC came into operation on 1 April 2004.

The following regulations were made under the Police Reform Act 2002 in bringing the IPCC into operation:

the Police (Complaints and Misconduct) Regulations 2004 (S.I. 2004/643), amended by S.I. 2006/1406;

the IPCC (Staff Conduct) Regulations 2004 S.I. 2004/660;

IPCC (Transitional Provisions) Order 2004 S.I. 2004/671;

the IPCC (Forces maintained otherwise than under Police Authorities) Order 2004 S.I. 2004/672 (relating to the MoD police and BTP).

The Independent Police Complaints Commission (Investigatory Powers) Order 2004 S.I. 2004/815 modifies, in relation to the functions of the IPCC,

Part 3 of the Police Act 1997 (authorisations to interfere with property);

and

Parts 2 (intrusive surveillance) and 4 (Tribunal) of the Regulation of Investigatory Powers Act 2000

Schedule 12 to the Serious Organised Crime and Police Act 2005 amended the Police Reform Act 2002, extending the IPCC's remit to cover death and serious injury matters, and to cover complaints against the Serious Organised Crime Agency.

The Commissioners for Revenue and Customs Act 2005 and the Revenue and Customs (Complaints and Misconduct) Regulations 2005 (S.I. 2005/3311) as amended by S.I. 2006/1748 made under the 2005 Act extended the IPCC's remit in relation to the Commissioners and officers of HM Revenue and Customs.

The Police and Justice Act 2006 will extend the IPCC's jurisdiction to cover specified enforcement functions of immigration officers.

A Statutory Order was laid before Parliament on 5 June 2007 for the purpose of applying the Official Secrets Act to IPCC commissioners and staff.

Further legislation changes affecting the IPCC will be made as part of the introduction of a new simplified and modernised police misconduct system. However, no further regulatory changes are envisaged in the next 12 months.

Intelligence Services: Disclosure of Information

Mr. Paterson: To ask the Secretary of State for the Home Department what procedures exist for former agents of the United Kingdom intelligence services to make complaints about alleged operational misconduct practised and directed by officers of the intelligence services responsible for recruiting them. [179734]

Mr. McNulty: It is open to anyone who is aggrieved by conduct they believe has been taken against them or their property by, or on behalf of, the intelligence services to complain to the independent Investigatory Powers Tribunal (IPT). Anyone who suspects criminal wrongdoing should inform the police.

Members: Correspondence

Sir Michael Spicer: To ask the Secretary of State for the Home Department when a reply will be sent to the hon. Member for West Worcestershire's letter to the Minister of State, dated 27 November 2007, on behalf of a constituent about the deportation of asylum seekers to Uzbekistan. [178023]

Mr. Byrne *[holding answer 14 January 2008]:* The chief executive of the Border and Immigration Agency responded to the hon. Member for West Worcestershire's letter on 11 January 2008.

Metropolitan Police: Legal Costs

Mr. Evennett: To ask the Secretary of State for the Home Department how much was spent by her Department in total on defending actions brought against the Metropolitan police by victims of crime in each year since 2001. [180908]

Mr. McNulty: Defending actions brought against the Metropolitan police is a matter for the Metropolitan police and the Metropolitan Police Authority.

Pakistan: Arrests

Mr. Mullin: To ask the Secretary of State for the Home Department what representations she received from the Government of Pakistan on *(a)* Hyrbyair Marri and *(b)* Faiz Baluch prior to their arrest in the UK. [177813]

Mr. McNulty: The Home Office does not comment on individual cases.

Passports

Kate Hoey: To ask the Secretary of State for the Home Department whether she plans to require UK citizens resident in Northern Ireland to carry and show their passports when travelling to the rest of the UK. [175651]

Mr. McNulty: There are no plans to require Northern Ireland citizens to carry and show passports when travelling to the rest of the United Kingdom.

Section 14 of the Police and Justice Act 2006 introduced a new power that will allow the police to capture passenger, crew and service information on air and sea journeys within the United Kingdom. The intention is that the power will be brought into force by secondary legislation in 2008. The specific police requirements under this power, which will include details of the routes affected and data required, are still under discussion within Government. Once the proposals have been finalised they will be subject to a 12-week public consultation.

It is expected that this police power will only apply to air and sea routes between Great Britain and Northern Ireland. Passengers will not be required to use passports, but may be required to produce one of several types of documentation when travelling, to enable the carrier to meet the requirements of a police request.

Police

Mr. Hollobone: To ask the Secretary of State for the Home Department pursuant to the answer of 14 January 2008, *Official Report*, columns 1064-65W, on police, what estimate she has made of the number of civilian police posts (excluding police community support officers) in *(a)* Northamptonshire and *(b)* England in (i) September 2004 and (ii) March 2007. [180069]

Mr. McNulty: The requested data on police staff are published as part of the Home Office Statistical Bulletin (HOSB) series "Police Service Strength, England and Wales". These bulletins are in the Library of the House and can be downloaded from the Home Office website.

(i) Information requested for September 2004 can be found in Table 2 of HOSB 23/05 located at:

http://www.homeoffice.gov.uk/rds/pdfs05/rdsolr2305.pdf

(ii) Information requested for March 2007 can be found in Table 10a of HOSB 13/07 located at:

http://www.homeoffice.gov.uk/rds/pdfs07/hosb1307.pdf

Police Stations: Closures

Tim Farron: To ask the Secretary of State for the Home Department how many police stations in rural areas have been closed in each local authority area in each of the last five years. [178464]

Mr. McNulty *[holding answer 14 January 2008]:* The management of the police estate and allocation of resources are matters for each police authority and the chief officer, who are responsible for assessing local needs.

Police: Burglary

Paul Rowen: To ask the Secretary of State for the Home Department how many reported thefts of lead there were in each police authority area in each of the last five years; how many successful prosecutions there have been of such thefts; and if she will make a statement. [179304]

Mr. McNulty *[holding answer 15 January 2008]:* The Home Office collect and publish recorded statistics on specific offences of theft. For example: theft from the person, theft from a vehicle, theft from a shop, theft by an employee etc. However, these statistics do not specify the item(s) which have been stolen.

Police: Cars

Mr. Evans: To ask the Secretary of State for the Home Department how many cars were *(a)* seized and *(b)* held by police in (i) Lancashire, (ii) Cumbria, (iii) Yorkshire and (iv) Greater Manchester in each of the last five years. [179935]

Mr. McNulty *[holding answer 17 January 2008]:* The police can seize vehicles under Section 59, Police Reform Act 2002 and Section 165A, Road Traffic Act 1988 as amended. Section 59 enables the police to seize a vehicle they reasonably believe is being driven in a

way that both contravenes s3 or 34 of the Road Traffic Act 1988 (careless/inconsiderate driving or off-road driving without authority) and is causing or is likely to cause alarm, distress or annoyance. Section 165A enables the police to seize a vehicle they reasonably believe is being driven by someone who does not have an appropriate licence (including a disqualified driver) or appropriate insurance. In both cases the police can hold the vehicle until a person pays prescribed charges in respect of its removal and storage and, in respect of s165A, produces licence and insurance. They can dispose of the vehicle if it is not claimed and retain sufficient of the proceeds to cover the unpaid charges.

The information requested is a matter for the police forces in Lancashire, Cumbria, north, south and west Yorkshire, Humberside and Great Manchester.

Police: Finance

Mr. Sanders: To ask the Secretary of State for the Home Department what Government funding has been made available to police services to help them meet obligations under the Civil Contingencies Act 2004; and if she will make a statement. [177447]

Gillian Merron: I have been asked to reply.

Government funding for local authorities, including police authorities to fulfil their duties under the Civil Contingencies Act 2004 was taken into account in the spending plans for formula grant (Revenue Support Grant, Police Grant, and National Non Domestic Rates) announced in the Comprehensive Spending Review 2007, copies of which are available in the Library.

Mr. Hoban: To ask the Secretary of State for the Home Department what proportion of the total budget of each police authority in England and Wales was accounted for by the police authority precept in each financial year since 1997. [178560]

Mr. McNulty: The information requested is shown in the following table.

[1] Revenue funding includes all grants inside aggregate external finance (AEF) (i.e. revenue grants paid for councils' core services), and includes formula grant and all specific grants.

[2] Welsh Government grant includes Home Office police grant, floor funding and additional support provided to ensure Welsh police authorities receive at least a minimum increase in grant in line with English authorities.

[3] In 2005-06 figures were adjusted for comparison purposes following the transfer of pensions and security funding from general grant in 2006-07.

[4] 2006-07 Government grant figures are provisional outturn figures. 2007-08 figures are budget figures.

[5] The data for Metropolitan Police Authority from 2000-01 onwards is not available from DCLG as they are collected as consolidated data from GLA. Data used is compiled from Home Office data for allocated grants.

Source:

DCLG—from English police authorities/WAG—from Welsh police authorities.

Police: Football

Keith Vaz: To ask the Secretary of State for the Home Department (1) how much Leicestershire constabulary spent in policing football matches in the city of Leicester in each of the last five years; [179325]

(2) what the average amount spent by police forces was to police *(a)* football matches and *(b)* music events in each of the last five years. [179326]

Mr. McNulty: Decisions on the distribution of resources are matters for the chief officer and the police authority.

Police: Manpower

Mr. Ruffley: To ask the Secretary of State for the Home Department what percentage of *(a)* police community support officers and *(b)* regular police officers fall into each ethnic category in each police force area. [176318]

Mr. McNulty: Figures relating to 31 March 2007 appear in the following tables.

Number of police community support officers and police officers in post 31 March 2007 by police force area: Percentages in each ethnic group

(a) Police community support officers

[1] Percentages are calculated on the numbers of full-time equivalent officers.
[2] Some percentages may not add precisely to 100.0 because of rounding to one decimal place.

Police: Uniforms

Mr. Hayes: To ask the Secretary of State for the Home Department how many protective vests were issued to police officers in each year since 1997. [178214]

Mr. McNulty: This information is not held centrally. Decisions relating to the selection, purchase and issue of body armour are matters for individual chief officers of police.

Proscribed Organisations

Mr. Gale: To ask the Secretary of State for the Home Department pursuant to the answer of 10 December 2007, *Official Report*, column 98W, on Proscribed Organisations Appeals Commission (POAC) and the subsequent refusal of the POAC to permit the Government to appeal against its order to the Home Secretary to lift the ban on the prohibition of the People's Mujahedeen of Iran, what steps the

Government are taking to comply with the judgment and implement the order. [175673]

Mr. McNulty: The Government have applied to the Court of Appeal for leave to appeal the judgment of the Proscribed Organisations Appeals Commission (POAC) in relation to the proscription of the People's Mujahedeen of Iran. No action will be taken in respect of the judgment until the appeals process has concluded.

Public Order Offences

Mrs. Moon: To ask the Secretary of State for the Home Department what guidance her Department has issued on the prevention by police of photographers taking pictures in public places; and if she will make a statement. [177626]

Mr. McNulty: It is an operational matter for the chief constable of the force area concerned, based on the individual circumstances of the situation, to determine whether action is required to respond to an offence or where they suspect an offence is about to be committed or to prevent a breach of the peace.

Violence Against the Person

Mr. Boris Johnson: To ask the Secretary of State for the Home Department what the percentage crime detection rate for *(a)* violence against the person, *(b)* sexual offences, *(c)* burglary, *(d)* robbery and *(e)* theft from a vehicle was in each London borough in each year since 1988, broken down by age group. [172541]

Mr. McNulty: The information requested is not available centrally from the recorded crime statistics. Details of the ages of victims and alleged offenders are not collected.

Mr. Boris Johnson: To ask the Secretary of State for the Home Department how many offences were recorded for *(a)* violence against the person, *(b)* sexual offences, *(c)* burglary, *(d)* robbery and *(e)* theft from a vehicle in each London borough in each year since 1988, broken down by age group. [172542]

Mr. McNulty: The information requested is not available centrally from the recorded crime statistics. Details of the ages of victims and alleged offenders are not collected.

Visits Abroad

James Duddridge: To ask the Secretary of State for the Home Department what the *(a)* destination, *(b)* duration and *(c)* purpose was of each overseas visit by members of staff in her Department of each civil service grade over the last 12 months. [177518]

Mr. Byrne: The requested information could be provided only at disproportionate cost.

The Department expects all official travel to be undertaken only where there is a clear business need and that, when such a need arises, it is carried out by the most efficient and economic means available, taking into account the cost of travel and subsistence, savings in official time, management benefit, and the needs of staff with disabilities. This is in accordance with the Civil Service Management Code.

West Mercia Police: Finance

Mark Pritchard: To ask the Secretary of State for the Home Department if she will hold discussions with the chief constable of West Mercia police on the funding arrangements for the policing of community events. [179622]

Mr. McNulty: Funding arrangements for the policing of community events are a matter for the chief constable and police authority concerned.

Written Answers to Questions

Tuesday 22 January 2008

PRIME MINISTER

Departmental E-mail

Mr. Hoban: To ask the Prime Minister pursuant to the answer of 18 December 2007, *Official Report*, column 1229W, to the right hon. Member for Horsham, on departmental e-mail, (1) how many e-mails sent to him by members of the public through the No. 10 website have been replied to; and how many of those replies have been based on a pro forma response; [178352]

(2) which members of staff in Downing Street read the e-mails sent to him through the No. 10 website; [178353]

(3) how many members of the public have e-mailed him in each month since 27 June 2007; [178354]

(4) what procedures there are *(a)* to identify whether e-mails sent to the webpage are party political in nature and *(b)* to deal with such e-mails. [179637]

Mr. Maude: To ask the Prime Minister pursuant to the answer of 18 December 2007, *Official Report*, column 1229W, on departmental e-mail, whether he personally reads the e-mails sent to him by members of the public via the No. 10 website. [181337]

The Prime Minister: Since 27 June 2007, I have received approximately 27,000 e-mails via the No. 10 website. All e-mails are read by my Office, however, as made clear on the No. 10 website, it is not possible to reply to all e-mails.

Downing Street Political Office

Mr. Maude: To ask the Prime Minister (1) what proportion of the cost of the position of the administrator of the Downing Street Political Office will be met by the public purse; and when the post was established; [175075]

(2) how much and what proportion of the administrative costs of the Downing Street Political Office was funded by the public purse in *(a)* 2005-06 and *(b)* 2006-07; [175192]

(3) for how much of his working time the administrator of the Downing Street Political Office will be based in Downing Street. [175193]

The Prime Minister: The staffing and associated costs for my Political Office are met by the Labour party. As has been the case under successive Administrations, marginal costs associated with the Political Office are met from within the overall budget for 10 Downing street.

Gordon Brown

Adam Price: To ask the Prime Minister pursuant to the answer of 17 January 2008, *Official Report*, column 1398W, on Gordon Brown, whether a date has been set for the publication of the list; whether it will include details of the dates on which donations to Ministers' campaigns for the Leadership and Deputy Leadership of the Labour Party were *(a)* notified to Permanent Secretaries and *(b)* registered with the Cabinet Office. [181134]

The Prime Minister: The first List of Ministers' Interests will be published as soon as possible after the end of the financial year.

Human Trafficking

Mr. Steen: To ask the Prime Minister if he will attend the launch of the 'Don't Close Your Eyes' Blue Blindfold Campaign on human trafficking in the House on 29 January. [181053]

The Prime Minister: My hon. Friend, the Parliamentary Under-Secretary of State for Crime Reduction (Mr. Coaker) will be attending on behalf of the Government.

NORTHERN IRELAND

Departmental Contracts

Jim Cousins: To ask the Secretary of State for Northern Ireland what the *(a)* objective and *(b)* value was of each contract placed with (i) Deloitte and Touche, (ii) Ernst and Young, (iii) KPMG, (iv) PricewaterhouseCoopers and (v) PA Consulting by his Department and its agencies in each year since 2004-05. [179028]

Mr. Woodward: The *(a)* objective and *(b)* value of the contracts placed with (i) Deloitte and Touche, (ii) Ernst and Young, (iii) KPMG, (iv) PricewaterhouseCoopers and (v) PA Consulting by the Northern Ireland Office and its agencies in each year since 2004-05 are shown in the following tables.

	Overall total	81,861

Trade Unions

Mr. Hoban: To ask the Secretary of State for Northern Ireland what meetings he has had with trade unions officials since 1 July 2007; on what dates; and with which trade unions. [179865]

Mr. Woodward: Ministers meet many people as part of the process of policy development. It is not normal practice to disclose details of such meetings.

INNOVATION, UNIVERSITIES AND SKILLS

Erasmus

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills what *(a)* financial and *(b)* non-financial contribution his Department has made to the EU Erasmus Mundus programme since 2001; and which third countries were partners in the programme in the latest period for which information is available. [180444]

Bill Rammell: The Department makes no direct financial contributions to the Erasmus Mundus programme, which is funded by the European Commission. Along with representatives of the other EU member states, my officials are involved in the development of the programme

through membership of the Erasmus Mundus Committee. The latest statistical information available from the European Commission shows that in 2007, 13 third countries were involved in partnerships with EU institutions—Australia, Belarus, Brazil, Canada, Chile, China, Japan, Peru, Russia, South Africa, Switzerland, Ukraine and USA. In addition, scholarships were awarded to incoming students from 102 different third countries.

Europass

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills what his policy on the extension of the Europass is. [181030]

Bill Rammell: Europass was incorporated into the European Union's Lifelong Learning Programme with effect from 1 January 2007. There are currently no plans to extend the Europass beyond its current scope.

Higher Education: Gifts and Endowments

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills what estimate he has made of the total value of private endowments managed by universities. [178240]

Bill Rammell: We do not hold data centrally on the total level on endowment funds held by universities but the income from such endowments amounted to nearly £300 million for 2005/06—the latest year for which data is available. Over the past decade, significant improvements have been made as more institutions have set up and expanded their professional fundraising capacity. This has been supported by the Government's commitment to increase the level of voluntary giving to universities with the introduction of a £7.5 million capacity building scheme and the £200 million matched funding scheme over three years that was announced last year.

Higher Education: Greater London

Mr. Evennett: To ask the Secretary of State for Innovation, Universities and Skills what assessment he has made of the effect of withdrawal of support to institutions in south-east London for students studying equivalent or lower qualifications. [178076]

Bill Rammell: No students currently studying equivalent or lower qualifications will be affected by these changes. In future, our policy of redistributing grant will widen participation and mean that more of the three million Londoners of working age who do not have a first higher-level qualification, especially those from non-traditional backgrounds, will be able to benefit from participating in higher education.

Higher Education: Peterborough

Mr. Stewart Jackson: To ask the Secretary of State for Innovation, Universities and Skills how many and what proportion of people normally resident in Peterborough have participated in higher education to degree level in each year since 1997; and if he will make a statement. [179257]

Bill Rammell: The main measure for tracking progress on increasing participation in higher education is currently the Higher Education Initial Participation Rate (HEIPR). This is the sum of the HE initial participation rates for individual ages between 17 and 30 inclusive. It covers English-domiciled first time entrants to HE courses, which are expected to last for at least six months, at UK higher education institutions and English, Scottish and Welsh further education colleges, and who remain on their course for at least six months. The figures are shown in the table.

Higher education initial participation rate (HEIPR) 1999-2000 to 2005-06

	Percentage
1999-2000	39.3
2000-01	39.7
2001-02	40.2
2002-03	41.2
2003-04	40.3
2004-05	41.3
2005-06	42.8

Source:
"Participation Rates in Higher Education: Academic Years 1999-2000 to 2005-06 (Provisional)" Statistical First Release, published by DfES.

Figures for 2006-07 will become available later this year. The HEIPR is not disaggregated below national level.

HEFCE's "Young participation in Higher Education" publication includes the proportion of young people who enter higher education at age 18 or 19 by parliamentary constituency, although this only covers the years up to 2000. Participation rates based on this work are given on the supporting POLAR website (www.hefce.ac.uk/polar).

The figures for Peterborough in each year from 1997 to 2000 are shown in the table.

Proportion of people from Peterborough entering HE aged 18 or 19, based on the cohort aged 18 in each given year

Cohort reaching age 18 in year	*1997*	*1998*	*1999*	*2000*
Percentage from Peterborough entering HE aged 18 or 19	23	25	23	23
Percentage from England entering HE aged 18 or 19	29	29	29	30

Source:
"Young Participation in Higher Education", published by HEFCE.

Research: Animal Experiments

Anne Moffat: To ask the Secretary of State for Innovation, Universities and Skills what funding his Department provides for research into alternatives to using animals for research purposes. [164127]

Ian Pearson: In 2004 the Government established the National Centre for Replacement, Refinement and Reduction of Animals in Research (NCSRs) for research into alternatives to the use of animals in research; this is the first centre of its type in the world. Since its launch, baseline Government funding for the NCSRs has increased from £696,000 in 2004-05 to £2.218 million in this financial year. In addition to this, because of the number of additional high quality applications received, the NCSRs secured additional funding of £400,000 from the MRC-Medical Research

Council and BBSRC-the Biotechnology and Biological Sciences Research Council.

Research related to the 3Rs can also be submitted to MRC and BBSRC through their response mode funding mechanisms.

Students: Finance

Mr. Bone: To ask the Secretary of State for Innovation, Universities and Skills what assessment he has made of the effect that withdrawal of funding for equivalent or lower qualifications will have on opportunities for lifelong learning. [177551]

Bill Rammell: The progressive re-distribution of institutional funding away from students doing equivalent or lower level qualifications will enable us to widen higher education participation and support more of the millions of people of all ages without a first higher education qualification, including the five million people over fifty without such qualifications. However, there will be transitional protection for existing students doing equivalent and lower level qualifications until they complete their courses. All of the £100 million will be redistributed to support our priorities, including the challenges posed by Sandy Leitch around the proportion of the workforce with higher level skills from under 30 per cent. to over 40 per cent. by 2020.

COMMUNITIES AND LOCAL GOVERNMENT

Capita

Mr. Amess: To ask the Secretary of State for Communities and Local Government what meetings (*a*) she, (*b*) Ministers in her Department and (*c*) officials have held with (i) directors and (ii) senior executives of (A) Capita Group plc and (B) its subsidiaries since 1 January 2001; what the (1) location and (2) duration of each meeting was; whether a record of each meeting was kept; and if she will make a statement. [180710]

Mr. Dhanda: Ministers and civil servants meet many people as part of the process of policy development and advice. It is not the usual practice of Government to disclose details of such meetings.

Council Tax Benefits: Tax Rates and Bands

Grant Shapps: To ask the Secretary of State for Communities and Local Government (1) how many households in England have zero liability for council tax due to 100 per cent. council tax exemptions; [180158]

(2) how many households in England have a liability for council tax. [180159]

John Healey: Table 1 of the statistics release "Local Authority Taxbase—2007 England" gives details of dwellings in England as at 8 October 2007 that were exempt from council tax. This release is available on the Communities and Local Government's website at:

http://www.local.communities.gov.uk/finance/ctax/ctbase07.htm

Council Tax: Bedfordshire

Margaret Moran: To ask the Secretary of State for Communities and Local Government what was (*a*) the rate of household council tax and (*b*) the percentage change from the previous year this represented for each of the last 10 years for (i) Bedfordshire county council, (ii) South Bedfordshire district council and (iii) Luton borough council. [181120]

John Healey: Details of the council tax and the percentage change from the previous year this represented for each of the last 10 years for (i) Bedfordshire county council, (ii) South Bedfordshire district council and (iii) Luton borough council are available on the Communities and Local Government website at:

http://www.local.communities.gov.uk/finance/ctax/data/ctaxtimes.xls

Departmental Accountancy

Mr. Hoban: To ask the Secretary of State for Communities and Local Government what items of her Department's (*a*) revenue and (*b*) expenditure are uprated using (i) the consumer prices index, (ii) the retail prices index and (iii) other measures of inflation. [179945]

Mr. Dhanda: The information requested is not held centrally and could be provided only at disproportionate cost.

Departmental Contracts

Jim Cousins: To ask the Secretary of State for Communities and Local Government what the (*a*) objectives and (*b*) value was of each contract placed with (i) Deloitte and Touche, (ii) Ernst and Young, (iii) KPMG, (iv) PricewaterhouseCoopers and (v) PA Consulting by her Department its predecessor Department and its agencies in each year since 2004-05. [178035]

Mr. Dhanda: The total amount spent by the Department centrally with the five companies since 2004-05 is as follows:

£000

	2004-05	2005-06	2006-07	2007-08 to date	Total
Deloitte and Touche	882	1,653	241	86	2,862
Ernst and Young	434	763	18	0	1,215
KPMG	921	550	356	476	2,303
Pricewaterhouse-Coopers	926	970	1,338	1,099	4,333
PA Consulting	9,457	12,047	8,840	6,126	36,470

The nature of each contract involved could be provided only at disproportionate cost. However, I refer my hon. Friend to the answer given on 12 December 2007, *Official Report*, column 554W, and to the answer given to the right hon. Member for Maidenhead (Mrs. May) on 14 June 2007, *Official Report*, column 1170W, which give details of certain departmental contracts.

The amounts spent by the Department's agencies and nature of the contracts are set out as follows.

	£000					
	2004-05	2005-06	2006-07	2007-08	Total	Nature of contract(s)
Fire Service College						
Deloitte and Touche	3	0	0	0	0	Risk Management Workshop
Ernst and Young	0	0	0	0	0	
KPMG	0	0	0	0	0	
PricewaterhouseCoopers	26	0	0	0	26	Pay and Grading Review
PA Consulting	0	0	0	0	0	
Ordnance Survey						
Deloitte and Touche	0	13	0	0	13	2005-06: International Financial Reporting Standards (IFRS) Advice 2005-07: Computer Audit Services
Ernst and Young	0	0	0	0	0	
KPMG	0	0	0	0	0	
PricewaterhouseCoopers	7	9	0	5	21	2004-05: Investigation of IFRS implementation impact 2005-06: Internal Audit 2005-06 and 2007-08: Agency Performance Monitor Review
PA Consulting	0	0	0	0	0	

Queen Elizabeth Conference Centre has not used the services of any of these companies. Information for the Planning Inspectorate could be supplied only at disproportionate cost.

Departmental Pay

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what the reasons were for the increase in the early severance/early retirement costs for her Department and its predecessor from 2004 to 2006. [173309]

Mr. Dhanda: Increased early severance/retirement costs incurred during this period were necessary in order to achieve future efficiency targets, strategic resourcing aims and to avoid compulsory redundancies.

Eco-Towns

Mr. Hoban: To ask the Secretary of State for Communities and Local Government which locations have applied to become eco-towns. [164771]

Yvette Cooper: We have received over 50 expressions of interest for eco-towns and expect to publish the proposals shortly, once we have completed an initial assessment of the applications received.

Mr. Hoban: To ask the Secretary of State for Communities and Local Government whether all eco-towns designated as healthy towns will be obliged to offer weigh-ins for children when they leave primary school. [166290]

Yvette Cooper: I refer the hon. Member to the answer given on 14 January 2008, *Official Report*, column 920W.

English Language: Public Participation

Mr. Paul Goodman: To ask the Secretary of State for Communities and Local Government whether her Department has held a Citizens' Jury on English for speakers of other languages since 6 October 2007. [181185]

Mr. Dhanda: The Department held two Citizens' Juries on English for speakers of other languages jointly with Department for Innovation, Universities and Skills (DIUS) in December 2007. The findings of these juries, which were held in London and Hull, will be taken into account alongside DIUS's the public consultation 'Focusing English for Speakers of Other Languages on Community Cohesion'.

Fire Services: Cleveland

Dr. Kumar: To ask the Secretary of State for Communities and Local Government how much has been allocated to Cleveland Fire Authority for the next funding period. [179619]

Mr. Dhanda: The provisional local government finance settlement, announced on the 6 December 2007, provisionally allocated £22.160 million in 2008-09, £22.270 million in 2009-10 and £22.382 million in 2010-11 in formula grant to Cleveland Fire Authority. The final settlement will be laid before the House shortly.

In addition, Cleveland Fire Authority will be allocated specific revenue grants to enable the implementation of an enhanced national resilience capability.

Cleveland will also benefit from the new Fire Capital Grants. These total £35 million and £45 million for England in years 2009-10 and 2010-11. We will be consulting on the distribution of these grants shortly.

Fire Services: Finance

Dr. Kumar: To ask the Secretary of State for Communities and Local Government what level of funding was allocated to each English fire authority, in each of the last three years; and how many incidents were attended by firefighters from each authority in each such year. [179608]

Mr. Dhanda: The following table shows formula grant allocations for each combined fire authority, metropolitan fire authority and the GLA (fire) for the years 2005-06 to 2007-08. In addition 15 county fire authorities are responsible for providing the fire and rescue service within their areas. Their formula grants allocation covers all the services provided including fire, but the fire element cannot be separately identified. It is for each county to allocate funding between services in response to their statutory duties and local priorities.

Formula grant, 2005-06 to 2007-08

£ million

Local authority	Formula grant 2005-06	Formula grant 2006-07	Formula grant 2007-08
GLA Fire	277.288	248.308	254.453
Greater Manchester Fire	78.266	70.085	72.020
Merseyside Fire	52.019	44.198	45.391
South Yorkshire Fire	36.816	33.720	34.333
Tyne and Wear Fire	38.763	33.065	33.937
West Midlands Fire	82.228	76.456	77.397
West Yorkshire Fire	59.788	52.123	53.548
Avon Fire	25.827	23.946	24.388
Bedfordshire Fire	10.905	10.194	10.594
Berkshire Fire Authority	15.041	14.734	15.118
Buckinghamshire Fire	11.028	10.946	11.226
Cambridgeshire Fire	12.721	11.863	12.444
Cheshire Fire	17.008	15.525	16.471
Cleveland Fire	22.863	21.757	21.940
Derbyshire Fire	18.540	16.299	16.920
Devon Fire	22.614	20.469	n/a
Devon and Somerset Fire	n/a	n/a	29.095
Dorset Fire	12.258	10.337	10.733
Durham Fire	13.907	12.258	13.058
East Sussex Fire	15.060	13.524	13.836
Essex Fire Authority	30.815	28.692	29.938
Hampshire Fire	28.522	26.627	27.595
Hereford and Worcester Fire	11.208	9.840	10.355
Humberside Fire	25.427	23.431	24.026
Kent Fire	28.958	27.048	28.111
Lancashire Fire	34.087	30.494	31.965
Leicestershire Fire	17.431	17.082	17.694
North Yorkshire Fire	13.568	12.335	12.712
Nottinghamshire Fire	21.679	20.179	21.073
Shropshire Fire	7.153	6.786	7.195
Staffordshire Fire	17.462	16.125	16.822
Wiltshire Fire	8.845	8.563	9.152

Notes:
1. Decreases in Formula Grant funding between 2005-06 and 2006-07 reflect the removal of firefighter pensions from revenue support grant.
2. From 2006-07 FRAs receive pensions top-up grant to cover any annual deficit in their firefighter pension funds.

Fire authorities also benefited from the following specific grant funding:

£

Type of funding	2005-06	2006-07	2007-08
Fire prevention grants	n/a	5,689,926	5,651,208
Fire control	2,272,787	3,620,237	16,983,600
New Dimension	14,106,760	26,015,848	16,706,251
Pensions top up grant: Estimate	n/a	138,937,033	163,155,000
Home fire risk checks initiative	5,000,000	5,000,000	10,000,000

The following table shows all incidents attended by English fire services between 2003-04 and 2004-05, including all fires, false alarms and special service incidents (including road traffic accidents and other non-fire or false alarm related incidents). The table also shows fire and false alarm incidents attended during the 2006 calendar year. Non-fire and non-false alarm data are not available for 2006.

All incidents attended by English fire and rescue services, 2003-04 to 2005-06; and all fires and false alarms attended in the calendar year 2006

	All incidents			All fires and false alarms[1]

[1] Including road traffic accidents and other non-fire incidents. *Note:* Fire and false alarm data for 2006 are provisional.

Dr. Kumar: To ask the Secretary of State for Communities and Local Government if she will make it her policy to take into account the number of high risk industrial sites in each fire authority area allocating resources to fire authorities. [179620]

Mr. Dhanda: The distribution of formula grant takes into account the relative needs and potential to raise income locally (resources) of an authority, relative to all other authorities providing the same service. It also contains a central allocation and a floor damping mechanism.

To reflect needs, the Fire and Rescue Relative Needs Formula (RNF) takes into account the resident population, coastline, deprivation, high risk sites, property and societal risk and community fire safety. The high risk sites element is measured by the number of top tier Control of Major Accident hazards (COMAH) sites per head. The COMAH sites data are sourced from the Health and Safety Executive and for the 2008-09, 2009-10 and 2010-11 settlement, the count is as at 1 October 2007.

Home Information Packs: Expenditure

Mr. Pickles: To ask the Secretary of State for Communities and Local Government how much has been spent from the public purse on home information packs including *(a)* administration costs, *(b)* legal fees, *(c)* external advisers, *(d)* websites, *(e)* research and area trials, *(f)* communications, publicity and publishing, *(g)* agency staff and *(h)* other costs in relation to the home information packs. [173336]

Yvette Cooper: An update on programme spend was given in the House on 29 October 2007, *Official Report*, column 653W. Since then HIPs and EPC expenditure has been as follows:

	HIP programme spend (£)
Admin costs[1]	124,591
Legal fees	—
Outside expertise	—
Website costs	4,211
Area trials	—
Research	188,757
Comms, publicity and publishing	598,046
Agency staff	17,402
Other costs	5,264
Total	938,271

[1] Includes departmental staff working on HIPs and EPC development, management and implementation.

Housing: Low Incomes

Mr. Jim Cunningham: To ask the Secretary of State for Communities and Local Government what recent steps the Government have taken to update and improve the quality of social housing in the West Midlands. [178467]

Mr. Iain Wright: The most significant step we have taken to improve the quality of social housing has been the introduction of the decent homes standard in 2001.

This led to the requirement, set out in the Deputy Prime Minister's Sustainable Communities Plan 2003, for all local housing authorities with council stock to undertake and complete stock options appraisal to identify investment options in order to meet the decent homes standard for all council housing by 2010.

These options included large scale voluntary stock transfer, arms length management organisations, and the private finance initiative, all with the potential for additional Government funding. In the West Midlands, three local authorities formed arms length management organisations (Sandwell, Solihull and Wolverhampton). Collectively they received allocations from CLG during 2007-08 of over £104 million, with over £340 million additional proposed for the period 2008 to 2011.

In April 2003 there were 137,698 non-decent council homes in the West Midlands making up just over 55 per cent. of the total council stock. Provisional figures as of April 2007 show that this figure has almost halved to 69,401 (-68,297), representing just 32 per cent. of the council housing stock. This is a clear demonstration that this policy is improving the quality of social housing in the region.

The decent homes target also applies to the social housing in the ownership of registered social landlords (RSLs). Here data available from the Housing Corporation for 2007, shows the number of non-decent dwellings owned by RSLs in the West Midlands to be 22,056, 9.46 per cent. of the regional RSL stock. RSLs are working effectively to achieve 100 per cent. decency without recourse to Government funding through the delivery of asset management strategies funded by rents and private finance.

In addition to renovations to properties in this sector, funding for the Affordable Housing programme, administered by the Housing Corporation, has resulted in an allocation to the West Midlands of £377 million over the period 2004-05 to 2007-08, to subsidise delivery of new high quality social housing, over 8,600 new affordable homes for rent and low cost sale through registered social landlords. We are now close to concluding the 2008 to 2011 allocations which will make available an additional £467 million through this programme, generating an additional 7,000 new social rented sector homes and 3,600 low cost homes.

Local Authorities: Finance

Mr. Drew: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 20 November 2007, *Official Report*, column 783, on local authorities: finance, what proportion of total annual expenditure of the seven Gloucestershire local authorities the cost of administrative overheads was in the last year for which figures are available. [168329]

John Healey: The information requested is not held centrally and could be provided only at disproportionate cost.

Local Authorities: Rodents

Sir Peter Soulsby: To ask the Secretary of State for Communities and Local Government what information her Department holds on *(a)* the number of local authorities which charge for treating mice infestations in residential properties and *(b)* the average price charged by local authorities for such treatment. [178041]

Joan Ruddock: I have been asked to reply.

The Department for Environment, Food and Rural Affairs holds no information on either the number of local authorities which charge for treating mice infestations in residential properties or the average price charged. It is for local authorities to decide on the most appropriate pest control programme in their own area, while having regard to their duties under the Prevention of Damage by Pests Act 1949.

Official Visits: Expenditure

Andrew Mackinlay: To ask the Secretary of State for Communities and Local Government what the cost to the public purse was of the visit by the chief executive of Thames Gateway and others to Emscher Park in Germany's Ruhr Valley in October; and if she will make a statement. [165126]

Yvette Cooper: The visit to Emscher Park in Germany on 3 to 5 October 2007 by the Thames Gateway chief executive and others was paid for by Communities and Local Government (CLG), the Commission for Architecture and the Built Environment (CABE) and other agencies who had representatives on the trip. The cost of the flight of the Thames Gateway chief executive and other costs including accommodation, food and transport were paid for by CABE. The flight of one other CLG official was paid for by CLG, but accommodation and other costs for this officer were paid for by CABE. The total cost to CLG of this trip was therefore £377.00.

Redundancy Pay

Mr. Pickles: To ask the Secretary of State for Communities and Local Government for what reasons the early severance and early retirement costs for her Department and the Office of the Deputy Prime Minister rose from £2.3 million in 2004 to £8.0 million in 2006. [176621]

Mr. Dhanda: I refer the hon. Member to the answer given today reference parliamentary question 173309.

Regional Ministers: Accountability

Mr. Andrew Mitchell: To ask the Secretary of State for Communities and Local Government what progress has been made on arrangements for the accountability of regional Ministers to the House throughout the creation of select committees. [180826]

Mr. Dhanda *[holding answer 21 January 2008]:* The Government's position as set out in the "Governance of Britain" Green Paper proposes regional Ministers being held accountable through parliamentary questions and scrutiny by parliamentary committee. Whether this is best actioned by select committees or some other arrangement has yet to be decided. The details and structure of committees is under consideration by the Modernisation Committee of the House. The Government will be submitting their evidence in due course. It will ultimately be for Parliament to decide what structure for regional accountability will be established.

Regional Planning and Development: East of England

Mr. Pickles: To ask the Secretary of State for Communities and Local Government what consultation is planned as part of the east of england regional spatial strategy. [176616]

Mr. Dhanda: No further consultation is planned as part of the process of finalising the Regional Spatial Strategy for the East of England, also known as the East of England Plan. There has been substantial public consultation at the various stages of the plan's development, namely the 14 week consultation on the Draft East of England Plan (launched December 2004), the 12 week consultation on the Secretary of State's Proposed Changes to the Draft Plan (launched December 2006) and most recently the Secretary of State's Further Proposed Changes to the Draft Plan (launched October 2007).

Regional Planning and Development: Fire Services

Mr. Bone: To ask the Secretary of State for Communities and Local Government what the Government's plans are to provide fire service coverage in relation to developments which take place under the South Midlands and Milton Keynes Spatial Core Strategy. [178531]

Mr. Dhanda: Fire and rescue authorities (FRAs) are required by the Fire and Rescue Service National Framework to have in place and maintain an Integrated Risk Management Plan (IRMP) which reflects local need and sets out plans to tackle effectively both existing and potential risks to communities. The IRMP enables the authority to tailor cover for fire and other incidents to local circumstances—evaluating where risk is greatest and allocating resource accordingly. It is a requirement that the IRMP is subject to a full consultation with the local community before it is agreed and published.

It is not the role of Ministers to agree the operational proposals in an authority's plan; that is for the elected members of the authority concerned. They are best placed to act on the professional advice of principal officers, including taking into consideration any relevant local planning and community strategies, and to balance

the competing local demands on available resources for the benefits of the communities they serve.

Regional Planning and Development: South East Region

Anne Milton: To ask the Secretary of State for Communities and Local Government when her proposed changes to the draft South East Plan will be published. [178423]

Mr. Dhanda: The Secretary of State's Proposed Changes for the draft Regional Spatial Strategy (RSS) for the South East (The South East Plan) will be published for consultation later this year.

Sleeping Rough

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government how many rough sleepers were recorded in each region in England in each year since 1997; and how many were *(a)* over the age of 60 years and *(b)* under the age of 25 years in each year. [181056]

Mr. Iain Wright: A national estimate of the number of rough sleepers in England is published every September. The estimate is based on the results of local authority street counts in those areas where a known, or suspected, rough sleeping problem has been identified. The following table sets out the national rough sleeping estimate, broken down by region, for each year since 1998. We do not hold this information for 1997.

This Department does not hold information relating to the age of rough sleepers.

	1998	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*	*2007*
ENG	1,850	1,633	1,180	703	596	504	508	459	502	498
SW	290	203	124	75	61	64	44	50	63	58
SE	327	282	200	115	60	45	35	53	47	71

L	621	635	546	357	321	267	265	221	267	248

Trade Unions

Mr. Hoban: To ask the Secretary of State for Communities and Local Government what meetings she has had with trades union officials since 1 July 2007; on what dates; and with which trades unions. [179861]

Mr. Dhanda: Ministers meet many people as part of the process of policy development. It is not normal practice to disclose details of such meetings.

Urban Areas: Sustainable Development

Tony Baldry: To ask the Secretary of State for Communities and Local Government (1) whether the Government have plans for direct public sector land acquisition at pre-planning decision land values in respect of eco-town developments; [171217]

(2) whether the availability of public sector land in an area will affect determinations on the selection of locations for eco-towns. [171219]

Yvette Cooper: We have received over 50 expressions of interest for eco-towns and expect to publish the proposals shortly, once we have completed an initial assessment of the applications received. In the Eco-towns Prospectus (published on 23 July), land use was one of the seven criteria against which eco-town proposals will be assessed, and we said that "where there are good opportunities to do so, schemes should make use of suitable surplus public sector land, or brownfield land".

Anne Milton: To ask the Secretary of State for Communities and Local Government which locations have been submitted to her Department as prospective eco-towns as part of the new points growth scheme. [175566]

Yvette Cooper: I refer the hon. Member to the answer given to the hon. Member for Fareham (Mr. Hoban) today reference parliamentary question 164771.

Mr. Gibb: To ask the Secretary of State for Communities and Local Government if she will list proposals submitted for eco-towns. [179267]

Yvette Cooper: We expect to announce proposals shortly, once an initial assessment has taken place. There will be considerable opportunity for consultation before the process is completed.

Mr. Hunt: To ask the Secretary of State for Communities and Local Government when local authorities will be informed that a bid for an eco-town has been *(a)* made, *(b)* successful and *(c)* unsuccessful in their area. [179834]

Yvette Cooper *[holding answer 17 January 2008]:* We are consulting with local authorities in the relevant areas covered by proposed eco-towns in January 2008 as part of an initial assessment of bids and expect to publish proposals shortly. There will be considerable opportunity for consultation before the process is completed.

Written Questions

Andrew Mackinlay: To ask the Secretary of State for Communities and Local Government when she will reply to question 165126, on Emscher Park tabled by the hon. Member for Thurrock on 13 November 2007. [174342]

Yvette Cooper: I have now replied to my hon. Friend's question.

Youth Services: Finance

Joan Walley: To ask the Secretary of State for Communities and Local Government whether local area agreements are required to include provisions on ring-fenced funding for projects which used to be funded through the Children's Fund for Youth Inclusion Projects; and what other arrangements her Department has put in place for the future funding of such projects. [180377]

John Healey: From April 2008, no funding streams will be directly linked to local area agreements (LAAs). Local partners are responsible for collectively agreeing how they will resource delivery of their LAA priorities from their mainstream funding, including by aligning or pooling resources where it makes sense to do so.

The Government are maximising local authorities' freedom to target their resources on what matters most to local people, including their LAA priorities, by moving over £5 billion of former specific grants such as the Children's Fund into non-ringfenced general grants (either Revenue Support Grant or the new Area Based Grant) over the comprehensive spending review period.

Under the new arrangements, the Government will continue to allocate funding to local authorities where there is a recognised need for additional support for preventative services for children aged five to 13. However, it will be paid as part of the non-ringfenced Area Based Grant from April 2008, so local authorities will be free to decide how best to use the resources to support local priorities.

CULTURE, MEDIA AND SPORT

Arts Council of England: Grants

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport how many regularly funded, theatre-based producing companies in the regions were supported by Arts Council England in 2007-08. [179449]

James Purnell *[holding answer 16 January 2008]:* In 2007-08 Arts Council England are supporting 36 regularly funded theatre-based producing companies outside London.

Capita

Mr. Amess: To ask the Secretary of State for Culture, Media and Sport what meetings *(a)* he, *(b)* Ministers in his Department and *(c)* officials have held with (i) directors and (ii) senior executives of (A) Capita Group plc and (B) its subsidiaries since 1 January 2001; what the (1) location and (2) duration of each meeting was; whether a record of each meeting was kept; and if he will make a statement. [180704]

Mr. Sutcliffe: Ministers and civil servants meet many people as part of the process of policy development and advice. It is not the usual practice of Government to disclose details of such meetings.

Coastal Areas: Finance

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport how much of the £45 million fund for cultural spending on coastal towns, announced on 30 November 2007, will come from *(a)* his Department, *(b)* the National Lottery and *(c)* private partners; and if he will make a statement. [181050]

Margaret Hodge: The £45 million fund (£15 million a year over three years) for seaside resorts announced on 30 November 2007 will come from departmental funds made available through the 2007 comprehensive spending review. We have asked the Commission for Architecture and the Built Environment, who will lead the programme, to seek to attract at least equal matching funding from public and private partners to further enhance the programme. This match-funding has yet to be determined.

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport when he expects the first funding from the £45 million fund for cultural spending on coastal towns, announced on 30 November 2007, to be allocated. [181051]

Margaret Hodge: The funding is available from the next financial year. The Commission for Architecture and the Built Environment is developing the criteria and timetable for the seaside resorts initiative. I expect they will make some allocations early in 2008-09.

Departmental Accountancy

Mr. Hoban: To ask the Secretary of State for Culture, Media and Sport what items of his Department's *(a)* revenue and *(b)* expenditure are uprated using (i) the consumer prices index, (ii) the retail prices index and (iii) other measures of inflation. [179947]

Margaret Hodge: No element of the Department's annual expenditure or revenue is uprated using any of the aforementioned indices. Pay increases are governed by Her Majesty's Treasury guidance, their approval and affordability. Staff salaries, for staff below the senior civil service, are increased annually in DCMS, but these are not uprated by any measure of inflation. Senior civil service salary costs are subject to review by the Senior Salaries Review Body. They do not apply inflation indices but do take them into account as part of the evidence they consider.

Departmental Marketing

Mr. Hoban: To ask the Secretary of State for Culture, Media and Sport how many posters or displays there are in the offices of his Department and its agencies

displaying the names and photographs of Ministers; and what the cost has been of producing such posters or displays in the last five years. [179841]

Margaret Hodge: The Department produced two displays showing ministerial names and photographs for the London Open House in 2005 and 2007. The costs were:

	Display costs (£)
2005	250.27
2007	270.25

Expenditure on such posters or displays by the Department's agencies could be obtained only at disproportionate cost.

Departmental Ministerial Policy Advisors

Mr. Hoban: To ask the Secretary of State for Culture, Media and Sport whether any of his Department's special advisers also work for organisations outside his Department. [178483]

James Purnell: Special advisers are appointed under terms and conditions set out in the "Model Contract" and "Code of Conduct for Special Advisers", copies of which are in the Library of the House.

Digital Switchover Help Scheme: Copeland

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what the uptake has been of the digital switchover targeted assistance scheme in Whitehaven and Copeland; what the expected uptake was; what assessment he has made of the reasons for the difference between the two; and if he will make a statement. [173932]

James Purnell: Details of the number of households eligible for assistance from the Digital Switchover Help Scheme in the Copeland area and the number and proportion of eligible households in Copeland who responded to scheme communications and took up the offer of help during the switchover period are set out in the table. No specific forecast was made of the number of households who would take up the offer of assistance in the Copeland area, though projections were made for the UK Scheme as a whole, based on survey work carried out in 2006.

DCMS, Digital UK, Ofcom, the BBC and Digital Switchover Help Scheme Ltd., the wholly owned BBC subsidiary company responsible for the delivery of the Help Scheme, are looking closely at the possible reasons for the level of help scheme take-up as part of a detailed evaluation of the successful programme to switch-off analogue television services in the Copeland area on 14 November 2007. It is too early to draw any firm conclusions.

Whitehaven/ Copeland Help Scheme	*Total*	*Free*	*£40 charge*
Number of eligible households[1, 2, 3, 4]	8,600	3,100	5,500
Projected take-up (households)[5]	5,900	2,700	3,200
Response rate (households)[6]	6,412	2,431	3,981
Response rate (percentage)	75	78	72
Take-up (households)[6]	2,808	1,780	1,028
Of whom needed an aerial installation	197	—	—
Take-up (percentage)	—	57	19
Opted out (households)[6]	3,604	651	2,953

[1] The figures for eligible households and forecast take-up are rounded to the nearest 100.

[2] Eligibility for help from the Digital Switchover Help Scheme is by household. Household is defined as a 'benefit unit' rather than the whole household definition used by the Department for Communities and Local Government (CLG), the Scottish Executive, the Welsh Assembly Government and the Northern Ireland Office to forecast future household growth. The scheme definition of eligible households mirrors Department for Work and Pensions (DWP) definition of a benefit unit: a married couple or couple living together as husband and wife (which from December 2005 includes gay couples) and any dependent children. It excludes adults deemed to be non-dependents who, if eligible, are able to claim assistance from the help scheme in their own right.

[3] The estimates of the number of eligible households use data from the Department for Work and Pensions Client Group Analysis for November 2005 for the Copeland parliamentary constituency adjusted by changes in future household and benefits growth for the period from 2005 until the date switchover took place.

[4] The estimates of eligible people do not include households where the person qualifying for help under the scheme is registered blind or registered partially sighted and qualifies on grounds of registration rather than on grounds of age or entitlement to disability benefits.

[5] The projected take-up figures for Copeland parliamentary constituency are based on the modelling work carried out by DCMS to set the overall budget for the UK-wide help scheme.

[6] The eligibility period for the scheme in Whitehaven and Copeland closed on 13 December. These are final figures.

Licensing

Mr. Pickles: To ask the Secretary of State for Culture, Media and Sport (1) what records his Department holds of which local authorities have licensing policies with cumulative impact areas; [176709]

(2) which local authorities have adopted cumulative impact areas under the Licensing Act 2003; [176712]

(3) how many local authorities have designated cumulative impact areas in their licensing policies. [176718]

Mr. Sutcliffe: The data which the Department for Culture, Media and Sport hold on local authority cumulative impact areas were published in the Department's licensing statistical bulletin on 8 November 2007 and are set out in the table. The data cover cumulative impact areas in force on 31 March 2007 and are based upon a response rate of 80 per cent. of licensing authorities. Details of individual licensing authority statements of licensing policy are not held centrally.

Licensing authority	Cumulative impact areas
Leeds	4
Bexley	3
Newcastle upon Tyne	3
Bristol	2
Bromley	2
Fareham	2
Merton	2
Pembrokeshire	2
Portsmouth	2
Richmond upon Thames	2
Scarborough	2
Trafford	2

Torbay	1
Wakefield	1
Watford	1
Windsor and Maidenhead	1
Worthing	1
York	1

Note:
The number of 'cumulative impact areas' published on 9 November 2007 for two licensing authorities were incorrect:
Melton licensing authority had recorded the wrong number of cumulative impact areas as six; it has been amended to zero in the revised statistical bulletin published on 15 January 2008.
Warwick's number of cumulative impact areas was incorrectly inputted as four; this has been corrected to two in the revised statistical bulletin published on 15 January 2008.

Mr. Hoban: To ask the Secretary of State for Culture, Media and Sport how many officials in his Department are working on the review of licensing legislation announced by the Prime Minister in July 2007. [180474]

Mr. Sutcliffe: The Prime Minister was referring to the evaluation of the impact of the Licensing Act 2003 which has been on-going since the new regime came into effect on 24 November 2005.

A variety of officials have worked in the various strands of the project in both the Home Office and Department for Culture, Media and Sport since 2005, some of which are now complete. There are currently eight officials involved in licensing issues in the DCMS's Tourism Licensing and Economic Impact Division who are involved in elements of the evaluation to varying degrees. In addition there are a number of people within the Department who have previously contributed to specific reviews or initiatives.

Regulation

Mrs. May: To ask the Secretary of State for Culture, Media and Sport for which regulators and inspectorates his Department has had responsibility in each year since 1997; what the budget was of each such body in each year; and what the cost to the public purse was of any restructuring of each such body in each year. [175317]

Margaret Hodge: The information available is listed in the tables. The remaining information could be obtained only at disproportionate cost.

Name of body and budget details

£ million

	Charity Commission	Football Licensing Authority	Independent Television Commission	Ofcom[1] (Office of Communications)	Ofcom (Office of Communications)

[1] Responsibility for Ofcom is shared with BERR.
[2] Budget is period from the start of Ofcom (29 December 2003 to 31 March 2004).

Sports: Females

Mr. Jenkins: To ask the Secretary of State for Culture, Media and Sport how much public funding was made available for *(a)* women's sport and *(b)* women's netball in the latest period for which figures are available. [179762]

Mr. Sutcliffe: The information is as follows:

(a) It is not possible to provide total figures for investment into women's sport. Sport England's funding benefits young people and adults of all ages, especially those within hard-to-reach or priority groups, of which women are identified as one of the key target groups.

We do have figures on programmes specifically targeted at women. For example, the Women's Sport and Fitness Foundation, which exists to promote sport and active recreation as an integral part of life for women and girls, has received the following funding:

					£
	2002-03	2003-04	2004-05	2005-06	2006-07
Core costs (exchequer)	150,000	200,000	200,000	200,000	329,333
Project support (exchequer)	—	—	—	—	[1]33,000
Project support (lottery)	—	83,729	—	65,207	56,454
Total	150,000	283,729	200,000	265,207	418,787

[1] £20,000 to support work across the Sports Equity Alliance, not solely women's sport.

UK Sport has funded the following women's sport programmes:

£30,000 (£10,000 in 2006-07 and £20,000 in 2007-08) has been invested in the Women and Leadership Development Programme, established in partnership with the BOA and CCPR to address the lack of women in senior decision making sports positions.

£67,500 has been invested between 2004 and 2008 in international women's sport development projects.

Synchronised swimming, (£1,617,000 for April 2006 to March 2009) and rhythmic gymnastics (integrated into the overall British Gymnastics Beijing award of £9 million) which are both female only sports.

Since 2003, female athletes have received 39 to 41 per cent. of UK Sport World Class Performance programme and World Class Pathway programme awards.

(b) The latest figures available for the funding of women's netball by Sport England are:

	Lottery (£)
2003-04	[1]1,823,752
2004-05	2,029,430
2005-06	2,751,675
2006-07	2,893,925
2007-08	3,232,884

[1] The award figure is for the period 1 September 2002 to 31 March 2004

	Exchequer (£)
2003-04	[1]868,000
2004-05	[2]435,284
2005-06	1,371,853
2006-07	613,500
2007-08	205,700

[1] The award figure is for the period 1 September 2002 to 31 August 2004.
[2] Includes awards in periods between 1 February 2002 to 31 March 2005.

Note:
Netball also benefits from awards to multi-sport projects e.g. multi-use games areas.

Tourism: Vocational Training

Shona McIsaac: To ask the Secretary of State for Culture, Media and Sport what estimate he has made of the number of people involved in work-based training in the tourism sector in Cleethorpes constituency in each of the last five years. [179715]

Margaret Hodge: The Learning and Skills Council (LSC) Yorkshire and the Humber has provided data for each of the last five years (including the current academic year) on the number of people in Cleethorpes in work-based learning in travel and tourism and in hospitality and catering. The LSC has also provided data on the number undertaking learning through Train to Gain since it was rolled out nationally in 2006.

In 2003-04, 30 Cleethorpes residents were involved in work-based learning in travel and tourism and in hospitality and catering; in 2004-05, there were 20 people; in 2005-06, there were 22 people; in 2006-07, there were 26 people; and in 2007-08 there have been 23 people so far. In addition, 21 Cleethorpes residents started learning through Train to Gain in 2006-07; and seven in 2007-08 so far.

LEADER OF THE HOUSE

Departmental Meetings

Mr. Hoban: To ask the Leader of the House pursuant to the answer of 13 December 2007, *Official Report*, column 758W, on departmental meetings, how many times she met the Prime Minister in each week of the last two months. [179640]

Ms Harman: I have regular meetings with the Prime Minister.

TRANSPORT

Shrewsbury to London Rail Service

10. **Daniel Kawczynski:** To ask the Secretary of State for Transport whether she plans to attend the inauguration of the direct rail service from Shrewsbury to London; and if she will make a statement. [180544]

Mr. Tom Harris: The Department has not been notified of a planned date for the start of the service. But I expect it to bring major benefits to passengers from Wrexham and Shropshire and look forward to its inauguration.

Smartcards

11. **Mr. Harper:** To ask the Secretary of State for Transport how many local authorities she expects to introduce smartcards for the National Bus Concessionary Fares scheme by 1 April 2008. [180545]

Ms Rosie Winterton: We expect all travel concession authorities to introduce smartcards for the new concession. We have provided authorities with around £31 million for the introduction of these cards.

Air Travel

12. **Margaret Moran:** To ask the Secretary of State for Transport what research her Department has commissioned and evaluated on travel to and from airports by air travel passengers. [180546]

Jim Fitzpatrick: The Department for Transport uses data from surveys including the DfT public experiences of and attitudes to air travel survey and the Civil Aviation Authority's passenger surveys. The Future of Air Transport White Paper and the Project for the Sustainable Development of Heathrow were supported by modelling of passengers' choice of surface access mode to airports. The Department recently published an analysis of end-to-end journeys, with a focus on Heathrow.

Rail Overcrowding

13. **Mr. Leigh:** To ask the Secretary of State for Transport what steps her Department is taking to tackle rail overcrowding on routes other than the west coast main line. [180547]

Mr. Tom Harris: The July 2007 rail White Paper committed the Government to spend £15 billion on their railway between 2009 and 2014. £10 billion of that is specifically devoted to measures to increase capacity. These include 1,300 extra carriages, £5.5 billion for Thameslink and £600 million for improvements at Birmingham New Street and Reading. We have also recently announced a funding package for Crossrail.

Air Transport Auxiliary

14. **Nigel Griffiths:** To ask the Secretary of State for Transport if she will bring forward proposals for an award marking the service given in the second world war by the pilots of the Air Transport Auxiliary. [180548]

Jim Fitzpatrick: I regret to inform my hon. Friend that we have no present plans to do so. But he is welcome to write to me with details.

Metronet

15. **Harry Cohen:** To ask the Secretary of State for Transport what discussions she had on Metronet since it entered into administration; and what her latest estimate is of the costs to the public purse resulting from its entering into administration. [180549]

Ms Rosie Winterton: The Mayor of London and Transport for London have provided regular updates on progress since Metronet entered administration.

The Spending Review settlement reached with TfL makes provision for costs arising from Metronet's administration.

The extent to which Metronet's delivery had slipped behind their spending, and therefore the scale of any long-term costs, will become clear only when London Underground have been able to review Metronet's detailed accounts, if they take control of the Metronet assets from administration.

Rail Staff

16. **John McDonnell:** To ask the Secretary of State for Transport what discussions she had with railway companies and railway trades unions on assaults on railway staff. [R] [180550]

Mr. Tom Harris: The rail industry is undertaking a range of initiatives to help reduce the number of staff assaults and has set up a Rail Personal Security Group to address this. The British Transport police has made staff assaults a priority in its policing plan for the last three years.

Aircraft Noise

17. **Mr. Hands:** To ask the Secretary of State for Transport what assessment she has made of the impact of aircraft noise on quality of life; and what steps airports are taking to reduce such noise. [180551]

Jim Fitzpatrick: "The Future of Air Transport" White Paper provided a clear approach to the local environmental challenges of airport operation, in terms of noise and the impact on the area in which airports operate. In particular it set out our key aim to limit and where possible reduce the number of people in the UK significantly affected by aircraft noise.

In addition to measures taken by airport operators, the Government have acted to strengthen airport operators' powers to control noise at airports; implemented a new night noise regime for London airports that caps flight numbers at current levels and provide incentives for introducing quieter aircraft and continued to undertake appropriate research into aircraft noise.

Bus Accessibility

18. **Paul Rowen:** To ask the Secretary of State for Transport what steps she is taking to improve the accessibility of buses to elderly people with mobility difficulties. [180552]

Ms Rosie Winterton: In 2000, the Government introduced the Public Service Vehicles Accessibility Regulations requiring all new and existing buses and coaches, with a carrying capacity of more than 22 passengers and used on local or scheduled services, to be accessible to the widest possible range of disabled people.

In addition, regulations were introduced in 2002 and 2006, which placed certain duties on bus and coach operators and staff with respect to disabled people.

We have also announced that free off-peak local bus travel anywhere in England for people aged 60 and over and disabled people resident in England would be in place from April 2008.

Concessionary Travel

19. **Mr. Jim Cunningham:** To ask the Secretary of State for Transport what plans the Government have to extend concessionary travel to forms of public transport other than buses. [180553]

Ms Rosie Winterton: We expect all travel concession authorities to introduce smartcards for the new concession. We have provided authorities with around £31 million for the introduction of these cards.

21. **Tim Loughton:** To ask the Secretary of State for Transport what formula she has used in determining full funding for the concessionary bus fare scheme for pensioners when it is implemented nationally. [180555]

Ms Rosie Winterton: The chosen formula, following the Department's consultation last November, is based on data on eligible population, bus patronage, overnight visitors and retail floor space. Of the four options presented in the consultation, there was a clear preference for Option 4. Our proposed distribution amends this slightly to take account of the responses.

24. **Jeff Ennis:** To ask the Secretary of State for Transport what meetings she has had with bus user groups to discuss the forthcoming free off-peak national scheme for concessionary bus fares. [180558]

Ms Rosie Winterton: I have undertaken meetings with stakeholder groups, including bus users, both at regional and national level. These discussions covered a range of issues, including the new national bus concession.

West Coast Main Line

20. **Ann Winterton:** To ask the Secretary of State for Transport what assessment she has made of recent service reliability on the west coast main line. [180554]

Mr. Tom Harris: The Department monitors the performance of all passenger train operators. In the year to 5 January 2008 West Coast trains achieved an average punctuality of 85.9 per cent.

Vehicle Size

22. **Alan Simpson:** To ask the Secretary of State for Transport when she expects to report on the study her Department commissioned on longer and heavier vehicles in 2005. [180556]

Jim Fitzpatrick: The study was actually commissioned in October 2006 and the full report should be published by the end of February. At present, we do not intend to publish a response, but following speculation in the media about the Government allowing trials of "super" lorries, the Secretary of State has previously made clear that we are sceptical of these vehicles and have no plans to permit them in the UK.

Buses: Stockton

23. **Ms Dari Taylor:** To ask the Secretary of State for Transport what steps are being taken by her Department to improve bus transport in Stockton. [180557]

Ms Rosie Winterton: Through the Local Transport Bill, we will give local authorities increased flexibility and powers to work with bus operators to improve local bus services.

Railways

25. **Mr. McGovern:** To ask the Secretary of State for Transport what steps she is taking to maintain levels of railway use. [180559]

Mr. Tom Harris: Rail use has grown consistently in recent years. We expect that trend to continue. The rail White Paper incorporates our best estimate of future

demand and an undertaking to spend £10 billion between 2009 and 2014 on capacity improvements to cater for it.

Mr. MacShane: To ask the Secretary of State for Transport what plans she has for the provision of rail services on 26 December 2008. [179509]

Mr. Tom Harris: Boxing day service provision is a matter for Network Rail, as the owner and operator of the national rail network, and the passenger train operators.

Bicycles: Children

Mr. Bone: To ask the Secretary of State for Transport what progress has been made in her Department's investigation into the wearing of cycle helmets by children. [180934]

Jim Fitzpatrick: The Department is developing a new research project looking at a range of road safety and cycling issues. This will examine the following topics:

Road user safety and cycling data;

Cycling infrastructure;

Attitudes and behaviours; and

Bicycle helmets.

A draft specification has been prepared and we are discussing this with stakeholders. A meeting was held with cycling groups on 14 December, and a meeting with others including the Bicycle Helmet Initiative Trust is scheduled for 25 January. Once these meetings are completed, the Department intends to commission the research.

The Department also intends to publish the 2006 cycle helmet wearing survey shortly.

David Abrahams

Mr. Pickles: To ask the Secretary of State for Transport what representations *(a)* her Department and *(b)* the Highways Agency have received from (i) representatives of Durham Green Developments Limited and (ii) Mr. David Abrahams on Durham Green Business Park in the last 36 months. [170733]

Mr. Tom Harris *[holding answer 3 December 2007]*: The information is as follows:

(a) The central Department has received no such representations.

(b) During the period August 2005 to October 2006 there were over 200 e-mail exchanges and four letters between the Highways Agency and its consultants, and the developer's consultants in relation to the Durham Green Business Park proposal. The Highways Agency and its consultants also attended three meetings with the developer's consultants; two of these were attended by David Martin (also known as David Abrahams). All these related to the potential traffic impact of the proposed development on the road network and mitigation measures required.

Mr. Pickles: To ask the Secretary of State for Transport if she will place in the Library a copy of all correspondence and documentation relating to the Durham Green Business Park planning application and development held by *(a)* her Department and *(b)* the Highways Agency. [171024]

Mr. Tom Harris: The central Department has not been party to any correspondence regarding the Durham Green Business Park planning application and does not hold any documentation relating to the application.

All correspondence and documentation relating to the Durham Green Business Park planning application held by the Highways Agency will be placed in the House of Commons Library as soon as it can be assembled. All correspondence and documentation related to the potential traffic impact of the proposed development on the road network and the mitigation measures required.

Departmental Data Protection

Mrs. Villiers: To ask the Secretary of State for Transport how many instances have been recorded in her Department of former employees accessing important and sensitive data after terminating their employment with the Department. [176933]

Jim Fitzpatrick: The Department, including its Agencies, is not aware of any instances where former employees have accessed sensitive data after the termination of their employment.

Level Crossings: Hampshire

Mr. Hancock: To ask the Secretary of State for Transport how many *(a)* fatalities and *(b)* injuries have resulted from accidents at each level crossing in Hampshire since 2002. [179736]

Mr. Tom Harris: The Office of Rail Regulation (ORR) has provided the overall number of fatalities and injuries at level crossings in Hampshire since 2002 in the following table. Data for 2007 are not yet available.

Fatalities and injuries at level crossings in Hampshire, 2002-06

	Fatalities	*Injuries*	*Total*
2002	1	0	1
2003	1	0	1
2004	1	0	1
2005	0	1	1
2006	0	1	1
Total	3	2	5

Level Crossings: Safety

Mr. Hancock: To ask the Secretary of State for Transport what progress she expects to be made in *(a)* improving the safety of level crossings open to road traffic and *(b)* eliminating such crossings by over bridges within the timetable of the Network Rail Strategic Plan; and if she will make a statement. [179738]

Mr. Tom Harris: Improving the safety of level crossings requires co-operation among a wide range of stakeholders. The Office of Rail Regulation, Network Rail and the Department, together with many other key players, are working to achieve this. Network Rail is running campaigns to raise level crossing safety awareness. The latest industry statistics suggest that risk at level crossings has been reduced.

Eliminating level crossings open to road traffic by providing road bridges is a matter for local highways authorities, local councils and Network Rail. There are examples of level crossings being replaced by bridges where risk to crossing users has necessitated such action. There is no timetable within the Network Rail Strategic Business Plan for eliminating level crossings by providing bridges.

Network Rail

Mr. Hoban: To ask the Secretary of State for Transport (1) how frequently she has met executives from Network Rail in each of the last six months; [178565]

(2) what meetings she had with executives from Network Rail in each of the last three months; and what was discussed at each meeting. [178566]

Mr. Tom Harris: The Secretary of State for Transport holds regular bilateral meetings with senior executives from Network Rail to discuss issues of common interest. In the last six months four such meetings have been held.

In addition, the Secretary of State met with Iain Coucher, chief executive of Network Rail, on 3 January, to express her concern at the inconvenience caused to passengers and freight operators by Network Rail's engineering over-runs over the new year period and to seek reassurances that these would not be repeated.

Mrs. Laing: To ask the Secretary of State for Transport what proposals *(a)* she and *(b)* the Office of Rail Regulation has for the strengthening of the conditions of Network Rail's network licence. [180493]

Mr. Tom Harris *[holding answer 21 January 2008]:* The Office of Rail Regulation (ORR) began a planned review of Network Rail's network licence in 2007 with a view to giving it a more purposeful format and to ensure that it remains fit for purpose going forward. In reviewing Network Rail's licence, ORR will take into account the findings of their investigation into the recent over-running engineering works, to the extent that these are relevant.

Network Rail: Bridges

Mrs. Laing: To ask the Secretary of State for Transport what arrangements are in place for the recovery of money by Network Rail from *(a)* the Highways Agency, *(b)* local authorities, *(c)* statutory undertakers and *(d)* other persons, in relation to (i) road bridges and (ii) foot bridges which cross its network; what charges are applied; and what the basis is for those charges. [180489]

Mr. Tom Harris *[holding answer 21 January 2008]:* These are operational matters for Network Rail as the owner and operator of the national rail network. The hon. Member should contact Network Rail's chief executive at the following address for a response to his question.

Iain Coucher
Chief Executive
Network Rail
40 Melton street
London NW1 2EE

Network Rail: Repairs and Maintenance

Mrs. Laing: To ask the Secretary of State for Transport what proposals *(a)* she and *(b)* the Office of Rail Regulation have for the further reform of the railway network code in respect of (i) the carrying out of engineering work on the network and (ii) the liability of Network Rail to pay compensation to its train operator customers in cases of delays or unsatisfactory or late completion of works. [180490]

Mr. Tom Harris *[holding answer 21 January 2008]:* The Office of Rail Regulation (ORR) is currently working with the industry to review compensation arrangements for engineering works in order to introduce stronger incentives on Network Rail to manage them more effectively and efficiently. In the light of the findings of its investigation into the recent engineering overruns, ORR will consider whether any further changes may be needed to the network code in respect of engineering works or the arrangements for paying compensation.

Mrs. Laing: To ask the Secretary of State for Transport whether *(a)* she and *(b)* the Office of Rail Regulation has any plans to require Network Rail to extend the timetable for the completion of the West Coast route modernisation. [180492]

Mr. Tom Harris *[holding answer 21 January 2008]:* The Office of Rail Regulation (ORR) is investigating whether Network Rail is in breach of its network licence following the engineering overruns at Rugby and Liverpool Street Station.

An important part of ORR's investigation is to examine the robustness of Network Rail's plans for the remaining work to enhance the West Coast Main Line. ORR will consider whether the findings of its investigation have implications for the timetable for completion of the West Coast works.

Railway Stations: Accidents

Mr. Hancock: To ask the Secretary of State for Transport how many *(a)* fatalities and *(b)* injuries have occurred at railway stations in Hampshire since 2002, broken down by cause. [179741]

Mr. Tom Harris: The Office of Rail Regulation (ORR) records accident data against the geographical location of where the accident occurs. There is no further sub division into the nature of the location e.g. station, signal box, track. Details of accidents to people at stations could be provided only at disproportionate cost.

ORR has however provided details of all fatalities and injuries occurring on the railways in Hampshire since 2002. Data for 2007 are not yet available. The information is broken down by person category and is detailed in the following tables:

Table 1: Railway fatalities in Hampshire, 2002-06

	Passenger	*Railway employees*	*Other members of the public*	*Trespassers*	*Suicides*
2002	1	0	0	2	1
2003	0	1	0	2	1
2004	1	1	1	2	4
2005	0	0	0	3	4
2006	0	0	0	[illegible]	2
Total	2	2	1	16	10

Table 2: Railway injuries in Hampshire, 2002-06

	Passenger	*Railway employees*	*Other members of the public*	*Trespassers*	*Attempted suicides*
2002	34	56	[illegible]	1	1
2003	29	59	[illegible]	2	0
2004	33	48	[illegible]	5	1
2005	34	47	1	3	1
2006	18	30	1	6	1
Total	148	240	2	17	4

Railways: Construction

Norman Baker: To ask the Secretary of State for Transport how many miles of new railway have been built in each year since 1997. [180281]

Mr. Tom Harris *[holding answer 21 January 2008]*: 46 miles of new two track high speed railway were built by London and Continental Railways for section 1 of the channel tunnel rail link completed in 2003, and a further 24 miles were built for section 2 completed in 2007. The channel tunnel rail link was constructed as a public private partnership project with a 90-year concession and is not the direct responsibility of Network Rail.

Otherwise, the amount of railway built each year is an operational matter for Network Rail, as the owner and operator of the national rail network. The hon. Member should contact Network Rail's Chief Executive at the following address for a response to his question:

Iain Coucher
Chief Executive
Network Rail
40 Melton Street
London
NW1 2EE

Railways: Disabled

Mr. Hancock: To ask the Secretary of State for Transport what assessment she has made of the level of compliance of each Hampshire rail station with the Disability Discrimination Act 2005. [179742]

Mr. Tom Harris: The Department does not assess the compliance of railway stations with Part 3 of the Disability Discrimination Act 1995. Station operators are required to take reasonable steps to ensure that disabled people do not find it impossible or unreasonably difficult to access their services. Operators are responding to these duties, but where a disabled person believes that they have been discriminated against contrary to Part 3 they can bring a claim against the operator.

Railways: Fares

Stephen Hesford: To ask the Secretary of State for Transport what assessment she has made of the effect of recent rail fare increases; and what recent discussions she has had with ministerial colleagues on developing a rail fares policy which takes into account more fully the interests of passengers and the environment. [179161]

Mr. Tom Harris: In the absence of specific grounds for doing so, the Department has made no formal assessment of the recent increases in unregulated fares. However, we keep unregulated fares under review.

The Department continues to listen to the representations of train users and has invited passenger focus to take a greater role in commenting on the specification of future franchises.

This Government want to encourage people to make more informed choices about how and when they travel. As part of our strategy to give people an alternative to travelling by car and meet our environmental obligations on CO_2 emissions, we are putting record investment in public transport. The Government are investing £88 million in the railway each week and with over one billion passenger journeys last year, we now have the fastest growing railway in Europe.

Railways: Gravesend

Mr. Holloway: To ask the Secretary of State for Transport which types of ticket for rail journeys from Gravesend to London Charing Cross are regulated by the Government. [179711]

Mr. Tom Harris: The following types of ticket are subject to fares regulation:

Gravesend to London Terminals standard day single, standard day return and season tickets.

In addition the Gravesend to London All Zone Travelcard and Travelcard seasons tickets Zones 2-6 (inclusive) are regulated.

Mr. Holloway: To ask the Secretary of State for Transport what the average time-tabled journey time by train from Gravesend to London Charing Cross was in each of the last 10 years. [179712]

Mr. Tom Harris: The average travel time between Gravesend and London is outlined in the following table:

Journey time in minutes

	From London	*To London*
1997	50	52
1998	50	52
1999	51	53
2000	52	53
2001	52	53
2002	52	53
2003	52	53
2004	53	54
2005	53	54
2006	53	54
2007	54	54

Railways: Passengers

Norman Baker: To ask the Secretary of State for Transport if she will list the 10 railway *(a)* stations and *(b)* lines which had the largest (i) percentage and (ii) gross increase in passenger numbers in the latest year for which figures are available. [180273]

Mr. Tom Harris *[holding answer 21 January 2008]:* The Department does not hold this information. The Office of Rail Regulation does however publish "National Rail Trends" on a quarterly basis. This document shows a variety of industry information and statistics including journey and revenue information by three sectors of operators, "Long Distance", "London and South East", and "Regional".

Railways: Planning

Mr. McLoughlin: To ask the Secretary of State for Transport what steps are being taken to safeguard potential railway routes from development. [181159]

Mr. Tom Harris: The Government do not propose to take a blanket approach to safeguarding all potential alignments or disused lines. This would be disproportionate and blight homes and properties. Strict controls are already in place for the development of railway land and local authorities can use local planning processes to protect sites or alignments if they deem this appropriate.

Railways: Standards

Mr. Hancock: To ask the Secretary of State for Transport what the *(a)* punctuality and reliability statistics and *(b)* passengers in excess numbers were for rail services on (i) the Portsmouth to Cardiff, (ii) Portsmouth to London via Guildford, (iii) Portsmouth to London via Basingstoke and (iv) Southampton to Havant routes in each month since January 2005. [180613]

Mr. Tom Harris: The Department does not hold punctuality and reliability information broken down by service groups. Inquiries relating to data should be made to the relevant train operating companies.

For (a) (i):

Chief Operating Officer
First Great Western
Head Office
Milford House
1 Milford Street
Swindon
SN1 1HL

and (a) (ii) (iii) and (iv):

Managing Director
South West Trains
Friars Bridge Court
41-45 Blackfriars Road
London
SE1 8NZ

The numbers of passengers on rail services running in excess of capacity is shown in the following table:

Number of passengers on all rail services in excess of capacity in each peak

	2005		2006	
Route	*AM*	*PM*	*AM*	*PM*
(i) Portsmouth to Cardiff	n/a	n/a	n/a	n/a
(ii) Portsmouth to London (via Guildford)	411	146	827	487
(iii) Portsmouth to London (via Basingstoke)	0	62	106	107
(iv) Southampton to Havant	n/a	n/a	n/a	n/a

n/a = Not available

The data in the table relate to the previous South West Trains franchise. Data for the successor Stagecoach South Western Trains Franchise in autumn 2007 are being collected and are currently not available.

The rail White Paper was published in July 2007. It sets out the resources we intend to make available to the rail industry and the increases in capacity, as well as safety and performance, that we expect the industry to deliver in return.

There are no specific requirements regarding levels of overcrowding on these routes. The Department's general requirements for overcrowding are that passengers should not be expected to stand for more than 20 minutes.

Railways: Watford

Sir Malcolm Rifkind: To ask the Secretary of State for Transport what her policy is on Southern Trains' proposal to withdraw its Watford to Brighton service; if she will make it her policy to preserve the Watford to Brighton service through conversion of trains to dual-voltage to operate on Thameslink; and if she will make a statement. [179559]

Mr. Tom Harris: While there are some trains that could be converted from single- to dual-voltage, those trains are all in full use on other services from which they cannot be released, and therefore not available to preserve the Watford to Brighton service. The Government have already announced the intention to procure 1,300 additional vehicles for the rail network in England and Wales between 2008 and 2014.

Sir Malcolm Rifkind: To ask the Secretary of State for Transport what assessment she has made of the likely effect of the withdrawal of Southern Trains' Watford to Brighton service on passengers with disabilities or heavy luggage required to change platforms at Clapham Junction. [179560]

Mr. Tom Harris: Clapham Junction is one of 92 stations selected for major improvements as part of the £370 million "Access for All" project. This will benefit all those passengers with disabilities who may need to change trains at Clapham Junction, including the few who wish to travel between Watford and Brighton.

Regulation

Mrs. May: To ask the Secretary of State for Transport for which regulators and inspectorates her Department has had responsibility in each year since 1997; what the budget was of each such body in each year; and what the cost to the public purse was of any restructuring of each such body in each year. [175313]

Jim Fitzpatrick: Since its formation on 29 May 2002, the Department has had responsibility for the Civil Aviation Authority which is responsible for the regulation of civil aviation in the United Kingdom. The CAA is financially independent of Government and is financed by those it regulates. The financial statements for the CAA are published in its annual accounts.

The Vehicle and Operator Services Agency (VOSA) was formed on 1 April 2003 following the merger of the Vehicle Inspectorate and the Traffic Area Network division of the Department for Transport. VOSA provides a range of licensing, testing and enforcement services with the aim of improving the roadworthiness standards of vehicles ensuring the compliance of operators and drivers with road traffic legislation, and supporting the independent Traffic Commissioners. The financial statements for the Vehicle Inspectorate were published in its annual accounts.

Roads

Mr. Hoban: To ask the Secretary of State for Transport how many detrunking orders her Department has made in each of the last 10 years. [180412]

Mr. Tom Harris: In the last 10 years (1998-2007) there have been a total of 205 detrunking orders predominantly for short lengths of the trunk road network. A breakdown of these detrunking orders by year is given in the following table:

	Number
1998	7
1999	9
2000	6
2001	30
2002	44
2003	47
2004	15
2005	9
2006	16
2007	12
Total	205

Shipping: Containers

Andrew George: To ask the Secretary of State for Transport how many containers were lost overboard from container ships in UK coastal waters in each of the last 10 years. [180609]

Jim Fitzpatrick: In the period of time specified the Maritime and Coastguard Agency (MCA) has operated two databases to record incidents, including recording where containers are lost overboard. There is no separate database to record the loss of containers.

The MCA relies on ships reporting loss of containers in accordance with national and European legislation.

To give a specific number would require a manual interrogation of the incident recording system and that would incur disproportionate costs.

Andrew George: To ask the Secretary of State for Transport what processes are in place to report losses of shipping containers at sea. [180612]

Jim Fitzpatrick: The vessel traffic monitoring directive covers the reporting of hazardous incidents including the loss of containers at sea. Any vessel losing containers is obliged to report the loss to Her Majesty's Coastguard (HMCG) in the UK. Reports of containers lost will be captured in the Consolidated European Reporting System (CERS).

Vessels encountering lost containers at sea are obliged under the Merchant Shipping (Safety of Navigation) Regulations 2002 to report hazardous incidents to HMCG in the UK.

South West Trains: Rolling Stock

Mr. Hancock: To ask the Secretary of State for Transport pursuant to the answer of 15 January 2008, *Official Report*, column 1094W, on South West Trains, what the internal specifications are for (*a*) seating and (*b*) stand alone tables for (i) suburban, (ii) mainline and (iii) mainline express rolling stock units; into which of these categories (A) class 442 and (B) class 444 units fall; and if she will make a statement. [180674]

Mr. Tom Harris: A guidance note for interior design of trains has been issued by the Association of Train Operating Companies (ATOC). This document will have been taken into account by the designers of new trains like Class 444 and in the refurbishment of older trains like Class 442.

For further information and a copy of this document please contact either South West Trains or ATOC at the following addresses:

South West Trains

Friars Bridge Court

41-45 Blackfriars road

London

40 Bernard street

London

WC1N 1BY

Train Operating Companies: Fines

Mr. Hancock: To ask the Secretary of State for Transport on which occasions the Rail Regulator has imposed penalties on rail companies in each of the last three years; what penalty was imposed; on which company it was imposed; for what reasons it was imposed; and to what purpose the fines have been put. [179745]

Mr. Tom Harris: The Office of Rail Regulation (ORR) has imposed the following penalties on railway companies in the last three years:

Penalties imposed by ORR on railway companies 2005-07

	Penalty (£)	Railway company	Reasons
2006	250,000	Network Rail	Breach of Condition 7 of Network Licence regarding inaccurate infrastructure information
2006	4.1 million	English Welsh and Scottish Railway	Infringement of prohibition contained in Chapter II of the Competition Act 1998, resulting in exclusion of competitors from the coal haulage-by-rail market
2007	2.4 million	Network Rail	Breach of Condition 7 of Network Licence regarding the Portsmouth re-signalling scheme

All the penalties levied were paid into the Consolidated Fund. Any penalties on rail companies following prosecution for breaches of health and safety legislation would be determined by the courts.

Trains: Standards

Mr. Hancock: To ask the Secretary of State for Transport pursuant to the answer of 10 January 2008, *Official Report*, column 700W, on trains: standards, whether the full report commissioned by South West Trains was made available for review by Passenger Focus; and if she will make a statement. [180228]

Mr. Tom Harris: The full report was made available for independent review by Passenger Focus and the findings of the subsequent report published on the South West Trains website. Passenger Focus has confirmed the published findings to be an accurate reflection of the report.

Transport: Radioactive Materials

Norman Baker: To ask the Secretary of State for Transport how many accidents occurred involving *(a)* road vehicles, *(b)* aircraft and *(c)* trains carrying radioactive material in the United Kingdom in each year since 1997. [180661]

Jim Fitzpatrick *[holding answer 21 January 2008]:* Since 1989 reports detailing all events involving the transport of radioactive material in the UK have been produced by the Health Protection Agency (HPA) working under contract to the Department for Transport.

Copies of these reports have been placed in the House Library and recent ones have been placed on the HPA website and are also available via the Department's website at the following address:

http://www.dft.gov.uk/pgr/freight/dgt1/guidance/guidance?class/theradiologicalimpactofthetr1178

DEFENCE

Afghanistan: Peacekeeping Operations

Bob Russell: To ask the Secretary of State for Defence what recent representations the UK has made to other NATO countries on provision of troops for operations in Helmand Province; Afghanistan. [180279]

Des Browne *[holding answer 21 January 2008]:* NATO nations have made a collective commitment to Afghanistan and to meet the force levels set out in the Combined Joint Statement of Requirements. We routinely raise Afghanistan issues, including force levels, in bilateral and multilateral meetings.

Mr. Hancock: To ask the Secretary of State for Defence what plans he has for improving UK combat search and rescue cover in Afghanistan; and if he will make a statement. [180406]

Mr. Bob Ainsworth: Combat search and rescue is a specialist subset of Joint Personnel Recovery Operations. It refers to the recovery of trained and equipped isolated personnel, such as downed aircrew, when conducted in a threat environment. Allocation of resources for this task on current operations in Iraq and Afghanistan is a coalition responsibility and we are content the current system provides a satisfactory degree of cover.

Aircraft Carriers: Procurement

Mr. Jenkin: To ask the Secretary of State for Defence when he expects to agree a manufacturing contract for the building of the two new aircraft carriers; and if he will make a statement. [180301]

Mr. Bob Ainsworth: I refer the hon. Member to the answer my right hon. Friend the Secretary of State for Defence (Des Browne) gave on 7 January 2008, *Official Report*, column 21W, to the hon. Member for New Forest East (Dr. Lewis).

Armed Forces: Compensation

Mr. Gray: To ask the Secretary of State for Defence what minimum compensation is paid to the families of servicemen killed in action; how compensation to bereaved families is calculated; what arrangements are in place for the payment of compensation to bereaved families; whether a civilian inquest is necessary before compensation is paid to bereaved relatives; and what arrangements are in place for meeting bereaved families' immediate expenses such as a funeral if there is any delay in paying compensation. [180098]

Derek Twigg: Under the Armed Forces and Reserve Forces (Compensation Scheme) Order 2005, benefits are payable to eligible surviving adult dependants/children of servicemen killed in action on or after 6 April 2005. The scheme provides compensation where death was caused by service on or after 6 April 2005 (causes before this date are considered under the war pension scheme).

Benefits are calculated in accordance with the rules of the scheme and consist of a bereavement grant of up

to £20,000, a survivor's guaranteed income payment (SGIP) payable for life and payments to eligible children.

The calculation for SGIP is based on the serviceman's salary and age at death and is taxable. This is paid monthly for life even in the event of remarriage. Payments to eligible children are based on similar calculations but the payment for children depends on the number of children and whether there is a surviving adult dependant.

It is not normally a necessity that an inquest is carried out before compensation can be paid, the results of an inquest may however be required if there is a question as to whether death was due to service.

The settling of funeral accounts and associated expenses is an entirely separate process and is not affected by any decision on compensation payments. Families may choose between having a service (military) funeral or a private family funeral. In the first instance all approved expense arising from a service funeral is paid by the MOD and the family also receive a cash grant of £500 to use as they wish to defray incidental expenses. If the family elect to have a private funeral then a grant is made, according to the type of funeral or cremation, currently up to a maximum of £2,760.

Armed Forces: Housing

Dr. Fox: To ask the Secretary of State for Defence (1) what the average cost was for upgrading a *(a)* single living accommodation and *(b)* single family accommodation from standard 4 to standard 3 in the latest period for which figures are available; [174471]

(2) what the average cost was of upgrading a *(a)* single living accommodation and *(b)* single family accommodation from standard 2 to a standard 1 in the latest period for which figures are available; [174502]

(3) what the average cost was of upgrading a *(a)* single living accommodation and *(b)* single family accommodation from standard 3 to a standard 2 in the latest period for which figures are available. [174504]

Derek Twigg: MOD does not collect data in the form requested, nor does the Department approach the modernisation or upgrading of service families accommodation (SFA) and single living accommodation (SLA) in the way suggested.

The only time that we would improve a standard 4 for condition property just to standard 3, or simply uplifting any standard to one higher, would be as part of life-cycle maintenance activity; for instance, replacing bathrooms, kitchens or boilers and this would be classified as an upgrade.

It should be noted that 95 per cent. of SFA in mainland Great Britain is already at either standard 1 (60 per cent.) or standard 2 (35 per cent.) for condition. Over the last three years some 5,500 properties in the UK and 20,000 SLA worldwide have been upgraded to standard 1. Another 600 SFA will be upgraded in the current year with funding in place for a further 600 in 2008-09, and 800 per annum in subsequent years. By 2013 the Department is planning to upgrade a further 30,000 SLA to Grade 1.

Mr. Baron: To ask the Secretary of State for Defence how many service families' properties were upgraded to *(a)* S1fC and *(b)* S2fC categories under the standard for condition initiative in each of the last four years. [179926]

Derek Twigg *[holding answer 17 January 2008]:* In each of the last four years the following numbers of service families accommodation (SFA) properties were upgraded to standard 1 for condition (S1fC).

Financial year	*Number upgraded to S1fC*
2006-07	1,215
2005-06	1,705
2004-05	2,610
2003-04	1,402

It is not possible separately to identify the number of properties that were upgraded to S2fC in each of the last four years. The Department only has targets to upgrade SFA to S1fC, other lesser upgrades would only take place as part of life-cycle maintenance activity (for instance replacing bathrooms, kitchens or boilers).

Armed Forces: Literacy

Mr. Gibb: To ask the Secretary of State for Defence how much was spent on basic literacy and basic mathematics education in each year since 2000 by *(a)* the Royal Navy, *(b)* the Royal Air Force and *(c)* the Army. [180797]

Derek Twigg: The armed forces recognise that improving basic skills enhances the ability of service personnel to cope with work pressures and increases their potential for career development. Basic skills education is one of several roles for service education officers, but is also delivered by appropriately trained civilian staff. Significant key skills training is also delivered within vocational training programmes.

Establishing the full cost of basic skills education across the armed forces could be achieved only at disproportionate cost. Hence in this response the expenditure identified is that which relates specifically to the employment and support of specialist manpower whose primary role is the delivery of basic skills education.

Royal Navy

Basic skills tutors have been directly employed by the RN since 2006 and the costs relating to their role are as follows:

		£
	2006	*2007*
Basic skills tutors	250,000	250,000

Army

As the largest of the services the army has the greatest requirement for basic skills education and support. The costs directly attributable to Basic Skills Development Managers (BSDM) (salary, travel and subsistence and in-house training) since their engagement in 2002 are shown in the following table.

	BSDM	Admin SP	Total
2002	480,000	102,000	582,000
2003	1,046,000	741,000	1,787,000
2004	1,191,000	765,000	1,956,000
2005	1,361,000	828,000	2,189,000
2006	1,612,000	874,000	2,486,000
2007	1,665,000	942,000	2,607,000

Royal Air Force

The RAF has a higher academic entry standard than the Army and RN. Any basic skills educational requirements are met primarily through the use of local college programmes, outside normal working hours and utilising Learning and Skills Council funding. Where literacy and numeracy packages have been delivered on RAF bases they have been funded by the individuals themselves. There are therefore no figures available for directly attributable costs for basic skills education for the RAF in the period 2000-07.

Armed Forces: Pay

Mr. Jenkin: To ask the Secretary of State for Defence if he will fully implement the forthcoming recommendations of the Armed Forces Pay Review Body; and if he will make a statement. [180302]

Mr. Bob Ainsworth: The Armed Forces Pay Review Body (AFPRB) is currently deliberating and will submit its report to my right hon. Friends the Prime Minister and Defence Secretary in due course. The Government will then consider whether to implement the AFPRB recommendations.

Armed Forces: Vacancies

Dr. Fox: To ask the Secretary of State for Defence what the current percentage shortfall is of each pinch point trade in the armed forces. [179677]

Derek Twigg: Details of percentage shortfalls for pinch point trades are provided in the following table. The figures are those reported for financial year 2007-08 quarter 3 returns.

Pinch points	Percentage shortfall
Royal Navy	
RN Harrier GR7 Instructors	57
Lt GR7 Harrier Pilots	51
Merlin Observers	46
Merlin Pilots	39

Atlas Consortium: Contracts

Mr. Gray: To ask the Secretary of State for Defence for what reasons the Atlas consortium was awarded a DII add-on contract in December 2006; what progress has been made on the original contract; and if he will make a statement. [176097]

Mr. Bob Ainsworth: I refer the hon. Member to the answer my predecessor gave on 30 January 2007, *Official Report*, column 154-55W to my hon. Friend the Member for North-West Leicestershire (David Taylor).

Delivery of some elements of the Defence Information Infrastructure (Future) (DII(F)) increment 1 are up to a year behind the original plan; however increments 1 and 2a have been combined to provide a more efficient and effective overall delivery plan. Over 22,000 DII(F) terminals have been delivered, supporting over 62,000 users.

Bowman Combat Radio System: Batteries

Mr. Hancock: To ask the Secretary of State for Defence if he will make it his policy to release the general design specification for Bowman batteries and invite a range of companies to tender for their supply. [180403]

Mr. Bob Ainsworth: No. The Bowman prime contract was let in 2001 and the prime contractor, who has a commitment to supply the Bowman suite of batteries until 2009, issued a set of performance criteria and tested the market to ensure that the supplier offering the most appropriate, cost effective solutions was selected.

A Bowman power study is being conducted which, when complete, should assist with ensuring that improved capabilities are delivered to the armed forces and aid the future procurement strategy for batteries.

Mr. Hancock: To ask the Secretary of State for Defence what assessment he has made of the ability of ABSL/AEA to provide batteries for Bowman to the standard required in theatre; and if he will make a statement. [180404]

Mr. Bob Ainsworth: The Department has not undertaken an assessment of ABSL/AEA's ability to provide batteries for Bowman to the required standard. Overall responsibility to MOD for the standard of the product rests with the Bowman Prime Contractor, General Dynamics United Kingdom Ltd. However, ABSL Power Solutions, as the battery provider, is responsible for the quality and assurance of their products.

Mr. Hancock: To ask the Secretary of State for Defence for what reasons Bowman HF batteries have been recalled for replacement; and who was responsible for ensuring that the quality of this product was of the standard necessary for theatre before it was sent overseas. [180405]

Mr. Bob Ainsworth: In 2006, Bowman High Frequency (HF) Mark 1 radio batteries were recalled when it became evident that an immersion requirement had not been met and water ingress could occur. The battery provider, ABSL Power Solutions agreed to replace all Mark 1 HF batteries at no cost to the Department and the replacement programme is continuing. Overall responsibility to MOD for the standard of the product rests with the Bowman prime contractor, General Dynamics United Kingdom Ltd. However, ABSL Power Solutions, as the battery provider, is responsible for the quality and assurance of their products.

Departmental Alcoholic Drinks

Mike Penning: To ask the Secretary of State for Defence if he will take steps to ensure that English wine is served exclusively or at the request of guests at meals, parties and receptions hosted by his Department; and if he will make a statement. [164288]

Derek Twigg: All public procurement procedures must comply with the EC treaty. The relevant principles of the treaty from a public procurement point of view are the free movement of goods and services and non-discrimination on the grounds of nationality. This legislation is designed to ensure that all public procurement across the European Union is fair, transparent and non-discriminatory. This means that the MOD cannot specify that it will buy goods solely from a particular country or locality, as that would discriminate against producers from other EU member states.

However, the Government are committed to increase opportunities for small and local suppliers to tender for contracts, thus increasing competition and securing better value for money.

Departmental Art Works

Mr. Dai Davies: To ask the Secretary of State for Defence what his policy is on the acquisition of paintings for his departmental art collection; and what his Department's budget for art acquisitions is in 2007-08. [180195]

Derek Twigg: No such acquisitions have been made since 2004. There is no departmental budget for art acquisition in 2007-08.

Helicopters

Mr. Laws: To ask the Secretary of State for Defence what helicopters are *(a)* owned and *(b)* utilised by (i) his Department and (ii) the armed forces; what the (A) original date of manufacture and (B) first in-service year was for each such helicopter; and if he will make a statement. [178043]

Mr. Bob Ainsworth: The following table shows the helicopters owned and leased by the Department for use by the armed forces. The original date of manufacture has been taken as when the first aircraft came off production, except for the Lynx for which the date of the first Lynx Trials Installation Flight has been given. The first year in service has been taken as the year in which the aircraft were first flown by the UK military.

The original dates of manufacture for the leased aircraft relate to the specific aircraft currently being leased by the MOD.

Helicopter type	MOD owned/leased	Original date of manufacture	First in service year
Agusta A109 A	Owned	1979	1984
Agusta A109 AM	Owned	1984	1984
Apache AH Mk1	Owned	2000	2001
Chinook	Owned	1980	1981
Gazelle	Owned	1972	1973
Lynx	Owned	1972	1977
Merlin Mk1	Owned	1995	1999
Merlin Mk3	Owned	1998	2000
Puma	Owned	1971	1971
Sea King	Owned	1969	1969
Agusta Westland A109E	Leased	2006	2006
Bell 212	Leased	1971	1994
Dauphin	Leased	1990	1996
Griffin (Bell 412)	Leased	1996	1997
Squirrel	Leased	1996	1997

Iraq: Peacekeeping Operations

Bob Russell: To ask the Secretary of State for Defence what recent discussions he has had with the Government of Iraq on apprehending those responsible for the murder of six members of the Royal Military Police in 2003; and if he will make a statement. [180070]

Des Browne *[holding answer 21 January 2008]:* The UK Government remains absolutely committed to bringing to justice those responsible for the murder of six members of the Royal Military Police at Al Majar Al Kabir on 24 June 2003. Ministers, and our ambassador in Baghdad, frequently press the Iraqi authorities to enact the arrest warrants issued in 2006 and will continue to do so until these individuals are apprehended. I personally raised this issue with the Iraqi Prime Minister, Nouri al-Maliki, when I met him last October and he offered his full co-operation.

Kuwait: Armed Forces

Dr. Fox: To ask the Secretary of State for Defence whether British personnel based at Camp Buehring in Kuwait will receive the *(a)* Iraq Medal and *(b)* council tax rebate; and if he will make a statement. [179672]

Mr. Bob Ainsworth: Under the current arrangements armed forces personnel may only receive the Iraq Medal for service on the land and in the airspace of Iraq, as well as the waters of the Northern Gulf, Iraqi territorial seas and Iraqi internal waters. However, in common with all campaign medals the situation is kept under constant review by the Chain of Command, and continues to take into account the ongoing risks and rigours of the operations in which British troops are involved.

Council tax relief will be paid to service personnel serving in Camp Buehring who are involved in Operation Telic (roulement) 11. Payment will be made from 1 April 2008 and, in line with the introduction of operational allowance payment for these personnel, will be backdated to 1 November 2007.

Military Aircraft: Helicopters

Nick Harvey: To ask the Secretary of State for Defence what the planned out of service dates for all military helicopters were in each year since 1997. [176841]

Mr. Bob Ainsworth: The planned out of service dates for all military helicopters such as they were from 1997 to 2007 are listed as follows:

	1997	1998	1999	2000	2001	2002	2003	2004	2005	2006	2007
Army

[1] Comprehensive data unobtainable in the time available

The table does not include the commercially owned helicopters that the Department leases.

RAF Menwith Hill

Norman Baker: To ask the Secretary of State for Defence pursuant to the answer of 11 December 2007, *Official Report*, column 400W, on RAF Menwith Hill, for what reason the exchange of letters between the US Defense Secretary, dated 29 June 2007 and the UK Secretary of State for Defence, dated 17 July 2007, is classified. [180271]

Des Browne: As I stated in my reply of 7 January 2008, *Official Report*, column 30W, it is not the practice of the Government to make public the details of correspondence with foreign governments as this would, or would be likely to, prejudice international relations.

Training: Young People

Mr. Kidney: To ask the Secretary of State for Defence (1) what military programmes are operated for the rehabilitation of people aged 16 to 25 who are *(a)* services personnel and *(b)* civilians; [178211]

(2) what discussions he has had with the Secretary of State for Justice on the provision of military training or other activities for young offenders as an alternative to court proceedings. [178441]

Derek Twigg: The Military Corrective Training Centre (MCTC) at Colchester exists to retrain and rehabilitate service personnel who have offended and will return to active service, as well as those resettling into civilian life having been discharged from the armed forces. The MCTC is not specifically targeted at individuals between the ages of 16 to 25; however any courts martial ruling would have taken into account an individual's age. The MCTC acts in accordance with Home Office guidance on the treatment of those under 18 years of age. It is regularly inspected by HMIP.

There are no military programmes in place for civilians; any rehabilitation would be a matter for the civilian criminal justice system. However my Department is involved in helping vulnerable young people through the Outreach programme and the Army Cadet force's youth and community project, which helps socially disengaged young people to become responsible citizens. We also work with other Government Departments on initiatives such as Skill Force, providing alternative training for young people at risk of exclusion.

No discussions have taken place with the Secretary of State for Justice on the provision of military training for young offenders prior to court proceedings.

Written Answers to Questions

Tuesday 22 January 2008

DUCHY OF LANCASTER

Anniversaries

Mr. Hayes: To ask the Chancellor of the Duchy of Lancaster if he will list planned commemorative *(a)* coins and *(b)* events for 2008 in which the Government will be involved. [180345]

Jane Kennedy: I have been asked to reply.

I refer the hon. Member to the statement given by the Chancellor of the Exchequer on 29 March 2007, *Official Report*, column 115WS, which announces the coins to be issued in 2008.

The Government currently have no plans to attend any events in relation to 2008 commemorative coins.

Cabinet Committees

Mr. Hancock: To ask the Chancellor of the Duchy of Lancaster what information is published in respect of meetings of *(a)* Cabinet Committees' and *(b)* Cabinet Sub-Committees' (i) dates of meeting, (ii) attendees and (iii) decisions taken; and if he will make a statement. [180673]

Edward Miliband: The membership, chair and terms of reference of all Cabinet Committees are published periodically on the Cabinet Office website and this information is placed in the Library of the House.

Information relating to the proceedings of Cabinet Committees and Sub- Committees is generally not disclosed. This includes the dates of meetings, attendees, and decisions taken.

Strategy Unit

Mr. Hoban: To ask the Chancellor of the Duchy of Lancaster pursuant to the answer of 17 December 2007, *Official Report*, column 1085W, on the strategy unit, how many full-time equivalent staff in the strategy unit worked on the development of the Children's Plan. [178351]

Phil Hope: The strategy unit worked in support of the Children's Plan between July and December 2007. Full-time equivalent numbers of staff involved ranged from 1-2 in July to August, rising to 4-6 in September to December.

Strategy Unit: Secondment

Mr. Hoban: To ask the Chancellor of the Duchy of Lancaster (1) how many *(a)* full-time, *(b)* part-time and *(c)* seconded appointments were made to the strategy unit in each month in 2007; [178568]

(2) how many *(a)* full-time, *(b)* part-time and *(c)* seconded staff work for the strategy unit. [178569]

Phil Hope: The number of full-time appointments made to the strategy unit in each month of 2007 is set out as follows (there were no part-time appointments).

Strategy unit appointments in 2007

	Number of appointments
January 2007	1
February 2007	0
March 2007	1
April 2007	2
May 2007	0
June 2007	1
July 2007	0
August 2007	2
September 2007	5
October 2007	4.8
November 2007	3
December 2007	0
Total	[1]19.8

[1] Of which two appointments were secondments from outside the civil service.

Total staff in post as of 1 January 2008 is 43.9 full-time equivalents, comprising: 18.2 fixed-term appointments; 14.9 permanent Cabinet Office staff; nine staff on loan from other Government Departments; and 1.8 secondments.

SOLICITOR-GENERAL

Departmental ICT

Susan Kramer: To ask the Solicitor-General how many *(a)* male and *(b)* female members of staff in the Attorney-General's Office were issued with personal digital assistants in each year since 2001; and if she will make a statement. [181366]

The Solicitor-General: The Attorney-General's Office has not issued any personal digital assistants to members of staff since 2001.

Domestic Violence: Prosecutions

Dr. Kumar: To ask the Solicitor-General what the ratio of domestic violence prosecutions to convictions was in each of the last 10 years. [179607]

The Solicitor-General: The records held by the Crown Prosecution Service (CPS) provide an analysis of the outcome of proceedings for domestic violence only with effect from full implementation of the Compass Case Management System in 2004.

The following figures show the number of defendant cases either charged by police, or accepted for prosecution

by the CPS, which were identified as allegations involving domestic violence. The data are split into those defendant cases resulting in a conviction, and those resulting in an unsuccessful outcome:

	Convictions	Percentage	Unsuccessful outcomes	Percentage	Total
2004-05	19,468	55.10	15,867	44.90	35,335
2005-06	30,213	59.80	20,343	40.20	50,556
2006-07	37,505	65.20	20,034	34.80	57,539
2007 to 14 January 2008	34,034	68.40	15,698	31.60	49,732

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Audit: Tax Avoidance

Mr. Austin Mitchell: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will introduce legislation to prevent auditors of banks from selling tax avoidance schemes to their audit clients. [178521]

Mr. Timms: I have no plans to do so. The provision of taxation services to audit clients is already regulated in two ways:

by the Ethical Standards of the Auditing Practices Board, which auditors are required to follow. These standards require auditors to adopt safeguards to mitigate any threats to their objectivity which might result from their providing tax services, or to refrain from providing the services.

by the requirement on companies to disclose in their annual accounts any sums paid to their auditors for taxation services.

Banks: Pay

Mr. Austin Mitchell: To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will appoint an inquiry to investigate executive remuneration at banks. [178523]

Mr. Timms: No. Directors' remuneration is a matter for companies and their shareholders.

The Directors' Remuneration Report Regulations 2002 have improved transparency and accountability in this area.

Broadband: Scotland

Mr. Moore: To ask the Secretary of State for Business, Enterprise and Regulatory Reform pursuant to his answer of 17 December 2007, *Official Report*, column 1061W, on Broadband: Scotland, what the location is of each of the clusters; in which parliamentary constituency in Scotland each cluster falls; and if he will make a statement. [176946]

Mr. Timms: The Scottish Executive has completed preliminary research on broadband reach in Scotland, which was published in December 2006. They estimate that between 7,000 and 25,000 homes cannot access DSL bandwidths in excess of 512Kb/s. These are scattered throughout Scotland. There is "clustering" where local conditions affect a number of premises in the same way, and the Scottish Executive is aware of around 50 such "clusters" (of 10 or more homes) as shown in table.

The Scottish Executive is currently undertaking a data verification exercise of all known demand in connection with Scottish broadband reach project which is expected to be complete by the end of this month.

Cluster location	BT exchange	Westminster constituency
Strathrusdale	Alness	Caithness, Sutherland and Easter Ross
Glen Creran	Appin	Argyll and Bute
Assynt	Assynt	Caithness, Sutherland and Easter Ross
Second Coast	Aultbea	Ross, Skye and Lochaber
Rowerdennan	Balmaha	Stirling
Throsk	Bannockburn	Stirling
Argas	Beauly	Ross, Skye and Lochaber
Craik	Borthwickbrae	Berwickshire, Roxburgh and Selkirk
Forgandenny	Bridge of Earn	Ochil and South Perthshire
Drumfearn	Broadford	Ross, Skye and Lochaber
Luib	Broadford	Ross, Skye and Lochaber
Strathbrora	Brora	Caithness, Sutherland and Easter Ross
Cortachy, Glen Prosen	Cortachy	Angus
Craigmarloch	Cumbernauld	Inverclyde
Carron Valley	Denny	Cumbernauld, Kilsyth and Kirkintilloch
Kilcoy	Dingwall	Ross, Skye and Lochaber
Kinkell	Dingwall	Ross, Skye and Lochaber
Mulbuie	Dingwall	Ross, Skye and Lochaber
Scoraig, Badcaul	Dundonnell	Ross, Skye and Lochaber
Dunans	Glendaruel	Argyll and Bute
Arnisdale	Glenelg	Ross, Skye and Lochaber

Cluster location	BT exchange	(Westminster) constituency
Inverfaraig	Gorthleck	Inverness, Nairn, Badenoch and Strathspey
Whitebridge	Gorthleck	Inverness, Nairn, Badenoch and Strathspey
Stromfirth	Gott	Orkney and Shetland
Nairnside	Inverness Culloden	Inverness, Nairn, Badenoch and Strathspey
Jura	Jura	Argyll and Bute
Ardeonaig	Killin	Stirling
Dalqueich	Kinross	Ochil and South Perthshire
Kinggoldrum	Kirriemuir	Angus
Ewes	Langholm	Dumfriesshire, Clydesdale and Tweeddale
Glenuig	Lochailort	Ross, Skye and Lochaber
Dunadd	Lochgilphead	Argyll and Bute
Knoydart	Mallaig	Ross, Skye and Lochaber
Eigg	Mallaig	Ross, Skye and Lochaber
Canna	Mallaig	Ross, Skye and Lochaber
Harperrig	Mid Calder	Livingston
Drimnin	Morvern	Ross, Skye and Lochaber
Glenbuck	Muirkirk	Kilmarnock and Loudoun
Cove, Inverasdale	Poolewe	Ross, Skye and Lochaber
Bridgend	Port Charlotte	Argyll and Bute
Boyndie	Portsoy	Banff and Buchan
Rousay	Rousay	Orkney and Shetland
North Sanday	Sanday	Orkney and Shetland
Kylesku, Kylestrom	Scourie	Caithness, Sutherland and Easter Ross
Invergloy, Clunes	Spean Bridge	Ross, Skye and Lochaber
South Ronaldsay	St Margaret's Hope	Orkney and Shetland
Corgarff	Strathdon	West Aberdeenshire and Kincardine
Balquhidder	Strathyre	Stirling
West Burrafirth	Walls	Orkney and Shetland

Business: Greater London

Mr. Burstow: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many new businesses were started in each London borough in the last 10 years; how many of them received Government funding; and if he will make a statement. [178418]

Mr. Timms: VAT registration data provide the only accurate indicator of the level of business start-up activity.

The number of new VAT registrations in each London borough are shown as follows for 1997 to 2006. Data for registrations in 2007 will be available autumn 2008.

Number of VAT registrations in each London borough 1997-2006

	1997	1998	1999	2000	2001	2002	2003	2004	2005	2006
London	35,825	37,690	36,210	36,330	33,400	32,955	35,750	35,320	34,875	34,825

Source:
Business Start-ups and Closures: VAT Registrations and De-registrations 1994-2006, available at: http://www.stats.berr.gov.uk/ed/vat

Although the number of new registrations has fluctuated over the period, the total number of VAT registered businesses in London has increased from 241,000 at the start of 1997 to 309,000 at the start of 2007, an increase of 68,000 (28 per cent.).

VAT registrations do not capture all business activity. Businesses are unlikely to be registered if they fall below the compulsory VAT threshold, which was £60,000 at the start of 2006. Only 1.9 million out of 4.5 million UK enterprises (43 per cent.) were registered for VAT at the start of 2006.

Over the last 10 years a range of Government programmes have supported business start-ups in London. These programmes include the single regeneration budget programme, European structural funds, Business Link, LEGI and a range of other programmes supported by the LDA and BERR.

Neither my Department nor the LDA, keep central records about the aggregate number of business start ups which have been supported by these programmes. Given the potential range of relevant programmes, the compilation of the information required to answer this question could be achieved only at disproportionate cost.

Fuel Poverty

Mr. Jim Cunningham: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps the Government plans to take to assist vulnerable groups affected by energy price increases. [178469]

Malcolm Wicks: The Government have a package of measures in place to support vulnerable households to keep their homes warm. We have announced that spend on energy efficiency measures for those on low incomes for the period 2008-11 will be in excess of £2.3 billion. This is in addition to the winter fuel payments, payable to all pensioners, which will continue for the lifetime of this Parliament.

In addition, energy companies have recently increased the level of support they provide to vulnerable customers as a result of Government pressure. The level of support available this winter is now close to £60 million.

Radioactive Materials: Theft

Paul Flynn: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether any radioactive materials have been stolen or lost in the United Kingdom since 1993. [172975]

Mr. Woolas: I have been asked to reply.

Across the UK, the largest amounts of radioactive materials are handled on civil nuclear sites overseen by the Health and Safety Executive (HSE). Smaller amounts of radioactive materials, handled at universities and hospitals for example, are regulated individually by the UK environment agencies.

Since 1993, the HSE has not recorded any thefts or losses of radioactive material in the UK.

Since 1999, the Environment Agency has recorded no thefts of radioactive materials regulated under the Radioactive Substances Act 1993 in England or Wales. From premises that the Environment Agency regulates in England, there were nine cases involving losses of radioactive sources. These have included losses of clinical 'marker' substances and small sealed sources used in manufacturing processes. In each case the Environment Agency took enforcement action. There are no recorded cases involving a loss in Wales.

Small numbers of thefts and losses have occurred while radioactive materials have been transported in the UK and the Department for Transport (DFT) investigates such events and takes regulatory action as appropriate. Information is available in reports published by the Health Protection Agency (HPA) on behalf of DFT. All HPA reports have been placed in the House of Commons Library and copies of these reports since 2001 are available on the DFT website.

The Ministry of Defence's (MOD) use of radioactive materials is covered by the ionising radiations regulations that require the reporting of losses and thefts. Since 1993, the MOD has reported various lost items to the civil authorities, mainly low activity gaseous tritium light devices (compasses, sights, route markers or illumination devices) lost on exercise. There has also been one known theft of such devices.

Regional Development Agencies: Brussels

Mr. Pickles: To ask the Secretary of State for Business, Enterprise and Regulatory Reform which regional development agencies have offices in Brussels; and how much they paid towards each of the offices in each of the last five years. [176358]

Mr. Timms: No RDAs have dedicated offices in Brussels. However, all RDAs make a contribution to European Regional Representation Offices, which are based in Brussels. These offices are run in partnership with other regional stakeholders such as local authorities, and other public and private sector organisations. Full details are given in the following table.

Contribution by RDAs towards the office (£000)

UK Regional Representational Offices in Brussels	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*
West Midlands in Europe Brussels Office	200	391	445	377	378
East of England European Office	49	37	58	59	63
East Midlands European Office	50	58	197	209	315
London European Office[1]	0	100	50	50	50
North West Brussels Office	43	56	55	53	58
North East of England Brussels Office	51	53	56	93	63
South East of England Brussels Office	58	61	62	53	65
South West UK Brussels Office	188	192	197	172	178
Yorkshire Europe[2]	0	0	0	60	340

[1] Office was not set up in 2002-03

[2] Yorkshire Forward did not provide any funding before 2005-06.

Regional Development Agencies: Land

Mr. Pickles: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what land holdings that each regional development agency owns. [176459]

Mr. Timms: A document listing the RDA land holdings (as at 1 April 2007) has been placed in the Libraries of the House.

Rolls-Royce: Closures

Mrs. Curtis-Thomas: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of the effect of the proposed closure of the Bootle Rolls-Royce factory on the manufacturing capacity of the region. [181149]

Mr. Timms: The Secretary of State met the hon. Member for Bootle and a trade union/work force delegation from Bootle on 13 December 2007, and heard their assessment of discussions with Rolls-Royce management. This included discussion about the impact of the proposed closure regionally. BERR has also maintained a dialogue with Rolls-Royce about its consultation process over Bootle. The final decision will be a commercial matter for Rolls-Royce. We will remain in close contact with the company, and consider what may need to be done once a decision is reached.

FOREIGN AND COMMONWEALTH OFFICE

Burma: Arms Trade

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what progress has been made on the EU review of the implementation of the arms embargo on Burma following the Prime Minister's statement on 15 October 2007; [180736]

(2) what progress has been made in discussions with the UK's international partners on a UN arms embargo on Burma following the Prime Minister's statement on 15 October 2007. [180737]

Meg Munn: Following my right hon. Friend, the Prime Minister's statement of 15 October 2007, the UK raised the embargo at the EU Working Group on Conventional Arms Exports. All member states confirmed that they rigorously enforce the embargo, but also agreed to pay particular attention when issuing licences where there was a risk that equipment might be diverted to Burma from third countries. Any such applications would be in breach of criterion 7 of the Consolidated EU and National Export and Licensing Criteria (known as the Code of Conduct), and as such, the licence would be refused.

The UK strictly applies the EU arms embargo on Burma and the Government have investigated all the reports received of alleged breaches. The Government have no evidence that British-made equipment is currently being exported to Burma in breach of the embargo.

The UK works closely with its partners at the UN to press the regime to engage constructively with the Secretary-General's Good Offices mission. We have made clear that, should the regime fail to make progress towards genuine national reconciliation under UN auspices, we would press for further UN action. An arms embargo on Burma would require a Chapter VII Security Council resolution.

Chevening Scholarships Programme

Ben Chapman: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the operation of British Chevening scholarships. [179646]

Mr. Jim Murphy: Following major reviews in 2006 and 2007, and a reassessment by the current Foreign and Commonwealth Office (FCO) ministerial team, we

have determined a new, more focused approach to Chevening scholarships and fellowships. The scholarship programme will identify and sponsor young people with the potential to become the world's leaders of the future. Through our scholarship scheme we will build and maintain our relationships with these outstanding individuals as well as encouraging them to build relationships with each other. Our Fellowship programme will train and build networks of mid-career professionals working around the world on issues of vital importance to the UK. These are people we will work with closely to deliver our key policy goals.

FCO Ministers agreed that the Chevening programme should remain global, but targeted primarily on the key countries of interest to us in achieving our policy objectives.

The Chevening Annual Report for 2006-07, which we hope to publish shortly, will provide detailed information about the operation of the Chevening programme last year. There are 1,309 Chevening scholars studying at academic institutions in the UK this year (2007-08).

Gaza

David Lepper: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Israeli government about its description of Gaza as a hostile entity in September 2007 and the resulting boycott on supplies to Palestinians in Gaza. [180744]

Dr. Howells: We have regularly made clear to the Government of Israel our concern about the situation in Gaza. My right hon. Friend the Secretary of State for Foreign and Commonwealth Affairs has raised this issue with the Israeli Foreign Minister Livni. My right hon. Friend the Secretary of State for International Development discussed the situation in Gaza with the Israeli Defence Minister Ehud Barak during his recent visit to Israel and the Occupied Palestinian Territories from 9 to 11 December 2007.

Regarding supplies to Palestinians in Gaza, my right hon. Friends the Secretary of State for Foreign and Commonwealth Affairs and the Secretary of State for International Development made a statement on 11 January detailing our concerns.

The Quartet (US, EU, UN and Russia) has also expressed concern over the continued closure of major crossing points. The UN is actively involved in trying to find a solution. The EU has called "on all parties to work towards an opening of the crossings in and out of Gaza".

Group of Friends of the UN Secretary-General on Myanmar

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what the UK objectives were at the meeting on 19 December 2007 of the Group of Friends of the UN Secretary-General on Myanmar; and who represents the UK on the group; [180729]

(2) when the Group of Friends of the UN Secretary-General on Myanmar plans to meet next. [180730]

Meg Munn: Our permanent representative to the UN represented the UK at the first meeting of the Group of Friends.

The UK looked to the group to strengthen and support the UN Secretary-General's Good Offices mission, maintain international focus on Burma and encourage political reform in that country.

No date has yet been set for the group's next meeting.

Gulf States: Military Bases

Mr. MacShane: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with his French counterpart on the creation of a permanent French military base in the Gulf area. [180603]

Mr. Jim Murphy: My right hon. Friend the Secretary of State for Foreign and Commonwealth Affairs has not discussed this matter with his French counterpart. However, we would welcome any agreement which reinforced peace and stability in the region.

Indian Subcontinent: Entry Clearances

Mike Wood: To ask the Secretary of State for Foreign and Commonwealth Affairs how many visitors' visas were issued to residents of *(a)* India, *(b)* Pakistan, *(c)* Bangladesh and *(d)* Sri Lanka in each of the last three years; and how many of these visitors overstayed. [180118]

Dr. Howells: The number of visit visas issued in India, Pakistan, Bangladesh and Sri Lanka in the last three years are as follows:

	Issued		
Country	*April 2005 to March 2006*	*April 2006 to March 2007*	*April 2007 to December 2007*
Bangladesh	8,875	8,980	5,434
India	148,638	176,425	126,727
Pakistan	41,182	42,201	21,172
Sri Lanka	8,381	7,610	4,764
Total	207,076	235,216	158,097

We are unable at present to confirm how many of these visitors have overstayed. The Home Office does keep records of foreign nationals who have failed to comply with their conditions of stay and have had enforcement action taken against them. However, it is not at present possible to differentiate visitors from those who entered in other temporary categories (e.g. students, work permit holders). The Home Office is currently addressing this problem.

Israel: EU External Trade

Richard Burden: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps are being taken to monitor the post code regulation of goods being imported to the UK by Israel under the EU-Israel Association Agreement; and what

assessment he has made of the effectiveness of monitoring in preventing the products of Israeli settlements in the West Bank being imported using the Agreement's trade preferences. [178520]

Jane Kennedy: I have been asked to reply.

Her Majesty's Revenue and Customs assess applications for relief based on the terms of the international agreements applying to the territories concerned. Claims to duty relief under the provisions of the EU-Israel Association Agreement are disallowed where documentation accompanying the goods indicates that they were produced in the Palestinian Authority.

The monitoring of the post code regulation is effective and resulted in the disallowance of 202 claims to preference since January 2007.

David Lepper: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he has taken to ensure that the EU Trade Association Agreement with Israel is properly implemented in relation to its human rights clauses. [180745]

Dr. Howells: The European Commission, on behalf of member states, is responsible for monitoring implementation of the EU/Israel Association Agreement. Twice a year, all aspects of the EU/Israel relationship are discussed at an Association Council at which Israel and the EU are represented.

Human rights issues in particular are also discussed in the Informal Working Group on Human Rights, established under the European Neighbourhood Policy Action Plan with Israel.

The UK also raises a range of human rights issues bilaterally with Israel at ambassadorial and ministerial level.

Israel: Oppression

David Lepper: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Israeli government about the release of imprisoned, democratically elected Palestinian representatives. [180743]

Dr. Howells: We continue to call for the elected members of the Palestinian government detained by Israel to be either released or subject to due legal process. On 30 May 2007, the Quartet also called for the release of the politicians. On 23 July 2007, the EU called for the immediate release of all Palestinian ministers and legislators detained in Israel. Our Embassy in Tel Aviv last raised the issue of the detained Palestinian ministers and legislators with the Israeli Ministry of Foreign Affairs on 5 December 2007.

Middle East: Diplomatic Service

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs how many UK diplomatic posts in the Middle East and South Asia will receive additional staff under the diplomatic surge strategy; which will receive additional staff and how many each will receive; and when the new staff are expected to be in post in each case. [179167]

David Miliband: On current plans, the 10 posts listed will receive additional staff. Numbers by post have yet to be decided. The intention is that wherever possible staff will be in their new positions by April 2009.

New Delhi
Islamabad
Dhaka
Kabul
Baghdad
Riyadh
Cairo
Sana'a
Rabat
Dubai

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the proposed 30 per cent. increase in staff in UK diplomatic posts in the Middle East and South Asia includes locally-employed staff; and if he will make a statement. [179169]

David Miliband: The increase refers to numbers of UK based frontline policy staff only. Decisions on local staff manning levels are devolved to individual posts who employ the appropriate number to deliver their objectives.

Nuclear Disarmament

Andrew George: To ask the Secretary of State for Foreign and Commonwealth Affairs what further steps the Government plan to take to secure nuclear disarmament in accordance with their commitments under Article VI of the Treaty on the Non-Proliferation of Nuclear Weapons. [180611]

Dr. Howells: The UK has now met the commitment outlined in the 2006 White Paper on the future of the UK nuclear deterrent to reduce the number of operationally available warheads to fewer than 160. The explosive power of our nuclear arsenal has been reduced by 75 per cent. since the end of the cold war.

My right hon. Friend the Member for Derby, South (Margaret Beckett), then Foreign Secretary, announced in her June 2007 speech to the Carnegie Endowment that the UK would act as a "disarmament laboratory" for the thinking and practical work required to move forward global nuclear disarmament. We are supporting an independent International Institute of Strategic Studies in-depth study to help determine the requirements for the eventual elimination of all nuclear weapons. We have also tasked the Atomic Weapons Establishment at Aldermaston with some detailed work on key stages in the verification of the reduction and elimination of nuclear weapons.

The UK continues to press for the immediate commencement of negotiations on a fissile material cut-off treaty, the next logical step for multilateral nuclear disarmament, at the Conference on Disarmament in Geneva.

PricewaterhouseCoopers

Mr. Gauke: To ask the Secretary of State for Foreign and Commonwealth Affairs what the value of his Department's contracts with PricewaterhouseCoopers relating to private finance initiative projects was in each year since 2000. [180848]

Meg Munn: The Foreign and Commonwealth Office has had no contracts with PricewaterhouseCoopers relating to private finance initiative projects since 2000.

Rizana Nafeek

Mr. Mullin: To ask the Secretary of State for Foreign and Commonwealth Affairs with reference to the answer of 23 July 2007, *Official Report*, column 709W, on Rizana Nafeek, what information he holds on the fate of Ms Nafeek. [179313]

Dr. Howells: Representatives for Rizana Nafeek filed an appeal against her death sentence on 15 July 2007. This is still awaiting a decision by His Majesty King Abdullah.

Our embassy in Riyadh continues to monitor this case. We shall continue to consider when best to take further action, including through the EU.

Spratly Islands

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the implications of the protests outside the Chinese embassy in Hanoi and the Chinese consulate in Ho Chi Minh City on the disputed Spratly and Paracel islands. [180658]

Meg Munn: We have noted the demonstrations which recently took place outside the Chinese embassy in Hanoi and the Chinese consulate in Ho Chi Minh City. We encourage all countries laying claim to the Spratly and Paracel islands to resolve this dispute peacefully, and welcome the commitment by all governments involved to finding a mutually acceptable solution through peaceful means and negotiation.

Sudan: Human Rights

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the reasons for the UN Human Rights Council's decision on 14 December 2007 to let the mandate of the Group of Experts on Darfur expire; and if he will make a statement. [180721]

Meg Munn: The UN Human Rights Council (HRC) renewed and strengthened the mandate of the Special Rapporteur on Sudan by consensus on 14 December 2007 by extending it to cover all of Sudan, including Darfur. The Group of Experts for Darfur had been established under a temporary mandate. Its recommendations of 30 March 2007 will now be taken forward by the Special Rapporteur, which is a very positive outcome.

The UK was instrumental in obtaining a strong EU statement on Sudan, which condemned the continued human rights abuses and called on the Government of Sudan to comply with its obligations to the International Criminal Court and the HRC. We take every appropriate opportunity to discuss human rights with the Government of Sudan.

Sudan: Politics and Government

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the Government is taking with its international partners to ensure that the government of Sudan complies with its obligations under UN Security Council Resolution 1593; and what progress has been made in ensuring such compliance. [180720]

Meg Munn: The UK sponsored UN Security Council Resolution 1593 of March 2005 which referred the human rights situation in Darfur to the International Criminal Court (ICC). The UK fully supports the ICC and my right hon. Friend the Secretary of State for Foreign and Commonwealth Affairs discussed Sudan's compliance with the ICC with ICC President Kirsch on 8 November 2007.

The UK continues to press the Government of Sudan, at all levels, to comply with the ICC requirements. We have raised Sudanese compliance with the ICC with partners who have influence over the Government of Sudan.

Turkey: Religious Freedom

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make representations to the Turkish Government on the prosecution of the Ecumenical Patriarch of the Orthodox Church for using the title Ecumenical; and if he will make a statement. [180051]

Mr. Jim Murphy: The issue of religious freedoms in Turkey is regularly raised with the Turkish Government. My right hon. Friend the Member for Ashfield (Mr. Hoon), then Minister for Europe, also met the Ecumenical Patriarch in January last year to discuss the difficulties facing the Orthodox Church in Turkey.

We continue to urge the Turkish authorities to resolve ongoing issues relating to fundamental rights and freedoms facing religious minority groups in Turkey, including the status of the Ecumenical Patriarchate.

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make representations to Turkey on its recognition of the spiritual and religious status of the Ecumenical Patriarchate of Constantinople; and if he will make a statement. [180052]

Mr. Jim Murphy: We regularly raise issues of freedom of religion in bilateral discussions at all levels. We continue to urge the Turkish authorities to resolve ongoing issues relating to fundamental rights and freedoms facing religious minority groups in Turkey, including the status of the Ecumenical Patriarchate.

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make representations to the Turkish government on its obligations under the Lausanne Treaty provisions and the UN Declaration on Freedom of Religion or Belief; and if he will make a statement. [180056]

Mr. Jim Murphy: The Turkish government is aware of its obligations under the Lausanne Treaty provisions and the UN Declaration on Freedom of Religion or Belief. We continue to urge Turkey in regular bilateral discussions to take positive steps on issues surrounding freedom of religion and belief, and the European Commission monitors progress towards full and consistent alignment with EU standards.

Turkey: Travel Restrictions

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make representations to the Turkish Government on its prohibition of the proposed visit of the Archbishop of Cyprus to the Ecumenical Patriarchate in Istanbul; and if he will make a statement. [180049]

Mr. Jim Murphy: Our high commission in Nicosia is in regular contact with the Archbishop of Cyprus and we are not aware of a proposed visit to the Ecumenical Patriarchate in Istanbul. We would urge against prohibitions from being placed on travel for any religious reason.

More generally, we continue to urge Turkey in regular bilateral discussions to take positive steps on issues surrounding freedom of religion and belief, and we monitor their progress towards full and consistent alignment with EU standards.

Uganda: Kenya

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs whether his Department urged the Government of Uganda not to interfere in the democratic processes of Kenya; and if he will make a statement. [180965]

Meg Munn: The Government are deeply concerned about the post-election crisis in Kenya. We support the African Union initiative to facilitate talks between the political parties and Kofi Annan's mission. We have been in touch with regional, and other African leaders, including the Ugandan Government, to underline our support for this African-led process aimed at restoring peace, stability and prosperity to Kenya.

We are aware that President Museveni, in his capacity as Head of the East African Community, plans to visit Kenya. We understand that this visit would support the visit of the Eminent Persons Panel, led by Kofi Annan, which is due to arrive in Kenya on 22 January to facilitate talks between the parties.

HOME DEPARTMENT

Asylum

Mr. Clappison: To ask the Secretary of State for the Home Department how many removals through enforcement action in *(a)* asylum cases and *(b)* non-asylum cases took place in each quarter since 1 January 2005. [177473]

Mr. Byrne: Information on removals is published in the Control of Immigration: Statistics United Kingdom Command Papers. Copies of these publications and others relating to immigration to the UK are available from the Library of the House and from the Home Office Research, Development and Statistics Directorate website at:

http://www.homeoffice.gov.uk/rds/immigration1.html.

Mr. Clappison: To ask the Secretary of State for the Home Department how many of those attending a Home Office Unit to make an asylum application had been referred there by the police following arrest and release in each of the last five years. [179818]

Mr. Byrne *[holding answer 17 January 2008]:* The information requested is not collated and any information recorded on individual case files could be extracted only at disproportionate cost.

Christmas

Mr. Philip Hammond: To ask the Secretary of State for the Home Department how much her Department and its agencies have spent on Christmas *(a)* cards, *(b)* parties and *(c)* decorations in each of the last five years. [171440]

Mr. Byrne: The information requested is as follows.

(a) The costs for Christmas cards over the last five years are as follows:

Home Office

	£
2003	[1]
2004	[1]
2005	[1]
2006	14,354.98
2007	4,724.72 (including BIA)

[1] No information held centrally

Border and Immigration Agency Information concerning the cost of Christmas cards for previous years is not known centrally and would be available only at disproportionate cost.

Identity and Passport Service

	£
2003	[1]
2004	[1]
2005	1,280
2006	1,030
2007 to date	1,000

[1] No information held centrally

Criminal Records Bureau

	£
2003	558.32
2004	786.14
2005	679.59
2006	578.38
2007	757.76

(b) There are no figures relating to Christmas parties—any parties attended are entirely at the cost of the staff member / individual.

(c) The costs for Christmas decorations over the last five years are as follows:

Home Office

	£
2003	[1]
2004	[1]
2005	[2] 1,250
2006	[2] 550
2007	[3] no cost

[1] no information held centrally
[2] at 2 Marsham street
[3] at 2 Marsham street—they were provided on a complementary basis from our property services company Ecovert FM

Border and Immigration Agency / Criminal Records Bureau

Information concerning the cost of decorations to the Border and Immigration Agency and Criminal Records Bureau over the past five years is not known centrally and would be available only at disproportionate cost.

Identity and Passport Service

Spend on decorations during the last five years is unavailable but it has been a nominal amount.

Malcolm Bruce: To ask the Secretary of State for the Home Department what her Department's policy is on the selection of *(a)* real and *(b)* artificial Christmas trees for her Department's festive decorations; and how real trees are disposed of. [173526]

Mr. Byrne: The Home Office believes that marking Christmas is important. The Department does not have a central policy on the selection of Christmas trees. Arrangements for purchasing both real and artificial trees are made locally. In terms of disposal, procedures vary according to the waste contract in operation at particular buildings but at our London headquarters building in 2 Marsham street, for example, the trees are chipped and added to a composting facility for later re-use.

Mr. Burns: To ask the Secretary of State for the Home Department how much her Department spent on *(a)* Christmas cards and *(b)* postage of Christmas cards in 2007. [176918]

Mr. Byrne: The Home Office believes that marking Christmas is important.

(a) Spend on Christmas Cards in 2007 is as follows:

The Home Office (including Border and Immigration Agency)—£4,724.72

Identity and Passport Service—£1,000 to date

Criminal Records Bureau—£757.76

(b) Spend on postage of Christmas cards is not separated from spend of all Home Office mail and is therefore not calculable.

Community Policing: Manpower

Mr. Ruffley: To ask the Secretary of State for the Home Department how many police community support officers *(a)* were recruited and *(b)* retired due to (i) age and (ii) sickness in each police force area in each year since 2002. [176319]

Mr. McNulty: The information requested is shown in the following tables.

Number of police community support officers (FTE[1]) recruited and retired by police force area, 2002-03 to 2006-07

	(a) Number of recruits[2]				
	2002-03	*2003-04*	*2004-05*	*2005-06*	*2006-07*

[1] Full-time equivalent figures that have been rounded to the nearest whole number. Because of rounding, there may be an apparent discrepancy between totals and the sums of the constituent items.

[2] Financial year runs from 1 April to 31 March inclusive.

[3] Recruits include those officers joining as police staff, standard direct recruits and those who were previously special constables. This excludes police community support officers on transfers from other forces and those rejoining.

[4] Normal and medical retirements excludes resignations and dismissals, as well as police community support officers on transfer to another force and deaths (on active duty or otherwise).

Departmental Aviation

Mr. Hayes: To ask the Secretary of State for the Home Department how much has been spent by her Department on international flights in each year since 1997. [174360]

Mr. Byrne: Since 1999 the Government have published a list of all overseas travel by Cabinet Ministers costing over £500. Information for the last financial year was published on 25 July 2007. Details for the current financial year will be published as soon as possible after the end of the financial year. From next year, the list will include details of overseas visits undertaken by all Ministers. All ministerial travel is undertaken in accordance with the Ministerial Code.

Information in respect of flights taken by officials could be provided only at disproportionate cost.

Departmental Publicity

David Simpson: To ask the Secretary of State for the Home Department how much has been spent by her Department on advertising in the last 12 months. [167955]

Mr. Byrne: The information requested is shown in the following table.

In the financial year 2006-07, the Home Office has spent a total of £14,182,537 on advertising, which was allocated to the following areas of public concern:

		£
Crime Reduction	Acquisitive Crime (Robbery, Burglary and Car Theft)	3,295,134
	Domestic Violence	806,200
	Rape - Consent awareness	287,664
	Alcohol Fixed Penalty Notices	233,832
	National Knife Amnesty	138,622
	Stop and Search awareness	135,264
	Child protection on the Internet	47,092
	Alcohol Harm Reduction	2,052,614
	Single Non Emergency Number	1,002,780
Drugs	Frank	3,510,850
Police Recruitment	Police Community Support Officers 2006-07	1,829,370
Passports (IPS)	IPS Communications	22,680
Immigration (BIA)	Immigration 2006-07	795,450
Classified	Recruitment	24,984
	Total	14,182,537

The costs provided relate to net media, excluding fees and production, on press, TV, cinema, out of home and radio advertising.

Driving Under Influence: Alcoholic Drinks

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department what steps the Government has taken to enforce legislation against under-age drinking. [177318]

Mr. Coaker *[holding answer 21 January 2008]:* Between 2004-06 successive Alcohol Misuse Enforcement Campaigns (AMECs) were focused on tackling crime and disorder in the night-time economy and included within them element of underage sales test-purchase activity.

From 2006 two Tackling Underage Sales of Alcohol Campaigns (TUSAC) have been conducted with specific focus on test-purchase activity with an additional focus on supporting existing and new powers available through the Licensing Act 2003:

Pilot TUSAC (October 2006) targeted test purchase campaign designed to support the license review powers available through the Licensing Act 2003.

National TUSAC (May to July 2007) targeted test purchase campaign designed to support the commencement of the new offences of persistently selling alcohol to children (section 147A Licensing Act 2003, commenced 6 April 2007)

A pilot Confiscation of Alcohol Campaign (October to July 2007) was undertaken to utilise police powers to seize alcohol from children in public places and to disperse persons aged 16 or more causing alcohol related crime and disorder.

EC Immigration

Mr. Hayes: To ask the Secretary of State for the Home Department if she will make a statement on UK participation in the development of EU rapid border intervention teams. [178213]

Mr. Byrne: The UK fully supports the EU Rapid Border Intervention Teams (RABITs) initiative; but is excluded from the Frontex Regulation and thus the RABITs Regulation. However, as signalled by the Council Declaration accompanying adoption of the RABITs Regulation in June 2007, we are exploring ways in which the UK can support RABITs operations abroad on an observer/adviser basis, in a similar way to our support for Frontex joint operations. The UK can participate in Frontex operations, if we wish to, with the agreement of the Frontex Management Board on a case-by-case basis.

Extradition

Sarah Teather: To ask the Secretary of State for the Home Department how many people were sought for extradition *(a)* from and *(b)* to the UK in each year since 1997. [172947]

Meg Hillier: Since 1997, there have been 1,232 extradition requests made to England and Wales. These have resulted in 517 people being extradited back to the requesting state.

In the same time, the prosecuting authorities in England and Wales have made 589 extradition requests to extradition partners, with 378 people being extradited back. The following table gives a year-on-year breakdown.

It should be emphasised that these figures do not include statistics for the European Arrest Warrant, which the UK has been operating with our European Union partners since 1 January 2004. I refer to the answer given to this House on 29 November 2007, which gave the statistics for the EAW.

Total of extradition requests made to and by England and Wales, 1997 to 2007

	Received	*Extradited*	*Made*	*Returned*
1997	107	43	44	28
1998	108	45	64	38
1999	103	37	56	35
2000	113	47	70	31
2001	161	55	82	52
2002	179	53	70	36
2003	148	56	82	64
2004	142	50	35	49
2005	54	62	29	17
2006	65	40	31	14
2007	52	29	26	14
Total	1,232	517	589	378

Foreigners: Visits

Keith Vaz: To ask the Secretary of State for the Home Department (1) what she expects the cost will be to administer the proposed cash bond for families to pay when receiving a visitor from outside the EU; [176829]

(2) when she expects the proposed cash bond scheme for non-EU visitors to Britain to come into force; [176830]

(3) what she expects the change in the number of visitors from non-EU countries will be after the implementation of the proposed cash bond scheme. [176831]

Mr. Byrne: The visitor consultation, published on 18 December 2007, provides an opportunity for ideas, comments and discussion on a number of options to ensure that our system for visitors is fit for the 21st century. The consultation period concludes on 10 March 2008.

We shall consider all responses before announcing what changes, if any, we intend to make to the Immigration Rules relating to visitors.

Human Trafficking

Mr. Steen: To ask the Secretary of State for the Home Department how much money has been confiscated from criminals convicted of trafficking people in the UK in each of the last three years. [177917]

Mr. Coaker *[holding answer 14 January 2008]:* The total value of confiscation orders and cash forfeiture orders made in England, Wales, and Northern Ireland over the last three years against criminals involved in people trafficking is set out in the table.

	Value (£)
2004-05	392,942
2005-06	924,576
2006-07	2,438,243

Illegal Immigrants

Damian Green: To ask the Secretary of State for the Home Department how many people were found trying to enter the United Kingdom with stolen or forged passports in the last year for which figures are available, broken down by nationality. [163139]

Mr. Byrne: The total number of detections of travel document abuse (passports and identity cards) at United Kingdom arrivals controls (which includes our juxtaposed controls in France and Belgium) in 2006 was 4,152. Of these 3,944 were stolen and/or forged travel documents.

Complete figures are set out in the following tables and are broken down by nationality.

Doc Type	*Total*
Nigerian Ppt	402
Lithuanian Ppt	247
British Ppt	244
French Ppt	193
Portuguese ID	137
Polish Ppt	126
Italian ID	126

South African	51
Zimbabwean	47
Turkish	46
Other nationalities	794
Grand total	3,944

Mr. Clappison: To ask the Secretary of State for the Home Department how many estimates her Department has made of the illegal migrant population since 1997; what methodology was employed to produce each such estimate; what those estimates were; what research her Department has *(a)* commissioned and *(b)* evaluated into the size of the illegal migrant population in the UK since 1997; and if she will make a statement. [177393]

Mr. Byrne: No Government have ever been able to produce an accurate figure for the number of people who are in the country illegally. By its very nature it is impossible to quantify accurately and that remains the case. Exit controls were phased out from 1994 but are being re-instated from this year, so it will become possible to count people in and out of the country. ID cards for foreign nationals are also going to be introduced.

Illegal Immigrants: Employment

Mr. Blunt: To ask the Secretary of State for the Home Department what estimate she has made of the number of illegal migrants working in the UK. [175216]

Mr. Byrne: No Government of the United Kingdom has been able to produce an accurate estimate for the number of illegal migrants in the country, and this is the case for any Government in the world.

Immigration

Mr. Clappison: To ask the Secretary of State for the Home Department how many grants of settlement on the basis of family formation and reunion were made in *(a)* 1987, *(b)* 1997 and *(c)* the most recent year for which figures are available; and which 10 nationalities obtained the most such grants in each of those years. [177474]

Mr. Byrne: Total grants of settlement on the basis of family formation and reunion are published in the yearly Command Paper "Control of Immigration: Statistics United Kingdom". This publication may be obtained from the Library of the House and from the Home Office Research, Development and Statistics website:

http://www.homeoffice.gov.uk/rds/immigration1.html.

Immigration and Nationality Directorate

Mr. Clappison: To ask the Secretary of State for the Home Department what discussions she has had with local authorities on the legacy exercise dealing with the former Immigration and Nationality Directorate caseload; and what representations she has made to local authorities on the accommodation of those dealt with under the exercise and the costs thereof. [177325]

Mr. Byrne: The Secretary of State for the Home Department has had no discussions with local authorities on the work of the Case Resolution Directorate.

However, I and my officials have worked closely with local authorities in dealing specifically with families who are no longer entitled to asylum support.

The Border and Immigration Agency has offered to reimburse unavoidable transitional costs incurred by local authorities in dealing with the cases when families are given leave to remain.

Immigration Controls: Skilled Workers

Mark Pritchard: To ask the Secretary of State for the Home Department when she expects to announce details of the blue card scheme for non-EU migrant workers. [175444]

Mr. Byrne: Our initial view is that the Directive is incompatible with the Points Based System because of its (the Directive's) requirement for a job offer, a minimum salary level and provisions on equal treatment.

Immigration: Deportation

Mr. Clappison: To ask the Secretary of State for the Home Department how many of those deported or otherwise removed from the UK as illegal migrants in each year since 2001 had entered the UK on a student visa; and what estimate she has made of the number of student visa holders in the UK who have overstayed. [177395]

Mr. Byrne: Information on the number of people who have been removed from the United Kingdom (UK) having entered on a student visa could be obtained by the detailed examination of individual case records only at disproportionate cost.

As the then Home Secretary set out in his evidence to the Home Affairs Select Committee on 23 May 2006, following the dismantling of routine embarkation controls beginning in 1994, no Government has been able to produce an accurate figure for the number of people who are in the country illegally, and that remains the case.

A clear goal has been set to reintroduce systems to count everyone in and out of the UK. The e-Borders programme, scheduled to commence this year, will strengthen and modernise our border control including

providing an electronic record of all those entering and leaving the UK. We expect to count 95 per cent. of all passengers in and out of the country by the end of 2010.

In the meantime, targeted embarkation controls continue to take place at major ports to identify failed asylum seekers and other immigration offenders who are leaving the UK, and the Border and Immigration Agency is reviewing its capacity to extend these.

Immigration: Turkey

Mr. Clappison: To ask the Secretary of State for the Home Department how many citizens of Turkey have had their applications for permanent leave to remain *(a)* considered and *(b)* granted under the provisions of the European Community Association Agreement in each year since the inception of the agreement. [178330]

Mr. Byrne: Since 2000 48 Turkish citizens have had applications for Indefinite Leave to Remain (ILR) under the provisions of the European Community Association Agreement considered with 34 (71 per cent.) of these granted.

The following table provides annual breakdown of applications.

	1973-99	*2000-03*	*2004*	*2005*	*2006*	*2007*	*2008*[1]	*Total*
Considered	[2]	0	2	3	4	38	1	48
Granted	[2]	0	0	0	2	31	1	34
Percentage granted		0	0	0	50	82	100	71

[1] January only.
[2] Data unavailable.
Note:
The figures quoted are 'not' provided under National Statistics protocols and have been derived from local management information and are therefore provisional and subject to change.

Full information on all decisions relating to Turkish nationals making applications for the period May 2005 to December 2006 under terms of the agreement was published by the Home Office in February 2007 in "European Community Association Agreements Statistics for Bulgaria, Romania and Turkey to 31 December 2006". A copy of this report will be placed in the House Library.

Offensive Weapons

Mr. Hayes: To ask the Secretary of State for the Home Department how many knives were confiscated by the police in the last year for which figures are available. [178234]

Mr. Coaker: Information on knives confiscated by the police is not collated centrally.

Offensive Weapons: Amnesties

Mr. Hayes: To ask the Secretary of State for the Home Department how many knives were voluntarily handed in to the police in the last year for which figures are available. [178230]

Mr. Coaker: We do not routinely collate figures on the number of knives voluntarily handed to police. However, during the national knife amnesty held between 24 May and 30 June 2006, the number of surrendered items was reported to the Home Office. A total of 89,864 items were handed in to police in England and Wales during that period.

Passports

Damian Green: To ask the Secretary of State for the Home Department which countries issue passports that are not readable by electronic or automated passport readers; and how many citizens from such countries presented themselves for entry into the United Kingdom in the last year for which figures are available. [163140]

Meg Hillier: A list of countries that do not currently issue machine readable passports and how many citizens from such countries were admitted to the United Kingdom during 2006 is set out in the following table. The list is the International Civil Aviation's (ICAO) list of those countries that do not issue passports that are capable of being machine read by electronic or automated passport readers.

Nationality	*Passenger journeys*[1]
Afghanistan	15,100
Algeria	25,100
Bahamas	4,170
Bangladesh	58,100
Bolivia	5,700
Botswana	4,620

Somalia	3,360
Sudan	13,900
Turkey	160,000
Turkmenistan	2,520
Vanuatu	60

n/a = Not available.
[1] A person who makes more than one journey is counted on each occasion.
Notes:
1. Due to some gaps in the data from ports, estimates have been used.
2. Excluding refugees, exceptional leave cases and their dependants.
3. Includes those admitted under the Iris recognition immigration system (IRIS).
4. Based on ICAO list of non-machine readable passport countries.
5. Data rounded to three significant figures or the nearest five where applicable, therefore they may not sum to the total shown.

Stewart Hosie: To ask the Secretary of State for the Home Department how many dispatched passports have been reported lost since October 2006; and what estimate she has made of the number of such passports that may have been stolen. [171128]

Meg Hillier: For the period October 2006 to August 2007, the latest period for which data are available, the estimated number of passports recorded as lost during the delivery process is 665. Of these, 584 are recorded as mis-posted by the courier, 78 as a consequence of a theft from or attack on a courier, and three were reported as lost within Secure Mail Services, the courier company that delivers passports on behalf of IPS.

All confirmed losses are cancelled on the IPS system and details entered onto the centralised database of lost and stolen passports, and all passports contain security features to prevent misuse.

Police Service Pay Award

Tom Brake: To ask the Secretary of State for the Home Department what the total cost is of backdating the Police Service Pay Award from 1 December to 1 September. [175384]

Mr. McNulty *[holding answer 18 December 2007]*: Approximately £40 million.

Police: Finance

Mr. Ruffley: To ask the Secretary of State for the Home Department (1) how much funding was allocated per head of population to each police authority in England and Wales in each year since 1997; [172868]

(2) what the total police grant funding was for each police authority in each year since 1997. [172869]

Mr. McNulty: The information requested is set out in the table.

The Government do not distribute grant to police authorities purely on the basis of population. The police funding formula uses a range of data relating to demographic and social characteristics to reflect the relative needs of each authority. Grant allocations also take into account the relative tax base of each authority. Grant allocations are stabilised by damping to limit year-on-year variations.

Police authority total Government grant allocations 2006-07 and 2007-08.

[1] Revenue funding includes all grants inside aggregate external finance (AEF) (i.e. revenue grants paid for councils' core services) and includes formula grant and all specific grants.
[2] Welsh Government grant includes Home Office police grant, floor funding and additional support provided to ensure Welsh police authorities receive at least a minimum increase in grant in line with English authorities.
[3] In 2005-06 figures were adjusted for comparison purposes following the transfer of pensions and security funding from general grant in 2006-07.
[4] 2006-07 Government grant figures are provisional outturn figures. 2007-08 figures are budget figures.
[5] The data for Metropolitan police authority from 2000-01 onwards is not available from DCLG as they are collected as consolidated data from GLA. Data used is compiled from Home Office data for allocated grants.

Police: Firearms

Mr. Ruffley: To ask the Secretary of State for the Home Department on how many operations firearms were issued to police officers in England and Wales in each year since 1997; in how many of these operation shots were fired by police officers; and how many police officers were qualified to carry firearms in each of the last nine years. [176307]

Mr. McNulty: The number of police operations in which firearms were authorised to be used in each force area in the last 10 years, and the number of authorised firearms officers in those forces, are shown in the following tables. The number of incidents where a conventional firearm was used is also shown.

Police: Lost Working Days

Mr. Ruffley: To ask the Secretary of State for the Home Department how many officer working days were lost due to (a) stress and (b) illness in each police force in each of the last five years. [172861]

Mr. McNulty: The available data are for the amount of police officer working time lost to sickness. Breakdowns for the type of sickness are not collected centrally. Data are available for 2002-03 onwards.

Police Officer sickness absence data for 2002-03 onwards are available on the Home Office website, located at:

http://www.police.homeoffice.gov.uk/performance-and-measurement/performance-assessment/

For 2002-03 and 2003-04, the data are given in the 2003-04 Police Performance Monitoring report, in the form of police officer days lost per person per year.

For 2004-05 onwards, the data are given in the annual Police Performance Assessment reports, in the form of average number of police officer hours lost per person per year.

Police: Manpower

Mr. Ruffley: To ask the Secretary of State for the Home Department how many (a) police community support officers and (b) police officers there were in (i) England and Wales and (ii) each police force area in each of the last three years. [176316]

Mr. McNulty: Figures for numbers of police community support officers and police officers as at 31 March by police force area are published each year in the Home Office Statistical Bulletins 'Police Service Strength, England and Wales'. They are accessible online at:

www.homeoffice.gov.uk/rds/pubsstatistical.html

Police: Pay

Lembit Öpik: To ask the Secretary of State for the Home Department what commitments on pay and conditions were made to staff transferring from other police services to the Serious and Organised Crime Agency; and if she will make a statement. [179337]

Mr. Coaker: The terms applying to staff from the precursor agencies that formed the Serious Organised Crime Agency (SOCA) were regulated by the Transfers to SOCA Scheme 2006, made under Schedule 3 of the Serious Organised Crime and Police Act 2005.

The terms of transfer were in accordance with the Cabinet Office Statement of Principles (COSOP) which reflects the provisions of the Transfer of Undertakings (Protection of Employment) Act 1981. The core principle under COSOP is that on transfer staff should not be in a worse position than under their previous conditions of employment.

Commitments were given, and communicated to staff in the lead up to SOCA's inception, that any incremental progression arrangements would be honoured and that the purchasing power of their salaries would be maintained. Police officers were able to retain certain allowances; retained membership of the Police Pension Scheme; and maintenance of their pay review date (1 September).

Lembit Öpik: To ask the Secretary of State for the Home Department when she will next meet staff representatives of the Serious and Organised Crime Agency to discuss pay and conditions; and if she will make a statement. [179338]

Mr. Coaker: I will be meeting members of the Public and Commercial Services Union by the end of February.

Police: Sick Leave

Sarah Teather: To ask the Secretary of State for the Home Department how many police officer working days were lost to sickness in each (a) police force in England and Wales and (b) London borough in each of the last five years. [174810]

Mr. McNulty: The available data for the amount of police officer working time lost to sickness, are for 2002-03 onwards at the police force level only. Police Officer sickness absence data for 2002-03 onwards are available on the Home Office website, located at:

http://www.police.homeoffice.gov.uk/performance-and-measurement/performance-assessment/

For 2002-03 and 2003-04, the data are given in the 2003-04 Police Performance Monitoring report, in the form of police officer days lost per person per year.

For 2004-05 onwards, the data are given in the annual Police Performance Assessment reports, in the form of average number of police officer hours lost per person per year.

Prostitution

Lynne Jones: To ask the Secretary of State for the Home Department what research she has commissioned on the extent and nature of all forms of commercial sexual exploitation in off-street settings. [179222]

Mr. Coaker: We have not commissioned any formal research on this. Our co-ordinated prostitution strategy included a specific commitment to undertake action research into off-street prostitution, and through Pentameter 1 and 2 we have collated a considerable amount of information about the extent and nature of off-street prostitution in the United Kingdom.

Lynne Jones: To ask the Secretary of State for the Home Department what advocacy services are available to support women in prostitution who become victims of serious violent and sexual crime. [179223]

Mr. Coaker: Prostitution is inherently dangerous and the safety of those involved is of the utmost importance. Our co-ordinated prostitution strategy recognises the importance of advocacy services for those involved in prostitution, who are often at increased risk of being the victims of serious or sexual violence.

As part of wider work to reduce sexual violence, we have funded 38 Independent Sexual Violence Adviser posts across the country, to provide support for the victims of this horrendous crime. Although all of these Advisers will be available to those involved in prostitution who have been the victims of sexual violence, we have also funded a specific post in the Armistead Project in Liverpool. An evaluation is currently under way and will report this summer. However, anecdotal information from the project suggests that the post has increased reporting and engagement in the criminal justice process among this particularly vulnerable group, through advocacy, information provision and general support.

The cross-Government Action Plan for Sexual Violence and Abuse also recognises those involved in prostitution as a particularly vulnerable group, and includes specific measures to improve our response to those who are the victims of serious sexual violence. This includes the provision of personal safety training, delivered by the Suzy Lamplugh Trust to projects working with individuals who sell sex, and personal safety leaflets, which provide practical advice about staying safe. In partnership with Crimestoppers we have also launched a national 'ugly mugs' campaign, which is aimed at increasing the circulation of information about those who perpetrate crimes against those involved in prostitution, and increasing reporting of these crimes.

Lynne Jones: To ask the Secretary of State for the Home Department what specialised *(a)* drug treatment programmes, *(b)* mental health services and *(c)* housing-related support have been made available to those involved in prostitution in each of the last three years. [179224]

Mr. Coaker: Our co-ordinated prostitution strategy provides a framework for local areas to develop their own responses to prostitution, so that local strategies can respond to local prostitution markets. Where prostitution is identified as an issue, local authorities should work in partnership with other agencies to ensure that they respond effectively. This response should include the appropriate provision of services for those involved in prostitution in terms of harm minimisation and developing routes out, specifically in relation to drug treatment, mental health services and housing-related support. These services are commissioned locally and we do not hold any central information about the nature or extent of provision.

We plan to examine the local implementation of the Government's strategy, which will include the provision of dedicated services. The results of this exercise will feed in to the development of commissioning guidance for local partnerships.

Visas: Overseas Students

Mr. Evans: To ask the Secretary of State for the Home Department what estimate she has made of the number of students in the UK on student visas who are not complying with the visa length of stay requirements. [178053]

Mr. Byrne *[holding answer 14 January 2008]*: As the then Home Secretary set out in his evidence to the Home Affairs Select Committee on 23 May 2006, following the dismantling of routine embarkation controls beginning in 1994, no government have been able to produce an accurate figure for the number of people who are in the country illegally, and that remains the case.

A clear goal has been set to reintroduce systems to count everyone in and out of United Kingdom (UK). The e-Borders programme, scheduled to commence this year, will strengthen and modernise our border control including providing an electronic record of all those entering and leaving the UK. We expect to count 95 per cent. of all passengers in and out of the country by the end of 2010.

In the meantime, targeted embarkation controls continue to take place at major ports to identify failed asylum seekers and other immigration offenders who are leaving the UK, and the Border and Immigration Agency is reviewing its capacity to extend these.

INTERNATIONAL DEVELOPMENT

Developing Countries: AIDS

Mr. Laurence Robertson: To ask the Secretary of State for International Development what funding his Department is providing to tackle AIDS in developing countries in 2007-08; how much of this funding is going to children affected by AIDS; and if he will make a statement. [180913]

Mr. Douglas Alexander: The precise value of HIV and AIDS funding in 2007-08 will not be known until the end of the current financial year.

Mr. Laurence Robertson: To ask the Secretary of State for International Development what progress he has made in increasing the access of people with AIDS in developing countries to generic medicines; and if he will make a statement. [180915]

Mr. Malik: The Global Fund for AIDS, TB and Malaria (GFATM), UNITAID and the US Government's President's Emergency Plan for AIDS Relief (PEPFAR) are the largest funders of HIV treatment for low and middle income countries. Each allows countries to purchase generic medicines. PEPFAR, UNITAID and the GFATM provide guidelines for the quality assurance of antiretroviral drugs (ARVs) purchased with their support.

The UK has made a commitment to the GFATM of up to £1 billion up to 2015 subject to performance. The UK has also made a commitment to UNITAID of up to £760 million over 20 years subject to performance.

The GFATM estimates that it has provided treatment for 1.8 million people over five years. It has strongly supported the purchase of generic ARVs by countries. However, the GFATM does not currently publish a total figure for the proportion of ARVs purchased with its funding that are generics.

For HIV treatment, UNITAID provides funding primarily for paediatric and second line ARVs. UNITAID also provides funding for diagnostic tests and treatment to prevent the transmission of HIV from mothers to their children. UNITAID specifically aims to increase access to quality low-price and generic ARVs through its funding.

PEPFAR's supply chain management system reports that it increased its purchasing of generic versus branded ARVs from 72 per cent. between April and September 2006 to 88 per cent. (by volume) from January to March 2007.

Developing Countries: Trade Barriers

Mr. Laurence Robertson: To ask the Secretary of State for International Development what recent discussions he has had with his EU counterparts on reducing trade barriers to goods from developing countries. [180916]

Mr. Thomas: My right hon. Friend the Secretary of State for International Development is in regular contact with his EU counterparts, both informally and during formal encounters in Brussels. The most prominent recent discussions on reducing trade barriers to goods from developing countries have related to the adoption of a series of Economic Partnership Agreements (EPAs) between the European Union and some 78 African, Caribbean and Pacific countries (ACPs). EPAs will allow full access to European markets for ACP country goods as of this year for those who sign them, apart from a few interim arrangements. My right hon. Friend, the Secretary of State held important and extensive talks on EPAs with his EU counterparts before and at the General Affairs and External Relations Council in Brussels on 19-20 November 2007.

Overseas Aid

Annette Brooke: To ask the Secretary of State for International Development what estimate he has made of the percentage of his Department's funding for microfinance which reaches families living on the equivalent of less than US$1 a day. [180967]

Mr. Thomas: The Department for International Development is committed to tackling poverty and reducing the number of people living on less than US$1 a day. All of our programmes, including our financial sector programmes, are designed to help the world's poorest people.

A review of DFID's largest financial sector programmes showed that in 2006 more than nine million people benefited from microfinance initiatives that received support from DFID in that year. DFID programmes use different, country specific, measures of poverty for measuring their impact. Calculating an aggregate figure, across all programmes, for the proportion of families living on less than US$1 per day would incur a disproportionate cost. DFID regularly carries out evaluations of its programmes to ensure that they are reaching the poorest people.

Pakistan: Education

Mr. Gordon Prentice: To ask the Secretary of State for International Development what recent steps he has taken to encourage the Government of Pakistan to spend a higher percentage of its national income on education; and if he will make a statement. [179890]

Mr. Malik: The 10-year Development Partnership Arrangement (DPA), signed by the Prime Ministers of the UK and Pakistan in November 2006, sets out a number of commitments by the Government of Pakistan to poverty reduction. In education, the Government's commitment are

> "to good quality primary education for all, particularly girls and children in difficult circumstances".

In the context of the DPA, one of the indicators that DFID has used to make decisions about budget support is education spending as a percentage of gross domestic product (GDP). This increased by 21 per cent. between 2004-05 and 2005-06, exceeding the jointly agreed target of 13 per cent. More generally, in the Fiscal Responsibility and Debt Limitation Act 2005, the Pakistan Government have made a commitment to double spending in both education and health as a percentage of GDP by 2015.

Sub-Saharan Africa: AIDS

Mr. Andrew Smith: To ask the Secretary of State for International Development what steps his Department is taking to assist women in sub-Saharan Africa in combating HIV/AIDS. [180208]

Mr. Malik: The UK is the second largest bilateral funder of HIV and AIDS, having committed £1.5 billion between 2005 and 2008 and one of the largest donors on health. Women are highlighted as a priority in the UK AIDS strategy "Taking Action" and since its launch, the UK was central to securing international agreement on universal access to HIV/AIDS prevention, treatment, care and support at the 2005 G8 summit and subsequent UN General Assembly Special Session on HIV and AIDS.

DFID will continue to support key international institutions and partnerships to address the needs of women affected by HIV and AIDS. For example, DFID has committed £1 billion to the Global Fund for AIDS, TB and Malaria until 2015, subject to performance.

DFID will continue to work through its country programmes to fund prevention, treatment, care and support for women. For example, in Nigeria DFID will commit £100 million over six years to reduce the transmission of HIV, and mitigate the impact of AIDS on the lives of the most vulnerable. The programme will support women, girls, young people, orphans and vulnerable children and other vulnerable groups through collaboration with the Ministry of Women's

Affairs, civil society organisations and UN agencies. DFID will also work to integrate HIV and AIDS with maternal and child health and strengthen countries maternal health services. From 2007, DFID will invest £25 million over five years to improve maternal and newborn health in Zimbabwe. The programme will reduce the number of maternal deaths and reduce the number of children becoming infected or dying from HIV infection.

WORK AND PENSIONS

Backdated Pension Payments

Steve Webb: To ask the Secretary of State for Work and Pensions if he will make it his policy to ensure that where backdated pension payments of over £100 arise from the correction of omitted home responsibilities protection or the payment of Class 3 national insurance contributions in respect of one or more years between 1996-97 and 2001-02 such payments automatically include interest; if he will investigate whether interest has routinely been added to such payments in such circumstances in the past; and if he will make a statement. [170276]

Mr. Mike O'Brien *[holding answer 3 December 2007]:* All backdated payments of £100 or more arising from the omission of home responsibilities protection or, in the case of a person who reached pension age before 24 October 2004, payment of voluntary contributions for one or more of the years 1996-97 and 2001-02, should be automatically considered for compensation under the terms of the Departmental Guide to Financial Redress for Maladministration a copy of which is obtainable at:

http://www.dwp.gov.uk/publications/dwp/2003/frm/

If the hon. Member has identified instances where compensation appears not to have been considered in these circumstances I would be grateful if he could let me have details of the individuals concerned.

Benefits: Offenders

Mr. Bellingham: To ask the Secretary of State for Work and Pensions (1) how many prisoners released *(a)* in 2007 and *(b)* in the last five years are on jobseekers allowance; and what the cost to the public purse has been of ex-offenders claiming jobseekers allowance in each such year; [179720]

(2) how many prisoners released in the last five years were receiving housing benefit on the most recent date for which figures are available; and what the cost to the public purse was of paying such benefits in the last financial year. [179721]

Mr. Plaskitt: This information is not available.

Better Off in Work Credit

Mr. Frank Field: To ask the Secretary of State for Work and Pensions whether he plans to extend the time the proposed better off in work credit will be available beyond 26 weeks; and if he will make a statement. [175769][1]

Caroline Flint *[holding answer 7 January 2008]:* As the Prime Minister announced at the TUC Conference, the In Work Credit will be rolled out across the country from October 2008. We have no current plans to extend the credit beyond 26 weeks.

Children: Daycare

Danny Alexander: To ask the Secretary of State for Work and Pensions what steps his Department has taken to identify and address barriers to taking up formal child care by *(a)* low income groups, *(b)* lone parents, *(c)* workless households with two adults and *(d)* ethnic minorities. [177966]

Caroline Flint: DWP works closely with colleagues in the Department for Children, Schools and Families in the development of the Government's child care strategy, to increase the supply, and improve the affordability, of formal child care for everybody, including low income groups, people in workless households and people from ethnic minorities.

In addition, Jobcentre Plus Childcare Partnership Managers are engaged with child care services at the local level to ensure that Jobcentre Plus staff are fully apprised of the issues around formal child care and developments in the local market. Advisers are then better able to advise their customers on the availability and benefits of formal child care.

Departmental Surveys

Danny Alexander: To ask the Secretary of State for Work and Pensions what surveys his Department has conducted of its customers in the last 10 years; and if he will place in the Library copies of such surveys. [177969]

Mr. Plaskitt: For information up to February 2007, I refer the hon. Member to the written answer given to the hon. Member for Runnymede and Weybridge (Mr. Hammond) on 26 February 2007, *Official Report*, column 1049W.

Since 2005 Jobcentre Plus has undertaken a survey of its customers every two years. The 2007 Jobcentre Plus satisfaction survey report is due to be published later this year; copies will be placed in the Library on publication.

A customer satisfaction survey for the Pension Service's International Pension Centre was conducted last year. It is due for publication later this year; copies will be placed in the Library on publication. The Pension Service is now in the final stages of conducting its latest survey and the results will be published in July 2008.

The Child Support Agency conducted a client satisfaction survey last year. The results are due to be published later this year; copies will be placed in the Library on publication.

A copy of the Disability and Carers Service Customer Service Survey 2006-07 has been placed in the Library.

1. *[Official Report, 31 January 2008, Vol. 471, c. 3MC.]*

Employment Schemes: Lone Parents

Harry Cohen: To ask the Secretary of State for Work and Pensions what the starting date for the implementation of the £60-per-week added support for lone parents to obtain and keep employment is for each Jobcentre Plus office branch in London. [177076]

Caroline Flint: In work credit has already been introduced in all Jobcentre Plus London districts except the North East London district. The amount of credit was increased in London from £40 to £60 per week in July 2007.

The £60 per week in work credit will be introduced in the North East London district from 28 January 2008, and implemented in all remaining Jobcentre Plus offices at the national rate of £40, from 7 April 2008.

Fireworks: Safety

Mr. Pickles: To ask the Secretary of State for Work and Pensions what guidance the Health and Safety Executive has given to local authorities on municipal *(a)* bonfires and *(b)* firework displays. [176258]

Mrs. McGuire: While not aimed solely at local authorities, the Health and Safety Executive's "Working together on firework displays" publication is relevant to anyone organising a firework display and to display operators. It was developed in association with stakeholders and includes practical guidance on safety arrangements for bonfires, as well as fireworks. A copy of the publication has been placed in the House of Commons Library.

HSE has also promoted straightforward fireworks guidance on its website. The site urges people not to over-react to the risks but instead to adopt simple, sensible precautions. The pages can be accessed at:

http://www.hse.gov.uk/explosives/fireworks

Housing Benefit

Julia Goldsworthy: To ask the Secretary of State for Work and Pensions what estimate he has made of the number of people in receipt of housing benefit in each local authority in the UK who do not have access to a bank account. [180616]

Mr. Plaskitt: DWP has made no such estimate.

A person's access to a bank account is not pertinent information for a housing benefit claim. Consequently, it is not recorded in the Department for Work and Pensions administrative data.

Housing Benefit: North East Region

Shona McIsaac: To ask the Secretary of State for Work and Pensions what the average level of housing benefit was for tenants of *(a)* local authorities, *(b)* registered social landlords and *(c)* private sector landlords in (i) North East and (ii) North Lincolnshire in each of the last five years. [179718]

Mr. Plaskitt: The information is in the following table.

Average weekly amount of housing benefit by tenure type, in North East Lincolnshire and North Lincolnshire, as at February each year

	North East Lincolnshire	North Lincolnshire
Local authority tenants		
2003	38.99	37.74
2004	39.67	37.93
2005	41.39	39.64
2006	—	41.85
2007	—	44.00
Private sector tenants (excluding RSL)		
2003	65.42	52.36
2004	56.37	52.55
2005	58.41	53.81
2006	65.72	53.29
2007	66.91	53.80
Registered social landlord (RSL) tenants		
2003	58.65	63.94
2004	57.39	55.65
2005	54.55	58.90
2006	47.32	60.79
2007	51.04	63.60

'—' Denotes suppressed amount as case loads are below 10.

Notes:

1. The average amounts have been rounded to the nearest penny.
2. The data refer to benefit units which may be a single person or a couple.
3. Figures exclude extended payments.
4. NE Lincolnshire transferred its housing stock to an RSL on 21 March 2005.

Source:

Housing Benefit and Council Tax Benefit Management Information System Quarterly 100 per cent. taken in February 2003 to February 2007.

Jobcentre Plus: Data Protection

Julia Goldsworthy: To ask the Secretary of State for Work and Pensions what data sharing protocols are in place for Jobcentre Plus negotiations with *(a)* customer advocates and *(b)* intermediary organisations. [173275]

Caroline Flint: The Department has guidance for all staff on disclosing information to advocates and intermediaries. We have a duty to ensure that information is not improperly disclosed, but this must not interfere with the customers' right to use and advocate or intermediary to help them conduct their business.

This guidance also applies to staff in all the Department's Agencies, including Jobcentre Plus.

For customers with communication difficulties or disabilities, for example, the involvement of an advocate or intermediary not only helps them to access our services, but also helps us to obtain the information we need.

The guidance covers the steps to be taken when deciding whether to disclose information about a specific customer. When contact is made by telephone or in person, and it can be established, using judgment based

on the information that the caller already holds about the customers business, and the type of questions they ask, that the caller is an advocate or intermediary who is clearly acting on behalf of the customer, then the customer's consent can be considered implicit. If our staff have any doubt about the bona fides of the caller, they must ask for written authority from the customer before disclosing any information. Where requests for information are made in writing, a written authority from the customer is required.

Staff are told never to disclose information that the customer's advocate would reasonably be expected to know, such as addresses, dates of birth, phone numbers, names of household members and bank account details.

The full guidance can be accessed on the Department's website at:

www.dwp.gov.uk/advisers/repsguide.pdf

Jobseeker's Allowance: Peterborough

Mr. Stewart Jackson: To ask the Secretary of State for Work and Pensions how many individuals in Peterborough constituency had been in receipt of jobseeker's allowance in excess of 12 months as at 31 December 2007; and if he will make a statement. [178093]

Mr. Plaskitt: As at December 2007 there were 250 people in the Peterborough parliamentary constituency with a jobseeker's allowance claim of over 12 months duration.

Labour Party: Elections

Adam Price: To ask the Secretary of State for Work and Pensions whether he *(a)* informed the Permanent Secretary in the relevant Department of the donations he received as part of his campaign for the Deputy Leadership of the Labour Party and *(b)* registered them with the Cabinet Office in accordance with the Ministerial Code. [179966]

Mr. Hain *[holding answer 17 January 2008]:* In accordance with the requirements of the Ministerial Code, a list of Ministers' relevant interests declared to their Permanent Secretary will be published in due course.

Low Incomes: Scotland

Mr. Moore: To ask the Secretary of State for Work and Pensions what estimate he has made of the number of households in Berwickshire, Roxburgh and Selkirk whose income is below 60 per cent. of median UK household income; and if he will make a statement. [178084]

Caroline Flint: The information requested is not available below the level of Government Office Region.

Our child poverty statistics, published in the Households Below Average Income series, allow a breakdown of child poverty by Government Office Region.

Members: Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for Work and Pensions when he will reply to the letter of 26 November 2007 from the right hon. Member for Manchester, Gorton, with regard to Mr. R.R. Hart. [179262]

Mr. Plaskitt: I can confirm that a response to this letter was issued to the right hon. Friend on 14 January 2008.

Sir Gerald Kaufman: To ask the Secretary of State for Work and Pensions when he will reply to the letter of 3 December 2007 from the right hon. Member for Manchester, Gorton, with regard to Mr. A. Khashan. [179331]

Mr. Plaskitt: I can confirm that a response to this letter was issued to my right hon. Friend on 16 January 2008.

National Insurance: Foreigners

Mr. Betts: To ask the Secretary of State for Work and Pensions how many new national insurance registrations *(a)* of non-UK citizens and *(b)* of people from each of the 10 countries from which the greatest number of registrations were received there were in the city of Sheffield in (i) 2004-05, (ii) 2005-06 and (iii) 2006-07. [168761]

Caroline Flint: The information is not available prior to 2005-06. The available information is in the following tables.

National insurance number registrations in respect of non-UK nationals in Sheffield local authority

Year of registration	*Number of registrations*
2005-06	4,400
2006-07	5,130

National insurance number registrations in respect of non-UK nationals in Sheffield local authority

Country of origin	*Number of registrations*
2005-06	
Poland	600
Slovak Rep	440
India	390
Pakistan	300
China Peoples Rep	230
Malaysia	190
Rep of Lithuania	120
Iran	120
Eritrea	120
Zimbabwe	110
2006-07	
Poland	1,110
India	590
Slovak Rep	470
Pakistan	360
China Peoples Rep	230

National insurance number registrations in respect of non-UK nationals in Sheffield local authority

Country of origin	Number of registrations
Malaysia	160
Nigeria	110
France	90
Czech Rep	90
Zimbabwe	90

Notes:
1. Numbers are rounded to the nearest 10.
2. Totals may not sum due to rounding.
3. Numbers are based on 100 per cent. data from the national insurance recording system (NIRS).
4. Local authority is assigned by matching postcodes against the relevant postcode directory.
5. Local authority counts are based on the most recently recorded address of the NINO recipient.

Source:
100 per cent. sample at 17 June 2006 and 14 May 2007 from the national insurance recording system (NIRS).

New Deal for Young People: Cleethorpes

Shona McIsaac: To ask the Secretary of State for Work and Pensions what the destination was upon leaving of individuals who participated in the new deal for young people in Cleethorpes constituency. [179717]

Caroline Flint: The information requested is in the following tables.

Immediate destination of individuals on leaving the NDYP in Cleethorpes parliamentary constituency[1]

	Number	Percentage
Sustained employment	1,100	51.4
Employment and benefits	60	2.8
Benefits		
Jobseeker's allowance	120	5.6
Income support	60	2.8
Incapacity benefit	30	1.4
Income support and incapacity benefit	150	7.0
Other	50	2.3
Other known	130	6.1
Off benefits/unknown	430	20.1

[1] Cumulative data to May 2007

Notes:
1. Figures are rounded to the nearest 10.
2. Percentages are of total leavers (2,140)
3. Immediate destination is measured within two weeks of leaving new deal, using information from the Work and Pensions Longitudinal Study (WPLS).
4. People recorded as leaving to employment and benefits have evidence of both employment and have an active benefit.
5. 'Benefits—Other' includes all benefits which have not been included individually in the table, eg pension credit.
6. 'Other known' includes people going back into education and people moving abroad.

Source:
Department for Work and Pensions, Information Directorate

Leavers to sustained employment: Immediate destination of individuals on leaving the NDYP in Cleethorpes parliamentary constituency[1]

	Number/percentage
Total of individuals leaving NDYP in Cleethorpes	2,140
Total of individuals leaving NDYP in Cleethorpes with a known destination	1,710
Total of individuals leaving NDYP in Cleethorpes into sustained employment	1,100
Individuals leaving NDYP in Cleethorpes into sustained employment as a percentage of those individuals leaving NDYP in Cleethorpes with a known destination	64.3

[1] Cumulative data to May 2007.

Notes:
1. Figures are rounded to the nearest 10.
2. Percentages are of total leavers (2,140)
3. Immediate destination is measured within two weeks of leaving new deal, using information from the Work and Pensions Longitudinal Study (WPLS). People recorded as leaving to employment and benefits have evidence of both employment and have an active benefit.

Department for Work and Pensions, Information Directorate

New Deal for Young People: Peterborough

Mr. Stewart Jackson: To ask the Secretary of State for Work and Pensions how many and what proportion of individuals participating in the new deal for young people in Peterborough constituency were referred to the employment option after the conclusion of the gateway period. [178428]

Caroline Flint *[holding answer 15 January 2008]:* All participants in the employment option of new deal for young people have to go through the Gateway.

The information requested is in the following table.

Number of individuals currently participating in new deal for young people in Peterborough parliamentary constituency (May 2007)

Stage of participation at the end of the month	Number participating	Percentage of all participants
Gateway	170	65.4
Options		
Employment	30	11.5
Full Time Education and Training	20	7.7
Voluntary Sector Environment Task Force	40	15.4
Follow through	260	100
Total		

Notes:
1. '—' = nil or negligible;
2. Figures are rounded to the nearest 10.
3. Stage of participation at the end of the month: People participating in Gateway includes those awaiting their first Gateway interview. The Employment option can be accessed at any stage of the new deal programme.

Source:
Department for Work and Pensions, Information Directorate

Occupational Pensions

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions what estimate he has made of the proportion of the working age population that belonged to an employer-sponsored defined benefit pension scheme in *(a)* the public sector and *(b)* the private sector in each year since 1997. [167759]

Mr. Mike O'Brien: The information is not available in the format requested. Such information as is available is presented in the following table:

Estimates of the percentage of the working-age population who belong to an employer-sponsored defined benefit pension scheme in the public sector and private sector by year

	Defined benefit scheme		
	Public	*Private*	*Total*
1991	12	16	28
1995	12	14	26
2000	12	12	25
2004	13	10	23
2006	14	9	23

Notes:
1. Pension scheme membership figures were taken from the Occupational Pension Scheme Survey. Data for years 1991, 1995, 2000 and 2004 were produced by the Government Actuary's Department (GAD). Data for 2006 were produced by the Office for National Statistics. 2006 is the latest year published. The coverage of the survey is the UK.
2. Population figures were taken from Table 1 of the mid-year Population Estimates produced by the Office for National Statistics. 2006 is the latest year published.
3. The working age population is defined as males aged 16 to 64 and females aged 16 to 59.
4. To be eligible for membership of an occupational pension scheme, including defined benefit schemes, a person must be an employee working for an employer offering such a scheme.
5. Results may not sum to totals shown due to rounding.

Pensions

Danny Alexander: To ask the Secretary of State for Work and Pensions what estimate he has made of the number of successful pension tranches *(a)* conducted in each of the last 10 years and *(b)* that will be conducted in 2008. [174805]

Mr. Mike O'Brien: The information is in the following table.

Successful Pension Traces: 2005-08

	2005-06	*2006-07*	*2007-08*
Totals	30,458	40,160	43,036 (to end of November 2007)

Notes:
1. Figures before April 2005 are not available as prior to this the Pension Tracing Service was carried out by the Occupational Pensions Regulatory Authority (OPRA).
2. The Pension Service is on course to achieve the PSA target of 60,000 successful traces during 2007-08.

Data source:
Pension Tracing System

Personal Income

Mr. Allen: To ask the Secretary of State for Work and Pensions how many and what percentage of families have an annual income of less than *(a)* £60,005 and *(b)* £25,000, broken down by constituency. [178436]

Caroline Flint: The information requested is not available below the level of Government office region.

Social Security Benefits: Employment

Danny Alexander: To ask the Secretary of State for Work and Pensions how much his Department has spent on training Jobcentre Plus personal advisers to carry out the Better Off Calculations; how many hours of training are required before a personal adviser may carry out a Better Off Calculation; how many personal advisers have been so trained; and if he will make a statement. [178295]

Caroline Flint: The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide the hon. Member with the information requested.

Letter from Lesley Strathie, dated 23 January 2007:

The Secretary of State has asked me to reply to your question asking how much the Department has spent on training Jobcentre Plus personal advisers to carry out the Better Off Calculations; how many hours of training are required before a personal adviser may carry out a Better Off Calculation and how many personal advisers have been so trained. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Information about the amount spent on training Personal Advisers to carry out Better Off Calculations or about the number of Personal Advisers who have been so trained is not routinely collected and could only be obtained at disproportionate cost.

Specific training on completing Better Off Calculations is presented in a nine-hour facilitated training event and forms part of an extensive range of learning to equip Personal Advisers to use the Better Off Calculator effectively.

All Personal Advisers undertake comprehensive training that includes, for example, skills for gaining customer commitment, helping customers into work, advising about benefits and tax credits, and dealing with tax credits within a better off calculation.

I hope this is helpful.

Social Security Benefits: Fraud

David T.C. Davies: To ask the Secretary of State for Work and Pensions what the smallest sum of money lost by his Department through fraud in respect of which a prosecution was mounted in each of the last five years. [180979]

Mr. Plaskitt: This information is not centrally collated and would be available only at disproportionate cost.

For overpayments under £2,000, cautions or administrative penalties are generally issued.

Social Security Benefits: Islington

Jeremy Corbyn: To ask the Secretary of State for Work and Pensions what the take-up rate was for claimants in Islington North constituency of the newly returned to work benefit in the last 12 months. [176882]

Caroline Flint *[holding answer 7 January 2008]:* From November 2006 to October 2007, the latest period for which data are held, 80 people in Islington North constituency began a claim for in work credit.

State Retirement Pensions: Females

Steve Webb: To ask the Secretary of State for Work and Pensions how many divorced women over state pension age were receiving *(a)* a basic state pension at the full rate, *(b)* a partial basic state pension and *(c)* no basic state pension in the latest period for which figures are available. [175577]

Mr. Mike O'Brien *[holding answer 7 January 2008]*: Information on the numbers of divorced women in receipt of state pension is not available. It is not required for payment of benefit on the Pension Service computer system and is often not completed on forms that collect the data.

CHILDREN, SCHOOLS AND FAMILIES

Children in Care: Teenage Pregnancy

Tim Loughton: To ask the Secretary of State for Children, Schools and Families (1) how many looked after girls under the age of *(a)* 16 and *(b)* 18 years gave birth in 2007; [179404]

(2) how many mothers aged 16 to 19 years were not in education, employment or training in the most recent period for which figures are available. [179410]

Kevin Brennan: There were 360 children looked after aged 12 to 18 years and over who were mothers at 31 March 2007. Of these:

(a) 20 gave birth to their first child aged under 16 years

(b) 60 gave birth to their first child aged under 18 years

However 130 mothers looked after at 31 March did not report the date of birth of their first child and some could have been born in 2007. Note that figures are rounded to the nearest 10.

The proportion of young mothers aged 16 to 19 years who are in education, employment or training (EET) is very low compared with 16 to 19 years old as a whole. The Teenage Pregnancy Strategy consequently includes a target to increase the proportion in EET to 60 per cent. by 2010. 23 per cent. of teenage mothers were in EET for the period 1997-99. This rose to 32 per cent. for the period 2005-07.

Children: Autism

Mike Gapes: To ask the Secretary of State for Children, Schools and Families what plans he has for specialist schools for children with autism. [180092]

Kevin Brennan: The Government recognise the important and continuing role special schools for children with autism play in making provision for this cohort of children. Decisions on whether to open schools for children with autism are taken by local authorities and voluntary and independent organisations. The "Good Practice Guidance" on autistic spectrum disorders, which the Department published in 2002, and the guidance on "Planning and Developing Special Educational Provision" (2007) both recommend to local authorities that there should be a range of provision to meet the range of children's needs, including special schools which provide for children with a particular type of special educational need.

Children: Health Services

Norman Lamb: To ask the Secretary of State for Children, Schools and Families where the Nurse Family partnership pilots are taking place; which programmes of this type Ministers have visited in the US; when the pilots will start and when they are planned to end; what estimate he has made of the cost of the pilots; when the *(a)* first and *(b)* final evaluation of the pilots will be made; how longer term outcomes from the pilot will be assessed; how many families he estimates will be involved in the pilots; and what additional training and recruitment of health visitors is taking place as part of the pilots. [177197]

Beverley Hughes: We are piloting the Family Nurse Partnership (called "Nurse-Family Partnership" in the US) on 10 sites in England—Barnsley, Derby City, County Durham and Darlington, Manchester, Slough, Somerset, Southend, Southwark, Tower Hamlets and Walsall.

From 4 to 11 December 2006, the then Cabinet Office Ministers, Hilary Armstrong MP and Pat McFadden MP, visited the Prevention Research Centre, Denver, Colorado, to learn about the Nurse-Family Partnership and similar initiatives.

The 10 Family Nurse Partnership Pilot sites began operating from March 2007 and will run as Pilot sites until 31 March 2009.

A budget of £7 million was allocated across 2006-07 and 2007-08 to support and deliver the pilot project. From this sum, direct allocations to sites totalled £248,395 in 2006-07 and £3,171,342 in 2007-08.

An interim evaluation report of the Pilot Project's first year will be published this spring. The final evaluation report of the Pilot is expected to be available in spring 2009, although evaluation of the second year of the pilot has not yet been commissioned.

From 2008-09 to 2010-11 the Government will be implementing a research study to assess longer term impacts of the pilot programme.

The 10 pilot sites were required to recruit a total of 1,025 families within the first eight months of operation. Over the two years of the Pilot Project a larger number of families are likely to receive services for all or part of the pilot period, as some families leave and new ones are recruited in their place. Therefore, it is not possible to estimate the total number of families who will be involved in the Pilot Project.

Practitioners delivering the programme are trained in use of the Family Nurse Partnership materials and the theory of the intervention. In addition, they are being provided with training in developing therapeutic relationships and motivational interviewing. The total number of practitioners delivering the Family Nurse Partnership (family nurses and supervisors) is 57. There has been no additional recruitment of health visitors to support delivery of the Pilot Project.

Children: Performing Arts

Mr. Rooney: To ask the Secretary of State for Children, Schools and Families what rights of appeal an individual has against a refusal to grant a licence under the Children (Performances) Regulations 1968;

when these regulations were last reviewed; and what plans he has to review the regulations. [181188]

Beverley Hughes: There is a right of appeal under section 39(6) of the Children and Young Persons Act 1963 to a magistrates court against the refusal to grant a performance licence. Some limited reviews took place in the late 1990s which resulted in the passing of amending regulations in 1998 and 2000. There are no immediate plans to review or amend these regulations further, but the Government do plan to make available clear guidance on these issues and on the regulation of child employment more generally, in the course of this year.

Children: Poverty

Julia Goldsworthy: To ask the Secretary of State for Children, Schools and Families what his responsibilities are in relation to the Joint Child Poverty Unit; and what arrangements are in place for liaison with other Departments on the work of the Unit. [178425]

Beverley Hughes: The Child Poverty Unit brings together officials from both the Department for Work and Pensions and the Department for Children, Schools and Families. It will report to Ministers in both Departments and to a child poverty board comprised of senior officials from across Whitehall. At ministerial level, this board will report to the Cabinet Committee on Domestic Affairs (Families, Children and Young People).

The Unit will play a lead co-ordinating role, as the Government pursue their multi faceted child poverty strategy which includes transport, health and regeneration as well as employment, skills and the tax and benefit system, on the way towards making our ambitious but vital goal of eradicating child poverty by 2020 a reality.

The Unit works closely with the Treasury, who are the lead Department for the 2010 child poverty target delivery agreement, with officials from the Unit and Treasury in regular dialogue.

The Unit is also currently setting up working groups with officials across a number of Government Departments and local government offices.

Children's Centres

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families how many Sure Start children's centres are open; and how many he expects to be open by *(a)* 31 January, *(b)* 29 February, *(c)* 31 March, *(d)* 30 April, *(e)* 31 May and *(f)* 30 June 2008. [180886]

Beverley Hughes: There are 1,934 operational children's centres as of 18 January. Local authorities are responsible for the provision of Sure Start children's centres in their areas. Local authorities are currently reporting to the Department's delivery partner, Together for Children, on their estimated dates for designation of further children's centres during 2008. TfC's own estimate, based on their work with local authorities, is that 2,500 centres will be open by 31March.

Phase 3 of the Sure Start children's centres programme begins in April 2008 and ends in 2010. Some of these centres will not involve major capital work and have much shorter lead times. Local authorities have not yet been asked to report their estimates for the total number of centres to be open by the end of April, May and June.

Christmas

Mr. Burns: To ask the Secretary of State for Children, Schools and Families how much his Department spent on *(a)* Christmas cards and *(b)* postage of Christmas cards in 2007. [176907]

Kevin Brennan: The Department spent £2,653 on Christmas cards, and £307.52 on postage.

Dyslexia: Screening

Mark Hunter: To ask the Secretary of State for Children, Schools and Families (1) whether his Department has any plans to provide dyslexia screening for all school children; [180074]

(2) whether his Department has assessed *(a)* the cost and *(b)* the merits of providing dyslexia screening for all school children. [180058]

Kevin Brennan *[holding answer 21 January 2008]:* All local authorities, schools, and early years settings must have regard to the special educational needs code of practice which provides advice on carrying out statutory duties to identify, assess and make provision for pupils' special educational needs. Children with dyslexia should have their needs identified and support put in place in the same way as children with any other type of special educational need (SEN).

To identify and disseminate best practice in improving outcomes for children with dyslexia, we are working with the British Dyslexia Association, Dyslexia Action, Xtraordinary People and the Professional Association of Teachers of Students with Specific Learning Difficulties on the "No to Failure" Project. This project is supporting schools in three local authority areas to be "trailblazers", where children are being screened for dyslexia and individual specialist tuition is provided to those who are identified as having dyslexia. The impact of this approach on outcomes is being evaluated. The project is also evaluating the cost and the impact of providing specialist dyslexia training for teachers, developing examples of good practice which can be extended nationally, and raising awareness of dyslexia as a learning difficulty. We are providing up to £900,000 funding over three years to support this project.

As set out in the Children's Plan (cm 7280), we will develop a pilot which will evaluate the impact of additional intensive reading tuition for children identified as needing this through the 'Every Child a Reader' programme. If specialist provision demonstrates significant impact, we will look at how assessment and specialist dyslexia support could be rolled out nationwide as best practice.

Education: Standards

Mr. Laws: To ask the Secretary of State for Children, Schools and Families (1) for what reasons the 2004 Public Service Agreement Target 1 on children's social and emotional development was revised in light of the 2005 Foundation Stage Profile Results; and what the revised target is; [176989]

(2) for what reasons the 2004 Public Service Agreement Target 2 on the use of formal childcare in low income families was revised; and what the revised target is. [176990]

Beverley Hughes: The technical notes that accompanied the 2004 PSA White Paper and the 2005 DFES autumn performance report, which set out the Department's progress towards its public service agreement targets, made clear that the levels for targets 1 and 2 were provisional. The 2005 report stated that the final target levels for PSA 1 would be confirmed when the 2005 results were available and the level for PSA 2 would be confirmed in spring 2006.

Progress on PSA1 is measured through Foundation Stage Profile results which was introduced in academic year 2002-03 and was expected to take a number of years to bed in. The provisional PSA1 target was for 50 per cent. of children reaching a good level of development by age five; and no level was set for the inequalities element of the target. The decision to use 2005 results to set the baseline was to allow time for teachers to develop experience in carrying out the observational assessment and for moderation arrangements to be developed. The final target levels for PSA1 were set in April 2006 as 53 per cent. of all children reaching a good level of development and the gap between children living in the 30 per cent. most disadvantaged areas and the rest closing by four percentage points from 16 per cent. to 12 per cent.

The provisional PSA 2 target, used the DWP Family Resource Survey (FRS) as a baseline, and stated that

"by 2008, increase the take up of formal childcare by lower income working families by [50 per cent. provisional, to be confirmed in spring 2006]."

This equated to an increase in take up by some 86,000 families. Changes to the FRS survey in 2005-6 meant it was not possible to establish a satisfactory baseline and trajectory using that measure. In November 2006, the target was finalised using the then Department for Education and Skills (DFES) survey of parents' use of childcare series 2005 to 2008 to set the baseline and measure progress. The finalised target being

"by 2008, to increase the number of children in lower income working families using formal childcare by 120,000."

Free School Meals: Hampshire

Mr. Hancock: To ask the Secretary of State for Children, Schools and Families what the take-up of free school meals in *(a)* Portsmouth, *(b)* Southampton and *(c)* Hampshire local education authorities was in each of the last five years; what the estimated number of children eligible was in each year; and what steps he is taking to increase the take-up. [179746]

Kevin Brennan: The information requested is given in the following tables:

Take-up of free school meals in Portsmouth, Southampton and Hampshire local authorities 2003 to 2007 at January each year—table A: maintained nursery and primary schools

	Number on roll	Pupils taking free school meals	Percentage taking free school meals	Number known to be eligible for free meals	Percentage known to be eligible for free meals
2003					
Portsmouth	15,200	2,100	13.9	2,600	16.8
Southampton	17,200	3,000	17.7	3,700	21.7
Hampshire	101,000	7,100	7.0	8,700	8.6
2004					
Portsmouth	14,800	2,200	14.9	2,800	18.6
Southampton	16,600	3,000	18.1	3,700	22.0
Hampshire	99,900	7,400	7.4	9,200	9.2
2005					
Portsmouth	14,500	2,000	13.5	2,600	17.9
Southampton	16,400	2,700	16.4	3,600	22.2
Hampshire	98,500	6,900	7.0	8,800	8.9
2006					
Portsmouth	14,200	1,800	12.5	2,300	16.2
Southampton	16,100	2,700	17.0	3,400	21.3
Hampshire	97,400	6,500	6.7	8,300	8.6
2007					
Portsmouth	13,900	1,700	12.2	2,200	15.7
Southampton	16,100	2,500	15.8	3,400	20.9
Hampshire	96,300	6,000	6.3	8,200	8.6

Table B: maintained secondary schools

	Number on roll	Pupils taking free school meals	Percentage taking free school meals	Number known to be eligible for free meals	Percentage known to be eligible for free meals
2003					
Portsmouth	10,200	1,000	10.0	1,500	14.9

Southampton	11,300	1,300	11.5	1,800	16.3
Hampshire	71,900	3,200	4.5	4,600	6.4

Source:
School Census 2003-07

Both tables include middle schools as deemed and dually registered and boarding pupils. Totals are rounded to the nearest 100. Figures for 2007, and accompanying notes, were published as part of the Statistical First Release: Schools and Pupils in England: January 2007, which can be found at:

http://www.dfes.gov.uk/rsgateway/DB/SFR/s000744/index.shtml

Increasing take-up of school lunches is a priority for this Department and for the School Food Trust (SFT). The SFT has a target to increase take-up of school lunches, from a 2005-06 baseline, by 4 percentage points by March 2008 and by 10 percentage points by autumn 2009. In addition, school lunch take-up is now an indicator in both the Local Government National Indicator Set, from which local authorities and their partners will agree their own targets in Local Area Agreements; and Public Service Agreement 12 'Improve the health and well-being of children and young people' of the 2007 comprehensive spending review.

Nursery Schools: Teesside

Dr. Kumar: To ask the Secretary of State for Children, Schools and Families (1) how many children in *(a)* Teesside and *(b)* Middlesbrough South and East Cleveland constituency are in receipt of 15 hour entitlement to free nursery care; [179617]

(2) what estimates he has made of the number of children in *(a)* Teesside and *(b)* Middlesbrough South and East Cleveland constituency who will be affected by the funding allocated to improve nursery schools in the region. [179618]

Beverley Hughes: All three and four-year-olds in England are able to access 12½ hours a week of free early education for 38 weeks of the year. The available information on the number of part-time funded places filled by three and four-year-olds in *(a)* Teesside and *(b)* Middlesbrough South and East Cleveland constituency is shown in the following table.

Local authority area	*Three-year-olds*	*Four-year-olds*
Middlesbrough	1,700	1,600
Redcar and Cleveland	1,500	1,500
Stockton-on-Tees	2,000	2,100
Teesside	6,200	6,200
Middlesbrough South and East Cleveland parliamentary constituency area	1,000	930

From 2010, all children will be entitled to 15 hours a week of free early years provision for 38 weeks of the year and access will be more flexible. The extension will be rolled out across the country over the next three years. Middlesbrough is a pathfinder local authority and will begin delivering 15 hours a week from September 2008. Nationally, we expect 25 per cent. of children in all local authorities to be able to access 15 hours in 2009 with the remainder being eligible in 2010.

In addition to revenue funding to support roll out of the extended free entitlement, £642 million capital funding has been made available nationally over the period 2008-11 to improve quality in early years settings and to ensure that all children, including disabled children, are able to access provision. £378,220,601 child care sufficiency and access revenue funding has also been made available over the same period to ensure that local authorities can fulfil their duties to secure sufficient child care for parents in work and training and to provide information and advice to parents and providers; and to increase take-up of child care and early education, especially among disadvantaged groups. It is for local authorities to determine how this funding is allocated based on local needs and circumstances.

Pupil Exclusions: Appeals

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what advice he has sought on whether decisions to exclude children from school may be challenged in the courts; and if he will make a statement. [179957]

Kevin Brennan: It has long been the case that any of the decision making parties in an exclusion (head teacher, governing body and, for permanent exclusions, an independent appeal panel) can have their decision challenged by parents by application to the High Court for a judicial review. An application for judicial review would not normally be granted until all other avenues for appeal had been exhausted.

Pupils: Disabled

Mr. Jenkins: To ask the Secretary of State for Children, Schools and Families in respect of which *(a)* disabilities and *(b)* diseases his Department has issued guidance to local authorities on best practice in management of pupils. [179500]

Kevin Brennan: A list of guidance relating to disabilities and diseases that the Department has produced is available at http://www.teachernet.gov.uk

The main guidance for local authorities on pupils with disabilities relates to fulfilling their statutory duties. The "Special Educational Needs Code of Practice" provides practical advice to local authorities, maintained schools, early education settings and others on carrying out their statutory duties to identify, assess and make provision for children's special educational needs. The resource "Implementing the Disability Discrimination Act in schools and early years settings" was sent to every local authority and provides them with practical tools to improve their effectiveness in making reasonable adjustments to include disabled pupils and in reviewing and revising their accessibility plans. The resource includes a section to help schools develop their disability equality scheme.

Relating to diseases, joint non-statutory guidance with the Department of Health "Managing Medicines in Schools and Early Year Settings" explains what schools can do to help children with medical conditions; with the Council for Disabled Children "Including me: managing complex health needs in schools and early years settings" contains practical examples and case studies on supporting these children to maintain their health and access the curriculum and the positive difference it makes to their lives; with the Health Protection Agency, guidelines on minimising the risk from infection to children and staff and most recently "Planning for a human influenza pandemic".

School Meals: Finance

Annette Brooke: To ask the Secretary of State for Children, Schools and Families (1) what representations he has received from local authorities on Government funding for infrastructure to support the provision of hot school meals; and if he will make a statement; [179300]

(2) what funding his Department will provide for each local authority to meet targets for provision of hot school meals. [179301]

Kevin Brennan *[holding answer 15 January 2008]:* We have received representations from a wide range of authorities about funding for the infrastructure to support the provision of hot school meals.

Capital funding for schools this year is £6.4 billion, rising to over £8 billion by 2010-11. Nearly all of this money is available for use to install or improve kitchen and dining areas in schools where this is the local priority. In addition, we are making available to local authorities £150 million of targeted capital funding between 2008 and 2011, to support the installation of new kitchens in schools where currently there are none, and where there is exceptional need.

Providing a hot meal does not require every school to have a kitchen. There are several ways of reheating food on school premises, such as using microwave ovens; or schools may use a centralised preparation and delivery service. The Government have invested £220 million between 2005-06 to 2007-08 to assist authorities and schools in improving school food and providing a hot school meal.

Further funding of £240 million over the three years 2008-09 to 2010-11 will also be available to local authorities and schools to help them manage the direct costs of providing a school lunch.

Schools: Newcastle Upon Tyne

Jim Cousins: To ask the Secretary of State for Children, Schools and Families how many children aged 11 to 16 years there were in local education authority maintained schools in the city of Newcastle upon Tyne in each year since 1997. [180891]

Jim Knight: The requested information is given in the table and relates to the number of pupils aged 11 to 15 at the start of the academic year (some pupils will turn 16 throughout the year).

Maintained primary, secondary and special schools, pupil referral units[1,2]: Number (headcount) of pupils aged 11 to 15—as at January each year: 1997 to 2007—Newcastle upon Tyne local authority

	Pupils aged 11 to 15[3,4]			
	Maintained primary and secondary schools	Maintained special schools	Pupil referral units[5]	Total maintained schools
1997	13,692	359	48	14,099
1998	13,779	327	58	14,164
1999	14,005	317	56	14,378
2000	14,111	251	94	14,456
2001	14,126	254	53	14,433
2002	14,176	254	53	14,483
2003	14,232	251	67	14,550
2004	13,918	246	106	14,270
2005	13,867	248	91	14,206
2006	13,822	253	98	14,173
2007	13,473	253	142	13,868

[1] Includes middle schools as deemed.
[2] Excludes dually registered pupils.
[3] Includes only those pupils aged 11 to 15. Age is taken from the start of the academic year.
[4] Age of pupil as at 31 August each year.
[5] Also included pupils with other providers.

Secondary Education: Sports

Mr. Hoban: To ask the Secretary of State for Children, Schools and Families (1) what proportion of secondary school pupils played four or more hours of school sport per week in the latest period for which figures are available; [178941]

(2) what proportion of *(a)* primary and *(b)* secondary school pupils played some form of competitive inter-school sport in each of the last 10 years for which figures are available; [178942]

(3) what the average time spent playing school sport by secondary school pupils was in each of the last five years, broken down by Government region. [178561]

Kevin Brennan: The annual PE and School Sport Survey was introduced in 2003/04 and collects data from schools in school sport partnerships relating to the percentage of pupils participating in at least two hours high quality PE and school sport in a typical week. The survey does not collect data relating to the proportion of pupils playing four or more hours of sport or the average time spent on PE and school sport.

The 2007 PE and School Sport Survey found that 86 per cent. of 5-16 year olds were participating in at least two hours high quality PE and school sport each week.

Over the last four years, the percentage of pupils in primary and secondary schools who took part in inter-school competition during the academic year is as follows:

	Percentage	
	Primary	Secondary
2003/04	35	32
2004/05	41	32
2005/06	46	32
2006/07	51	34
2006/07	[1]36	34

[1] Including Years 1-3, which was included in the survey in this year.

From this year, we will also be collecting data on the percentage of pupils participating in a further three hours per week of sporting activity.

Prior to 2003/04, no data on PE and school sport was collected.

Special Educational Needs

Mark Hunter: To ask the Secretary of State for Children, Schools and Families what steps his Department is taking to increase parental awareness of dyslexia and other special educational needs. [180072]

Kevin Brennan: Through the Education Act 1996, local authorities are required to arrange for the parent of any child with special educational needs in their area to be provided with advice and information about matters relating to those needs. The Special Educational Needs Code of Practice says that local authorities must make arrangements for parent partnership advice services, and it sets out minimum standards for these services. These minimum standards have been built upon through our guidance entitled "Parent Partnership Services - increasing parental confidence" which we published in December last year.

We fund the Council for Disabled Children to provide a National Parent Partnership Network, which supports parent partnership services with information, communication, training and development.

We are providing £64,000 this financial year, and £86,000 next financial year to enable the British Dyslexia Association to enhance their helpline's provision of information and advice for teachers and parents on best practice in identifying and supporting children with dyslexia.

Special Educational Needs: Kent

Derek Wyatt: To ask the Secretary of State for Children, Schools and Families what recent representations he has received on the conduct of special needs investigations in *(a)* the Kent county council and *(b)* the Swale borough council areas; what guidance his Department has issued on the conduct of such investigations by local authorities; and if he will make a statement. [180456]

Kevin Brennan *[holding answer 21 January 2008]:* The Department is not aware of any special needs investigations by Kent county council or the Swale borough council areas.

The Department is aware that Kent county council is undertaking a review of specialist provision and support for children with special educational needs in mainstream schools and has published consultation documents. The Education and Inspections Act 2006 provides that before publishing any proposals to make changes to local school organisation, proposers must consult all interested parties and in doing so must have regard to the Secretary of State's guidance. Guidance can be found on the Department's website at

www.dcsf.gov.uk/schoolorg

We understand that following a complaint, Kent county council has looked at the way consultation documents were sent to parents and other interested parties in the Swale area and that steps are being taken to ensure that copies are made available to all parents and others concerned.

Under the Education Act 1996 all local authorities should keep under review the arrangements made by them for special education provision. School organisation proposals are a matter for local determination and the Department for Children, Schools and Families has no role in the decision making process.

Sure Start Programme: Greater London

Tom Brake: To ask the Secretary of State for Children, Schools and Families how much was allocated to support the work of Sure Start in London in each year since inception, broken down by London constituency. [180600]

Beverley Hughes: The information requested is not available by constituency. The amounts allocated to local authorities in London for Sure Start are shown in the table.

The amounts are for all Sure Start Children's Centres, including Sure Start Local Programmes, and include both revenue and capital. Data for years prior to 2003-04 is not readily available at local authority level.

The capital funding included for the 2003-08 period is for the wider Sure Start, early years and child care agenda. It is for authorities to decide how much to allocate to children's centres.

Capital funding for Sure Start Local programmes was not allocated to specific years and is therefore shown under the 'non year specific' heading in the table.

Sure Start children's centres allocations (revenue and capital) £

	2003-04	2004-05	2005-06	2006-07	2007-08	Non year specific
City of London	0	0	0	143,695	205,638	0
Camden	3,515,999	5,032,556	5,249,206	6,908,564	7,864,073	5,335,699
Greenwich	3,082,275	5,958,168	6,146,133	7,770,627	8,774,260	3,735,804

Truancy

Mr. Duncan Smith: To ask the Secretary of State for Children, Schools and Families how many unauthorised absences there were from schools in the last year for which records are available. [179823]

Kevin Brennan: The latest available information relates to autumn term 2006 and spring term 2007, for primary schools 4,361,430 half days were missed due to unauthorised absence, for all secondary schools (including city technology colleges and academies) 10,973,640 half days were missed due to unauthorised absence.

The latest available rates for pupil absence are shown in the table.

Maintained primary and secondary schools, city technology colleges and academies[1], pupil absence by type of school, autumn term 2006 and spring term 2007, England

	Number of day pupils of compulsory school age[2]	Number of pupil enrolments[3,4]	Percentage of half days missed[5]			
			Authorised absence	Unauthorised absence	Overall absence	Overall absence autumn term 2005 and spring term 2006[6]
Maintained Primary Schools	3,306,940	3,428,390	4.73	0.52	5.26	n/a
Secondary Schools[7]	2,954,940	3,016,240	6.30	1.48	7.78	8.16
Total	6,261,870	6,444,630	5.47	0.97	6.44	n/a

n/a = Not available.

[1] Includes middle schools as deemed.

[2] The number of sessions missed due to authorised/unauthorised/overall absence expressed as a percentage of the total number of possible sessions.

[3] Pupil numbers are as at January 2007. Includes pupils aged five to 15 with sole and dual (main) registration. Excludes boarders.

[4] Number of pupil enrolments in schools between 1 September 2006 and 9 April 2007. Includes pupils on the school roll for at least one session who are aged between five and 15, excluding boarders. Some pupils may be counted more than once (if they moved schools during the school year or are registered in more than one school).

[5] There were some 32,498 cases from primary schools, 17,238 cases from maintained secondary schools, CTS and academies for whom absence data were missing. These cases have been excluded from the total number of pupil enrolments.

[6] The overall absence rate, including both authorised and unauthorised absence for autumn term 2005 and spring term 2006.

[7] Includes maintained secondary schools, city technology colleges and academies.

Note:
Totals may not appear to equal the sum of the component parts because numbers have been rounded to the nearest 10.

School Census.

Young Offenders: Custodial Treatment

Mr. Laws: To ask the Secretary of State for Justice what proportion of 16 year olds who had been in custody for more than one year was entered for GCSE examinations in each year since 2001; and what proportion of 16 year olds in custody gained five A* to Cs at GCSE in each of those years. [174267]

Beverley Hughes: Under the Offender Learning and Skills Service (OLASS), developed across England in August 2006, the Learning and Skills Council (LSC) recently began collecting data on GCSE achievements of young people in young offender institutions. LSC data shows that young people under-18 in young offender institutions achieved the following GCSEs from 1 April 2007 to September 30 2007:

Mathematics, 18 GCSE's at grades A* to C, and 91 below grade C.

English, 29 GCSEs at grades A* to C and 56 below grade C.

Other subjects, 307 GCSEs at grades A* to C and 162 below grade C.

The figures cannot be broken down by length of time in custody.

The achievements of young people in custody who are still registered at learning providers in the community will be attributed to the learning provider with which they are registered, rather than the custodial establishment's LSC provider. The figures for GCSE achievements of young people in secure children's homes or secure training centres are not collected centrally. Data is not collected centrally on how many young people are entered for GCSEs.

Youth in Action

Mr. Hayes: To ask the Secretary of State for Children, Schools and Families what elements of the Youth in Action programme are operating in the UK. [181086]

Beverley Hughes: The Youth in Action programme was adopted by the European Parliament and the Council of 15 November 2006. In common with all member states of the European Union, the programme was fully implemented in the UK on 1 January 2007 to run until 31 December 2013.

Youth Justice Board: Public Appointments

Dr. Vis: To ask the Secretary of State for Children, Schools and Families what the reasons are for the length of time taken to appoint a new chair of the Youth Justice Board; and if he will make a statement. [180286]

Beverley Hughes: The Secretary of State for Justice and the Secretary of State for Children, Schools and Families issued a written ministerial statement on Tuesday 15 January 2008 announcing the appointment of Frances Done CBE as chair of the Youth Justice Board for England and Wales. The appointment will be for three years from 1 February 2008 to 1 February 2011.

HEALTH

Accidents: Cycling

Mr. Boris Johnson: To ask the Secretary of State for Health how many hospital admissions in each primary care trust in Greater London there were of *(a)* cyclists and *(b)* cyclists under the age of (i) 11 and (ii) 16 years involved in a road accident in each year since 2000. [179345]

Mr. Bradshaw *[holding answer 15 January 2008]:* The information is not held in the format requested.

A table shows a count of finished admission episodes in each Primary Care Trust (PCT) of treatment in Greater London from 2000-01 to 2006-07 for cyclists injured in traffic accidents will be placed in the Library.

Please note that not all PCTs are recorded in the table. This is due to either the PCT not having any data, or the PCT not being recorded in an official count, and therefore being categorised as 'unknown'.

Alcoholic Drinks: Death

Andrew Rosindell: To ask the Secretary of State for Health how many people died as a result of alcohol-related illness within the Barking, Havering and Redbridge NHS Trust in 2007. [179625]

Dawn Primarolo: The information is not available in the format requested. However, the following tables show the male and female mortality rates per 100,000 population and the total number of deaths from alcohol specific and alcohol related conditions in 2005 for the three local authorities (LAs) of Barking and Dagenham, Havering and Redbridge.

	LA		
	Barking and Dagenham	*Havering*	*Redbridge*
Male mortality from alcohol specific conditions—directly standardised rate (DSR)* per 100,000 population	9.0442	6.4726	6.3169
Number of male deaths specifically due to alcohol	19	22	23
Female mortality from alcohol specific conditions—DSR per 100,000 population	3.8875	1.7104	1.4579
Number of female deaths specifically due to alcohol	8	7	5

Source:
Deaths from alcohol-specific conditions (all ages), directly standardised rate (DSR)* per 100,000 population, 2003-05. North West Public Health Observatory (NWPHO) from Office for National Statistics mortality data and mid-year population estimates.

	LA		
	Barking and Dagenham	*Havering*	*Redbridge*
Male mortality from alcohol attributable conditions—DSR* per 100,000 population	42.3608	33.2077	42.1731

	LA		
	Barking and Dagenham	Havering	Redbridge
Number of male deaths attributable to alcohol	33	44	53
Female mortality from alcohol attributable conditions—DSR per 100,000 population	19.3319	19.2518	18.5277
Number of female deaths attributable to alcohol	25	44	37

Source:
Deaths from alcohol-attributable conditions (all ages), directly standardised rate (DSR)* per 100,000 population, 2005. (NWPHO from Office for National Statistics mortality data and mid-year population estimates).

Alcoholic Drinks: Misuse

Bob Russell: To ask the Secretary of State for Health how many alcohol related emergency admissions to Colchester General Hospital there were in each year since 1997, broken down by *(a)* age and *(b)* sex. [180366]

Dawn Primarolo: Data is not available in the format requested. The following table shows the count of finished admission episodes (FAEs) for emergency admission by age at start of episode and gender for Essex Rivers National Health Service Trust, which operates from two sites, Colchester General and Essex County Hospitals.

		Under 18	18 and over	Unknown
2006-07	Female	21	226	—
	Male	22	421	1
2005-06	Female	16	209	—
	Male	14	454	3
2004-05	Female	11	128	—
	Male	13	306	3
2003-04	Female	13	93	—
	Male	10	272	1
2002-03	Female	7	70	—
	Male	10	237	—
2001-02	Female	*	86	—
	Male	*	166	1
2000-01	Female	*	81	—
	Male	6	158	—
1999-2000	Female	*	80	—
	Male	13	124	1
1998-99	Female	*	55	—
	Male	6	104	—

		Under 18	18 and over	Unknown
1997-98	Female	8	73	—
	Male	10	159	—

Notes:
Data Quality
HES are compiled from data sent by over 300 NHS trusts, and primary care trusts (PCTs) in England. Data is also received from a number of Independent sector organisations for activity commissioned by the English NHS. The Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. While this brings about improvement over time, some shortcomings remain.
FAEs
An FAE is the first period of in-patient care under one consultant within one healthcare provider. Admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
Admission method codes used
21 = Emergency: via Accident and Emergency (A&E) services, including the casualty department of the provider
22 = Emergency: via general practitioner (GP)
23 = Emergency: via Bed Bureau, including the Central Bureau
24 = Emergency: via consultant outpatient clinic
Assessing growth through time
HES figures are available from 1989-90 onwards. During the years that these records have been collected by the NHS there have been ongoing improvements in quality and coverage. These improvements in information submitted by the NHS have been particularly marked in the earlier years and need to be borne in mind when analysing time series.
Changes in NHS practice also need to be borne in mind when analysing time series. For example a number of procedures may now be undertaken in out-patient settings and may no longer be accounted in the HES data. This may account for any reductions in activity over time.
Low Numbers
Due to reasons of confidentiality, figures between 1 and 5 have been suppressed and replaced with '*' (an asterisk).
All Diagnoses count of Mentions
These figures represent a count of all mentions of a diagnosis in any of the 14 diagnosis fields in the HES data set. Therefore, if a diagnosis is mentioned in more than one diagnosis field during an episode, all diagnoses are counted.
Diagnosis codes used
F10—Mental and behavioural disorders due to use of alcohol
K70—Alcoholic liver disease
T51—Toxic effect of Alcohol
Ungrossed Data
Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).

Hospital Episode Statistics (HES), The Information Centre for health and social care.

Alcoholic Drinks: Tamworth

Mr. Jenkins: To ask the Secretary of State for Health how many alcohol related emergency admissions to hospitals in Tamworth constituency there were in each year since 1997, broken down by *(a)* age and *(b)* sex. [179393]

Dawn Primarolo: The count of finished admission episodes for alcohol related emergency admissions to hospitals in the former Burntwood, Lichfield and Tamworth Primary Care Trust (PCT) area in each year since 1997-98 for which data are available, broken down by age and sex, is shown in the following table.

	Age				
	Under 18		Over 18		
	Female	Male	Female	Male	Unknown
2006-07	8	12	95	175	—
2005-06	10	14	86	177	—
2004-05	*	9	90	159	—
2003-04	16	9	77	157	—
2002-03	11	7	69	113	*
2001-02	15	15	64	114	—
2000-01	9	7	55	122	—
1999-2000	13	6	73	162	*
1998-99	7	6	65	131	—
1997-98	15	11	74	145	—

Notes:
1. For reasons of confidentiality numbers between 1 and 5 have been suppressed and shown as "*"
2. Data quality
HES are compiled from data sent by over 300 national health service trusts, and primary care trusts (PCTs) in England. Data are also received from a number of independent sector organisations for activity commissioned by the English NHS. The Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. While this brings about improvement over time, some shortcomings remain.
3. Finished admission episodes (FAEs)
A FAE is the first period of in-patient care under one consultant within one healthcare provider. Admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
4. Admission method codes used:
21 = Emergency: via accident and emergency (A and E) services, including the casualty department of the provider
22 = Emergency: via general practitioner
23 = Emergency: via Bed Bureau, including the Central Bureau
24 = Emergency: via consultant out-patient clinic
28 = Emergency: other means, including patients who arrive via the A and E department of another healthcare provider
5. Assessing growth through time
HES figures are available from 1989-90 onwards. During the years that these records have been collected the NHS there have been ongoing improvements in quality and coverage. These improvements in information submitted by the NHS have been particularly marked in the earlier years and need to be borne in mind when analysing time series.
Changes in NHS practice also need to be borne in mind when analysing time series. For example a number of procedures may now be undertaken in out-patient settings and may no longer be accounted in the HES data. This may account for any reductions in activity over time.
6. All diagnoses count of mentions
These figures represent a count of all mentions of a diagnosis in any of the 14 diagnosis fields in the HES data set. Therefore, if a diagnosis is mentioned in more than one diagnosis field during an episode, all diagnoses are counted.
7. Diagnosis codes used:
F10 = Mental and behavioural disorders due to use of alcohol
K70 = Alcoholic liver disease
T51 = Toxic effect of Alcohol
8. Ungrossed data
Figures have not been adjusted for shortfalls in data (ie the data are ungrossed).

Hospital Episode Statistics (HES), the Information Centre for health and social care

Ambulance Services: Greater London

Sarah Teather: To ask the Secretary of State for Health how many ambulances have been in operation in each London borough in each year since 1997. [172373]

Mr. Bradshaw: This information requested is not held centrally.

However, we have been informed by the London Ambulance Service that there were a total of 410 ambulances and 11 response cars in the ambulance fleet in London in 1999, and 400 ambulances and 143 response cars in 2007. Information is only available for 1999 and 2007 and cannot be provided by individual London borough. These figures are for the total ambulance fleet and do not relate to the number of vehicles at any one time.

Antibiotics: Research

Dr. Kumar: To ask the Secretary of State for Health how many grants were awarded to UK universities for antibiotic-related research in each of the last five years. [179603]

Dawn Primarolo: In the five year period from 2002-03 to 2006-07 the Department's national research and development programmes funded some 21 awards to UK universities for antibiotic related research.

Implementation of the Department's research strategy Best Research for Best Health is resulting in an expansion of our research programmes and in significant new funding opportunities for health research. The Liverpool Biomedical Research Centre, formed last year, will for example undertake research on microbial diseases for which a five year centrally funded budget of some £11.7 million has been approved. The infection research themes being pursued by other biomedical research centres will also include research on antibiotics.

The Medical Research Council (MRC) is one of the main agencies through which the Government supports medical and clinical research. The MRC is an independent body that receives its grant-in-aid from the Department for Innovation, Universities and Skills.

The MRC awarded 15 grants and fellowships to universities for antibiotic related research in the five years from 2002-03.

Barnet Primary Care Trust: Hearing Aids

Mr. Dismore: To ask the Secretary of State for Health what the average waiting time was for a digital hearing aid in *(a)* Barnet Primary Care Trust and *(b)* at Edgware Hospital in the latest period for which figures are available; how many patients are waiting (i) for the fitting of an aid and (ii) for repairs; what steps are being taken to improve the service; and if he will make a statement. [179060]

Mr. Bradshaw: This information requested is not held centrally. The Department will collect referral-to-treatment data on direct access audiology—including the fitting of hearing aids—for the first time from April 2008.

The Department continues to work with the national health service to improve audiology services. A national audiology framework was published in March 2007, and the Department is working directly with the most challenged organisations.

Bridlington Hospital: Cleaning Services

Mr. Greg Knight: To ask the Secretary of State for Health pursuant to the answer of 5 December 2007, *Official Report*, column 1309W, on Bridlington hospital cleaning services, when the deep clean of the hospital will be completed; and what the expected cost is. [180887]

Ann Keen: All trusts were required to submit and agree their deep clean plans with primary care trusts in their area by 14 December 2007 and this process has been monitored and assessed by strategic health authorities (SHAs). I refer the hon. Member to the written ministerial statement given by the Secretary of State for Health, on 17 January 2008, *Official Report*, columns 38-39WS. Further information on the implementation of the deep clean of the national health service is available from SHAs. All deep cleans will be complete by the end of March 2008.

Cancer

Mark Simmonds: To ask the Secretary of State for Health (1) what funding has been allocated for the National Cancer Survivorship Initiative for each of the next three years; [180505]

(2) what funding has been allocated for the National Survey of Awareness of Cancer for each of the next three years; [180506]

(3) what funding has been allocated for the National Cancer Equality Initiative for each of the next three years; [180510]

(4) what funding has been allocated for the National Cancer Intelligence Network for each of the next three years. [180511]

Ann Keen *[holding answer 21 January 2008]:* The relevant Impact Assessment gives further details of the estimated costs and savings for the recommendations and initiatives announced in the Cancer Reform Strategy. A copy of the assessment has been placed in the Library. The total resources required to deliver the Strategy are being made available to the national health service through primacy care trust (PCT) allocations. General PCT allocations are not, however, broken down into specific budgets for individual initiatives.

These initiatives will also involve collaboration with many non-Departmental organisations and charities, in addition to the NHS, who provide an invaluable contribution over and above that funded through PCT allocations.

Chiropody: Tamworth

Mr. Jenkins: To ask the Secretary of State for Health what assessment he has made of the availability of NHS chiropody services for pensioners in Tamworth. [179498]

Dawn Primarolo: Information is not held centrally.

Departmental Accountancy

Mr. Hoban: To ask the Secretary of State for Health what items of his Department's *(a)* revenue and *(b)* expenditure are uprated using (i) the consumer prices index, (ii) the retail prices index and (iii) other measures of inflation. [179936]

Mr. Bradshaw: The levels of expenditure and income for the Department are set as part of the Comprehensive Spending Review.

For Business Planning purposes, the Department normally uses the relevant Gross Domestic Product Deflators as provided by HM Treasury to estimate the future pay bill. For non-pay costs and income, business managers are expected to use specialist/local knowledge and judgment to assess future costs and this may include reference to published indices on a case-by-case basis.

Departmental Assets

Mr. Lansley: To ask the Secretary of State for Health pursuant to paragraph 10, page 59 of his Department's resource accounts for 2006-07, if he will break down the £836,000 his Department lost on the disposal of fixed assets by asset disposed of. [178282]

Mr. Bradshaw: The loss on the disposal of fixed assets of £826,000 can be analysed as follows:

write-off of fixtures and fittings of £157,000 following the vacation of Eileen House and Hannibal House as part of the rationalisation of the Department's London office accommodation; and

following a management review of balance sheet valuations, 26 different software development projects, six information technology (IT) hardware projects, and six minor IT purchases with a total value of £669,000 were written-off.

Departmental Ministerial Policy Advisers

Mr. Hoban: To ask the Secretary of State for Health whether any of his Department's special advisers also work for organisations outside his Department. [178479]

Mr. Bradshaw: Special advisers are appointed under terms and conditions set out in the "Model Contract" and "Code of Conduct for Special Advisers", copies of which are available in the Library.

Departmental Recycling

Mr. Hayes: To ask the Secretary of State for Health what his Department's policy is on recycling. [174403]

Mr. Bradshaw: The Department has a policy to recycle as much of its waste as possible. In recent years our performance in this area has been substantially in excess of the Sustainable Development in Government, and Sustainable Operations on the Government Estate targets.

All our general waste is sent to a materials recycling facility, where it is segregated and sent for recycling. We also seek to reallocate or recycle as much of our redundant Information Technology kit and furniture as possible.

Drugs: Rehabilitation

Mr. Dismore: To ask the Secretary of State for Health what the participation rates of drug users in treatment programmes in Barnet are; what the performance of such programmes has been against targets in the last period for which figures are available; and if he will make a statement. [177979]

Mr. Bradshaw: Data taken from the national drug treatment monitoring system reports that 885 people from Barnet entered drug treatment in 2006-07. Barnet drug action team set a local delivery plan stretch target of 834 entering treatment in 2006-07, exceeding their target by 51.

Of the 885 people, 83 per cent. (734) successfully completed or were retained in treatment for 12 weeks or more, which exceeds Barnet's stretch target of 75 per cent.

A client will have been successfully treated if they have left a treatment plan drug free within 12 weeks, were referred onto aftercare e.g. supported housing; completed their own personal treatment plan within 12 weeks which would not necessarily mean drug free; as well as were retained in treatment for 12 weeks or over.

Drugs: Tamworth

Mr. Jenkins: To ask the Secretary of State for Health how many illicit drug-related emergency admissions to hospitals in Tamworth constituency there were in each year since 1997, broken down by *(a)* age and *(b)* sex. [179395]

Dawn Primarolo: The information requested is not centrally collected.

Drugs: Young People

Sarah Teather: To ask the Secretary of State for Health how many people under the age of 18 years have been treated for a drug-related illness in each London primary care trust in each of the previous five years. [178923]

Dawn Primarolo: Information on the number of people under the age of 18 treated for a drug-related illness in each London primary care trust in each of the previous five years, is not collected centrally.

Edgware Hospital

Mr. Dismore: To ask the Secretary of State for Health what plans he has to *(a)* expand and *(b)* improve services at Edgware Hospital as a consequence of the re-organisation of Barnet and Chase Farm Hospital NHS Trust; and if he will make a statement. [179011]

Mr. Bradshaw: The provision of services at Edgware Hospital is a matter for the local national health service.

However, we have been informed that Barnet Primary Care Trust (PCT) has recently developed a variety of services at Edgware Hospital which has helped to improve local access.

We have also been informed that the PCT will look to make further use of community hospital facilities in the light of the recent public consultation exercise on the future of acute services in Barnet, Enfield and Haringey.

Mr. Dismore: To ask the Secretary of State for Health what progress is being made with changes to the Dennis Scott Unit at Edgware Hospital. [179070]

Mr. Bradshaw: The provision of services at Edgware hospital is a matter for the local national health service.

However, we have been informed that Barnet, Enfield and Haringey Mental Health NHS Trust started the current refurbishment programme of the Dennis Scott Unit at Edgware hospital in 2007, and plans to have the works completed by 2009.

Edgware Hospital: NHS Treatment Centres

Mr. Dismore: To ask the Secretary of State for Health what progress is being made with plans for independent treatment services at Edgware hospital; and if he will make a statement. [178063]

Mr. Bradshaw: In terms of the national Phase 2 independent sector treatment centre procurement, Edgware Community hospital is being considered as a potential site—among a number of other sites—for service delivery through the London North scheme. Discussions on the scheme, including potential sites for service delivery, continue between the Department and the local national health service.

General Practitioners: Barnet

Mr. Dismore: To ask the Secretary of State for Health how many general practitioners *(a)* aged over 65 years and *(b)* aged over 70 years are in practice in Barnet; and if he will make a statement. [179020]

Mr. Bradshaw: The table shows the number of general practitioners aged over 60 years and 70 years in practice in Barnet.

All general medical practitioners (GMPs) (excluding retainers and registrars)[1] by specified age bands for selected area, as at 30 September 2006

549 *Barnet Primary Care Trust—2006*	*Number (headcount)*
All GMPs (excluding retainers and registrars)[1]	218
of which	
Over 65	9
Over 70	2

[1] GMPs (excluding retainers and registrars) includes GP providers and GP others.

Source

The Information Centre for health and social care General and Personal Medical Services Statistics

General Practitioners: Enfield

Joan Ryan: To ask the Secretary of State for Health how many patients were seen by GP services, excluding out of hours services in *(a)* Enfield and *(b)* Enfield North constituency in each of the last 10 years. [169690]

Mr. Bradshaw: The information requested is not held centrally.

General Practitioners: Staffordshire

Mr. Jenkins: To ask the Secretary of State for Health what steps he is taking to improve access to GP services in Staffordshire. [179495]

Mr. Bradshaw: North Staffordshire primary care trust (PCT) and South Staffordshire PCT will both be receiving additional investment from the £250 million access fund announced by the Secretary of State (Alan Johnson) on 10 October 2007 to procure a new general practitioner-led health centre each. These health centres, open 8 am to 8 pm seven days a week, will offer flexible appointments, walk-in and other services for either registered or non-registered patients.

Stoke PCT has been identified as one of the 25 per cent. of PCTs with poorest provision. Therefore they will receive new investment for new general practitioner (GP) practices and a health centre from the access fund.

In addition, the North Staffordshire Local Improvement Finance Trust (LIFT) project, which covers the areas of North Staffordshire and Stoke-on-Trent PCTs, is helping to improve access to GP services in that part of Staffordshire by developing modern, purpose-built primary care premises situated where patients can easily reach them. To date, four primary care centres have been opened under this LIFT project and two more are currently under construction.

Mr. Jenkins: To ask the Secretary of State for Health what the *(a)* average and *(b)* highest number of patients registered with a GP in Staffordshire was in (i) 1997 and (ii) the most recent period for which figures are available. [179496]

Mr. Bradshaw: The information is not available in the format requested. This is because the general practitioner (GP) census collects the number of patients who are registered to a practice rather than a specific GP, therefore while it is possible to calculate an average GP list size, it is not possible to ascertain individual GP list sizes.

Data on GP numbers and registered patients has been set out in the following table.

Number (headcount)

	1997	*2006*
Total Staffordshire[1]		
Total practices	200	184
GPs (excluding retainers and registrars)[2]	519	604
Registered patients	1,037,719	1,067,590
Average GP list size	1,999	1,768
Average practice list size[3]	5,189	5,802
Largest practice list size[3]	25,439	19,130

[1] Data presented for organisations in existence in the specified years covering Staffordshire.
[2] General medical practitioners (excluding retainers and registrars) includes GP providers and GP others. Data as at 1 October 1997, 30 September 2006.
[3] GP census collects the number of patients who are registered to a practice rather than a specific GP.

The Information Centre for health and social care General and Personal Medical Services Statistics.

Health Inequalities

Mr. Hoban: To ask the Secretary of State for Health what indicators his Department uses to measure health inequalities. [180440]

Dawn Primarolo: The headline measures of infant mortality and life expectancy at birth are used to measure progress on the health inequalities national public service agreement target.

The "difference in all age all cause mortality between the England average and the fifth of areas with the worst health and deprivation indicators" is also used as a proxy for the inequalities gap in life expectancy at birth.

In addition, the Department measures progress on 12 cross-government headline indicators for health inequalities, listed as follows:

death rates from the big killers—cancer and circulatory disease;
teenage conception rate;
road accident casualty rates in disadvantaged communities;
numbers of primary care professionals;
uptake of flu vaccinations;
smoking among manual groups and among pregnant women;
educational attainment;
consumption of fruit and vegetables;
proportion in non-decent housing;
physical education and school sport;
children in poverty; and
homeless families living in temporary accommodation.

Progress on the headline indicators is reported in the 'Tackling Health Inequalities: Status Report on the Programme for Action-2006 Update of Headline Indicators', a copy of the Report has been placed in the Library.

Health Services

Sandra Gidley: To ask the Secretary of State for Health how many times each member of his ministerial team has visited *(a)* an ambulance service trust, *(b)* a pharmacy, *(c)* a hospital ward and *(d)* an optician service since appointment. [166381]

Mr. Bradshaw: The Secretary of State (Alan Johnson) and other Ministers visit the full range of health and social care services, not all of which are captured in the following table.

The following table sets out how many times the Secretary of State and his ministerial team have visited an ambulance services trust, a pharmacy, a hospital ward and an optician service. This covers the period 28 June to 20 November 2007.

Health Minister	*Ambulance trust*	*Pharmacy*	*Hospital ward*	*Optician*
Secretary of State	1	1	13	0
Parliamentary Under-Secretary of State (Ann Keen)	0	1	7	1
Minister of State (Mr. Bradshaw)	1	2	13	0

Health Minister	Ambulance trust	Pharmacy	Hospital ward	Optician
Minister of State (Dawn Primarolo)	0	1	0	0
Parliamentary Under-Secretary of State (Lord Darzi)	0	0	12	0
Parliamentary Under-Secretary of State (Mr. Ivan Lewis)	0	0	2	0
Total	2	4	39	1

Health Services: Foreigners

Mr. Dismore: To ask the Secretary of State for Health how many foreign national patients were treated at *(a)* Barnet and Chase Farm, *(b)* Royal Free and *(c)* Northwick Park hospitals; how many such patients at each hospital were expected to pay for their treatment; how many have paid; how much has been paid in (i) each of the last two years and (ii) 2007-08 to date; and if he will make a statement. [179092]

Mr. Bradshaw: This information requested is not held centrally.

Anyone who is not ordinarily resident in the United Kingdom is considered an overseas visitor and is subject to the "National Health Service (Charges to Overseas Visitors) Regulations 1989", as amended. These regulations place a responsibility on NHS hospitals to establish whether a person is ordinarily resident, or exempt from charges under one of a number of exemption categories, or liable for charges.

Health Services: Life Check Programme

Mr. Lansley: To ask the Secretary of State for Health (1) what services will be available to patients under his Department's life check programme; [178263]

(2) how much has been spent on his Department's life check programme; [178264]

(3) when he expects to make the life check programme available on a national basis; [178326]

(4) how many people have received check-ups under his Department's life check pilots; [178327]

(5) in which pilot areas the mid-life NHS life check will initially be introduced; [179118]

(6) what progress he has made in evaluating and developing the early years, adolescent and mid-life NHS life check. [179127]

Dawn Primarolo: The national health service LifeCheck programme is based on a commitment in the 'Our Health, Our Care, Our Say' White Paper and three LifeChecks for teenagers, early years and mid-life are currently under development.

Using a straightforward questionnaire approach, the LifeChecks will assess current lifestyle behaviour, provide information on what to change, how to change and assist users in setting behaviour change goals. The LifeChecks will provide information about local services and a way of sharing the results of the questionnaire with health professionals. They will initially be available through the NHS Choices website.

More than £2 million has been spent on the national health service LifeCheck programme so far. This was for staffing costs, research, development, web site hosting, piloting and evaluation.

During the successful piloting of the TeenLifeCheck more than 17,000 persons have taken part and TeenLifeCheck is currently being revised to take account of the findings. This is expected to be ready for national roll out in 2008.

The Early Years LifeCheck is currently being readied for a two-month pilot. Subject to the findings of the pilot, we would anticipate that the tool would be readied for national roll out in 2008.

Development plans for the new Mid-life LifeCheck are currently being assessed in order to complement the Prime Minister's vision for the NHS. This includes interfacing with and adding value to the new preventative health check-ups. Further plans will be announced in due course.

Health Trainers

Mark Simmonds: To ask the Secretary of State for Health which primary care trusts *(a)* run a health trainers scheme and *(b)* plan to fund a scheme in 2008-09. [180684]

Dawn Primarolo *[holding answer 21 January 2008]*: The following table provides information on the primary care trusts (PCTs) that run a Health Trainer Scheme.

PCT	Programme in place
Derbyshire County	Yes

[1] PCT has advised programme is in place, but Health Trainer Scheme is not yet fully operational.
[2] information not currently held centrally by the Department.

Notes
1. Not all are directly employed by the NHS locally(breakdown not collected centrally)
2. Not all are funded solely by the NHS eg joint funding with local authority (breakdown not collected centrally)
3. Health Trainers in HM Prisons have been included

Source
The Health Trainer National Implementation Team

It is not possible at this stage of the planning process to identify those PCTs that are planning to fund Health Trainer Schemes in 2008-09. Individual PCTs will be in the process of making decisions about where they allocate resources including how many health trainers they will need to meet the needs of their local population.

Healthcare Associated Infections Improvement Team

Mr. Lansley: To ask the Secretary of State for Health what the budget for his Department's Healthcare Associated Infections Improvement Team was in each of the last five financial years for which figures are available. [179123]

Mr. Bradshaw: The budget for the healthcare associated infections improvement team is set out in the following table. The team was established as part of the Department's methicillin resistant *Staphylococcus aureus* (MRSA)/cleaner hospitals programme team in 2005, though it has only had a dedicated budget for the last two years. This is because, in its first year, the improvement team was an integral function of the broader MRSA cleaner hospitals programme team, which funded improvement activity as part of its generic role.

	Budget (£)
2005-06	[1]1,295,000
2006-07	2,780,000
2007-08	3,737,300

[1] This figure relates to the Department's budget allocation to the MRSA/Cleaner Hospitals Programme Team as a whole.

Mr. Lansley: To ask the Secretary of State for Health how many staff were employed in his Department's Healthcare Associated Infections Improvement Team in each of the last five financial years for which figures are available, broken down by payband. [179125]

Mr. Bradshaw: The number of staff employed in the Department's healthcare associated infections improvement team is set out in the following table. In the improvement team's first two years, (between 2005-07), it was comprised entirely of staff seconded from national health service trusts, the NHS Business Services Authority and consultants. As such, departmental pay bands were not applicable. Last year, the team included one member of staff on the Department's 'fast stream' pay band.

	Staff employed in the healthcare associated infections improvement team
2005-06	34
2006-07	54
2007-08	124

HealthSpace

Mr. Lansley: To ask the Secretary of State for Health what resources he plans to commit from central budgets to support the implementation of HealthSpace. [179128]

Mr. Bradshaw: Central spending in 2007-08 on the HealthSpace project is expected to total some £2.605 million. Current expenditure planning assumes this figure will rise to more than double that amount in 2008-09. These sums represent the cost of the staff and technical support required to continue implementation and further development of the project by NHS Connecting for Health.

Heart Diseases: South Lakeland and Westmorland Hospital

Tim Farron: To ask the Secretary of State for Health (1) how many times thrombylitic drugs have been administered by ambulance staff in South Lakeland in each of the last five years; [180583]

(2) how many times thrombylitic drugs have been administered by staff at the coronary care unit at the Westmorland General Hospital in each of the last five years. [180585]

Ann Keen *[holding answer 21 January 2008]:* Data for patients treated with thrombolysis drugs at Westmorland General Hospital has been set out as follows:

	Number
2003-04	42
2004-05	25
2005-06	22
2006-07	22
2007-08 (to end September 2007)	18

Source:
Department of Health Myocardial Infarction National Audit Project

Information on the number of times thrombolytic drugs have been issued by ambulance staff in South Lakeland is not held centrally. This data can instead be obtained from the North West Ambulance Service Trust.

Hospitals: Cleaning Services

Mr. Hoban: To ask the Secretary of State for Health (1) how many hospitals in England have completed a deep clean since 23 September 2007; [180251]

(2) on what date prior to 14 December 2007 the deep cleaning plan by Peterborough and Stamford hospitals Foundation NHS Trust was submitted to the East of England strategic health authority; [180415]

(3) when the Alfred Bean hospital in Driffield will receive its deep clean. [180276]

Ann Keen *[holding answer 21 January 2008]:* All trusts were required to submit and agree their deep clean plans with primary care trusts in their area by 14 December 2007 and this process has been monitored and assessed by strategic health authorities (SHAs). I refer the hon. Members to the written ministerial statement given by the Secretary of State for Health on 17 January 2008, *Official Report*, columns 38-39WS. Further information on the implementation of the deep clean of the national health service is available from SHAs. All deep cleans will be complete by the end of March 2008.

Hospitals: Complaints

Mr. Dismore: To ask the Secretary of State for Health how many complaints were *(a)* made and *(b)* upheld (i) at local level and (ii) by the Health Service Commissioner arising from (A) Barnet and Chase Farm Hospital, (B) Royal Free Hospital, (C) Northwick Park Hospital and (D) Barnet Primary Care Trust for (1) each of the last two years and (2) 2007-08 to date; and if he will make a statement. [179058]

Mr. Bradshaw: The information is not collected in the format requested. The following table shows the number of written complaints about hospital and community services for 2004-05, 2005-06 and 2006-07 for Barnet Primary Care Trust (PCT), Royal Free Hampstead NHS Trust, North West London Hospitals NHS Trust and Barnet and Chase Farm Hospitals NHS Trust. Information regarding the NHS Ombudsman is not collected centrally.

		Local resolution[1]		
	Total[2] *complaints*	*Concluded within target*	*Concluded outside target*	*Still being pursued*
2004-05				
Barnet PCT	82	76	6	-
Royal Free NHS Trust	791	462	230	99
North West London Hospitals NHS Trust[3]	900	509	311	80
Barnet and Chase Farm Hospitals NHS Trust	403	262	138	3
2005-06				
Barnet PCT	76	63	13	-
Royal Free Hampstead NHS Trust	839	421	336	82
North West London Hospitals NHS Trust[3]	869	265	567	37
Barnet and Chase Farm Hospitals NHS Trust	417	268	146	3
2006-07				
Barnet PCT	68	63	5	-
Royal Free Hampstead NHS Trust	775	392	255	128
North West London Hospitals NHS Trust[3]	753	482	263	8
Barnet and Chase Farm Hospitals NHS Trust	296	206	90	-

[1] Up to 2005-06 Hospital and Community Health Services complaints were collected where the local resolution action time limit was 20 working days. In 2006-07 there was a change to the resolution time limit. From 1 April 2006 to 31 August 2006 complaints were collected where the local resolution action time limit was 20 working days and from 1 September 2006 to 31 March 2007 complaints were collected where the local resolution action time limit was 25 working days.
[2] Denotes zero.
[3] North West London Hospitals NHS Trust includes Northwick Park Hospital.

Note:
Data collected at trust level only.

Hospitals: Discharges

Mr. Burstow: To ask the Secretary of State for Health how many *(a)* delayed discharges and *(b)* emergency readmissions there were in each quarter from January 2002 to the most recent date for which figures are available; and if he will make a statement. [178416]

Mr. Bradshaw: Currently, the best estimates of re-admission rates are those released by the National Centre for Health Outcomes Development (NCHOD). These estimates are derived from hospital episode statistics (HES) data and are published in full on the NCHOD website at www.nchod.nhs.uk, a relevant extract shows the available information. There are eight years data from 1998-99 to 2005-06 at primary care trust (PCT) level and trust level, for the age groups 0-15; 16-74 and 75 and over. The data is presented both in raw form and also standardised for changes in age, sex, method of admission and case type and exclude discharges for those coded as death, day cases, maternity spells, mental health specialties and those with a mention of cancer or chemotherapy for cancer anywhere in the spell. Full definitions are on the NCHOD website.

Other analyses from this source, including quarterly data, could be produced only at disproportionate cost.

75+	13.55	12.97	12.13	11.54	11.08	10.91	10.64	10.31

Notes:

1. Numerator data

The number of finished and unfinished continuous inpatient (CIP) spells that are emergency admissions within 0-27 days (inclusive) of the last, previous discharge from hospital (see denominator), including those where the patient dies, but excluding the following: those with a main specialty upon readmission coded under mental health specialties; and those where the readmitting spell has a diagnosis of cancer (other than benign or in situ) or chemotherapy for cancer coded anywhere in the spell.

The date of the last, previous discharge from hospital, and the date and method of admission from the following CIP spell, are used to determine the interval between discharge and emergency readmission.

The numerator is based on a pair of spells, the discharge spell and the next subsequent readmission spell (this spell must meet the numerator criteria). The selection process thus carries over the characteristics of the denominator for the discharge spell and applies additional ones to the readmission spell.

The following fields and values are used for the numerator. The numerator is the number of denominator CIP spells where: Diagnosis of cancer is not coded in any position in the readmission spell; AND the first episode in readmission CIP spell ADMIDATE minus last episode in admission CIP spell DISDATE < 27 days inclusive (discharge date and admission date, includes negatives); AND the first episode in the readmission CIP spell has: ADMIMETH = 21, 22, 23, 24 or 28 (admission method); AND DIAG_01 does not begin with 'O' (primary diagnosis) AND MAINSPEF not 700-715, 501, 560, 610 (main specialty).

Fields used from the first episode in a spell where there is a valid organisation of residence code include: SPELLRESPCTC, SPELLRESLADSTC, SPELLRESSTHAC. Other organisational levels (E, GOR, ONS Areas, Counties) are aggregates of the SPELLRESLADSTC field. Fields used from the last episode in a spell include: PROCODETC (provider code, unmapped). Provider clusters are aggregates of the PROCODETC field.

Counts are by: age/sex/method of admission of discharge spell/diagnosis (ICD 10 chapter/selected sub-chapters within medical specialties) and procedure (OPCS 4 chapter/selected sub-chapters within surgical specialties)/organisation of residence in CIP spell (values for England are aggregates of these) where: age bands for the respective age specific indicators are: <1, 1-4, 5-9,10-15,16-64, 65-74, 75-84, 85+; 16-64, 65-74, 75-84, 85+; sex is 1, 2 (male and female); admission method is elective or non-elective; diagnosis (within medical specialties); procedure (within surgical specialties).

HES for CIP spells intersecting the respective financial year, plus those up to 28 days in the next financial year, England. The Information Centre for health and social care. Individual finished consultant episodes are linked to other episodes where all are part of one continuous spell of care for a patient (see CIP spell construction sections in Annex 4 (Methods section of the Clinical and Health Outcomes Knowledge Base www.nchod.nhs.uk) for details). A spell may contain HES data from another year only when one of its episodes spans years. For example, a spell which finished during April may contain admission information from an episode which started during the previous March.

The numerator (readmissions) consists of CIP spells (see denominator) that include both finished and unfinished (i.e. finished episodes from following years) episodes i.e. readmissions can be finished and unfinished CIP spells. Where there is more than one readmission within 28 days, each readmission is counted once, in relation to the previous discharge.

Readmissions that end in death are included in the numerator.

Patients within the mental health and maternity specialties as well as those with a diagnosis of cancer have been excluded because emergency readmission is often considered a necessary part of care.

Spells are attributed to the organisation of residence, based on the numerator.

The indicator includes discharges occurring after transfer to another Trust. Discharges are counted to the first valid organisation coded in the spell for residence based aggregates, and to the discharging trust for trust based aggregates.

There is variation in the completeness of hospital records and quality of coding.

2. Denominator data

The number of finished CIP spells within selected medical and surgical specialties, with a discharge date up to 31 March within the year of analysis. Day cases, spells with a discharge coded as death, maternity spells (based on specialty, episode type, diagnosis), and those with mention of a diagnosis of cancer or chemotherapy for cancer anywhere in the spell are excluded. Patients with mention of a diagnosis of cancer or chemotherapy for cancer anywhere in the financial year, or the last quarter of the previous financial year are excluded. Mental health specialties are also excluded.

The following fields and values are used for the denominator. The first episode in the CIP spell has: ADMIMETH = 11, 12, 13, 21, 22, 23, 24, 28, 31, 32, 81, 82, 83, 84 or 89 (admission method); AND EPITYPE = 1 (episode type); AND CLASSPAT = 1 (patient classification); AND AGE = 0-15 or 7001-7007 (Ind_4D), 16-74 (Ind_4A), 75+ (Ind_4D); AND DOB not 01/01/1900 or 01/01/1901 (date of birth); AND SEX = 1 or 2 (sex); AND EPIORDER = 1 (episode order); AND EPISTART is valid (episode start date); AND DIAG_01 does not begin with 'O' (primary diagnosis); AND the last episode in the CIP spell has: DISDATE is valid and < 04/03/YYYY+1 (discharge date); AND EPITYPE = 1 (episode type); AND MAINSPEF not 700-715, 501, 560, 610 (main specialty); AND DISMETH = 1, 2 or 3 (discharge method).

Spells with any mention of a diagnosis of cancer (ICD10 codes C00-C97, D37-D48) or chemotherapy for cancer (ICD10 code Z51.1) are also excluded from the denominator, as are patients with mention of a diagnosis of cancer or chemotherapy for cancer anywhere in the financial year, or the last quarter of the previous financial year.

Additionally, the following exclusions are applied (main specialty, first valid procedure and primary diagnosis): AND (episode where the first valid procedure took place MAINSPEF = 100, 101, 110, 120, 130, 140, 141, 142, 143, 150, 160, 170, 180 or 502 AND first valid procedure is not NULL) OR (first episode in CIP spell MAINSPEF 100, 101, 110, 120, 130, 140, 141, 142, 143, 150, 160, 170, 180 or 502 OR (first episode in CIP spell MAINSPEF = 190, 191, 300, 301, 302, 303, 304, 305, 310, 311, 312, 313, 314, 315, 320, 330, 340, 350, 360, 361, 370, 371, 400, 401, 410, 420, 421, 430, 450, 460, 800, 810 or 823 and first episode in CIP spell DIAG_01 is not NULL)).

There is an additional 3 step piece of logic which is designed to ensure that the spells are allocated to the most appropriate group for standardisation.

Step A) Look for spells where there is a valid procedure and surgical specialty (taken from the episode where the procedure was found).

Step B) Excluding spells selected in step A, select spells where main specialty in the first episode is surgical, these spells are standardised under the 'no procedures' basket.

Step C) Excluding those spells selected in step A and step B, select spells where main specialty of the first episode is medical.

Those spells selected in A) are standardised by procedure subgroup. Note that procedures beginning with 'Y' or 'Z' are standardised in the 'no procedure' basket.

Those spells selected in C) are standardised by diagnosis subgroup.

Lists of specialties and sub-groups used for filtering/standardisation:

Medical Specialties: '190', '191', '300', '301', '302', '303', '304', '305', '310', '311', '312', '313', '314', '315', '320', '330', '340', '350', '360', '361', '370', '371', '400', '401', '410', '420', '421', '430', '450', '460', '800', '810' '823'. Surgical Specialties: '100', '101', '110', '120', '130', '140', '141', '142', '143', '150', '160', '170', '180', '502'.

Fields used from the first episode in a spell where there is a valid organisation of residence code include: SPELLRESPCTC, SPELLRESLADSTC, SPELLRESSTHAC. Other organisational levels (E, GOR, ONS Areas, Counties) are aggregates of the SPELLRESLADSTC field.

Fields used from the last episode in a spell include: PROCODETC (provider code, unmapped). Provider clusters are aggregates of the PROCODETC field. Counts are by: age/sex/method of admission of discharge spell/diagnosis (ICD 10 chapter/selected sub-chapters within medical specialties) and procedure (OPCS 4 chapter/selected sub-chapters within surgical specialties)/organisation of residence in CIP spell (values for England are aggregates of these).

Where age bands for the respective age specific indicators are: <1, 1-4, 5-9, 10-15, 16-64, 65-74, 75-84, 85+; 16-64, 65-74, 75-84, 85+; sex is 1, 2 (male and female); admission method is elective or non-elective; diagnosis (within medical specialties).

HES for CIP spells intersecting the respective financial year, England. The Information Centre for health and social care.

There is variation in the completeness of hospital records and quality of coding (see Data Quality sections in Annex 4 (Methods section of the Clinical and Health Outcomes Knowledge Base www.nchod.nhs.uk) for details). Quality of coding shows the proportion of diagnoses not coded. There may also be variation between hospitals in the way that they code diagnoses to the fourteen diagnosis fields in each episode, particularly primary diagnosis. For instance, they may code in the order in which the diagnoses were made, or according to their perceived importance or complexity. This may affect the group/subgroup within which a particular spell is selected for standardisation in this indicator. Similarly, there may be variation in which procedure is coded to the first position.

The denominator consists of CIP spells that cover all continuous, consultant episodes for the same patient, including those following a transfer to another hospital. Denominator CIP spells must start with an admission episode and finish with a (live) discharge episode in the year of analysis.
CIP spells with a discharge code of death are excluded from the denominator because readmission is not possible.
3. Statistical Methods
The indicator is indirectly standardised by age, sex, method of admission and diagnosis/procedure. The person-based rate is standardised by using England age, sex, method of admission and diagnosis/procedure rates as standards. We defined the diagnosis and procedure groups for standardisation at ICD10/OPCS 4 coding chapter, sub-chapter or 3 digit level where the readmission rate was significantly different from that of the next higher level in two consecutive financial years and there were at least 50 discharges in each year.
4. Interpretation of indicator
Type of indicator—This is a generic, cross-sectional annual comparative indicator of outcome. In the absence of an absolute standard, comparative data are useful for monitoring in relation to rates achieved in comparable organisations.
Effect of case-mix/severity—A number of factors outside the control of hospitals, such as the socio-economic mix of local populations and events prior to hospitalisation, may contribute to the variation shown by the indicators. Differences in case-mix, severity of illness, comorbidities and other potential risk factors also contribute to the variation. The data available do not allow adjustment for any of these factors. This may pose less of a constraint at geographical organisation level than at hospital level. We have tried to deal with this constraint by presenting the data in clusters that are similar with respect to institution or organisation type. An attempt has also been made to take into account differences between organisations in the mix of diagnoses within medical specialties and procedures within surgical specialties. No attempt has been made to assess whether the readmission was linked to the discharge in terms of diagnosis. A patient discharged after an operation may be readmitted into a community hospital with a wound or chest infection. There are many different possibilities and over-specifying may lead to readmissions being missed. Gender-specific data standardised to person rates are available. Analyses at England level by the Index of Multiple Deprivation are presented. Other potential confounding factors—A continuous inpatient spell may include transfers to other hospitals, e.g. for rehabilitation. The patterns of providing care may vary between NHS hospital trusts in terms of whether patients are transferred elsewhere before final discharge. Planned transfers, for example for rehabilitation, may affect discharge destination figures and readmission rates.
Variation between hospitals in average length of stay may lead to variation between hospitals in the proportion of complications occurring in hospital, as opposed to in the community after discharge from hospital. Readmissions may reflect self-discharge against medical advice, and levels of primary care and community resources available to manage care outside hospital. Readmissions may not be linked clinically to the previous spell and may be appropriate for the clinical care of the patient. There may be variation between Trusts in the way emergency admissions are coded. Routine data do not allow for all of these aspects to be identified and removed from the indicator, however, this may be done through local audit.

Hospitals: Waiting Lists

Mr. Lansley: To ask the Secretary of State for Health what percentage of patients on out-patient waiting lists were seen within 13 weeks in each year since 1990-91 until 2006-07, as given by *(a)* Korner and *(b)* the Hospital Episodes Statistics data. [174780]

Mr. Bradshaw: The percentage of patients who were seen within 13 weeks, in each year since 1993-94 are outlined in the following table. Waiting times for out-patient appointments were not collected prior to 1994. Out-patient Hospital Episode Statistics (HES) Data were collected for the first time in 2003-04.

It should be noted that Korner data measures the numbers still waiting at the end of a period, while HES measures the time waited for patients admitted during a year. HES figures do not take into account any adjustments for patient cancellations or did not attends.

Percentage of general practitioner referrals for first consultant led out-patient appointment seen within 13 weeks

	Percentage of patients seen in under 13 weeks	
Financial year	*Korner*	*HES*
1993-04	81.8	n/a
1994-05	82.6	n/a
1995-06	83.4	n/a
1996-07	83.7	n/a
1997-08	81.8	n/a
1998-09	78.9	n/a
1999-2000	75.3	n/a
2000-01	76.2	n/a
2001-02	77.0	n/a
2002-03	77.6	n/a
2003-04	80.2	n/a
2004-05	83.4	n/a
2005-06	90.9	81.6
2006-07	98.1	89.3
2007-08 (to date)	99.7	n/a

Mr. Lansley: To ask the Secretary of State for Health what percentage of patients on in-patient waiting lists were seen within six months in each year from 1990-91 until 2006-07, as given by *(a)* the Hospital Episodes Statistics database and *(b)* Korner data. [174781]

Mr. Bradshaw: The figures are shown in the following tables.

It should be noted that Korner data measures the numbers still waiting at the end of a period, while Hospital Episode Statistics (HES) measures the time waited for patients admitted during a year. HES figures do not take into account periods of suspension for medical and social reasons.

Percentage of waits under six months, 1990 to 2007—Official waiting times data (Korner)

Month end March:	*Percentage on list who were waiting under 6 months*
1990[1]	58
1991[1]	61
1992[1]	70
1993[1]	72
1994	71
1995	76
1996	80
1997	75
1998	70
1999	74
2000	74
2001	76
2002	77
2003	81
2004	91
2005	95
2006	100
2007[2]	100

[1] All Korner figures from 1994 onwards are commissioner based.
[2] From April 2006, data collected in weeks, and therefore figures for March 2007 reflect waits under 26 weeks.

Department of Health, QF01, KH07 returns HES, Information Centre for health and social care

Incinerators: Health Hazards

Mr. Pickles: To ask the Secretary of State for Health what research *(a)* his Department and *(b)* the Health Protection Agency has undertaken on the health effects of the burning of household waste inside the curtilage of domestic dwellings. [176375]

Dawn Primarolo: Neither the Department nor the Health Protection Agency has undertaken specific research into burning of household waste inside the curtilage of domestic dwellings.

The Department for Environment Food and Rural Affairs (DEFRA) have policy lead in this area and has carried out research into emissions of dioxins from the burning of domestic waste in 2006.

Further work in estimating dioxin emissions from domestic burning is currently being undertaken by DEFRA. Results from the ongoing work will be due some time this year.

Influenza

Mr. Lansley: To ask the Secretary of State for Health what the evidential basis is for his statement on page 33 of his Department's National Framework for responding to an influenza pandemic, that near-normal service levels are expected in the food and supplies industries in the event of an influenza pandemic. [175036]

Jonathan Shaw: I have been asked to reply.

DEFRA meets the food industry sector regularly to promote business continuity management, including how best to deal with the possibility of an influenza pandemic. The sector has robust and resilient business continuity plans to deal with any threat of disruption. Plans were tested earlier this year in a cross-Government pandemic flu exercise, in which the food industry participated.

Influenza: Vaccination

Mr. Jenkins: To ask the Secretary of State for Health which region in England experienced the *(a)* highest and *(b)* lowest number of influenza vaccinations administered in each winter since 1999-2000. [179497]

Dawn Primarolo: The data on influenza vaccination uptake has been provided by region since 2000, to date, for those aged 65 years and over. Data for those aged 65 years in clinical risk groups has only been collected since 2005-06 and is also provided. This information is shown in the following tables.

Vaccination uptake by region (England only) for each winter season since 1999-2000

'65 years and over

Survey year	Region	Vaccine uptake (Percentage) Low	High
2000-01	London region	60	
	Trent region		68
2001-02	North West London Health Authority	62	
	North and East Yorkshire and Northern Lincolnshire Health Authority		70
2002-03	South East London Strategic Health Authority (SHA)	58	
	North and East Yorkshire and Northern Lincolnshire SHA		72
2003-04	South East London SHA	61	
	Trent SHA		73
2004-05	South East London SHA	62	
	North and East Yorkshire and Northern Lincolnshire SHA		74
2005-06	South East London SHA	69	
	Thames Valley SHA		78
2006-07	London SHA	70	
	North East SHA		76

Under 65 years and at risk[1]

Survey year	SHA	Vaccine uptake (Percentage) Low	High
2005-06	County Durham and Tees Valley SHA		59
	Cheshire and Merseyside SHA	42	
2006-07	South West SHA	40	
	Yorkshire and the Humber SHA		45

[1] Data for individuals aged under 65 years and in a risk group has only been collated since the 2005-06 season and therefore unavailable in previous years.
Note:
Uptake figures based on GP practices returning data to the survey and reflect vaccine uptake for individuals vaccinated at these premises.

Health Protection Informatics web-based reporting site
Influenza Immunisation Uptake Monitoring Programme Health Protection Agency/Department of Health.

King's Fund: Finance

Mr. Lansley: To ask the Secretary of State for Health how much funding was provided to the King's Fund from *(a)* his Department's budget and *(b)* the NHS budget in the last financial year. [179119]

Mr. Bradshaw: The Department of Health's central funding provided £297,000 to the King's Fund in the last financial year. Information on the national health service budget is not held centrally.

Macugen

Mr. MacDougall: To ask the Secretary of State for Health when Macugen will become available on the NHS as a treatment for macular degeneration. [180148]

Dawn Primarolo: The National Institute for Health and Clinical Excellence (NICE) has published a second appraisal consultation document (ACD) on Lucentis (ranibizumab) and Macugen (pegaptanib) for the treatment of wet age-related macular degeneration. Stakeholders had until 14 January 2008 to provide comments on the ACD and these comments will be considered by NICE'S Appraisal Committee before the guidance is finalised. NICE expects to publish its final guidance later in 2008. Further detailed information on this appraisal is available on NICE'S website at:

http://guidance.nice.org.uk/page.aspx?o=207024

Funding for licensed treatments should not be withheld just because guidance from NICE is unavailable. In December 2006, we issued refreshed good practice guidance which asks national health service bodies to continue with local arrangements for the managed introduction of new technologies where guidance from NICE is not available at the time the treatment or technology first becomes available.

Magnetic Resonance Imagers: Eastern Region

Mr. Stewart Jackson: To ask the Secretary of State for Health how many MRI scanners were in use in each NHS trust in the Eastern Region in each year since 2001; and if he will make a statement. [180859]

Ann Keen *[holding answer 21 January 2008]:* The Health Protection Agency hold the data on the number and locations for MRI scanners provided to national health service organisations, and has advised that in the East of England strategic health authority area 31 MRI scanners have been installed. Information as to which scanners are in use at any given time is not available as machines may be taken out of service for maintenance or research purposes as required. The figure quoted also does not take into account any scanners which may have been purchased by individual trust or that may have been donated.

Maternity Services: Barnet

Mr. Dismore: To ask the Secretary of State for Health what plans he has to improve maternity services for Barnet residents; and if he will make a statement. [177984]

Mr. Bradshaw: The provision of maternity services is a matter for the local national health service. However, I am informed that as part of the Barnet, Enfield and Haringey Clinical Strategy, which aims to improve local health services, the boards of Barnet, Enfield and Haringey primary care trusts (PCTs), agreed on 11 December to move Obstetrician-led maternity services from Chase Farm hospital to Barnet and North Middlesex hospitals.

This decision was taken on condition that changes to maternity services will only take place once the PCTs are satisfied that there is sufficient capacity at Barnet hospital and North Middlesex University hospital.

Medicine: Research

Dr. Kumar: To ask the Secretary of State for Health how much funding was allocated to medical research in each of the last five years. [179602]

Dawn Primarolo: Government funding for medical research is provided through the Department's national health service research and development budget and the Medical Research Council (MRC). The amounts allocated in each of the last five years are shown in the table.

£ million

	MRC[1]	*NHS Research and Development*
2003-04	430	533
2004-05	458	601
2005-06	481	617
2006-07	504	659
2007-08	552	730

[1] The MRC is an independent body that receives its grant-in-aid from the Department of Innovation, Universities and Skills.

NHS: Conditions of Employment

Mr. Dismore: To ask the Secretary of State for Health what steps have been taken to make work more family-friendly for NHS staff in the *(a)* Barnet Chase Farm hospital, *(b)* Royal Free hospital and *(c)* Barnet primary care trust; and if he will make a statement. [177895]

Mr. Bradshaw: This is a matter for the local national health service.

However, we have been informed that Barnet and Chase Farm hospitals NHS trust, the Royal Free Hampstead NHS trust and Barnet primary care trust (PCT) have a range of initiatives in place to help staff achieve a healthy work life balance. For example, Barnet and Chase Farm hospitals national health service trust and Barnet PCT provide crèches for their staff, with Barnet PCT also having a flexible working policy in place. At the Royal Free Hampstead NHS trust there is a 72-place staff day nursery for children aged six months to four years, and a working families advisor whose role is to help parents and other staff who have carer responsibilities to access services and organise their work patterns to cope.

NHS: Fees and Charges

Mr. Chope: To ask the Secretary of State for Health pursuant to the answer of 18 December 2007, *Official Report*, column 723, if he will place in the Library a copy of the relevant part of each code of practice in which co-payment is ruled out. [181133]

Mr. Bradshaw: The relevant guidance are as follows:

Code of Conduct for Private Practice: Recommended Standards of Practice for NHS Consultants (2004), in particular paragraph 2.13;

The Code of Conduct for Private Practice - Guidance for NHS Medical Staff (2003), in particular paragraphs 3.22-3.23; and

Management of Private Practice in Health Service hospitals in England and Wales (1986), in particular paragraphs 22-27.

It is for national health service organisations to form policy in line with this guidance.

Copies of the codes have been placed in the Library.

NHS: Finance

Mr. Lansley: To ask the Secretary of State for Health how much of the baseline cost pressure on the NHS in (*a*) cash terms and (*b*) percentage terms resulted from increases in private finance initiative revenue costs in each financial year from 2008-09 to 2010-11. [163370]

Mr. Bradshaw: The amount by which the national health service's expenditure is expected to increase, as a result of further private finance initiative (PFI) schemes reaching completion, in 2008-09, 2009-10 and 2010-11, is included in the first line of the following table:

These annual PFI-related increases are then expressed as a percentage of the total anticipated annual increases in baseline costs in the second line.

	2008-09	*2009-10*	*2010-11*
PFI payments, increase on previous year (£ million)	81	133	61
PFI payments, increase on previous year (as percentage of total annual increase in the NHS baseline costs)	1.4	2.3	1.0

NHS: Procurement

Mr. Havard: To ask the Secretary of State for Health (1) what guidance his Department has issued to collaborative procurement hubs on the composition of procurement committees; [165947]

(2) what mechanisms are in place to externally audit cost savings made through the joint procurement practices of collaborative procurement hubs; [165949]

(3) what the methodology is for calculating cost savings made by collaborative procurement hubs; and upon which formulae this methodology is dependent; [165950]

(4) whether collaborative procurement hubs are required to publish minutes of their meetings; [166014]

(5) what procedures have been put in place by the Supply Chain Excellence Programme to regulate the procurement decisions of collaborative procurement hubs. [166119]

Norman Lamb: To ask the Secretary of State for Health (1) what the role of the collaborative procurement hubs is in procuring mental health services from the voluntary and independent sector on behalf of primary care trusts; and if he will make a statement; [165788]

(2) what the role of commissioning frameworks established by collaborative procurement hubs will be; and if he will make a statement. [165789]

Mr. Bradshaw: The Supply Chain Excellence Programme launched a recommended core design for collaborative procurement hubs together with a suggested governance structure. Each hub determines the respective scope and governance arrangements consistent with procurement regulations and good practice, together with the establishment of its own stakeholder board (made up of national health service stakeholders and trust executive directors).

No formal guidance has been issued by the Department on the composition of procurement committees. Each hub has established its own procurement committees where appropriate, according to the needs of its NHS stakeholder organisations.

Collaborative procurement hubs are subject to the audit principles of their host NHS organisation.

The methodology for calculating cost savings made by collaborative procurement hubs are determined by each hub in full agreement with their stakeholder trusts to ensure local accountability.

Collaborative procurement hubs are hosted by NHS organisations and hold regular trust stakeholder board meetings. Agreed actions are recorded in minutes and published in accordance with the host publication scheme.

Collaborative procurement hubs provide trusts with guidance and direct support in relation to legally compliant and good commercial and procurement practice, as required. If a trust asks for support in procuring mental health services then hubs can provide as appropriate.

Collaborative procurement hubs do not play a role in commissioning frameworks. The role of collaborative procurement hubs is to provide the primary care trusts with appropriate commercial and procurement advice and support, in establishing access to the most effective arrangements.

Noise: Health Hazards

Dan Rogerson: To ask the Secretary of State for Health what research he has (*a*) commissioned and (*b*) evaluated on the effects of low level decibel sound on public health; and if he will make a statement. [180992]

Dawn Primarolo: A Departmental ad hoc advisory group is currently preparing a report on the effects of environmental noise on health, due to be completed early in 2008, which will examine a number of noise and health related issues, including low intensity and low frequency noise. The results of this work will feed into the Department for Environment, Food and Rural Affairs (DEFRA), 'Noise Strategy for England'.

In addition, Departmental officials work closely with DEFRA on a number of noise and health related matters and a number of research projects have been carried out by DEFRA around noise, including low frequency noise.

Obesity: Young People

Andrew Rosindell: To ask the Secretary of State for Health what steps the Government are taking to tackle obesity rates of people under the age of 21; and if he will make a statement. [179666]

Dawn Primarolo: The Secretary of State for Health, (Alan Johnson) announced, on 17 October, that the Department will be developing a comprehensive cross Government strategy on obesity, to reverse the rising tide of obesity and overweight in the population, by enabling everyone to achieve and maintain a healthy weight. Our initial focus will be on children: by 2020, we aim to reduce the proportion of overweight and obese children to 2000 level. This new ambition also contributes to the new child health public service agreement (shared with Department for Children, Schools and Families). The Government will shortly be publishing a cross-Government strategy to tackle obesity and meet the new ambition. This will build on both existing work and new evidence from the Government office for Science Foresight Report.

Osteoporosis: Preventive Medicine

Mark Hunter: To ask the Secretary of State for Health with reference to the Answer of 19 July 2007, *Official Report*, column 639W, to the hon. Member for Pudsey, on osteoporosis: preventive medicine, if his Department will take steps to assess the implementation of the National Institute for Health and Clinical Excellence guidance for osteoporosis in postmenopausal women. [180637]

Ann Keen *[holding answer 21 January 2008]*: We have no plans to assess the implementation of the National Institute for Clinical Excellence (NICE) guidance for osteoporosis prevention in postmenopausal women.

Primary care trusts have a legal obligation to provide funding for treatments recommended by NICE within three months of the guidance being issued.

NICE guidance is also included in "Standards for Better Health", which sets out the Government's high-level expectations for the health service. Adherence to NICE technology appraisals is one of the core standards against which national health service organisations are assessed in the Healthcare Commission's annual health check.

Part IX Of The Drug Tariff

Mr. Oaten: To ask the Secretary of State for Health pursuant to the answer of 17 December 2007 *Official Report*, column 1207W to the hon. Member for Eddisbury, on drugs: consultants, what the terms of consultancy contracts in relation to the review of Part IX of the Drug Tariff are, with particular reference to performance-related elements. [180912]

Mr. Bradshaw: The specific terms of any contract for services between the Department and its advisers are commercial in confidence.

However, in relation to the Part IX review, we can confirm that there are no performance-related elements in the contract.

Patient Choice Schemes: Barnet

Mr. Dismore: To ask the Secretary of State for Health what progress is being made in the implementation of patient choice for hospital treatment for Barnet residents, with particular reference to ease of making appointments; and if he will make a statement. [178996]

Mr. Bradshaw: The latest published figures from the National Choice Survey (July 2007) show that 48 per cent. of patients in Barnet Primary Care Trust were aware of choice at referral (against a national figure of 38 per cent.) and 46 per cent. of patients were offered choice (against a national figure of 43 per cent.).

We do not hold data on the ease of making appointments. However, the number and percentage of Barnet Primary Care Trust's general practitioner (GP) referrals to first out-patient appointments booked through the choose and book system was (a) 13,634 (20 per cent.) in 2006-07 and (b) 14,364 (25 per cent.) in the first nine months of 2007-08 (April to the end of December). This compares with national averages of 27 per cent. in 2006-07 and 39 per cent. in 2007-08 to date.

Patients: Barnet

Mr. Dismore: To ask the Secretary of State for Health how many patients from Barnet are waiting for treatment; how many there were at the end of *(a)* 2006-07 and *(b)* 1996-97; and if he will make a statement. [177901]

Mr. Bradshaw: Information on the total number of patients waiting for in-patient treatment and patients waiting more than 26 weeks in the Barnet primary care trust (PCT) area for 2006-07 and 1996-97 and the latest available figures for November 2007 can be found in the following table.

	Month	*Area*	*In-patient waiting times for 26 weeks*	*Total number of people waiting for in-patient treatment*
2007	November	Barnet PCT	0	3,586
2006-07	March	Barnet PCT	0	3,603
1996-97	March	Barnet health authority	1,684	7,321

Today waiting times are at a record low; patients can expect a maximum 13 week wait for their first out-patient appointment and a maximum six month wait for an operation.

The latest data shows that over half of admitted patients (patients who require admission to hospital for treatment) and over three quarters of non-admitted patients are treated within 18 weeks.

Mr. Dismore: To ask the Secretary of State for Health how many patients from Barnet had NHS operations and other treatment *(a)* overseas and *(b)* outside London (i) in each of the last two years and (ii) in 1997; and if he will make a statement. [179106]

Mr. Bradshaw: The information requested is not held in the format requested. The following table shows the number of patients in Barnet Primary Care Trust area who received treatment outside of London for the years 2002-03, 2005-06 and 2006-07. These are the only years for which data is available.

Please note that the data is not collected in the format requested, as records only show operations that took place outside of London, and not necessarily overseas. Furthermore, 2002-03 are the latest records available.

Count of finished consultant and admission episodes for Barnet PCT of residence where operations and other treatments were received outside of the London strategic health national health service hospitals England and activity performed in the independent sector in England commissioned by English NHS

	Finished admission episodes	*Finished consultant episodes*
2006-07	1,465	1,582
2005-06	1,539	1,676
2002-03	1,210	1,287

Notes:

Finished admission episodes (FAE)

A FAE is the first period of in-patient care under one consultant within one healthcare provider. Admissions do not represent the number of in-patients, as a person may have more than one admission within the year.

Finished Consultant Episode (FCE)

An FCE is defined as a period of admitted patient care under one consultant within one healthcare provider. The figures do not represent the number of patients, as a person may have more than one episode of care within the year.

Data Quality

Hospital Episode Statistics (HES) are compiled from data sent by over 300 NHS trusts, and PCTs in England. Data is also received from a number of Independent sector organisations for activity commissioned by the English NHS. The Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. While this brings about improvement over time, some shortcomings remain.

Assessing growth through time

HES figures are available from 1989-90 onwards. During the years that these records have been collected the NHS there have been ongoing improvements in quality and coverage. These improvements in information submitted by the NHS have been particularly marked in the earlier years and need to be borne in mind when analysing time series.

Changes in NHS practice also need to be borne in mind when analysing time series. For example a number of procedures may now be undertaken in out-patient settings and may no longer be accounted in the HES data. This may account for any reductions in activity over time.

Ungrossed Data

Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).

HES, The Information Centre for health and social care

Pharmacy

Mr. Dismore: To ask the Secretary of State for Health what progress is being made in providing additional services at pharmacies *(a)* in Barnet and *(b)* elsewhere; and if he will make a statement. [179072]

Dawn Primarolo: In 2006-07, 96 local enhanced services were provided by community pharmacies in contract with Barnet Primary Care Trust. Nationally, 20,996 such services were provided.

We will publish a pharmacy White Paper in due course. This will set out our future proposals for developing quality pharmacy services for national health service patients and consumers and any legislative reform necessary.

Primary Care Trusts

Mark Pritchard: To ask the Secretary of State for Health if he will hold discussions with *(a)* Shropshire primary care trust, *(b)* Telford and Wrekin primary care trust and *(c)* Shrewsbury and Telford NHS hospital trust on security of patient health records. [176973]

Mr. Bradshaw: Each national health service trust is legally responsible for the data that is in its possession and must comply with all relevant legislation. The Department has published clear rules and guidelines for NHS trusts on compliance with this legislation and on the management of personal data. This takes the form of a series of Codes of Practice on confidentiality, security and records management, supported by numerous good practice guidelines. An online resource—the NHS Information Governance Toolkit—makes this guidance accessible to all parts of the NHS and all major NHS organisations are required to provide an annual performance assessment against the standards derived from the three codes of practice.

In view of this it would not be proportionate for departmental Ministers to meet these individual NHS organisations at the present time.

Queen's Hospital Romford: Waiting Lists

Andrew Rosindell: To ask the Secretary of State for Health what percentage of *(a)* outpatients and *(b)* inpatients were treated within their target waiting time at Queen's Hospital, Romford in 2007. [179654]

Mr. Bradshaw: The information is not available in the format requested. The following table shows the percentage of out-patients treated within their target waiting time at the Barking, Havering and Redbridge hospitals NHS trust, which includes Queen's Hospital, Romford from January to November 2007.

Patients waiting for a first out-patient appointment following a general practitioner referral

Month ending	*Total out-patients waiting*	*Patients waiting over 13 weeks*	*Percentage over 13 weeks*
January 2007	12,219	0	0.0
February 2007	11,564	0	0.0
March 2007	11,191	0	0.0
April 2007	12,476	0	0.0
May 2007	12,285	0	0.0
June 2007	13,732	0	0.0
July 2007	13,687	0	0.0
August 2007	13,376	1	0.0
September 2007	13,087	0	0.0
October 2007	11,463	0	0.0
November 2007	10,288	0	0.0

The following table shows the percentage of in-patients treated within their target waiting time at the Barking, Havering and Redbridge Hospitals NHS Trust, which includes Queen's Hospital, Romford from January to November 2007.

Patients waiting for an in-patient admission

Month ending	*Total waiting*	*Patients waiting over 26 weeks*	*Percentage over 26 weeks*
January 2007	13,827	0	0.0
February 2007	8,981	0	0.0
March 2007	8,480	0	0.0
April 2007	8,082	13	0.2
May 2007	7,980	1	0.0
June 2007	7,801	0	0.0
July 2007	7,470	4	0.1
August 2007	7,327	4	0.1
September 2007	7,073	2	0.0
October 2007	6,655	3	0.0
November 2007	6,417	1	0.0

Note:
Waiting times targets are monitored using counts of patients still waiting at the end of each month, therefore figures show number at end of each month who have already waited above the waiting target time.

Department of Health KH07 and QM08

Surgery: Greater London

Mr. Dismore: To ask the Secretary of State for Health how many patients at *(a)* Barnet and Chase Farm, *(b)* the Royal Free and *(c)* Northwick Park Hospital had operations cancelled at short notice (i) in each of the last two years and (ii) in 1997; on how many occasions in each case patients failed to give notice of cancellation; and if he will make a statement. [178953]

Mr. Bradshaw: The information is not held in the format requested.

The following table shows cancelled operations for non-clinical reasons at Barnet and Chase Farm Hospitals NHS Trust, Royal Free Hampstead NHS Trust and North West London hospitals NHS Trust.

Cancelled operations for non clinical reasons

National health service trust	*Number of last minute cancellations for non clinical reasons in the quarter*		
	2001-02[1]	*2005-06*	*2006-07*
Barnet and Chase Farm Hospitals NHS Trust	1,206	279	294
Royal Free Hampstead National Health Service Trust	148	460	268
North West London Hospitals NHS Trust[2]	499	480	457

[1] Earliest available data at NHS trust level.
[2] Northwick Park Hospital is part of North West London Hospitals NHS Trust
Source:
Department of Health form QMCO

Mr. Dismore: To ask the Secretary of State for Health how many *(a)* operations and *(b)* out-patient appointments were carried out in (i) each of the last two years and (ii) the current year to date at (A) Barnet hospital, (B) Royal Free hospital and (C) Edgware hospital; and if he will make a statement. [179056]

Mr. Bradshaw: The information is not available in the format requested.

The data for operations carried out is held at trust level only and data for 2007-08 is not yet available.

The latest data published in January 2008 shows that in October 2007 over half of admitted patients and over three quarters of non-admitted patients were seen within 18 weeks.

The second table shows the number of out-patient appointments carried out for the Barnet and Chase Farm NHS trust and the Royal Free Hampstead NHS trust for the dates requested.

First, subsequent and total (first + subsequent) attendances seen for Barnet and Chase Farm NHS trust and Royal Free Hampstead NHS trust since 2005-06

	Period		*Barnet and Chase Farm hospitals NHS trust*	*Royal Free Hampstead NHS trust*
2005-06	Q1	First attendances seen	22,760	27,945
		Subsequent attendances seen	43,920	60,544
		Total attendances seen	66,680	88,489
	Q2	First attendances seen	24,223	26,664
		Subsequent attendances seen	46,010	58,122
		Total attendances seen	70,233	84,786
	Q3	First attendances seen	23,817	26,895
		Subsequent attendances seen	46,150	58,262
		Total attendances seen	69,967	85,157
	Q4	First attendances seen	24,068	26,040
		Subsequent attendances seen	47,693	59,684

First, subsequent and total (first + subsequent) attendances seen for Barnet and Chase Farm NHS trust and Royal Free Hampstead NHS trust since 2005-06

	Period		Barnet and Chase Farm hospitals NHS trust	Royal Free Hampstead NHS trust
		Total attendances seen	71,761	85,724
2006-07	Q1	First attendances seen	22,539	27,607

		Total attendances seen	64,054	111,849

[1] Based on estimated data.

Notes:
1. We collect data at trust level, not for individual hospitals. Both Edgware hospital and Barnet hospital are managed by and provide services for Barnet and Chase Farm hospitals NHS trust. Royal Free hospital is managed by and provides services for Royal Free Hampstead NHS trust.
2. QM08 and QAR Prov are collected on a quarterly basis: Q1 – June, Q2 – September, Q3 – December, Q4 – March.

Source:
2005-06 – 2006-07 Department of Health Form QM08
2007-08 Department of Health Form QAR

The following table shows the number of operations carried out in the last two complete years at Royal Free Hampstead NHS trust, Barnet and Chase Farm hospital NHS trust and Barnet primary care trust.

	Royal Free Hampstead NHS trust	Barnet and Chase Farm hospitals NHS trust	Barnet primary care trust
2006-07	49,899	49,408	49,408
2005-06	40,376	44,635	44,654

Notes:
1. Count of Finished Consultant Episodes (FCE) that include an OPSC4 procedure/intervention (2006-07 A01 – X97 or A01 – X59 prior to 2005-06) at Royal Free Hampstead NHS trust, Barnet and Chase Farm hospital NHS trust and Barnet primary care trust.
2. NHS Hospitals England and activity performed in the independent sector in England commissioned by English NHS, 2004-05 – 2006-07.
3. Finished Consultant Episode (FCE)
An FCE is defined as a period of admitted patient care under one consultant within one health care provider. The figures do not represent the number of patients, as a person may have more than one episode of care within the year.
4. Finished Consultant Episode (FCE) with an Operative Procedure
A count of FCEs with an operative procedure is the number of FCEs where the procedure was mentioned in any of the 12 (four prior to 2002-03) operative procedure fields in a HES record. A record is only included once in each count, even if the procedure is mentioned in more than one operative procedure field of the record. Please note that more procedures are carried out than finished consultant episodes with an operation. For example, patients under-going a cataract operation would tend to have at least two procedures – removal of the faulty lens and the fitting of a new one – counted in a single finished consultant episode.

Trade Unions

Mr. Hoban: To ask the Secretary of State for Health what meetings he had with trades union officials since 1 July 2007; on what dates; and with which trades unions. [179853]

Mr. Bradshaw: Ministers meet many people as part of the process of policy development. It is not normal practice to disclose details of such meetings.

Worcestershire Acute Hospitals NHS Trust

Peter Luff: To ask the Secretary of State for Health what recent assessment he has made of the *(a)* financial position and *(b)* effectiveness of management of the Worcestershire Acute Hospitals NHS Trust; and if he will make a statement. [179561]

Dawn Primarolo: The financial position of national health service trusts is subject to continual monitoring.

According to the quarter two figures, the Worcestershire Acute Hospitals NHS Trust is forecasting a £5 million surplus at the end of 2007-08. The cash generated from this surplus will be used to partially re-pay a loan granted to the trust by the Department to cover historic deficits.

The Department performance manages NHS organisations through the strategic health authorities who provide leadership and support to ensure that trusts and primary care trusts operate effectively and deliver improved performance. Working within this performance management regime the Department has not made an assessment of the effectiveness of management of the Worcestershire Acute Hospitals NHS Trust.

Worcestershire Acute Hospitals NHS Trust: Debt

Peter Luff: To ask the Secretary of State for Health what criteria were applied to assess the eligibility of the Royal Wolverhampton and University Hospitals Coventry and Warwickshire NHS trusts for the writing-off of their historic debt; for what reasons the Worcestershire Acute Hospitals NHS Trust has had its historic debt written off; and if he will make a statement. [179562]

Dawn Primarolo: In 2006-07, the Department introduced a more transparent rules based financial regime. As part of this new regime, the Department considered the cash needs of each national health service (NHS) trust.

Worcestershire Acute Hospitals NHS Trust was able to demonstrate the ability to pay back its loan, and therefore the Department granted the loan. However, two trusts within the West Midlands Region (the Royal Wolverhampton NHS Trust, the University Hospitals of Coventry and Warwickshire NHS Trust), were not given a loan because they could not afford to meet the repayments.

These two trusts were classified as being 'financially challenged' and departmental officials have worked in partnership with the West Midlands strategic health authority (SHA) on a review process to identify long-term financial solutions for them. In January 2008, bespoke solutions to ensure these trusts are able to regain financial balance were proposed. The solutions do not involve the Department writing off any historic deficits, but they do contain an element of financial support that is to be provided by the local SHA.

JUSTICE

Dangerous Dogs Act 1991: Prosecutions

Bill Wiggin: To ask the Secretary of State for Justice how many *(a)* prosecutions and *(b)* convictions there have been under the Dangerous Dogs Act 1991 since 1997, broken down by offence; and if he will make a statement. [177714]

Jonathan Shaw: I have been asked to reply.

The following tables show the number of defendants proceeded against at magistrates courts (Table 1) and found guilty at all courts (Table 2) for offences under the Dangerous Dogs Acts 1989 and 1991, England and Wales 1997 to 2006[1, 2]

[1] Data provided on the principal offence basis.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Our ref: 014-08

Prison Service: Long Service Awards

Mr. Garnier: To ask the Secretary of State for Justice what discussions he has had with *(a)* the Director General of the Prison Service and *(b)* ministerial colleagues on the award of a long service and good conduct medal for prison officers with at least (i) 15 years, (ii) 18 years and (iii) any longer period of continuous service and good conduct within the Prison Service; what his policy is on the award of such a medal to Prison Service officers; and if he will make a statement. [180581]

Mr. Hanson: The permanent secretary of the Ministry of Justice is currently in discussion with the director general of the Prison Service on the proposed Long Service and Good Conduct Medal for operational Prison Service staff. The Ministry of Justice and the Prison Service fully support the introduction of this medal through a submission to the Honours and Decorations Committee. The Prison Service recommended that the proposed medal be awarded after 20 years service, but final details of the eligibility criteria will be discussed with Cabinet Office officials if the medal is awarded.

Prisoners Release

Mr. Fabian Hamilton: To ask the Secretary of State for Justice how many convicted prisoners have been released early as a result of prison overcrowding. [180115]

Mr. Hanson: On 19 June 2007 my noble Friend Lord Falconer of Thoroton the then Lord Chancellor announced the introduction of a presumption in favour of release from custody on licence for prisoners serving between four weeks and four years for the final 18 days of their sentence subject to meeting strict eligibility criteria and providing a release address.

Between 29 June when the scheme began and 30 November 2007 (latest available figures) about 13,750 prisoners were released on ECL.

The total number of releases by offence group, sentence length, age, gender, ethnicity and prison establishment have been published on the Ministry of Justice website for the first week of the scheme, the remainder of July, and every subsequent month since then.

The monthly published figures can be found on separate links under the following main link: http://www.justice.gov.uk/publications/endofcustodylicence.htm

These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Prisons

Mr. Burrowes: To ask the Secretary of State for Justice (1) what the *(a)* expenditure and *(b)* income of prison industries in England and Wales was in each of the last 10 years; [180955]

(2) what the turnover of prison *(a)* industries and *(b)* farms was in each of the last 10 years for which figures are available. [180957]

Mr. Hanson: The following table sets out annual expenditure on raw materials and external income for the previous eight years (earlier data is unavailable). Expenditure on other costs is not available as the Prison Service did not record full activity costs until 2007-08. Costs do not correlate to the external income as most goods are generally manufactured for internal consumption. The estimated annual value of goods and services internally produced by prison industries and consumed within the Prison Service is around £30 million.

£000

Financial year	Expenditure by Industries and Farms on raw materials	HM Prison Service external income from Industries and Farms
2006-07	18,442	7,698
2005-06	19,749	10,128
2004-05	21,338	10,604
2003-04	26,365	10,990
2002-03	30,441	10,064
2001-02	28,954	11,598
2000-01	26,069	10,552
1999-2000	28,060	10,411

Prisons: Employment

Mr. Burrowes: To ask the Secretary of State for Justice which prisons in England and Wales offer employment opportunities under enhanced earnings schemes; and for how many prisoners. [180956]

Mr. Hanson: All prisons offer prisoners some type of employment and purposeful activity. The amount a prisoner earns is devolved to individual governors and is subject to minimum levels as set out in Annex B of Prison Service Order 4460. There is no central record kept of prisoner's earnings and to provide the information would involve both the individual scrutiny of a significant number of documents and a large data collecting exercise—this could be done only at disproportionate cost.

Secure Training Centres: Injuries

Dr. Vis: To ask the Secretary of State for Justice (1) what injuries were sustained by boys held in Hassockfield Secure Training Centre during physical control in care in each month in *(a)* 2006 and *(b)* 2007; [175249]

(2) what injuries were sustained by boys held in Oakhill Secure Training Centre during physical control in care in each month in (a) 2006 and (b) 2007; [175250]

(3) what injuries were sustained by boys held in Rainsbrook Secure Training Centre during physical control in care in each month in (a) 2006 and (b) 2007; [175251]

(4) what injuries were sustained by boys held in Medway Secure Training Centre during physical control in care in each month in (a) 2006 and (b) 2007. [175252]

Mr. Hanson: Information on injuries resulting from restraint, provided by the Youth Justice Board, is available from April 2007. The following tables show the number of injuries requiring minor treatment, sustained by boys during restraint incidents. None of the injuries required hospital treatment.

Note:
Data provided by the YJB. These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing and can be subject to change over time.

Sentencing: Ethnic Groups

Dr. Vis: To ask the Secretary of State for Justice how many black and minority ethnic people have been given an indeterminate sentence for public protection. [180289]

Mr. Hanson: At the end of November 2007 there were 770 black and minority ethnic prisoners serving indeterminate sentences for public protection in all prison establishments in England and Wales.

These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Smuggling: Animals

Andrew Rosindell: To ask the Secretary of State for Justice how many prosecutions were brought against illegal importers of animals into the UK in 2007; and what the conviction rates were in these cases. [177724]

Jonathan Shaw: I have been asked to reply.

Prosecutions and convictions brought against illegal importers of animals are reported annually to Parliament. Data collected during 2007 are still being collated and will be reported in the 'Return of expenditure incurred and prosecutions taken under the Animal Health Act 1981 and incidences of disease in imported animals for the year 2007, which will be laid before Parliament by the end of March.

Voting Systems

Dan Rogerson: To ask the Secretary of State for Justice pursuant to his Written Ministerial Statement of 11 December 2007, *Official Report*, column 32WS, on review of voting systems, on what date in January he plans to publish the Government's completed review of voting systems. [180991]

Mr. Wills: The Government have completed the review of the experience of the new voting systems introduced in the United Kingdom since 1997 and are making the review ready for publication later this month.

Young Offenders

Dr. Vis: To ask the Secretary of State for Justice how many juveniles had no fixed abode when they were received into prison in each of the last five years. [180291]

Mr. Hanson: Information on home addresses for young people (aged under 18) is mainly held in individual records and is not readily available.

The information would need to be retrieved manually and this could be done only at disproportionate cost.

TREASURY

Bank Services

Mr. Hoban: To ask the Chancellor of the Exchequer when he expects to bring forward proposals for legislation on protection of bank depositors. [180742]

Angela Eagle: HM Treasury, the Bank of England and Financial Services Authority published a discussion paper, "Banking Reform: Protecting Depositors", in October 2007. Comments on that paper were requested by 5 December 2007. A consultation document outlining proposals for reforms to banking regulation and depositor protection will be published shortly, and will be followed by a 12-week consultation period after the Treasury Select Committee has published its report.

Child Benefit: Personal Records

Mr. Hoban: To ask the Chancellor of the Exchequer how many individuals in HM Revenue and Customs have been formally disciplined over the recent loss of two child benefit payment discs. [180248]

Jane Kennedy: HMRC does not comment on specific internal disciplinary proceedings.

Mr. Hoban: To ask the Chancellor of the Exchequer how many individuals in HM Revenue and Customs have been dismissed following the recent loss of two child benefit payment discs containing 25 million personal records. [180249]

Jane Kennedy: HMRC does not comment on specific internal disciplinary proceedings.

Mr. Evans: To ask the Chancellor of the Exchequer how many reports have been received to date of fraudulent activity on bank accounts belonging to people whose details were included on the two compact discs lost by HM Revenue and Customs in 2007. [180950]

Jane Kennedy: HMRC are in regular contact with the banks, financial institutions and other law enforcement agencies in order to identify any fraudulent activity relating to the data loss as soon as possible should it occur. None of them have reported any incidents of fraudulent activity attributable to the loss of the two discs that would lead them to suspect that the information has fallen into the wrong hands.

Consultants, Government departments

Mr. Walker: To ask the Chancellor of the Exchequer what contracts his Department has with external consultants; what the total value including all VAT and disbursements of these contracts are for the current financial year; how long each contract lasts; and what the forecast total value is of each contract. [163707]

Angela Eagle: The total spend on external consultants for the current financial year (1 April to 31 October 2007) in the Treasury is £2,577,500.

HM Treasury has the following current contracts for consultancy:

Contract	*Expiry*
COINS Information Services Systems	15 July 2008
Internal Audit	30 September 2008
Retrocession Agreement	[1]
Legal Services	[1]
Actuarial Consultancy	[1]
Occupational Health Consultancy Services	17 December 2007
Ad-hoc Consultancy Services	31 December 2007
Managerial training	31 January 2010
FATF President	1 July 2008
Project Support for the Thoresen Review of Generic Financial Advice: 3 contracts	[1]
Mutuals Legislation Consultancy	[1]
Supplier Management	5 February 2008
Financial Exclusion Support	23 November 2007
IS Consultancy Framework	10 October 2009

[1] Contract period is not defined by a specific date

In addition to the aforementioned contracts, the Treasury utilises pan-Government Framework Agreements for consultancy services.

The current and forecast total value of each contract can be provided only at disproportionate cost and is commercially sensitive.

EC Trade

Mr. Clifton-Brown: To ask the Chancellor of the Exchequer (1) what percentage of total goods exported from the UK were exported to the EU in each of the last 10 years; [180269]

(2) what percentage of total UK trade was with the EU in the latest year for which figures are available; and if he will make a statement. [180270]

Jane Kennedy: Data relating to UK trade with both EU and non-EU countries is published in the Overseas Trade Statistics by HM Revenue and Customs, which is available in the Library of the House and via

www.uktradeinfo.com

EU External Trade: Israel

Richard Burden: To ask the Chancellor of the Exchequer on how many occasions since January 2007 HM Revenue and Customs intercepted goods produced in Israeli settlements in the West Bank being imported to the UK claiming the preferences of the EU-Israeli Association Agreement; and what steps have been taken in consequence. [179256]

Jane Kennedy: Since January 2007, there have been 202 occasions where claims to preference for goods produced in Israeli settlements in the West Bank and imported into the United Kingdom have been rejected. These goods were confirmed as incorrectly claiming a preferential rate of duty under the EU/Israel Association Agreement. A demand for the full rate of import duty was sent to every importer concerned.

European Union Solidarity Fund

Mr. Paice: To ask the Chancellor of the Exchequer how much the UK has *(a)* contributed to and *(b)* received from the EU Solidarity Fund in each of the last 10 years. [180144]

Angela Eagle: The United Kingdom makes its contributions to the EC Budget as a whole and not to individual spending programmes or funds within it. Figures for the United Kingdom's gross contribution, after taking account of the UK abatement, to the EC Budget in 2006 can be found in table 3 (page 47) of the European Community Finances White Paper (Cm 7090) published on 22 May 2007. This table also gives an estimate of this figure for 2007.

The EU Solidarity Fund (EUSF) was established in November 2002. Last year the UK applied to the fund following the severe flooding experienced across the country in the summer. The application has been approved by the European Commission which has announced that it will propose that the UK be awarded a grant in the region of €160 million.

Immigrants: Russia

Mr. Hands: To ask the Chancellor of the Exchequer what recent estimate he has made of the numbers of Russian nationals living in *(a)* London and *(b)* the UK. [180311]

Jane Kennedy: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 22 January 2008:

As National Statistician I have been asked to reply to your question concerning how many and what percentage of people on the electoral registers in each London borough are *(a)* nationals of EU member states other than the UK and *(b)* not nationals of (i) the UK and (ii) the Republic of Ireland. (179019)

Data separately identifying British, Irish, or Commonwealth citizens are not collected centrally; these citizens are grouped together on local authority electoral returns. Therefore we are unable to produce data separately for British and Irish citizens.

The attached table provides the nearest available data to those you requested. It provides figures for 1 December 2006 for each London borough and the City of London, on the number and proportion of registered electors who qualify through EU citizenship, excluding British, Irish, Cypriot and Maltese citizens (Cypriot and Maltese citizens qualify as Commonwealth citizens). Also shown are equivalent data for those electors who qualify through British, Irish or Commonwealth citizenship.

Electoral counts for 1 December 2007 will be published on 28 February 2008.

Table 1: Number and percentage of the electorate qualifying through European Union citizenship, and number and percentage of the electorate qualifying through British, Irish, or Commonwealth Citizenship, London boroughs, 1 December 2006

London borough	Electorate qualifying through European Union citizenship[1,2]	Percentage[3] of electorate qualifying through European Union citizenship[1,2]	Electorate qualifying through British, Irish, or Commonwealth citizenship[1]	Percentage of electorate qualifying through British, Irish, or Commonwealth citizenship[1]
City of London	404	7	5,684	93
Barking and Dagenham	3,115	3	119,950	97
Barnet	10,623	5	210,254	95
Bexley	1,923	1	170,775	99
Brent	15,275	8	177,801	92
Bromley	4,720	2	229,228	98
Camden	12,987	9	133,766	91
Croydon	6,939	3	236,725	97
Ealing	16,737	8	204,785	92
Enfield	7,743	4	192,099	96
Greenwich	7,031	4	157,276	96
Hackney	9,201	7	128,149	93

Haringey	12,985	8	144,712	92
Harrow	5,721	3	159,580	97
Havering	1,506	1	177,475	99
Hillingdon	5,167	3	181,987	97
Hounslow	8,926	5	154,262	95
Islington	8,603	7	116,019	93
Kensington and Chelsea	16,058	16	85,741	84
Kingston Upon Thames	4,806	4	103,231	96
Lambeth	15,951	8	192,087	92
Lewisham	7,487	4	170,635	96
Merton	8,641	6	129,611	94
Newham	12,840	7	172,927	93
Redbridge	2,045	1	183,533	99
Richmond Upon Thames	5,983	5	119,803	95
Southwark	11,807	6	182,150	94
Sutton	3,042	2	131,359	98
Tower Hamlets	9,156	6	141,120	94
Waltham Forest	10,051	6	158,439	94

Table 1: Number and percentage of the electorate qualifying through European Union citizenship, and number and percentage of the electorate qualifying through British, Irish, or Commonwealth Citizenship, London boroughs, 1 December 2006

London borough	Electorate qualifying through European Union citizenship[1,2]	Percentage of electorate qualifying through European Union citizenship[1,2]	Electorate qualifying through British, Irish, or Commonwealth citizenship[1]	Percentage of electorate qualifying through British, Irish, or Commonwealth citizenship[1]
Wandsworth	15,144	7	204,016	93
Westminster	17,989	13	121,523	87

[1] These data are as reported by each London borough to ONS.
[2] Excludes British and Irish citizens, and also Maltese and Cypriot citizens who qualify as Commonwealth citizens.

Source:
Office for National Statistics

Northern Rock

Dr. Cable: To ask the Chancellor of the Exchequer what provisions he has made for the accounting of *(a)* the loans advanced to Northern Rock and *(b)* the guarantees made for deposits held within Northern Rock within the national accounts; and if he will make a statement. [180032]

Angela Eagle: The loan from the Bank of England to Northern Rock will be shown as an asset of the bank and a liability of the company in the national accounts.

I refer the hon. Gentleman to the letters the Chancellor sent to the chairs of the Public Accounts Committee and the Treasury Select Committee on 11 October 2007, which the provisions of the Government's guarantee arrangements explain and which are available in the House Library.

Revenue and Customs: Databases

Mr. Hoban: To ask the Chancellor of the Exchequer what personal data held by HM Revenue and Customs has been copied to compact disc for transfer to external agencies since 15 December 2007. [180247]

Jane Kennedy: Following the child benefit data loss incident HMRC have introduced more stringent controls which require that transfers of bulk data on removable media only take place where there is adequate security protection. The transfer of personal data only takes place when it is essential to do so due to a business critical need or in order to meet the Department's legal obligations.

Mr. Hoban: To ask the Chancellor of the Exchequer whether data of individuals' records held by HM Revenue and Customs has been transferred without encryption between HM Revenue and Customs and external agencies since 15 December 2007. [180434]

Jane Kennedy: Following the child benefit data loss incident, HMRC have introduced more stringent controls which require that transfers of customer data only take place with adequate security protection.

For more detail on the changes made, I refer the hon. Member to Kieran Poynter's interim report that was published on 17 December 2007 and is available in the Library of the House.

Revenue and Customs: Postal Services

Mr. Hoban: To ask the Chancellor of the Exchequer pursuant to the answer of 7 January 2008, *Official Report*, column 339W, on Revenue and Customs: postal services, how many items of post were sent by *(a)* recorded and *(b)* non-recorded post by HM Revenue and Customs in each of the last five years. [180460]

Jane Kennedy: The number of consignments of post sent by *(a)* recorded and *(b)* non-recorded by HM Revenue and Customs is as follows:

	Recorded	Non-recorded
2007-08, year to date	100,505	224,919,427
2006-07	139,728	317,341,842
2005-06	128,798	329,400,880

Details are only available from 2005-06 onwards.

Revenue and Customs: Standards

Mr. Hayes: To ask the Chancellor of the Exchequer if he will place in the Library copies of proposals submitted in response to the HM Revenue and Customs Angels and Dragons internal communications initiative; how many proposals were received; and what the cost of the process was. [180163]

Jane Kennedy: The Angels and Dragons scheme was implemented in late 2006. There have been 3,213 ideas submitted since. Most of these have been filtered out in the early stages of the process. Many have been taken up by the relevant HMRC business area or incorporated into work already in progress. Others do not meet the criteria for Angels and Dragons and are referred to other HMRC continuous improvement schemes. Relatively few therefore reach the stage where an investment needs to be considered.

The board have so far agreed to fund the following ideas which reflect total investments to date of approximately £965,000, which reflects the cost of developing and implementing these ideas. The aim is for the portfolio of projects to generate an overall return on investment of 110 per cent. over two years.

Scanning tool for the Northern Ireland Overseas Repayment Unit

Introduction of a scanning tool to improve the handling of repayments of VAT to overseas claimants.

New Tax Credits mentoring

A specialist mentoring team to be set up in New Tax Credits contact centres.

VAT sift case tracking system

Management information tool to assist in audit visit selection.

ABC of VAT

A collection of VAT information developed into a word document.

Electronic Microfilm Retrieval

Purchase of two high volume production printers to enable microfilm requests to be submitted electronically.

Enhancement to the Employers Business Service Notes (EBS)

Amendment to the EBS notes to make them more accurate and reliable.

Particular Needs Equipment Catalogue

An electronic catalogue containing items of special needs equipment (for staff who have particular needs) which fall outside the main ordering process.

Suicide

Tim Farron: To ask the Chancellor of the Exchequer how many suicides there were in the UK in each of the last five years, broken down by *(a)* age, *(b)* sex, *(c)* region and *(d)* ethnic origin. [181129]

Jane Kennedy: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Karen Dunnell, dated 22 January 2008:

As National Statistician, I have been asked to reply to your recent question asking how many suicides there were in the UK in each of the last five years, broken down by (a) age, (b) sex, (c) region and (d) ethnic origin. (181129)

The tables attached provide the number of deaths where suicide was the underlying cause of death, by (a) age and (b) sex in the UK, and (c) Government Office Region in England, for 2002 to 2006 (the latest year available). Figures on deaths by ethnic group are not available, as ethnicity is not recorded at death registration.

Table 1: Number of deaths where suicide was the underlying cause of death, United Kingdom[1,2,3], by five-year age-group, 2002-06[4]

Deaths (persons)

Age group	2002	2003	2004	2005	2006
15-19	214	182	206	190	178
20-24	412	436	394	390	365
25-29	588	474	453	423	424
30-34	695	672	609	593	525
35-39	719	721	752	691	671
40-44	624	649	673	677	668
45-49	534	536	576	602	593
50-54	492	483	509	499	515
55-59	418	421	438	443	481
60-64	264	281	280	317	346
65-69	245	214	259	226	222
70-74	197	202	196	180	169
75-79	158	194	192	138	153
80-84	131	141	164	159	129
85+	137	126	153	143	118
Total	5,828	5,732	5,854	5,671	5,557

[1] Suicide was defined using the International Classification of Diseases, Tenth Revision (ICD-10) codes X60-X84 and Y10-Y34, excluding Y33.9 (where the Coroner's verdict was pending) for England and Wales, and codes X60-X84 and Y10-Y34 for Scotland and Northern Ireland.

[2] Suicide and undetermined intent deaths have not been included for children under the age of 15 years.

[3] Figures for the UK include data provided by the Registrars General for Scotland and Northern Ireland.

[4] Figures are for deaths registered in each calendar year.

Table 2: Number of deaths where suicide was the underlying cause of death, United Kingdom[1,2,3], by sex, 2002-06[4]

Deaths (persons)

Sex	2002	2003	2004	2005	2006
Male	4,349	4,268	4,290	4,192	4,197
Female	1,479	1,464	1,564	1,479	1,360
Total	5,828	5,732	5,854	5,671	5,557

[1] Suicide was defined using the International Classification of Diseases, Tenth Revision (ICD-10) codes X60-X84 and Y10-Y34, excluding Y33.9 (where the Coroner's verdict was pending) for England and Wales, and codes X60-X84 and Y10-Y34 for Scotland and Northern Ireland.

[2] Suicide and undetermined intent deaths have not been included for children under the age of 15 years.

[3] Figures for the UK include data provided by the Registrars General for Scotland and Northern Ireland.

[4] Figures are for deaths registered in each calendar year.

Table 3: Number of deaths where suicide was the underlying cause of death, England, by Government Office Region[1,2], 2002-06[3]

Deaths (persons)

Region	2002	2003	2004	2005	2006
North East	249	272	295	242	228
North West	640	637	637	677	636
Yorkshire and The Humber	454	423	472	482	403
East Midlands	362	374	386	367	358
West Midlands	466	466	454	425	411
East of England	466	450	452	448	424
London	630	659	627	620	588
South East	723	697	702	694	669
South West	452	452	489	453	460
Total	4,432	4,430	4,514	4,408	4,177

[1] Suicide was defined using the International Classification of Diseases, Tenth Revision (ICD-10) codes X60-X84 and Y10-Y34, excluding Y33.9 (where the Coroner's verdict was pending).

[2] Suicide and undetermined intent deaths have not been included for children under the age of 15 years.

[3] Based on boundaries as of 2007.

[4] Figures are for deaths registered in each calendar year.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Abandonment of Animals Act 1960

Mr. Amess: To ask the Secretary of State for Environment, Food and Rural Affairs if he will make a statement on the operation of the Abandonment of Animals Act 1960; and what amendments have been made to this Act since 1997. [177126]

Jonathan Shaw: The Abandonment of Animals Act 1960 was repealed and replaced by the Animal Welfare Act 2006.

Under the 2006 Act, it is a criminal offence to either cause unnecessary suffering to—or fail to provide for the welfare needs of—any domestic or captive animal.

Under the Act, if someone who is responsible for an animal abandons it and it is unable to fend for itself, the person responsible will have failed to ensure its welfare and therefore committed an offence. If suffering has actually occurred as a result of the abandonment, a further offence will have been committed under the Act's provisions on unnecessary suffering. The maximum fine when suffering occurs has been increased from £5,000 to £20,000.

African Horse Sickness

Mr. Amess: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions *(a)* he, *(b)* Ministers in his Department and *(c)* officials have had with the (i) British Veterinary Association and (ii) horse industry on African horse sickness; and if he will make a statement. [177128]

Jonathan Shaw: A working group has been set up, which includes DEFRA personnel and veterinary experts, to look at how best the Government and industry can work together to prepare for and manage any outbreak of African Horse Sickness. So far, there have not been any ministerial contacts with industry on this matter, but the working group is intending to meet regularly and to include interested parties from the industry in future meetings as necessary.

Mr. Amess: To ask the Secretary of State for Environment, Food and Rural Affairs how many scientists in his Department are working on research into African horse sickness; and how many there were in January *(a)* 2005, *(b)* 2006 and *(c)* 2007. [177142]

Jonathan Shaw: There are a number of veterinarians working within DEFRA, and the related agencies dealing in laboratory investigations and research, who deal with aspects of African horse sickness (AHS). This position has not altered in the last three years. No one person in any of these arms of Government is assigned full-time to AHS research. It is therefore impossible to give a specific and accurate answer to the hon. Member's question.

Mr. Amess: To ask the Secretary of State for Environment, Food and Rural Affairs what research has been *(a)* commissioned and *(b)* evaluated by his Department since July 2006 on the potential impact of an outbreak of African horse sickness on the UK's equine industry; what discussions (i) he, (ii) Ministers in his Department and (iii) his officials have had with representatives of the equine industry on the matter since June 2007; what the (A) location and (B) duration of each meeting was; whether a record of each meeting was kept; who attended each meeting; and if he will make a statement. [177143]

Jonathan Shaw: In order to develop and maintain our diagnostic capability for the disease, DEFRA has regular contact and arrangements in place with the Pirbright Institute for Animal Health laboratory, which is a World Organisation for Animal Health (OIE) reference laboratory for African horse sickness (AHS). DEFRA is investing in three research and development contracts which relate to AHS as a vector borne disease. These are:

(1) For the epidemiology and control of orbiviral diseases in the UK, with particular reference to bluetongue and AHS—total project cost £984,000 (project ends 31 March 2008).

(2) For molecular phylogeny of Culicoides midges in relation to vector competence for bluetongue in the UK—total project cost £430,783 (project ends 30 April 2008).

(3) Concerning the spread of bluetongue and related diseases by wind-borne vector Culicoides—total project cost £566,358 (project ends 31 October 2009).

Neither the Minister nor other officials have yet met representatives from the industry to discuss the impact of an outbreak of AHS. A working group has been set up involving DEFRA personnel and veterinary experts concerned with equine health and welfare to consider how best the Government and the industry can work together to prevent and manage any such outbreak. The working group meetings are attended variously by between six and eight people, with representatives present from the Horse Trust, the Animal Health Trust, Cambridge University, the Pirbright laboratory and veterinarians from Defra Food and Farming Group. Meetings on average run for two and a half to three hours with minutes kept by a member of the group which are circulated to attendees later.

The group met on the following dates in 2007:

(a) 2 May in the Horse Race Betting Levy Board premises, London.

(b) 3 October in the SPANA building London.

(c) 17 December in Defra Page street, London.

The next meeting is planned for 7 February 2008, with other meetings to follow. It is intended that members of the industry will be invited to attend some future meetings to widen awareness among the public of AHS.

The relevant personnel in DEFRA are therefore aware of the potential seriousness of an outbreak of AHS, and are taking active steps to prepare for this.

Mr. Amess: To ask the Secretary of State for Environment, Food and Rural Affairs how many cases of African horse sickness occurred in *(a)* Southend, *(b)* Essex and *(c)* England and Wales in each year since 1990. [177145]

Jonathan Shaw: African horse sickness is an exotic disease of horses primarily confined to sub-Saharan Africa where it is enzootic. Occasional outbreaks have occurred outside this area in Northern Africa, the Middle East and in Southern Europe (Spain 1966, 1987 to 1990, and Portugal 1989). The disease is notifiable under both EU legislation and within the United Kingdom but there has never been any confirmed case of African horse sickness within the UK.

Agriculture: Derbyshire

Mr. McLoughlin: To ask the Secretary of State for Environment, Food and Rural Affairs what funding streams are available to help farmers in West Derbyshire to diversify into organic and sustainable farming methods. [178546]

Jonathan Shaw: Aid for farmers who wish to convert their land to organic production is available under Organic Entry Level Stewardship (OELS). This is a 'whole farm' scheme open to farmers who manage all or part of their land organically and who are not receiving aid under the Organic Farming Scheme (OFS) which is now closed to new applicants.

Acceptance into the scheme is guaranteed providing an applicant meets all of its requirements, including ensuring that their organic land is registered with an Organic Inspection Body (OIB) before applying and that it remains continuously registered with an OIB for the five-year duration of the agreement.

OELS is the organic strand of Environmental Stewardship (ES) which is the main agri-environment scheme open to farmers and land managers in England. ES provides grant aid to farmers in order to secure environmental benefits and encourage sustainable farming through a wide range of land management options. It is administered by Natural England.

Agriculture: Subsidies

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what the average age of farmers receiving the hill farm allowance was in each year since its introduction. [179299]

Jonathan Shaw *[holding answer 15 January 2008]:* The following table is taken from the Farm Business Survey (FBS). The FBS is primarily a survey of levels of farm income rather than specific sources of income, such as Hill Farm Allowance, and is based on a sample of farms with a minimum size of half a standard labour requirement. This means it excludes farms where the labour requirement is less than half a full-time equivalent.

Average age of farmer receiving Hill Farm Allowance in England[1]

	Average age
2001	52
2002	52
2003	53
2004	52
2005	53
2006	54

Farm Business Survey

Agriculture: Vocational Guidance

Mr. McLoughlin: To ask the Secretary of State for Environment, Food and Rural Affairs what steps are being taken to promote farming as a future career for young people. [178547]

Jonathan Shaw: The Government support 'Fresh Start', the industry-led initiative which aims to encourage new entrants into the industry by signposting sources of help and support, and by promoting farming as an attractive career option. The Fresh Start academy offers new entrants training in business skills, a mentoring service, and the possibility of identifying business opportunities via a matchmaking network. Since June 2006, 16 Fresh Start academies have opened across the country. More information is available on the DEFRA website.

Animal Feed

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs on what dates Ministers in his Department reviewed the decision of May 2001 not to compensate swill feeders following the ban of swill feeding. [177565]

Jonathan Shaw: Ministers and officials have considered compensation for the former swill feeders (the Associated Swill Users (ASU)) on a number of occasions.

i. Following a meeting between the Parliamentary Under-Secretary (Lords) Baroness Hayman and the ASU on 2 May 2001.

ii. Following correspondence from the ASU received on 1 July 2001.

iii. Following a meeting on 4 October 2001 between officials and representatives of the ASU.

iv. Following a meeting between the Parliamentary Under-Secretary (Commons) and the ASU on 20 November 2001.

v. Following a meeting on 24 June 2003 between the ASU, some of their MPs and the Secretary of State and the Parliamentary Under-Secretary (Commons).

vi. Following correspondence from the ASU received on 5 May 2005.

vii. Following correspondence from George Howarth, MP received on 1 July 2005.

viii. Following a meeting on 19 July 2005 between Nick Brown, MP and the Secretary of State.

Animal Welfare

Mr. Amess: To ask the Secretary of State for Environment, Food and Rural Affairs what mechanisms are in place to ensure that the welfare of animals is safeguarded when they are abandoned as a result of their owners being incapacitated. [177125]

Jonathan Shaw: If someone abandoned an animal without taking all reasonable steps to ensure its welfare needs are met, they would be committing an offence under the Animal Welfare Act 2006.

Mr. Jenkins: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what steps his Department is taking to reduce the number of animals abandoned each year; [179422]

(2) what estimate he has made of the number of animals abandoned after the Christmas period in each of the last five years. [179423]

Jonathan Shaw: The Government introduced the Animal Welfare Act 2006, which came into force in England on 6 April 2007 (and in Wales on 27 March). The Act introduces an offence of failing to provide for the welfare needs of an animal; that is, a 'duty of care' which will allow action to be taken before an animal suffers.

The duty of care means that all animal owners are required to promote animal welfare and potential owners must therefore know the welfare requirements of an animal before they acquire one. Those who abandon an animal without taking all reasonable steps to ensure its welfare needs are met, will be committing an offence under the Act.

We have no estimates concerning the number of animals abandoned after the Christmas period but we are grateful to the Dogs Trust, the Royal Society for the Prevention on Cruelty to Animals and other welfare organisations for the work that they do every year to raise public awareness of this problem.

Animal Welfare: Circuses

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs if he will ban the use of non-domesticated animals in travelling circuses; and if he will make a statement. [177345]

Jonathan Shaw: Mike Radford's report on wild animal acts in travelling circuses was released on 20 November 2007. The Working Group concluded that a ban on wild animals in circuses could not be legally justified purely on scientific grounds. In these circumstances a ban could not be made by using secondary legislation under the Animal Welfare Act 2006. Officials are currently considering the feasibility of introducing secondary legislation under the Act to promote the welfare of wild animal acts.

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what regulations govern the use of wild animals in circuses; what changes he is planning to make to these regulations; and if he will make a statement. [177860]

Jonathan Shaw *[holding answer 14 January 2008]:* The welfare of performing animals is provided for in the general provisions to avoid suffering and ensure welfare in the Animal Welfare Act 2006.

In addition, the training and exhibition of performing animals is further regulated by the Performing Animals Act (Regulation) Act 1925, which requires trainers and exhibitors of such animals to be registered with the local authority. Under the 1925 Act, the police and officers of local authorities, who may include a veterinarian, have power to enter premises where animals are being trained and exhibited. If cruelty and neglect is detected, magistrates courts can prohibit or restrict the training or exhibition of the animals and suspend or cancel the registration granted.

Mike Radford's report on wild animal acts in travelling circuses was released on 20 November 2007. Officials are currently considering the feasibility of introducing secondary legislation under the Animal Welfare Act 2006 to regulate the welfare of wild animal acts, and so replace the 1925 Act.

Animal Welfare: Codes of Practice

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to his answer of 26 November 2007, *Official Report*, columns 28-9W, on animal welfare: codes of practice, how his Department will validate the objectivity of the research it has commissioned from the Game and Wildlife Conservation Trust. [172800]

Jonathan Shaw: DEFRA has commissioned a study by The Game and Wildlife Conservation Trust into the welfare implications of using bits and spectacles. The results of the study will be subject to independent peer review.

Animal Welfare: Prosecutions

Mr. Amess: To ask the Secretary of State for Environment, Food and Rural Affairs (1) how many *(a)* males and *(b)* females have been (i) prosecuted and (ii) convicted of an offence under each relevant section of the Protection of Animals Act 1911 in each year since 1977; [177122]

(2) how many *(a)* males and *(b)* females have been (i) prosecuted and (ii) convicted of an offence under the Abandonment of Animals Act 1960 in each year since 1977. [177123]

Jonathan Shaw: The information requested covering the years 1979-2006 are provided in the following table. Data for 1977 and 1978 are not available broken down to the level of detail requested.

Number of persons proceeded against at magistrates courts and found guilty at all courts for the abandonment of and cruelty to animals, England and Wales 1979-2006[1,2]

	Statute: Protection of Animals Act 1911

[1] Data provided on the principal offence basis.
[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by police. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Source:
Court Proceedings Database—Office for Criminal Justice Reform—Ministry of Justice Our ref: 008 and 009-07

Animals: Abuse

Mr. Evans: To ask the Secretary of State for Environment, Food and Rural Affairs how many people were *(a)* prosecuted and *(b)* convicted for offences of animal cruelty in (i) Lancashire and (ii) England in 2007. [179358]

Jonathan Shaw *[holding answer 15 January 2008]:* Information on the number of defendants prosecuted and convicted for offences of animal cruelty in 2007 will not be available until the autumn of 2008.

Avian Influenza: Testing

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs what criteria he uses to identify sites for testing for the H5N1 virus; and if he will make a statement. [179931]

Jonathan Shaw *[holding answer 17 January 2008]:* Surveillance for avian influenza focuses on species of wild birds that experts believe to have a greater potential role in the spread of avian influenza viruses including ducks, geese, swans, gulls and waders. Sampling is targeted as much as possible to areas where there is an abundance of these species and domestic poultry. The aim is to focus on areas where an introduction of HPAI H5N1 would be more likely to be detected and to areas where an introduction may have more significance to poultry health. More than 6,000 birds were tested last year alone. The numbers of birds tested is in part dependent on the numbers of birds found dead by regular patrols of certain wetland reserves or reported by the public. There have been over 2,000 patrols undertaken since the start of this migration period in September/October at over 200 sites. The number of dead birds can be lower during a milder year. No cuts have been made to active patrolling or testing and in some areas patrolling has been increased due to national and international avian influenza incidents. Samples are also collected from live caught birds at several wetland sites throughout the UK and birds shot through normal wildfowling.

We adopt a partnership approach to such surveillance with over 20 organisations which own sites where testing takes place. These include the Wildfowl and Wetlands Trust, the Royal Society for the Protection of Birds, the British Trust for Ornithology, the Joint Nature Conservation Committee, Natural England, Scottish Natural Heritage, the Countryside Council for Wales, the Royal Society of Wildlife Trusts and local authorities.

Additionally a separate survey takes place across the whole of the UK to monitor any unusually high levels of mortality in wild birds of any species. We also test a random sample of poultry premises from across the UK. During an outbreak, we enhance the level of surveillance that takes place in the surrounding area based on expert ornithological advice.

Avian Influenza: Vaccination

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs what steps are being taken by his Department to ensure that sufficient vaccines are available in the UK should there be a widespread outbreak of avian influenza; and how many vaccines are necessary. [177725]

Jonathan Shaw: As part of our contingency planning for an avian influenza outbreak, and in view of uncertainties in the nature and spread of the virus, we maintain a supply of 10 million doses of vaccine. Five million doses of vaccine are stored in the UK and a further five million doses are kept on a supply contract in Spain, although the contract states that the vaccine must be delivered to the UK within seven days if required. This vaccine could be used against both H5 and H7 strains of the virus, should a veterinary risk assessment indicate it is necessary.

Currently, only birds in English zoos are permitted to be vaccinated because of their vital role in global conservation. We have also produced a delivery plan, available on the DEFRA website, which outlines guidelines for delivering a vaccination programme in birds outside zoos and is adaptable to a range of different epidemiological circumstances which would determine how many doses of vaccine were needed depending on the area to be vaccinated. This plan, which has been developed and agreed with stakeholders, would have to be approved by the European Commission in the event of a decision to vaccinate.

Bluetongue Disease

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs what assistance and measures are in place for farmers who fall outside the immediate surveillance zone in detecting and preventing the spread of the bluetongue disease. [177653]

Jonathan Shaw: The Government are working closely with a core group of industry stakeholders to decide on actions necessary to combat bluetongue disease across the country. To this end, a policy statement (with supporting rationale) and an economic assessment have been agreed. These set out the strategy and priorities for the winter period. The UK remains committed to a disease control approach which aims to contain the disease within the current restricted zones.

Comprehensive information is available to farmers on the DEFRA website, via our telephone Helpline and through local Animal Health offices. We have published information on detecting and preventing the spread of bluetongue disease, including how to spot the clinical signs, midge mitigating measures, and what to do if farmers suspect signs of disease. This is also available on the DEFRA website.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs why the decision was taken to source and supply the anti-bluetongue virus vaccine from one supplier. [177713]

Jonathan Shaw: Following a full assessment of the three bids submitted to supply bluetongue vaccine, which included input from veterinary experts and the farming industry, we chose Intervet as the preferred bidder on the basis of technical specification, delivery timetable and price. Intervet has been developing a bluetongue serotype 8 (BTV-8) vaccine for over a year, has an established track record in producing vaccines for other diseases, and supplies vaccine for DEFRA's avian influenza vaccine bank. Livestock keepers will be offered the opportunity to purchase vaccine from the bank and I am confident that the Intervet vaccine will offer them the best value and most effective option.

Bovine Tuberculosis

Mr. David Anderson: To ask the Secretary of State for Environment, Food and Rural Affairs what progress has been made on development of *(a)* cattle and *(b)* badger vaccines for bovine tuberculosis; and if he will make a statement. [177374]

Jonathan Shaw: The research programme for producing an effective vaccine against tuberculosis in *(a)* badgers and *(b)* cattle remains broadly in line with the timetable outlined in the Krebs report (1997).

Identification of candidate vaccines and development of differential diagnostic tests started in 1999 and is ongoing. Experimental investigations of vaccination protocols are progressing, including a natural transmission study in cattle looking at various candidate vaccines. Badger vaccines are further advanced with a three and a half year vaccine field trial to gather safety data and assess the efficacy of injectable Bacille Calmette-Guérin (BCG), and a project on the development of oral formulations.

Badger vaccines are likely to be available sooner than cattle vaccines. An injectable badger vaccine could be available within three to five years, and an oral badger vaccine in five to seven years. It will probably be at least eight years before a cattle vaccine is available. As with all research there is no guarantee of success.

In addition to developing the vaccine itself, there are a number of important legal, commercial, regulatory and policy issues surrounding the implementation of a bTB vaccine. Work has begun to identify and address these issues so we are able to make full use of a vaccine once it becomes available.

Mr. David Anderson: To ask the Secretary of State for Environment, Food and Rural Affairs (1) when he expects to make a decision on policy on badger culling; and if he will make a statement; [177375]

(2) what assessment he has made of research on the effects on cattle health of culling badgers as a response to bovine TB; and if he will make a statement. [177564]

Jonathan Shaw: The question of whether badger culling has a role to play in controlling bovine TB in cattle is complex and presents very difficult choices.

Results from the Randomised Badger Culling Trial show that small-scale badger culling can increase levels of bovine TB in cattle. However, they also suggest that co-ordinated and efficient culling carried out over areas larger than the RBCT and sustained over a number of years could prove beneficial. However, Professor John Bourne's report said that culling could not meaningfully contribute to the control of bovine TB.

The Secretary of State has been clear that the next step is for DEFRA's ministerial team to have discussions with interested parties. He has already met with former members of the Independent Scientific Group on Cattle TB, including Professor John Bourne, and separately with the former Chief Scientific Adviser, Professor Sir David King.

While we are keen to make progress on reaching a decision, there is no specific timetable for doing so.

Mr. Stephen O'Brien: To ask the Secretary of State for Environment, Food and Rural Affairs how many times and in what circumstances his Department used its powers to appoint an independent valuer in cases of bovine tuberculosis; and what the outcome was regarding compensation paid on each occasion. [177631]

Jonathan Shaw: Since 1 February 2006, compensation for cattle compulsorily slaughtered for bovine TB control reasons has mainly been determined through table valuations. However, where inadequate (or no) sales data have been collected for a particular category, and a previously determined market average price is not available, the level of compensation is determined by an independent valuer.

Since table valuations were introduced, compensation has been determined in this way in approximately 2 per cent. of cases—which equates to about 635 animals between February 2006 and November 2007. When independent valuers are appointed, their decision is binding on both DEFRA and the cattle owner.

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs what recent estimate has been made of the percentage of *(a)* badgers and *(b)* cattle affected by tuberculosis in hotspot areas. [178359]

Jonathan Shaw: The randomised badger culling trial (RBCT), which ran from 1998 to 2006 and was centred on areas of high bovine TB risk, found evidence of Mycobacterium bovis (M. bovis) infection in badgers in all RBCT areas where culling took place.

During the RBCT, patterns of M. bovis infection were also investigated in badgers killed in road traffic accidents (RTAs). The overall prevalence of M. bovis infection in RTA badgers (15 per cent.) was similar to that recorded in badgers culled in the "proactive" RBCT areas (16.6 per cent.) between 2002 and 2005. However, when a sample of the proactively culled badgers were subjected to a more detailed post mortem analysis, prevalence levels nearly doubled.

The following table lists those counties in Great Britain with a TB herd incidence greater than the national average in January to November 2007.

Worst affected counties in Great Britain	*TB incidence[1] (percentage)*
Gloucestershire	10.9
Hereford and Worcester	8.8
Gwent	7.9
Devon	6.8
Wiltshire	6.0
Powys	5.8
Shropshire	5.8
Cornwall	5.4
Avon	4.9
Staffordshire	4.7
Somerset	3.7
Great Britain	3.7

[1] Confirmed new TB herd incidents (breakdowns) as a percentage of the number of tests on unrestricted herds (not including pre-movement tests). Provisional figures, subject to change as more data become available.

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs what recent assessment has been made of the merits of *(a)* pre-movement testing of cattle for bovine tuberculosis and *(b)* the previous rapid tracing system. [178360]

Jonathan Shaw: Pre-movement testing has not replaced the system of bovine tuberculosis (TB) tracing carried out by Animal Health following the confirmation of the disease in a herd. The two measures are complementary. Pre-movement testing is designed to reduce the risk of the disease spreading

between herds. However, it does not apply to all herds, just one and two-yearly tested herds, and no policy can be 100 per cent. effective. Tracings remain essential in containing the risk from animals which have moved out of herds that are subsequently found to be infected.

Monitoring of the impacts of TB pre-movement testing is ongoing and key statistics are produced each month and published on the DEFRA website. Evidence to date shows that new TB incidents are being prevented by pre-movement tests. Infection is also being picked up earlier in high risk herds. Between 27 March 2006 and 30 November 2007 635 reactors were detected in 344 herds in England from pre-movement tests[1].

[1] The published figures are an underestimate of the impact of the policy and show the minimum benefits only. The number of reactors identified do not take into account the benefits of herd owners utilising Government paid TB surveillance tests as pre-movement tests or the number of inconclusive reactors identified by pre-movement testing which have become reactors when retested.

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs how many officials in his Department have worked on bovine tuberculosis and related matters in the last five years. [178365]

Jonathan Shaw: Bovine tuberculosis (bTB) is one of DEFRA's top animal health priorities. While there are teams in core DEFRA and the relevant agencies—Animal Health, the Central Science Laboratory and the Veterinary Laboratories Agency—with roles dedicated predominantly to bTB policy, delivery and research, others have roles in which bTB-related work forms only part of their responsibilities. Additionally, resources are deployed flexibly in response to changing business demands.

Therefore, a full response to the hon. Member's question could be made only at disproportionate cost to the Department.

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs how many cases of bovine tuberculosis in cattle there were, and how much compensation was paid for affected cattle, in each county in the last five years. [178369]

Jonathan Shaw: The information is as follows:

Table 1 sets out the number of cattle slaughtered under bovine tuberculosis control measures and compensation paid in Great Britain in each of the last five calendar years for which full-year data are available.

Table 2 sets out a full county breakdown of the number of cattle slaughtered over this period. A full county breakdown of the amount of compensation paid is not available.

Table 1: Cattle slaughtered under TB control measures in Great Britain and compensation paid: 2002-06[1]

	2002	2003	2004	2005	2006
Cattle slaughtered	23,744	23,821	23,064	30,081	22,242
Compensation paid (£)	23,138,512	38,216,249	33,785,023	42,844,857	28,169,269

[1] Includes cattle slaughtered as reactors, inconclusive reactors and direct contacts. 2005 and 2006 figures are provisional, subject to change as more data become available.

Table 2: Cattle slaughtered under TB control measures in Great Britain, by county, 2002-06[1]

	2002	2003	2004	2005	2006
Stirling	0	2	2	0	4
Sutherland	0	0	1	1	0
West Lothian	0	0	0	0	0
Wigtown	44	26	107	23	16
Total	241	536	243	181	210

[1] Includes cattle slaughtered as reactors, inconclusive reactors and direct contacts. 2005 and 2006 figures are provisional, subject to change as more data become available.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if he will review the tabular valuation system for compensating farmers for animals slaughtered following infection with bovine tuberculosis to make provision for organically-reared cows and steers. [178981]

Jonathan Shaw: The Government recognise that the current table valuation-based compensation system is a cause of concern to some stakeholders, including some organic cattle farmers.

While DEFRA has not ruled out the possibility of changes to the compensation system, any changes would need to be justified and take into account the interests of all parties, including taxpayers.

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs when he expects a licence for the use of the BCG vaccine against bovine tuberculosis in badgers to be granted; and if he will make a statement. [178340]

Jonathan Shaw: Before it can be widely used, there is a requirement for BCG to be licensed for use in badgers. There are defined steps in achieving this licence. An experimental safety study performed to Good Laboratory Practice (GLP) accreditation was completed successfully at the Veterinary Laboratories Agency in 2004-05 and two projects are ongoing: a three year field safety study (Project CB0115) and a demonstration of the efficacy of the vaccine (Project CB0116). An independent consultant with experience in the veterinary pharmaceutical industry is monitoring the study.

In addition to these licensing projects, work is also underway on developing an oral vaccine and bait delivery systems for badgers (Project SE3223).

The earliest date a licensed injectable badger vaccine may be available is the end of 2010, and the earliest a licensed oral vaccine may be available is the end of 2013. However, as with all research, there is no guarantee of success.

Even if a licensed vaccine were available, there are a number of significant non-technical barriers to successful rollout surrounding acceptability, practicality, legality and the relative costs, responsibility for costs, and benefits of use.

Bovine Tuberculosis: Costs

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate his Department has made of the average cost to a farmer of *(a)* veterinary bills and *(b)* labour for pre-movement testing for cattle for bovine tuberculosis. [178363]

Jonathan Shaw: Pre-movement tests are a private transaction between individual farmers and their local veterinary inspector.

The cost to the farmer of pre-movement testing has been updated in the light of experience and to reflect an independent survey on veterinary capacity and costs. The revised assessment of costs and benefits of pre-movement testing uses a value of £9.60 per animal (£7.10 veterinary cost, 50p tuberculin, £2.00 cost to farmer) as the average cost of pre-movement testing.

The updated assessment and the independent survey are both available on the DEFRA website.

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs what the average cost to the public purse is of pre-movement testing of an individual animal for bovine tuberculosis. [178364]

Jonathan Shaw: All bovine tuberculosis (TB) pre-movement tests must be arranged and paid for by the herd owner. As there are benefits to the herd owner of buying or selling cattle with some degree of disease assurance, herd owners are expected to cover the costs of the local veterinary inspectors' time to carry out pre-movement tests while Government funds the provision of tuberculin. The average cost of tuberculin per animal tested is estimated at 50 pence.

Bovine Tuberculosis: Disease Control

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs how many animals had a pre-movement test for bovine tuberculosis in 2007; and how many of those were found to be reactors. [179662]

Jonathan Shaw: In England, between 1 January and 30 November 2007, 344,638 dedicated TB pre-movement tests were carried out. As a result 357 reactors were detected.

The figures are an underestimate of the impact of the policy and show the minimum benefits only. The number of reactors identified do not take into account the benefits of herd owners utilising Government paid TB surveillance tests as pre-movement tests or the number of inconclusive reactors identified by pre-movement testing which have become reactors when retested.

Cumulative pre-movement statistics (from September 2005 onwards) are updated monthly and published on the DEFRA website.

Cattle: Imports

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if he will reduce the number of cattle imported into the UK in order to reduce the risk of further spread of bluetongue. [178982]

Jonathan Shaw: Under the EU bluetongue regulation, susceptible animals are permitted to move out of restricted zones into free areas for intra-community trade, provided an official veterinarian of the exporting country certifies that all the necessary conditions have been met. In most cases, animals must undergo pre-movement testing and these tests must indicate negative results for virus infection. Importers also have a responsibility to import only those animals which comply with the rules and to notify Animal Health in advance of the movement; we have written to importers to remind them of their responsibilities. Animals are also permitted to move freely within the same zones established in each country, such as from the Netherlands protection zone to the UK protection zone. The UK cannot prohibit imports of animals moved in accordance with these conditions.

The recent incidents of bluetongue-positive animals being imported to the UK may highlight inadequacies in the application of these measures in EU member states. We are in contact with the relevant member state officials to establish how these animals arrived in the UK, and we have written and spoken to the Commission to ask for appropriate measures to be taken to ensure such movements are managed safely.

China: Bears

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs what steps the Government is taking to encourage China and Russia to improve welfare standards for bears. [177647]

Jonathan Shaw: DEFRA has no responsibility for animal welfare issues in China or Russia.

Christmas

Mr. Burns: To ask the Secretary of State for Environment, Food and Rural Affairs how much his Department spent on *(a)* Christmas cards and *(b)* postage of Christmas cards in 2007. [176921]

Jonathan Shaw: In 2007, core-DEFRA did not produce physical Christmas cards opting instead for a selection of e-greetings cards chosen following an internal design competition and made available for all staff to use. Accordingly, no postage costs were incurred.

Climate Change

Mr. Greg Knight: To ask the Secretary of State for Environment, Food and Rural Affairs how many departmental *(a)* Ministers, *(b)* civil servants and *(c)* consultants, contractors or secondees working full-time or part-time for his Department attended the United Nations Climate Change Conference in Bali. [179194]

Mr. Woolas *[holding answer 16 January 2008]:* The number of UK Government delegates from the Department for Environment, Food and Rural Affairs who attended the 13th Conference of the Parties (COP13) to the United Nations Framework Convention on Climate Change in Bali, Indonesia, was 33. This number included officials and two Ministers, the Secretary of State and myself.

Many of these officials, in addition to representing the UK and EU in meetings, chaired international contact groups and not all of the delegation was in Bali for the whole of the two week Conference.

Countryside Stewardship Scheme: Cornwall

Dan Rogerson: To ask the Secretary of State for Environment, Food and Rural Affairs what evidence has been obtained by Natural England to form a basis for ending the 10 year Countryside Stewardship agreement with Eastmoor Commoners Ltd (Cornwall); and if he will make a statement. [179752]

Jonathan Shaw *[holding answer 17 January 2008]:* Regular livestock counts on Eastmoor Common demonstrated that the stocking levels were consistently and significantly higher than the agreed levels set in their Countryside Stewardship Agreement, leading to overgrazing of the Common and the loss of any environment gains planned in the Countryside Stewardship Agreement. Eastmoor Commoners Ltd. was given guidance and advised that this would lead to ending their Countryside Stewardship Agreement, but the situation did not improve and the agreement was terminated.

Dangerous Dogs Act 1991

Mary Creagh: To ask the Secretary of State for Environment, Food and Rural Affairs how many people were *(a)* prosecuted and *(b)* convicted under the Dangerous Dogs Act 1991 in each police force area in each year since 1997. [177208]

Jonathan Shaw: The information requested on prosecutions and convictions under the Dangerous Dogs Acts of 1989 and 1991 is provided in the following tables:

Number of defendants proceeded against at magistrates' courts and found guilty at all courts for offences under the Dangerous Dogs Acts 1989 and 1991, by police force area, England and Wales 1997-2006[1,2]

[1] Data provided on the principal offence basis.
[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Source:
Court Proceedings Database—Office for Criminal Justice Reform—Ministry of Justice Our ref. IOS019-08

Mary Creagh: To ask the Secretary of State for Environment, Food and Rural Affairs what responses he has received from chief constables on his 2007 review of the Dangerous Dogs Act 1991; and if he will publish them. [177209]

Jonathan Shaw: 32 responses from police forces in England and Wales were received in response to our request for information on dangerous dogs legislation. It is clear that among police, there is no overwhelming support for major changes to existing law, but it is also clear from the consultation that the existing law needs to be enforced more rigorously. I will place a summary of the consultation responses in the House Libraries.

To assist the police, local authorities and the general public we are giving priority to revising the guidance that DEFRA has issued about the law on dangerous and unruly dogs. Officials are working with stakeholders from a range of backgrounds to prepare new guidance and I anticipate that it will be ready for publication in the spring of 2008.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what estimate he has made of the number of illegal dogs under the Dangerous Dogs Act 1991 in the UK in each year since 1997; and if he will make a statement; [177715]

(2) what estimate he has made of the number of illegal dogs under the Dangerous Dogs Act 1991 that entered the UK in each year since 1997; and if he will make a statement. [177716]

Jonathan Shaw: No estimate has been made of the number of illegally held dogs in this country, including those imported to this country from overseas.

Dangerous Dogs Act 1991: Greater London

Mr. Hands: To ask the Secretary of State for Environment, Food and Rural Affairs how many animals were registered, in each London borough, under the Dangerous Dogs Act 1991 in each of the last five years. [178921]

Jonathan Shaw: The number of dogs, prohibited by section 1 of the Dangerous Dogs Act 1991, which were added to the Index of Exempted Dogs in each of the last five years is set out in the following table.

Index of Exempted Dogs, Analysis of Greater London Dogs, numbers added to Index in years 2003 to 2007

Departmental Contracts

Jim Cousins: To ask the Secretary of State for Environment, Food and Rural Affairs what the *a* objective and *b* value was of each contract placed with (i) Deloitte & Touche, (ii) Ernst & Young, (iii) KPMG, (iv) PricewaterhouseCoopers and (v) PA Consulting by his Department and its agencies in each year since 2004-05. [176029]

Jonathan Shaw: From information held centrally, the core Department's expenditure with Deloitte and Touche, Ernst and Young, KPMG, PricewaterhouseCoopers, and PA Consulting in each year since 2004-05 is:

£

	2004-05	2005-06	2006-07	2007-08
Deloitte and Touche	211,301.44		138,269.24	50,078.51
Deloitte M C S Ltd	2,426,828.66	2,762,458.14	1,157,656.14	4,257,593.24
Ernst and Young	319,222.57	207,405.13	63,767.26	117,580.00
KPMG	769,929.83	861,359.45	934,652.07	150,557.58
P A Consulting Group	6,250,144.71	4,689,108.39	4,326,282.61	516,030.16
PricewaterhouseCoopers	61,758.00	873,083.85	2,478,503.11	211,259.23

[1] April to December.

Information on the nature of this expenditure, and on the nature and value of similar expenditure by DEFRA's agencies and non-departmental public bodies could be provided only at disproportionate costs.

Departmental Ministerial Policy Advisers

Mr. Hoban: To ask the Secretary of State for Environment, Food and Rural Affairs whether any of his Department's special advisers also work for organisations outside his Department. [178481]

Jonathan Shaw: Special advisers are appointed under terms and conditions set out in the "Model Contract and Code" of "Conduct for Special Advisers", copies of which are in the Library of the House.

Departmental Public Expenditure

Mrs. Moon: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the effects of the change in his Department's budget following the most recent Comprehensive Spending Review on *(a)* the agri-environment schemes funded under the Rural Development Programme for England and *(b)* marine monitoring. [177554]

Jonathan Shaw: Final budget decisions following the comprehensive spending review (CSR) have not yet been made and should be announced soon.

However, the Rural Development Programme for England programme budget will be maintained at £3.9 billion. We will need to profile expenditure over the

seven-year life of the programme to take account of the Department's budget across the CSR period, but the total amount allocated to the programme over the seven years will not be affected.

Departmental Secondment

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs how many staff have been seconded to (*a*) his Department and (*b*) the Waste Resources Action Programme in the last 12 months; from which outside body; and what the length was of the secondment in each case. [176529]

Jonathan Shaw: 38 staff have been seconded to DEFRA in the 12 months ending on 31 December 2007. This includes all staff whose period of secondment commenced before or within 2007 and ended within 2007 or has not yet ended. Their home organisation and length of secondment are shown in the following table:

Outside body	*Length of secondment - months*
AEA Energy and Environment	5

DEFRA	9
Environment Agency	12

Disclosure of Information: Public Bodies

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs what work or research is being undertaken or has been commissioned by his (*a*) Department and (*b*) its agencies in relation to the development of XML Schema to facilitate sharing of information between public authorities. [176582]

Jonathan Shaw: When developing new IT systems, DEFRA (through IBM, the service supplier) conforms with Cabinet Office UK GovTalk XML schema standards.

DEFRA has adopted a "Service Oriented Architecture" (SOA) which involves the build up of a library of XML schemas derived from DEFRA's Common Data Model to control the structured message handling of services. This technical strategy enables data sharing among users of these services which can include internal customers, Other Government Departments, NDPBs, local authorities and industry bodies.

This architecture is being utilised by the DEFRA Agency AnimalHealth in developing IT for its Business Reform Programme and is available to all other DEFRA Agencies.

Dogs

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what estimate he has made of the number of (*a*) Japanese tosas and (*b*) cross-bred Japanese tosas in the UK in each year since 1997; and if he will make a statement; [177718]

(2) what estimate he has made of the number of (*a*) pit bull terriers and (*b*) cross-bred pit bull terriers in the UK in each year since 1997; and if he will make a statement; [177719]

(3) what estimate he has made of the number of (*a*) Dogo Argentinos and (*b*) cross-bred Dogo Argentinos in the UK in each year since 1997; and if he will make a statement; [177720]

(4) what estimate he has made of the number of (*a*) Fila Brasileiros and (*b*) cross-bred Fila Brasileiros in the UK in each year since 1997; and if he will make a statement. [177721]

Jonathan Shaw: The number of these dogs for each year is set out in the following table. Cross-breeds are included as they are regarded as 'types'. These are dogs held legally under the exemption scheme set up under section 1(5) of the Dangerous Dogs Act 1991. There are no estimates on the number of illegally held dogs.

	Live Dogs	Live Pit Bulls	Live Tosa	Live Dogo Argentino	Live Fila Brazileiro
1996	6,382	6,381	1	0	0
1997	6,191	6,190	1	0	0
1998	5,992	5,991	1	0	0
1999	5,552	5,551	1	0	0
2000	5,325	5,324	1	0	0
2001	5,099	5,098	1	0	0
2002	4,877	4,876	1	0	0
2003	4,682	4,682	0	0	0
2004	4,479	4,479	0	0	0
2005	3,170	3,170	0	0	0
2006	2,235	2,235	0	0	0
2007	1,237	1,237	0	0	0

Dogs: Animal Welfare

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs what provisions are being included in the 2014 Animal Health and Welfare Strategy's vision for the protection and humane treatment of race dogs. [177651]

Jonathan Shaw: The scope of the Animal Health and Welfare Strategy includes animals used in sport. The Strategy's vision describes the world of animal health and welfare that we want to create by 2014, and includes the aim that animals in Great Britain kept for food, farming, sport, companionship, entertainment and in zoos are healthy and treated humanely.

The Government also intends to introduce new regulations under the Animal Welfare Act 2006 which will further help safeguard the welfare of racing greyhounds.

Dogs: Internet

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the trade in dangerous dogs over the internet; and if he will make a statement. [177717]

Jonathan Shaw: Under the Dangerous Dogs Act 1991, it is an offence to advertise the sale, exchanging or gifting of one of the four types of dog where possession is prohibited except under strictly controlled conditions. The offence covers sales over the internet. Any assessment of the internet trade would not be practical as internet trading is worldwide, and in some countries, it is legal to advertise these dogs. An offence would be committed if a person living in this country bought a prohibited dog from an overseas trader and then brought it here.

Energy: Conservation

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the reductions in *(a)* greenhouse gas emissions and *(b)* terawatt hours of domestic fuel used as a result of the implementation of the Home Energy Conservation Act 1995. [181181]

Mr. Woolas: In the period 1 April 1996 to 31 March 2006, Energy Conservation Authorities (ECAs) in England have reported an overall improvement in domestic energy efficiency of approximately 19.26 per cent. as measured against a 1996 baseline. It is estimated that this equates to approximately 130 terawatt hours of domestic energy. No estimate has been made of the resulting reductions in greenhouse gas emissions. It is important to note that these figures have not been independently verified.

It is impossible to separate out the contribution of the Home Energy Conservation Act (HECA) from the data reported in other programmes which contribute to energy efficiency, in particular the Energy Efficiency Commitment, Warm Front and Decent Homes.

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs what plans he has to bring forward amendments to the Home Energy Conservation Act 1995. [181182]

Mr. Woolas: The Government have recently consulted on their Review of the Home Energy Conservation Act (HECA) 1995, as implemented in England.

On the basis of the findings of the review, the Government identified three options for the future of HECA for consideration in that consultation:

i. Leave HECA to operate unchanged

ii. Introduction of a new standard methodology based on average Standard Assessment Procedure (SAP ratings)

iii. Repeal HECA

Responses to that consultation are currently being analysed and the Government will publish a summary of them, along with the Government's plans for the future of HECA, in due course.

English Language

Damian Green: To ask the Secretary of State for Environment, Food and Rural Affairs how much his Department has spent on English language classes for staff in the last year for which figures are available. [177483]

Jonathan Shaw: DEFRA does not centrally hold information on English Language classes for staff, and to collate those data would incur disproportionate cost.

Floods

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what research his Department has *(a)* undertaken and *(b)* commissioned on dispersed flooding; and how such research will support greater co-ordination between the Environment Agency, local authorities, water companies and other statutory bodies in their response to flooding. [181180]

Mr. Woolas: DEFRA, with support from UK Water Industry Research, is currently funding 15 urban drainage pilots around the country. The pilots are examining the effectiveness of partnership working between the various drainage authorities (water companies, local authorities, the Environment Agency and Internal Drainage Boards),

and how this could be improved to find more effective solutions to surface water flooding problems.

As part of our joint research and development programme with the Environment Agency on flood and coastal erosion risk management, we have funded several research projects on urban flood risk management. These include good-practice guidance documents on using Sustainable Drainage Systems (SUDS) and designing for exceedance in urban drainage. The joint research and development programme has been a major partner in the Flood Risk Management Research Consortium, led through the Engineering and Physical Research Council. In this Consortium, the Research Priority Area on Urban Flood Management has been a focus for practitioners and researchers to develop and pilot innovative modelling techniques for surface water flooding.

Floods: Insurance

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions he has had with insurance companies on mitigation of flood risks through measures to be included in the settlements of claims for previous flood damage. [181178]

Mr. Woolas: My right hon. Friend the Secretary of State for the Environment (Hilary Benn), together with representatives across government responsible for the recovery from the flooding last summer, have a continuing dialogue with insurers including ministerial meetings and regular official-level working group meetings. In these discussions, we have highlighted the importance of enabling and incentivising householders and small businesses to adapt to flood risks, particularly through the flood resilient repair of properties where this is appropriate.

We have also engaged with the insurers and other representative bodies to identify any barriers to the wider adoption of resilient repairs and expect the dialogue with insurers to continue through the review of the statement of principles.

Food: Safety

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs what responsibilities he has for food safety; what liaison his Department undertakes with the Food Standards Agency on matters of common interest; and if he will make a statement. [178355]

Jonathan Shaw *[holding answer 14 January 2008]:* DEFRA has no direct responsibility for forming policy on aspects of food safety, but has regular contact with the Food Standards Agency (FSA) on this and a range of other issues. DEFRA and FSA relations are governed by their respective statutory functions and by a Concordat which sets out the general principles governing the DEFRA/FSA relationship and how issues should be handled to ensure effective working relationships with good communications in both directions. It is available from the DEFRA website:

http://www.defra.gov.uk/corporate/fsaconcd/concord.htm

Food: Sustainable Development

Jo Swinson: To ask the Secretary of State for Environment, Food and Rural Affairs if he will take steps to include carbon emissions from transport under the evaluative criteria for food labels which indicate the environmental friendliness and sustainability of products; and if he will take steps to encourage the use of water-borne freight as a means of cutting these emissions. [177423]

Jonathan Shaw: DEFRA and The Carbon Trust are co-sponsoring the British Standards Institute to develop a methodology to measure the embedded greenhouse gas in products and services including food and drink. This could be used as a basis for an environmental label and will include the emissions from all food transport. We hope this work will encourage the reduction of emissions across the food supply chain, including water-borne freight.

Genetics: Birds

Mr. Meacher: To ask the Secretary of State for Environment, Food and Rural Affairs what the current status is of the licences held by *(a)* the Royal Botanical Gardens, Kew, *(b)* Syngenta Jealotts Hill and *(c)* Birkbeck College; and, for each establishment, what comparative assessment has been made of the DNA profile of the Diabotica kept with the DNA profiles of the bird population found in South East England. [175616]

Jonathan Shaw *[holding answer 8 January 2008]:* I am unclear about the meaning of aspects of the question and respectfully ask my right hon. Friend to write to me with further clarification. I will then endeavour to provide a full response.

Greyhounds: Animal Welfare

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs what his policy is for improving greyhound welfare; and if he will make a statement. [177346]

Jonathan Shaw: The Government are committed to introducing new regulations under the Animal Welfare Act 2006 to help safeguard the welfare of racing greyhounds. In addition, the Government have made it clear to the industry that a lot needs to be done to get its house in order to help improve welfare standards for the dogs it uses in racing.

I am pleased to say that the industry has taken these demands very seriously. To facilitate much needed reform, the industry set up an inquiry under Lord Donoughue—a former Agriculture Minister—in order to establish what should be done to ensure that the industry has in place an efficient, modern and respected regulatory body. Lord Donoughue published his comprehensive report at the end of November. The Government will want to consider how the greyhound industry responds to Lord Donoughue's review. Our hope is that the industry will make a positive and swift response to his recommendations.

There will be a public consultation on our proposals for greyhound racing before approval by Parliament.

We intend to give this matter our priority, although the timing of the consultation will be dependent on the response of the industry to the recommendations made by the Donoughue enquiry.

It is already an offence under the Animal Welfare Act to destroy an animal in a manner that will cause it unnecessary suffering. In addition, the Act makes it an offence of failing to provide for the welfare needs of an animal. This will apply to owners and keepers of all animals, including racing and retired greyhounds, and will raise welfare standards throughout the dogs' lives.

Hill Farming: Labour Turnover

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs how many hill farmers left the industry in each of the last 10 years. [180103]

Jonathan Shaw *[holding answer 21 January 2008]:* Information on the number of farmers, partners, directors and spouses working on farms is collected in the Annual June Survey of Agriculture and Horticulture. No information is collected on the number of farmers leaving the industry. The June Survey data is not split by hill and lowland farm but a breakdown of farmers in Less Favoured Areas between 1997 and 2006 are shown in the following table. These figures show net change only and therefore include gains as well as losses. The figures between certain years (in particular between 2001-02 and 2005-06) are not directly comparable due to changes in definitions and methodology as explained in the table notes.

Farmers, Partners, Directors and Spouses in Less Favoured Areas

	Number
1997	25,600
1998	28,466
1999	27,819
2000	28,671
2001	33,452
2002	32,582
2003	30,833
2004	30,955
2005	31,101
2006	36,348

Notes:

1. Less favoured areas (LFA) are areas, such as mountainous and hilly areas, within the European Union where farming is made more difficult by natural handicaps.
2. Less Favoured Area holdings were classified differently in 2006 and figures may not be comparable to previous years. Geographical grid references applied from 2006 are more robust than previous historical data.
3. Estimates are based on a sample survey and are therefore subject to a degree of sampling error.
4. Figures for 1997 to 1999 show main holdings only, from 2000 onwards minor holdings are also included.
5. Due to a register improvement exercise in 2001 labour figures prior to this date are not directly comparable with later results.
6. The introduction of the Single Payment Scheme in 2005 has led to an increase in the number of holdings registered. This impacted on the labour totals recorded through the survey in June 2006. These data for June 2006 are therefore not comparable with those from earlier years.

Source:

June Agricultural Survey

Home Energy Efficiency Scheme: Finance

Rosie Cooper: To ask the Secretary of State for Environment, Food and Rural Affairs if he will allocate more resources to the Government Affairs Team of the Warm Front scheme to provide timely and substantive responses to inquiries from hon. Members. [179705]

Mr. Woolas: Resource allocation to the Warm Front Government Affairs Team is the responsibility of eaga plc as part of their contracted role as Warm Front scheme manager. Eaga are required to respond to hon. Members' inquiries within the timeline of 28 days. This is set by DEFRA for the Warm Front programme, and the vast majority of cases are responded to well within this timeframe. Particular concerns of hon. Members can be raised with Ministers.

Horses: Animal Welfare

Mr. Amess: To ask the Secretary of State for Environment, Food and Rural Affairs what legislation includes provisions relating to the tethering of horses; what amendments have been made to this legislation since it was passed; and if he will make a statement. [177572]

Jonathan Shaw: The Protection Against Cruel Tethering Act 1988 created a specific offence under the Protection of Animals Act 1911 of causing unnecessary suffering to a horse, ass or mule by the manner or condition of its tethering. The Protection Against Cruel Tethering Act was repealed and replaced by the Animal Welfare Act 2006. Under the 2006 Act, it is a criminal offence to either cause unnecessary suffering to—or fail to provide for the welfare needs of—any domestic or captive animal. If a horse is tethered in such a manner as to cause it to suffer unnecessarily, or in a way which does not meet acceptable welfare standards, then action can be taken.

Horses: Databases

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs what progress has been made in the development of the National Equine Database; and what the projected completion date is for this project. [177723]

Jonathan Shaw: The core element of the National Equine Database (NED), which contains basic horse and owner identification details, was launched in April 2006. This database is used by the Government to support the EU Horse Passport Legislation (2000/68EC), as well as contributing to the surveillance and control of exotic equine diseases.

Recently, the British Equestrian Federation (BEF) has, on behalf of the equine industry, agreed to take over responsibility for completing the NED project which will involve the delivery of NED Online, a website containing horse performance and pedigree information to enable the improvement of the overall quality and competitiveness of horses in the UK. We expect NED online to be launched later this year.

Institute for Animal Health: Pirbright

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs what removals of contaminated soil from the Pirbright site have taken place; whether required waste shipment licences were obtained upon each occasion; what steps his Department took to ensure that each removal complied with the relevant waste management regulations; and if he will make a statement. [177563]

Jonathan Shaw: There is no evidence that loads of contaminated soil were transported from the Pirbright site, and the area where contamination might have occurred was reported to be cordoned off from the rest of the site on 8 August. However, lorries were driven over the potentially infected area and could therefore have picked up contaminated soil on their tyres. These lorry movements have been mapped and assessed. Full details of the epidemiological investigations into the outbreak can be found on the DEFRA website.

Laboratories: Security

Harry Cohen: To ask the Secretary of State for Environment, Food and Rural Affairs what the outcome has been of the high-risk laboratories' review of biosecurity arrangements; and whether any changes are planned to be made to those arrangements. [177044]

Jonathan Shaw: We accepted all recommendations that apply to the Government contained in the Callaghan, Health and Safety Executive (HSE) and Spratt reports. The regulatory outcome will be one that provides an assurance that the risk of accidental release of specified animal pathogens is as close to zero as possible.

Stringent new conditions have been applied to work undertaken on the Pirbright site, and a safety alert was issued to all similar laboratories immediately following the August 2007 outbreak. A follow-up round of inspections took place jointly with the HSE. The first phase of the safety alert inspection programme focused on containment level (CL) four facilities and was completed by mid-November 2007. These inspections, carried out by regulatory inspectors, revealed no breaches of the legislation and no formal enforcement action was taken. This process has provided both the regulatory bodies and the operators of the laboratories with the assurance that their facilities are well managed. The inspections have also provided a useful opportunity to provide advice and guidance on good practice.

A second phase involving regulatory visits to CL3 facilities, prioritised according to risk, is being developed, with visits planned for later this year.

Milk: Prices

Mr. McLoughlin: To ask the Secretary of State for Environment, Food and Rural Affairs what steps his Department is taking to ensure dairy farmers are paid a fair price for their milk. [178545]

Jonathan Shaw: The Government believe that the setting of milk prices is a commercial matter to be resolved by private negotiation which should take place within the parameters set by competition law and that the market must determine prices.

National Fruit Collection

Mrs. Dunwoody: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what plans he has for the future administration, finance and control of Brogdale and of the UK's special fruit tree collection; and if he will make a statement; [180194]

(2) what criteria his Department will use to estimate best value when considering tenders to provide long-term relocation of the fruit collection at Brogdale; and what independent scientific and horticultural advice on those criteria was received by the Department; [180303]

(3) what assessment his Department has made of the potential risks of re-propagation and removal of the fruit tree collection at Brogdale to any new site; [180203]

(4) what private companies are involved in the control of the national fruit collection at Brogdale; what scientific evidence is available on the costs and benefits of a relocation of the collection; and if he will publish this evidence. [180322]

Jonathan Shaw *[holding answer 21 January 2008]:* The National Fruit Collection is currently maintained by the Brogdale Horticultural Trust and scientifically curated by Imperial College.

In response to an open competition, which allowed DEFRA to look at all the available options for the future of the collections, tenders were received and assessed by expert peer reviewers and an internal selection panel. The selection process also included visits to all prospective sites and presentations from the applicants. The selection process was carried out in line with the guidelines set out in DEFRA's Science Handbook.

Any potential relocation of the collection was considered to be a relatively low risk procedure as there are a number of suitable locations in the UK for growing fruit trees. The whole collection was moved successfully from Wisley to Brogdale in the 1950s, and fruit trees are regularly re-propagated as a matter of course.

On 19 December 2007, DEFRA announced the Collections would remain at Brogdale for the foreseeable future. From 1 April 2008, the maintenance and curation of the collection will be managed by the University of Reading, subject to agreement with the landlord to extend the lease at Brogdale.

Natural England: Rural Payments Agency

Mrs. Moon: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the potential to transfer some of Natural England's scheme payment functions and staff to the Rural Payments Agency. [177625]

Jonathan Shaw: We have not made any detailed assessment of the potential for transferring functions or staff from Natural England to the Rural Payments Agency, or "vice versa". However, I am aware that Natural England's Board recently decided to explore this issue and I have told them that I shall be interested to hear their conclusions.

Nitrate Vulnerable Zones: Capital Investment

Sir Nicholas Winterton: To ask the Secretary of State for Environment, Food and Rural Affairs (1) if he will make it his policy to introduce capital grants to assist farmers with increased storage requirements under the Nitrate Vulnerable Zones directive; [178159]

(2) what discussions he has had with the Chancellor of the Exchequer on introducing measures to provide financial assistance to farmers to comply with Nitrate Vulnerable Zone regulations. [178161]

Mr. Woolas: DEFRA does not intend to provide funding to help farmers to comply with measures required under the proposed Action Programme, as set out in the consultation on implementation of the nitrates directive in England. It has regular discussions with the Treasury on financial arrangements in relation to delivery of its policies.

We are committed to seeking a derogation from the 170kgN/ha/yr whole farm limit for livestock manure. If approved, this will significantly reduce the economic cost to the livestock industry in the short term.

We have also committed £98 million under the Rural Development Programme to the livestock sector, to improve competitiveness, animal welfare and on-farm management of nutrients.

Poultry

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs how the Government plans to use the data held on the GB Poultry Register to prevent the spread of avian influenza. [177654]

Jonathan Shaw: The GB Poultry Register was created in response to an increased threat of an outbreak of the highly pathogenic strain of avian influenza (AI). It captures details of all those premises that keep 50 or more birds (even if the premises is only stocked for part of the year), with details of the location, numbers and types of birds kept and some relevant risk factors.

These data have helped to manage the risk of AI in a number of ways, and have enabled us to:

i. predict the likely spread of disease and therefore respond proportionately in an outbreak;

ii. plan and prioritise veterinary visits to control AI outbreaks in areas close to infected premises; and

iii. communicate information and advice to registered poultry keepers quickly.

We are currently consulting on a range of possible changes to the use of personal data held on the GB Poultry Register; for example, the use for other notifiable diseases. The consultation closes on 5 February 2008 and full details are available on the DEFRA website.

Protection of Animals Act 1911

Mr. Amess: To ask the Secretary of State for Environment, Food and Rural Affairs if he will make a statement on the operation of the Protection of Animals Act 1911; and what amendments have been made to this Act since 1997. [177127]

Jonathan Shaw: The Protection of Animals Act 1911 was largely repealed and replaced by the Animal Welfare Act 2006, which came into force in England on 6 April 2007 (and in Wales on 27 March). The Animal Welfare Act updates and strengthens the offences of animal fighting and causing unnecessary suffering which were contained in the Protection of Animals Act 1911. The 2006 Act also introduces an offence of failing to provide for the welfare needs of an animal – a 'duty of care' which will allow action to be taken before an animal suffers.

The provisions of the Protection of Animals Act 1911 which remain in force relate to the sale of poison grain, precautions when laying poison and the inspection of spring traps for catching hares or rabbits.

Sewers

Mr. Todd: To ask the Secretary of State for Environment, Food and Rural Affairs what progress his Department has made on transferring ownership of private sewers to water and sewerage companies; and if he will make a statement. [179399]

Mr. Woolas: The Government announced on 22 February 2007 that they had decided to transfer existing private sewers and lateral drains in England into the ownership of the water and sewerage companies, as the most comprehensive solution to the problems faced by householders whose properties are connected to a private sewer or drain. Transfer will apply to all private sewers and lateral drains that drain to the public network. It will bring clarity for owners, local authorities and sewerage companies. It will also significantly help address a lack of integrated management of the sewerage network as a whole, and provide greater efficiency of effort, environmental stewardship and expenditure.

The Government undertook to consult further on options for the implementation of transfer and a public consultation ran from July to October 2007 seeking views on options and also considered questions of the scope of transfer and the prevention of new private sewers.

The responses are currently being considered and will inform the regulations needed to bring transfer into effect. As required, there will be a further consultation on these regulations in 2008. Once Parliament has approved the regulations transfer will be a statutory duty for Water and Sewerage Companies in the form and to the timetable set out in the regulations.

Specified Diseases (Notification and Slaughter) Order 1992

Mr. Amess: To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* males and *(b)* females have been (i) prosecuted and (ii) convicted of breaking the Specified Diseases (Notification and Slaughter) Order 1992 in each year since it came into force. [177124]

Jonathan Shaw: The information requested is not held centrally.

The information that is available on prosecutions taken under the Animal Health Act 1981 is supplied by local authorities to DEFRA and included in the return to Parliament laid before both Houses before 31 March each year.

Mr. Amess: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the operation of the Specified Diseases (Notification and Slaughter) Order 1992; and what amendments have been made to the Order since its coming into force. [177144]

Jonathan Shaw: The Specified Diseases (Notification and Slaughter) Order 1992 (the Order) came into force on 1 January 1993 and reflects some of our community obligations, as set down in council directive 92/119/EEC. This Directive sets down minimum control measures considered to be effective for a range of notifiable diseases of livestock.

It is kept under review and the Order has been amended by different orders to revoke it for the following reasons:

(1) in so far as it applied to bluetongue;

(2) to add equine infectious anaemia to the list of diseases to which section 32 of the Animal Health Act 1981 applies (under which the Secretary of State may cause animals to be slaughtered);

(3) to remove the amendment to the Diseases of Animals (Ascertainment of Disease) Order 1985, which is no longer in force;

(4) and to remove viral haemorrhagic disease from the list of diseases which must be notified.

I am satisfied with the operation of the Order.

Supermarkets: Sustainable Development

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs if he will take steps to seek a reduction in the food miles of produce in national supermarkets. [177650]

Jonathan Shaw: While research for DEFRA has shown that food miles are an incomplete measure of the sustainability of the supply of food, reductions in transport can benefit society through reduced congestion and improved air quality. DEFRA supports the Food and Drink Industry Federation's voluntary commitment, announced last October, to reduce the environmental and social costs of domestic food transportation by 20 per cent. by 2012 compared to 2002.

Sustainable Development: Public Buildings

Mr. Prisk: To ask the Secretary of State for Environment, Food and Rural Affairs what responsibility he has for sustainable construction on the Government estate; and what steps he has taken to ensure sustainability is achieved. [179809]

Mr. Woolas: My right hon. Friend the Secretary of State for Environment Food and Rural Affairs, is the Minister accountable for overseeing the implementation of the "UK Government Sustainable Procurement Action Plan (SPAP)", launched in March 2007, and reports to the Prime Minister. Permanent Secretaries are accountable for their Department's overall progress and performance on implementing the SPAP.

Targets for sustainable operations on the Government estate were launched in June 2006 and reaffirmed in the SPAP. These targets include a mandate for individual Departments to conduct sustainability appraisals of office locations, and to apply the buildings research establishment environmental assessment method (BREEAM) excellent standards or equivalent, to all new builds or major refurbishments.

DEFRA applies BREEAM excellent standards to all new builds, and have undertaken sustainability appraisals for all office relocations in 2007.

Trade Unions

Mr. Hoban: To ask the Secretary of State for Environment, Food and Rural Affairs what meetings he has had with trade unions officials since 1 July 2007; on what dates; and with which trade unions. [179855]

Jonathan Shaw: Ministers meet many people as part of the process of policy development. It is not normal practice to disclose details of such meetings.

Water Companies: Fines

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs on which occasions the Office of the Water Regulator imposed penalties on water companies in each of the last three years; what the *(a)* penalty, *(b)* company penalised and *(c)* reason for penalty was in each case; and to what purpose the fines have been put. [179744]

Mr. Woolas: The Water Service Regulation Authority's (Ofwat's) powers to impose financial penalties on water and sewerage companies came into effect on 1 April 2005.

In June 2007, Ofwat fined United Utilities £8.5 million (0.7 per cent. of the company's applicable turnover) for breaching rules governing trading arrangements with associate companies.

All fines are paid into the Consolidated Fund as required by section 22a of the Water Industry Act 1991.

Water: EU Action

Mr. Kidney: To ask the Secretary of State for Environment, Food and Rural Affairs what steps his Department is taking to implement the Water Framework Directive; what account his Department will take of the interim conclusions and recommendations of the Pitt Review in implementing the Directive; and what *(a)* primary and *(b)* secondary legislation is required to implement the Directive. [178243]

Mr. Woolas: The Environment Agency is the competent authority for most aspects of implementation of the Water Framework Directive (WFD). The Agency is currently working with stakeholders to develop river basin management plans which will be consulted on and then finalised by

December 2009 as the Directive requires. The Government aims to achieve the objectives set out within the first river basin management plans by December 2015, and the measures to achieve this must be operational by 2012. We may consider earlier action to ensure WFD targets are met.

The WFD was transposed into English law by the Water Environment (Water Framework Directive) (England and Wales) Regulations 2003. The existing legal framework for environmental protection, amended in some cases, provides a sufficient basis for most aspects of WFD implementation. DEFRA is reviewing existing measures relating to the physical structure of water bodies to ensure that the competent authority is able to act to safeguard morphological conditions where necessary. All legal measures have to be in place by 2009.

The WFD does not establish any objectives in relation to flood management, introduce any mechanisms for addressing flood risk or set objectives that exacerbate the risk of flooding.

The Government have accepted all the urgent recommendations from the interim report of the Pitt Review and will work with other organisations involved in taking them forward as quickly as possible.

Written Answers to Questions

Wednesday 23 January 2008

SCOTLAND

Nuclear Power Station

7. **Mr. Hollobone:** To ask the Secretary of State for Scotland what discussions he has had with ministerial colleagues on the planning process for applications to build a new nuclear power station in Scotland. [179994]

David Cairns: I have regular discussions with ministerial colleagues on a wide range of issues, including energy matters. However, responsibility for the planning process is devolved to Scottish Ministers.

Disabled Children: Financial Support

8. **Mr. Tom Clarke:** To ask the Secretary of State for Scotland what recent discussions he has had with the Chancellor of the Exchequer on HM Treasury's review of support for the families of disabled children. [179995]

Des Browne: I speak regularly to my right hon. Friend the Chancellor of the Exchequer on a range of topics. The disabled children's review reported in May 2007, setting out plans to improve the services available to disabled children and their families in England.

Post Offices: Highlands and Islands

9. **Mr. Charles Kennedy:** To ask the Secretary of State for Scotland what recent assessment he has made of the contribution of the Post Office network to the social and economic well-being of the highlands and islands; and if he will make a statement. [179996]

David Cairns: The Government recognise the value of the Post Office network and are seeking to strike a balance between the wider benefits of the network and the cost to the taxpayer. I would urge people to participate in area plan consultations to allow the Post Office to make informed decisions.

HMS Gannet

10. **Mr. Donohoe:** To ask the Secretary of State for Scotland what discussions he has had with the Secretary of State for Defence on the performance of the Royal Navy search and rescue team based at HMS Gannet in relation to civilians. [179997]

Des Browne: There have been no such discussions but my hon. Friend will be pleased to note that figures released by HMS Gannet state that the crews of the three Sea King search and rescue helicopters based there undertook 357 helicopter missions in 2007. This is around 100 more than the next closest UK helicopter base and an increase of 30 per cent. over last year's figures.

All those at HMS Gannet have shown great dedication and professionalism. They have assisted 349 people on these missions, making it the greatest number of missions and people saved by any single UK search and rescue unit since Aeronautical Rescue Coordination Centre records began in 1983.

Winter Fuel Payments

11. **Mr. Amess:** To ask the Secretary of State for Scotland what discussions he has had with the Secretary of State for Work and Pensions on winter fuel payments for pensioners in Scotland. [179998]

David Cairns: I speak regularly to my right hon. Friend the Secretary of State for Work and Pensions on a wide range of issues. I am pleased to report that over a million winter fuel payments are made in Scotland.

Aircraft Carriers: Construction

12. **Willie Rennie:** To ask the Secretary of State for Scotland what discussions he has had with the Scottish Executive and the Ministry of Defence on the development of the skills base in Scotland in preparation for construction of the two aircraft carriers. [179999]

Des Browne: The development of skills in Scotland is largely a matter for the Scottish Executive. However, the Ministry of Defence works closely with suppliers in order to develop an understanding of its long-term shipbuilding plans so that the industry can plan recruitment and training accordingly. The anticipated contract for the manufacture of the two carriers potentially presents great opportunities for yards both on the Clyde and at Rosyth and highlights that Government spending on defence has a far reaching impact on Scotland's industrial base and also, the wider economy of Scotland.

Household Debt

13. **Mr. Hands:** To ask the Secretary of State for Scotland if he will make a statement on levels of household debt in Scotland. [180000]

David Cairns: In the United Kingdom, household debt as a percentage of income is currently 169 per cent. This is in the context of rising levels of household assets and the lowest growth in total household debt for five years. Specific details on Scotland are not available.

Devolution

14. **Miss McIntosh:** To ask the Secretary of State for Scotland what recent devolution cases the Advocate-General has considered; and if he will make a statement. [180001]

David Cairns: Since 24 October 2007, 89 devolution issues have been intimated to the Advocate-General. Of these 89 devolution issues, 52 related to criminal proceedings and 37 related to civil proceedings.

Nuclear Power Stations

Mr. Bone: To ask the Secretary of State for Scotland what recent discussions he has had with the First Minister on new nuclear power stations in Scotland. [180125]

David Cairns: My right hon. Friend the Secretary of State for Scotland has had no such recent discussions. The decision to grant consent to construct or operate any power station, including nuclear, with a capacity in excess of 50 MW in Scotland lies with the Scottish Ministers.

HOUSE OF COMMONS COMMISSION

Renewable Energy

Nia Griffith: To ask the hon. Member for North Devon, representing the House of Commons Commission what estimate the House of Commons Commission has made of the percentage of electricity used on the parliamentary estate generated from renewable sources. [181165]

Nick Harvey: Since 1 April 2007 all the electricity consumed on the Commons part of the parliamentary estate has come from renewable sources.

DEFENCE

Afghanistan: Peacekeeping Operations

Mr. Jenkin: To ask the Secretary of State for Defence if he will place in the Library copies of board of inquiry reports into deaths of armed services personnel in Afghanistan which occurred in September 2006; and if he will make a statement. [180071]

Mr. Bob Ainsworth *[holding answer 21 January 2008]:* We recognise that in high-profile cases the public interest is served by disclosure of the findings and recommendations of a Board of Inquiry. The main elements of such reports will normally be made available to the public via the following MOD website address, once the family has been briefed on its contents:

http://www.mod.uk/DefenceInternet/AboutDefence/CorporatePublications/BoardsOfInquiry/BoardsOfInquirybois.htm

Mr. Bone: To ask the Secretary of State for Defence what progress he has made in securing the commitment of personnel from other European NATO member states to the international security assistance force in Afghanistan. [180124]

Des Browne: NATO nations have a made a collective commitment to Afghanistan and to meet the force levels set out in the Combined Joint Statement Of Requirements. Recent pledges made by European NATO members include additional forces from Bulgaria, the Czech Republic, Denmark, France, Poland, Romania and Turkey.

Armed Forces: Housing

Dr. Murrison: To ask the Secretary of State for Defence what assessment he has made of the *(a)* quality and *(b)* quantity of (i) current and (ii) projected (A) married and (B) single living accommodation at Catterick. [180517]

Derek Twigg: Currently, single living accommodation (SLA) at Catterick Garrison is at the following grade for charge:

	Number of bed-spaces
Grade 1 (en-suite)	912
Grade 1 (not en-suite)	1,024
Grade 2	713
Grade 3	2,513
Grade 4	5,310

Under current plans, a further 3,186 SLA bed-spaces at Catterick will be at Grade 1 by 2015.

The service family accommodation (SFA) at Catterick Garrison is at the following standard for condition (SfC).

	Number of SFA
S1fC	928
S2fC	546
S3fC	74
S4fC	0

A full condition based asset survey is currently being conducted to inform future investment priorities for SFA at Catterick and elsewhere in Great Britain.

Armed Forces: Republic of Ireland

Mrs. Humble: To ask the Secretary of State for Defence how many *(a)* men and *(b)* women registered as born in the Republic of Ireland serve in the (i) Army, (ii) Royal Navy, (iii) Royal Marines and (iv) Royal Air Force as (A) commissioned officers and (B) other ranks; and what the equivalent figures were in each of the last 10 years. [181161]

Mr. Bob Ainsworth: The following table shows the number of Republic of Ireland Nationals[1] that serve in the UK armed forces[2,3] by service, gender and rank as at 1 April each year.

[1] Nationality information has been used in place of country of birth as data on country of birth are currently unavailable.

[2] Data are for UK regular forces (trained and untrained), including nursing services and excluding full-time reserve service personnel, Ghurkhas, the home service battalions of the Royal Irish Regiment and mobilised reservists.

[3] Information on nationality for Royal Navy and Royal Marines personnel is only available post joint personnel administration implementation (6 October for Royal Navy and Royal Marines). Information on nationality for RAF personnel pre joint personnel administration (6 April for RAF) can be provided only at a disproportionate cost. Information in the table is for Army personnel only in 1998 to 2005; for Army and RAF personnel in 2006 and for all services in 2007. All 2007 information and 2006 RAF information is marked as provisional due to the ongoing validation of joint personnel administration data.

Service	Rank	Gender	1998	1999	2000	2001	2002	2003	2004	2005	2006	2007
Royal Navy	Commissioned officers	Male	‡	‡	‡	‡	‡	‡	‡	‡	‡	‡
		Female	‡	‡	‡	‡	‡	‡	‡	‡	‡	‡
	Other ranks	Male	‡	‡	‡	‡	‡	‡	‡	‡	‡	30
		Female	‡	‡	‡	‡	‡	‡	‡	‡	‡	‡
Royal Marines	Commissioned officers	Male	‡	‡	‡	‡	‡	‡	‡	‡	‡	‡
		Female	‡	‡	‡	‡	‡	‡	‡	‡	‡	‡
	Other ranks	Male	‡	‡	‡	‡	‡	‡	‡	‡	‡	‡
		Female	‡	‡	‡	‡	‡	‡	‡	‡	‡	‡
Army	Commissioned officers	Male	20	20	20	20	20	20	20	20	30	40
		Female	‡	‡	‡	‡	‡	‡	‡	‡	‡	‡
	Other ranks	Male	210	200	190	180	160	150	160	160	150	160
		Female	10	10	10	10	10	‡	‡	‡	‡	10
RAF	Commissioned officers	Male	‡	‡	‡	‡	‡	‡	‡	‡	‡	‡
		Female	‡	‡	‡	‡	‡	‡	‡	‡	‡	‡
	Other ranks	Male	‡	‡	‡	‡	‡	‡	‡	‡	20	20
		Female	‡	‡	‡	‡	‡	‡	‡	‡	10	‡

‡ Data not available
– Zero or rounded to zero
Note:
Numbers have been rounded to the nearest 10.

DASA (Quad-Service)

Armed Forces: Scotland

Dr. Fox: To ask the Secretary of State for Defence what the *(a)* inflow and *(b)* outflow of units based in (i) Scotland and (ii) Wales was in the latest period for which figures are available. [179678]

Derek Twigg: The inflow and outflow of personnel to and from units are not produced routinely and could be provided only at disproportionate cost.

Armoured Fighting Vehicles

Ann Winterton: To ask the Secretary of State for Defence what are the *(a)* combat and *(b)* un-laden weight of the (i) WMIK, (ii) E-WMIK and (iii) M-WMIK vehicles. [180097]

Mr. Bob Ainsworth: The *(a)* combat weight of WMIK, E-WMIK and M-WMIK vehicles will vary depending on the type of operation they are involved in. Additionally it would not be appropriate to release the combat weight of these vehicles as to do so would potentially prejudice the security and effectiveness of our troops in Iraq and Afghanistan.

The *(b)* un-laden weight of the WMIK, E-WMIK and M-WMIK vehicles are set out in the following table:

	(b) Un-laden weight kg
WMIK	2,089
E-WMIK	2,960
M-WMIK	4,700

Chad: Peacekeeping Operations

Dr. Fox: To ask the Secretary of State for Defence (1) if he will make a statement on the status of the European Security and Defence Policy mission to Chad; [179680]

(2) how many force generation conferences have taken place for the European Security and Defence Policy mission to Chad since August 2007. [179681]

Mr. Bob Ainsworth: The Operation Commander for the ESDP mission to Chad and the Central African Republic, Lieutenant General Nash, has held five formal force generation conferences. These took place on 9 November, 14 November and 21 November, 19 December 2007 and 11 January 2008. After the fifth force generation conference on 11 January, General Nash confirmed that he now has enough forces and assets available to recommend launching the mission. The final phase of planning has now begun and is due to culminate at the General Affairs and External Relations Council on 28 January, when the operation is expected to be formally launched. EUFOR is expected to reach its Initial Operational Capability (IOC) four to six weeks after a decision to launch the operation has been taken.

Departmental Data Protection

Mrs. Villiers: To ask the Secretary of State for Defence what requirements his Department and its agencies place on contractors in relation to audit of personal data and IT equipment. [176626]

Derek Twigg: Contractors have a legal duty to comply with the requirements of the law of the land, including the Data Protection Act.

In addition, the Department has standard defence contract conditions which protect against disclosure of information in general, and will also apply bespoke conditions where necessary.

Departmental Databases

Nick Harvey: To ask the Secretary of State for Defence how many electronic databases there are containing (*a*) names, (*b*) addresses, (*c*) bank details and (*d*) other personal information about members of the public within his Department. [170830]

Derek Twigg: The information requested is not held centrally and cannot be provided except at disproportionate cost.

Nick Harvey: To ask the Secretary of State for Defence (1) when each of his Department's electronic databases containing personal information on members of the public was first created; [170831]

(2) how many staff of each grade in his Department have access to electronic databases which contain personal information on members of the public; [170833]

(3) how many times his Department's databases containing personal information on members of the public have been accessed in each month of the last five years; [170834]

(4) how many times his Department's databases containing personal information on members of the public have been transferred (*a*) physically and (*b*) electronically in each year since 1997. [170835]

Derek Twigg: The information requested is not held centrally and can be provided only at disproportionate cost.

Departmental E-mail

Mr. Jenkins: To ask the Secretary of State for Defence if he will take steps to reduce the number of hard copies of e-mails printed by officials in his Department. [179474]

Derek Twigg: The MOD discourages the unnecessary printing of e-mails as part of our overall policy of managing waste in accordance with the waste hierarchy (reduce, reuse, recycle). Where electronic documents are printed it is our policy that all unrestricted waste papers are consigned to recycling activities.

An Information Management Protocol is currently being developed and this will reinforce that e-mails should not be printed unless absolutely necessary.

Departmental Redundancy

Mr. Hoban: To ask the Secretary of State for Defence what the cost was of redundancies in his Department in the 12 months preceding (*a*) 30 June 2004, (*b*) 30 June 2005 and (*c*) 30 June 2006. [175341]

Derek Twigg: To provide specific information would require a Department-wide trawl to ascertain total costs for all individuals who had left the Department on redundancy terms. This could be done only at disproportionate cost.

We hold information centrally on a Department-wide voluntary early release scheme which was launched in March 2005, in connection with the civil service-wide reductions required under the 2004 spending review. The total liability cost to the Department of individuals who left or are expected to leave on voluntary terms under the MOD Early Release Scheme (2005) is as follows:

Financial year	*Amount £ million*
2005-06	41
2006-07	48
2007-08	52

Iraq: Peacekeeping Operations

Dr. Fox: To ask the Secretary of State for Defence (1) how many (*a*) armoured vehicles, (*b*) aircraft, (*c*) helicopters and (*d*) weapons systems of each type have been removed from service as a result of battle damage in Iraq and Afghanistan; [171897]

(2) how many (*a*) armoured vehicles, (*b*) aircraft, (*c*) helicopters and (*d*) weapons systems have been made non-operable as a result of combat in Iraq and Afghanistan since 2003. [171898]

Mr. Bob Ainsworth: I am withholding the information requested as its disclosure would, or would be likely to prejudice the capability, effectiveness or security of the armed forces.

Nuclear Weapons

Andrew George: To ask the Secretary of State for Defence what steps have been taken by the Government to assess the feasibility of implementing non-nuclear strategic defence options after the expiration of the viability of the UK's current nuclear deterrent. [180610]

Des Browne *[holding answer 22 January 2008]:* As the December 2006 White Paper "The Future of the United Kingdom's Nuclear Deterrent" (Cm 6994) made clear, the continuing risk from the proliferation of nuclear weapons and the certainty that a number of other countries will retain substantial nuclear arsenals, means that our minimum nuclear deterrent capability is likely to remain a necessary element of our security. We can only deter such threats in future through the continued possession of nuclear weapons. Conventional capabilities cannot have the same deterrent effect. On 14 March 2007, the House of Commons voted by a clear majority to support the Government's decision to sustain the UK's nuclear deterrent beyond the life of the Vanguard class submarines.

Spare Parts: Lost Property

Mr. Dai Davies: To ask the Secretary of State for Defence what the value was of spare parts lost in transit in each year since 2003. [180272]

Mr. Bob Ainsworth: Data are not held in such a way that enables the separate identification of "spare parts". Losses in transit have only been recorded separately since 2005. For financial years 2005-06 and 2006-07, the reported value of losses in transit was £4.8 million and £2.9 million respectively. As at 31 December 2007, the total value of losses recorded for financial year 2007-08 is £2.3 million.

Unidentified Flying Objects

Mr. Hayes: To ask the Secretary of State for Defence with reference to the answer of 27 June 2007, *Official Report*, column 801W, on unidentified flying objects, what the security classification of the report was; what its official title was; who commissioned the study; for what reason; and if he will place it in the Library. [180170]

Derek Twigg: The report was entitled 'Unidentified Aerial Phenomena in the UK Air Defence Region'. It was commissioned by the Scientific and Technical Directorate of the Ministry of Defence's Defence Intelligence Staff (DIS) for the purpose of establishing whether anything of intelligence value could be determined from the sighting reports by members of the public that had been copied to the DIS. The full report was classified Secret UK Eyes Only. An expurgated version of the report is already available on the internet via the MOD's Freedom of Information Act website at:

http://www.mod.uk/DefenceInternet/FreedomOfInformation/PublicationScheme/SearchPublicationScheme/UnidentifiedAerialPhenomenauapInTheUkAirDefenceRegion.htm

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agriculture: Subsidies

Harry Cohen: To ask the Secretary of State for Environment, Food and Rural Affairs what recent representations he has received on Common Agricultural Policy subsidies from the 10 largest landowners in the UK; and if he will make a statement. [179750]

Jonathan Shaw: The Department receives a range of representations on Common Agricultural Policy subsidies but does not hold information on who the 10 largest landowners in the UK are.

Animal Welfare: Horses

Mr. MacDougall: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what measures the Government are taking to ban the long-distance transportation of live horses and ponies for slaughter in Europe; and if he will make a statement; [180969]

(2) if the Government will make representations to ensure the enforcement of Council Regulation No. 1/2005; on the protection of animals during transport, in all Member States; and if he will make a statement. [180970]

Jonathan Shaw *[holding answer 22 January 2008]:* A ban on the export of horses and ponies for slaughter would be illegal under EU free trade rules. It has long been Government policy that we prefer the export of meat rather than live animal exports for slaughter. New animal welfare measures came into effect in January 2007 with the implementation of EC Regulation 1/2005 on the welfare of animals during transportation. The provisions include important horse welfare measures that the UK put forward and which were supported by horse welfare organisations.

We are pleased to learn that it now seems likely the Commission will bring forward the planned review of the Regulation to 2009 instead of 2011 as originally intended. The Review will consider a number of issues arising from the implementation of the Regulation, including the need for robust enforcement of the animal welfare provisions in all member states.

Animals: Quarantine

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs how many animals were in quarantine in the UK in the latest period for which figures are available, broken down by species; and if he will make a statement. [180425]

Jonathan Shaw: The provisional figures for 2007 are set out as follows. The final figures will be included in the next Chief Veterinary Officer's Annual Report, which will be published on the DEFRA website.

	Number
Cats	1,135
Dogs	2,397
Primate	1,637
Tiger	7
Cheetah	3
Binturong	3
Mongoose	7
Rabbit	6
Anteater	1
Rat	1
Leopard	4
Ocelot	2
Spectacled Bear	1
Puma	2
Bat	20
Bear	5
Bush Dog	1
Jaguar	1
Lion	6
Coati	2
Lynx	1
Fossa	1
Geoffroys Cat	1

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs what size of enclosure each type of animal entering the UK is kept in during quarantine; and if he will make a statement. [180426]

Jonathan Shaw: DEFRA does not lay down rules specifically for the welfare of animals in quarantine. However, in consultation with premises owners and welfare organisations, we have produced a voluntary Code of Practice on the welfare of dogs and cats in quarantine premises (set out) which outlines recommended minimum internal measurements for individual accommodation units. Premises which comply with this code are awarded a star, and a list of starred premises is available on the DEFRA website quarantine pages. There are regular inspections of quarantine premises by Animal Health Officers (usually at least four times a year, with two visits being unannounced).

i. For small dogs (less than 12 kilograms): sleeping area not less than 1.1 square metres, width and length not less than 0.9 m. Adjoining exercise area not less than 3.7 square metres, width not less than 0.9 metres.

ii. For medium dogs (12 kilograms to 30 kilograms): sleeping area not less than 1.4 square metres, width and length not less than 1.2 metres. Adjoining exercise area not less than 5.5 square metres, width not less than 1.2 metres.

iii. For large dogs (more than 30 kilograms): sleeping area not less than 1.4 square metres, width and length not less than 1.2 metres. Adjoining exercise area not less than 7.4 square metres, width not less than 1.2 metres.

iv. For cats, the individual cat units should be of the walk in type not less than 1.8 metres high. The sleeping compartment plus exercise run must have a total floor area of at least 1.4 square metres, and both the length and width should be at least 0.9 metres. Cat units should contain ample shelf room for climbing and resting, preferably provided both inside and out. A suitable abrasive surface for nail trimming should be provided, such as a scratching post. In shared units, each cat should have its own bed.

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs what consideration has been given to administering inoculations against rabies to animals in quarantine in the UK. [180427]

Jonathan Shaw: All cats and dogs are required to be vaccinated against rabies within 48 hours of arrival in an approved quarantine premise. This vaccination is to protect the animal during quarantine and may not necessarily have any effect on animals already harbouring the disease at the time of arrival.

Avian Influenza: Hazardous Substances

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs what guidance his Department has received from the World Animal Health Organisation on the storage of the H5N1 virus between the taking of samples and testing. [181054]

Jonathan Shaw *[holding answer 22 January 2008]:* The samples for routine dead wild bird surveillance are collected according to standardised protocols, accredited to a United Kingdom Accreditation Service International Standards Organisation 17025 quality system. DEFRA employs the diagnostic expertise of the Veterinary Laboratories Agency (VLA), Weybridge, which is the World Animal Health Organisation (OIE) and European Union Reference Laboratory for avian influenza (AI). Our sampling, collection, storage and transportation methods are entirely consistent with international and EU standards. We continually revise and subject all aspects of our AI surveillance activities to peer review in light of new international evidence as it arises.

The OIE produces a 'Manual of Diagnostic Tests and Vaccines' that contains recommendations for sample collection and transport. The VLA contribute to the production of such materials and also adhere to them.

Bluetongue Disease: Disease Control

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs what bluetongue movement restrictions have been relaxed following the declaration of a vector-free period for bluetongue; and if he will make a statement. [180179]

Jonathan Shaw: The vector-free period is a time during the winter when evidence shows that midge activity is at its lowest and when there is no evidence of transmission of disease by midges. The vector-free period began on 20 December 2007. This means that movements to live out of the protection and surveillance zones can take place under strict conditions, including pre-movement testing. In addition, the strict timing conditions for movements to slaughter in the free area have been removed during the vector-free period. Further information can be found on the bluetongue pages of the DEFRA website.

Based on historical data, this period may continue into March 2008, but will be kept under review in the light of midge activity and weather conditions.

Bovine Tuberculosis

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs how long it takes for the results of a pre-movement bovine tuberculosis test on an animal to be known, and for animals which are not reactors for how long after that test time they may be moved without a further test. [178361]

Jonathan Shaw: The results of a TB skin test are read 72 hours/three days after the injection of tuberculin. Skin test results are provided to the farmer on the day the test results are read.

All cattle over 42 days old moving out of a high risk herd must have tested negative to the tuberculin skin test to be eligible to move, unless the herd or movement is exempt. The injection of tuberculin (day one of the test) must have taken place no more than 60 days before the date of movement.

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs how many cattle were tested for bovine tuberculosis in 2007; and of those how many reactors there were. [178362]

Jonathan Shaw: Latest provisional statistics indicate that 5,367,901 cattle were tested for bovine tuberculosis in Great Britain between 1 January and 30 November 2007. Of these, 23,330 animals were identified as reactors.[1]

[1] Provisional figures, subject to change as more data become available. Figures include both tuberculin and gamma interferon tests and subsequent reactors.

Countryside Stewardship Scheme: Cornwall

Dan Rogerson: To ask the Secretary of State for Environment, Food and Rural Affairs when he expects full payment to be made in respect of The Eastmoor Commoners Ltd. (Cornwall) single payment scheme entitlement for 2005 and 2006. [179753]

Jonathan Shaw *[holding answer 17 January 2008]:* The Rural Payments Agency (RPA) has checked its records and is unable to identify The Eastmoor Commoners Ltd. (Cornwall). In order to state when full payment will be made RPA will require The Eastmoor Commoners Ltd. (Cornwall) Single Business Identifier (SBI) number.

Departmental Manpower

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs how many civil servants there are in each pay grade in each directorate within his Department; and what the equivalent figures were on *(a)* 1 April 2004 and *(b)* 1 October 2001. [180488]

Jonathan Shaw *[holding answer 21 January 2008]:* The number of staff (full-time equivalents) in each grade in each directorate in DEFRA as at 31 December 2007 is shown in the following table. Information for the earlier dates is not available.

Group	Directorate	AA	AO	EO	HEO	SEO	G7	G6	SCS	Total
Climate Change Group	Climate Change Group			1.00	2.00	2.00	2.00		2.00	9.00
	Domestic Climate Change and Energy		19.00	28.00	47.30	21.83	33.57	7.00	6.00	162.70

Departmental Marketing

Mr. Hoban: To ask the Secretary of State for Environment, Food and Rural Affairs what products featuring departmental or Government branding were procured by (*a*) his Department and (*b*) its agencies in each of the last five years. [179792]

Jonathan Shaw: The Departmental Communications Directorate has procured the following DEFRA branded products:

	Product	Number
2005-06	Long sleeved T-shirts	50
2006-07	Travel wallets	20,000
	Pens	20,000
	Travel toothbrush sets	1,000
2007-08	Pens	10,000
	Travel wallets	7,000

Information about departmental or Government branded products procured by DEFRA agencies is not held centrally and could be supplied only at disproportionate cost.

Domestic Wastes: MRSA

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs what research has been conducted into the incident of MRSA bacteria within household rubbish. [176554]

Joan Ruddock: I am not aware of any such research having been conducted by my Department.

People handling household waste should take the same hygiene measures they take every time they handle material which may harbour bacteria and wash their hands regularly.

Fisheries

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what Government policy is on the measures outlined in Article 17 of Council Regulation 2371/2002 and the future of access of non-UK fishing vessels within the 12 nautical mile limit after 31 December 2012; [180750]

(2) whether the Commission has begun work on the report on the future of access to fishing waters and resources, as outlined in Article 17 of Council Regulation 2371/2002; and if he will make a statement. [180751]

Jonathan Shaw: I will consider carefully the Government's policy with regards to access to waters and resources within 12 nautical miles as we prepare for the next reform of the common fisheries policy (CFP).

I expect the rights the UK has under the current framework regulation (that is, to restrict fishing to vessels that traditionally used those waters and to pass laws to protect the stocks in our waters and manage UK vessels in the 6-12 mile zone) would be maintained beyond 31 December 2012.

The Government have begun to plan objectives for the 2012 review of the CFP as set in the draft implementation plan for Fisheries 2027 (published in October 2007), but UK policy on this has not yet been formulated.

I am not aware how far the Commission have progressed with their report regarding the future of access to fishing waters and resources. According to Article 17 of Council Regulation 2371/2002, the deadline for the report is 31 December 2011, but I will press for adequate discussion in the run up to the CFP reform.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs whether the European Commission has informed him of the need to reduce the capacity of the UK fishing fleet, as specified in Article 16(2) of Council Regulation 2371/2002; and if he will make a statement. [180752]

Jonathan Shaw: The European Commission has not informed DEFRA of the need to reduce the capacity of the UK fishing fleet as specified in Article 16(2) of Council Regulation (EC) 2371/2002.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs whether, with regard to Article 11 of Council Regulation 2371/2002, (*a*) the Government and (*b*) the European Commission have considered whether there needs to be an adjustment of fishing capacity for UK vessels over the next five years; and if he will make a statement. [180753]

Jonathan Shaw: The measures in Article 11 of Council Regulation (EC) 2371/2002 establish reference ceilings for the capacity of the fishing fleet in terms of total tonnage and engine power of the fleet, while those in later articles, including Article 16(2), set out measures related to the control of fleet entries and exits. The UK is compliant with the provisions of these articles and hence there is no need for further consideration by the UK Government or European Commission of the need for adjustment of fleet capacity related to these measures

Fishing Catches

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 12 December 2007, *Official Report*, columns 707-08W, on fishing catches, (1) for what reasons the discard data under Council Regulation 1543/2000 have not been systematically compiled; and if he will make a statement; [180747]

(2) what steps are being taken to ensure that discard data under Council Regulation 1543/2000 are systematically compiled; and if he will make a statement; [180748]

(3) what action is being taken by the Commission in relation to EU Member States which have not complied with their obligations under Council Regulation 1543/2000; and if he will make a statement. [180749]

Jonathan Shaw: The Commission monitors the degree to which member states comply with their obligations to collect data under Council Regulation 1543/2000, through a requirement to submit annual technical reports on the work carried out. These reports include a section where member states report on the scientific working groups to which they have provided data. The Commission compares this with reports from these working groups on the data received, to assess the level to which each member state has complied with their obligations.

Proposed changes to the regulation have been discussed. The UK has underlined the key aim of ensuring that the needs for information of such groups charged with providing advice to the Commission and member states are met. The Commission has taken this on board in the proposed changes to the regulation, formalising the requirement to provide information to scientific working groups within the regulation and proposing penalty measures to be applied to the level of funding granted to member states that do not comply with these obligations.

The UK will be supporting the Commission's intentions to ensure that data from all member states are accurate, timely and fit for purpose.

Fishing Vessels

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs (1) pursuant to the answer of 17 December 2007, *Official Report*, columns 997-98W, on fishing vessels, what plans he has to extend the deployment of observer schemes in 2008; [179798]

(2) if he will place in the Library details of specific numbers of on-board observer schemes deployed in 2007; [179799]

(3) what assessment he has made of the on-board observer scheme deployed in 2007. [179800]

Jonathan Shaw: At the December Fisheries Council, a number of additional optional observer schemes were agreed as part of the effort and quota management package. We will be assessing the viability of these schemes for the UK and will continue to discuss these with the industry to consider the level of interest there is in participation.

Observers from the Centre for Environment, Fisheries and Aquaculture Science (CEFAS) have already accompanied two trips by industry vessels this year as part of the fisheries science partnership and it is expected that more of these trips will take place during 2008.

I have asked officials to gather details of the numbers of observer schemes in which the UK participated during 2007. I will write to the hon. Member when these are available and arrange for a copy of my letter to be deposited in the Libraries of the House.

DEFRA officials are involved in ongoing discussions with the industry and other Government Departments, to draw conclusions from the observer schemes deployed in 2007. The results of these discussions will be deposited in the Libraries of the House later this year.

Horses: Exports

Mr. MacDougall: To ask the Secretary of State for Environment, Food and Rural Affairs what measures the Government are taking to stop the export of live horses and ponies from the UK to continental Europe; and if he will make a statement. [180968]

Jonathan Shaw *[holding answer 22 January 2008]:* Horse and pony exports include horses and ponies being exported for breeding, racing, and other equestrian events and companion horses and ponies being taken abroad by families relocating as well as animals being exported for slaughter. We are therefore not proposing to ban the export of horses and ponies. Furthermore, a unilateral ban on live exports would be illegal under EU free trade law.

Horses: Transport

Annette Brooke: To ask the Secretary of State for Environment, Food and Rural Affairs what recent representations he has received on the live transportation of horses across Europe before slaughter; and if he will make a statement. [180454]

Jonathan Shaw *[holding answer 21 January 2008]:* Officials have held recent discussions with the International League for the Protection of Horses on the operation of the new welfare in transport rules contained in Regulation 1/2005; with a view to identifying whether any further welfare measures might be needed to protect the welfare of horses during transport across Europe when the Regulation comes up for review. We have also received representations in the form of letters, emails and questions from hon. Members.

Lighting: Waste Disposal

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what advice his Department provides to the public on the disposal of spent long-life light bulbs; and what regulatory requirements apply to such disposals. [180246]

Joan Ruddock: Low-energy light bulbs should be disposed of responsibly and advice on their safe disposal has been made available on DEFRA's public website.

From 1 July 2007, waste compact fluorescent light bulbs (the most common type of energy efficient bulbs) have been subject to the requirements of the Waste Electrical and Electronic Equipment (WEEE) Regulations. Those who sell items such as energy efficient bulbs must provide information to the public about where they can take waste bulbs and other WEEE. Some retailers will also take them back in store. However, most retailers have funded designated collection facilities—the majority of these are at local authority civic amenity sites. From this point, producers of such equipment fund its transport, treatment and recycling.

National Fruit Collection

Mrs. Dunwoody: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what consultation was undertaken by his Department on the criteria to be used to assess best value when considering tenders to provide long-term relocation of the fruit collection at Brogdale; [180951]

(2) what steps he is taking to protect the long-term continuation of the fruit collections at Brogdale; what assessment he has made of the effectiveness of those steps; and if he will make a statement. [180952]

Jonathan Shaw *[holding answer 22 January 2008]:* The National Fruit Collection is currently maintained by the Brogdale Horticultural Trust and scientifically curated by Imperial College.

In response to an open competition, which allowed DEFRA to look at all the available options for the future of the collections, tenders were received and assessed by expert peer reviewers and an internal selection panel. The selection process also included visits to all prospective sites and presentations from the applicants. The selection process was carried out in line with the guidelines set out in DEFRA's Science Handbook.

Any potential relocation of the collection was considered to be a relatively low risk procedure as there are a number of suitable locations in the UK for growing fruit trees. The whole collection was moved successfully from Wisley to Brogdale in the 1950s, and fruit trees are regularly re-propagated as a matter of course.

On 19 December 2007, DEFRA announced the Collections would remain at Brogdale for the foreseeable future. From 1 April 2008, the maintenance and curation of the collection will be managed by the University of Reading, subject to agreement with the landlord to extend the lease at Brogdale.

Nature Conservation: Oil

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs if he will make a statement on the level of protection for wildlife in the Moray Firth against oil spillages from ships. [178222]

Jonathan Shaw: The relevant nature conservation regulations are the Conservation (Natural Habitats, &c) Regulations 1994 (SI 1994 No.2716) (as amended) as they apply to merchant shipping operations. Under these provisions, the Moray Firth is designated a special area of conservation and formal assessment of whether plans or projects will adversely affect the integrity of relevant nature conservation sites must take place, where there is likely to be a significant effect on such sites.

Regulation of merchant shipping is dealt with under Merchant Shipping legislation. Ports where oil is handled have their own oil spill contingency plans, compliant with the Merchant Shipping (Oil Pollution Preparedness, Response and Co-operation Convention) Regulations 1998. (SI 1998 No.1056). Additionally, all of our seas and coasts are protected by the National Contingency Plan for Marine Pollution from Shipping and Offshore Installations.

Roads: Litter

Mark Williams: To ask the Secretary of State for Environment, Food and Rural Affairs what the cost was to local authorities in England of *(a)* collecting and *(b)* disposing of road sweepings in the latest period for which figures are available. [180769]

Joan Ruddock: My Department does not hold specific data relating to the cost of the collection or disposal of road sweepings.

Local authorities are required to make revenue outturn returns to the Department for Communities and Local Government. This includes their expenditure and income on street cleansing (not chargeable to the Highways Department). In 2006-07, the net total cost of street cleansing to local authorities in England was £667 million. These figures are not available broken down into collection and disposal costs.

Spatial Information Repository

Mr. Pickles: To ask the Secretary of State for Environment, Food and Rural Affairs what the purpose is of his Department's Spatial Information Repository; and which datasets it will hold. [176530]

Jonathan Shaw: The purpose of the Shared Spatial Information Service (SPIRE) is to provide a managed data service which supports the delivery of services and policy making by providing access to both up to date geographic information layers which meet agreed data standards, as well as common background data against which other geographic information can be viewed.

SPIRE currently contains approximately 350 business specific layers relating to the strategic outcomes of DEFRA, spanning land and marine environments. These layers include information gathered by the Department, its agencies and non departmental public bodies, Government Departments and non governmental organisations.

SPIRE also holds and manages Ordnance Survey mapping, aerial photography and marine mapping layers as contextual information.

SPIRE has the capacity to deliver data for the management of disease emergencies. This service has been used operationally by members of the DEFRA Network including the Animal Health agency, the Central Science Laboratory, Pesticide Safety Directorate and the RADAR veterinary surveillance team.

Wind Power: Noise

Dan Rogerson: To ask the Secretary of State for Environment, Food and Rural Affairs what steps he is taking to measure the low level sounds produced by wind turbines. [180993]

Jonathan Shaw *[holding answer 22 January 2008]:* In 2004, the then Department for Trade and Industry (DTI) (now the Department for Business, Enterprise and Regulatory Reform—DBERR) commissioned Hayes McKenzie to report on claims that infrasound or low frequency noise emitted by wind turbine generators were causing health effects. Hayes McKenzie reported to the then DTI in May 2006 that there was no evidence of health effects arising from infrasound or low frequency noise generated by wind farms. The report recommended further work on the specific issue of Aerodynamic Modulation (AM).

A Government-funded research study, entitled 'Research into Aerodynamic Modulation (AM) of Wind Turbine Noise', undertaken by Salford University, reported in 2007 that although the incidence of AM could not be fully predicted, the incidence of AM and the number of people affected was probably too small to make a compelling case for further research:

> "Considering the need for further research, the incidence of AM and the number of people affected is probably too small at present to make a compelling case for further research funding in preference to other types of noise which affect many more people. On the other hand, since AM cannot be fully predicted at present, and its causes are not fully understood we consider that it might be prudent to carry out further research to improve understanding in this area."

On consideration of the Salford report the Government decided that there was not at present a compelling case for further work into AM, and that it would not carry out further research, but it would continue to keep the issue under review.

Further information is available on the website of the Department for Business, Enterprise and Regulatory Reform.

Women's Land Army: Medals

Mr. Andrew Smith: To ask the Secretary of State for Environment, Food and Rural Affairs when he expects the forms to be available to enable former members of the Women's Land Army and Women's Timber Corps to apply for their badge of recognition. [180414]

Jonathan Shaw: The application form will be available before the end of January.

NORTHERN IRELAND

Political Levy

Mr. Tyrie: To ask the Secretary of State for Northern Ireland what changes were made to the regulation of political funds of Northern Ireland trades unions, during periods of direct rule from Westminster, since the Trade Union and Industrial Relations (Northern Ireland) Order 1995 came into force. [177519]

Mr. Woodward: The Secretary of State ceased to be in charge of the Northern Ireland departments on 8 May 2007 when devolution was restored and the Northern Ireland Executive took over responsibility. Papers relating to the Trade Union and Industrial Relations (Northern Ireland) Order 1995 which provides for the regulation of political funds of trade

unions in Northern Ireland are kept by the Department of Employment and Learning Northern Ireland (DEL).

DEL has advised me that Part V of the 1995 Order has been changed a number of times during periods of direct rule by the following enactments: the Employment Rights (Disputes Resolution) (Northern Ireland) Order 1998 (S.I.1998/1265 (N.I.8)); the Employment Relations Order (Northern Ireland) 1999 (S.I.1999/2790 (N.I.9)); and the Employment Relations Order (Northern Ireland) 2004 (S.I.2004/3078 (N.I.19)).

Written Answers to Questions

Wednesday 23 January 2008

INNOVATION, UNIVERSITIES AND SKILLS

Christmas

Malcolm Bruce: To ask the Secretary of State for Innovation, Universities and Skills whether it is his Department's policy to use *(a)* incandescent light bulbs and *(b)* LED lights for festive decorations on departmental premises. [173499]

Mr. Lammy: The Department uses incandescent lights for its festive decorations. However, we shall be reviewing our policy for next year.

Malcolm Bruce: To ask the Secretary of State for Innovation, Universities and Skills what his Department's policy is on the selection of *(a)* real and *(b)* artificial Christmas trees for his Department's festive decorations; and how real trees are disposed of. [173524]

Mr. Lammy: The Department is split across sites and has four Christmas Trees on its Estate. Two of these trees are real and are recycled by our foliage company. One of the artificial trees is reused each year. The other artificial tree is hired from our foliage company and returned to them at the end of the hire period.

Climate Change

Rob Marris: To ask the Secretary of State for Innovation, Universities and Skills what steps his Department *(a)* has taken and *(b)* intends to take by (i) 2012 and (ii) 2020 in relation to adaptation to the effects of climate change as they affect his departmental responsibilities; and if he will make a statement. [166425]

Mr. Lammy *[holding answer 6 December 2007]:* The steps the Department has taken and intends to take are set out in the Sustainable Development Action Plan (SDAP), 'Learning for the Future', covering 2006-08. We recently submitted a progress report on this to the Sustainable Development Commission (SDC), the Government's independent watch dog on sustainable development.

SDC will shortly be publishing their analysis of the progress of Government Departments.

We are currently working on the content of a new SDAP that will cover 2008-10. This will incorporate the Government's overall intentions as laid out in the recent Climate Change Bill and the cross-Government Adaptation Policy Framework to be published in the spring.

Subsequent SDAPs are likely to continue to reflect the work of the Department in addressing the effects of climate change on children, schools and families.

Departmental Coordination

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills how many people in his Department are responsible for liaising with the Department for Children, Schools and Families. [178124]

Mr. Lammy: Following the machinery of government changes last year, three separate Departments were established with clear demarcation of responsibility. However, we have sought to maintain effective communication links across the three new Departments to minimise disruption to our customers. A range of officials in DIUS are in regular discussion with the Department for Children, Schools and Families across a number of issues, covering both policy and the provision of corporate services. The issues being discussed and number of people involved varies.

Members: Correspondence

Mr. Harper: To ask the Secretary of State for Innovation, Universities and Skills how many letters his Department and its predecessors received from hon. Members and Peers in each session of Parliament since 1997. [174929]

Kevin Brennan: I have been asked to reply.

The Cabinet Office, on an annual basis, publishes a report to Parliament on the performance of Departments in replying to Members/Peers correspondence. Information relating to 2007 will be published as soon as it has been collated. The report for 2006 was published on 28 March 2007, *Official Report*, columns 101-04WS. Reports for earlier years are available in the House Library.

Overseas Students: Employment

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills what steps his Department takes to check the employment status of foreign nationals in the United Kingdom to study. [178127]

Mr. Byrne: I have been asked to reply.

Foreign nationals with permission to study in the United Kingdom may work up to 20 hours per week during term time or full-time during vacations without the need to seek permission from their local Jobcentre Plus office or to obtain a work permit. It is the responsibility of an employer to establish that a foreign national is entitled to take employment in the UK. The Border and Immigration Agency has provided a helpline for employers to check the status of foreign nationals who seek to work in the United Kingdom.

Union Learning Fund

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills what steps his Department has taken to implement the recommendations of the evaluation of the Union Learning Fund, 2001 to 2005, undertaken on behalf of the former Department for Education and Skills by York Consulting Ltd. [178576]

Mr. Lammy: The main recommendations of the evaluation of the Union Learning Fund (2001-05) concern improving the level of management information provided by participating trade unions, particularly on learner referrals and outcomes; improving the level of support provided to help Union Learning Representatives (ULRs); and engaging strategically with employers to help ensure the long term sustainability of union learning activity initiated by the Union Learning Fund (ULF).

Officials from my Department have been working with unionlearn the TUC's new learning organisation to address these issues. Work has been done to improve the management information systems of ULF projects which will capture more information on the numbers taking Skills for Life, Level 2 and Level 3 courses. Additional support systems have been put in place at national, regional and local level to help Union Learning Representatives to carry out their duties more effectively. A new electronic tool, the "Climbing Frame" has been developed which is designed to help ULRs support learners to progress through different levels of study and a new "Quality Award" for learning providers that helps ULRs to identify accessible high quality provision for learners.

These strengthened support systems for ULRs will help to secure the future sustainability of union learning initiatives and underpin the work that unionlearn is doing to help those trade unions involved in ULF to develop effective strategic partnership working with employers. Over 200 learning agreements were established last year between unions and employers involved in ULF, helping to embed successful projects into long-term planning.

CHILDREN, SCHOOLS AND FAMILIES

Education Maintenance Allowance: Barnet

Mr. Dismore: To ask the Secretary of State for Children, Schools and Families how many students in Barnet have *(a)* applied for, *(b)* enrolled for and *(c)* received an education maintenance allowance during the 2007-08 academic year; what assessment he has made of the effect of education maintenance allowances on staying-on rates in education in Barnet; and if he will make a statement. [177926]

Jim Knight: The LSC operate the Education Maintenance Allowance (EMA) scheme for the Department for Children, Schools and Families (DCSF) and hold the information about take-up and payments made under the scheme. Mark Haysom, the LSC's chief executive, will write to the hon. Gentleman with the information requested and a copy of his reply will be placed in the House Library.

We do not collect information on the impact of EMA specific to Barnet, however EMA was subject to a thorough evaluation during its pilot stage. The results indicated an increase in participation by 16-year-olds of 3.8 per cent. points nationally and 4.1 per cent. points nationally for 17-year-olds.

In addition a further analysis of the impact of EMA on participation and attainment was commissioned by the LSC and a copy of the results, with a summary of the key findings, was placed in the House Library on 3 December 2007.

Letter from Mark Haysom, dated 23 January 2008:

I am writing in response to your Parliamentary Question that asked: "How many students in Barnet have (a) applied for, (b) enrolled on a course to be supported by and (c) received an education maintenance allowance during the current academic year; what assessment he has made of the effect of education maintenance allowances on staying-on rates in education in Barnet."

EMA take-up is defined as young people who have received one or more EMA payments in the academic year.

The following table shows EMA applicants, enrolments and take-up for Barnet Local Authority Area:

Barnet 2007-08

	Number
Applications received	3,172
Enrolled applicants	2,719
Scheme take-up	[2],628

EMA take-up data showing the number of young people who have received one or more EMA payments during 2004/05, 2005/06, 2006/07 and to date in 2007/08 is now also available on the LSC website, at the following address:

http://www.lsc.gov.uk/providers/Data/statistics/learner/EMA_take_up.htm

Sure Start Programme

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families (1) how many and what proportion of *(a)* children and *(b)* families (i) who are black and minority ethnic, (ii) with English as an additional language, (iii) with special needs and disabilities and (iv) with a lone parent (A) have been provided with information on and (B) are accessing Sure Start programmes and services; what assessment has been made of the effectiveness of those programmes and services; and if he will make a statement; [180988]

(2) what the capacity of provision for child care through Sure Start programmes was in each of the last five years; how many and what proportion of *(a)* families and *(b)* children (i) received information on and (ii) accessed this provision over this period; what average proportion of capacity was used over that period; and if he will make a statement. [180989]

Beverley Hughes: All Sure Start Children's Centres provide information and advice to parents and carers on a range of subjects including local child care and education services for three and four-year-olds. Centres serving the most disadvantaged communities in England must provide integrated early learning and full daycare as part of their core services while centres serving less disadvantaged communities may provide integrated early learning and daycare places where local demand is not being met by existing, good quality providers. The information requested about different groups of families receiving information and taking up services, including integrated early learning and daycare, is not collected centrally by my Department. Data on the capacity of provision for child care through Sure Start programmes in the last five years are not collected centrally.

The ongoing National Evaluation of Sure Start (NESS) produced initial findings on the impact of the early Sure Start Local Programmes in November 2005. These gave a very early indication that Sure Start is succeeding in making a difference to a large number of

parents and children and is doing particularly well in affecting parenting practices. Because we know that some Sure Start Children's Centres have more work to do to reach the most disadvantaged families from April this year we have committed additional resources which will enable local authorities to fund two more outreach workers in centres serving the most disadvantaged communities.

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Aerials

Mrs. Moon: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate has been made of the additional number of mobile phone masts required to meet future demand of further generations of mobile telecommunications equipment. [177098]

Mr. Iain Wright: I have been asked to reply.

The Government encourage mast and site sharing wherever possible, and network operators have an obligation under current planning procedures to demonstrate that they have considered all mast and site sharing options. Future sharing of network infrastructure would reduce the rate of growth of base station sites.

There is no current estimate of the number of additional mobile phone masts required to meet future demand of further generations of mobile telecommunications equipment. This is due to the fast moving nature of the telecommunications industry.

The actual number of base stations required in the future will depend on growth of demand and the availability of spectrum as well as the choice of technology available to meet that demand.

Business: Regulation

Gordon Banks: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what his most recent estimate is of the cost of regulation to UK industry. [176965]

Mr. McFadden: In 2005 Government undertook an exercise to measure, for the first time in the UK, the administrative burdens of regulations on businesses and the third sector. The administrative burden as of May 2005 was £13.4 billion. More information can be found at:

http://bre.berr.gov.uk/regulation/reform/simplifying/plans.asp

Information on the total costs of regulations (not just administrative burdens) to UK industry is not currently held centrally and there is no established methodology for measuring these on a consistent basis.

Business: Wiltshire

Robert Key: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what *(a)* public and *(b)* private/public sector partnership support is available to small and medium-sized enterprises in South Wiltshire. [180947]

Mr. Timms: The publicly funded Business Link service provides information and advice to small and medium enterprises, and where appropriate brokers clients on to public and private sector providers of business support.

Northern Arc Ltd. is contracted by the South West Regional Development Agency to provide the Business Link service in South Wiltshire. Northern Arc Ltd. maintains a local presence in the area by running business start-up clinics from their office in Salisbury College. Further information on the Business Link service can be found at www.businesslink.gov.uk/southwest or by telephoning 0845 600 9966.

In addition to this, the South Wiltshire Economic Partnership (SWEP), is a partnership between the district and county councils, local businesses and business organisations. It works in partnership with others to drive forward the growth of the south Wiltshire economy by supporting existing businesses and other organisations and by attracting inward investment. By providing the local business community with a single voice on economic development issues, SWEP also works to influence all levels of government and to provide a focus for the delivery of strategic change. SWEP is administered by Salisbury district council economic development team. More information on the partnership and its activities can be found at:

www.salisbury.gov.uk/swep

Businesses can sign up to receive news on the partnership, strategic projects in the district and events by e-mailing: swep@salisbury gov.uk

Post Offices

Mr. Alan Reid: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what Government support and advice is available to community groups who wish to operate their local post office as a community business. [179597]

Mr. McFadden *[holding answer 17 January 2008]:* Information and support on operating a local post office is available on the Post Office Ltd. website at www.ukpo.com/subpostmaster. In addition, sub-postmasters and community groups are free to seek advice from their local Business Link or RDA about any ongoing retail operations. This would be a matter for the individual retail outlet. Retailers can contact their local Business Link via the national helpline on: 0845 600 9006 or visit their website at:

www.businesslink.gov.uk.

Post Offices: Closures

Mr. Drew: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what research he has undertaken into the likely effects of the proposed post office closures on rural and semi-rural areas. [177877]

Mr. McFadden *[holding answer 21 January 2008]:* It is Government policy, announced in May 2007 in response to the national public consultation on the post office network, to ensure national coverage and reasonable access to post office services with particular regard to vulnerable consumers and to rural and

remote areas. Access criteria have been introduced to achieve this and in developing its closure proposals Post Office Ltd. has also to take into account a range of factors relating to accessibility of service provision and the local impact of changes to it. Under area plan proposals published so far, on average 90.7 per cent. of the population covered will see no change in the branch they currently use and 99.3 per cent. will see either no change or still be within one mile of their nearest post office.

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many post offices have closed under the Network Change Programme. [180478]

Mr. McFadden: The Government strategy for the post office network includes provision for 2,500 compensated closures and 500 new outreach services.

Post Office Ltd. is responsible for implementing the network change programme at a local level. It is developing a rolling programme of some 50 local consultations on detailed area plans, based on groups of parliamentary constituencies. Following final decisions on the proposals for the first area plans after local consultations, individual post office closures are now taking place. Area plan consultations are ongoing and will continue well into 2008.

Post Offices: Reorganisation

Miss McIntosh: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what recent representations he has received on his proposals to restructure the post office network; and if he will make a statement. [180042]

Mr. McFadden: The Department has received a range of representations for Members of Parliament, local authorities and other correspondents about the restructuring of the post office network, both in general terms and in the context of specific proposals included in Post Office Ltd.'s area plans. To 18 January, 14 area plans have been published and put to local consultation, consultations on 11 plans have closed and final decisions announced on six plans. In response to comments received during the public consultation period, closure proposals for 15 individual offices have so far been withdrawn.

Public Holidays

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what recent consideration his Department has given to the introduction of new bank holidays. [181010]

Mr. McFadden: The Department receives representations on this issue from time to time. However the present pattern of bank holidays in the UK is well established and accepted, and the Government have no current plans to change the arrangements.

Union Modernisation Fund: Audit

Mr. Stewart Jackson: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what procedures are in place to monitor and audit the public monies remitted to trades unions under the auspices of the Union Modernisation Fund; and if he will make a statement. [180990]

Mr. McFadden *[holding answer 22 January 2008]:* In line with normal arrangements for Government funding, all UMF projects are regularly monitored for progress and expenditure to ensure accountability and the protection of public funds. All projects are required to allow site visits by BERR officials. Failure to comply with such monitoring activity may result in sanctions, including withholding or reclaiming of funds.

On completion, each project is required to produce an independent accountant's report. The report accompanies the final claim and confirms that the union has expended the sums in respect of which all claims have been made.

In addition, BERR is working with Leeds University Business School to conduct a phased evaluation of the fund. Phase one evaluated the operational effectiveness of the first round of bidding. Phase two will evaluate the success of supported projects and the impact of monies via a series of case studies. An interim phase two evaluation report was published in December 2007.

CULTURE, MEDIA AND SPORT

Arts Council of England: Finance

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport how many regularly-funded organisations will be supported by Arts Council England in 2008-09. [179699]

James Purnell *[holding answer 17 January 2008]:* I announced in October last year that grant in aid for Arts Council England would rise to £467 million by 2010-11 – an increase of £50 million over current levels.

The Arts Council operates at arm's length from the Government and decisions about which arts organisations to fund are entirely for them.

Arts Council England will make a full announcement at the beginning of February when final decisions have been taken.

Arts Council of England: Grants

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport what changes Arts Council England plans to make to funding criteria and allocation mechanisms; what changes it has made in the last 24 months; and what *(a)* internal guidance and *(b)* external guidance has been amended accordingly. [179445]

James Purnell *[holding answer 16 January 2008]:* The Arts Council operates at arm's length from the Government and decisions about which arts organisations

to fund are entirely for them. Their fundamental criteria are set out in their Royal Charter

"to develop and improve the knowledge, understanding and practice of the arts [and] to increase accessibility of the arts to the public in England."

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport which local organisations in each region received funding from Arts Council England in each of the last three years; how much funding was received in each case; and how much each such organisation is expected to receive from Arts Council England in 2008-09. [179447]

James Purnell *[holding answer 16 January 2008]:* I announced in October last year that grant in aid for Arts Council England would rise to £467 million by 2010-11 - an increase of £50 million over current levels.

A list of organisations which received Arts Council funding between 2005-06 to 2007-08 will be placed in the Libraries of both Houses.

The Arts Council operates at arm's length from the Government and decisions about which arts organisations to fund are entirely for them. They have said the following in response to requests to see the detail of the organisations listed in their proposals for 2008-09:

"Our proposals for non-renewal of funding cannot be made available until our National and Regional Councils make final decisions. This information is considered confidential and commercially sensitive during the response period. This is especially so in the case of a recommendation that might be overturned by the National Council or a Regional Council. Regularly funded organisations who have a right to respond to our recommendation, should be able to do so freely without fear that our intention to reduce or stop their funding is potentially unnecessarily, and without their consent, released into the public domain. A full announcement will be made at the beginning of February"

Departmental Land

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport what stage has been reached in his Department's plans to sell the area of land located to the north of the British Library; what recent estimate of the value of the site has been made; and whether the Department will receive a proportion of the proceeds of any such sale. [181179]

James Purnell *[holding answer 22 January 2008]:* The sale of the land is proceeding; each party has now agreed the 'heads of terms' and the contract should be finalised by the end of February.

The department's agents valued the site prior to the sale at £45 million but with an expectation of higher bids following the marketing campaign and the completion of St. Pancras station.

In line with Treasury budgeting guidance, DCMS may indeed retain a proportion of the proceeds. The sale also enables the Department to meet almost the entire sum represented by its target for asset sales over 2008-11.

Internet: Children

Mr. Jim Cunningham: To ask the Secretary of State for Culture, Media and Sport what steps the Government has taken to make the internet safer for child users. [179150]

Margaret Hodge *[holding answer 15 January 2008]:* The Government take internet safety extremely seriously, particularly in relation to children.

In September 2007, the Prime Minister announced a review into the risk to children of exposure to harmful or inappropriate content in video games and online. The review will also assess the effectiveness and adequacy of existing measures to help prevent children from being exposed to such material and help parents understand and manage the risks of access to inappropriate content.

Dr. Tanya Byron is conducting this review and will report to Ministers in March 2008.

Other activity in this area includes the following:

(a) The Internet Watch Foundation (IWF), which operates an internet hotline for people to notify them of child abuse images online. Internet service providers are liable to prosecution if they do not remove sites notified to them by the IWF.

(b) The Home Office Task Force on Child Protection on the Internet, which was set up in 2001 and has published:

Good Practice Guidance for Search Providers and Advice to the Public on How to Search Safely.

Good Practice Models and Guidance for the Internet Industry on Chat Services, Instant Messaging and Web Based Services.

Good Practice Guidance for the Providers of Social Networking and Other User Interactive Services.

(c) Cyberbullying guidance, which was launched in September 2007 by the Department for Children, Schools and Families, provides practical help and guidance for parents and pupils on how to deal with any cyberbullying incidents.

(d) The Child Exploitation and Online Protection Centre (CEOP) which was set up in 2006, combines its enforcement powers with the business sector, Government and other interested organisations all focused on tackling child sex abuse policy. CEOP had some notable successes last year in bringing prosecutions.

(e) The EU Safer Internet Plus Programme promotes a safer use of online technologies particularly by children, and supports those fighting illegal and harmful content ranging from child abuse images to racism. IWF and CEOP receive funding from this programme.

(f) Many internet service providers and mobile companies work in partnership with Government in providing parents and children with practical help and advice on their websites.

Theatre: Grants

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport how many regularly-funded theatre-based producing companies in the regions will be supported by Arts Council England in 2008-09. [179701]

James Purnell *[holding answer 17 January 2008]:* The Arts Council operates at arm's length from the Government and decisions about which arts organisations to fund are entirely for them.

Arts Council England will make a full announcement at the beginning of February when final decisions have been taken.

Tourism: Greater London

Tom Brake: To ask the Secretary of State for Culture, Media and Sport what estimate he has made of the average expenditure per head by overseas tourists visiting London in the last five years. [179278]

Margaret Hodge: The table shows the average expenditure per visit by overseas tourists to London for the latest years for which data are available.

Average expenditure per visit

	London (£, current prices)
2002	499
2003	502
2004	481
2005	494
2006	502

Source:
International Passenger Survey (ONS).

The figures exclude expenditure relating to fares for travel to and from the UK, and include expenditure by same day transit visitors.

Tom Brake: To ask the Secretary of State for Culture, Media and Sport what estimate he has made of the number of *(a)* overseas and *(b)* UK tourists who visited London in the last five years. [179279]

Margaret Hodge: The tables show (i) the number of overseas visits and (ii) the number of overnight trips by UK residents to London for the latest years for which data are available.

Overseas visits

	London (million)
2002	11.6
2003	11.7
2004	13.4
2005	13.9
2006	15.6

Source:
International Passenger Survey (ONS).

Domestic overnight trips by UK residents[1]

	London (million)
2002	16.1
2003	14.3
2004	12.8
2005	10.7
2006	11.0

[1] The methodology for the UKTS changed in 2005 meaning that comparisons with previous years should be treated with caution. This change occurred as a result of concerns with the quality of 2004 data, which are thought to be an under-representation of the true position.

Source:
UK Tourism Survey (National Tourist Boards).

It is not possible to provide a time series for the number of day visits by UK residents to London as the survey is run intermittently.

TRANSPORT

Bicycles: Accidents

Robert Key: To ask the Secretary of State for Transport how many *(a)* cyclists and *(b)* motorcyclists have suffered (i) non-fatal casualties and (ii) death on (A) urban and (B) rural roads in Great Britain in each year since 1997. [180935]

Jim Fitzpatrick: The information requested is given in the table:

Number of fatal and non-fatal casualties in reported personal injury road accidents by urban/rural roads and road user type GB 1997-2006

Number of casualties

	Urban				*Rural*			
	Pedal cyclist		*Motorcyclists*		*Pedal cyclist*		*Motorcyclists*	
	Fatal	*Non fatal*	*Fatal*	*Non fatal*	*Fatal*	*Non fatal*	*Fatal*	*Non fatal*
1997	95	20,206	164	15,814	88	4,222	344	8,129
1998	81	18,854	151	16,058	77	3,862	345	8,004
1999	83	18,722	178	17,039	88	3,811	360	8,492
2000	67	17,071	177	18,822	59	3,318	421	8,649
2001	69	15,737	186	19,481	67	3,149	394	8,606
2002	63	14,110	222	18,893	64	2,824	387	8,802
2003	60	14,091	213	18,502	54	2,810	480	9,194
2004	73	13,821	185	17,037	61	2,676	399	7,999
2005	73	13,751	179	16,284	75	2,657	390	7,961
2006	87	13,424	176	15,240	59	2,626	423	7,485

Number of casualties

	All[1]			
	Pedal Cyclist		*Motorcyclists*	
	Fatal	*Non fatal*	*Fatal*	*Non fatal*
1997	183	24,453	509	23,983
1998	158	22,765	498	24,112
1999	172	22,668	547	25,645
2000	127	20,485	605	27,607
2001	138	18,976	583	28,227
2002	130	16,977	609	27,744
2003	114	16,919	693	27,718
2004	134	16,514	585	25,056
2005	148	16,413	569	24,255
2006	146	16,050	599	22,727

[1] Includes roads with unallocated urban/rural marker

Bull Bars: Regulation

Dr. Tony Wright: To ask the Secretary of State for Transport if she will seek to amend EU regulations on the fixing of metal bull bars to new vehicles to cover vehicles which had such bars fitted when the present regulations entered into force. [181555]

Jim Fitzpatrick: The Government have no plan for retrospective regulation in this area.

Departmental Pay

Stephen Hammond: To ask the Secretary of State for Transport how many officials in her Department and its agencies received bonuses in each year since 2002. [178962]

Jim Fitzpatrick: All civil service Departments are encouraged to develop non-consolidated bonus payments to recognise performance, in accordance with the civil service reward principles agreed by the Cabinet Office.

The information requested for the years prior to 2005-06 are not held centrally and could be provided only at disproportionate cost.

Detailed records for the number of civil servants who received staff bonuses during the period stated only exist for the following years:

	Number
2005-06	12,622
2006-07	12,241

The 2006-07 figures do not include figures from the Vehicle and Operator Services Agency (VOSA) as they have yet to complete payments to staff.

Departmental Recycling

Mr. Hayes: To ask the Secretary of State for Transport what her Department's policy is on recycling. [174398]

Jim Fitzpatrick: Due to the dispersed nature of the Department for Transport estate an overarching recycling policy approach has not been adopted. Instead, the Department looks to utilise the available schemes in each of the areas in which it has sites. The Department, including its agencies, has embedded recycling and waste reduction into sustainable development action plans and environmental management systems, where applicable, with the aim of achieving the recognised sustainability on the government estate waste targets.

For the scale of the recycling schemes currently utilised by the Department for Transport I refer the hon. Member to my response on 15 January 2008, *Official Report*, columns 1086-88W. Additionally, I refer the hon. Member to my earlier answer given on 17 December 2007, *Official Report*, column 1172W, which showed the volumes and percentage of recycling undertaken by the Department for Transport.

Driving Standards Agency: Rural Areas

Lembit Öpik: To ask the Secretary of State for Transport whether her Department carried out impact assessments before the introduction of multi-purpose test centres in rural areas; and if she will make a statement. [180499]

Jim Fitzpatrick: A draft Regulatory Impact Assessment was published as part of the consultation entitled "Delivering the new motorcycle test" in December 2002. This was revised in the light of responses to that consultation. The amended Impact Assessment was published in the Response to Consultation report in March 2004.

Driving Standards Agency: Training

Lembit Öpik: To ask the Secretary of State for Transport for what reasons the Driving Standards Agency's professional development training will be outsourced; and if she will make a statement. [180501]

Jim Fitzpatrick: The Driving Standards Agency is currently working with representative bodies and other stakeholders on the development of a Continuing Professional Development initiative for approved driving instructors which would inform a future consultation paper. No decisions have been made as to the development of the delivery.

Driving: Age

Mr. Roger Williams: To ask the Secretary of State for Transport what recent assessment she has made of whether to change the age at which an individual can start driving. [181450]

Jim Fitzpatrick: I refer to the answer given on 15 January 2008, *Official Report*, column 1088W to the right hon. Member for East Yorkshire (Mr. Knight).

Government Mail

Mr. Maude: To ask the Secretary of State for Transport how many deliveries were lost by Government mail in the last year for which figures are available. [181328]

Jim Fitzpatrick: I refer the right hon. Member to my answer of 19 November 2007, *Official Report*, column 460W given to the hon. Member for Fareham (Mr. Hoban).

Roads: Death

Chris Ruane: To ask the Secretary of State for Transport at which times of day incidents causing the deaths of drivers aged between 17 and 25 years occurred in each of the last 10 years, broken down by hourly interval. [180390]

Jim Fitzpatrick: The number of reported personal injury road accidents resulting in 17 to 25-year-old car driver fatalities by hour of accident for Great Britain from 1997 to 2006 are shown in the table.

Number of fatal accidents

Hour of accident	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*
00:00	24	18	17	15	20	25	26	24	24	21
01:00	10	24	24	19	13	17	12	24	22	24
02:00	23	10	11	11	21	13	17	19	14	17
03:00	12	12	10	11	15	11	23	12	10	17
04:00	10	2	9	9	7	9	8	13	9	12
05:00	9	5	2	13	6	9	6	15	8	10
06:00	12	10	4	9	6	10	16	9	14	8
07:00	18	11	11	13	16	17	7	12	15	11
08:00	17	19	12	12	14	18	15	18	17	17
09:00	9	12	6	7	7	7	9	8	3	10
10:00	10	13	10	10	5	9	12	4	6	11
11:00	11	5	3	9	5	9	5	9	4	9

Number of fatal accidents

Hour of accident	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*
12:00	11	9	5	7	9	9	13	8	15	11
13:00	16	12	11	13	7	13	7	9	7	6
14:00	4	9	14	7	9	10	16	3	10	17
15:00	14	10	7	6	8	10	15	5	8	13
16:00	10	12	14	10	13	8	15	10	15	18
17:00	16	14	11	12	13	18	16	17	11	21
18:00	22	28	13	13	16	13	25	20	22	20
19:00	15	15	14	11	26	15	18	16	22	19
20:00	22	22	20	23	23	18	13	23	26	22
21:00	26	14	19	26	18	29	19	22	25	23
22:00	25	26	21	17	31	26	26	26	32	20
23:00	28	18	22	29	24	23	20	32	21	31
Total	374	330	290	312	332	346	359	358	360	388

Chris Ruane: To ask the Secretary of State for Transport in how many road traffic accidents in which a driver aged between 17 and 25-years-old died there were *(a)* no passengers, *(b)* passengers aged between 17 and 25 and *(c)* passengers aged over 25 in the vehicle in each of the last 10 years; and if she will make a statement. [180428]

Jim Fitzpatrick: The numbers of reported personal injury road accidents involving 17 to 25-year-old car driver fatalities with *(a)* no passenger casualties, *(b)* at least one 17 to 25-year-old passenger casualty and *(c)* at least one passenger casualty aged over 25 are given in the table.

	No passenger casualties	*At least one 17 to 25-year-old passenger casualty*	*At least one passenger casualty aged over 25*
1997	227	120	23
1998	198	109	18
1999	172	89	20
2000	193	96	23
2001	200	108	14
2002	209	120	16
2003	220	108	21
2004	232	97	18
2005	218	114	16
2006	223	135	21

Data are shown for passenger casualties as information on uninjured passengers is not collected. Accidents may be included in both columns *(b)* and *(c)* as a vehicle may have a 17 to 25-year-old passenger casualty as well as a passenger casualty aged over 25.

Safety Belts

Mr. Amess: To ask the Secretary of State for Transport what files are held by her Department on *(a)* the Road Traffic (Seat Belts) Bill of Sessions (i) 1978-79 and (ii) 1979-80 and *(b)* the Safety of Children in Cars Bill of sessions (A) 1978-79, (B) 1979-80 and (C) 1980-81; and if she will make a statement. [180774]

Jim Fitzpatrick: The Department's records for the periods in question do not show files specifically relating to these Bills. Many files from that period have now been destroyed or transferred to The National Archive.

Speed Limits: Driving Offences

Mr. Hoyle: To ask the Secretary of State for Transport what steps she is taking to ensure that every person referred to a speed awareness course in Lancashire undertakes the course. [180509]

Jim Fitzpatrick: The Department is not responsible for ensuring the attendance of offenders at speed awareness courses. Courses are offered at the discretion of the Police, as an alternative to prosecution, to speeding offenders for whom they feel it is the most productive option. Should an offender agree to attend a course but fail to do so, the offer of a course is withdrawn and the offence reverts to a prosecution.

Vehicle Registration: Fines

Mr. Laurence Robertson: To ask the Secretary of State for Transport how many fines the Driver and Vehicle Licensing Agency has issued relating to the lack of notification of change of vehicle ownership in the last two years. [180594]

Jim Fitzpatrick: The number of penalties issued by the Agency in respect of a failure to notify a change of vehicle ownership is as follows:

Financial year	*Number*
2005-06	52,640
2006-07	42,078

Mr. Laurence Robertson: To ask the Secretary of State for Transport how many appeals against fines imposed by the Driver and Vehicle Licensing Agency for non-notification of change of vehicle ownership have been made in the last two years; how many of these were successful; on what grounds such cases were successful; and if she will make a statement. [180596]

Jim Fitzpatrick: The Agency does not hold statistics to advise the total number of appeals received in cases which involve non-notification of change of vehicle ownership. These details could be obtained only at disproportionate cost. The number of non-notification of change cases closed following further investigation is as follows:

Financial year	*2005-06*	*2006-07*
Compassionate grounds	388	423
Data discrepancy	3,062	2,603
No offence	11,467	8,652

COMMUNITIES AND LOCAL GOVERNMENT

Coastal Areas

Mr. Cox: To ask the Secretary of State for Communities and Local Government what progress has been made in establishing a cross-departmental working group to examine coastal towns. [180655]

John Healey: The inaugural meeting of the cross-departmental working group on coastal towns, convened by officials from this Department, will be held on 6 February 2008.

Departmental Freedom of Information

Norman Baker: To ask the Secretary of State for Communities and Local Government what percentage of freedom of information requests received by her Department have given rise to responses that have been published by her Department. [180211]

Mr. Dhanda: Communities and Local Government has adopted a selective disclosure policy whereby only the most high profile pieces of information and those of wider public interest are published as a matter of course on the disclosure log on its website at:

http://www.communities.gov.uk/coporate/about/freedom-of-information/disclosure-log/

To date, 5 per cent. of responses to requests made to Communities and Local Government and its predecessor Department, the Office of the Deputy Prime Minister, under the Freedom of Information Act 2000 and Environmental Information Regulations 2004 since 1 January 2005 have been published.

Fire Services: injuries

Mr. Evans: To ask the Secretary of State for Communities and Local Government how many firefighters, following injury *(a)* retired and took their pensions due to injury, *(b)* were re-employed within the Fire Service in other roles and *(c)* left the Fire Service without their pension, in each of the last five years. [180809]

Mr. Dhanda: Available information, for ill-health retirements due to injury, which relate to all Fire and Rescue Staff (uniformed and non-uniformed) is set out as follows:

Ill-health retirements due to injury England 2001-02 to 2005-06

	Number
2001-02	168
2002-03	184
2003-04	115
2004-05	382
2005-06	244

Source:
Annual returns to Communities and Local Government

Information on re-employments and leavers without pensions is not held centrally and could be provided only at disproportionate cost.

Flood Control: Essex

Mr. Burns: To ask the Secretary of State for Communities and Local Government when the Scot Wilson Strategic Flood Risk Assessment for Mid Essex and Colchester will be published; and what the reasons are for the time taken to publish it. [180712]

Mr. Iain Wright: The strategic flood risk assessment (SFRA) work undertaken by Scott Wilson was split into two phases. Phase 1 successfully completed in November 2006, with Phase 2 involving the delivery of the individual SFRA chapters to suit local development framework (LDF) timetables. This is a joint piece of work commissioned by Chelmsford, Colchester, Maldon and Braintree local planning authorities to help inform their emerging LDFs.

A number of factors led to the delay in publication of this study. In August 2007, the Environment Agency requested that the scope of the study be changed to take into account new guidance in planning policy statement 25 'Development and Flood Risk' and the accompanying practice manual to take account of the possible impacts of climate change for river systems, such as the incidence of higher density rainfall. This required the engagement of additional consultants to undertake reruns of the fluvial models, which took further time. However, undertaking this further work means that the final SFRA aims to comply with most recent Government guidance and provide the most up to date information in relation to flooding that also includes consideration of the potential impacts of climate change.

Greater London Authority: Standards

Stephen Hammond: To ask the Secretary of State for Communities and Local Government if her Department will initiate a review into *(a)* the governance of the London Development Agency and *(b)* the operation of arrangements for the scrutiny of the Mayor of London's advisers. [178338]

John Healey *[holding answer 14 January 2008]:* I refer the hon. Member to the answer I gave on 15 January 2008, *Official Report*, columns 773-74.

Green Belt

Grant Shapps: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 10 December 2007, *Official Report*, columns 131-39W, on green belt, how many hectares were designated green belt in *(a)* Durham district and *(b)* Easington district in 1997. [180199]

Mr. Iain Wright: There was no designated green belt land in Durham district or Easington district in 1997.

Heating: Standards

Mr. Jeremy Browne: To ask the Secretary of State for Communities and Local Government if she will introduce legislation to require the retrospective implementation in council housing of the 2004 British Standard for water system thermostats. [180971]

Mr. Iain Wright: Last summer we began a wide ranging review of the Building Regulations to see whether any changes to the legal requirements might be made that would further improve the robustness and safety of hot water systems in all new homes and homes undergoing alteration and major building works. We do not want to pre-judge the outcome of this review.

In parallel we are working with our colleagues in the Health and Safety Executive (HSE) and in industry to see whether additional guidance and a more robust approach to ensuring the proper implementation of legal provisions relating to safety in existing housing is needed.

This review and our joint work with HSE and the industry will, of course, take account of the findings of the coroner, following the tragic death of Rhianna Hardie.

Housing

Alistair Burt: To ask the Secretary of State for Communities and Local Government on what criteria the decision made to grant the housing market renewal scheme £1 billion of Government funding on 11 October 2007 was based. [166231]

Mr. Iain Wright: Decisions to grant the housing market renewal programme additional funding of around £1 billion for 2008 to 2011 were taken as part of allocations within the Department for Communities and Local Government following the comprehensive spending review 2007.

The new funding reflects in part the initial success of the programme in narrowing the gaps in house prices and vacancies between pathfinders and their regions, as recognised in the National Audit Office's recent report on the programme. It also recognises that more remains to be done—in some cases, to continue to tackle problems of deep-seated structural need, where markets are reviving more slowly; and in others to ensure that the housing market renewal and growth programmes can be taken forward together where appropriate, responding to emerging issues including the need for more affordable housing.

Decisions on allocations to individual areas will be taken shortly.

Housing: Empty Property

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many domestic dwellings in England are classified as empty. [180160]

Mr. Iain Wright: I refer the hon. Member to the answer given to my hon. Friend the Member for Hayes and Harlington (John McDonnell) on 9 January 2008, *Official Report*, columns 547-48W.

Housing: Low Incomes

Tim Farron: To ask the Secretary of State for Communities and Local Government if she will allow the redesignation of disused or underused farm buildings for the purposes of developing affordable housing. [180189]

Mr. Iain Wright: Planning Policy Statement 7: "Sustainable Development in Rural Areas" (PPS7) sets out a supportive approach to the re-use of buildings in the countryside where this would meet sustainable development objectives. Conversion for economic development uses is preferred but residential conversions may also be acceptable. Isolated new houses in the countryside will require special justification for planning permission to be granted but this may be provided if accommodation is needed, for example, to enable agricultural, forestry or other workers to live at or in the vicinity of their place of work.

Any dwellings will count as new housing for the purposes of Planning Policy Statement 3 "Housing" (PPS3). PPS3 highlights the need for local authorities to plan for the provision of market and affordable housing in rural areas that contributes to the creation and maintenance of sustainable rural communities in market towns and villages. It also sets out how local authorities in rural areas should consider allocating and releasing sites solely for affordable housing, including using a rural exception site policy.

It is for local planning authorities to determine planning applications, such as those for the development of disused or underused farm buildings for housing, in accordance with the statutory development plan, unless material considerations indicate otherwise.

Housing: Vista Panels

Grant Shapps: To ask the Secretary of State for Communities and Local Government what contracts have been provided to Vista Panels by the Housing Market Renewal Pathfinder schemes. [180156]

Mr. Iain Wright: None of the Housing Market Renewal Pathfinders is known to my Department to have had a direct contract with Vista Panels.

Local Government Business Growth Initiative

Mr. Kidney: To ask the Secretary of State for Communities and Local Government what recent assessment she has made of the effectiveness of the local government business growth initiative (LEGI); and how much additional funding has been provided under the LEGI to local authorities. [178465]

John Healey: I understand my hon. Friend means this question to relate to Local Authority Business Growth Incentives Scheme (LABGI) rather than Local Enterprise Growth Initiative (LEGI).

At the end of the first year of LABGI, we revisited the methodology used to calculate the level of funding given to local authorities to ensure that the scheme continued to deliver an incentive for local authorities to maximise local economic growth. As a result, the scheme was simplified by removing the ceiling on payments made to local authorities.

On 7 January 2007, the Government announced that, following further consideration of new legal challenges that have been made against the current scheme and the inherent uncertainty that this caused to the remaining LABGI pot, it intended to re-consider all aspects of the approach used to distribute the remaining resources available for Year 3 of the LABGI scheme. The full statement can be found at

http://www.local.odpm.gov.uk/finance/labgi/statementyr3pay.pdf

In October 2006, the Government published an issues paper, which sought views on reform of LABGI. This set out the Government's intention to develop an incentive as a full and permanent part of the local government finance system and to phase this in from 2009-10, with funding of £50 million doubling to £100 million in its second year. We are now considering the responses that have been received.

Members: Correspondence

Mr. Garnier: To ask the Secretary of State for Communities and Local Government when she will reply to the letter from the hon. Member for Harborough of 20 December 2007 on the eco-town proposal in Harborough. [181136]

Mr. Iain Wright *[holding answer 22 January 2008]:* The Parliamentary Under-Secretary of State for Communities and Local Government, my hon. Friend the Member for Gloucester (Mr. Dhanda) replied to the hon. Member on 17 January.

Muslims: Females

Mr. Paul Goodman: To ask the Secretary of State for Communities and Local Government pursuant to her answer of 18 December 2007, *Official Report*, columns 1338-9W, on Muslims: females, which academics, theologians and leading Muslim women attended the two roundtable meetings in which women's access to mosque life was discussed; and who attended the two wider stakeholders meetings. [181184]

Mr. Dhanda *[holding answer 22 January 2008]:* In my right hon. Friend's answer of 18 December, the Secretary of State for Communities and Local Government identified two roundtable meetings at which the issue of women's access to mosque life was discussed. The following academics and theologians attended the first of these meetings:

Name	
Prof. Tariq Ramadan	University of Oxford
Prof. Tim Winters	University of Cambridge
Dr. Anas Sheikh-Ali	AMSS UK
Prof. Ron Geaves	Liverpool Hope University
Sheikh Gamal Manna	Muslim College
Dr. Usama Hasan	Middlesex University
Mehri Niknam	Joseph Interfaith Foundation
Dr. Shahid Raza	British Muslim Forum
Dilwar Hussein	Islamic Foundation
Dr. Musharraf Hussain	Karimia Institute
Prof. Haleh Afshar	University of York
Maleiha Malik	Kings College London

The following stakeholders attended the second meeting.

Name	
Bacool Al Toma	Islamic Foundation
Parvin Ali QBE	FATMA Women's Network
Naheed Arshad-Mather	Chair, Yorkshire and Humber Regional Panel
Zuleka Dala	Mental Health Development Team, Yorkshire Primary Care Trust
Reedah El-Saie	Barrister
Shahda Khan	Principal Community Cohesion Officer, Middlesbrough Council
Sabira Murtaza Lakha	World Federation of Khoja Shi'a Ithna Asheri
Adeeba Malik	QED-UK
Sabin Malik	Principal Community Cohesion Officer, London borough of Hounslow
Andleen Razaq	Diversity Awareness Trainer, Metropolitan Police Force
Shahien Taj	Henna Foundation

The Secretary of State for Communities and Local Government also identified two stakeholder roundtable meetings. The following persons attended one or both of these meetings:

Name	
Yousif al-Khoei	Al-Koei Foundation
Khurshid Ahmed	British Muslim Forum
Irfan Chishti	Sufi Muslim Council
Yasmin Alibhai-Brown	British Muslims for Secular Democracy
Parvin Ali	FATIMA Women's Network
Shahien Taj	Henna Foundation
Dr. Abdul Bari	Muslim Council of Britain
Abdulkarim Kubica	Muslim Cultural Heritage Centre
Shaista Gohir	Muslim Women's Network
Mohammed Imran	Muslim Youth Helpline
Hashim Duale	Somali Community, Leicester
Yahya Birt	City Circle
Sabira Lakha	World Federation of Khoja Shi'a Ithna Asheri
Aneela Majid	British Muslims for Secular Democracy

Mr. Paul Goodman: To ask the Secretary of State for Communities and Local Government whether her Department has published good practice guidance on initiatives to support the role of Muslim women in the community since the report on preventing violent extremism was published. [181186]

Mr. Dhanda *[holding answer 22 January 2008]:* The good practice guide on effective initiatives to strengthen the role that Muslim women play in their communities was published on 23 January.

Property

Mr. Slaughter: To ask the Secretary of State for Communities and Local Government when a consultation paper will be published on proposed reforms to the property search market. [179225]

Mr. Iain Wright: The consultation paper was published on 18 January.

Regeneration: Coventry

Mr. Greg Knight: To ask the Secretary of State for Communities and Local Government what grants her Department has provided for the re-development of Coventry in the last 12 months; and what *(a)* grants and *(b)* loans for that purpose are planned for the future. [180717]

Mr. Dhanda: There have been no specific Communities and Local Government grants or loans provided for the re-development of Coventry in the last 12 months apart from a contribution to Coventry's New Deal for Communities (NDC) initiative based in three deprived outer estates in the north east of the city.

Religious Buildings: Planning

Sarah Teather: To ask the Secretary of State for Communities and Local Government in respect of how many sites applications for planning permission for change of use from a place of worship to *(a)* private housing, *(b)* commercial usage, *(c)* community functions and *(d)* other usage have been granted in each of the last 10 years. [180429]

Mr. Iain Wright: The information requested is not held centrally and could be provided only at disproportionate cost. Communities and Local Government collects quarterly aggregate statistics on development control from all local planning authorities in England. However, we do not collect information on individual planning applications.

Repossession Orders: Housing Benefit

Margaret Moran: To ask the Secretary of State for Communities and Local Government how many possession orders were *(a)* suspended and *(b)* dismissed relating to properties owned by (i) registered social landlords and (ii) local authority housing departments because of non-payment of housing benefit by local authorities in the latest period for which figures are available. [181100]

Maria Eagle: I have been asked to reply.

Data are not available relating to the number of possession actions initiated by social landlords or local authority housing departments which were suspended or dismissed on the grounds of non-payment of housing benefit by local authorities. This information could be compiled centrally only at disproportionate cost.

However, the Ministry of Justice publishes general quarterly statistics on mortgage and landlord possession actions. This publication includes court-level data on the number of suspended orders, and is available from the statistics pages of the Ministry of Justice website.

Rural Areas: Business

Mr. McLoughlin: To ask the Secretary of State for Communities and Local Government what steps her Department is taking to promote rural towns as desirable places to set up and expand businesses. [181160]

Mr. Dhanda: The Government's review of sub-national economic development and regeneration (known as the SNR), published in July 2007, set out policies designed to enable all places, including rural towns, to reach their economic potential.

Regional development agencies lead work to drive economic development in the regions. However, under the proposals set out in the SNR, local authorities will play an increasingly important role in driving forward economic development and will develop and deliver the regional strategy alongside the RDAs. The SNR also proposed a new economic appraisal duty for local authorities, which would require each upper tier local authority to assess the economic circumstances and challenges in its area. The Government will be consulting on these proposals shortly.

Rural Areas: Renewable Energy

Mr. Paice: To ask the Secretary of State for Communities and Local Government what steps her Department is taking to assist rural households on planning issues in relation to alternative sources of energy and microgeneration. [181163]

Mr. Iain Wright: The Planning Policy Statement on climate change we published at the end of 2007 sets out new planning rules to boost the use of local renewable and low carbon energy. These expect local planners, whether in rural or urban locations, to promote and encourage alternative sources of energy and microgeneration when they help cut carbon emissions. We are also going to make it easier for householders including those in rural areas to install microgeneration equipment without the need to apply for planning permission, subject to certain safeguards to minimise the impact on others. Our aim is to amend the relevant legislation in the spring. Where the proposal would still require a planning application, and it is in line with our new policy rules for cutting carbon emissions, we expect it to be handled expeditiously and sympathetically.

HOME DEPARTMENT

Arrests

Mr. Ruffley: To ask the Secretary of State for the Home Department how many *(a)* prosecutions have been made and *(b)* fixed penalty notices have been issued by (i) police and (ii) local authorities for (A) fly tipping, (B) graffiti, (C) dog fouling, (D) the dropping of litter and (E) parking offences in each year since 1997. [176115]

Jonathan Shaw: I have been asked to reply.

Information on prosecutions at magistrates courts is held by the Ministry of Justice for (A) fly tipping offences, (B) 'other' criminal damage, (C) dog fouling, (D) littering and (E) parking offences since 1997; these are provided in the following tables. The offence class of 'other' criminal damage includes, but cannot separately identify, offences of graffiti. Data on fly posting offences cannot be separately identified from the data held by the Ministry of Justice.

(A) Fly tipping

	Number of defendants proceeded against at magistrates court
2006	1,791
2005	1,550
2004	1,317
2003	985
2002	922
2001	732
2000	648
1999	564
1998	516
1997	393

(B) 'Other' criminal damage

	Number of defendants proceeded against at magistrates court
2006	13,478
2005	12,368
2004	13,359
2003	13,852
2002	14,152
2001	13,820
2000	12,802
1999	13,932
1998	14,148
1997	13,734

(C) Dog Fouling

	Number of defendants proceeded against at magistrates court
2006	404
2005	473
2004	461
2003	454
2002	355
2001	366
2000	341
1999	294
1998	184
1997	45

(D) Littering

	Number of defendants proceeded against at magistrates court
2006	2,031
2005	1,447
2004	909
2003	552
2002	333
2001	457
2000	466
1999	506
1998	496
1997	506

(E) Parking Offences

	Number of defendants proceeded against at magistrates court
2006	9,059
2005	10,972
2004	14,710
2003	17,729
2002	17,554
2001	18,966
2000	19,624
1999	22,869
1998	23,572
1997	21,051

Data are collected by DEFRA on the number of Fixed Penalty Notices (FPNs) issued by local authorities, and how many had subsequently been taken to prosecution due to non-payment. Police Community Support Officers can issue FPNs if they have the relevant approval; such FPNs are issued on behalf of the local authority and are included in the aggregated figure provided by each local authority to DEFRA each year. FPNs cannot be issued for fly tipping offences.

The numbers of FPNs issued for each offence each year are included in the following tables.

(B) Graffiti

Reporting year (April to March)	*Number of Fixed Penalty Notices issued*	*Number of cases taken to court following non-payment*
2006-07	42	2
2005-06	47	3
2004-05	19	2

As the power to issue FPNs for graffiti offences was introduced in 2003, statistics do not exist prior to this date.

(C) Dog Fouling

Reporting year (April to March)	*Number of Fixed Penalty Notices issued*	*Number of cases taken to court following non-payment*
2006-07	3,675	205
2005-06	4,066	303
2004-05	3,557	330
2003-04	2,742	193
2002-03	2,036	127
2001-02	2,311	190
2000-01	1,817	91
1999-2000	1,545	111
1998-99	1,321	90
1997-98	292	11

(D) Litter

Reporting Year	*Number of Fixed Penalty Notices issued*	*Number of cases taken to court following non-payment*
2006-07	43,624	2,144
2005-06	33,033	1,002
2004-05	25,216	1,100

(D) Litter

Reporting Year	Number of Fixed Penalty Notices issued	Number of cases taken to court following non-payment
2003-04	7,565	266
2002-03	12,829	169
2001-02	11,615	175
2000-01	2,247	66
1999-2000	2,970	30
1998-99	4,777	13
1997-98	727	74

The parking offences for which a FPN can be issued are nuisance parking and abandoned vehicles, as defined in the Clean Neighbourhoods and Environment Act 2005. The first year of available data is for the period April 2006 to March 2007.

Reporting year April 2006 to March 2007	Number of Fixed Penalty Notices issued	Number of cases taken to court following non-payment
(E(i)) Nuisance parking	1,657	0
(E(ii)) Abandoned vehicles	469	16

The police can issue penalty notices for disorder (PNDs) which can include offences such as littering. The littering offence was added to the PND scheme in 2004 when it was rolled out nationally.

Data on the number of PNDs issued for littering broken down by police force area are published as a part of the publication 'Penalty Notices for Disorder' for 2004 data and as a part of 'Criminal Statistics, England and Wales 2006' (for 2005 and 2006 data). These are available on the Ministry of Justice website.

Asylum

Mr. Clappison: To ask the Secretary of State for the Home Department if she will give a breakdown by *(a)* sex and *(b)* age group of asylum applicants granted leave to remain in the UK via (i) asylum status, (ii) exceptional leave to remain, discretionary leave to remain or humanitarian protection, (iii) the 1998 backlog exercise and (iv) the 2000 family ILR exercise in each year since 1997. [177337]

Mr. Byrne: Information on initial decisions by sex for years 2001 to 2006 are available from the annual Statistical Bulletins Asylum Statistics United Kingdom.

Information on initial decisions by age of applicants for years 1997 to 2000 are available from the annual Statistical Bulletins Asylum Statistics United Kingdom, information for 2001 to 2006 will be placed in the House Libraries. Categories and the presentation of data changed in 2001 and this is reflected in the tables provided.

Information on the 1998 backlog exercise and the 2000 family ILR exercise is not available broken down by age and sex and could be obtained by examination of individual case records only at disproportionate cost.

Jenny Willott: To ask the Secretary of State for the Home Department how many and what proportion of the people whose asylum cases *(a)* were considered under the Legacy Casework Programme were unsuccessful have been removed and *(b)* are awaiting removal; and if she will make a statement. [179102]

Mr. Byrne: In her update to the Home Affairs Select Committee of 17 December 2007, Lin Homer (the chief executive of the Border and Immigration Agency) stated that 52,000 cases have been concluded by the Case Resolution Directorate, of which about 16,000 have led to removals. We do not hold information on how many cases have been considered and are awaiting removal.

Lin Homer gave an undertaking to update the Home Affairs Select Committee every six months.

Jim Cousins: To ask the Secretary of State for the Home Department how many asylum seeker legacy cases have been recognised in *(a)* Newcastle and *(b)* the North East; and how many such cases have been determined. [178191]

Mr. Byrne *[holding answer 15 January 2008]:* The information requested cannot be provided except by examining individual case records at disproportionate cost.

Asylum: Applications

Andrew Stunell: To ask the Secretary of State for the Home Department what guidelines are issued to case decision-makers in the Borders and Immigration Agency on the economic and social consequences for applicants for indefinite leave to remain of the time taken to make decisions on individual applications. [177616]

Mr. Byrne: There is no specific guidance issued to caseworkers on the economic and social consequences of time taken to process a decision on Indefinite Leave to Remain (ILR) applications.

The Border and Immigration Agency have time based targets for dealing with such applications, the majority of which are met. Targets that are 70 per cent. of all decisions on in time applications requesting indefinite leave to remain are made within 20 days of receipt and that 90 per cent. are decided within 70 days.

Asylum: Dublin II Agreement

Mr. Hoban: To ask the Secretary of State for the Home Department how many asylum seekers her Department has requested the return of under the Dublin II Agreement in each year since it came into force. [180255]

Mr. Byrne: Approximately 7,920 requests have been made by the United Kingdom under the provisions of the Dublin II regulation since its introduction on 1 September 2003. Statistics on the number of requests between September and December 2003 is unavailable. The yearly breakdown is as follows:

	Number
2004	2,320
2005	1,840
2006	1,960
2007	1,800

These figures are based on management information. This information has not been quality assured under National Statistics protocols, is subject to change and should be treated as provisional. These figures have been rounded to the nearest five.

Mr. Hoban: To ask the Secretary of State for the Home Department how many asylum seekers have been returned to the UK under the Dublin II Agreement in each year since it came into force. [180256]

Mr. Byrne: A total of approximately 1,165 asylum seekers have been returned to the UK from other EU countries under Dublin provisions since 2004. The Dublin II regulation was introduced on 1 September 2003 and replaced the Dublin convention. The statistics, as follows, include returns under both the Dublin convention and regulation as we are unable to provide figures on the Dublin regulation alone. Returns information from September to December 2003 is unavailable. A yearly breakdown is as follows:

	Number
2004	90
2005	265
2006	440
2007	370

These figures are based on management information. This information has not been quality assured under National Statistics protocols, is subject to change and should be treated as provisional. These figures have been rounded to the nearest five.

Asylum: Social Security Benefits

Mr. Clappison: To ask the Secretary of State for the Home Department how many persons were in receipt of asylum support in each year since 1 January 2004, broken down by nationality; and how many in receipt of such support had been refused asylum. [180675]

Mr. Byrne: The numbers of asylum seekers in receipt of support broken down by nationality are published annually in the Asylum Statistics United Kingdom bulletins. The latest bulletin for 2006 and historic publications are available from the Library of the House and from the Home Office Research, Development and Statistics website at:

http://www.homeoffice.gov.uk/rds/immigration1.html

Information on decision outcomes relating specifically to supported asylum seekers is not available and could be produced only at disproportionate cost.

Campsfield House Detention Centre: Costs

Mr. Andrew Smith: To ask the Secretary of State for the Home Department what the cost was to public funds of responding to the break-out from Campsfield House Detention Centre in August 2007. [180113]

Mr. Byrne *[holding answer 22 January 2008]:* Any costs incurred by the Border and Immigration Agency as a result of the disturbance in Campsfield House in August 2007 are reclaimed from the contractors through a joint insurance arrangement.

Council of Europe Convention on Human Trafficking

Mr. MacShane: To ask the Secretary of State for the Home Department when she expects to complete the ratification of the Council of Europe Convention on Human Trafficking. [179564]

Mr. Coaker *[holding answer 17 January 2008]:* The Government are determined to prioritise the effort to tackle the misery of human trafficking. That is why we intend to ratify the Convention before the end of this year, subject to achieving necessary changes to domestic legislation in all parts of the UK.

Crime: Romania

Mr. Mark Field: To ask the Secretary of State for the Home Department how many *(a)* Romanian and *(b)* Bulgarian nationals have been arrested by Metropolitan Police officers since January 2007. [168006]

Mr. McNulty: The arrests collection undertaken by the Office for Criminal Justice Reform provides data only on persons arrested for recorded crime (notifiable offences) broken down by age group, gender, ethnicity, police force area and main offence group. The nationality of the arrestee does not form part of this collection.

Crimes of Violence

Mr. Ruffley: To ask the Secretary of State for the Home Department in how many cases of actual bodily harm police cautions were used in each of the last five years; and what proportion of such cases were first offences. [176117]

Mr. McNulty: Data showing the number of offenders cautioned, proceeded against and found guilty of actual bodily harm offences in England and Wales from 2002 to 2006 have been provided by the Office for Criminal Justice Reform and are given in the following table.

Information is not available on the number of these cases which were first offences.

Number of offenders cautioned, and defendants proceeded against at magistrates courts and found guilty at all courts for actual bodily harm offences[1], in England and Wales, 2002 to 2006[2, 3]

	2002	2003	2004	2005	2006
Proceeded against	34,785	35,955	30,109	28,091	26,231
Found guilty	15,026	15,087	14,663	16,071	16,663
Cautioned	15,773	20,397	25,707	38,094	42,171

[1] Includes the following offences:
Assaults occasioning actual bodily harm (malicious wounding), Offences against the Person Act 1861 section 47 (in part).
Racially aggravated assaults occasioning actual bodily harm (malicious wounding), Offences Against the Person Act 1861 section 47 (in part) as amended by Crime and Disorder Act 1998 section 29(1)(b) & (2).
Religiously aggravated ABH, Offences Against the Person Act 1861 section 47 as amended by the Crime and Disorder Act 1998 section 29(1)(b) & (2).
Racially or religiously aggravated ABH, Offences Against the Person Act 1861 section 47 as amended by the Crime and Disorder Act 1998 section 29(1)(b) & (2).
[2] These data are on the principal offence basis.
[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Departmental Pay

Mr. Philip Hammond: To ask the Secretary of State for the Home Department how much her Department and its agencies spent on end-of-year bonus payments in each of the last five years. [171531]

Mr. Byrne: End of year bonus payments for staff in Home Office headquarters, the Border and Immigration Agency, and for senior civil servants across the Home Office are linked to performance appraisals. The following table provides the amount paid in end of year bonuses to these staff in the last four years:

	Amount paid (£)
2002-03	2,067,878
2003-04	3,361,516
2004-05	4,287,676
2005-06	4,449,667

Figures for 2006-07 are subject to some change as data are not yet complete.

Staff in the Identity and Passport Service receive end of year corporate bonuses, and change agent bonuses. As the corporate bonuses were only introduced in 2003-04 the following table provides information for the last four years only:

	Amount paid (£)
2003-04	388,874
2004-05	731,484
2005-06	1,068,482
2006-07	1,253,045

Staff in the Criminal Records Bureau do not receive end of year bonuses.

Data are not available from the Prison Service, who were formally an agency of the Home Office prior to transferring to the Ministry of Justice, as obtaining these data is possible only at disproportionate cost.

Entry Clearances

Mr. Clappison: To ask the Secretary of State for the Home Department (1) how many dependants have entered the UK with foreign nationals obtaining a grant of an after-entry application to *(a)* vary leave, *(b)* vary leave for permit-free employment and *(c)* vary leave for business in each year since 1997; [177387]

(2) how many holders of student visas of each nationality have been granted an extension of their entry visa on *(a)* two occasions and *(b)* three or more occasions in each year since 2001; [177396]

(3) how many foreign nationals granted an after entry application *(a)* to vary leave, *(b)* to vary leave for permit-free employment and *(c)* to vary leave for business had obtained (i) a previous extension of leave and (ii) two or more previous extensions of leave in the last year for which figures are available; [177475]

(4) how many *(a)* applications and *(b)* refusals there were of applications for after entry variation of leave for (i) permit-free employment and (ii) business in each year since 1997; [177476]

(5) how many grants of after entry applications to vary leave for business were made in *(a)* each year since 1997 and *(b)* each quarter since 1 January 2004; what the percentage change in grants made was between each such period; and how many foreign nationals of each nationality obtained such a grant in each year since January 2004; [177477]

(6) how many grants of after entry applications to vary leave for permit-free employment were made in *(a)* each year since 1997 and *(b)* each quarter since 1 January 2004; what the percentage change in grants made was between each such period; and how many such grants were made (i) in each category and (ii) for foreign nationals of each nationality in each of the last three years for which such figures are available. [177478]

Mr. Byrne: The information requested could be obtained only by the detailed examination of individual case records at disproportionate cost.

Entry Clearances: Health Professions

Peter Bottomley: To ask the Secretary of State for the Home Department (1) whether overseas doctors and international medical graduates are eligible for highly skilled migrant status; and whether there is any restriction on numbers by category of medical specialty; [181168]

(2) what joint Home Office and Department of Health groups have responsibility for planning highly skilled migrant programme numbers in relation to service and training needs. [181169]

Mr. Byrne: Migrants may come to the UK or extend their leave here under the highly skilled migrant programme, subject to gaining sufficient points against four objective criteria (qualifications, previous earnings, age and UK experience) and meeting any other requirements for that category in the immigration rules. There is no restriction on numbers by category of medical speciality. National health service workforce planning is a matter for the Department of Health.

Entry Clearances: Pakistan

Mr. Gordon Prentice: To ask the Secretary of State for the Home Department how many spouses from Pakistan left the marital home before being granted indefinite leave to remain and were allowed to stay in the UK as a result of an administrative decision by her Department in each year since 2000. [179774]

Mr. Byrne: The requested information is not readily available and could be obtained only by examining individual case files at a disproportionate cost.

The number of Pakistani spouses who left the marital home and were subsequently recorded as being granted indefinite leave to remain on the basis of domestic violence since 2003 is shown in the table.

This information has not been quality assured and is not a national statistic. It should be treated as provisional management information and may be subject to change. Data have been rounded to the nearest five.

	Number of cases
2003	15
2004	70
2005	40
2006	65
2007	70

Entry Clearances: Students

Mr. Lilley: To ask the Secretary of State for the Home Department whether those applying to extend their student visa are asked whether they have previously had their visa extended. [180588]

Mr. Byrne *[holding answer 21 January 2008]:* When a student applies for an extension to their student visa the application form requires the student to provide details of their previous studies if the student has previously been granted permission to study in the United Kingdom. Their application is supported by their passport or travel document which will include their previous visa extension.

Mr. Lilley: To ask the Secretary of State for the Home Department what checks are made on whether students whose visas are extended for further academic study attend their new courses. [180589]

Mr. Byrne *[holding answer 21 January 2008]:* One of the provisions of the student rules is that a student needs to provide evidence of enrolment from an institution on the Register of Education and Training Providers before an extension may be granted.

If a student fails to attend, the institution must provide details to the Border and Immigration Agency on demand.

When a student applies for an extension to their leave, the application form requires the institution to provide written confirmation of the student's attendance.

Under the proposed new Points Based System, there will be a mandatory requirement on institutions to report non-attendance of their students. This will be supported by sanctions on the institutions and may include removal from the sponsorship register for failure to meet this requirement.

Mr. Lilley: To ask the Secretary of State for the Home Department how many student visa extensions were granted for students *(a)* to pursue a full-time recognised degree course, *(b)* to pursue a weekday daytime course involving a minimum of 15 hours per week, *(c)* to attend a full-time course of study at an independent fee paying school, *(d)* to re-sit an examination, *(e)* to write up a thesis, *(f)* to follow a nursing training course at a recognised nursing educational establishment, *(g)* as a sabbatical officer and *(h)* for another purpose in 2006. [180590]

Mr. Byrne *[holding answer 21 January 2008]:* The information in the form requested could be obtained by the detailed examination of individual case records only at disproportionate cost.

However, statistics on decisions on applications for an extension of leave to remain are published in chapter 4 of the Command Paper 'Control of Immigration: Statistics United Kingdom 2006'. This publication may be obtained from the Library of the House and from the Home Office Research, Development and Statistics website:

http://www.homeoffice.gov.uk/rds/immigration1.html

Genetics: Database

Jenny Willott: To ask the Secretary of State for the Home Department what research projects have been undertaken using data from the National DNA Database; and if she will make a statement. [164672]

Meg Hillier *[holding answer 15 January 2008]:* Data from the National DNA Database (NDNAD) have been provided to the following organisations for research purposes.

Forensic Science Service:

10 projects relating to assistance to forensic providers for R and D papers, not specific investigations.

one project relating to police operations, requiring anonymised NDNAD profiles.

one project relating to database improvements.

Home Office:

two Research Development and Statistics projects relating to match reporting.

one project relating to police operations on behalf of Interpol (this was reported as G8 rather than Interpol in response to an earlier Freedom of Information Act query).

one project relating to database improvements (these data are now provided as routine management information and no longer classified as research).

one project to identify new leads on undetected prolific offenders involved in at least one serious crime offence.

Greater Manchester Police:

one project relating to police operations, checking against the NDNAD for named individuals.

Merseyside Police:

one project using exhibits from solved cases.

LGC (forensic services provider):

one project relating to assistance to forensic providers for R and D papers, not specific investigations.

one project on the further development of familial searching software.

one project on the confirmation of rarely found types of DNA.

Cellmark Forensic Services:

one project on the further development of familial searching software.

Immigrants: Carers

Mr. Swayne: To ask the Secretary of State for the Home Department whether she plans to change the minimum salary regime for senior carer work permit renewals; and if she will make a statement. [179782]

Mr. Byrne: Work permit salary guidance for all occupations is kept continuously under review, and is updated in line with the latest and most robust salary data available from industry. Salary guidance for senior care workers is no exception.

The current rate is derived from Skills for Care's National Minimum Data Set for Social Care (NMDS-SC), which is the most comprehensive salary data we have identified for this sector.

Work permit applications, including extensions, are assessed against the going rate at the time that the application is made. It has always been a requirement, for any job, that work permit holders must be paid at least equal to the going rate that would normally attract a suitably skilled resident worker. It is essential that we prevent skilled migrants from being exploited as a source of cheap labour, and salaries for skilled resident workers from being undercut.

As part of the transitional measures we are putting in place for existing work permit holders, an exceptional in-country extension may be granted for a maximum of 12 months for those senior care workers who have had work permits approved prior to 31 December 2003. The requirement for employers to pay the current going rate will be exceptionally waived, providing the salary is at least equal to that on the previous work permit approval.

This is part of a package of transitional measures we have introduced to assist the sector in maintaining continuity of care whilst it adapts its staff recruitment and retention practices to more effectively target the resident work force.

Immigration

Mr. Clappison: To ask the Secretary of State for the Home Department how many of the cases in which leave to remain in the UK was granted under the legacy exercise related to *(a)* failed asylum seekers and *(b)* asylum seekers whose cases had yet to be considered. [177362]

Mr. Byrne *[holding answer 10 January 2008]:* We do not hold this information in the format requested and to obtain it would involve disproportionate cost.

Immigration Controls

Mr. Clappison: To ask the Secretary of State for the Home Department (1) what research she has *(a)* commissioned and *(b)* evaluated into the effects of reducing the coverage of the resident labour market test; [177450]

(2) what estimate she has made of the proportion of jobs covered by the requirements of the resident labour market list; [177470]

(3) pursuant to her answer of 10 December 2007, *Official Report*, column 86W, on immigration controls, what decisions she has made on the future operation of the resident labour market test; and what estimate she has made of the number and proportion of jobs which would no longer be subject to the labour market test if the test threshold was set at a salary of *(a)* £30,000, *(b)* £40,000 and *(c)* £50,000 a year. [178329]

Mr. Byrne: We will ensure that under the PBS we continue to protect the privileged position held by British workers in the job market.

Immigration Controls: Expenditure

Mr. Malins: To ask the Secretary of State for the Home Department what the juxtaposed UK immigration controls at Paris, Lille and Brussels cost in *(a)* 2005-06 and *(b)* 2006-07. [180330]

Mr. Byrne *[holding answer 21 January 2008]:* The information is as follows:

(a) The juxtaposed UK immigration controls at Paris, Lille and Brussels cost £7,102,500 in 2005-06.

(b) The juxtaposed UK immigration controls at Paris, Lille and Brussels cost £8,492,000 in 2006-07.

Migrant Workers

Jon Cruddas: To ask the Secretary of State for the Home Department what publications the Border and Immigration Agency (BIA) provide for nationals of Bulgaria and Romania explaining the procedures for confirming their status as self-employed persons to the relevant United Kingdom authorities; what evidence is required by the BIA to establish that such nationals are self-employed; and what penalties have been imposed on such nationals who have not satisfied the BIA that they are self-employed. [179154]

Mr. Byrne: The Home Office has produced a booklet for Romanian and Bulgarian nationals entitled 'Living and Working in the UK', detailing the rights and responsibilities of 'A2' nationals from 1 January 2007. Further information on what documentation to apply for, relevant criteria and application forms can be found on the BIA website.

A 'self-employed person' is someone who has established themselves in the UK in order to pursue activity as a self-employed person. Examples of evidence to prove such status includes:

Invoices showing payment for services or contracts to provide services

Evidence from HMRC of national insurance special reference number

Evidence from HMRC of registration for tax

Evidence from HMRC of national insurance contributions

This list is not exhaustive. More information can be found on the HMRC website here:

http://www.hmrc.gov.uk/self-employed/

If a Bulgarian or Romanian national falsely claims to be a self-employed person, they are not residing in the UK in accordance with the Accession Regulations and may be subject to prosecution and/or a Fixed Penalty of £1,000 may be issued. We do not routinely record this information.

Organised Crime: Romania

Mr. Mark Field: To ask the Secretary of State for the Home Department what steps her Department has taken in co-operation with the Romanian police to tackle criminal Romanian gangs operating in London. [168004]

Mr. Coaker: Tackling the menace of organised crime is a top priority for the Government. The establishment of the Serious Organised Crime Agency (SOCA) in 2006 signalled the Government's determination to make the UK one of the toughest places in the world to operate, irrespective of nationality.

We have been working for some time and continue to do so, with Romanian authorities and crime agencies to identify, and close the door to organised crime groups. The close working relationship has resulted in two Romanian police officers being placed with the Metropolitan police 'Operation Golf' to help identify children who they believe were trafficked out of Romania by an organised crime network for the purpose of criminal exploitation.

Police: Pay

Mr. Jenkins: To ask the Secretary of State for the Home Department (1) what the average pay is for all grades of police officer in England; [174717]

(2) what the average pay for a police constable in England including all allowances is in 2007-08. [174716]

Mr. McNulty: Information on average salary by rank is not held centrally. Information on pay scales for all police ranks was taken from the Police Negotiating Board Circulars available at the Office of Manpower Services website:

www.ome.uk.com.

Pay scales for all police officer ranks in England from 1 September 2006

	Pay scale
Constable	£21,009-£32,985
Sergeant	£32,985-£37,071
Inspector	£42,264-£45,843
Inspector (London)	£44,118-£47,709
Chief Inspector	£46,779-£48,705
Chief Inspector (London)	£48,645-£50,568
Superintendent	£56,274-£65,565
Chief Superintendent	£67,200-£71,031
Assistant Chief Constable	£81,954-£95,613
Deputy Chief Constable (including Deputy Metropolitan Commissioner)	£98,346-£193,959
Chief Constable (including Metropolitan Commissioner)	£117,468-£234,939

Police officers are entitled to a range of allowances as set out in the Police Regulations 2003 and the Secretary of State's determinations under the regulations. Some of the principle allowances are:

Officers serving in the Metropolitan or City of London forces are eligible for:

	£
London Allowance	4,338
London Weighting	2,055

A South East England Allowance is payable to members of the forces listed as follows at the rates given:

	£
Essex, Herts, Kent, Surrey, Thames Valley	2,000
Beds, Hants, Sussex	1,000

As set out in the Police Negotiating Board Circular 03/16 some posts (determined by the chief office and police authority) are eligible for a special priority payment. The payments can be between £500 and £3,000 and exceptionally up to £5,000.

Stop and Search

Mr. Ruffley: To ask the Secretary of State for the Home Department how many stops and searches were conducted *(a)* in total and *(b)* per 1,000 population in each police force area, in each year since 1997; and what percentage of (i) the total and (ii) the number in each area resulted in an arrest in each year. [172871]

Mr. McNulty: The available information by financial year is given in the tables placed in the House Library.

HEALTH

Abortion

Mr. Amess: To ask the Secretary of State for Health pursuant to the answer of 9 January 2008, *Official Report*, column 574W, on abortion, what the *(a)* prefix and *(b)* title is of each file held by his Department on (i) the Abortion (Amendment) Bill of Session 1987-88, (ii) the Unborn Children (Protection) Bills of Sessions (A) 1984-85, (B) 1985-86 and (C) 1987-98 and (c) the Abortion Act 1967; and if he will make a statement. [180870]

Dawn Primarolo: The information requested has been placed in the Library.

Autism: Elderly

Mike Gapes: To ask the Secretary of State for Health what plans he has to assist elderly people who are on the autism spectrum. [180091]

Mr. Ivan Lewis: The provision of services for people with autism is a matter for the appropriate local authority and national health service bodies who are required to prioritise and allocate funding for services based on their assessment of the needs of their local populations.

The "Putting People First" Concordat sets out a shared vision for the transformation of social care. It articulates the common aims and values that will guide all the participants in modernising adult social care. Ensuring individualised responses for older people including people with autistic spectrum conditions, will be part of this transformation. This may be through provision of direct payments or individual budgets should current pilots prove successful. These provide

greater choice and control for people needing support, and place the person who is supported at the centre of the process.

Cancer: Prescriptions

Mrs. Gillan: To ask the Secretary of State for Health how many prescriptions were issued in relation to cancer in the latest year for which figures are available; and what proportion of these were (*a*) exempt from charges and (*b*) paid for by pre-payment certificate. [181193]

Dawn Primarolo: The information is not available in the format requested.

Departmental Equality

Mr. Lansley: To ask the Secretary of State for Health pursuant to paragraph 29, page 35 of his Department's resource accounts for 2006-07, if he will place in the Library a copy of his Department's Commission for Racial Equality Action Plan. [178279]

Mr. Ivan Lewis: As noted in the resource accounts, the action plan was incorporated into the Department's single equality scheme (where it is included in chapter 14). The scheme was published in June 2007 and is available at:

www.dh.gov.uk/en/Policyandguidance/EqualityandhumanrightsSingleEqualityScheme/index.htm

A copy of the scheme has been placed in the Library. The Department is working to produce a revised single equality scheme by 29 February 2008.

Drugs: Rehabilitation

Andrew Rosindell: To ask the Secretary of State for Health how many drug rehabilitation clinics there were in (*a*) Romford, (*b*) Essex and (*c*) Greater London in the most recent period for which figures are available. [179655]

Dawn Primarolo: The specific information requested is not collected centrally.

Food: Cloning Animals

Mr. Hancock: To ask the Secretary of State for Health what his Department's policy is on the cloning of animals for food production; and if he will make a statement. [180671]

Dawn Primarolo: The sale of foods and food ingredients derived from cloned animals falls within the scope of the Novel Foods Regulation (EC) 258/97. The authorisation and labelling of novel foods is decided on a case-by-case basis and no applications have been received to date for the authorisation of products derived from cloned animals. Any application would be evaluated on the basis of the information provided. In the meantime, foods obtained from cloned animals cannot be sold for human consumption.

Mr. Hancock: To ask the Secretary of State for Health what assessment he has made of the European Food Standards Agency's draft scientific opinions relating to the (*a*) food safety, (*b*) animal health and welfare and (*c*) environmental impact of cloned animals, their offspring and the products obtained from these animals; and if he will make a statement. [180672]

Dawn Primarolo: The European Food Safety Authority (EFSA) issued its draft opinion for consultation on 11 January 2008. The Food Standards Agency is examining the food safety aspects of the draft opinion and will provide its comments to EFSA before the end of the consultation period, which runs until 25 February 2008. Animal health and welfare and the environmental impact of farming practices are the responsibility of the Department for Environment, Food and Rural Affairs.

Health Education: Religious Practice

Mr. Randall: To ask the Secretary of State for Health what health advice his Department provides related to religious observance; and what (*a*) advice and (*b*) funding was received from relevant faith organisations in each case. [179174]

Mr. Ivan Lewis: The Department recognises that we all now live in a multicultural, multi-faith society. The Department is committed to recognising the needs of patients and staff of diverse religious groups, and to responding sensitively and appropriately to these needs.

In November 2003 the Department published "NHS Chaplaincy: Meeting the Religious and Spiritual needs of Patients and Staff", which aims to ensure that national health service chaplaincy services reflect the religious diversity of the communities the NHS serves. This guidance was developed with advice from the Multi-Faith Group for Healthcare Chaplaincy, an independent group, which includes representatives from nine faith communities.

In September 2007 the Department funded an independent organisation called Communities in Action to produce a "Ramadan Health Guide" providing information and advice on maximising health gain during the Muslim fast, which was developed in consultation with a number of Muslim community organisations and clinicians.

In December 2007 the Department published a leaflet entitled "Going to Hajj or Umrah?" This leaflet explains and offers advice on some of the risks concerning meningitis for travellers to the Muslim pilgrimage.

Following the introduction of the Equality Act (Religion or Belief) Regulations 2006, the Department has commissioned independent consultants to develop a practical guide to these regulations, which prohibit discrimination on grounds of religion or belief in the provision of goods, facilities and services.

In each case, no funding was received from faith organisations in the development of this advice.

Hepatitis B

Mr. Amess: To ask the Secretary of State for Health how many (*a*) males and (*b*) females in each age group had hepatitis B in (i) Southend, (ii) Essex and (iii) England and Wales in each of the last 10 years. [177138]

Dawn Primarolo: Surveillance of hepatitis B is based upon reports of confirmed acute hepatitis B diagnoses from laboratories in England and Wales. The information available, which is from 1998 to 2003 and down to regional level, is shown in the following tables.

Laboratory confirmed cases of acute hepatitis B, England and Wales, 1998 to 2003

	1998				1999				2000

Notes:
1. Since 2003, the completeness of data on whether hepatitis B infections are acute or chronic infection has decreased and therefore figures for 2004 onwards are not reliable. The HPA is working to improve the quality of information on acute hepatitis B reporting and provisional data for 2007 should be available later this year.
2. Data are reported by laboratory rather than by the patient's place of residence. Therefore, any breakdown of data below regional level is not considered reliable.
3. Where fewer than five cases were reported for an area, the table indicates the number of cases reported as <5 rather than the actual number in order to reduce the risk of deductive disclosure of an individual's identity.

Health Protection Agency (HPA).

Human Embryo Experiments

Mr. Amess: To ask the Secretary of State for Health pursuant to the answer of 9 January 2008, *Official Report*, column 591W, on human embryo experiments, what the *(a)* prefix and *(b)* title is of each file held by his Department on the Human Fertilisation and Embryology Bill of Session 1989-90; and if he will make a statement. [180869]

Dawn Primarolo: The prefixes and titles of the files held by the Department, concerning the Human Fertilisation and Embryology Bill of session 1989-90, and related papers are shown in the following table:

File prefix	*File title*

Meat Hygiene Service

Sir Nicholas Winterton: To ask the Secretary of State for Health what plans the Meat Hygiene Service has to alter its method of charging from headage to hourly rates. [180081]

Dawn Primarolo: We understand from the Food Standards Agency (FSA) that the Meat Hygiene Service (MHS) currently charges industry for a proportion of the costs it incurs in carrying out meat hygiene and animal welfare official controls at approved meat premises. Businesses are charged the lower of the hourly MHS staff costs of delivering the official controls or a charge calculated from specified rates per animal or tonne of meat that is processed.

The FSA Board decided last July that the MHS should seek to progressively recover an increasing proportion of the cost of the meat hygiene and animal welfare controls that it provides and should seek to introduce charges for specified risk material official controls. At the same time, the MHS was required to improve efficiency.

The MHS is making significant changes to its operation that will reduce total costs in real terms from £91.3 million in 2006-07 to £75.0 million in 2011-12. In transforming, the MHS will continue to provide assurance that the meat industry produces safe meat for consumers.

The MHS is working with the FSA and with industry stakeholders to develop a charging system that will encourage the efficient use of MHS staff.

Sir Nicholas Winterton: To ask the Secretary of State for Health (1) what assessment he has made of the *(a)* operation and *(b)* cost efficiency of the Meat Hygiene Service; [180082]

(2) what plans he has to reform the operation of the Meat Hygiene Service; and if he will make a statement; [180083]

(3) if he will make it his policy to replace the Meat Hygiene Service with private commercial inspection organisations. [180084]

Dawn Primarolo: The Food Standards Agency (FSA) has reviewed the delivery of official controls currently undertaken by the Meat Hygiene Service (MHS) in approved meat premises and a range of possible alternatives. This led the FSA board to set the MHS challenging targets to reduce the total and net costs of its operations over the next three financial years; to improve its productivity; to make full and cost effective use of its independent contractors; and to develop new charging arrangements. The board also decided that work should continue on preparations to pilot an alternative delivery model for its further consideration later this year.

Sir Nicholas Winterton: To ask the Secretary of State for Health if he will contribute to the Meat Hygiene Service's current consultation on charges; and if he will publish the results of the consultation. [180085]

Dawn Primarolo: We understand from the Food Standards Agency (FSA) that the responses to the consultation are being considered and that a summary of them will be submitted to Ministers in the normal way when the regulations to which they relate are submitted for approval. We understand that the responses summary, with joint FSA/Meat Hygiene Service comments, will be published on the FSA's website.

Sir Nicholas Winterton: To ask the Secretary of State for Health what recent representations he has received on the operation of the Meat Hygiene Service. [180086]

Dawn Primarolo: We have received four letters, including three from hon. Members.

Sir Nicholas Winterton: To ask the Secretary of State for Health what the operating cost of the Meat Hygiene Service was in each of the last 10 years; and if he will make a statement. [180087]

Dawn Primarolo: The operating costs (including inflation) of the Meat Hygiene Service (MHS) for the last 10 years are:

	£ million
1997-98	55.0
1998-99	63.1
1999-2000	66.9
2000-01	64.6
2001-02	77.7
2002-03	81.2
2003-04	82.1
2004-05	83.0
2005-06	88.2
2006-07	91.3

During this period MHS activity has increased and includes: the introduction of specified risk material controls; an increase in the attendance level of official veterinarians as required by European Union legislation; additional activity required during the 2001 foot and mouth outbreak; and additional work involved in the introduction of the system to allow over-30-month beef to enter the human food chain.

In real terms, MHS costs have remained relatively flat since 2001 and are forecast to fall in 2007-08.

The MHS transformation plans will see a reduction in total costs in real terms from £91.3 million in 2006-07 to £75.0 million in 2011-12, carrying out its role efficiently.

NHS: Costs

Mr. Hoban: To ask the Secretary of State for Health what estimate he has made of the direct health care costs, in current prices, of obesity *(a)* in the most recent year for which figures are available and *(b)* in 2050 or the latest year for which an estimate is available. [180421]

Dawn Primarolo: In 2005 the Government asked the Government Office for Science's Foresight programme to examine the scale of the obesity problem. They estimated that in 2007, the total cost to the national health service of diseases in which body mass index is a risk factor was £17.4 billion, of which obesity is estimated to account for £1 billion. The Foresight report anticipates that, at today's prices, the NHS cost of overweight and obesity could rise to £6.5 billion by 2050.

Pregnant Women: Streptococcus

Mrs. May: To ask the Secretary of State for Health (1) whether he has conducted a cost-benefit analysis of the introduction of routine screening of pregnant women for Group B Strep; [177810]

(2) what steps the Government have taken to educate (*a*) relevant health professionals and (*b*) pregnant women about the symptoms and prevention of Group B Strep infections in babies; [177811]

(3) what representations he has received from the Health Protection Agency on the use of the enriched culture medium (ECM) testing method for detecting Group B Strep in late pregnancy; and if he will bring forward proposals for the ECM test to be available on the NHS. [177812]

Dawn Primarolo: Current policy, on advice from the United Kingdom National Screening Committee (UK NSC), the Royal College of Obstetricians and Gynaecologists (RCOG) and the National Institute for Health and Clinical Excellence is not to offer routine screening for Group B Streptococcus (GBS) carriage to all pregnant women, because there is insufficient evidence to demonstrate that this would be beneficial. A cost benefit analysis would usually be commissioned only when the evidence supported screening.

A health technology assessment (HTA) cost effectiveness modelling study, commissioned by the UK NSC, which compared different management strategies for GBS in pregnancy has reported.

The HTA report recommends that the current screening policy should not be changed without further research and that research to evaluate the efficacy of a vaccine for GBS should be prioritised. The researchers also recommend a revision of existing guidelines on current best practice; the RCOG is in the process of initiating a guideline review project which will consider the evidence generated since the first publication in 2003.

A GBS online learning package was produced in collaboration with the user group—Group B Strep Support (GBSS)—and others, which was launched in 2006. The learning package is based on RCOG guidelines and provides a comprehensive multidisciplinary interactive teaching resource which is freely available to all health care professionals at:

www.whsl.org.uk/gbs

Healthcare professionals are encouraged to follow the RCOG's risk factor based guideline to reduce the incidence of GBS infection in the first week of life.

Patient information on GBS is available from NHS Direct Online and in the NHS Pregnancy Book (updated in 2006) which is distributed free to all pregnant women. The RCOG has also produced patient information.

We are not aware of any representations being received from the Health Protection Agency on the use of the enriched culture medium testing method for detecting Group B Strep in late pregnancy.

Screening: East of England

Bob Spink: To ask the Secretary of State for Health how much additional funding he plans to provide to Eastern Area to fund preventative screening in each of the next three years. [179238]

Dawn Primarolo: Sufficient funding will be made available at the national level to deliver our policy commitments on screening. Detailed analytical work is currently under way to develop the plans, including costs. Funding available for different parts of the country will depend on local decisions about the use of primary care trust (PCT) allocations, and national decisions on the use of central budgets. The Department has yet to take decisions on PCT allocations and central budgets for 2009-10 and 2010-11, and these decisions will reflect the developing plans on preventative screening.

FOREIGN AND COMMONWEALTH OFFICE

Abu Dhabi: Overseas Companies

Mr. Walker: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions the British Embassy in the United Arab Emirates has had with the National Bank of Abu Dhabi on behalf of UK registered companies on disputes over monies owed since 2004. [181097]

Dr. Howells: Our embassy in Abu Dhabi has had no discussions with the National Bank of Abu Dhabi on behalf of UK registered companies on money disputes since 2004.

Colombia: Overseas Aid

Mike Wood: To ask the Secretary of State for Foreign and Commonwealth Affairs how much aid was provided by the UK to Colombia in each of the last five years; and what proportion of that aid was classed as military assistance in each of the last five years. [180116]

Dr. Howells: As the information requested by my hon. Friend will take time to collate, I will write to him once I have the details and arrange for a copy of the letter to be placed in the Library of the House.

Departmental ICT

Susan Kramer: To ask the Secretary of State for Foreign and Commonwealth Affairs how many (*a*) male and (*b*) female members of staff in his Department were issued with personal digital assistants in each year since 2001; and if he will make a statement. [181356]

Meg Munn: Information on the gender of those issued with personal digital assistants is not held centrally and could not be collated without incurring disproportionate cost.

Detainees: Human Rights

Mr. Tyrie: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he will discuss with Mr. Thomas Hammarberg, Commissioner for Human Rights in the Council of Europe, the Secretary-General's proposal on secret detention and detainee transfers, when he meets him on February. [181473]

Dr. Howells: The Human Rights Commissioner will meet my noble Friend the Minister for Africa, Asia and the UN, the Minister of State, Foreign and Commonwealth Office, the right hon. Lord Malloch-Brown, who leads on Human Rights issues. We considered carefully the recommendations made by the Secretary-General of the Council of Europe when they were issued in June 2006. However, as stated in my written reply to the hon. Member on 23 November 2006, *Official Report*, column 245W, the Government believe that domestic legislation and international legal instruments already exist to deal satisfactorily with the concerns he has raised. We stand by this statement and believe that there is no need to create new mechanisms such as the Secretary-General proposes. I wrote to the Secretary-General on 23 January 2007 outlining the Government's position in detail.

The Government believe that the best long-term protection against terrorism lies in the defence of our freedoms and values. We remain fully committed to our obligations under international human rights law. We do not render people in breach of our legal obligations and we do not agree with secret detention. The Government oppose any form of deprivation of liberty that amounts to placing a detained person outside the protection of the law.

India: Christianity

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will encourage the European Commission to raise the issue of recent violence against Christians in Orissa state at the next round of the EU-India human rights dialogue. [180948]

Dr. Howells: Discussions are underway to confirm the date for the next round of the ad hoc EU-India human rights dialogue, following the EU-India summit on 30 November 2007. The UK and EU colleagues will continue to use this and other opportunities to raise human rights concerns with the appropriate Indian authorities.

Natural Resources: Armed Conflict

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what recent progress has been made in multilateral efforts to agree a common and legal definition of conflict resources; what role the Government are playing in this process; and if he will make a statement; [181728]

(2) whether the Government's policy is to support the Commission for Africa Report recommendations to agree a United Nations endorsed definition of conflict resources; and what progress has been made on the creation of a permanent expert panel within the UN to monitor the links between natural resource extraction and violent conflict and the implementation of sanctions. [181729]

Dr. Howells: While we recognise the strong arguments for an agreed definition of "conflict resources", we assess that a definition would not substantially help to address the links between conflict and natural resources. A UN Security Council debate on conflict and natural resources in June 2007 demonstrated the issue's sensitivity for many countries: seeking agreement on a definition in the UN would, in our judgment, prove extremely slow and without guarantee of success.

We are working with other like-minded Governments to develop a more comprehensive strategy to tackle links between natural resources and conflict. This could involve the inclusion of natural resource issues in the mandates of peacekeeping missions; the creation of a permanent centre of expertise within the UN system; and strengthening the role of the Peacebuilding Commission. We will seek a UN Secretary-General's report to assess these options and raise the profile of the issue, and we continue to work cross-Whitehall and with external stakeholders on this matter.

Sri Lanka: Armed Conflict

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Government of Sri Lanka on its decision to withdraw from the ceasefire agreement; and if he will make a statement. [180727]

Dr. Howells: The Government's position on the abrogation of the 2002 ceasefire agreement by the Sri Lankan Government is clear. Most recently, during a debate in the House on Sri Lanka on 17 January, I called on the Sri Lankan Government to deliver on their commitment to urgently produce a just political solution which satisfies the legitimate aspirations of all Sri Lankans (*Official Report*, columns 1183-88).

In his statement of 4 January, my noble Friend the Minister for Africa, Asia and the UN, the Minister of State, Foreign and Commonwealth Office, the right hon. Lord Malloch-Brown, expressed the Government's view that there can be no military solution to the Sri Lankan conflict and called on the political parties in Sri Lanka to work together for peace.

DUCHY OF LANCASTER

Civil Service: Standards

Ben Chapman: To ask the Chancellor of the Duchy of Lancaster what steps he has taken to put the core principles of the civil service in statute. [179631]

Gillian Merron: As set out in the Governance of Britain Green Paper, the Government are committed to taking forward legislation to enshrine the core principles and values of the civil service in law. The legislation will form part of the Constitutional Renewal Bill and will be published in draft for consultation soon.

WOMEN AND EQUALITY

Equal Pay: Women's National Commission

Jo Swinson: To ask the Minister for Women and Equality whether an equal pay audit has been conducted by the Women's National Commission. [171383]

Barbara Follett: No equal pay audit for the Women's National Commission as a separate entity has been conducted, but its staff would be included in any assessment of the commission's funding sponsor, the Government Equalities Office, previously known as the

Women and Equality Unit. I refer the hon. Lady to my answer to PQ 170572 regarding whether an equal pay audit has been conducted for the Women and Equality Unit, and to my answer to PQ 171377 regarding what assessment has been made of the pay gap between male and female staff in the Government Equalities Office. Publishing separate figures relating to the Women's National Commission, which is a small body, may risk identifying individuals.

Rape Crisis Centres

Mrs. May: To ask the Minister for Women and Equality how many rape crisis centres there were in each year since 1980. [174509]

Barbara Follett: No published data have been identified which would permit a year on year account of the number of rape crisis centres in England and Wales since 1980.

According to the website of Rape Crisis England and Wales, there are currently 38 affiliated members in England and Wales. The National Council for Voluntary Organisations reports that in 1985 there were 84 rape crisis centres in England and Wales, and that this number reduced to 50 in 1990. Independent research by the End Violence Against Women coalition, and reported in Map of Gaps, found that there are 42 groups associated with Rape Crisis England and Wales, 18 less than there were in 1996.

Mrs. May: To ask the Minister for Women and Equality how much the Government spent on support for rape crisis centres in each year since 1980. [174510]

Barbara Follett: Total grants from the Victims Fund, administered by the Ministry of Justice, to rape crisis centres, in 2007-08 came to £484,562. In addition, Rape Crisis England and Wales received £75,000 in Home Office funding.

For 2006-07 total grants from the Victims Fund to rape crisis centres, including Rape Crisis England and Wales (also referred to as Rape Crisis Co-ordination Group) were £313,538; for 2005-06 £473,717 and for 2004-05 £199,270.

In both 2007-08 and 2006-07 the Home Office provided £360,000 in funding for Independent Sexual Violence Advisors based in rape crisis centres.

The Rape Crisis Federation, the then umbrella body for rape crisis centres, received central government funding in 2002-03 of £432,000 and in 2001-02 of £406,000. Approximately £500,000 in funding was provided to two rape crisis centres, Southampton and South Essex Rape and Incest Crisis Centre, over the period 2000-02.

There is no record of funding prior to this.

The Government are committed to supporting voluntary and community sector organisations. Over 80 per cent. of voluntary and community organisations that receive funding are supported by local funders and the Victims Fund was not established to substitute for this.

INTERNATIONAL DEVELOPMENT

Departmental Consultants

Mr. Walker: To ask the Secretary of State for International Development what contracts his Department has with external consultants; what the total value, including all VAT and disbursements, of these contracts is for the current financial year; how long each contract lasts; and what the forecast total value is of each contract. [163812]

Mr. Douglas Alexander: The information requested could be provided only at a disproportionate cost.

DFID contracts external consultants with technical expertise to deliver development projects and programmes around the world. Consultants undertake humanitarian relief operations, respond to requests from partner governments for advice on complex economic and administrative reforms, and help improve health and education services, all with the objective of reducing poverty and improving the lives of people in developing countries.

Departmental Marketing

Mr. Hoban: To ask the Secretary of State for International Development what products featuring departmental or Government branding were procured by *(a)* his Department and *(b)* its agencies in each of the last five years. [179788]

Mr. Malik: Information on products procured with departmental or Government branding is not held centrally. Publications and other branded products are produced as an integral part of ongoing policy and research, development programme implementation, training, internal communication and work to raise public awareness of international development. It is not possible to answer this question without incurring disproportionate costs.

DFID has no agencies.

Mr. Hoban: To ask the Secretary of State for International Development how many posters or displays there are in the offices of his Department and its agencies displaying the names and photographs of Ministers; and what the cost has been of producing such posters or displays in the last five years. [179846]

Mr. Malik: In the UK offices of DFID there is one display of named photographs of former Secretaries of State for International Development in the Palace street offices. This has cost £992 in the last five years. There is no equivalent display in our other UK office, Abercrombie House. There have been no posters produced for use in offices with ministerial names and photographs during this period.

DFID currently has staff in 68 overseas offices. It would incur disproportionate costs to ascertain whether any expense had been incurred during the last five years in producing displays or posters with named photographs of Ministers.

DFID has no agencies.

Developing Countries: Health

Lynne Featherstone: To ask the Secretary of State for International Development what evaluation the Government have commissioned of the potential contribution of health links to the development of best practice. [176801]

Mr. Malik: No evaluation has yet been commissioned by the Department for International Development or the Department of Health on this topic. We anticipate carrying out an evaluation within the next three months.

There are many positives to be taken from links and twinning, but also concerns about overall effectiveness in some countries. The Crisp report has helpfully identified some areas for the UK to support developing countries in capacity strengthening. The Inter-Ministerial Group on Global Health will shortly issue the Government's response to Lord Crisp's report which will outline how the recommendations will be taken forward.

Export Credits Guarantee Department: Finance

Willie Rennie: To ask the Secretary of State for International Development how much his Department contributed to the Export Credits Guarantee Department in 2005-06 to compensate it for claims abandoned in 2005-06. [180326]

Mr. Thomas *[holding answer 21 January 2008]:* DFID paid £643,000 to the Export Credit Guarantee Department (ECGD) in 2005-06. These payments represent amounts due from countries receiving debt relief under the Heavily Indebted Poor Countries (HIPC) Initiative.

Countries qualify for debt relief under the HIPC Initiative in two stages: first, they qualify for interim relief from debt service payments due. Later, when countries complete the Initiative, they receive irrevocable debt cancellation.

Debts owed to official creditors, such as ECGD, are dealt with by the Paris Club. ECGD implements decisions taken at the Paris Club, providing debt relief at the levels agreed. In 2005-06, ECGD provided over £1.5 billion of debt relief. DFID meets the costs of additional relief over and above what has been agreed by the Paris Club so that HIPCs receive 100 per cent. debt relief. It is UK policy to provide 100 per cent. debt relief to HIPCs, from the time countries first qualify for the Initiative.

Kenya: Elections

Mr. Andrew Mitchell: To ask the Secretary of State for International Development what assessment he has made of the effectiveness of the £600,000 spending allocated to the monitoring of the recent election in Kenya. [180964]

Mr. Douglas Alexander *[holding answer 22 January 2008]:* DFID contributed £600,000 to a pooled fund to support the United Nations Development Programme's (UNDP) Elections Assistance programme. The total budget was $12 million. Many other donors supported this programme, including the USA who led the donor group.

DFID's judgment is that some of the assistance, such as support to the media centre and to domestic observers, has enabled greater transparency around the flawed tallying processes than might otherwise have been the case. The voting process itself was also supported by voter education; work with the media, hate-speech monitoring and flexible technical assistance. However, subsequent irregularities have highlighted institutional weaknesses that were tested by such a close contest.

With international partners we will look at lessons that have emerged, in particular how we can further strengthen the institutions that can underpin stable democracy in Kenya.

Kenya: Financial Institutions

Annette Brooke: To ask the Secretary of State for International Development pursuant to the answer of 14 January 2008, *Official Report*, column 1079W, on Kenya: financial institutions, what direct assistance his Department is giving to assist existing microfinance businesses in Kenya where the owners need immediate help. [180587]

Mr. Thomas *[holding answer 21 January 2008]:* DFID is providing direct assistance to the multi-donor Financial Sector Deepening (FSD) Trust, which is working in partnership with the Kenya Association of Microfinance Institutions (AMFI) on assisting existing microfinance businesses in Kenya which need urgent help. FSD is providing technical assistance to AMFI, to assess and design emergency programmes and to secure financial resources for these. DFID has allocated £11.3 million to the FSD Trust, with other donors making up the total budget of £19 million.

AMFI is leading the industry response to the crisis, looking at three areas of potential support: (i) micro-finance institutions (MFIs) using their strong grassroots involvement in affected communities to build peace and reconciliation between people and mitigate ethnic tensions, (ii) an emergency liquidity facility to support MFIs facing liquidity constraints as a result of the crisis, and (iii) cash transfer schemes targeting people with micro-enterprises who have suffered catastrophic losses, to provide a base from which to rebuild their livelihoods.

WORK AND PENSIONS

Capita

Mr. Amess: To ask the Secretary of State for Work and Pensions what meetings *(a)* he, *(b)* Ministers in his Department and *(c)* officials have held with (i) directors and (ii) senior executives of (A) Capita Group plc and (B) its subsidiaries since 1 January 2001; what the (1) location and (2) duration of each meeting was; whether a record of each meeting was kept; and if he will make a statement. [180708]

Mrs. McGuire: Ministers and civil servants meet many people as part of the process of policy development and advice. It is not the usual practice of Government to disclose details of such meetings.

Child Support Agency

Mrs. Curtis-Thomas: To ask the Secretary of State for Work and Pensions how many active cases the Child Support Agency has. [179550]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member.

Letter from Stephen Geraghty, dated 23 January 2008:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, how many active cases the Child Support Agency has.

The information requested can be obtained from Table 1 of the September 2007 Child Support Agency Quarterly Summary Statistics which is available in the House of Commons library or via the internet at http://www.dwp.gov.uk/asd/asd1/child_support/csa_quarterly_sep07.asp

I hope you find this answer helpful.

Children: Maintenance

Chris Grayling: To ask the Secretary of State for Work and Pensions what estimate he has made of *(a)* the number of unrecovered child maintenance payments in each constituency in the UK, *(b)* the value of those payments and *(c)* the value of payments expected to be unrecovered. [175647]

Mr. Plaskitt: The administration of the Child Support Agency is a matter for the chief executive. He will write to the hon. Member.

The table has been placed in the Library.

Letter from Stephen Geraghty, dated 23 January 2008:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, what estimate he has made of *(a)* the number of unrecovered child maintenance payments in each constituency in the UK *(b)* the value of those payments and *(c)* how much is expected to be unrecovered in each case. [175647]

The Agency does not hold information in the format requested. Such information as is available is shown in the attached table which sets out the total amount of debt owed by non-resident parents in cases processed on the new system (CS2). The Agency is not able to estimate debt on old rules cases processed on the old system (CSCS) at Parliamentary Constituency level. Although the Agency does estimate the collectability of debt, this estimate is based on past performance and on an Agency wide sample exercise which does not take account of geographic or regional variation. Therefore the Agency is not able to provide a geographic analysis of the collectability of debt.

This debt is owed by non-resident parents as a result of their failure to meet their responsibilities to their children. Debt recovery is very much dependent on the willingness of non-resident parents to co-operate with the Agency. Some non-resident parents do their utmost to avoid their responsibilities, for example by moving house or changing jobs whenever the Agency tries to collect maintenance.

The Agency is working hard to collect more maintenance arrears and benefit more children. Measures introduced under the Agency's Operational Improvement Plan, such as enabling credit and debit card payments and employing the services of external debt collection agencies are helping the Agency in this aim.

I hope you find this answer helpful.

Christmas

Mr. Burns: To ask the Secretary of State for Work and Pensions how much his Department spent on *(a)* Christmas cards and *(b)* postage of Christmas cards in 2007. [176910]

Mrs. McGuire: I refer the hon. Member to the reply given on 17 December 2007, *Official Report*, column 933W.

Departmental E-mail

Mr. Jenkins: To ask the Secretary of State for Work and Pensions if he will take steps to reduce the number of hard copies of e-mails printed by officials in his Department. [179426]

Mrs. McGuire: The Department takes the volume of its printing seriously and is introducing plans in 2008 to reduce the cost and environmental impact of printing within the Department. Additionally, an awareness campaign will remind staff of their responsibilities and to only print documents, including hardcopies of e-mails, if absolutely necessary.

Departmental Marketing

Mr. Pickles: To ask the Secretary of State for Work and Pensions how many branded plastic bags his Department has purchased in the last 24 months for which figures are available; and at what cost. [176243]

Mrs. McGuire: Information that is recorded shows that in the last 12 months, the Department purchased some 632,490 branded plastic bags at a cost of £22,667.62. The vast majority of these were purchased by the Health and Safety Executive for use in national campaigns. To comply with DWP's Sustainable Development policy and cross government targets to reduce waste and make procurement more sustainable, all orders placed since September 2007 have been for biodegradable plastic bags.

Mr. Hoban: To ask the Secretary of State for Work and Pensions what products featuring departmental or Government branding were procured by *(a)* his Department and *(b)* its agencies in each of the last five years. [179786]

Mrs. McGuire: The Department for Work and Pensions and its agencies procure products featuring relevant branding when communicating with its customers and stakeholders. The information requested can only be gathered at a disproportionate cost.

Departmental Procurement

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions whether the standard terms and conditions of purchase used by his Department in the procurement of goods and services from the private sector prohibit the assignment of debt. [172437]

Mrs. McGuire: The standard terms and conditions of purchase used by my Department in the procurement of goods and services from the private sector do not prohibit the assignment of debt.

DWP standard terms and conditions state:

"The Contractor shall not assign, sub-contract, or in any other way dispose of the Contract or any part of it without prior Approval"

"Approval" and "Approved"—refer to the written consent of the Authority's Representative.

This is in line with the standard terms and conditions issued by Office of Government Commerce for use across the public sector.

Performance Appraisal

Danny Alexander: To ask the Secretary of State for Work and Pensions at what intervals staff in his Department are subject to appraisals; how long his Department's probationary period for new staff is; and what percentage of staff did not have their employment continued at the end of their probationary period in the last 12 months. [177963]

Mrs. McGuire: Staff in DWP are subject to formal appraisal at six and 12 monthly intervals. They receive ongoing feedback on their performance throughout the year.

The probationary period for new employees is normally six months. Exceptionally the probationary period can be extended by up to three months.

In the last 12 months the percentage of newly recruited staff who did not have their employment continued at the end of their probation was 2.31 per cent.

Personal Accounts

Danny Alexander: To ask the Secretary of State for Work and Pensions what estimate his Department has made of the return an individual saving in a personal account would receive with *(a)* a full saving record, *(b)* 10 years saving, *(c)* 20 years saving, *(d)* 30 years saving and *(e)* 40 years saving as (i) a percentage of salary and (ii) weekly cash value in retirement if they had an average salary over the period of (A) £10,000, (B) £11,000, (C) £12,000, (D) £13,000, (E) £14,000, (F) £15,000, (G) £16,000, (H) £17,000, (I) £18,000, (J) £19,000, (K) £20,000, (L) £21,000, (M) £22,000, (N) £23,000, (O) £24,000, (P) £25,000, (Q) £26,000, (R) £27,000, (S) £28,000, (T) £29,000, (U) £30,000, (V) £31,000, (W) £32,000 and (X) £33,000. [177953]

Mr. Mike O'Brien: As part of its research and analysis programme over the last few years, the Department has published several analyses regarding the impacts of saving under the reformed pension system. This includes Financial incentives to save for retirement, the Pensions Bill—Impact Assessment, and the Gender Impact Assessment of Pension Reform.

Personal Accounts: Information Services

Danny Alexander: To ask the Secretary of State for Work and Pensions what estimate he has made of the funding that will be made available for advice and information on personal accounts in each year from now until 2050. [177956]

Mr. Mike O'Brien: We envisage that scheme information costs will be borne by membership charges and will be a matter for the trustees.

The question of what additional information will be given to all those auto-enrolled, whether into personal accounts or another pension scheme, is one which we will address in the years leading up to the reforms. We will do this in partnership with organisations which already provide information on pensions, bodies such as The Pensions Advisory Service, and pension providers, as well as organisations representing consumers.

We will be building on the considerable provision that already exists, and the funding implications will emerge from those discussions. The Thoresen Review, and the Government action plan on financial capability will also assess the need to add to the services on offer.

Poverty

Danny Alexander: To ask the Secretary of State for Work and Pensions (1) what baseline data his Department uses to measure material deprivation; [174832]

(2) what proportion of children in *(a)* workless households, *(b)* households where one parent is working, *(c)* households where both parents are working and *(d)* each region were living in material poverty in each quarter in the last 10 years for which records are held. [174833]

Caroline Flint: Material deprivation is one of the three indicators for measuring child poverty. The other two measures are absolute low income, which includes households with incomes below 60 per cent. of the median income held constant in real terms from a 1998-99 baseline, and relative low income, which includes households with incomes below 60 per cent. contemporary median income. The material deprivation indicator includes households with incomes below 70 per cent. of the median and a material deprivation score of 25 or more.

Information on the base lining of material deprivation can be found in 'PSA Delivery Agreement 9: Halve the number of children in poverty by 2010-11, on the way to eradicating child poverty by 2020'; Page 24, available on the HM Treasury website.

Data on material deprivation are collated annually by the Family Resources Survey and are only available from 2004-05 onwards. Our most recent data are for 2005-06. In 2004-05, 2.2 million children in the UK were defined as poor using this combined indicator, while in 2005-06, the figure was 2.1 million children.

The proportion of children in material deprivation by economic status of household is shown in the following table. A breakdown by region is not currently available because this requires three years' Family Resources Survey data for robust statistics.

Proportion of children in material deprivation, by economic status of household

	2004-05	*2005-06*
All adults in work	5	4
At least one adult in work, but not all	16	18
Workless households	60	57
All households	17	16

Notes:
1. Some households in the Family Resources Survey may contain more than two adults, for example a couple with children may also live with one or more of the children's grandparents.
2. Within households, pensioners are excluded from the classifications if they are not working, and are included if they are working. For those households where children live only with pensioners, the status of all adults is included in the analysis.
3. The analysis includes households where someone other than the parent may be in work.
4. Data for the Family Resources Survey are only collated annually and therefore a quarterly breakdown is not available.
Source:
Family Resources Survey

The available material deprivation figures and details of the methodology can be found in 'PSA Delivery Agreement 9: Halve the number of children in poverty by 2010-11, on the way to eradicating child poverty by 2020', available on the HM Treasury website.

Social Security Benefits

Mr. Byers: To ask the Secretary of State for Work and Pensions how many people aged *(a)* 25 to 34 and *(b)* under 25 were in receipt of (i) incapacity benefit, (ii) jobseekers allowance, (iii) lone parent benefit, (iv) carers' allowance and (v) any other out of work benefit in (A) each English region, (B) Wales, (C) Scotland and (D) Northern Ireland in the most recent period for which figures are available; and what percentage this represented of the population of each area. [179142]

Mrs. McGuire *[holding answer 15 January 2008]:* The available information is in the following tables. Information for Northern Ireland is a matter for my right hon. Friend the Secretary of State for Northern Ireland.

Benefit claimants under 25 years of age by country and English regions: May 2007

n/a = Not available.

Notes:

1. Case loads are rounded to the nearest 10 and shown in thousands; percentages to one decimal place. Totals may not sum due to rounding.
2. The total number of people aged 16 to 24, and 25 to 34 in each region have been used to calculate percentages of the population.
3. Statistical groups are hierarchical as follows:

'Jobseekers' are recipients of jobseeker's allowance.

'Incapacity benefits' refer to recipients of incapacity benefit or severe disablement allowance.

'Lone parents' are single recipients of income support with a child under 16.

'Carers' are recipients of carer's allowance (see note 4).

'Others on income related benefit' are other recipients of income support (including income support disability premium) or pension credit.

4. Figures for carers allowance include those cases with entitlement but where payment is currently suspended (for example, because of an extended stay in hospital or an overlapping benefit).
5. The key out-of-work benefits are jobseeker's allowance, incapacity benefit, severe disablement allowance, and income support for lone parents. They do not include carers allowance or income support paid to carers.
6. Jobseekers figures are from benefit records and may differ from those published by ONS.

Information Directorate, Work and Pensions Longitudinal Study (WPLS) 100 per cent. data; population figures are mid-year estimates for 2006 as supplied by ONS

Social Security Benefits: Employment

Danny Alexander: To ask the Secretary of State for Work and Pensions how much the Government has spent on developing the Better Off Calculation system; and if he will make a statement. [178294]

Caroline Flint: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide the hon. Member with the information requested.

Letter from Leslie Strathie, dated 23 January 2008:

The Secretary of State has asked me to reply to your question asking how much the Government has spent developing the Better Off Calculation system. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

The Better Off Calculator system was developed from an existing stand alone system. The initial software development costs were £1.77 million. Several developments have taken place since. Over the last two financial years we have spent £590,000 (2006-07) and £813,000 (2007-08) in maintaining and enhancing the system.

I hope this is helpful.

Social Security Benefits: Forms

Danny Alexander: To ask the Secretary of State for Work and Pensions what the maximum number of forms an applicant for each benefit administered by his Department must complete is *(a)* between initially applying and receipt of benefit and *(b)* each year thereafter. [177970]

Mr. Plaskitt: For most people claiming most benefits, only one form is required.

If, however, they claim more than one benefit or their circumstances change then an individual will need to fill more forms. In such cases there is no absolute maximum. The number of forms will depend on a claimant's circumstances.

The Department and its Agencies administer more than 20 different benefits and local authorities administer other benefits on the Department's behalf. All these benefits are designed to meet the needs of a particular section of the population, so different amounts of information are needed in order for decisions on entitlement to be made.

For all our benefits, we try and keep the amount of information required to the minimum that allows for the proper administration of the benefit and ensures benefit is paid to those who are entitled to it.

We continue to reduce complexity wherever possible. For example, since 2005, those applying for pension credit by telephone have been able to get council tax benefit and housing benefit, using a shortened claim form completed by the Pension Service, and sent to the claimant to sign and return to their local authority. We have already announced plans to streamline this service even further, removing the need for the pensioner to take any further action. This will allow pensioners to access up to four benefits with one phone call.

Written Questions

Mr. Clappison: To ask the Secretary of State for Work and Pensions when he expects to answer Question 162142, tabled by the hon. Member for

Hertsmere on 6 November 2007, on national insurance numbers. [171134]

Mr. Plaskitt: I replied to the hon. Member's question on 13 December 2007, *Official Report*, column 804W.

Mr. Clappison: To ask the Secretary of State for Work and Pensions when he expects to answer Question 162140, tabled by the hon. Member for Hertsmere on 6 November 2007, on Bulgarian and Romanian citizens. [171137]

Mr. Plaskitt: I replied to the hon. Member's question on 13 December 2007, *Official Report*, column 805W.

Mr. Clappison: To ask the Secretary of State for Work and Pensions when he expects to answer Question 162361, tabled by the hon. Member for Hertsmere on 6 November 2007, on jobseeker's allowance claimants. [171139]

Mr. Plaskitt: I replied to the hon. Member's question on 6 December 2007, *Official Report*, column 1506W.

Mr. Clappison: To ask the Secretary of State for Work and Pensions when he expects to answer Question 162689, tabled by the hon. Member for Hertsmere on 6 November 2007, on EU A8 nationals and national insurance numbers. [171140]

Mr. Plaskitt: I replied to the hon. Member's question on 17 December 2007, *Official Report*, column 936W.

Mr. Clappison: To ask the Secretary of State for Work and Pensions when he expects to answer (1) question 162687, tabled by the hon. Member for Hertsmere on 6 November, on national insurance numbers; [171141]

(2) question 162686, tabled by the hon. Member for Hertsmere on 6 November, on national insurance numbers; [171142]

(3) question 162688, tabled by the hon. Member for Hertsmere on 6 November, on national insurance numbers. [171145]

Mr. Plaskitt: I replied to the hon. Member's questions on 9 January 2008, *Official Report*, column 573W.

Mr. Clappison: To ask the Secretary of State for Work and Pensions when he expects to answer question 162347, tabled by the hon. Member for Hertsmere on 6 November, on A8 nationals. [171163]

Mr. Plaskitt: I replied to the hon. Member's question on 6 December 2007, *Official Report*, column 1505W.

TREASURY

Capita

Mr. Amess: To ask the Chancellor of the Exchequer how much was paid by his Department to Capita Group plc and its subsidiaries in each financial year since 2000; which contracts were awarded by his Department to Capita Group plc in each year from 2000-01 to the most recent available date; what the cost was of each contract; what penalties for default were imposed in contract provisions; what the length was of each contract; whether the contract was advertised; how many companies applied for the contract; how many were short-listed; what criteria were used for choosing a company; what provision was made for renewal without re-tender in each case; and if he will make a statement. [180692]

Angela Eagle: The total amount paid to Capita Group plc each year from 2002-03 is as follows:

Capita Group plc

	Amount (£)
2002-03	356,658
2003-04	190,499
2004-05	183,425
2005-06	176,773
2006-07	284,418

The Treasury has no recorded spend with any subsidiaries of Capita Group plc between 2002-03 2006-07.

Details of spend before 2002-03 and details of the contracts awarded; the cost of each contract; penalties for default; the length of each contract; if the contract was advertised; the number of companies that applied for the contract; the number of companies short listed; the selection and evaluation criteria; and provisions for renewal can be provided only at disproportionate cost.

Census

Tony Baldry: To ask the Chancellor of the Exchequer (1) out of which departmental budget the cost of the 2011 census will be met; [180520]

(2) what work the Office of National Statistics has done on assessing the likelihood of people completing a *(a)* four page and *(b)* three page census form; [180521]

(3) whether a question on carers will be included in the 2011 census; [180522]

(4) what estimate he has made of the cost of adding an extra page to the 2011 census form. [180523]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 23 January 2008:

As National Statistician and Registrar General for England and Wales, I have been asked to reply to your recent questions asking a) out of which Departmental budget the cost of the 2011 Census will be met, b) what estimate has been made of the cost of adding an extra page to the 2011 Census form, c) whether a question on carers will be included in the 2011 Census, and d) what work the Office for National Statistics has done on assessing whether or not people will be less inclined to complete a four page Census rather than a three page Census form. (180520, 180522, 180521, 180523).

I will take this opportunity to answer all the questions together.

Funding for the 2011 Census is provided to ONS by Parliament through the Treasury under the terms of the Comprehensive Spending Review.

Our current funding for the 2011 Census allows for 3 pages of questions per person. We are at present investigating the potential for a fourth page which would allow for the inclusion of more questions. The cost of an adding a fourth page of questions per person has been estimated at £25m.

The value of the information on carers provided by the 2001 Census is well recognised. However, such a question is competing for space on the questionnaire with a number of other questions such as second residence, citizenship, year of entry to the UK, qualifications, industry, end language. Currently ONS is only proposing to include a question on carers if there are 4 pages of questions.

ONS has extensively reviewed and considered the potential impact on response rates of a four page per person census questionnaire for 2011. The 2011 Census Questionnaire Design Team carried out a postal test in April 2007 covering 10,400 households with half of the sample receiving a questionnaire with 3 pages of questions per person and the other half receiving a questionnaire with 4 pages of questions per person. There was no evidence that the length of a self-completion questionnaire had a significant effect on response rates. However, it should be noted that the postal test was voluntary.

Research into international census experiences was inconclusive on the effect of length of questionnaire but has shown that other factors, including ineffective design and layout, question clarity, and controversial topics have more of an impact on response rates.

Child Benefit: Personal Records

Mr. Hoban: To ask the Chancellor of the Exchequer what the cost was of maintaining the child benefit database in each of the last five years for which figures are available. [173359]

Jane Kennedy: The costs of running and maintaining the child benefit IT system, including charges for system infrastructure, over the last five years have been:

	£ million
2003-04	6.5
2004-05	5.1
2005-06	3.7
2006-07	6.2
2007-08 (up to and including October 2007)	5.1

Diabetes: Death

Mr. Sanders: To ask the Chancellor of the Exchequer how many deaths there were which mentioned diabetes on the death certificate in each of the last 10 years, broken down by *(a)* age cohort and *(b)* primary care trust area; and if he will make a statement. [180519]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl, dated 23 January 2008:

The National Statistician has been asked to reply to your recent question asking how many deaths there were which mentioned diabetes on the death certificate in each of the last 10 years, broken down by *(a)* age cohort and *(b)* primary care trust area. I am replying in her absence. (180519)

The tables, which have been placed in the House of Commons Library, provide the number of deaths where diabetes was mentioned on the death certificate, either as the underlying cause or as a contributing factor, in *(a)* England by five-year age group, and *(b)* each primary care organisation in England, from 1997 to 2006 (the latest year available).

Energy: Conservation

Mr. Morley: To ask the Chancellor of the Exchequer if he will assess the merits of including double-glazed units meeting new part L building standards in the list of energy-saving products that qualify for reduced VAT; and if he will make a statement. [180584]

Jane Kennedy: The availability of VAT reduced rates is governed by the European VAT agreements signed by successive governments. We are making the case at EU level for more widespread application of reduced VAT rates to energy-saving materials and energy efficient products.

Energy: Prices

Mr. Hoban: To ask the Chancellor of the Exchequer when he last met representatives of Ofgem to discuss energy prices. [181004]

Angela Eagle: The Chancellor met with representatives of Ofgem on 15 January. As was the case with previous Administrations, it is not the Government's practice to provide details of all such meetings.

Financial Markets

Mr. Dodds: To ask the Chancellor of the Exchequer what assessment he has made of the likely effect of developments in US financial markets on the economy of the United Kingdom over the next 12 months. [180625]

Jane Kennedy: The Government's latest assessment of UK economic prospects over the next 12 months, including the impact of the disruption in global financial markets, was set out in Annex A of the 2007 pre-Budget report and comprehensive spending review (Cm 7227). The Government will update their forecasts, as normal, in the Budget.

Members: Correspondence

Sir Gerald Kaufman: To ask the Chancellor of the Exchequer when he will reply to the letter of 4 December 2007 from the right hon. Member for Manchester, Gorton with regard to Mr. Rodney Perrin. [181077]

Jane Kennedy: I replied to my right hon. Friend on 17 January.

Non-Domestic Rates: Agriculture

Sir Nicholas Winterton: To ask the Chancellor of the Exchequer (1) if he will make it his policy to *(a)* reinstate and *(b)* extend the scope of the agricultural buildings allowance; [178158]

(2) if he will make it his policy to introduce tax relief for agricultural infrastructure required to comply with the Nitrate Vulnerable Zones regulations. [178160]

Jane Kennedy: Agricultural buildings allowances (ABAs) were introduced in 1945 to encourage post-war reconstruction. They are now a poorly focused subsidy, selectively available on a disparate range of assets, including some that typically appreciate in value. ABAs have long been recognised as a significant distortion in commercial property investment. These issues are compounded by the compliance burden imposed by their complicated rules.

The phased withdrawal of ABAs is part of a package of measures which also saw the reduction of the main rate of corporation tax and the basic rate of income tax and the introduction of a £50,000 annual investment allowance (AIA), allowing 95 per cent. of businesses to write off all their expenditure on plant and machinery in the year in which it is made.

Slurry tanks used for temporary storage in Nitrate Vulnerable Zones are eligible for capital allowances and businesses will therefore be able to benefit from the AIA when investing in this infrastructure.

Pay

Mr. Clappison: To ask the Chancellor of the Exchequer what estimate he has made of the number of employees in the UK with a salary of more than £40,000. [180980]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 23 January 2008:

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking what estimate has been made of the number of employees in the UK with a salary of more that £40,000. (180980)

Annual levels of earnings can be estimated from the Annual Survey of Hours and Earnings (ASHE), and are provided for all employees on adult rates who have been in the job for more than one year. I attach a table showing an estimate for 2007 of the percentage of UK employees with a salary of more than £40,000 per year.

ASHE is carried out in April each year and is the most comprehensive source of earnings information in the United Kingdom. However, ASHE methodology cannot be used to provide estimates of the numbers of employees whose salary is more than a specific amount, but can be used to provide estimates of proportions of employees in that category.

Proportion of UK employees earning more than £40,000 in 2007[1]

	Percentage
All employees	12

[1] Employees on adult rates who have been in the same job for more than one year.

Source:
Annual Survey of Hours and Earnings, Office for National Statistics.

Pregnant Women: Nutrition

Mr. Stephen O'Brien: To ask the Chancellor of the Exchequer pursuant to his predecessor's statement on 6 December 2006, *Official Report*, column 308, if he will place in the Library evidence that nutrition for pregnant mothers is most important in the last months of pregnancy. [175391]

Jane Kennedy *[holding answer 18 December 2007]:* There is a wide range of evidence that nutrition for pregnant mothers is important throughout pregnancy. The importance of maternal health during pregnancy was recognised by the Royal College of Midwives and the Royal College of Nursing, in HM Treasury's 14 November 2007 Press Notice on the Health in Pregnancy Grant, on the HM Treasury website.

Revenue and Customs: Data Protection

Mr. Hoban: To ask the Chancellor of the Exchequer what recruitment process was used to select Kieran Poynter to head the review of security processes and procedures for data handling in HM Revenue and Customs announced on 20 November 2007. [173349]

Jane Kennedy: Kieran Poynter was appointed by the Chancellor to carry out the investigation into data handling in HM Revenue and Customs.

Taxation: Domicil

Harry Cohen: To ask the Chancellor of the Exchequer how many days in each year people of non-domiciled tax status may spend in the UK without altering their status; and what arrangements his Department has to monitor the time such individuals spend in the UK. [180845]

Jane Kennedy: Domicile status is a general law concept which is distinct from nationality or residence. It is unaffected by the number of days an individual spends in the UK in a year.

Taxation: Energy

Adam Price: To ask the Chancellor of the Exchequer what representations he has received on a proposed windfall tax on energy suppliers. [181125]

Angela Eagle: The Treasury receives numerous representations on a range of tax issues.

TNT

Mr. Amess: To ask the Chancellor of the Exchequer how much was spent by *(a)* his Department and *(b)* HM Revenue and Customs on services provided by TNT in each month since January 2005. [169429]

Jane Kennedy: The amounts spent on services provided by TNT by HM Treasury and HM Revenue and Customs for each month since January 2005 are set out as follows.

	HM Treasury	HMRC[1]
January 2005	666.73	591,400.82
February 2005	570.45	296,006.31
March 2005	803.92	1,103,930.22
April 2005	190.82	869,534.32
May 2005	158.93	470,445.18
June 2005	156.02	698,606.48
July 2005	193.01	561,082.66
August 2005	318.33	618,001.24
September 2005	218.17	608,344.21
October 2005	225.54	790,589.23

	HM Treasury	HMRC[1]
November 2005	149.84	571,399.99
December 2005	22,399.09	578,974.05
January 2006	2,277.00	609,924.68
February 2006	2,262.94	726,353.04
March 2006	3,925.79	615,744.63
April 2006	1,923.28	462,620.91
May 2006	154.15	4,190.90
June 2006	4,228.04	797,133.16
July 2006	2,550.94	709,484.21
August 2006	2,096.60	918,641.07
September 2006	199.55	470,307.42
October 2006	2,268.33	956,435.64
November 2006	16,344.87	786,950.62
December 2006	9,594.54	836,653.91
January 2007	4,128.98	1,323,749.60
February 2007	3,282.35	357,960.92
March 2007	8,451.15	1,187,424.02
April 2007	26.14	316,320.48
May 2007	1,980.85	970,778.96
June 2007	2,192.56	846,952.19
July 2007	3,264.01	1,125,477.02
August 2007	1,791.37	362,214.19
September 2007	2,394.28	617,046.45
October 2007	1,954.50	974,780.24
November 2007	5,069.47	954,067.67

[1] Figures given for HMRC between January 2005 and April 2006 are a combination of the former Inland Revenue and HM Customs and Excise accountancy systems.

Valuation Office: Data Protection

Mr. Pickles: To ask the Chancellor of the Exchequer what physical or electronic mechanisms the Valuation Office Agency uses to transfer data between *(a)* its regional offices and *(b)* government departments and agencies. [176402]

Jane Kennedy: The VGA uses a variety of mechanisms and channels to transfer data within the organisation and to its clients, including paper, VOA network applications, VOA intranet, internet file transfer sites, e-mail, fax, and CD/DVD dependent on the protective classification required.

Valuation Office: Digital Technology

Mr. Pickles: To ask the Chancellor of the Exchequer if he will place in the Library a copy of the Valuation Office Agency's guidance note Best Practice in the Use of Digital Photography. [176379]

Jane Kennedy: The Agency's best practice guide in the use of digital photography is internal technical instructions on use of the Agency's digital photography application and how, when and where to store digital photographs on the Agency's central database to ensure overall system performance is not affected. It is not appropriate to place these documents in the Library.

Mr. Pickles: To ask the Chancellor of the Exchequer how many photographs of non-domestic properties are stored in the Valuation Office Agency's digital photography application. [176380]

Jane Kennedy: As at 9 January 2008, the Valuation Office Agency held 1,096,931 digital photographs relating to non-domestic properties in the 2005 Valuation List. This figure includes photographs that show more than one property, or a locality rather than a particular building.

Valuation Office: Information Officers

Mr. Maude: To ask the Chancellor of the Exchequer for what reasons the number of communications staff included as working for the Valuation Office Agency in the Central Office of Information's White Book differs from the answer of 8 October 2007, *Official Report*, column 241W, on Valuation Office Agency. [181329]

Jane Kennedy: The question asked by the hon. Member for South-West Hertfordshire (Mr. Gauke) referred to number of press officers employed by the Valuation Office Agency rather than number of communications staff.

Staff listed in the White Book are those involved in the full range of communications activities, both internal and external. Nine of those listed are involved in press office work, (averaging around 10 per cent. of their time) which together with a media relations manager, amounts to two full-time equivalent people with press officer responsibilities.

VAT: Fixed Penalties

Mr. Letwin: To ask the Chancellor of the Exchequer how many *(a)* people and *(b)* businesses had to pay penalties as a result of filing VAT returns one day late after the bank holiday Monday on 7 May 2007. [174902]

Angela Eagle: HM Revenue and Customs do not issue penalties for the late filing of VAT returns. A penalty is issued only where a return is not paid in full by the due date. A total of 27,067 penalties were issued in May 2007 for late payment of VAT. Information on the penalties issued for payments received on a particular day in May 2007 could be obtained only at disproportionate cost.

Welfare Tax Credits

Julia Goldsworthy: To ask the Chancellor of the Exchequer pursuant to the answer of 15 November 2007, *Official Report*, column 409W, on welfare tax credits, for what reason some tax credit overpayments resulting from official error have not been remitted. [181541]

Jane Kennedy: I refer the hon. Member to the reply I gave the hon. Member for Inverness, Nairn, Badenoch and Strathspey (Danny Alexander) on 25 October 2007, *Official Report*, column 585W.

Welfare Tax Credits: Appeals

Julia Goldsworthy: To ask the Chancellor of the Exchequer what the *(a)* total and *(b)* average value is of consolatory payments made since April 2003 to tax credits claimants who have appealed against a decision of the HM Revenue and Customs. [180842]

Jane Kennedy: The circumstances in which HM Revenue and Customs will make compensation payments to its customers are explained in the Department's fact sheet, 'Complaints and Putting Things Right', which is available at:

www.hmrc.gov.uk

For the number and value of compensation payments made in 2003-04, 2004-05 and 2005-06 I refer the hon. Member to the answer I gave on 8 January 2007, *Official Report*, column 427W, to the hon. Member for St. Albans (Anne Main). The number and value of compensation payments made in 2006-07 and from April to December 2007 is shown in the following table.

	Value (£ million)	*Number*
2006-07	0.658	7,893
2007-08 (to December)	0.324	7,456

The average payment made over the period April 2003 to the end of December 2007 was around £60.00.

Separate details of consolatory payments made to customers who have appealed against a decision of the Department are not available.

Welfare Tax Credits: Complaints

Mr. Hoban: To ask the Chancellor of the Exchequer what targets have been set for the time taken to respond to complaints about tax credits sent to (*a*) the Tax Credit Office and (*b*) Treasury Ministers. [181026]

Jane Kennedy: It is HM Revenue and Customs' aim to reply to the majority of letters within three weeks.

Welfare Tax Credits: Hampshire

Mr. Hoban: To ask the Chancellor of the Exchequer what the take-up rate for tax credits was in each constituency in (*a*) Hampshire, (*b*) Southampton and (*c*) Portsmouth in each of the last three years. [181027]

Jane Kennedy: Take-up rate estimates are not available at constituency level.

However, estimates of child and working tax credit take-up rates for 2003-04 and 2004-05, which are the latest available estimates, are published on the HMRC website at

http://www.hmrc.gov.uk/stats/personal-tax-credits/cwtc-take-up.htm

Take-up rates for working families with children at country and regional level are shown in table 9.

JUSTICE

Capita

Mr. Amess: To ask the Secretary of State for Justice how much was paid by his Department and its predecessor to Capita Group plc and its subsidiaries in each financial year since 2000; which contracts were awarded by his Department to Capita Group plc in each year from 2000-01 to the most recent available date; what the cost was of each contract; what penalties for default were imposed in contract provisions; what the length was of each contract; whether the contract was advertised; how many companies applied for the contract; how many were short-listed; what criteria were used for choosing a company; what provision was made for renewal without re-tender in each case; and if he will make a statement. [180699]

Maria Eagle: In the financial years from 2000-01 to 2006-07, the last full year for when figures are available, the Ministry of Justice and its predecessor Department and agencies' expenditure with the Capita Group plc and its subsidiaries was as follows:

	£
2000-01	0
2001-02	3,800
2002-03	17,165
2003-04	12,250
2004-05	498,678
2005-06	1,267,379
2006-07	643,418

The other information requested is not held centrally and could be provided only at disproportionate cost.

Departmental Consultants

Mr. Gauke: To ask the Secretary of State for Justice (1) what payments his Department has made to PricewaterhouseCoopers in the last 12 months; [180814]

(2) how much was spent by his Department on consultants in the last 12 months, broken down by consultancy; [180819]

(3) what the value of contracts between his Department and PricewaterhouseCoopers on private finance initiative projects was in the last 12 months. [180849]

Maria Eagle: The Ministry of Justice was established on 9 May 2007. Information for the last 12 months is not available and could be obtained only at disproportionate cost.

Expenditure figures are available for the six-month period from April 2007 until September 2007, covering the former Department for Constitutional Affairs and those bodies that were formerly part of the Home Office and which are now part of the Ministry of Justice. In that period, approximately £7 million was spent with external consultants, as detailed in the following table.

Expenditure with PricewaterhouseCoopers on consultancy in that period was £202,675.00

Expenditure with PricewaterhouseCoopers on private finance initiative projects in that period was £80,537.00

Firearms Act 1968: Convictions

Mr. Hoban: To ask the Secretary of State for Justice how many *(a)* cases have been brought and *(b)* convictions there have been in each police area for offences under section 5 of the Firearms Act 1968 in each of the last 12 months. [180443]

Maria Eagle: Data showing the number of defendants proceeded against and found guilty of offences under Section 5 of the 1968 Firearms Act broken down by police force area in 2006 are in the following table. Data for 2007 will be available in the autumn of 2008.

Number of defendants proceeded against at magistrates courts and found guilty at all courts for offences under Section 5 of the 1968 Firearms Act, broken down by police force area, England and Wales, 2006[1, 2, 3]

Police force area	Proceeded against	Found guilty
Avon and Somerset	24	21
Bedfordshire	6	4
Cambridgeshire	11	8
Cheshire	20	16
City of London	6	1
Cleveland	8	8
Cumbria	7	3
Derbyshire	11	13
Devon and Cornwall	12	11
Dorset	8	8
Durham	7	6
Essex	36	26
Gloucestershire	4	5
Greater Manchester	108	94
Hampshire	27	24
Hertfordshire	24	23
Humberside	13	11

Warwickshire	8	6
West Mercia	13	11
West Midlands	84	78
West Yorkshire	45	47
Wiltshire	14	7
Dyfed-Powys	2	1
Gwent	11	7
North Wales	16	8
South Wales	16	15
England and Wales	1,258	1,077

[1] These data are on the principal offence basis.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[3] The found guilty column may exceed those proceeded against, as it may be the case that the proceedings in the magistrates court took place in the preceding year and they were found guilty at the Crown court in the following year, or the defendant was found guilty for a different offence to the original offence proceeded against.

Homicide: Bail

Mr. Duncan Smith: To ask the Secretary of State for Justice how many people charged with *(a)* murder and *(b)* crimes of violence were granted bail in the last five years. [179821]

Maria Eagle: An estimated 64,800 people were granted bail by the courts for offences included in the 'violence against the person' group in England and Wales in 2006 (latest available). This includes those held in custody at some stage during proceedings. Data on bail is not sufficiently robust to permit a more detailed breakdown of the offences involved.

Legal Aid Scheme

Dr. Kumar: To ask the Secretary of State for Justice if he will make a statement on the availability of high quality legal aid to the poorest members of society. [179601]

Maria Eagle: The legal aid system focuses resources on areas of greatest need—particularly the socially excluded and the types of problems they may face. Most civil legal aid is means tested, and those in receipt of certain passporting benefits are provided with legal aid without having to make any financial contribution. Under criminal legal aid, free advice and assistance is available to suspects at the police station. Whilst legal representation for defendants at the Crown court is not means tested, defendants at the magistrates court must be financially eligible, although a range of passporting provisions exempt certain vulnerable groups from this test. Since the introduction of the Access to Justice Act 1999, all legal aid providers have to meet strict quality standards.

The current programme of legal aid reform is designed to maximise value for money from legal aid spending, so that the Legal Services Commission can fund assistance to as many people as possible within the available resources. At the same time reform is designed to maintain, and where possible improve, the quality of advice provided.

Magistrates

Jim Cousins: To ask the Secretary of State for Justice on how many occasions since the implementation of the Licensing Act magistrates have awarded costs against objectors; and what written guidance he has given to magistrates on the exercise of their discretion to award such costs. [181060]

Maria Eagle: The Ministry of Justice does not collect information on the award of costs against objectors in licensing cases. It would not be appropriate for the Secretary of State to issue guidance to magistrates on the award of costs since this is a matter of judicial discretion. The Justices' Clerks Society and the Magistrates Association, in conjunction with the Local Authorities Co-ordinators of Regulatory Services (LACORS), published an article in "The Magistrate" magazine setting out as a principle that the award of costs against an unsuccessful individual, including objectors, should be exceptional.

Offenders: Offensive Weapons

Bob Spink: To ask the Secretary of State for Justice how many people received *(a)* custodial and *(b)* non-custodial sentences on conviction for offences which included the carrying or use of a knife in Essex in each of the last three years. [179237]

Mr. Hanson: The following table gives the number of people sentenced for offences of carrying a knife from 2004 to 2006. These offences are having an article with a blade or point in a public place, having an article with a blade or point on school premises, possession of offensive weapons without lawful authority or reasonable excuse and possession of offensive weapons without lawful authority or reasonable excuse on school premises.

Figures for 2007 will be available from autumn 2008.

In such instances as a robbery or violent assault where an individual has used a knife or other offensive weapon then they will be sentenced for the more serious transgression; and the figures do not isolate the specific use of a knife in such circumstances.

Persons[1] sentenced for offences of carrying knives or offensive weapons, by outcome, Essex courts[2], 2004-06

Offence	*Statute*	*Year*	*Total persons sentenced*	*Non-custodial sentence*	*Custodial sentence*
Having an article with a blade or point in a public place	Criminal Justice Act 1988 sec 139 as amended by Offensive Weapons Act 1996 sec 3	2004	179	132	47
		2005	150	93	57
		2006	149	108	41
Having an article with a blade or point on school premises	Criminal Justice Act 1988 sec 139A(1) and (5)(1) as added by the Offensive Weapons Act 1996 sec 4(1)	2004	1	1	
		2005	2	2	
		2006	2	1	1
Possession of offensive weapons[3] without lawful authority or reasonable excuse	Prevention of Crime Act 1953 sec 1 as amended by Offensive Weapons Act 1996 sec 2(1)	2004	123	94	29
		2005	97	77	20
		2006	105	86	19
Possession of offensive weapons[3] without lawful authority or reasonable excuse on school premises	Criminal Justice Act 1988 Sec 139A(2) and (5)(b) as added by the Offensive Weapons Act 1996 sec 4(1)	2004	2	2	
		2005	1	1	
		2006	1	1	

[1] Principal offence basis.
[2] Magistrates courts in Essex and the Crown court if committed by magistrates in Essex.
[3] Will include knives, but information collected centrally does not provide a distinction between them and other offensive weapons.
Note:
These figures have been drawn from administrative data systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system.

Operation Safeguard

Jenny Willott: To ask the Secretary of State for Justice how much his Department has been invoiced for costs incurred under Operation Safeguard in each month since it came into force, broken down by police force; and if he will make a statement. [179090]

Mr. Hanson: Police forces involved in Operation Safeguard charge NOMS in arrears for the cost of making police cells available to accommodate prisoners.

Safeguard use began again in October 2006 but no invoices were paid between October and December 2006.

We cannot provide accurate figures for the cost of Operation Safeguard per police force per month because invoices usually only provide the overall period covered, which may be several months.

However, the following tables show the amounts paid in each month in 2007, broken down by police force, and the value of currently outstanding invoices.

Prisoners

Dr. Vis: To ask the Secretary of State for Justice how many prisoners under 21-years-old there were in each week since 26 January 2007. [180290]

Maria Eagle: Data on the prison population, including a breakdown by age, are published monthly on the Ministry of Justice website:

http://www.justice.gov.uk/publications/populationincustody.htm

The following table shows the number of young people held in prison establishments as at the end of each month since January 2007:

Monthly published totals of young persons held in all prison establishments in England and Wales: January to December 2007

	15 to 17-year-olds	Young adults[1]
January	2,385	9,276
February	2,418	9,286
March	2,413	9,311
April	2,402	9,425
May	2,450	9,364
June	2,428	9,455
July	2,472	9,418
August	2,473	9,545
September	2,485	9,533
October	2,441	9,544
November	2,357	9,542
December	not yet available	

[1] Young adults are those aged 18 to 20 and those 21-year-olds who were aged 20 or under at conviction who have not yet been reclassified as part of the adult population.

These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Prisoners: Education

Mr. Jenkins: To ask the Secretary of State for Justice how much was spent on providing educational courses to offenders serving custodial sentences in the latest period for which figures are available. [179381]

Mr. Lammy: I have been asked to reply.

In the financial year 2006-07, the overall spend by the Learning and Skills Council on the delivery of the Offenders' Learning and Skills Service in custodial establishments to adult offenders was £115 million.

Mr. Jenkins: To ask the Secretary of State for Justice what language courses are offered to offenders serving custodial sentences. [179382]

Mr. Lammy: I have been asked to reply.

The majority of language courses offered to offenders held in English public sector prisons are English language courses—to incorporate literacy skills and key skills in communication, which is a vital aspect in improving the employability prospects of offenders. English is also offered to speakers of other languages.

A small number of European languages including German, Spanish, French and Welsh is offered to a minority of offenders in English public sector prisons based on an assessment of need.

Prisoners: Rehabilitation

Mr. Burrowes: To ask the Secretary of State for Justice how many offender behaviour programmes are accredited for use in prisons; and what the title is of each programme. [181331]

Maria Eagle: There are 17 offending behaviour programmes that have been accredited/provisionally accredited for use in prisons in England and Wales.

They are as follows:

Chromis—a programme for violent offenders with high levels of psychopathy

Cognitive Self Change Programme (CSCP)

Cognitive Skills Booster programme (CSB) (still provisionally accredited)

Controlling Anger and Learning to Manage it (CALM)

Enhanced Thinking Skills (ETS)

FOR—a resettlement programme

Healthy Relationships Programme (HRP)

JETS—a cognitive skills course for juveniles

Reasoning and Rehabilitation (R and R)
Sex Offender Treatment Programme (SOTP)
core
extended
rolling
adapted
booster
adapted booster
healthy sexual functioning
Think First

Prisons: Education

Mr. Burrowes: To ask the Secretary of State for Justice with reference to the answer of 16 October 2007, *Official Report*, column 954W, on prisons: education, when the randomised control trial of enhanced thinking skills will be published. [181274]

Mr. Hanson: The evaluation of HM Prison Service accredited Enhanced Thinking Skills (ETS) programme (The Treatment Chance Project—TCP) aims to examine the impact of ETS courses on impulsivity in adult male offenders over the age of 18, and to investigate whether changes in levels of impulsivity were reflected in changes in prison behaviour.

The TCP was conducted as a Randomised Control Trial (RCT), and as such is the first large-scale RCT evaluating the impact of ETS in prisons.

The draft report is at the peer review stage, with publication scheduled for April 2008.

Prisons: Employment

Mr. Burrowes: To ask the Secretary of State for Justice (1) how many prisoners were employed on average in each prison workshop in each of the last 10 years for which figures are available; [180953]

(2) how many prisoners were *(a)* employed in workshops, *(b)* employed outside workshops and *(c)* without work in each adult male training prison in England and Wales on the most recent date for which figures are available. [180954]

Maria Eagle: The Prison Service does not keep central records of the number of prisoners employed in each prison workshop or those without work but instead records the average weekly number of prisoners involved in workshops at each prison. The table shows, for the last 10 full years for which the information is available, the average weekly numbers of prisoners involved in workshops by prison.

There are no reliable records available on non-workshop employment, and this data have not therefore been included. Such records cannot now be recreated due to the absence of historical data at establishments.

Prisons: Food

Adam Price: To ask the Secretary of State for Justice what percentage of food procured by the Prison Service was of UK origin in the latest period for which figures are available. [181124]

Mr. Hanson: I refer the hon. Member to the reply given to the hon. and learned Member for Harborough (Mr. Garnier) on 30 October 2007, *Official Report*, column 1150W.

Reoffenders

Mr. Burrowes: To ask the Secretary of State for Justice what the re-conviction rate was for prisoners who had completed offender behaviour programmes in the latest period for which figures are available. [181332]

Mr. Hanson: The proven re-offending rate for offenders discharged from prison was 64.7 per cent. in 2004. When controlling for offender characteristics, there has been a 4.6 per cent. reduction since 2000.

We do not have data on re-offending rates for offenders discharged from prison who had completed offender behaviour programmes.

Sentencing: Young People

Mr. Evans: To ask the Secretary of State for Justice how many young people received custodial sentences in relation to driving offences in each of the last five years; and how many young people committed driving offences in that period. [179976]

Mr. Hanson: The following table shows the number of young people, aged 10-17 and 18-20, who were given a custodial sentence, and the total number sentenced, in each of the last five years for motoring offences.

	2002	*2003*	*2004*	*2005*	*2006*
10-17					
Total sentenced	1,277	1,370	1,184	905	750
Immediate custody	707	800	656	489	360
18-20					
Total sentenced	3,920	4,015	3,313	2,734	2,164
Immediate custody	3,042	3,089	2,448	1,996	1,467
All young people					
Total sentenced	5,197	5,385	4,497	3,639	2,914
Immediate custody	3,749	3,889	3,104	2,485	1,827

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Animals: Disease Control

Anne Milton: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 12 December 2007, *Official Report*, column 696W, on animals: disease control, how much was allocated to each local authority for animal health and welfare work in each of the last three financial years. [180828]

Jonathan Shaw: The sums made available to each authority in each of the last three financial years are set out in the following table.

Many authorities underspent significantly against these allocations in either or both of the earlier two years for which outturn figures are available. The cumulative effect of these underspends is shown in the totals given at the foot of the table.

Outturn figure		8.7 million	8.2 million

Departmental Marketing

Mr. Hoban: To ask the Secretary of State for Environment, Food and Rural Affairs how many posters or displays there are in the offices of his Department and its agencies displaying the names and photographs of Ministers; and what the cost has been of producing such posters or displays in the last five years. [179843]

Jonathan Shaw: My Department currently has six displays located in its main buildings. DEFRA agencies have no ministerial displays or posters.

Over the last five years the cost of updating the displays has been £11,000. We have recently begun to replace printed posters and displays with electronic alternatives. These are cheaper to update and have less environmental impact than printed material.

Fisheries

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs which measures which he has *(a)* introduced and *(b)* proposed to the European Commission under (i) Article 8, (ii) Article 9 and (iii) Article 10 of Council Regulation 2371/2002 have been approved; and if he will make a statement. [180754]

Jonathan Shaw: In January 2005, the UK invoked Article 9 of Council Regulation 2371/2002. In its proposals, the UK sought a ban on pelagic pair trawling by all member states within 12 nautical miles of the English coast within The International Council for the Exploration of the Sea (ICES) Area VIIE. The European Commission rejected the proposal and the ban on pelagic pair trawling remains applicable to UK vessels only under the South-West Territorial Waters (prohibition of Pair Trawling) Order 2004.

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what measures which EU Member States have *(a)* introduced and *(b)* proposed to the European Commission under (i) Article 8, (ii) Article 9 and (iii) Article 10 of Council Regulation 2371/2002 have been approved; and if he will make a statement. [180755]

Jonathan Shaw: To the best of my knowledge, none of our neighbouring member states have invoked, or had approved, measures that have a significant effect on the UK fishing industry under Articles 8 and 9 of Council Regulation 2371/2002 . A more complete answer to this question can be obtained from the European Commission as the Article 8 and 9 measures are only notified to the Commission, concerned member states, and the relevant regional advisory council.

Article 10 measures are applicable solely to fishing vessels flying the flag of the member state invoking the article and are therefore not notifiable to other member states.

Fisheries: Finance

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what plans he has to allocate funds to UK fishermen until the UK is able to access the European Fisheries Fund; and if he will make a statement. [180746]

Jonathan Shaw: The previous fisheries grants scheme, the Fisheries Instrument for Financial Guidance (FIFG) is closed to new applications. However, existing projects continue to be funded and I estimate that around £10 million will be paid in 2008.

Fisheries: Public Appointments

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs who the Government appointed to each sea fisheries committee in each year since 1997; between which dates each held their position; what the reasons were for each appointment; what *(a)* interests and *(b)* organisations and groups each appointee represented; and if he will make a statement. [180982]

Jonathan Shaw: The information requested is not readily available and could be provided only at disproportionate cost.

Section 2 of the Sea Fisheries Regulation Act 1966 sets out that persons appointed by the Minister to Sea Fisheries Committees (SFCs) shall be:

"persons acquainted with the needs and opinions of the fishing interests of that district or as being persons having knowledge of, or expertise in, marine environmental matters."

All appointments to SFCs made by the Secretary of State last for a four year period. Once appointed, these members are required to represent, in a balanced way, all local fishing and marine environmental interests in the SFC district. Appointees are reminded that they should not regard themselves as representing any one particular interest.

Flood Control: Greater London

Tom Brake: To ask the Secretary of State for Environment, Food and Rural Affairs what measures have been taken to prevent flooding in London since Summer 2007; and if he will make a statement. [180601]

Mr. Woolas: There have been various measures taken throughout London since the summer to reduce the risk of flooding. The Environment Agency led a series of meetings with local London boroughs. It also conducted a series of meetings with the affected local authorities. In addition, the Government Office for London (GOL) led a post-20 July 2007 lessons learned meeting, the outcomes of which will be incorporated into a fundamental check review of the existing London Strategic Flood Response Plan.

The Environment Agency is also leading an integrated urban drainage pilot in Kingston, funded by DEFRA. This has been developed over the past few months with local authorities and Thames Water and has recommended several ways to address surface water flooding. The Environment Agency and DEFRA will also be feeding into a new Forum 'Drain London' to assess the location and causes of surface water flooding across London and identify solutions.

Thames Estuary 2100 is an Environment Agency project developing a tidal flood risk management plan for London and the Thames Estuary until the end of the century. The plan will take into account increasing flood risk due to climate change, rising sea-levels, ageing of the existing flood management infrastructure and new development in the defended tidal floodplain.

Home Energy Efficiency Scheme: Finance

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs what the average amount was that a household in England paid to top up a Warm Front grant for energy efficiency measures in 2006; and how many households in England paid to top-up their Warm Front grant in 2006. [180758]

Mr. Woolas: The average amount that householders paid to top up Warm Front grants in 2006 was £422.08.

20,143 households in England paid to top up a Warm Front grant during this period.

Productivity: Rural Areas

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what the difference in productivity was between the least well performing quartile of rural areas and the English median in the most recent period for which figures are available; and if he will make a statement. [181504]

Jonathan Shaw: The indicator used to support the public service agreement on productivity (PSA4) monitoring shows that productivity in the least well performing quartile of rural areas was 16.07 per cent. lower than the English median in 2004-05.

Sea Fisheries Committees

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 15 January 2008, *Official Report*, column 1108W, on sea fisheries committees, how many appointees there are on each sea fisheries committee; what the percentage and number appointed to each Sea Fisheries Committee by *(a)* the Government, *(b)* local authorities and *(c)* other organisations is; and if he will make a statement. [181089]

Jonathan Shaw: Orders that establish each Sea Fisheries Committee (SFC) district prescribe the total number and breakdown of members on each Committee.

Members appointed to each SFC by Ministers, local authorities and other organisations, by number and percentage, are as follows:

	Appointed by local authorities		*Appointed by DEFRA*		*Appointed by other organisations*		*Total*
SFC	*Number*	*Percentage*	*Number*	*Percentage*	*Number*	*Percentage*	*Number*
Cornwall	13	50	12	46.15	1	3.84	26
Cumbria	7	50	6	42.86	1	7.14	14
Devon	10	50	9	45	1	5	20
Eastern	10	50	9	45	1	5	20
Isles of Scilly	4	50	4	50	0	0	8
Kent and Essex	12	54.54	9	40.9	1	4.55	22
Northumberland	10	50	9	45	1	5	20
North Eastern	18	50	17	47.22	1	2.77	36
North Western and North Wales	20	52.63	9	23.68	9	23.68	38
Southern	10	50	9	45	1	5	20
Sussex	10	50	9	45	1	5	20

The Environment Agency appoints one member to each SFC, with the exception of the Isles of Scilly. Ministerial appointees to North Western and North Wales SFC are the joint responsibility of DEFRA and the Welsh Ministers. Appointments to South Wales SFC are solely a matter for the Welsh Ministers.

DEFRA is in the process of appointing new members to fill three vacancies.

Seas and Oceans: Environment Protection

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions he has had with officials from (*a*) the Department for Business, Enterprise and Regulatory Reform, (*b*) the Department for Communities and Local Government and (*c*) the Department for Transport in relation to the (i) drafting and (ii) implementation of the proposed Marine Bill. [181117]

Jonathan Shaw: DEFRA Ministers and officials have worked closely with the Department for Business, Enterprise and Regulatory Reform, the Department for Communities and Local Government, and the Department for Transport on the development of the proposed Marine Bill. We will continue to do so during the Bill's passage through Parliament to ensure that our proposals for new legislation are coherent and compatible.

Water Supply: River Wye

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions he has had with Severn Trent on the possibility of securing water supply back-up from the River Wye; and if he will make a statement. [180911]

Mr. Woolas: I have not had any such discussions. It is for Severn Trent to consider the need for increasing provision of water in fulfilment of its duties to maintain adequate supplies of water. The company's plan for meeting demand were set out in its 25-year water resources plans, prepared in 2004. The Environment Agency reported on those plans in 'Maintaining Water Supply', which is available from its web site. The plans are to be updated and will be consulted upon later this year.

Additional abstractions to provide a back-up supply of water, whether from the River Wye or another source, would need to be licensed by the Environment Agency in line with the provisions of the Water Resources Act 1991 (as amended).

White Fish: Conservation

Bill Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 15 January 2007, *Official Report*, column 1112W, on white fish: conservation, what evidence his Department has received contrary to the advice of the International Council for the Exploration of the Sea in 2004 on bass stocks; and if he will make a statement. [181199]

Jonathan Shaw: Some angling groups including the Bass Anglers' Sportsfishing Society (BASS) have submitted information to counter the advice of the International Council for the Exploration of the Sea (ICES) on bass stocks. The Centre for Environment, Fisheries and Aquaculture Science, have assessed the information submitted by BASS and do not believe that it alters their advice to DEFRA that bass stocks appear to be fished sustainably. This is consistent with the most recent ICES advice.

CHURCH COMMISSIONERS

Departmental ICT

Susan Kramer: To ask the hon. Member for Middlesbrough, representing the Church Commissioners how many (*a*) male and (*b*) female members of staff of the Church Commissioners were issued with personal digital assistants in each year since 2001; and if he will make a statement. [181399]

Sir Stuart Bell: This information is not recorded but, by way of a statement, the commissioners invest in technology whenever they believe that this will improve their business efficiency. When they do invest in new equipment, the recipient's gender is irrelevant.

PUBLIC ACCOUNTS COMMISSION

Departmental ICT

Susan Kramer: To ask the Chairman of the Public Accounts Commission how many (*a*) male and (*b*) female members of staff of the National Audit Office were issued with personal digital assistants in each year since 2001; and if he will make a statement. [181352]

Mr. Alan Williams: The information requested is set out as follows. This includes SmartPhones which have personal digital assistant (PDA) functionality. For 2006 and 2007 these numbers include more than once those SmartPhones that were issued for staff to test, withdrawn and then reissued. There are currently 20 staff with active SmartPhones.

	PDAs and SmartPhones issued to male members of staff	*PDAs and SmartPhones issued to female members of staff*
2001	0	0
2002	0	0
2003	16	4
2004	0	0
2005	0	0
2006	14	8
2007	12	4

TREASURY

Tax Returns: Online Filing

11. **Mr. Robathan:** To ask the Chancellor of the Exchequer what assessment he has made of the use of on-line filing of tax returns. [181420]

Jane Kennedy: Online filing is secure, quicker and more accurate for the customer and HMRC benefits by having better quality data and reduced administration and processing costs.

By the beginning of January, just under 2 million self assessment returns had been filed online, an increase of 26 per cent. on the same point last year.

International Debt Relief

12. **Mark Lazarowicz:** To ask the Chancellor of the Exchequer what further steps he plans to take to advance international debt relief. [181421]

Andy Burnham: The UK welcomes recent agreements at the IMF, World Bank and African Development Bank to finance Liberia's arrears clearance, paving the way for Liberia to enter the HIPC initiative. The UK will continue to support eligible countries to achieve HIPC debt relief and to qualify for debt cancellation under the multilateral debt relief initiative. The UK is working closely with international partners to address the problem of so-called vulture funds.

Contractors: Monitoring

13. **Mark Pritchard:** To ask the Chancellor of the Exchequer what contractual mechanisms HM Revenue and Customs has in place to monitor the effectiveness and efficiency of private sector organisations to which it has contracted out work. [181422]

Jane Kennedy: HMRC employs a wide range of procedures for monitoring the performance of private sector contractors, on a contract-by-contract basis, following HMRC's good practice guidance.

Professionally qualified commercial specialists manage these contracts, which are kept under review.

Saving

14. **Miss Begg:** To ask the Chancellor of the Exchequer what steps the Government is taking to encourage people to save. [181423]

Andy Burnham: Since 1997, the Government have introduced individual savings accounts (ISAs) (now held by one in three adults), and the child trust fund, which will ensure that all children will hold a financial asset at the age of 18. The Government have piloted the saving gateway and is now taking forward feasibility work to enable rollout.

The Government are also introducing personal accounts to enable individuals on low to medium incomes to save for a pension over their working lives.

10p Tax Rate

15. **Miss Kirkbride:** To ask the Chancellor of the Exchequer what estimate he has made of the effect on revenue to the Exchequer arising from the abolition of the 10 pence tax rate; and if he will make a statement. [181424]

Angela Eagle: The yield from removing the 10p starting rate of income tax on non-savings income was published in the Financial Statement and Budget Report 2007 at line 15 of table A1. Removing the 10p starting rate of income tax was one single aspect of the Budget 2007 package, and should not be looked at in isolation from the other changes announced.

Leitch Report

17. **Mr. Simon:** To ask the Chancellor of the Exchequer what recent discussions he has had with ministerial colleagues on the Leitch report and on the skills base in the UK economy. [181426]

Angela Eagle: Discussions about the Leitch report and the importance of skills to economic growth are held at ministerial and official level on a regular basis.

Investing in education and skills is vital to ensuring our continued success in today's global economy.

That is why the Government are increasing their investment in improving education and the skills. UK education spending as proportion of GDP projected to increase from 4.7 per cent. in 1996-97 to 5.6 per cent. by 2010-11. Expenditure on higher education and adult skills in England will grow by over £2 billion over the next three years.

Africa: Education for All Initiative

18. **John Robertson:** To ask the Chancellor of the Exchequer what recent discussions he has had with his international counterparts on the Education for All initiative for Africa; and if he will make a statement. [181427]

Angela Eagle: The UK is a strong supporter of education, with a commitment to provide £8.5 billion for education by 2015; it is the second largest contributor to the Education for All Fast Track Initiative. At the autumn meetings of the G7 and IMFC, Finance Ministers reaffirmed the importance they place on development issues, including education. Treasury Ministers and officials will continue to use every opportunity to promote the UK's development priorities with their international counterparts.

Trade Unions: Provident Funds

19. **Mr. Chaytor:** To ask the Chancellor of the Exchequer when the upper limit for tax exempt payments from Trade Unions Provident Funds was last adjusted for inflation; and what plans he has to review the limit. [181428]

Jane Kennedy: The tax exemption limits whereby registered trade unions are able to claim relief in respect of certain income and gains used for provident benefits have not been raised since 1991. There are no plans at the current time to raise the limits.

Skills Shortages

21. **Anne Snelgrove:** To ask the Chancellor of the Exchequer what recent assessment he has made of the impact on the UK economy of skills shortages. [181430]

Angela Eagle: The independent Leitch Review of Skills found no evidence that skill gaps or shortages have held back economic growth, though it did

recommend that the Government raise their ambitions on improving the skills of the workforce.

The 2007 National Employer Skills Survey conducted by the Learning and Skills Council highlights falls in the proportion of employers reporting skills gaps and the percentage of all vacancies caused by skills shortages.

The Government are increasing their investment in improving the skills of the population. Expenditure on higher education and adult skills in England will grow by over £2 billion over the next three years.

Capital Gains Tax

Andrew George: To ask the Chancellor of the Exchequer what assessment he has made of the likely effect of the pre-Budget report proposals for capital gains tax on housing affordability. [181429]

Jane Kennedy: The Government take a range of factors into consideration when formulating tax policy, and keep all of the relevant issues under review. The tax regime is just one of a number of factors that influence housing affordability.

Banks: Insolvency

Mr. Hoban: To ask the Chancellor of the Exchequer when he expects to bring forward proposals for legislation (*a*) on bank insolvency and (*b*) to implement the Market Abuse Directive. [181024]

Angela Eagle: HM Treasury, the Bank of England and Financial Services Authority published a discussion paper, "Banking Reform: Protecting Depositors", in October 2007. Comments on that paper were requested by 5 December 2007. A consultation document outlining proposals for reforms to banking regulation and depositor protection will be published shortly, and will be followed by a 12-week consultation period. I refer the hon. Member to the statement made by the Chancellor on 21 January 2008, *Official Report*, columns 1207-24.

Banks: Standards

Norman Baker: To ask the Chancellor of the Exchequer what assessment he has made of the resilience of the UK banking system; and if he will make a statement. [181411]

Andy Burnham: The FSA has responsibility for assessing the resilience of individual banks and shares responsibility with the Bank of England for maintaining a broad overview of the financial system as a whole. Their views of the risks to financial system are made public, in particular through the Financial Risk Outlook and the Financial Stability report respectively. The chairman and chief executive of the FSA and the Governor and deputy governor of the Bank of England have set out their views on these issues over recent months to the Treasury Committee.

Cost of Living

Philip Davies: To ask the Chancellor of the Exchequer what assessment he has made of the difference between the retail prices index and the rate of inflation experienced by families with an average income. [181409]

Angela Eagle: No official estimates have been made of the rate of inflation experienced by families with an average income. However, under the Government's monetary policy framework, inflation has remained close to target and the economy has now experienced 61 consecutive quarters of growth. UK inflation, currently at 2.1 per cent, remains close to target. This stability, alongside record levels of employment, has allowed average real incomes to increase for all income groups since 1997 and aggregate real household disposable income to rise by 25 per cent.

Credit

Miss McIntosh: To ask the Chancellor of the Exchequer what assessment he has made of the trends in the availability of credit to householders in the last 12 months. [181410]

Andy Burnham: The UK economy remains strong and stable and is enjoying its longest period of macro-economic stability on record. The disruption in global financial markets has meant economic prospects have become more uncertain, with the pre-Budget report forecast incorporating some feed-through from financial market disruption to tighter credit conditions. But the UK economy has proved resilient to a number of shocks over the past decade, demonstrating the success of the Government's macro-economic framework and promotion of open and flexible labour, product and capital markets.

Departmental ICT

Susan Kramer: To ask the Chancellor of the Exchequer how many (*a*) male and (*b*) female members of staff in his Department were issued with personal digital assistants in each year since 2001; and if he will make a statement. [181368]

Angela Eagle: The current user list for PDAs in core Treasury shows (*a*) 59 male users, and (*b*) 32 female users. Financial records would only provide the information requested on PDAs purchased from 2001 annually at disproportionate cost.

Excise Duties: Fuels

Norman Baker: To ask the Chancellor of the Exchequer what his policy is on fuel duty for motorists, with particular reference to the overall price of fuel and the Government's climate change policy. [181583]

Angela Eagle: I refer the hon. Gentleman to the answers I gave the right hon. Member for East Yorkshire (Mr. Knight) and the hon. Member for Southend, West (Mr. Amess) on 7 January 2008, *Official Report*, column 330W.

Government Departments: Property

Mr. Maude: To ask the Chancellor of the Exchequer pursuant to the answer of 7 January 2008, *Official Report*, column 332W, on government departments: property, in what methodological or statistical ways the data in the table placed in the Library differs from the data provided in the answer of 6 January 2008, *Official Report*, column 630W, on the same subject. [181335]

Angela Eagle: The data in the table placed in the Library in the answer of 7 January 2008, *Official Report*, column 332W, gives the total figures for vacant space recorded on e-PIMS as either actual, future or potential.

The data provided in the answer of 6 January 2008, *Official Report*, column 630W, is for vacant space recorded on e-PIMS only as actual, as that is how the question was interpreted.

The data provided for HM Courts Service, Home Office and Treasury Group is different for the following reasons:

HM Courts Service

e-PIMS is a working database and the latest information available is used in PQ responses. The data provided in the table placed in the Library were the vacant space recorded as at 20 December. The data provided in the subsequent response was the vacant space recorded as at 27 December. On 11 December HM Courts Service entered a total of 7579m² vacant space records onto e-PIMS, accounting for the increase in the figure given on 20 December, even though only vacant space marked as actual was included.

Home Office

The data provided in the table placed in the Library gave separate vacant space figures for the Home Office and the national probation directorate, whereas the subsequent response provided the Home Office vacant space inclusive of the national probation directorate.

Treasury Group

Similarly, the table placed in the Library gave separate vacant space figures for HM Treasury and National Savings and Investments whereas the subsequent response combines these in a single figure for the Treasury Group.

Other small variances are accounted for by the different dates on which information is recorded.

Knowledge Network Project

Mr. Maude: To ask the Chancellor of the Exchequer if he will place in the Library a copy of the guidance document on using the Knowledge Network software and database. [181311]

Angela Eagle: There is no one single, specific guidance document on using the Knowledge Network.

Members: Correspondence

Sir Gerald Kaufman: To ask the Chancellor of the Exchequer when he will reply to the letter of 3 December 2007 from the right hon. Member for Manchester, Gorton with regard to Mrs. Mavis George. [181076]

Jane Kennedy: I replied to the right hon. Member on 22 January 2008.

Population

Mr. Chope: To ask the Chancellor of the Exchequer what estimate he has made of the likely population of the United Kingdom in *(a)* 2015, *(b)* 2030 and *(c)* 2050. [181126]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 24 January 2008:

As National Statistician I have been asked to reply to your question regarding what estimate has been made of the likely population of the United Kingdom in (a) 2015, (b) 2030 and (c) 2050. (181126)

The table below shows the projected total population of the United Kingdom for the years requested. The most recent national population projections, based on the population at the middle of 2006, were published by the Office for National Statistics on 23 October 2007.

	Total population (Million)
2015	64.5
2030	70.8
2050	77.0

Projections are uncertain and become increasingly so the further they are carried forward. In addition to the principal (central) projection results given above, variant projections based on alternative assumptions are also published. Details are available at:

http://www.gad.gov.uk/Demography_data/Population/

Revenue and Customs: Data Protection

Mr. Hoban: To ask the Chancellor of the Exchequer what *(a)* data and *(b)* physical security measures have been introduced at HM Revenue and Customs offices in Tyne and Wear since October 2007. [181008]

Jane Kennedy: HMRC reviews its security measures on an ongoing basis.

Since October 2007, the offices in Tyne and Wear, in common with all HMRC offices, have implemented HMRC's tighter controls on data security.

For more detail on these changes, I refer the hon. Member to Kieran Poynter's interim report which was published on 17 December 2007 and is available in the Library of the House.

Revenue and Customs: Disclosure of Information

Mr. Laws: To ask the Chancellor of the Exchequer for what reason HM Revenue and Customs has failed to respond to requests for information from the Information Commissioner's Office in relation to case ref. number FS50164499 on behalf of the hon. Member for Yeovil; and if he will make a statement. [181122]

Jane Kennedy: HMRC are in continuing dialogue with the Information Commissioner's Office and will be providing a full response in due course.

Skin Cancer

Mr. Bruce George: To ask the Chancellor of the Exchequer whether his Department holds regional figures for five year survival rates for skin cancer. [181291]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 24 January 2008:

As National Statistician I have been asked to reply to your recent Parliamentary Question asking whether regional figures for five year survival rates for skin cancer are available. (181291)

For England, five-year survival rates are available for adult patients (aged 15-99 years) diagnosed with skin cancer during 1999-2003 and followed up to the end of 2004. These are given in Table 1 and are also available on the National Statistics website.

http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=14007&Pos=3&ColRank=1&Rank=422

Survival rates by NHS region for 58 cancers including skin cancer diagnosed during 1971-90 in England and Wales were published in Cancer Survival Trends* in 1999. Figures for skin cancer, broken down by region are given in Table 2.

Table 1: Five-year age-standardised[1] relative survival (percentage) for adults (15 to 99 years) diagnosed with melanoma of the skin[2] during 1999 to 2003, followed up to the end of 2004, England

	Number of patients	Five-year relative survival	
		Percentage	95 per cent CI[3]
Men	13,196	80.4	(79.2-81.7)
Women	17,005	89.4	(88.5-90.3)

[1] As cancer survival varies with age at diagnosis, the relative rates for all ages (15 to 99) have been age-standardised to control for changes in the age profile of cancer patients over time, thus making them comparable with previously published figures.
[2] Melanoma of the skin is classified as code C43 in the International Classification of Diseases, Tenth Revision (ICD-10).
[3] 95 per cent. confidence intervals (CI).

Source:
Office for National Statistics

Table 2: Five-year age-standardised[1] relative survival (percentage) for adults (15 to 99 years) diagnosed with melanoma of the skin[2] during 1986 to 1990, followed up to the end of 1995, England and NHS region

	Men	Women
England	68	82
Northern and Yorkshire	69	83
Trent	66	82
Anglia and Oxford	72	82
North Thames	66	83
South Thames	66	82
South and West	70	81
West Midlands	71	84
North and West	63	81

[1] As cancer survival varies with age at diagnosis, the relative rates for all ages (15 to 99) have been age-standardised to control for changes in the age profile of cancer patients over time, thus making them comparable with previously published figures.
[2] Melanoma of the skin is classified as code 172 in the International Classification of Diseases, Ninth Revision (ICD-9).

Office for National Statistics
Table 4.5: Cancer survival trends by NHS region, selected cancers, patients diagnosed 1971 to 1990: age-standardised relative survival rates (with 95 per cent. confidence intervals) at one and five years after diagnosis, and average increases in relative survival on the National Statistics website http://www.statistics.gov.uk/StatBase/ssdataset.asp?More=Y
and published in:
Coleman MP et al (1999) 'Cancer survival Trends in England and Wales 1971 to 1995: deprivation and NHS region'. Studies in Medical and Population Subjects No.61. London: The Stationery Office.

Written Questions: Government Responses

Mr. Fallon: To ask the Chancellor of the Exchequer when he expects to make a substantive reply to question 175652, on advice on Northern Rock, tabled by the hon. Member for Sevenoaks on 17 December 2007. [181104]

Jane Kennedy: Very shortly. The Treasury regrets not having done so earlier.

DEFENCE

Afghanistan: Peacekeeping Operations

Ann Winterton: To ask the Secretary of State for Defence how many and which models of helicopter deployed in Afghanistan are fitted with winches. [181043]

Mr. Bob Ainsworth: All UK Sea King and all UK Chinooks deployed in Afghanistan are equipped with winches.

I am withholding the number of helicopters deployed as the information would, or would be likely to, prejudice the capability, effectiveness and security of the armed forces.

Aircraft Carriers: Procurement

Mr. Soames: To ask the Secretary of State for Defence when he expects to announce a detailed timetable for the Future Aircraft Carrier Programme. [180622]

Mr. Bob Ainsworth: I refer the hon. Member to the answer my right hon. Friend the Secretary of State for Defence, gave on 7 January 2008, *Official Report*, column 21W, to the hon. Member for New Forest, East (Dr. Lewis) on the placement of the manufacture contract for the Future Carrier, and to the answer I gave to the hon. Member for Woodspring (Dr. Fox) on 7 January 2008, *Official Report*, column 20W, on in-service dates.

Armed Forces: Children

Mr. Hoyle: To ask the Secretary of State for Defence how many service deaths have occurred where the service parent was in receipt of continuity of education allowance or boarding school allowance at the time of their death since 1997; how many children of deceased service personnel received his Department's financial assistance in these cases; what the total cost has been over that period; how much provision is made in his Department's budget annually for such cases; and if he will make a statement. [180039]

Derek Twigg: Information prior to the roll-out of the joint personnel administration (JPA) could be provided only at disproportionate cost. In the period June 2006 to date, continuity of education allowance (CEA) payments have been made in relation to 15 Service personnel who have died in service. These payments have related to 21 children. The total cost of these payments is £185,000. There is no specific allocation for provision of CEA in cases of death in service. We cannot predict what future payments will be. However, we are committed to making such payments.

Armed Forces: Housing

Mr. Baron: To ask the Secretary of State for Defence what targets he has set for upgrading service families' accommodation to *(a)* S1fC and *(b)* S2fC categories under the standard for condition initiative; and when he expects these targets to be met. [179927]

Derek Twigg *[holding answer 17 January 2008]*: This Department has targets only to upgrade Service Families Accommodation (SFA) properties to Standard 1 for Condition (SIfC). We will upgrade a minimum of 600 SFA properties to SIfC in financial years 2007-08 and 2008-09 with a further 800 upgrades planned for each year thereafter.

This number of upgrades is based on the strategic decision, taken with the support of the armed forces, to focus the programme on upgrading the worst accommodation first which leads to a higher cost per upgrade. Funding in previous years was targeted at delivering a large number of relatively low cost upgrades. In fact the Department has increased the level of funding for upgrading SFA and is making available a further £20 million in 2008-09 and £30 million per annum thereafter.

Armed Forces: Parachuting

Dr. Fox: To ask the Secretary of State for Defence how many high altitude *(a)* high and *(b)* low opening training airborne jumps have been conducted by British service personnel in each year since 2001. [181209]

Mr. Bob Ainsworth: The number of high altitude, high opening (HAHO), and high altitude, low opening (HALO), airborne jumps that have been conducted by British service personnel while completing service training are shown in the table as follows.

Calendar year	*High altitude high opening*[1]	*High altitude low opening*[1]
2001	175	220
2002	235	135
2003	395	150
2004	125	550
2005	65	135
2006	100	375
2007	320	525

[1] Numbers rounded to the nearest 5

Armoured Fighting Vehicles

Dr. Fox: To ask the Secretary of State for Defence (1) how many Bulldog vehicles have been *(a)* ordered to date and *(b)* delivered to UK Land Command; [179682]

(2) how many Vector armoured fighting vehicles have been *(a)* ordered to date and *(b)* delivered to UK Land Command; [179683]

(3) how many Mastiff armoured vehicles have been *(a)* ordered to date and *(b)* delivered to UK Land Command. [179684]

Mr. Bob Ainsworth: The number of Bulldog, Vector and Mastiff vehicles ordered to date and delivered to UK Land Command are shown in the following table:

	Ordered to date	*Delivered to UK Land Command*
Bulldog	900	411
Vector	178	178
Mastiff	108	104

Bulldog is an upgrade of the FV430 rather than a brand new vehicle. The conversion programme is due to be completed by 31 March 2011.

The initial tranche of Mastiff deliveries are complete, less four ambulance variants due to be completed and delivered by the end of January 2008. We are ordering an additional tranche of Mastiff vehicles, as announced by the Prime Minister on 7 October 2007.

AWE Burghfield: Floods

Mr. Hancock: To ask the Secretary of State for Defence what assessment has been made of the flood risk to the *(a)* High Security Area, *(b)* Nuclear Licensed Site Area and *(c)* remainder of the site at AWE Burghfield; what flooding has occurred at the site since July 2007; what representations he has received from the Environment Agency since that time; and if he will make a statement. [181048]

Mr. Bob Ainsworth: The risk of flooding is addressed in the nuclear licence safety case for the AWE Burghfield site, which does not differentiate between areas. The safety case assessment concludes that such an event would not compromise safety at the site although there would likely be an impact on business continuity. A programme of review is therefore under way to determine what, if any, improvements might be introduced.

No flooding has occurred at AWE Burghfield since July 2007. The Environment Agency has made no representations to the MOD on these matters. The nuclear site licensee, AWE plc, continues to advise the regulators of its plans through regular routine engagement.

AWE Management

Nick Harvey: To ask the Secretary of State for Defence what the *(a)* name, *(b)* function, *(c)* estimated cost and *(d)* projected in-service date is of each of the 23 new build projects in the Atomic Weapons Establishment Site Development Context Plan 2005 to 2015. [181444]

Des Browne: I refer the hon. Member to the answer I gave him on 7 January 2008, *Official Report*, column 29W.

AWE Management: Trident Missiles

Nick Harvey: To ask the Secretary of State for Defence (1) whether the Atomic Weapons Establishment manufactured *(a)* any new Trident warheads and *(b)* any new plutonium pits in 2007; [181065]

(2) when the Atomic Weapons Establishment plans to end the production of *(a)* new Trident warheads of the current design and *(b)* new plutonium pits of the current design. [181066]

Mr. Bob Ainsworth: I am withholding the information requested as its release would or would be, likely to prejudice national security and defence of the UK.

Chad: Peacekeeping Operations

Dr. Fox: To ask the Secretary of State for Defence whether transportation and lodging of military forces in support of the European Security and Defence

Policy mission to Chad will be financed by the EU or its member states under the costs lie where they fall principle. [179673]

Mr. Bob Ainsworth: The EU-led mission to Chad and the Central African Republic (CAR) will be funded in accordance with the ATHENA funding mechanism approved by the Council of the European Union in 2004 and as subsequently amended. The mechanism defines which aspects of EU-led military operations are eligible for common funding by member states.

The incremental costs of deploying elements of the Force HQ to and from the theatre of operations, and associated lodging of Force HQ staff, are eligible for common funding. The costs of deployment and lodging of force elements commanded by the Force HQ are met by the member states that provide the forces on a "costs lie where they fall" basis. A budget request will be submitted by the Operation Commander for the Chad/CAR operation for scrutiny by the ATHENA Special Committee during January 2008 before a resulting budget is approved.

Defence Equipment and Support Organisation: Finance

Annette Brooke: To ask the Secretary of State for Defence pursuant to the answer of 13 December 2007, *Official Report*, column 774W, on Defence Equipment and Support Organisation: finance, what the reasons are for the difference between the expenditure figure provided against financial year 2006-07 and that declared on the home page of the Defence Equipment and Support Organisation's website. [180318]

Mr. Bob Ainsworth *[holding answer 21 January 2008]*: The rounded £16,000 million annual budget figure for financial year 2006-07, as shown on the Defence Equipment and Support Organisation's website, encompasses both equipment and non-equipment resource expenditure. This includes manpower, overhead costs and indirect non-cash resource costs such as cost of capital charges on assets and depreciation.

The figure of £12,130 million for financial year 2006-07, as detailed in my answer of 13 December 2007, *Official Report*, column 774W, was for spend on equipment programmes only, including expenditure on all equipment additions, equipment support (including Stock Consumption and Post Design Services), PFI Service Charges and IT and Communications.

Departmental ICT

Susan Kramer: To ask the Secretary of State for Defence how many *(a)* male and *(b)* female members of staff in his Department were issued with personal digital assistants in each year since 2001; and if he will make a statement. [181354]

Derek Twigg: Records of personal digital assistants are not held centrally and could be provided only at disproportionate cost.

Firearms Act 1968

Mr. Hoban: To ask the Secretary of State for Defence (1) on how many occasions the Defence Council has granted an authority to *(a)* possess, *(b)* acquire, *(c)* manufacture, *(d)* transfer and *(e)* sell items under section 5 of the Firearms Act 1968 in each of the last 10 years; [180242]

(2) on how many occasions the Defence Council has revoked an authority to *(a)* possess, *(b)* acquire, *(c)* manufacture, *(d)* transfer and *(e)* sell items under section 5 of the Firearms Act 1968 in each of the last 10 years. [180243]

Mr. Bob Ainsworth: None. The Defence Council has no role in granting or revoking authorities under section 5 of the Firearms Act 1968.

Fuels: Finance

Mr. Gerald Howarth: To ask the Secretary of State for Defence what estimate he has made of the likely savings to the defence budget achievable through the adoption of fuel hedging. [176289]

Mr. Bob Ainsworth: Fuel hedging would not in the medium or long term necessarily provide any direct savings to the defence budget. However, it would reduce the impact of price changes.

"Government Accounting" precludes the use of fuel hedging to seek savings to the defence budget as this would involve speculation with taxpayers' money.

Land Mines

Ann Winterton: To ask the Secretary of State for Defence what pre-deployment training is provided for *(a)* mine detection and *(b)* personnel extraction from minefields. [181042]

Mr. Bob Ainsworth: All personnel deploying either as an individual replacement (IR), or as part of a formed unit undertake extensive training in mine awareness and minefield immediate action drills. These are as follows:

(a) a 45 minute lecture on the threat of mines, specific to the theatre they are deploying to;

(b) a 60 minute practical lesson (demonstration and practice) at identifying mines or potentially mined areas and how to extract themselves and their team from a minefield or mined area;

(c) further opportunities to practise mine awareness and extraction drills including during the Confirmatory Training Exercise at Stanford Training Area (STANTA) where individuals are assessed on their assimilation of these drills;

(d) "sweep up" training focused on areas where weakness or misunderstanding is identified.

On arrival in theatre, mine awareness and any new theatre specific procedures are revised and practised. This is part of the Reception, Staging and Onward Integration (RSOI) training package.

Military Bases: Strait of Hotmuz

Mr. MacShane: To ask the Secretary of State for Defence if he will make a statement on the implications for UK defence policy of France's decision to create a military base in the Strait of Hotmuz. [180602]

Des Browne: On 15 January, President Nicolas Sarkozy signed an agreement with the United Arab Emirates which includes plans to create a French military base in Abu Dhabi. There are no implications for UK Defence Policy. France has a long history of defence co-operation in the Gulf region.

NATO: Finance

Dr. Fox: To ask the Secretary of State for Defence how much the Government contributed to NATO's *(a)* civil budget, *(b)* military budget and *(c)* Security Investment Programme in each year since 1997. [181205]

Des Browne: The amount contributed by the UK to NATO's civil budget, military budget and the NATO Security Investment Programme (NSIP) since 1997 is as follows:

Financial year	*Civil budget*[1]	*Military budget*[2]	*£ million NSIP*[2]
1997-98	20.400	43.126	36.826
1998-99	16.100	46.021	54.168
1999-2000	16.300	38.529	45.350
2000-01	18.900	36.461	42.915
2001-02	17.900	53.100	62.493
2002-03	18.200	50.000	38.301
2003-04	18.700	36.578	45.813
2004-05	17.600	52.430	55.538
2005-06	17.842	43.926	54.575
2006-07	17.281	56.917	40.959
2007-08[3]	19.470	60.800	51.147

[1] The UK contribution to the NATO civil budget is funded by the FCO
[2] Funded by the MOD
[3] Current in-year forecast

Dr. Fox: To ask the Secretary of State for Defence what proportion of the UK's contribution to NATO common funding was allocated to NATO's *(a)* civil budget, *(b)* military budget and *(c)* security investment programme in each year since 1997. [181210]

Des Browne: The proportion of the UK's total contribution to NATO common funding allocated to the civil budget, military budget and NATO Security Investment Programme (NSIP) since 1997 is as follows:

Financial year	*Civil budget*[1]	*Military budget*[2]	*Percentage NSIP*[2]
1997-98	20.33	42.97	36.70
1998-99	13.84	39.57	46.57
1999-2000	16.27	38.46	45.27
2000-01	19.23	37.10	43.67
2001-02	13.41	39.78	46.81
2002-03	17.09	46.95	35.96
2003-04	18.50	36.18	45.32
2004-05	14.02	41.75	44.23
2005-06	15.34	37.76	46.90
2006-07	15.01	49.43	35.56
2007-08[4]	14.82	46.26	38.92

[1] The UK contribution to the NATO civil budget is funded by the FCO
[2] Funded by the MOD
[3] Funded by the MOD
[4] Current in-year forecast

Peacekeeping Operations

Dr. Fox: To ask the Secretary of State for Defence which military units are allocated for potential deployment with *(a)* EU and *(b)* NATO missions. [179676]

Mr. Bob Ainsworth: The allocation of military units for all deployments with EU and NATO missions takes place on a case by case basis via the UK's force generation process, according to national priorities, and drawn from those declared to the Defence Planning process for NATO and the Headline Questionnaire for the EU. Within these forces, some units are held at high readiness and designated for potential deployment with the EU and NATO but these would not deploy without the express consent of the UK Government.

For EU missions, the UK's contribution to the EU Battle Group roster in the second half of 2008 will be drawn from the Small Scale Focused Intervention Battlegroup element of the Joint Rapid Reaction Force.

For NATO missions, the UK has agreed to provide a battalion to NATO's Operational Reserve Force (ORF) until the end of 2008. On current plans, up to the end of the first half of 2008, the Spearhead Land Element(SLE) of the Joint Rapid Reaction Force (JRRF) will meet this requirement.

The UK is also providing a contribution to the NATO Response Force (NRF) throughout 2008 to be drawn as appropriate from the Joint Rapid Reaction Force. From January-June 2008 this will be one carrier and associated aircraft together with an escort ship (a destroyer or frigate); and a deployable air operating base (including four Tornado GR4 aircraft, and associated air-to-air refuelling, airborne early warning, and tactical air transport aircraft). From July-December 2008 the UK's contribution to the NRF will be four air defence aircraft and eight ground attack aircraft together with associated air-to-air refuelling, airborne early warning, and tactical air transport aircraft; and a mine counter measures task group (including a command ship, a destroyer/frigate escort, and a survey vessel).

Prince William

Lynne Jones: To ask the Secretary of State for Defence pursuant to the answer of 14 January 2008, *Official Report*, columns 887-8W, on Prince William, whether Prince William's training will enable his transfer to an operational commission unit for *(a)* fast jet, *(b)* multi-engine and *(c)* rotary wing aircraft. [181166]

Mr. Bob Ainsworth: HRH Prince William's attachment to the Royal Air Force is part of a wider programme of events and is designed to prepare him for his future role. It will not be possible in the time available for him to progress to an Operational Conversion Unit for fast jet, multi-engine or rotary wing aircraft before he goes on attachment to the Royal Navy.

Reserve Forces: Mental Health Services

Dr. Murrison: To ask the Secretary of State for Defence what steps his Department is taking to provide reservists with operational-related mental health problems with access to NHS healthcare. [181147]

Derek Twigg: Any reserve serviceman or woman injured when on operational deployment is entitled to and will receive the same level of medical treatment and support as their regular colleagues. This may include treatment at a military Department of Community Mental Health (DCMH) or admission to the Priory Group. They will continue to receive treatment until they are deemed to have reached a steady state of fitness. They are then demobilised, and taken through a transition from military to NHS care, if they have continuing healthcare needs.

Once demobilised, it is a long established tradition that reserve forces' medical care becomes the responsibility of their own local NHS primary care trust and the majority of veterans' physical and mental health needs are met by these provisions. However, we recognise that many health professionals may have limited experience of dealing with individuals with mental health symptoms arising from their service experience, and some reservists may be concerned that there will be only limited understanding by GPs of the context of their illness. In these specific circumstances, MOD recognises that it has an expertise to offer, and in November 2006 it launched the Reserves Mental Health Programme (RMHP).

The RMHP is open to any current or former member of the UK volunteer and regular reserves who has been demobilised since 1 January 2003 following an overseas operational deployment as a reservist, and who believes that the deployment may have adversely affected their mental health. Under the programme, we liaise with the individual's GP and offer a mental health assessment at the Reserves Training and Mobilisation Centre (RTMC) in Chilwell, Nottinghamshire. If diagnosed to have a combat-related mental health condition, we then offer out-patient treatment via one of the 15 DCMHs. If more acute cases present, the Defence Medical Services will assist in arranging for access to NHS in-patient treatment.

In conjunction with the Department of Health, we recently launched the first of a number of community mental health pilots. Each site will have a trained community veterans' mental health therapist. Veterans will be able to access this service directly or through their GP, ex-service organisations, the Veterans' Welfare Service, or Social Service departments. The pilot at the Staffordshire and Shropshire Foundation Healthcare Trust is now open. This will be followed by pilots in Camden and Islington, Cardiff, Middlesbrough, St. Austell and Scotland. If these pilots prove successful the model will be rolled out more widely across the UK.

As an interim measure, and to assist those veterans not in the catchment areas of one of the new community mental health pilots, we have expanded of our Medical Assessment Programme (MAP) based at St. Thomas' Hospital, London, to include assessment of veterans with mental health symptoms with operational service from 1982 (including veterans of the Falklands campaign).

Veterans who have recently deployed to Iraq (Operation Telic) and Afghanistan (Operation Herrick) may also attend for a full medical assessment if their Service Medical Officer or General Practitioner thinks it would help. The MAP was established in 1993 for veterans of the 1990-91 Gulf conflict and we encourage veterans worried about their health to attend. The clinician in charge also provides support and advice to GPs and other civilian health professionals requiring advice on the military aspects of treatment.

LEADER OF THE HOUSE

Departmental ICT

Susan Kramer: To ask the Leader of the House how many *(a)* male and *(b)* female members of staff in her Office were issued with personal digital assistants in each year since 2001; and if she will make a statement. [181362]

Ms Harman: Following a machinery of government change, information prior to 2006-07 is available only at disproportionate cost.

Since May 2006 two male and two female members of staff have been issued with personal digital assistants.

House Committees: Salary

Mr. Frank Field: To ask the Leader of the House which chairmen of House Committees receive a salary in addition to that of an hon. Member to reflect their role as chairman. [181568]

Ms Harman: Under the resolutions of the House of 30 October 2003 and 13 July 2005 relating to pay for chairmen of Select Committees, the chairmen of the departmental Select Committees appointed under Standing Order No. 152, together with the chairmen of the Environmental Audit, European Scrutiny, Public Accounts, Public Administration, Regulatory Reform, Administration, Finance and Services, Liaison, Procedure, Selection and Standards and Privileges Select Committees, and the chairmen of the Joint Committees on Human Rights and on Statutory Instruments, receive an additional salary in respect of their role as chairmen. A total of 31 hon. Members receive such a salary.

Under the Resolution of the House of 13 July relating to pay for chairmen of Standing Committees (now General Committees), the members of the Chairmen's Panel—in addition to the three Deputy Speakers also receive an additional (graduated) salary, unless they are already in receipt of such a salary as chairman of a Select Committee. A total of 32 hon. Members receive such a salary.

Timetabling of Bills

Mrs. Dunwoody: To ask the Leader of the House if she will commission and publish an independent assessment of the effect of programming on the passage of Government legislation, including information on *(a)* the number of Government amendments made at Third Reading in the House of Lords and *(b)* the length of time taken between introduction and enactment of Government bills (i) in the last three years and (ii) in the last three years before the introduction of programming. [180193]

Ms Harman: The effect of programming of Government legislation has been the subject of number of reports by the Modernisation and Procedure Committees of the House and therefore it is not proposed to commission an independent audit.

The total number of amendments, including Government amendments, to Government Bills at Lords Third Reading in the following Sessions were:

Session	*Number*
2006-07	80
2005-06	440
2004-05	119
2003-04	428
2002-03	540
2001-02	306
2000-01	56
1999-2000	741
1998-99	460
1997-98	412

Source:
House of Lords Public Bill Sessional Statistics

These figures are not broken down into 'Government' and 'non-Government' amendments, and it is important to remember that some amendments might have been tabled by a non-Government peer but inspired by the Government and that some amendments may have been tabled by the Government but in response to concerns raised by an MP or peer.

Information about the interval between introduction and enactment of legislation for Government Bills in previous Sessions is a matter of public record, which is contained in the Library's Sessional Information Digests available at:

http://www.publications.parliament.uk/pa/cm/cmsid.htm

WALES

Capita

Mr. Amess: To ask the Secretary of State for Wales how much was paid by his Department to Capita Group plc and its subsidiaries in each financial year since 2000; which contracts were awarded by his Department to Capita Group plc in each year from 2000-01 to the most recent available date; what the cost was of each contract; what penalties for default were imposed in contract provisions; what the length was of each contract; whether the contract was advertised; how many companies applied for the contract; how many were short-listed; what criteria were used for choosing a company; what provision was made for renewal without re-tender in each case; and if he will make a statement. [180695]

Huw Irranca-Davies: My Department has no contracts with Capita Group plc or its subsidiaries.

Departmental ICT

Dr. Cable: To ask the Secretary of State for Wales what the *(a)* start date, *(b)* original planned completion date, *(c)* current expected completion date, *(d)* planned cost and *(e)* current estimated cost is for each information technology project being undertaken by his Department; and if he will make a statement. [180578]

Huw Irranca-Davies: My Department began work, in November 2007, on the development of new English and Welsh language websites.

The original completion date for the sites was the end of December 2007, however following revisions, the new websites are due to be launched by the end of January 2008.

The planned cost of the project is £29,611.

Susan Kramer: To ask the Secretary of State for Wales how many *(a)* male and *(b)* female members of staff in his Department were issued with personal digital assistants in each year since 2001; and if he will make a statement. [181369]

Huw Irranca-Davies: My Department has not issued staff members with personal digital assistants.

Picture Financial Group

Mr. Hoban: To ask the Secretary of State for Wales what meetings he has had in a ministerial capacity with representatives of Picture Financial Group in the last 12 months; what the date of each meeting was; who was present at each meeting; and what the purpose of each meeting was. [181017]

Huw Irranca-Davies: Ministers meet many people as part of the process of policy development and advice. It is not the usual practice of Government to disclose details of such meetings.

HOME DEPARTMENT

Antisocial Behaviour: Prosecutions

Mr. Ruffley: To ask the Secretary of State for the Home Department how many prosecutions under the Anti-social Behaviour Act 2003 there have been for *(a)* noise, *(b)* graffiti and fly-posting and *(c)* waste and litter in (i) each local authority and (ii) each police authority area, broken down by basic command unit, in each region of England and Wales in each year since the introduction of the powers. [176312]

Jonathan Shaw: I have been asked to reply.

The offences in the Anti-social Behaviour Act 2003 include graffiti and fly-posting. Other offences are taken under different legislation.

The number of prosecutions taken at magistrates courts is held by the Ministry of Justice. The offence class of 'other' criminal damage includes, but cannot separately identify, offences of graffiti. Data on fly-posting offences cannot be separately identified from the data held by the Ministry of Justice.

DEFRA collects data annually from local authorities on Fixed Penalty Notices (FPNs). FPNs can be issued by local authorities for graffiti and fly-posting offences. A FPN can be offered as an alternative to prosecution but prosecution can still be taken in instances of non-payment of a FPN. Police Community Support Officers can issue FPNs if they have the relevant approval; such notices are issued on a local authority's behalf, and are incorporated into the local authority's figures. For ease of reference, nil returns have been omitted from the following tables, which include the number of prosecutions taken following non-payment of FPNs.

The House Library has been furnished with data on prosecutions and fixed penalty notices issued for other offences under the relevant legislation.

The data are also currently published online.

Firearms

Bill Wiggin: To ask the Secretary of State for the Home Department whether she plans to attend the summit on Firearms Law Reform. [181090]

Mr. Coaker: I am currently considering a letter about the proposed summit and will respond shortly to the Scottish Executive.

Forensic Science Service

John McDonnell: To ask the Secretary of State for the Home Department how many staff were employed by the Forensic Science Service in each of the last five years for which figures are available; and what staff turnover was in each such year. [173602]

Meg Hillier *[holding answer 13 December 2007]:* The Forensic Science Service has supplied the information in the following table.

	FSS headcount and staff turnover	
	Average number of staff in year	Percentage turnover (leaverslav staff x 100)
2002-03	2,729	15.57
2003-04	2,697	7.26
2004-05	2,642	7.08
2005-06	2,503	12.66
2006-07	2,431	25.05

2002-03, 2003-04, 2006-07: Annual report
2004-05, 2005-06: Performance report

Passports: Fraud

Stewart Hosie: To ask the Secretary of State for the Home Department how many fraudulent passport applications were made in the last 12 months; and how many of those applications involved *(a)* identity theft and *(b)* false declarations where the individual was otherwise entitled to a passport. [171127]

Meg Hillier: Because of the nature of fraud it is only possible to estimate the number of fraudulent passport applications the Identity and Passport Service (IPS) receives.

During the period 31 October 2005 to 30 September 2006, a sample of several thousand applications were scrutinised by specialist IPS teams with support from fraud investigators. This found that 0.25 per cent. of applications (or 16,500 cases) were believed to be from people attempting to obtain a passport fraudulently when they were not entitled to them. In a further 1.61 per cent. of applications (or 105,000 cases) there was some element of false declaration on the part of passport applicants but the identity of these individuals and their eligibility for passport services was not, otherwise in doubt.

It must be emphasised that these figures are an estimate and the result of one sampling exercise. IPS does, however, intend to undertake sampling of this type routinely and is currently engaged in a second exercise which is due to complete by April 2008.

It is because of this level of attempted fraud that IPS has introduced over recent years such measures as checking identity information against public and private sector databases and interviews for adult first time passport applicants.

Police: Forensic Science Service

John McDonnell: To ask the Secretary of State for the Home Department what obligations her Department places on police forces and authorities in relation to the procurement of forensic science services. [173598]

Meg Hillier *[holding answer 13 December 2007]:* Procurement of forensic services is a matter for individual police forces. The Home Office has placed no obligations on forces or authorities in relation to that procurement.

Terrorism: Cumbria

Tim Farron: To ask the Secretary of State for the Home Department if she will commission research to identify sites in Cumbria which may be used for illegal purposes within the meaning of the Terrorism Act 2006. [180201]

Mr. McNulty *[holding answer 21 January 2008]:* We have no plans to do so.

TRANSPORT

Dartford Tunnel: Fees and Charges

Bob Spink: To ask the Secretary of State for Transport on what basis it was decided which local areas to include in her consultation on the Dartford river crossing local discount scheme; if she will include Castle Point residents in that consultation; when the consultation will begin and end; whether the consultation will include public meetings; and how the consultation will be conducted. [179249]

Ms Rosie Winterton *[holding answer 22 January 2008]:* A consultation on a discount scheme for local residents will be announced shortly and our detailed proposals wilt be set out in that document.

We have no plans to hold public meetings but the consultation document will be widely available via our website, and we will welcome responses from all interested parties regardless of where they live.

Departmental ICT

Dr. Cable: To ask the Secretary of State for Transport what the *(a)* start date, *(b)* original planned completion date, *(c)* current expected completion date, *(d)* planned cost and *(e)* current estimated cost is for each information technology project being undertaken by her Department and its agencies; and if she will make a statement. [180575]

Jim Fitzpatrick: The Department for Transport is currently undertaking a number of IT projects to enable us to provide better services to our customers or improve the efficiency of our operations. Detailed information in the form requested is not held centrally and could be obtained only at disproportionate cost. Information on the key IT projects that are monitored and reported on centrally under the DfT's Investment Appraisal Framework is set out as follows.

Department/ Agency	Project name	Start date	Original planned completion date	Expected completion date	Originally planned costs (£ million)	Estimated costs (£ million)
DfT[1]	Shared Services Programme	April 2005	April 2009	April 2009	31	123
VOSA[2]	Commercial Customer Portal	January 2004	December 2005	January 2009	9.5	16.7
VOSA[3]	Operator Annual Test: E-Test Bookings	January 2004	December 2005	January 2009	8.4	16.8

Department/ Agency	Project name	Start date	Original planned completion date	Expected completion date	Originally planned costs (£ million)	Estimated costs (£ million)
VOSA[4, 5]	Mobile Compliance: providing mobile compliance devices to Enforcement Officers	March 2003	December 2004	March 2008	7.91	10.8
DVLA[6, 7]	Driver Licensing: Drivers Re-engineering Project (DRP) phase 2	August 2003	September 2008	December 2008	109	103.7
DVLA[8]	Smart tachograph project	July 2000	May 2002	June 2005	13.2	15.1
DVLA[9]	Vehicles System Software (VSS) Replatforming	January 2005	July 2006, but agreement made with DVO to move date to November 2006	December 2007	8.4	13
DVLA[9]	Driver Licence Upgrade (DLUP)	July 2004	June 2007	March 2008	21.8	16
DVLA[10]	Vehicle Integration Northern Ireland	August 2006	November 2008	Second half 2009	23	21.3
DVLA	Driver Licence Ten Year Renewals Phase 1	July 2007	May 2008	June 2008	13.3	13.3
DSA	Integrated Register of Driver Trainers (IRDT)	October 2003	January 2006	February 2007	1.5	3.5
HA	Traffic Control Centre: PPP service; providing co-ordinated real time information on traffic conditions across most strategic road network	August 2001	August 2011	August 2011	160 over 10 years	160 over 10 years
HA[11, 12]	Electronic Service Delivery of Abnormal Loads (ESDAL)	April 2004	August 2006 Development	June 2009 Development	8.6 Development	9.64 Development
			July 2008 Operation	June 2011 Operation	1.21 Operation	1.21 Operation

[1] Latest estimate subject to satisfactory business case for remainder of the programme.
[2] The scope of the portal project has increased since original approval to include new elements such as the adoption of sophisticated data integration and management applications.
[3] The scope of E-test bookings has increased since original approval to include a multi-channel solution.
[4] The difference in completion date is due to an increase in project scope to include fixed penalties.
[5] Original planned costs for mobile compliance did not include staff costs however, estimated costs to complete include staff costs from April 2005.
[6] The previous parliamentary answer of 16 July 2004, *Official Report*, columns 1387-88W, only relates to phase 1. The cost of £37 million with a delivery date of December 2005 was achieved within approved funding. These details have been updated to include phase 2.
[7] The estimated completion date is currently subject to change pending a current re-scoping exercise.
[8] Smart Tachograph Project—cost variation due to Tachonet implementation, increasing project scope to meet EU legislation requirements.
[9] Vehicles System Software Replatforming, Driver Licence Upgrade and slippage due to six month New System Landscape freeze with subsequent replanning activities and rescheduled release slots.
[10] Original planned completion date is subject to Business Case approval.
[11] The estimated development completion date has increased after re-evaluation of outstanding requirements and subsequent agreement of rebaselined milestone programme.
[12] The two-year fixed operational period will commence after completion of development. The change of end date for operations reflects the new programme.

Driving Tests: Personal Records

Mrs. Villiers: To ask the Secretary of State for Transport on what date Ministers in her Department were notified that a computer hard drive containing details of three million learner drivers had been mislaid by Pearson Driving Assessments. [176650]

Jim Fitzpatrick: The former Minister of State, the hon. Member for South Thanet (Dr. Ladyman) was told of the incident on 4 June 2007. The present Secretary of State was informed on 28 November 2007.

Heathrow Airport: Noise

Justine Greening: To ask the Secretary of State for Transport how many fines have been issued for breaches of aircraft following noise preferential routes at Heathrow airport in each of the last three years; and if she will make a statement. [179964]

Jim Fitzpatrick *[holding answer 17 January 2008]:* At Heathrow airport departing aircraft have to follow noise preferential routes (NPRs) until they reach 4,000 ft, or are directed off the NPRs by air traffic control for safety or efficient air traffic management reasons. These routes are designed to avoid over flight of built-up areas by departing aircraft while under 4,000 ft, wherever possible. Aircraft which deviate outside an NPR swathe (which extends approximately 1.5 km each side of a nominal centre line) while under 4,000 ft are considered to be flying off track.

The airport monitors track keeping as a noise mitigation measure. Track keeping performance is kept constantly under review and reported regularly to the Airport's Noise and Track Keeping Working Group on which local residents are represented by a number of organisations. In addition, the airport continues to work with NATS, airlines and representatives of the local community to consider whether further improvements can be made.

Since the introduction of the airport's noise and track keeping system which enabled monitoring, track keeping has improved from around 85 per cent. to around 96 per cent. Given this high level of airline performance and the fact that some of the remaining 4 per cent. is due to instances where air traffic control have directed aircraft off the NPRs, at this stage it has not proved necessary to introduce a financial penalty system.

Ice Prince

Peter Bottomley: To ask the Secretary of State for Transport what measures her Department has taken to monitor the route of the floating timber lost from the Ice Prince; what system there is for warning shipping, sailors and swimmers of additional risk; what estimate she has made of the cost of removing the timber from beaches; which organisations are responsible for meeting the clear up costs; and if she will make a statement. [181569]

Jim Fitzpatrick: Following the sinking of the Ice Prince on 15 January, the wreck site and the floating timber was under daily surveillance by MCA aircraft, and vessels in the area were requested to report sightings to the Coastguard. Navigation warnings to shipping, detailing location and heading, were then broadcast by coastguard stations along the south coast and the French Préfet Maritime. Information was also being broadcast to shipping via the Dover channel navigation information system.

Media alerts were issued by the MCA in conjunction with local authorities and police to warn members of the public of the risk of engaging in any recreational activities close to the timber.

The owners/insurers of the Ice Prince have appointed a contractor to remove the timber from the shoreline and will bear the associated costs of the clear up.

Roads: Accidents

Norman Baker: To ask the Secretary of State for Transport how many road traffic accidents occurred in each county in the UK in each of the last five years for which figures are available, broken down by the *(a)* day of the week and *(b)* time of day on which the accident occurred. [180960]

Jim Fitzpatrick *[holding answer 22 January 2008]:* Tables showing the number of reported personal injury road accidents in each county in Great Britain for 2002 to 2006 by *(a)* day of the week and *(b)* time of day on which the accident occurred have been deposited in the Libraries of the House.

Trains: Standards

Mr. Hancock: To ask the Secretary of State for Transport pursuant to the answer of 10 January 2008, *Official Report*, column 700W, on trains: standards, who undertook the study commissioned and funded by South West Trains; what the terms of reference of the study were; and if she will make a statement. [180226]

Mr. Tom Harris: The Department did not commission the report. The hon. Member should direct his queries to:

Stagecoach South Western Trains Ltd.

Floor 6, Friars Bridge Court

41- 45 Blackfriars road

London

SE1 8N2

WORK AND PENSIONS

Departmental Marketing

Mr. Hoban: To ask the Secretary of State for Work and Pensions how many posters or displays there are in the offices of his Department and its agencies displaying the names and photographs of Ministers; and what the cost has been of producing such posters or displays in the last five years. [179848]

Mrs. McGuire: When photographs of Ministers are used by DWP internal communications, they have been for organograms. Two have been produced during this period—one in 2004 which included photographs of DWP's executive team and Ministers at a cost of £1,200 and another in 2007 which included DWP's executive team and Ministers at a cost of £700. Research conducted since then has indicated a staff preference for organisation charts to be available electronically and these are now being produced by DWP internal communications at no cost to the Department.

Disability Living Allowance

Danny Alexander: To ask the Secretary of State for Work and Pensions (1) what the take-up rate of disability living allowance was for *(a)* children under 16 and *(b)* children under 18 in full-time education, broken down by (i) region and (ii) ethnicity in the last period for which figures are available; [181275]

(2) what the take-up rate of attendance allowance was amongst *(a)* children under 16 and *(b)* children under 18 in full-time education, broken down by (i) region and (ii) ethnicity in the latest period for which figures are available; [181276]

(3) what the take-up rate of disability related benefits was amongst *(a)* children under 16 and *(b)* children under 18 in full-time education, broken down by (i) benefit, (ii) region and (iii) ethnicity in the last period for which figures are available. [181277]

Mrs. McGuire: Attendance allowance provides targeted help with the extra costs of disability for people who become disabled after the age of 65. For those under 65, disability living allowance can be claimed for help with extra costs. Estimates of the take-up rate of both these disability benefits are not available.

Danny Alexander: To ask the Secretary of State for Work and Pensions what recent assessment he has made of the merits of increasing the age limit for claiming disability living allowance in line with the increase in state pension age. [181806]

Mrs. McGuire: Disability living allowance (DLA) is available to people up to age 65 who make a claim for help with their care or mobility needs. There is no need to increase the age limit for claiming DLA to take account in the increase in the state pension age for women from 2010.

Provisions for increasing the age limits for DLA and attendance allowance (AA) from 2024 were included in the Pensions Act 2007. Raising the DLA/AA age limits at the same time as each of the increases in state pension age from 2024 is a logical step to ensure that all

working age disabled people who can claim help with their disability-related costs continue to have access to the extra help provided by DLA.

National Insurance: Travelling People

Mr. Donohoe: To ask the Secretary of State for Work and Pensions how many people from the traveller community are registered with a national insurance number. [181007]

Mr. Plaskitt: The information is not available, because we do not need to know whether people are from the traveller community in order to issue a National Insurance number.

Parliamentary Questions: Government Responses

Jenny Willott: To ask the Secretary of State for Work and Pensions when he expects to reply to Question 171550, tabled on 29 November 2007 by the hon. Member for Cardiff Central for answer on 4 December; and if he will make a statement. [175558]

Mr. Mike O'Brien *[holding answer 7 January 2008]*: I replied to the hon. Member's question on 17 December 2007, *Official Report*, column 934W.

Pensions Forecasts

Danny Alexander: To ask the Secretary of State for Work and Pensions what his estimate is of the number of people that will receive pension forecasts from his Department in each year until 2050, broken down by *(a)* age and *(b)* ethnicity. [177958]

Mr. Mike O'Brien: This information is not available. Pension forecast volumes are correlated to customer demand, which makes it difficult to estimate future service usage.

We are also currently considering the role pension forecasts should play within the wider information and communication strategy that underpins and our pensions reforms.

We recognise that individuals will need access to relevant and accurate information when they are auto-enrolled, as they would in any other circumstances where they are making decisions about their retirement.

We are developing a strategy that ensures individuals are equipped with the necessary facts and understanding, so that they are able to make appropriate decisions about their retirement planning.

Pensions: Hampshire

Mr. Hoban: To ask the Secretary of State for Work and Pensions what the take up rate for pension credit was in each constituency in *(a)* Hampshire, *(b)* Portsmouth and *(c)* Southampton in each of the last three years. [181057]

Mr. Mike O'Brien *[holding answer 22 January 2008]*: Estimates of eligibility and take-up are not available below the level of Great Britain. It is not therefore possible to say what the take-up rate for pension credit is in each constituency in Hampshire, Portsmouth and Southampton.

Latest estimates of take-up rates for pension credit in Great Britain were published in the "Income Related Benefits Estimates of Take-Up in 2005/06" report. A copy of this report is available in the Library.

Social Security Benefits: Fraud

David T.C. Davies: To ask the Secretary of State for Work and Pensions how much was recovered from those successfully prosecuted by the Fraud Investigation Service in each of the last five financial years. [180978]

Mr. Plaskitt: The information is not available in the requested format.

Winter Fuel Payments

Mark Hunter: To ask the Secretary of State for Work and Pensions what recent discussions he has had with ministerial colleagues on *(a)* the adequacy of and *(b)* changing the winter fuel allowance in light of increasing fuel prices; and if he will make a statement. [181491]

Mr. Mike O'Brien: The Government keep all tax and welfare policies under review and any changes are considered as part of the normal Budget and Spending Review processes.

Mark Hunter: To ask the Secretary of State for Work and Pensions what estimate he has made of the average percentage of pensioners' energy bills that will be met by the winter fuel allowance this year. [181492]

Mr. Mike O'Brien: I refer the hon. Member to the written answer I gave the hon. Member for Inverness, Nairn, Badenoch and Strathspey (Danny Alexander) on 6 December 2007, *Official Report*, column 1512W.

Winter Fuel Payments: North West Region

Mark Hunter: To ask the Secretary of State for Work and Pensions what estimate his Department has made of the *(a)* number and *(b)* percentage of pensioner households eligible for the winter fuel allowance in (i) Cheadle Constituency, (ii) Stockport Metropolitan Borough Council and (iii) the North West. [181493]

Mr. Mike O'Brien: The information requested is not available. We can only assess eligibility for those people who are in contact with the Department and whose circumstances are known. The vast majority of winter fuel payments are made automatically without the need to claim, but those people whose circumstances we are not already aware of, for instance because they are not on state pension or other benefits administered by DWP, would need to make a claim so that their eligibility can be assessed.

The following table shows the number of winter fuel payments made to households in the Cheadle constituency, Stockport metropolitan borough council and the North West in winter 2006-07. Figures for winter 2007-08 are not yet available but we expect the numbers to be similar.

Household payments made

	Cheadle constituency	*Stockport metropolitan borough council*	*North West*
2006-07	14,960	44,480	1,027,700

Notes:
1. Figures are rounded to the nearest 10.
2. Parliamentary constituencies, metropolitan borough councils and Government office regions are assigned by matching postcodes against the relevant ONS postcode directory.
3. The figures refer only to the main payment run so they do not include the late payment series figures. We estimate that there are approximately 100,000 people in Great Britain paid in late payment runs (0.8 per cent. of all payments). Since most of the payment runs are to people who are not receiving another benefit from DWP and whose claims had not been received by the qualifying week, most are men aged 60 to 64.

Source:
Information directorate 100 per cent. data.

NORTHERN IRELAND

Crime

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many recorded rape offences in Northern Ireland, including attempted rape, led to convictions in each of the last 10 years, broken down by *(a)* age and *(b)* gender of the victims. [180631]

Paul Goggins: The information is not available in the requested format. At present Northern Ireland court proceedings and sentencing data sources do not include victim information in relation to the commission of an offence.

Table 1 shows the number of recorded rape offences (including attempted rape) from 1998-99 by age group and gender of victim while table 2 outlines the number of prosecutions and convictions for rape offences (including attempted rape) for the calendar years 1996 to 2005 (the latest available years). Court data are collated on the principal offence rule; so only the most serious offence with which an offender is charged is included.

Recorded crime data cannot be routinely reconciled with prosecution and conviction data as the former relate to the number of offences whereas the latter relate to the number of offenders brought before the courts. In addition, recorded crime data denote each offence as it has been initially recorded and this may differ from the offence for which a suspect or suspects are subsequently proceeded against in the courts.

Government are committed to improving the rates of successful prosecution in rape cases. Specialist police units, staffed by highly skilled and trained personnel, are dedicated to enhancing the service to victims of rape and sexual assault and both PSNI and the Public Prosecution Service are seeking to develop models of best investigative practice so that more offences can achieve the threshold for prosecution.

The Northern Ireland Office and the Department of Health and Social and Personal Services have also jointly developed, and consulted on, a Draft Regional Strategy for addressing Sexual Violence in Northern Ireland which will address these issues through a robust action plan delivering on strategic objectives in three key areas—crime prevention, better victim support and improved protection and justice measures. The Strategy is to be published this spring.

Table 1: Recorded rape or attempted rape offences by age and gender of victim 1997-98 to 2006-07

	Age under 18	*Age 18-64*	*Age 65+*	*Age unknown*	*All ages*

NIO Statistics and Research Branch

Demonstrations

Mr. Dodds: To ask the Secretary of State for Northern Ireland whether the Parades Commission has met the organisers of the Gay Pride parade held in Belfast on 4 August 2007. [160864]

Paul Goggins: The organiser of the 2007 Belfast Pride parade has met with the Parade Commission's Authorised Officers to review the event. A follow-up meeting between the parade organiser and the full Parades Commission is scheduled for 30 January 2008 to discuss the matter further.

Departmental Marketing

Mr. Hoban: To ask the Secretary of State for Northern Ireland what products featuring departmental or Government branding were procured by his Department in each of the last five years. [179755]

Mr. Woodward: Products featuring departmental or Government branding which were procured by the Northern Ireland Office in the last five years are listed as follows:

Delegate Packs
Back drops
Pens
Pads
Coasters
Folders
Compliment Slips
Business Cards
Name Badges
Headed Paper and
Christmas Cards.

Mr. Hoban: To ask the Secretary of State for Northern Ireland how many posters or displays there are in the offices of his Department and its agencies displaying the names and photographs of Ministers; and what the cost has been of producing such posters or displays in the last five years. [179849]

Mr. Woodward: There are no such displays in my departmental buildings.

Police: Roman Catholicism

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what he expects the percentage of Roman Catholics in the police in Northern Ireland to be by March 2008. [178320]

Paul Goggins: I am advised that as of 15 January 2008, the forecasted figure for Catholic representation of regular officers in the Police Service of Northern Ireland at the end of March 2008 is 23.97 per cent. The current Catholic composition within PSNI regulars is 23.62 per cent.

We are committed to reaching our objective of 30 per cent. Catholic composition in the PSNI regulars by 2010-11.

Prisoners Release: Foreigners

Nick Herbert: To ask the Secretary of State for Northern Ireland how many convicted foreign national prisoners were released from prisons in Northern Ireland in the last year. [179903]

Paul Goggins: The total number of convicted foreign national prisoners released from prisons in Northern Ireland between 14 January 2007 and 14 January 2008 was 122.

The following breakdown shows the reason for release.

	Number
Released Time Served (Fine defaulter)	59
Released Time Served (Sentenced prisoner)	24
Discharged at Court (Time Served on Remand)	17
Discharged at Court (Non-custodial sentence)	15
Released fine paid (Fine defaulter)	7

The details of all these prisoners were bought to the attention of the Border and Immigration Agency in line with guidance agreed between the Northern Ireland Prison Service and the Border and Immigration Agency.

Prisoners: Costs

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what the average running cost is expected to be of providing a prisoner place in Northern Ireland in 2008. [178319]

Paul Goggins: The cost per prisoner place (CPPP) target for 2008-09 is £81,500. The projected outturn for the current year is around £82,000 which is down from the outturn £90,298 in 2006-07.

The Northern Ireland Prison Service has worked hard on implementing the various strands of the three-year efficiency package and this will contribute to yielding significant financial savings that will assist NIPS in meeting the current year and CSR07 CPPP targets.

The Northern Ireland Prison Service also has under way a significant capital build programme that will create additional cellular accommodation over the term of the CSR07 period thus enabling the service to continue delivering its downward CPPP trend.

COMMUNITIES AND LOCAL GOVERNMENT

Community Relations

Mr. Paul Goodman: To ask the Secretary of State for Communities and Local Government what progress has been made by the Improvement and Development Agency on the establishment of a group of accredited peers from local government and the voluntary sector on preventing extremism. [181187]

Mr. Dhanda *[holding answer 22 January 2008]:* By early February 2008, the Improvement and Development Agency will have accredited approximately 30 peers to

work with local authorities on the Preventing Violent Extremism agenda. The peers are a mix of local politicians and cabinet members with responsibility for preventing extremism; senior local government officers; and senior members from the voluntary sector. A schedule of pilot visits to local authorities is being planned for spring 2008.

Community Relations: Religion

Mr. Paul Goodman: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Wycombe of 18 December 2007, *Official Report*, column 1304W, on community relations: religion, where the three pilots already launched are taking place; and where the two pilots due to be launched in 2008 will take place. [181880]

Mr. Dhanda: The Continuous Professional Development (CPD) programme for faith leaders is currently being piloted in four areas: Bradford, Leicester, Tower Hamlets and Sheffield. The option of a fifth pilot site was explored, but we assessed that four sites were sufficient to pilot the programme.

Council Housing: Standards

Mr. Pickles: To ask the Secretary of State for Communities and Local Government whether the proposed Office for Tenants and Social Landlords will *(a)* set targets for local authorities which have housing stock and *(b)* have power to inspect local authorities which have housing stock. [176195]

Yvette Cooper: I announced on 15 October 2007 that an independently chaired advisory panel will carry out further work with stakeholders in order that the Office for Tenants and Social Landlords should regulate local authorities' social housing management functions within two years of it commencing its' operations. Decisions on the nature of the regulatory framework will be made in due course upon consideration of the panel's recommendations.

Council Tax Benefits: Tax Rates and Bands

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many households in England have a zero liability for council tax due to 100 per cent. council tax benefit. [180157]

Mr. Plaskitt: I have been asked to reply.

As at May 2004, the most recent available figure, 3,185,000 households received full council tax benefit.

Departmental ICT

Susan Kramer: To ask the Secretary of State for Communities and Local Government how many *(a)* male and *(b)* female members of staff working in her Department were issued with personal digital assistants in each year since 2001; and if she will make a statement. [181402]

Mr. Dhanda: The information requested is not held centrally and could be provided only at disproportionate cost.

Fire Services: Floods

Mr. Laurence Robertson: To ask the Secretary of State for Communities and Local Government what charges the Fire and Rescue Service may make for pumping water out of commercial premises which have flooded; and if she will make a statement. [180524]

John Healey *[holding answer 21 January 2008]:* English Fire and Rescue Authorities (FRAs) can charge for the provision of services other than fire-fighting services under Section 19 of the Fire and Rescue Services Act 2004. This includes the provision or removal of water.

It is a matter for the individual fire and rescue authority concerned to determine its policy on costs and charges for pumping out commercial premises.

Fire Services: Planning

John McDonnell: To ask the Secretary of State for Communities and Local Government what advice has been given to fire and rescue authorities on pre-planning for major hazards and incidents since the Buncefield fire in December 2005. [180173]

Mr. Dhanda *[holding answer 21 January 2008]:* Fire and rescue authorities (FRAs) are required by the fire and rescue service national framework to have in place and maintain an integrated risk management plan (IRMP) which reflects local need and sets out plans to tackle effectively both existing and potential risks to communities. The IRMP enables the authority to tailor cover for fire and other incidents to local circumstances—evaluating where risk is greatest and allocating resource accordingly. It is a requirement that the IRMP is subject to a full consultation with the local community before it is agreed and published.

CLG has issued no specific guidance on planning for major hazards and incidents since December 2005.

Fire Services: Risk Assessment

John McDonnell: To ask the Secretary of State for Communities and Local Government what guidance has been given to fire and rescue authorities since the Buncefield fire in December 2005 on the exchange of information on risk assessments between fire and rescue authorities and other agencies. [180175]

Mr. Dhanda *[holding answer 21 January 2008]:* No advice has been issued. However, the draft fire and rescue service national framework, about which Communities and Local Government is currently consulting, would make it mandatory for each fire and rescue authority to:

have regard to the risk analyses completed by Local and Regional Resilience Forums, including those reported in external Community Risk Registers and internal risk registers

review the effectiveness of their cross-border integration arrangements with neighbouring authorities, and set these out appropriately in their integrated risk management programmes.

Furthermore, we intend to issue "good practice" guidance on the integrated risk management plan (IRMP), and the Civil Contingencies Act after the Major Incident Investigation Board has completed its work on the Buncefield fire, and the Government have produced a single consolidated response to its recommendations.

CHILDREN, SCHOOLS AND FAMILIES

Community Nurses

Mrs. Maria Miller: To ask the Secretary of State for Children, Schools and Families how many family nurse partnership (FNP) programmes are in operation; how many family nurses there are; how many and what proportion of *(a)* families and *(b)* children (i) have been provided with information on and (ii) are accessing these programmes; where the programmes are located and what criteria were used to determine these locations; what plans there are to expand the FNP programme; what targets and indicators there are for the programme; what research and evaluation is being carried out into it; when the results of that research will be published; and if he will make a statement. [180987]

Beverley Hughes *[holding answer 23 January 2008]:* There are 10 Family Nurse Partnership Pilot sites in operation in England, which began operating from March 2007 and which will be running as Pilot sites until early 2010. Across the 10 sites there are a total of 57 family nurses, including supervisors. By 4 January 2008, 1,332 mothers had been provided with information by a family nurse about the Family Nurse Partnership programme. Of these, 1,143 (85 per cent.) took up the offer of enrolment.

The Pilot sites are Barnsley, Derby City, County Durham and Darlington, Manchester, Slough, Somerset, South East Essex, Southwark, Tower Hamlets and Walsall.

The criteria used to determine these locations as suitable for the Pilot Phase of the Family Nurse Partnership are at Annex A.

The targets and indicators for sites operating the Family Nurse Partnership in England are listed as "fidelity requirements" at Annex B.

Over the 2007 Spending Review period (2008-09 to 2010-11) we will be investing £30 million to:

conduct the final year of the small scale testing phase of the Family Nurse Partnership;

increase the number of sites testing and delivering the Family Nurse Partnership intervention in England by 20 sites in 2008-09 , with the decision about possible further expansion in subsequent years being informed by evaluation outcomes from operating the first 30 sites;

conduct a research trial into the impact of the Family Nurse Partnership in England; and

support integration of the Family Nurse Partnership into the universal Child Health Promotion Programme.

An interim evaluation report of the Pilot Project's first year will be published in the spring. The final evaluation report of the Pilot is expected to be available in spring 2009, although evaluation of the second year of the pilot has not yet been commissioned. It is also intended to commission a research study to evaluate the impact of the FNP in this country.

Annex A

Criteria to determine the 10 family nurse partnership pilot sites

Criteria 1: Strong partnership working and a high degree of NHS/LA service integration

Criteria 2: Community engagement

Criteria 3: Commitment to progressive universalism in health led child and family services

Criteria 4: Workforce capacity and capability

Criteria 5: Effective local leadership

Criteria 6: Demographic profile and capacity to identify at risk families

Criteria 7: IT capacity

Criteria 8: Record of successful innovation

Criteria 9: Project implementation plan that demonstrates the capacity and capability to successfully deliver the programme to the timetable outlined in the background information

Criteria 10: Resources

Annex B

Family-Nurse Partnership Fidelity Requirements

Objectives concerning fidelity to program model

Program is reaching the intended population of low-income, first-time mothers:

1. 75 per cent. of eligible referrals are enrolled in the program

2. 100 per cent. of enrolled women are first-time mothers (no previous live birth)

3. 60 per cent. of pregnant women are enrolled by 16 weeks gestation or earlier

Program attains overall enrolment goal and recommended caseload:

4. A caseload of 25 for all full-time nurses within 8-9 months of program operation

Program successfully retains participants in program through child's second birthday:

5. Cumulative program attrition is 40 per cent. or less through the child's second birthday

6. 10 per cent. or less for pregnancy phase

7. 20 per cent. or less for infancy phase

8. 10 per cent. or less for toddler phase

Nurse home visitors maintain established frequency, length, and content of visits with families:

9. Percentage of expected visits completed is 80 per cent. or greater for pregnancy phase

10. Percentage of expected visits completed is 65 per cent. or greater for infancy phase

11. Percentage of expected visits completed is 60 per cent. or greater for toddler phase

12. On average, length of home visits with participants is = 60 minutes

13. Content of home visits reflects variation in developmental needs of participants across program phases:

	Percentage
Average time devoted to content domains during Pregnancy	
Personal Health	35-40
Environmental Health	05-07
Life Course Development	10-15
Maternal Role	23-25
Family and Friends	10-15
Average time devoted to content domains during Infancy	
Personal Health	14-20
Environmental Health	07-10
Life Course Development	10-15
Maternal Role	45-50
Family and Friends	10-15

	Percentage
Average time devoted to content domains during Toddlerhood	
Personal Health	10-15
Environmental Health	07-10
Life Course Development	18-20
Maternal Role	40-45
Family and Friends	10-15

Education: Prisons

Mr. Hurd: To ask the Secretary of State for Children, Schools and Families what steps the Government have taken to improve the quality of prison education since 2001. [176005]

Mr. Lammy: I have been asked to reply.

The transfer of responsibility for offender learning from the Home Office in 2001, to the Department for Education and Skills, now the Department for Innovation, Universities and Skills, brought the offender learning agenda within mainstream learning and skills arrangements. This led to the introduction of heads of learning and skills, a new senior role within each prison responsible for co-ordinating delivery. Offender learning is inspected by Ofsted (and its predecessors) to the same standards as mainstream education, with published reports since 2002.

Between August 2005 and August 2006, the Learning and Skills Council completed the introduction of a new offender learning and skills service. This service is designed to integrate delivery both inside and outside prisons, as well as ensuring the quality is consistent with that available in the outside community.

The new delivery arrangements are governed by the policy framework set out in the 'Reducing Re-Offending Through Skills and Employment' Next Steps document, published jointly by the then Department for Education and Skills, the Home Office, and the Department for Work and Pensions in December 2006. Many of the further changes set out in the Next Steps document are now being piloted in our two test bed regions, the West Midlands and east of England.

Geronimo Communications

Mr. Laws: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 16 January 2008, *Official Report*, column 1272W, on Geronimo Communications, what information his Department holds on any payments made by Geronimo Communications other than to departmental bank accounts; and if he will make a statement. [181123]

Kevin Brennan: DCSF has three departmental bank accounts, an HM Paymaster General bank account and two commercial bank accounts. All payments received by DCSF are credited to one of these three bank accounts. There are no records of any payments being received from Geronimo Communications and credited to any of these accounts.

Nursery Schools: Greater London

Tom Brake: To ask the Secretary of State for Children, Schools and Families how many free nursery places have been provided in London in each of the last 10 years. [180604]

Beverley Hughes: Information about the part-time equivalent number of free early education places filled by three and four-year-olds in London is shown in the table.

Part-time equivalent number of free early education places[1,2,3] filled by three and four-year-olds in London—position in January each year

	3-year-olds			*4-year-olds*		
	Maintained nursery and primary schools[4]	*Other maintained and private, voluntary and independent providers*	*Total 3-year-olds*	*Maintained nursery and primary schools[4]*	*Other maintained and private, voluntary and independent providers*	*Total 4-year-olds*
1998	42,300	n/a	42,300	n/a	n/a	[6]85,000
1999	44,900	n/a	44,900	n/a	n/a	[6]87,500
2000	46,500	[7]12,100	58,600	n/a	n/a	[6]87,000
2001	46,700	[7]20,800	67,500	n/a	n/a	[6]87,800
2002	46,900	[7]32,700	79,600	78,100	[8]13,500	89,600
2003	47,400	[7]29,400	76,800	75,000	[8]14,300	89,300
2004	46,700	[9]28,000	75,300	74,000	[10]14,000	88,000
2005	46,600	[9]30,100	76,700	73,600	[10]13,000	86,600
2006	47,700	[9]32,300	80,000	73,500	[10]13,400	86,800
2007	48,800	[9]34,800	83,600	74,200	[10]14,000	88,200

n/a = not available.
[1] A place is equal to five or more sessions and can be filled by more than one child.
[2] Figures are rounded to the nearest 100 if they exceed 1,000 and to the nearest 10 otherwise.
[3] Prior to 2002, information on early education places taken up by four-year-olds was derived from returns made by local authorities as part of the Nursery Education Grant (NEG) data collection exercise. These data do not differentiate between the maintained and private, voluntary and independent sectors.
[4] Headcount of children aged three at 31 December in the previous calendar year from the Annual Schools' Census.
[5] Headcount of children aged four at 31 December in the previous calendar year from the Annual Schools' Census.
[6] Part-time equivalent number of children aged four at 31 December in the previous calendar year from the Nursery Education Grant data collection exercise.
[7] Part-time equivalent number of children aged three at 31 December in the previous calendar year from the Nursery Education Grant data collection exercise.
[8] Part-time equivalent number of children aged four at 31 December in the previous calendar year from the Early Years Census supplementary data collection exercise and the Annual Schools' Census.
[9] Part-time equivalent number of children aged three at 31 December in the previous calendar year from the Early Years Census and the Annual Schools' Census.
[10] Part-time equivalent number of children aged four at 31 December in the previous calendar year from the Early Years Census and the Annual Schools' Census.

The latest figures on early education places for three and four-year-olds in England were published in Statistical First Release (SFR) 19/2007 "Provision for children under five years of age in England: January 2007", available on my Department's website

www.dfes.gov.uk/rsgateway/

Primary Education

Mr. Chaytor: To ask the Secretary of State for Children, Schools and Families how many year 1 pupils there were in schools in England in each of the last five years. [179310]

Jim Knight: The available information is provided in the table.

Nursery, primary, secondary and special schools[1, 2, 3]: Number (headcount) of pupils in national curriculum year group 1[4]: Position in January each year 2003 to 2007: England

	Nursery	Primary[1]	Secondary[1, 2]	Special[3]	Total[1, 2, 5]
2003[5]	0	580,620	40	3,640	584,300
2004	30	568,050	30	3,340	571,440
2005	10	563,970	160	2,960	567,100
2006	10	544,110	210	3,010	547,340
2007	10	533,200	270	2,830	536,320

[1] Includes middle schools as deemed.
[2] Includes maintained secondary schools, city technology colleges and academies.
[3] Includes maintained and non maintained special schools. Excludes general hospital schools.
[4] Excludes dually registered pupils.
[5] Figure provided for secondary schools in 2003 excludes anomalous national curriculum year group data reported by one school.
Note:
Numbers have been rounded to the nearest 10.

Special Educational Needs: Greater Manchester

Mark Hunter: To ask the Secretary of State for Children, Schools and Families how much was spent on children with *(a)* special educational needs and *(b)* dyslexia in (i) Cheadle constituency and (ii) Stockport metropolitan borough council area in each of the last five years. [180073]

Kevin Brennan *[holding answer 21 January 2008]:* The information requested is submitted to the Department according to local authority areas, rather than districts within an area. Cheadle is a district of Stockport Local authority. The information for Stockport LA about the amount spent on children with special educational needs is as follows:

Budgeted net expenditure on the provision of education for children with special educational needs by Stockport local authority: 2003-04 to 2007-08

	£
2003-04	14,181,000
2004-05	17,038,000
2005-06	20,558,000
2006-07	20,963,000
2007-08	20,941,000

The Department does not collect separate figures on how much was spent on children with dyslexia.

CULTURE, MEDIA AND SPORT

Archaeology

Mr. Gray: To ask the Secretary of State for Culture, Media and Sport what plans he has for the long-term future of the Portable Antiquities Scheme; and if he will make a statement. [180100]

Margaret Hodge: The Portable Antiquities Scheme (PAS) is funded by the Museums, Libraries and Archives Council (MLA) and so any decisions on its future funding will be taken by the MLA. In recognition of the importance of the scheme, I am very pleased to be able to confirm that the MLA has announced that it intends to maintain current levels of support for the PAS in 2008-09. The MLA will consider options for future funding of the PAS in the context of its priorities for museum collections and public participation.

The PAS is of national importance and the MLA is committed to seeing it thrive and evolve. The MLA will continue to work with the British Museum and other stakeholders to build on the scheme's success in advancing archaeological knowledge—for finders, museums and, most importantly, the wider public.

Arts: Peterborough

Mr. Stewart Jackson: To ask the Secretary of State for Culture, Media and Sport if he will place in Library all correspondence between his Department and the East of England Development Agency on funding of arts projects in Peterborough in the last 12 months. [181132]

Margaret Hodge *[holding answer 22 January 2008]:* My Department has no record of any such correspondence.

Capita

Mr. Amess: To ask the Secretary of State for Culture, Media and Sport how much was paid by his Department to Capita Group plc and its subsidiaries in each financial year since 2000; which contracts were awarded by his Department to Capita Group plc in each year from 2000-01 to the most recent available date; what the cost was of each contract; what penalties for default were imposed in contract provisions; what the length was of each contract; whether the contract was advertised; how many companies applied for the contract; how many were short-listed; what criteria were used for choosing a company; what provision was made for renewal without re-tender in each case; and if he will make a statement. [180703]

Mr. Sutcliffe: The information that is currently held is listed as follows. Some of the records are not available or are held centrally by other Government Departments.

Question:

How much was paid to Capita Group and its subsidiaries in each financial year since 2000?

Answer:

	£
2000-01	69,350
2001-02	95,139
2002-03	7,862
2003-04	9,854
2004-05	7,540
2005-06	102,855
2006-07	428,464
2007-08	470,913

Question:

Which contracts were awarded by DCMS to Capita since 2000-01?

Answer:

2001—Framework Agreement to support quinquennial reviews of non-departmental public bodies.

2007—Air Ticket Booking Service

Question:

What the cost was of each contract?

Answer:

Quinquennial Reviews—£49,000

Air Ticket service—£23,000 to date

Question:

What penalties for default were imposed in contract provisions?

Answer:

None.

Question:

What the length was of each contract?

Answer:

Quinquennial Reviews—five years

Air Ticket service—four years

Question:

Whether the contract was advertised?

Answer:

Quinquennial Reviews—Yes. *Official Journal* of European Union advert issued.

Air Ticket Service—Yes. *Official Journal* of European Union advert issued by OGC Buying Solutions.

Question:

How many companies applied for the contract?

Answer:

Quinquennial Reviews—24 companies applied.

Air Ticket service—three companies applied.

Question:

How many were short-listed?

Answer:

Quinquennial Reviews—10 companies short-listed.

Air Ticket service—three companies short-listed.

Question:

What criteria were used for choosing a company?

Answer:

Quinquennial Reviews—Knowledge and Experience, Relevant Skills, Quality Management, Theme Based Expertise, References.

Air Ticket service—Ability to provide the service to agreed standards, implementation plan of service, Quality Assurance Plans, Experience of personnel to be involved within contract, Evidence of existing customer satisfaction and service provision, Contingency planning.

Question:

What provision was made for renewal without re-tender in each case?

Answer:

None.

Departmental-Email

Mr. Jenkins: To ask the Secretary of State for Culture, Media and Sport if he will take steps to reduce the number of hard copies of e-mails printed by officials in his Department. [179473]

Mr. Sutcliffe: My Department is already taking steps to reduce the unnecessary printing of e-mails. My Department has introduced multifunctional printing devices which allow double-sided printing as default. Staff are encouraged as part of the environmental management system to conserve paper by reducing the amount of printing generally. My Department is also introducing an electronic content management system which means that e-mails will no longer need to be printed for the Department's formal record.

Departmental Property

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport how much his Department has spent on leasing property in each of the last three years. [181094]

Mr. Sutcliffe: The Department has spent the following on leasing property in the last three financial years.

			£
	2004-05	*2005-06*	*2006-07*
2-4 Cockspur Street	4,913,005.16	4,922,663.00	4,720,321.25
Grove House, Orange Street	596,312.52	596,312.52	596,312.52
Oceanic House, Cockspur Street	573,400.00	573,400.00	578,688.00
Queens Yard, Tottenham Court Road	497,667.61	552,250.00	552,250.00
Blandford Street	n/a	93,695.00	93,695.00
Total	6,580,385.20	6,738,320.50	6,541,275.70

n/a =Not applicable

Gambling: Licensing

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport (1) how many *(a)* operating licences, *(b)* premises licences and *(c)* personal licences the Gambling Commission withdrew in each year since October 2005; [181052]

(2) how many applications for *(a)* operating, *(b)* premises and *(c)* personal licences the Gambling Commission received in each year since 2005; [181392]

(3) how many applications for *(a)* operating, *(b)* premises and *(c)* personal licences the Gambling Commission declined in each year since 2005. [181393]

Mr. Sutcliffe: The table shows the number of applications for operating and personal licences that were received by the Gambling Commission under the Gambling Act 2005 (the 2005 Act) and their equivalents under the previous legislation, the Gaming Act 1968 (the 1968 Act). It also shows numbers of applications which were withdrawn by applicants or declined by the Gambling Commission, and licences and certificates revoked by the Gambling Commission.

Information relating to the application for society lottery registrations under the Lotteries and Amusements Act 1976 is not included in the table.

The figures for the 1968 Act relate to each financial year listed and those for the 2005 Act to the calendar year of 2007. Applications for operating and personal licences under the 2005 Act could be received from January 2007, prior to the Act coming fully into force on 1 September 2007.

Figures for premises licences under the 2005 Act are not yet available. Licensing authorities are responsible for considering and issuing gambling premises licences under the 2005 Act. They are expected to send their first annual returns to the Gambling Commission by the end of January 2008.

2006-07	228	367	209	183	43

Political Impartiality

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport what the declared party political affiliations are of members of the boards of *(a)* the National Lottery distributors, *(b)* non-departmental public bodies and *(c)* agencies within the responsibilities of his Department. [181142][1]

Mr. Sutcliffe: In accordance with the Code of Practice of the Office of the Commissioner for Public Appointments, board members are required to declare details of political activity and are asked to include the name of the political party they have been active for. Applicants are not required to provide details of party political membership or affiliation but may do so if they choose.

Of currently serving board members for DCMS bodies, 47 board members in total have made a political activity declaration. Of these, eight are from a lottery distributor; 39 from a non-departmental sponsored body and none from departmental agencies.

In terms of political activity this can be further broken down as follows: Of the eight lottery distributor board members who made a declaration: seven were active for the Labour party and one declared political activity independent of a political party. Of the 39 non-departmental sponsored body board members who made a declaration, 11 were active for the Conservative party, 23 for the Labour party, 3 for the Liberal Democrats and two declared politically independent activity.

Public Libraries: Closures

Sarah Teather: To ask the Secretary of State for Culture, Media and Sport how many public libraries have closed in England in each of the last 10 years. [180386]

Margaret Hodge: This information is not held centrally. However, the Public Library Statistics, published annually by the Chartered Institute of Public Finance and Accountancy (CIPFA), contain data establishing the total number of public library service points open for more than 10 hours per week. The House of Commons Library holds copies for the period in question.

1. *[Official Report, 7 February 2008; Vol. 471, c. 7MC.]*

Sports: Finance

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 13 November 2007, *Official Report*, column 1006-07, on sports: finance, how much funding in each year was provided from *(a)* his departmental budget and *(b)* Lottery funding. [176815]

Mr. Sutcliffe: The figures in the table represent the actual spend (or 'outturn') on sport, from 1997-2000, as set out in the Department's published appropriation accounts, and for 2001-06 in the Department's resource accounts. Details of the 2007-08 allocation for sport as at the winter supplementary estimate can be found in central Government supply estimate 2007-08, winter supplementary estimates (HC29).

Departmental outturn

	£ million
1997-98	50.1
1998-99	49.4
1999-2000	51.6
2000-01	52.6
2001-02	63.9
2002-03	109.8
2003-04	78.9
2004-05	111.5
2005-06	117.5
2006-07	169.5
2007-08[1]	187.4

Lottery funding for England

	£ million
1997-98	153
1998-99	357
1999-2000	251
2000-01	232
2001-02	309
2002-03	313
2003-04	261
2004-05	232
2005-06	400
2006-07	296
2007-08[2]	227

[1] Plans figures as at winter supplementary estimate
[2] Projected income figure

Sports: Health Education

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport how much *(a)* his Department and *(b)* Sport England have spent on providing information on sports and fitness facilities to the NHS Choices website. [181394]

Mr. Sutcliffe *[holding answer 23 January 2008]*: Neither DCMS nor Sport England has spent any funds on providing information on sports and fitness facilities to the NHS Choices website beyond the staff time incurred to do so. The data are provided from the Active Places dataset.

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport how often Sport England are required to provide updated information on sports and fitness facilities for inclusion on the NHS Choices website. [181395]

Mr. Sutcliffe *[holding answer 23 January 2008]*: Sport England provides updated information on sports and fitness facilities for inclusion on the NHS Choices website upon request, otherwise every six weeks.

Sports: Schools

Mr. Hoban: To ask the Secretary of State for Culture, Media and Sport (1) what the expected annual salary is of a competition manager in school sport partnerships; [179062]

(2) how much has been spent on training competition managers in each year since 1997. [179063]

Mr. Sutcliffe: The National School Sport Strategy was launched in 2002. Initial funding focused on the school sport partnership infrastructure of partnership development managers, school sport coordinators and primary link teachers. Funding for competition managers began in 2005.

Grants, based on the number of competition managers and senior competition managers allocated to county areas, are passed to the host organisation, for example a school sport partnership.

The current grants envisage a salary of up to £30,000 for competition managers and £40,000 for senior competition managers, as well as up to £1,000 for professional development. However, it is for the host organisation to decide upon the precise salary, and training allocation. The Department does not hold this information centrally.

As part of their work, the Youth Sport Trust is also funded to provide central support and resources for the development of competition managers.

There are currently 90 competition managers in post comprising 67 competition managers and 23 senior competition managers.

DUCHY OF LANCASTER

Admiralty House

Mr. Pickles: To ask the Chancellor of the Duchy of Lancaster for how many months each vacant ministerial residence in Admiralty House has been unoccupied; and if he will consider renting out such properties to individuals other than Ministers. [176506]

Gillian Merron: I refer the hon. Member to my answer of 17 December 2007, *Official Report*, column 1080W. The Admiralty House flats are an integral part of the Cabinet Office estate. A change in their use would therefore not be appropriate.

Christmas

Mr. Philip Hammond: To ask the Chancellor of the Duchy of Lancaster how much his Department and its agencies have spent on Christmas *(a)* cards, *(b)* parties and *(c)* decorations in each of the last five years. [171433]

Mr. Burns: To ask the Chancellor of the Duchy of Lancaster (1) how much his Department spent on *(a)* Christmas cards and *(b)* postage of Christmas cards in 2007; [176906]

(2) how much *(a)* his Department and *(b)* the Minister for the Olympics spent on (i) Christmas cards and (ii) postage of Christmas cards in 2007. [176913]

Gillian Merron: For information on Christmas cards sent in 2003 and 2004, I refer the hon. Member to the answer given to the right hon. Member for Haltemprice and Howden (David Davis) by my right hon. Friend the Member for South Shields (David Miliband) on 10 January 2005, *Official Report*, column 82W. In 2005, the Department spent £2,816 on Christmas cards, 40 per cent. of which was donated to charity. For 2006 and 2007, the Cabinet Office has used an on-line e-card at no additional cost to the Department. The cost of any Christmas cards sent by the Department is not held centrally and could be obtained only at disproportionate cost.

No departmental funds have been used for staff Christmas parties.

Christmas trees are situated at certain points on the Cabinet Office Estate, which includes 10 Downing street, such as in the reception of the main buildings and at the front door of 10 Downing street. The following costs include the purchase, decoration and environmentally friendly disposal of the trees. The cost in each of the last five years was £13,294 (2006), £12,968 (2005), £13,159 (2004), £8,399 (2003) and approximately £5,151 (2002).

Departmental Manpower

Mr. Hoban: To ask the Chancellor of the Duchy of Lancaster (1) how many *(a)* civil servants and *(b)* special advisers are employed in each salary band in his Office; [180473]

(2) how many appointments of *(a)* civil servants and *(b)* special advisers in each salary band have been made to his Office in each month since 27 June 2007. [180472]

Gillian Merron: As of 1 April 2007, the number of full-time equivalent civil servants by salary band in the Cabinet Office is as follows:

Band	Total
SCS	223.56
A	350.64
B2	383.23
B1	296.41
C	224.13
Ungraded	1.2
Total	1,479.17

Between 1 April and 30 December, the size of the Department has reduced from 1,479 to 1,340.

On numbers of appointments, the Department generally has a high level of turnover compared to other Government Departments, because there are significant numbers of staff on fixed term appointments, on loan from other Government Departments or on secondment from external organisations, bringing in people with relevant skills/expertise to work on current priorities. There were 476 appointments in 2006-07.

The number of full-time equivalent civil servants in each band, appointed to the Cabinet Office each month since 27 June 2007 is as follows:

	Start month							
Band	June	July	Aug	Sept	Oct	Nov	Dec	Total
SCS	4	4.83	1	1	4	3.59	0	18.42
A	3	9.58	9	5.78	13	7	5	52.36
B2	1	9	5	11	6	6	2	40
B1	1	12	3	5	6	4	4.83	35.83
C	0	3	1	4	8	10	3	29
Total	9	38.41	19	26.78	37	30.59	14.83	175.61

Since 2003, the Government have published details on special adviser names, numbers and costs in an annual written ministerial statement. For the most recent information I refer the hon. Member to the statement made by my right hon. Friend, the Prime Minister on 22 November 2007, *Official Report*, 147-50WS.

Departmental Responsibilities

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster what his role is with regard to *(a)* the operation of the political office at 10 Downing street, *(b)* the development of Government policy, *(c)* responding to day-to-day events and *(d)* forward-planning of Government announcements; whether that role has changed in the last 12 months; and if he will make a statement. [181232]

Edward Miliband: My ministerial responsibilities are set out in the List of Ministerial Responsibilities which is available in the Libraries of the House and on the Cabinet Office website at

http://www.cabinetoffice.gov.uk/ministerial_responsibilities.aspx.

Departmental Standards

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster what assessment the Cabinet Office has made of whether *(a)* the Prime Minister's Office and *(b)* the Cabinet Office have met the Departmental Strategic Objective of ensuring the highest standards of propriety and integrity in public life. [181309]

Edward Miliband: The Government are committed to upholding the highest standards of propriety and integrity in public life as set out in the Ministerial Code, the Civil Service Code, the Code of Conduct for Special Advisers and the seven principles of public life. Maintenance of these standards is scrutinised by Parliament including the Public Administration Select Committee and other bodies including the Committee on Standards in Public Life.

Electronic Mail

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster what guidance he has issued to his Department's *(a)* staff and *(b)* special advisers on the use of non-government e-mail accounts for official purposes. [174812]

Gillian Merron: The Cabinet Office has a protective security policy, in which the controls and procedures apply to all staff, including special advisers.

Government Departments: Correspondence

Mr. Horam: To ask the Chancellor of the Duchy of Lancaster what guidelines he has provided to Government Departments on responding to letters and e-mails from members of the public on *(a)* acknowledging receipt of the correspondence and *(b)* the time allowed for a substantive answer to be sent. [181137]

Gillian Merron: I refer the hon. Member to the answer given to him by my right hon. Friend the Chancellor of the Duchy of Lancaster on 17 December 2007, *Official Report*, column 1081W.

PRIME MINISTER

10 Downing Street: Smith Institute

Mr. Hoban: To ask the Prime Minister on how many occasions since 27 June 2007 *(a)* the Smith Institute and *(b)* SI Events Ltd have used facilities at No. 10 Downing street. [180242]

The Prime Minister: Information on official and charity receptions held at Downing street will be published in the usual way following the end of the financial year.

Christmas

Mr. Philip Hammond: To ask the Prime Minister how much his Office has spent on Christmas *(a)* cards, *(b)* parties and *(c)* decorations in each of the last five years. [171428]

The Prime Minister: In 2006 my predecessor (the right hon. Tony Blair) sent approximately 1,700 official Christmas cards at a cost of £460. For previous years I refer the hon. Member to the answers given by my predecessor on 19 December 2002, *Official Report*, column 936W; 20 December 2004, *Official Report*, columns 1350-1W and 30 January 2006, *Official Report*, column 63W.

For parties and decorations I refer to the hon. Member to the answer given by my hon. Friend the Parliamentary Secretary for the Cabinet Office (Gillian Merron) today.

Departmental Manpower

Mr. Maude: To ask the Prime Minister how many staff are employed by his Office. [181282]

The Prime Minister: I refer the hon. Member to the answer I gave the hon. Member for Epsom and Ewell (Chris Grayling) and the hon. Member for Fareham (Mr. Hoban) on 15 October 2007, *Official Report*, column 819W.

Departments: Ministerial Policy Advisers

Mr. Maude: To ask the Prime Minister pursuant to the answer of 30 October 2007, *Official Report*, column 1076W, on Departments: ministerial policy advisers, whether Mr Bob Shrum provides him with potential consultancy, speech-writing or related advice, in relation to his official duties. [181226]

The Prime Minister: I have nothing further to add to the answer given by my right hon. Friend the Minister for the Cabinet Office (Edward Miliband) on 30 October 2007, *Official Report*, column 1076W.

Manpower: Prime Minister's Office

Mr. Hoban: To ask the Prime Minister pursuant to the answer of 29 October 2007, *Official Report*, column 625W, on manpower: Prime Minister's Office, how many staff hours were spent on average on speechwriting in his Office in each week of the last month. [179643]

The Prime Minister: I have nothing further to add to the answer I gave the hon. Member on 29 October 2007, *Official Report*, column 615W.

Ministerial Policy Advisers

Mr. Binley: To ask the Prime Minister what the terms and conditions of Mr Stephen Carter's employment as Chief of Strategy and principal adviser are; and what rules apply to the retention of interests in outside bodies by special advisers. [180560]

The Prime Minister: I refer the hon. Member to the press notice issued by my Office on 7 January 2007, copies are available on the No. 10 website at:

http://www.number-10.gov.uk/output/Page14174.asp

A copy of this webpage has been placed in the Library of the House.

Special advisers are appointed under the terms and conditions set out in the Model Contract and Code of Conduct for Special Advisers, copies of which are in the Library of the House.

Ministers: Official Gifts

Mr. Hayes: To ask the Prime Minister when the rules governing gifts received by Ministers and registered as part of the Donated Asset Reserve were last updated. [180122]

The Prime Minister: The arrangements for the handling of gifts are set out in chapter 7 of the Ministerial Code which was issued in July 2007.

Mr. Hayes: To ask the Prime Minister how much depreciation has taken place of items held in the Donated Asset Reserve over the last 12 months. [180314]

The Prime Minister: I refer the hon. Member to the answer given to him by my predecessor (the right hon. Tony Blair) on 4 December 2006, *Official Report*, column 151W.

Official Visits

David T.C. Davies: To ask the Prime Minister on how many occasions he has visited (*a*) Wales, (*b*) Scotland, (*c*) Liverpool and (*d*) London since his appointment. [180981]

The Prime Minister: A list of my UK visits will be published in the usual way following the end of the financial year.

Pay

Mr. Jeremy Browne: To ask the Prime Minister what the Prime Minister's salary was in each of the last 10 years. [181900]

The Prime Minister: This is a matter of public record and is available in the Libraries of the House.

Prime Minister: India

Jeremy Corbyn: To ask the Prime Minister what discussions he held during his recent visit to India on discrimination by caste and descent in that country. [181567]

The Prime Minister: During my visit, I announced a new UK three-year development programme of £825 million. This will support the health and education sectors, with a particular focus on bringing education to a greater proportion of Indians, regardless of caste. In addition, I took part in an event on women's empowerment where I discussed among other issues the impact of caste and discrimination in Indian society.

Special Advisers

Mr. Gauke: To ask the Prime Minister what obligations there are on special advisers to (*a*) divest and (*b*) declare financial interests held prior to appointment; and if he will make a statement. [181517]

The Prime Minister: Special advisers are appointed under the terms and conditions set out in the Model Contract and Code of Conduct for Special Advisers, copies of which are in the Library of the House.

INNOVATION, UNIVERSITIES AND SKILLS

Education: Trade Unions

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills how many trained union learning representatives there were in each year for which figures are available. [178940]

Mr. Lammy: Union learning representatives (ULRs) are lay union representatives, whose main function is to advise union members about their training, educational and development needs. Since the launch of the Union Learning Fund (ULF) in 1998, and the introduction of statutory rights for ULRs to train and carry out their duties in 2003, more than 18,000 have been trained helping more than 400,000 people into learning.

Both employers and workers stand to benefit from ULRs. They are an inexpensive source of expert advice for employers. They are particularly effective in reaching workers with basic skills needs—people who may be reluctant to take advantage of training opportunities. In that sense, ULRs help to stimulate a demand for learning and training among a group which employers find it hard to reach.

Rounded figures for trained ULRs since April 1999 are as follows:

As at April each year	*Number*
1999	700
2000	1,600
2001	3,000
2002	4,700
2003	6,700
2004	10,300
2005	14,000
2006	16,000
2007	18,000

Overseas Students: Finance

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills further to his letter of 7 September 2007 to the Chairman of the Higher Education Funding Council for England, whether a UK resident or citizen with a qualification from an overseas institution deemed to be equivalent to or lower than a qualification which they wish to study will qualify for public funding for higher education courses in English institutions where they have not previously accessed public funding for higher education within the UK. [177292]

Bill Rammell: Subject to exceptions for particular categories of students and subjects on which HEFCE has been consulting, such citizens who wished to study for a qualification equivalent to or lower than the one already obtained from an overseas' institution would not qualify for the purposes of institutional public funding. Our clear priority is to widen participation and increase the incentives for higher education providers to attract and retain more of the millions of people without a first higher education qualification, wherever that qualification was obtained.

Union Learning Fund

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills pursuant to the answer of 12 December 2007, *Official Report*, columns 754-55W, on Union Learning Fund, by what means trained union learning representatives help workers back into learning under the Union Learning Fund. [178341]

Mr. Lammy: Union learning representatives (ULRs) are lay union representatives; whose main function is to advise union members about their training, educational and development needs. Since the launch of the Union Learning Fund (ULF) in 1998, and the introduction of statutory rights for ULRs to train and carry out their duties in 2003, more than 18,000 ULRs have been trained. Latest figures show that last year they helped over 150,000 workers into learning through a wide variety of ULF projects.

ULRs are trained to an approved standard by Unionlearn, the TUC's learning organisation, or their own union to carry out their role in engaging, supporting and helping workers back into learning. This training provides the ULRs with a wide range of skills to help fellow workers back into learning including:

starting conversations at work about the importance of learning and showing that everyone can benefit from improving their skills;

carrying out informal group and one to one interviews in the workplace to find out the learning needs of workers, how these can best be addressed, including where and when;

carrying out Skills for Life screening to identify any literacy or numeracy needs in a relaxed non threatening way to allay any fears individuals may have;

working closely with training providers to customise the content of learning programmes and arranging how and when the learning can be delivered on a flexible basis to enable the widest participation;

supporting learners who may have missed a few sessions of learning and encouraging them to continue by helping to address any needs which may have arisen;

working with employers to set up a learning centre in the workplace.

These are just some of the ways in which ULRs can help workers into learning, but perhaps most important is their ability to engage with those hard to reach learners who might otherwise be too embarrassed to admit their learning needs to an employer or supervisor but who trust a fellow worker who understands their point of view. In that sense, ULRs help to stimulate a demand for learning and training among a group which employers and training providers find it so difficult to reach.

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills how many education or training places were funded through the Union Learning Fund in each year since 1998; and how many of these led to qualifications at level (*a*) 2 and (*b*) 3. [178575]

Mr. Lammy: The Union Learning Fund (ULF) is a source of funding to help trade unions boost their capacity as learning organisations and use their influence with employers, employees and learning providers to encourage greater take up of learning in the workplace. It is not used to fund the provision of training courses but enables trade unions and their union learning

representatives to provide advice, guidance and support in order to help workers access learning opportunities to improve their skill levels.

With the help of ULF, trade unions and their union learning representatives have been really successful in working with employers to help people get back into learning, tackling both organisational and individual skill needs. There are now over 18,000 trained union learning representatives who have helped over 400,000 workers back into learning since the fund was introduced in 1998 there were over 150,000 last year alone, many of whom were Skills for Life learners, those most in need of new skills who employers and training providers find it so difficult to reach.

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills what the 10 most expensive projects funded under the Union Learning Fund were in each year since 1998; and how much each cost. [178582]

Mr. Lammy: Trade unions have a key role to play in promoting the development of learning and skills in the workplace. To help them do this more effectively we introduced the Union Learning Fund (ULF) in 1998. This source of funding is helping trade unions use their influence with employers, employees and training providers to encourage greater take up of learning at work and boost their own capacity as learning organisations. The 10 projects that were awarded the most funding through the ULF in each financial year since 1998 are set out in the following tables identified by the lead union.

Mr. Hoban: To ask the Secretary of State for Innovation, Universities and Skills how much was paid under the Union Learning Fund to *(a)* ASLEF, *(b)* BECTU, *(c)* BFAWU, *(d)* Community, *(e)* CWU, *(f)* GMB, *(g)* MU, *(h)* NACODS, *(i)* NUM, *(j)* TSSA, *(k)* UCATT, *(l)* UNISON, *(m)* UNITE, *(n)* UNITY and *(o)* USDAW in each year since 1998. [178577]

Mr. Lammy: Trade unions have a key role to play in promoting the development of learning and skills in the workplace. To help them do this more effectively, we introduced the Union Learning Fund (ULF) in 1998. This funding is helping trade unions use their influence with employees, employers and training providers to encourage greater take-up of learning at work and boost their own capacity as learning organisations. The table sets out how much ULF funding has been awarded to the specific unions in each financial year from 1998/99 up to 2006/07.

Union	1998/99	1999/2000	2000/01	2001/02	2002/03	2003/04	2004/05	2005/06	£ 2006/07

The recently formed trade union UNITE has not yet received any ULF funding so details have been included of the funding awarded to those unions which have merged to form UNITE—AMICUS, T and G, GPMU, AEEU, MSF and UNIFI.

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Complaints

Mr. MacNeil: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what procedures his Department has in place to assess the performance of designated representative bodies under the Enterprise Act 2002. [181202]

Mr. Thomas: In order to become a designated super-complainant, bodies must meet a number of stringent criteria. Designations are reviewed every two years to ensure continued compliance. There are also procedures in place for withdrawal of designation if a body no longer meets the criteria or if they are believed to be abusing the super-complaints process (e.g. for competitive advantage or commercial gain). Any super-complainant must also comply with the Office of Fair Trading's 'Guidance for designated consumer bodies'.

Mr. MacNeil: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what best practice guidance his Department has issued to representative bodies designated under the Enterprise Act 2002 on communication with consumers who have sought advice on obtaining redress under the Act. [181203]

Mr. Thomas: In the case of super-complaints, the Secretary of State has responsibility for the designation of super-complaints bodies. Best practice guidance on the making of super-complaints is the responsibility of the Office of Fair Trading.

In the case of consumer group claims, the Secretary of State is responsible for the designation of specified bodies. Guidance on bringing consumer group claims is the responsibility of the Competition Appeal Tribunal.

Departmental Accountancy

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what items of his Department's *(a)* revenue and *(b)* expenditure are uprated using (i) the consumer prices index, (ii) the retail prices index and (iii) other measures of inflation. [179941]

Mr. Thomas: Where relevant, contracts which BERR has entered into will contain a clause to adjust expenditure and revenue in accordance with inflation. Revenue derived from charges or fees will follow appropriate guidance, and is subject to an inflator where this is recommended by the fees and charges guide.

Statutory redundancy payments and guaranteed insolvency payments for employees' (paid from the National Insurance Fund), employment tribunal compensatory awards, payments to British Energy relating to contractual historic spent fuel liabilities, and payments in respect of Coal Health provisions are uprated using RPI. Concessionary Fuel payments are uprated using other measures of inflation.

Departmental Consultants

Sarah Teather: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what consultancy contracts his Department issued in each year since 2005; what the *(a)* value, *(b)* purpose and *(c)* contractor was in each case; and whether the consultant's report is publicly available in each case. [181891]

Mr. Thomas: I refer the hon. Member to the answer I gave to the hon. Member for Fareham (Mr. Hoban) published on 10 December 2007, *Official Report*, column 203W.

Departmental ICT

Susan Kramer: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many *(a)* male and *(b)* female members of staff working in his Department were issued with personal digital assistants in each year since 2001; and if he will make a statement. [181401]

Mr. Thomas: The Department does not keep historic records of the number of personal digital assistants (PDA's) that were issued to staff or any information on the gender of the user as PDA's are issued solely on the basis of business need.

Between 2001 and 2006 there were approximately 400 PDAs in use. These were mainly palm devices although a few HP and Compaq PDAs were purchased. The total has reduced as the number of staff in the Department has decreased. At the beginning of 2007 a Blackberry service was implemented. By January 2008 there were 361 PDAs issued to staff. An analysis of this number shows that 235 of these have been issued to male and 126 to female members of staff.

Departmental Marketing

Mr. Hoban: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many posters or displays there are in the offices of his Department and its agencies displaying the names and photographs of Ministers; and what the cost has been of producing such posters or displays in the last five years. [179838]

Mr. Thomas: We have one display board in the reception area of BERR's headquarters at 1 Victoria street, London, bearing the names and photographs of its Ministers, the Permanent Secretary and his team. We cannot identify the specific cost of producing this board, as it was produced as part of a wider re-branding exercise. We have produced around 320 A3 colour posters showing the ministerial team in the current year. These have been produced in-house at negligible cost. It is not possible to provide costs for display boards or posters for previous years without incurring disproportionate costs.

The Insolvency Service has no pictures or displays featuring Ministers in any of their buildings.

Companies House and UK Trade and Investment have no records of producing posters or displays for their offices with the names and photographs of Ministers in the last five years.

Departmental Special Advisers

Mrs. May: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what he expects the estimated annual cost to be of *(a)* expenses, *(b)* salary, *(c)* office space, *(d)* administrative support and *(e)* special advisers for Lord Jones of Birmingham in his capacity as Minister of State. [163488]

Mr. Hutton: Lord Jones is Minister of State for Trade and Investment jointly with the Foreign and Commonwealth Office and draws the ministerial salary appropriate to a Lords Minister of State.

There are three full-time equivalent staff directly employed to support Lord Jones. Two members of the administrative support staff are paid for by BERR, the other is paid for by the FCO. Information on the cost of Lord Jones' support staff cannot be provided as to do so could identify an individual's salary, which is confidential between the individual and the employer.

Office costs will be accounted for in the 2007-08 departmental annual report and accounts.

Lord Jones has no special advisers.

Employment: Discrimination

Danny Alexander: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many cases of age discrimination have been brought before the Advisory Conciliation and Arbitration Service and found in favour of the employee in cases where discrimination took place against an employee for being too *(a)* young and *(b)* old in each of the last 10 years. [177967]

Mr. McFadden: Complaints of alleged age discrimination under the Employment Equality (Age) Regulations 2006, which came into operation on 1 October 2006, are made to the Employment Tribunal Service, not ACAS. Such complaints are then usually passed to ACAS for conciliation.

In the period 1 October 2006-31 December 2007, ACAS received 2,750 cases for conciliation in which a complaint of age discrimination was one of the matters, or the sole matter, complained of. Without a detailed examination of the grounds of each claim, it is not possible to say what proportion of these claims alleged the claimant had been discriminated against on the basis of their being too young or too old, or were related to some other matter.

Over the same period, excluding those claims which were struck out, ACAS operational records indicate that a resolution was brokered in 90 per cent. of cleared cases in which one of the matters, or the sole matter, complained of was age discrimination. Where cases are not resolved in conciliation, they are subsequently heard by the Tribunal Service.

First Solution Money Transfer: Insolvency

Harry Cohen: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether the insolvency service investigation into First Solution Money Transfer Limited has concluded. [181914]

Mr. McFadden: On 6 July 2007 companies investigation branch ('CIB') (which is part of the Insolvency Service), appointed investigators following the sudden closure and apparent collapse of First Solution Money Transfer Ltd. A number of clients reported having lost money that was sent through this company destined for dependant family overseas.

On 2 August 2007 CIB petitioned the court to wind up the company and appoint the official receiver as provisional liquidator to protect and preserve the assets. On 21 November 2007 a winding up order was made and the official receiver was appointed liquidator of the company. As a result of a meeting of creditors held on 19 December 2007 an external liquidator from Tenon Recovery was appointed and that firm will now deal with the realisation of assets and distributions to creditors. The official receiver has a further statutory role, to investigate the causes of the company's failure, and to report to the Secretary of State regarding the conduct of the directors in respect of the company's trading, under the terms of the Company Directors Disqualification Act 1986. Furthermore, the official receiver is under a duty to report any evidence of criminality to an appropriate prosecuting body.

Meanwhile the CIB appointed investigators are continuing their work and CIB are hopeful of receiving the investigators' final report in the near future and decisions can then be made on further action. It would be inappropriate to issue progress reports in the meantime. CIB's investigation under the Companies Act benefits from the use of compulsory powers, but the Act only permits disclosure of the investigators' report through a statutory gateway. In particular there is no provision which allows publication of the report.

Multinational Companies

Mr. Moore: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many staff in his Department are working to promote the Organisation for Economic Co-operation and Development's guidelines for multinational enterprises; and if he will make a statement. [181740]

Mr. Thomas: The UK's National Contact Point (NCR) for the OECD Guidelines is currently managed by officials from the Department for Business, Enterprise and Regulatory Reform (BERR), the Department for International Development (DFID) and the Foreign and Commonwealth Office. BERR dedicate one full-time official to working on the NCP and are in the process of recruiting a second, while the Foreign Office and DFID both currently contribute 20 per cent. of one official's time.

Natural Gas: Distribution

Mark Williams: To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) how many households in each *(a)* region and *(b)* local authority do not have access to mains gas; and if he will make a statement; [181069]

(2) what percentage of homes are within 100 yards of a mains gas supply, broken down by *(a)* region and *(b)* local authority. [181070]

Malcolm Wicks: As part of its regional and local energy statistics publication programme, BERR has published the number of domestic gas meter points in each local authority in Great Britain. A document listing the estimates comparing the number of domestic meter points with the estimates of the number of households in each region and local authority for 2004 (the latest year for which both sets of data are complete) has been placed in the Libraries of the House. Corresponding data are not available for Northern Ireland.

The Government do not hold information about the proximity of homes to gas mains.

Overseas Trade: Far East

Mr. Hague: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what conclusions have been reached on the scope for raising the UK's trade profile in *(a)* Malaysia, *(b)* Qatar, *(c)* Singapore, *(d)* South Korea, *(e)* Thailand and *(f)* Vietnam, as set out in the July 2006 five year strategy on prosperity in a changing world; and if he will make a statement. [180815]

Mr. Thomas: As outlined in UK Trade and Investment's (UKTI) five year strategy, "Prosperity in a Changing World", we have deployed our overseas network resource to achieve a step change in the UK's profile in emerging markets. To date, the following additional resources (UK-based civil servants and local engaged (LE) officers) have already been deployed or are planned for the following countries in question:

Market	*New resource deployed*	*New resource planned*
Malaysia	One UK-based	—
Qatar	One UK-based and two LE	—
Singapore	One UK-based	—
South Korea	—	—
Thailand	One UK-based	—
Vietnam	One UK-based	One LE

Post Office: Finance

Keith Vaz: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the budget was for the running of Post Office Ltd. in *(a)* 2007, *(b)* 2006 and *(c)* 2005; and what it is expected to be in 2008. [181279]

Mr. McFadden: This is an operational matter for Post Office Ltd. (POL). I have therefore asked Alan Cook, Managing Director of POL, to reply direct to the right hon. Member.

Copies of the letter will be placed in the Libraries of the House.

Post Offices: Closures

Mr. Weir: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what discussions were held with the Post Office on the timing of the issue of recommendations on post office closures prior to the announcement of dates by the Post Office; on what date he was made aware by the Post Office of the proposed dates for publication of proposals for post office closures under the various area plans; and on what date he first discussed the question of purdah with the Post Office. [175662]

Mr. McFadden: Following publication in May 2007 of the Government's response to the public consultation on the Post Office network, my officials have engaged in regular discussions with Post Office Ltd. on the timetable for post office closures, including purdah.

Supercomplainer Procedures

Mr. MacNeil: To ask the Secretary of State for Business, Enterprise and Regulatory Reform on how many occasions each of the designated representative bodies under the Enterprise Act 2002 have used the supercomplainer procedures. [181200]

Mr. Thomas: *Which?* has made five super-complaints to the Office of Fair Trading—private dentistry, care homes, Northern Ireland banking, credit card interest calculation methods, and the Scottish Legal Profession. Citizens Advice has made two—doorstep selling and payment protection insurance. Postwatch has made one super-complaint, on mail consolidation and the National Consumer Council has made one, on home collected credit. Energywatch has made one complaint—on billing processes—to Ofgem in its (Ofgem's) capacity as a concurrent regulator.

Telephone Services

Julia Goldsworthy: To ask the Secretary of State for Business, Enterprise and Regulatory Reform which of his Department's *(a)* agencies and *(b)* non-departmental public bodies collect and monitor information relating to telephone contact centres. [175725]

Mr. Thomas: The Department's central records do not contain the information to answer this question. Therefore, the Department for Business, Enterprise and Regulatory Reform could answer this question only at disproportionate cost.

Trade Unions: Finance

Mr. Maude: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what guidance *(a)* his Department and *(b)* the Certification Officer have produced on whether the fixed costs of (a) photocopiers and (b) other equipment may be fully charged to the general fund of a trade union in circumstances where that equipment is used for political purposes. [181283]

Mr. McFadden: Neither the Department nor the Certification Officer has produced guidance on this issue.

UK Trade and Investment

Mr. Clifton-Brown: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many significant interventions UK Trade and Investment are expected to make in 2008. [180262]

Mr. Thomas: UK Trade and Investment's 2007 comprehensive spending review settlement set high level targets for UKTI. These include annual targets for high value foreign direct investment successes; helping businesses to exploit overseas business opportunities; and increasing the quantity of R and D in the UK through business internationalisation. The targets are set out in full in UKTI's 2007 autumn performance report (Cm 7284, December 2007). Business plans are being put in place to deliver these targets.

Mr. Hague: To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) what changes have been made to the overseas network of UK Trade and Industry to deliver the increase in the UK profile in *(a)* China, *(b)* India, *(c)* Brazil, *(d)* Indonesia, *(e)* Mexico, *(f)* Russia, *(g)* Saudi Arabia, *(h)* South Africa, *(i)* Turkey and *(j)* the United Arab Emirates as set out in the July 2005 five year strategy on prosperity in a changing world; and if he will make a statement; [180817]

(2) in which countries in UK Trade and Industry's overseas network staff reallocations took place in the financial years *(a)* 2006-07 and *(b)* 2007-08 to date; what further reallocations are planned in (i) 2007-08 and (ii) 2008-09; and if he will list these changes. [180813]

Mr. Thomas: As part of UK Trade and Investment's (UKTI) Strategy, "Prosperity in a Changing World", £5.6 million of resources has been redeployed to help achieve a step change in the UK's profile in emerging markets. As a direct result of this exercise, UKTI staff resources (full-time equivalents (FTEs) of UK based civil servants and locally employed staff (local)) have now been reinforced in the following markets, which include China, India, Brazil, Indonesia, Mexico, Russia, Saudi Arabia, South Africa, Turkey and the UAE:

2006-07 market	*FTE UK-based*	*FTE local*
Brazil	3	—
China	2	2
Hong Kong	—	1

2006-07 market	FTE UK-based	FTE local
India	2	—
Malaysia	1	—
Mexico	—	—
Qatar	1	2
Russia	—	1
Saudi Arabia	—	1
South Africa	1	—
Total	10	7

2007-08 market	FTE UK-based	FTE LE
Brazil	3	1
China	7	5
Hong Kong	1	3

UK Trade and Investment: Arms Trade

Mr. Hague: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what effect the transfer of responsibility for defence trade promotion from the Defence Export Services Organisation to UK Trade and Investment (UKTI) will have on the number of *(a)* UK and *(b)* overseas staff employed by UKTI; and if he will make a statement. [180807]

Mr. Thomas: UKTI is not an employer in its own right. For the majority of its civil service manpower requirements it draws on staff employed by one or other of its two parent Departments—BERR and the FCO.

The transfer of responsibility for defence export support from the Defence Export Services Organisation (DESO) to UK Trade and Investment (UKTI) will result in approximately 240 full-time equivalent (FTE) posts being transferred to BERR/FCO. Of these, approximately 200 are in the UK and 40 overseas. The precise figures will be determined following detailed analysis of DESO's structure and staffing currently being undertaken as work on the transfer proceeds.

Of the UK posts, approximately 50 are filled by military staff who will transfer on loan to UKTI/BERR. The remaining approximately 150 UK-based civilian posts will be filled by staff on a combination of permanent and loan transfer terms from MOD to UKTI/BERR. The transfer will increase UKTI's UK presence from just under 900 to just under 1,100 FTEs (a figure that includes both UKTI's headquarters operation and its teams in the nine English regions).

Of the overseas civilian posts which will transfer to UKTI/FCO, approximately 20 are filled by UK based staff and 20 by locally engaged staff. The transfer will increase UKTI's overseas presence from approximately 1,250 to just under 1,300 FTEs.

UK Trade and Investment: Manpower

Mr. Hague: To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many of UK Trade and Investment's overseas staff are provided by *(a)* his Department and *(b)* the Foreign and Commonwealth Office; and if he will make a statement. [180811]

Mr. Thomas: UKTI is not an employer in its own right. For the majority of its civil service manpower requirements it draws on staff employed by one or other of its two parent Departments—BERR and the FCO.

The current full-time equivalent (FTE) number of staff working overseas for UK Trade and Investment is approximately 1,250. Of these, 200 FTE positions are filled by UK civil servants, with the remaining 1,050 FTE positions filled by staff recruited locally by the relevant overseas post. Approximately 85 of the UK civil servants positions are filled by BERR members of staff, on loan to the Foreign and Commonwealth Office. The remainder (115) of these are filled by FCO employees.

Mr. Hague: To ask the Secretary of State for Business, Enterprise and Regulatory Reform which countries have seen an *(a)* increase and *(b)* decrease in UK Trade and Investment staff in the context of the July 2006 five year strategy on prosperity in a changing world; and if he will make a statement. [180812]

Mr. Thomas: In the context of the UKTI's five-year strategy, "Prosperity in a Changing World", the following countries have seen changes to staff deployment:

Increases

Brazil
China
Hong Kong
India
Indonesia
Malaysia
Mexico
Qatar

Russia
Saudi Arabia
Singapore
South Africa
Taiwan
Thailand
Turkey
Vietnam
Decreases
Australia
Canada
Czech Republic
Denmark
Estonia
Finland
France
Germany
Ghana
Greece
Japan
Kuwait
Latvia
Lithuania
Malta
Nigeria
Poland
Slovakia
Spain
Sweden
Trinidad and Tobago
Uganda
US
Uruguay

An increase in staff resources in Dubai will take place later this year.

Weatherseal Holdings: Complaints

Mr. MacNeil: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what consideration he has given to applying the provisions of Part 8 of the Enterprise Act 2002 in response to the volume of consumer complaints generated by Weatherseal Holdings plc and its subsidiaries. [181176]

Mr. Thomas *[holding answer 23 January 2008]:* The Secretary of State does not have powers to apply the provisions of Part 8 of the Enterprise Act 2002. Part 8 is enforced by Trading Standards, the Office of Fair Trading and in Northern Ireland the Department of Enterprise, Trade and Investment. If an enforcer such as Trading Standards receives sufficient complaints or intelligence about a trader they may consider action under the Act.

Weatherseal Holdings: Standards

Mr. MacNeil: To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment his Department has made of Weatherseal Holdings plc's and its subsidiaries' compliance with the consumer credit legislation. [181177]

Mr. Thomas *[holding answer 23 January 2008]:* None. This would be a matter for the Office of Fair Trading.

FOREIGN AND COMMONWEALTH OFFICE

British Council: Film

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the decision of the British Council to close its dedicated film office; what cost savings he expects to be made accordingly; and what evaluation was carried out into the impact of this decision on the effectiveness of the British Council to communicate its key messages abroad. [180126]

Mr. Jim Murphy: The British Council has a dedicated film department as part of its wider arts group. The British Council arts group is currently undergoing internal restructuring and will be undertaking a public consultation on a new arts strategy. Finalised decisions have not yet been taken on the future of this department. Expertise in film will be retained at its current level and may be increased thereby demonstrating the British Council's commitment to its film activity.

The British Council anticipates no change to their global arts budget as a result of this restructuring. As film expertise will remain a substantial part of any new structure, no formal evaluation was undertaken.

Christmas

Mr. Burns: To ask the Secretary of State for Foreign and Commonwealth Affairs how much Ministers in his Department spent on *(a)* Christmas cards and *(b)* the postage of Christmas cards in 2007. [180513]

Meg Munn *[holding answer of 23 January 2008]:* Foreign and Commonwealth Office Ministers sent a total of 474 cards in 2007. The cost of the cards came to £493.50, with postage of £76.34. The majority of these cards were delivered using the internal mail system.

Climate Change

Mr. Greg Knight: To ask the Secretary of State for Foreign and Commonwealth Affairs how many departmental *(a)* Ministers, *(b)* civil servants and *(c)* consultants, contractors or secondees working full-time or part-time for his Department attended the United Nations Climate Change Conference in Bali. [179195]

Meg Munn *[holding answer 16 January 2008]:* 10 Foreign and Commonwealth Office officials attended some or all of the 13th Conference of the Parties to the UN Framework Convention on Climate Change in Bali, Indonesia. Seven of these staff are normally based in Jakarta, including our ambassador to Indonesia, Charles Humfrey, and three are normally based in London, including my right hon. Friend the Foreign Secretary's Special Representative for Climate Change, John Ashton.

Democratic Republic of Congo: Armed Conflict

Lyn Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received on the plans of the Government of the

Democratic Republic of Congo to expel the Lord's Resistance Army from the east of the Democratic Republic of Congo; what assessment he has made of such plans; and if he will make a statement. [179484]

Meg Munn: The Governments of Uganda, the Democratic Republic of the Congo, Rwanda and Burundi signed an agreement to co-operate on the threat of 'negative forces' in September 2007. I welcome this as a sign that illegal armed groups will not be allowed to operate in the region. The Lord's Resistance Army is engaged in a process of peace talks with the Government of Uganda, which we support. I have received no reports to suggest that the Government of the Democratic Republic of the Congo will intervene, while negotiations between the Government of Uganda and the Lord's Resistance Army continue.

Departmental Databases

Mrs. Villiers: To ask the Secretary of State for Foreign and Commonwealth Affairs what audits his Department and its agencies have carried out in relation to personal data and IT equipment in each of the last 10 years. [176480]

Meg Munn: The Foreign and Commonwealth Office's (FCO) main IT system, Firecrest, is accredited to handle classified information in accordance with Government security policies. As such it is subject to constant monitoring, but it would not be in the public interest to disclose in detail the methods used.

Personal data have been included within our usual information audits of individual Departments, which measure performance against FCO information management policies. Until now, personal data have not been subject to separate central audit. We are, however, reviewing our procedures as part of the Government's data handling review, see paragraph 29 of the Interim Progress Report available at:

http://www.cabinetoffice.gov.uk/upload/assets/www.cabinetoffice.gov.uk/publications/reports/data/data_handling.pdf.

Departmental Public Finance

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will break down his Department's planned near cash funding by strategic objective for financial years 2008-09 to 2010-11. [179193]

Meg Munn: The Foreign and Commonwealth Office is a complex organisation whose structures in the UK and overseas reflect a mix of geographical and functional responsibilities. Staff costs account for approximately 55 per cent. of departmental discretionary near-cash expenditure. I refer the hon. Member to my reply of 15 January 2008, *Official Report*, column 1140W: the vast majority of Foreign and Commonwealth Office staff work on more than one strategic objective. It is therefore not possible to provide a full answer on the basis requested. Nevertheless the following table setting out planned expenditure on strategic programme activities for the next three years illustrates the priority being accorded to work in the four areas highlighted in the written ministerial statement made by my right hon. Friend the Foreign Secretary on 23 January 2008, *Official Report*, columns 52-53 WS.

	£ million (near-cash)		
	2008-09	*2009-10*	*2010-11*
Counter Terrorism/Counter Proliferation	35.30	41.00	56.00
Low Carbon/High Growth Economy	13.70	19.70	24.70
Strong International System	9.35	9.35	9.35
Conflict Prevention and Resolution	19.30	19.30	19.30

Departmental Redundancy

Mr. Hoban: To ask the Secretary of State for Foreign and Commonwealth Affairs what the cost was of redundancies in his Department in the 12 months preceding *(a)* 30 June 2004, *(b)* 30 June 2005 and *(c)* 30 June 2006. [175336]

Meg Munn: It is the policy of the Foreign and Commonwealth Office (FCO) to do all we can to avoid compulsory redundancies. But, following the 2004 spending review, we have carried out a restructuring exercise to realise efficiency savings. This early retirement programme will enable us to reduce the size of the senior management structure in the FCO by 18 per cent. by 31 March 2008. The following totals also include compensatory early retirement packages for staff in the delegated grades involved in restructuring exercises:

	Total (£)
12 months preceding 30 June 2004	3,217,003
12 months preceding 30 June 2005	10,901,738
12 months preceding 30 June 2006	16,189,129

The amounts quoted include FCO costs to the Cabinet Office to cover the additional years included in compensatory packages, compensatory lump sums under the Principle Civil Service Pension Scheme and annual pension payments until the officer reaches 60.

All payments to early retirees have been calculated and paid in strict accordance with the terms of the standard Civil Service Compensation Schemes.

Embassies

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 10 December 2007, *Official Report*, column 158W, on embassies, if he will list the *(a)* (i) name, (ii) location and (iii) function of the (A) seven embassies, (B) four embassy offices, (C) one office and (D) six consulates opened since 1997 and *(b)* three consulates upgraded to embassies. [181049]

David Miliband: The missions referred to in my answer to the right hon. Member on 10 December 2007, *Official Report*, column 158W are as follows:

	Post name	*Country*	*Status*
Posts opened			
2000-01	Tripoli	Libya	British Embassy
2001-02	Kabul	Afghanistan	British Embassy
2001-02	Pyongyang	Democratic Peoples Republic of Korea	British Embassy

	Post name	*Country*	*Status*
2001-02	Dushanbe	Tajikistan	British Embassy
2002-03	Chisinau	Moldova	British Embassy
2002-03	Dili[1]	East Timor	British Embassy
2004-05	Baghdad	Iraq	British Embassy
1997-98	BanjaLuka	Bosnia and Herzegovina	British Embassy Office
2004-05	Basra	Iraq	British Embassy Office
2004-05	Kirkuk	Iraq	British Embassy Office
2006-07	Almaty[2]	Kazakhstan	British Embassy Office
1999-2000	Pristina	Kosovo (Serbia)	British Office
1999-2000	Chongqing	China	British Consulate General
1999-2000	Gothenburg	Sweden	British Consulate General
2000-01	Conakry	Guinea	British Consulate
2000-01	Bamako[1]	Mali	British Consulate
2000-01	Port-au-Prince	Haiti	British Consulate
2000-01	Denver	USA	British Consulate
Posts upgraded to embassies			
2001-02	Asmara	Eritrea	British Embassy
2001-02	Bamako[1]	Mali	British Embassy
2002-03	Conakry	Guinea	British Embassy

[1] Posts opened and closed during this period.
[2] Office left in place after embassy relocation to Astana.
Note:
Year—April to March

The size and role of British embassies and high commissions differ from post to post, but most are comprised of the following Sections: Consular, Visa, Commercial, Political/Press and Public Affairs, and Management. A British embassy office is a subsidiary of the embassy.

Consulates and Consulate Generals are subordinate posts which carry out a range of functions mainly comprising of Consular, Commercial and Visa work.

The British Office in Pristina is responsible for managing the UK's relationships with the UN Mission in Kosovo, the Provisional Institutions of Self-government and other local actors.

The Foreign and Commonwealth Office continues to manage our overseas network to reflect changing demands and challenges, ensuring that our resources are aligned with our priorities, and that the UK has a cost-effective and flexible network of overseas representation. We will continue to adjust our estate assets in individual countries to meet our operational needs.

Gaza: Politics and Government

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent meetings he has held with the government of Israel on the humanitarian situation in Gaza. [181566]

Dr. Howells: Our ambassador in Tel Aviv regularly raises our concerns with the Israeli government about the security and humanitarian situation in Gaza. My right hon. Friends the Foreign Secretary and the Secretary of State for International Development issued statements about the situation in Gaza on 30 October 2007, 11 January 2008 and 21 January 2008.

Most recently, I raised these concerns with the Israeli ambassador on 17 January 2008. My right hon. Friend the Foreign Secretary is due to speak to Foreign Minister Livni today, and will again make clear our concerns.

John Cummings: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made, together with European Union member states' foreign ministers, to Israel on the situation in Gaza; and if he will make a statement. [182420]

Dr. Howells: My right hon. Friend the Foreign Secretary will be discussing the situation with his European colleagues at the EU General Affairs and External Relations Council on 28 January.

The Government continues to believe that Israeli security and Palestinian suffering and hardship need to be addressed together, and they can only be addressed through mutual recognition, which will be vital to long-term stability in the area.

As my right hon. Friends the Foreign Secretary and Secretary of State for International Development said on 21 January:

"The recent escalation of violence between Gazans and Israelis is extremely grave".

Our ambassador in Tel Aviv regularly raises our concerns with the Israeli government about the security and humanitarian situation in Gaza.

My right hon. Friends the Foreign Secretary and Secretary of State for International Development also issued statements about the situation in Gaza on 30 October 2007, 11 January 2008 and 21 January 2008.

Most recently, I raised the situation in Gaza with the Israeli ambassador on 17 January 2008.

Middle East: Diplomatic Service

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs with reference to his Sunday Times article of 6 January 2008, what his estimate is of the cost of transferring staff from Europe to the Middle East and South Asia. [179192]

Meg Munn: I refer the hon. Member to my right hon. Friend the Foreign Secretary's written ministerial statement of 23 January 2008, *Official Report*, columns 52-3WS.

Detailed plans for the transfer of staff resources from Europe to the Middle East and South Asia are still at an early stage. We will not be in a position to estimate costs until we have finalised timings and confirmed all the specific changes that we will need to make.

Thomas Dandois

Mr. MacShane: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what representations he has received on the detention of Thomas Dandois, a joint British-French national in Niger; [179477]

(2) if he will discuss the case of Thomas Dandois, currently detained in Niger, with the Foreign Minister of France; [179479]

(3) if he will make representations to the Government of Niger requesting the release of Thomas Dandois. [179480]

Meg Munn: Mr. Dandois and his French colleague were released from prison on bail on 18 January. There were no travel restrictions placed upon them as a condition of their bail and they have returned to France. The judgment on their case will take place at a later date.

Mr. Dandois is a dual French-British national who entered Niger on his French passport. He and his colleague were given consular assistance by the French embassy in Niger. The Government worked with the French embassy, through their representatives in Niamey, and with the French Foreign Ministry to clarify the status of the charges against Mr. Dandois. We will continue to liaise with the French Government and monitor the case.

We have received one previous parliamentary question, fourteen representations from hon. Members and a Peer and a number of letters from members of the public on this case.

JUSTICE

Departmental Recruitment

Mr. Hoban: To ask the Secretary of State for Justice whether the policy of British jobs for British workers will affect his Department's recruitment policy. [179882]

Bridget Prentice: The Ministry of Justice will continue to apply the civil service nationality rules in respect of eligibility for employment in their recruitment and appointment procedures.

Elections: Fraud

Mr. Hoban: To ask the Secretary of State for Justice whether his Department has *(a)* commissioned and *(b)* evaluated research on the effectiveness in preventing electoral fraud of requiring electors in polling stations to sign for their ballot paper. [181003]

Bridget Prentice: Seven local authorities undertook electoral pilot schemes that required electors to provide their signature before being issued with their ballot papers in polling stations at the May 2006 local elections. Four local authorities did so at the May 2007 local elections.

The Government have not commissioned research on this issue. However, in its statutory evaluation of the pilot schemes the Electoral Commission noted that public opinion research carried out in the pilot scheme areas suggested that requiring voters to provide a signature may provide a deterrent effect in relation to personation.

The Government continues to believe that requiring electors to sign for their ballot paper will help to deter opportunists from defrauding the system and improve levels of public confidence.

Harassment Act 1997

Dan Rogerson: To ask the Secretary of State for Justice how many *(a)* investigations and *(b)* prosecutions there were under the Harassment Act 1997 in each year since the Act came into force. [181572]

Maria Eagle: Information covering defendants proceeded against under the Protection from Harassment Act 1997 since the act came into force on 16 July 1997 has been provided in the table. Data are provided on the principal offence basis and cover the period from 1997 to 2006 in England and Wales.

	Number proceeded against
1997	780
1998	6,194
1999	7,934
2000	8,631
2001	8,331
2002	8,335
2003	8,434
2004	8,501
2005	8,425
2006	8,101

Information on investigations is not held by the Ministry of Justice.

Langley House Trust

Mr. Garnier: To ask the Secretary of State for Justice what the terms of the service level agreement with the Langley House Trust are for the provision of secure beds for persons supervised in the community; and when the contract was let. [181213]

Maria Eagle: The National Offender Management Service has a service level agreement (SLA) with the Langley House Trust, under which the trust is funded to provide two enhanced supervision beds at its Longcroft project for offenders assessed as high risk of serious harm on release from custody who are also identified as having mental health problems.

The National Offender Management Service has a second SLA with the trust, under which the trust is funded to provide accommodation in the community for offenders who are subject to statutory supervision by offender managers in probation boards. The level of supervision required for each offender is determined by the offender manager, taking into account the facilities at each trust project.

The current SLAs commenced on 1 April 2007 and will run until 31 March 2008.

Mr. Garnier: To ask the Secretary of State for Justice how many people in Langley House Trust accommodation have *(a)* absconded, *(b)* breached the conditions of their curfew and *(c)* breached the hostels' rules in another way in each year of the contract. [181214]

Maria Eagle: Figures for residents whose places are funded by the National Offender Management Service under the SLAs are not recorded separately; the figures below are for the whole of the trust resident population. The proportion of trust residents under the SLAs during 2007-08 was around a third.

In 2007-08, *(a)* five trust residents absconded, and *(b)* 46 breached the conditions of their curfew, including three who had absconded. While all breaches of hostel rules, including minor ones such as use of bad language, are recorded in individual residents' files, overall numbers are not compiled—*(c)*. However, where breaches of rules lead to a resident's eviction or recall to prison, that is recorded. In 2007-08, 99 residents were evicted, of whom 40 were recalled to prison.

One resident under the enhanced supervision SLA absconded during 2007-08. None breached curfew, and as explained above, there are no available records of other rule breaches.

Mr. Garnier: To ask the Secretary of State for Justice whether he is intending to review the contract with the Langley House Trust for the provision of secure accommodation places. [181216]

Maria Eagle: Yes. The current service level agreements with the Langley House Trust came into effect on 1 April 2007 and will expire on 31 March 2008. We will review the position in light of our operational requirements before deciding whether to renew the arrangements and, if so, on what terms.

Mr. Garnier: To ask the Secretary of State for Justice how performance against the contract with the Langley House Trust is monitored. [181217]

Maria Eagle: The trust provides a monthly return as set out in the service level agreements (SLAs), covering various matters, such as the admission and departure of offenders, breaches and convictions for further offences. Officials use the monthly returns to monitor the trust's performance against the SLA, including through regular meetings during the year with the Trust's Director of Offender Management Additionally, under the terms of the enhanced supervision SLA, the trust is required to complete a brief progress report on each resident and a departure report following the end of the placement.

An annual report on performance is also to be submitted. The trust is to co-operate with inspections and audits, internal and external as required and attend meetings as convened by the Public Protection Unit in the National Offender Management Service as is reasonable. The Ministry of Justice is currently carrying out an audit of the public protection processes in the trust.

Mr. Garnier: To ask the Secretary of State for Justice whether there have been breaches of the terms of the contract with the Langley House Trust since it was let. [181218]

Maria Eagle: The National Offender Management Service is aware of two breaches of the service level agreements (SLAs) since they were let. There has been one breach of the main SLA which was in respect of the performance standards audit, which was not finalised by the deadline, but is being finalised now.

Under the terms of the enhanced supervision SLA, the National Offender Management Service is aware of one occasion where checks were not made on a resident as frequently as was requested by the local multi-agency public protection panel.

Legal Aid

Dr. Stoate: To ask the Secretary of State for Justice how many legal aid representation orders have been granted by magistrates courts in each month since the re-introduction of means testing for legal aid in 2006. [181014]

Maria Eagle: The following table shows the information requested. The numbers of orders reported as being granted each month are subject to minor adjustments as cases are processed and progress through the system.

	Representation orders granted
October 2006	34,254
November 2006	44,281
December 2006	34,815
January 2007	47,842
February 2007	43,790
March 2007	46,849
April 2007	43,153
May 2007	47,501
June 2007	47,063
July 2007	47,974
August 2007	47,272
September 2007	43,198
October 2007	48,573
November 2007	45,686
December 2007	33,968

Dr. Kumar: To ask the Secretary of State for Justice what the cost of legal aid in the UK was in each of the last 10 years. [179600]

Maria Eagle: The cost of legal aid in England and Wales and in Northern Ireland for each of the last 10 financial years is shown in the following table. Responsibility for legal aid in Scotland is devolved and is therefore a matter for the Scottish Parliament.

£ million net

	1997-98	*1998-99*	*1999-2000*	*2000-01*	*2001-02*	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*
England and Wales	1,529.6	1,628.1	1,550.1	1,663.7	1,717.0	1,908.5	2,076.7	2,038.0	2,027.8	1,980.3
Northern Ireland	28.9	30.1	34.7	37.7	41.5	45.0	49.9	58.9	57.5	69.0
Total	1,558	1,658	1,585	1,701	1,759	1,954	2,127	2,097	2,085	2,049

Legal Aid: Expenditure

Dr. Stoate: To ask the Secretary of State for Justice how much was spent on legal aid in each of the last 10 years *(a)* in cash terms and *(b)* as a proportion of annual total public expenditure. [181012]

Maria Eagle: Table 1 as follows shows legal aid cash expenditure in each of the last 10 years. Table 2 as follows shows that expenditure for both England and Wales and for Northern Ireland as a proportion of total managed expenditure. Legal aid in Scotland is a devolved matter, funded out of the Scottish block grant which also forms part of total managed expenditure.

When compared to other main domestic areas of public spending, legal aid has been one of the fastest growing areas of public sector spending over the past years. For example, the average annual real-terms growth of legal aid over the past 25 years to 2006-07 was 5.7 per cent. This compares with 4.4 per cent. for social care and protection; 4.2 per cent. for public order and safety; 4.1 per cent. for health and 1.9 per cent. for education.

Table 1

£ million, net

	England and Wales	*Northern Ireland*	*Total*
1997-98	1529.6	28.9	1,558

2005-06	0.39	0.01	0.40
2006-07	0.36	0.01	0.37

Legal Aid: Fees and Charges

Dr. Stoate: To ask the Secretary of State for Justice what assessment his Department has made of the impact of the new legal aid fee scheme on the number of legal practices undertaking criminal legal aid work. [181013]

Maria Eagle: Reforms to criminal legal aid were introduced on 14 January 2008 and included the introduction of fixed fees for police station work. Prior to the introduction of these reforms a national re-tender of the General Criminal Contract, which provides access to legal aid work for providers, took place in October last year.

Of those firms that already held a contract, 2,295 re-tendered, while a further 90 applications were received from new providers. In total there has been a reduction of only 5 per cent. in the number of providers delivering Criminal Legal Aid work under the new contract, which also came into effect on 14 January. This has had no impact on the accessibility of legal advice to clients in criminal legal aid cases.

Legal Services Commission: Fees and Charges

Anne Milton: To ask the Secretary of State for Justice how much money the Legal Services Commission has received by way of *(a)* recovered costs and *(b)* interest on statutory charges in each year since 1997. [180507]

Maria Eagle: The information requested is shown in the following table. Data for the years 1997-98 to 1999-2000 relate to the former Legal Aid Board, which was replaced by the Legal Services Commission in 2000. The reduction in recovered costs was due to the removal of money cases such as personal injury from scope in 2000 following the introduction of conditional fee arrangements in 1995.

£000

Financial year	*1997-98*	*1998-99*	*1999-2000*	*2000-01*	*2001-02*	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*

Members: Correspondence

James Brokenshire: To ask the Secretary of State for Justice when he will reply to the letter of 22 November 2007 from the hon. Member for Hornchurch on a new prison at Beam Reach, Rainham. [181781]

Mr. Hanson: I replied to the hon. Member on 16 January 2008.

Ministry of Justice

Mr. Garnier: To ask the Secretary of State for Justice when he will publish the Brennan report on the structure of his Department. [181224]

Mr. Straw: I refer the hon. Member to my reply to the hon. Member for Arundel and South Downs (Nick Herbert) on 15 January 2008, *Official Report*, column 1206W.

National Offender Management Information System

Mr. Garnier: To ask the Secretary of State for Justice what the cost to date of developing the C-NOMIS IT system for prisons and probation in England and Wales has been. [181219]

Mr. Hanson: The total expenditure on the NOMIS Programme, of which C-NOMIS forms the very major part, to the end of December 2007 is estimated at £179 million.

Financial and business benefit from work completed on C-NOMIS is preserved. Nearly all of the expenditure

attributable to C-NOMIS is relevant to its future use in HMPS as 'Prison NOMIS'. The other projects in the programme will continue to derive benefit from the investment and work to date.

Mr. Garnier: To ask the Secretary of State for Justice what the financial consequences for his Department's budget are of not rolling out C-NOMIS to the Probation Service. [181220]

Mr. Hanson: The C-NOMIS project as originally intended included the roll out of C-NOMIS to the Probation Service. This was unaffordable and the revised plans now ensure that the overall costs will be contained within the Department's budget. The business change and continuity consequences of not rolling out C-NOMIS to the probation service have been handled by other measures contained within the overall NOMIS programme.

Mr. Garnier: To ask the Secretary of State for Justice whether the developers of C-NOMIS, EDS, will be paid any compensation as a consequence of the system not being rolled out to the probation service. [181221]

Mr. Hanson: EDS will receive no compensation as a result of the C-NOMIS system not being rolled-out to probation areas. 'Prison NOMIS' continues the development of C-NOMIS, preserving the financial and business benefit from work completed to date.

Mr. Garnier: To ask the Secretary of State for Justice what assessment he has made of how the decision not to roll out C-NOMIS to the probation service will affect its ability to comply with end-to-end management of offenders. [181222]

Mr. Hanson: Following the NOMIS programme strategic review, and taking into account the Offender Management (OM) strategic review, the newly revised and deliverable NOMIS programme will ensure both the protection of the public and the continued successful implementation of the Offender Management Model and end-to-end offender management.

The programme will ensure that offender managers have access to necessary information to effectively manage offenders within custody and the community. Building on and preserving work completed to date, the programme will enable staff in both prisons and probation access to information required to support OM.

Mr. Garnier: To ask the Secretary of State for Justice what his original estimate was of the final cost of rolling out C-NOMIS to the Prison Service and Probation Service. [181223]

Mr. Hanson: When originally initiated in June 2004, the estimated lifetime costs, before VAT, cost of capital and depreciation was £234 million.

Personal Injury

Mr. Bellingham: To ask the Secretary of State for Justice (1) what assessment he has made of the merits of introducing measures to cap the level of fees for legal services in personal injury claims cases; and if he will make a statement; [179891]

(2) what steps he plans to take following the consultation exercise on case track limits and the claims process for personal injury claims that closed on 13 July 2007 in relation to personal injury claims; and if he will make a statement; [179892]

(3) what plans he has to reform the civil justice system in respect of personal injury claims; and if he will make a statement; [179893]

(4) when his Department plans to publish the responses to the recent consultation on case track limits and the process for personal injury claims. [180060]

Bridget Prentice: The consultation paper: "Case track limits and claims process for personal injury claims" set out proposals for improving the system for certain personal injury claims, including proposals for fixed recoverable costs. These proposals represent a significant reform of the claims process for personal injury claims and it has been important to give careful consideration to the numerous and diverse range of views that we have received. A summary of responses and the Government's next steps will be set out in the Response to Consultation, which we aim to publish by the end of March.

Mr. Bellingham: To ask the Secretary of State for Justice what assessment he has made of the impact of referral fees on the personal injury claims process; and if he will make a statement. [180061]

Bridget Prentice: The Ministry of Justice has not assessed the impact of referral fees in personal injury claims. The Solicitors Regulation Authority (SRA) is responsible for the regulation of lawyers and ensuring that they comply with Rule 9 of the Solicitors Code of Conduct 2007 which sets out the requirements on referral fees. The SRA are currently reviewing the provisions on referral fees and considering a range of options to improve compliance with Rule 9.

Peterborough Prison: Prisoners Release

Mr. Stewart Jackson: To ask the Secretary of State for Justice how many convicted prisoners held at HMP Peterborough were released early as a result of prison overcrowding in the latest period for which figures are available. [180993]

Mr. Hanson: The End of Custody Licence was introduced on 29 June 2007. Eligible prisoners serving between four weeks and four years may be released under licence from prison up to up to 18 days before their automatic release date.

Up to the end of November 2007, the latest date for which figures are available, there had been 325 prisoners released under the End of Custody Licence scheme from HMP Peterborough; 77 of these were during the month of November.

The total number of releases by offence group, sentence length, age, gender, ethnicity and prison establishment have been published on the Ministry of Justice website for the first week of the scheme, the remainder of July, and every subsequent month since then.

The monthly published figures can be found on separate links under the following main link:

http://www.justice.gov.uk/publications/endofcustodylicence.htm

Data on releases up to the end of December 2007 will be published at the end of January 2008 according to the schedule of MoJ statistical publications

http://www/justice.gov.uk/docs/moj-stats-schedule.pdf

These figures have been drawn from administrative IT systems, which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Prisons: Drugs

Mr. Burrowes: To ask the Secretary of State for Justice what key performance indicator is used to assess the effectiveness of drug treatment in prisons. [181488]

Mr. Hanson: The key performance indicators listed in the table as follows are currently used to monitor drug treatment performance. Research indicates that prison drug treatment, with effective follow-up in the community, can reduce the level of reoffending by at least 10 per cent.

	Target		
Key performance indicators	*2005-06*	*2006-07*	*2007-08*
Number of prisoners entering clinical services (Detoxification/Maintenance)	27,000	27,500	27,500
Number of prisoners undergoing initial assessment[1]	61,400	61,400	61,400
Percentage of prisoners completing treatment programmes they have started	65	65	65
Random Mandatory Drug Testing (MDT) positive rate	[2]	[2]	[2]

[1] Through CARATs (counselling, assessment, referral, advice and throughcare services) or YPSMS (young persons substance misuse service)
[2] Improve on previous year

Mr. Burrowes: To ask the Secretary of State for Justice with reference to the answer of 1 May 2007, *Official Report*, column 1601W, on Drugs: prisons, how many detainees began clinical drug treatment on *(a)* detoxification and *(b)* extended prescribing programmes in 2006-07. [181571]

Mr. Hanson: During 2005-06, 51,520 prisoners entered prison detoxification and drug maintenance programmes.

Since April 2007, these two interventions have been reported separately. In the period April to October 2007, the following clinical interventions for prisoners with drug dependence in prisons were provided: *(a)* detoxification 26,932; and *(b)* extended prescribing 7,263. This is a total of 34,195 interventions.

Note:

P. Simon data can fluctuate as prison establishments finalise their entries.

Source:

P. Simon database, HM Prison Service.

Prisons: Education

Mr. Hurd: To ask the Secretary of State for Justice (1) what steps the Government have taken to improve education and training provision in prisons since 1997; [175182]

(2) what progress has been made on developing an integrated Learning and Skills Service as indicated in the Government's Reducing Re-offending National Action Plan. [174549]

Mr. Lammy: I have been asked to reply.

The transfer of responsibility for offender learning from the Home Office in 2001, to the Department for Education and Skills, now the Department for Innovation, Universities and Skills, brought the offender learning agenda within mainstream learning and skills arrangements. This led to the introduction of Heads of Learning and Skills, a new senior role within each prison responsible for co-ordinating delivery. Offender learning is inspected by Ofsted (and its predecessors) to the same standards as mainstream education, with published reports since 2002.

Between August 2005 and August 2006, the Learning and Skills Council completed the introduction of a new Offender Learning and Skills Service. This service is designed to integrate delivery both inside and outside prisons, as well as ensuring the quality is consistent with that available in the outside community.

The new delivery arrangements are governed by the policy framework set out in the 'Reducing Re-Offending Through Skills and Employment' Next Steps document, published jointly by the then Department for Education and Skills, the Home Office, and the Department for Work and Pensions in December 2006. Many of the further changes set out in the Next Steps document are now being piloted in our two test bed regions, the West Midlands and East of England.

Prisons: Young People

Dr. Vis: To ask the Secretary of State for Justice how many juvenile sentenced receptions there were in to *(a)* prisons, *(b)* local authority units and *(c)* secure training centres in England and Wales for (i) less than one month, (ii) between one and three months, (iii) between three and six months and (iv) between six and 12 months in each of the last five years. [173546]

Mr. Hanson: The figures for *(a)*, the number of juveniles received under sentence into all prison establishments in England and Wales can be found in the following table.

Sentence length	*2002*	*2003*	*2004*	*2005*	*2006*
Less than or equal to one month	26	48	55	76	108
Greater than one month and less than or equal to three months	931	32	162	200	239
Greater than three months and less than or equal to six months	2,411	2,141	2,257	2,361	2,246
Greater than six months and less than 12 months	967	876	867	854	864

For *(b)*, local authority secure children's homes, and *(c)* secure training centres, data to provide the figures in the form requested are not available. Obtaining the information would involve extensive manual work on individual case files which would constitute disproportionate cost.

These figures have been drawn from administrative IT systems, which, as with any large-scale recording system, are subject to possible errors with data entry and processing.

INTERNATIONAL DEVELOPMENT

Afghanistan: Security

Mr. Clifton-Brown: To ask the Secretary of State for International Development what assessment he has made of the safety of departmental staff working in Afghanistan following the bombing of the Serena Hotel. [181228]

Mr. Douglas Alexander: On security grounds we cannot release details of security assessments. Staff safety and security remain the top priority and every security incident is considered carefully. Current security provisions are under constant review, to ensure that we provide maximum safety to our staff. We have already made a number of enhancements as a result of recent incidents.

Africa: Fossil Fuels

Mr. Andrew Smith: To ask the Secretary of State for International Development what research his Department has *(a)* undertaken and *(b)* evaluated on the effect on poverty levels of his Department's expenditure relating to the oil and gas extractive industries in Africa. [181096]

Mr. Thomas: The Department for International Development (DFID) has no direct investments in the oil and gas industry in Africa. DFID does provide assistance to governments to improve their capacity to make best use of oil and gas revenues, though most of this investment is not in Africa. Recent expenditure in Africa includes Sudan, where DFID looked at the impact of oil and gas development on the war and its impact on peace and the social and economic situation.

DFID supports the Extractive Industries Transparency Initiative (EITI) which aims to increase the potential of extractive industries as an engine for economic growth and sustainable development. It seeks to improve transparency over payments made to governments by extractives companies and revenues received by governments in resource rich developing countries and also works on building mechanisms to hold governments accountable for these revenues. We have measured impacts to date in terms of the number of countries signed up to implement EITI, of which nine are African countries. DFID has also provided approximately £2.4 million in bilateral support to the Nigerian Government. Evidence of EITI's success is currently anecdotal. For instance, over 90 per cent. of Nigeria's revenue comes from oil and gas. Since its inception in 2001 the Nigerian Extractive Industries Transparency Initiative (NEITI) has carried out technical studies which so far have led to the recovery of £500 million in otherwise forgone revenues. The new independent EITI Secretariat will conduct impact reviews and qualitative evaluation work as part of their annual review. These will be presented at the next EITI Conference which will take place in the autumn.

To date DFID has spent approximately £6.9 million to support EITI work. The majority of this support has been in the form of contributions to the EITI Multi Donor Trust fund (MDTF) (about £3.32 million) which supports resource rich developing country governments to implement EITI.

Nine African countries that have been assessed by the EITI Board to be successfully implementing EITI are Cameroon, Gabon, Ghana, Guinea, Liberia, Mali, Mauritania, Niger and Nigeria. These countries have now been assessed as candidate countries.

Seven African countries that are implementing EITI and will be assessed in 2008 by the EITI Board are Chad, the Republic of Congo, the Democratic Republic of the Congo, Equatorial Guinea, Madagascar, Sao Tome and Principe, and Sierra Leone.

Britain-Russia Development Partnership

Mr. Moore: To ask the Secretary of State for International Development (1) when his Department last reviewed the Britain-Russia Development Partnership; and if he will make a statement; [180832]

(2) what discussions he has had with the Foreign Secretary on the delivery of aid to Russia since November 2006; what the outcome was of these discussions; and if he will make a statement. [180833]

Mr. Douglas Alexander: Following a review of our development partnership with Russia in 2004, DFID closed its bilateral programme in March 2007.

My right hon. Friend the Foreign Secretary and I have not held specific discussions on Russia aid delivery since November 2006. We continue to channel UK support through multilateral organisations working in Russia, for example the European Union, the European Bank for Reconstruction and Development and the World Bank.

As a large middle income country and G8 member, Russia has a growing potential to contribute to global and regional poverty reduction. This is an issue we have already begun to explore with Russia.

Climate Change: Agriculture

Mr. Andrew Smith: To ask the Secretary of State for International Development what research his Department is undertaking to examine the effectiveness of agricultural adaption to climate change in low income countries. [181062]

Mr. Thomas: The Consultative Group on International Agricultural Research (CGIAR), to which DFID contributes £20 million per year, has been researching how effectively farmers in low income countries cope with the effects of climatic variability for nearly four decades. CGIAR centres have strong capabilities in crop breeding, natural resources management and policy development, which have been used to help farmers deal with vulnerability.

CGIAR centres are increasing their research on areas affected by climate change.

Departmental Accountancy

Mr. Hoban: To ask the Secretary of State for International Development what items of his Department's *(a)* revenue and *(b)* expenditure are uprated using (i) the consumer price index, (ii) the retail price index and (iii) other measures of inflation. [180038]

Mr. Thomas: We do not centrally record items of revenue and expenditure which are uprated using indexes and other measures of inflation; we are not

therefore able to provide a comprehensive list. We have, however, identified the following items:

	Expenditure
Consumer prices index	Contract China – AIDS Roadmap Technical Support project
Retail prices index	1. DFID's overseas pensions 2. The following contracts: (a) ARIES (Activities Reporting Information E-System) – implementation partner/software supplier (b) Quest EDRM (Electronic Document and Records Management System) (c) East Kilbride headquarters building maintenance, which includes the retail prices index inflator, in conjunction with BMI (building maintenance information) cost indices
Other measures of inflation	
Average earnings index	1. The following contracts: (a) Human resources payroll database (b) Bespoke software support – human resources payroll
Other	(c) Palace Street headquarters security guarding

Departmental ICT

Susan Kramer: To ask the Secretary of State for International Development how many *(a)* male and *(b)* female members of staff in his Department were issued with personal digital assistants in each year since 2001; and if he will make a statement. [181360]

Mr. Malik: The numbers of Personal Digital Assistants issued in each year to staff in the Department for International Development were as follows:

	2001	*2002*	*2003*	*2004*	*2005*	*2006*	*2007*
Male	'	'	165	39	'	45	51
Female	'	'	120	37	'	30	30
Unknown	'	'	8	2	'	0	1
Total	'	'	293	78	'	75	82

' no data

Departmental Manpower

Mr. Moore: To ask the Secretary of State for International Development how many staff in his Department work on programmes on *(a)* education, *(b)* health, *(c)* nutrition and *(d)* child protection; and if he will make a statement. [180647]

Mr. Malik: Thematic programmes in the Department for International Development (DFID) are managed in a number of different ways, and by advisory and administrative staff based in geographical departments—both in the UK and across our network of over 50 offices overseas. Those staff do not necessarily work exclusively on any one programme, and they are in turn supported by staff in our central policy and research teams. DFID's staff also contribute indirectly to the thematic programmes managed by the large multi-lateral donor organisations and non-governmental organisations.

The information requested is not therefore available at the level of detail required. However, as an indicator of the numbers involved, DFID currently employs 84 specialist health and education advisers, and a further 96 administrative and support staff whose job titles indicate that the management of health, education and related programmes forms a significant component of their work.

Gaza: Politics and Government

Jeremy Corbyn: To ask the Secretary of State for International Development what recent steps his Department has taken to improve the humanitarian situation in Gaza. [181565]

Mr. Malik: In 2007-08 DFID has given £15.6 million to the United Nations Relief and Works Agency to provide essential services such as food, housing and education to Palestinian refugees in the Occupied Palestinian Territories and the region. Refugees make up 70 per cent. of Gaza's population. We have provided £15 million to the Temporary International Mechanism (TIM) since 2006. The TIM funds emergency fuel and electricity production, water and sanitation services for Gaza, as well as health services and allowances for Palestinian Government workers in Gaza and the West Bank. We have also given £1 million to fund ICRC's emergency appeal for the West Bank and Gaza.

The recent deterioration in the humanitarian situation is not due to a lack of international assistance. It is the result of Israel's decision to close all crossings into the Gaza Strip. Yesterday, the Secretary of State for International Development and the Foreign Secretary issued a statement expressing deep concern about the situation and calling on all parties to facilitate opening of the crossings.

We are encouraged by Israel's decision today to allow limited deliveries of industrial fuel into Gaza but we will continue to monitor the humanitarian situation closely.

HIV Infection: Children

Mr. Hancock: To ask the Secretary of State for International Development what steps he plans to take to ensure that the *(a)* needs and *(b)* rights of children affected by AIDS will remain a priority; when the updated strategy for tackling HIV and AIDS is published. [181091]

Mr. Malik: The needs and rights of children affected by AIDS will continue to be a UK priority when 'Taking Action', the UK strategy for tackling HIV and AIDS in the developing world, is published later this year. It will also be a focus of high-level discussion at the forthcoming Global Partners forum on children affected by AIDS.

We are grateful to a number of organisations, including the Working Group on Orphans and Vulnerable Children of the UK Consortium on AIDS and International Development, for their supportive engagement in the work that is under way to update the strategy.

Kosovo: Overseas Aid

Mr. Moore: To ask the Secretary of State for International Development what percentage of his Department's spending in Kosovo is assigned to conflict prevention, particularly small arms eradication; and if he will make a statement. [180831]

Mr. Douglas Alexander: Although no DFID spending in Kosovo has been assigned to conflict prevention the UK has allocated funding through the joint DFID, FCO and MOD Global Conflict Prevention Pool (GCPP).

In 2007-08 £3 million was allocated from the GCPP for conflict prevention in Kosovo, mainly for the return of refugees, demobilisation of former Kosovan combatants, improvements in Kosovo's Ministries of Justice and Internal Affairs, and resolving property rights in Kosovo.

In 2007 the UK Government, working with the Provisional Institutions of Self Government and the United Nations Development Programme, provided £73,000 for the collection and destruction of seized small arms. DFID, the FCO and the MOD are actively considering future funding of programmes in this area for 2008.

Malnutrition: Finance

Mr. Moore: To ask the Secretary of State for International Development what proportion of his Department's budget was allocated to tackling malnutrition as part of his Department's aim to meet Millennium Development Goal One in each of the last five years; what the projected budget is for the next three years; and if he will make a statement. [180648]

Mr. Douglas Alexander: DFID does not separately record investment specifically on malnutrition but focuses its expenditure on reducing the causes of chronic malnutrition by investing in essential public services such as the provision of health, water, nutrition and education, as well as programmes that give the poor income and food.

Overseas Aid

Chris McCafferty: To ask the Secretary of State for International Development what percentage of overseas development aid and assistance was spent on population and reproductive health in *(a)* 2001-02, *(b)* 2002-03, *(c)* 2003-04, *(d)* 2004-05, *(e)* 2005-06 and *(f)* 2006-07. [177319]

Mr. Thomas *[holding answer 21 January 2008]:* DFID is the second largest donor to the health sector. Details on the amount of DFID's bilateral expenditure spent in the health sector and directly on population and reproductive health activities over the last six years are shown in the table.

It is difficult to estimate exactly how much of DFID's support to the health sector goes to population and reproductive health. DFID uses a range of funding mechanisms, including bilateral health system financing via government budgets, health sector support and multilateral support, and directly targeted projects. Many of these funding streams cannot easily be attributed to specific components of overall health improvement.

Table 1: DFID bilateral expenditure on population and reproductive health activities, 2002-03 to 2006-07, (£ million)

		Of which		
	Total DFID bilateral expenditure	*expenditure in the health sector*	*Population and reproductive health activities*	*Proportion: Population and reproductive health over DFID total bilateral expenditure*
2001-02	1,511.2	230.5	36.8	2.4
2002-03	1,745.9	268.3	39.0	2.2
2003-04	1,935.1	310.7	44.5	2.3
2004-05	2,110.9	368.1	40.8	1.9
2005-06	2,502.0	440.4	20.5	0.8
2006-07	2,561.8	489.6	28.6	1.1

This trend reflects the changing ways in which we give aid, using a combination of budget support and multilateral assistance. The figures in the third column only include directly targeted support and exclude other expenditure which will have an impact on population and reproductive health in developing countries such as broader support to strengthen health systems. DFID bilateral expenditure in the health sector grew by an annual average of 16.3 per cent. over 2001-02 to 2006-07 and totalled £2.1 billion over this period.

DFID also provides multilateral assistance to a range of organisations, some of which is used on population and reproductive health activities. For example, DFID provided over £126 million in support to the UN's Population Fund over the period 2001-02 to 2006-07.

Oxfam: Finance

Mr. Davidson: To ask the Secretary of State for International Development how much Oxfam received from his Department in each of the last three years, broken down by project or programme; and how much is expected to be given in the next financial year. [180512]

Mr. Thomas: Total DFID expenditure through Oxfam is set out in the table. Under the current Public Partnership Agreement (PPA) Oxfam GB and DFID collaborate on three strategic areas: sustainable livelihoods; strengthening the voice of the poor in decision-making; and supporting young people as advocates for pro-poor change. In addition, DFID supports Oxfam GB's humanitarian and campaigning work.

DFID expenditure through Oxfam (£ thousand)

	Total	*Partnership Programme Agreement*	*Humanitarian Assistance*	*Country and other DFID Programme*
2004-05	19,006	7,228	9,283	2,494
2005-06	20,894	9,500	9,173	2,220
2006-07	19,648	8,900	9,795	953

Expenditure data for 2007-08 will not be available until after the end of the fiscal year.

Russia: Overseas Aid

Mr. Moore: To ask the Secretary of State for International Development how much aid was provided to Russia in each of the last three years; what proportion of each year's total was *(a)* direct government to government assistance, *(b)* assistance to Russian civil society and

(c) funding for international institutions and non-governmental organisations; how much will be granted for the next three years; and if he will make a statement. [180834]

Mr. Thomas: Details of the UK's bilateral assistance and imputed multilateral assistance to Russia in each of the last three years are laid out in the following tables.

Table 1: UK total bilateral gross public expenditure (GPEX) on development 2004-05 2006-07

	Total UK bilateral GPEX to Russia (£000)	Proportion going directly to Government of Russia	Proportion going to Russian civil society (percentage)	Proportion going to international and non-governmental bodies (percentage)
2004-05	15,133	0	10	90
2005-06	5,684	0	13	87
2006-07	5,945	0	7	93

Details of expenditure for 2007-08 will not be available until after the end of the fiscal year, the budget for 2007-08 is £0.8 million.

Table 2: Imputed UK share of multilateral official development assistance (ODA) 2004-05

	Russia (£000)
2004	20,127
2005	16,605

DFID is currently developing detailed plans for allocating its budget over the three-year period 2008-09 to 2010-11 following the outcome of the comprehensive spending review announced in October. Individual country and regional allocations will not be finalised until March 2008.

HEALTH

Accidents: Roads

Mr. Jenkins: To ask the Secretary of State for Health how many road accident related emergency admissions to hospitals in Tamworth constituency there were in each year since 1997, broken down by (a) age and (b) sex. [179394]

Mr. Bradshaw: The count of finished admission episodes, for emergency admissions where the external cause was 'road traffic accident' (admission methods 21-28), that the former Burntwood, Lichfield and Tamworth Primary Care Trust (PCT) was responsible for, in each year since 1997-98 for which data are available, broken down by age and sex, is shown in the following table.

	Age				
	Under 18		Over 18		
	Female	Male	Female	Male	Unknown
2006-07	*	25	18	57	—
2005-06	*	10	21	56	—
2004-05	*	7	21	56	—
2003-04	*	18	19	49	—
2002-03	8	16	16	53	—
2001-02	*	12	25	45	—
2000-01	11	12	7	53	—
1999-2000	14	25	24	63	—
1998-99	8	14	24	45	—
1997-98	8	20	28	55	*

Notes:
1. For reasons of confidentiality numbers between one and five have been suppressed and shown as "*"
2. Finished admission episodes (FAE)
An FAE is the first period of in-patient care under one consultant within one healthcare provider. Admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
3. Cause code
The cause code is a supplementary code that indicates the nature of any external cause of injury, poisoning or other adverse effects.
4. Data quality
HES are compiled from data sent by over 300 national health service trusts and PCTs in England. The Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. While this brings about improvement over time, some shortcomings remain.
5. Ungrossed data
Figures have not been adjusted for shortfalls in data (ie the data are ungrossed).
6. PCT and strategic health authority (SHA) data quality
PCT and SHA data were added to historic data-years in the HES database using 2002-03 boundaries, as a one-off exercise in 2004. The quality of the data on PCT of Treatment and SHA of Treatment are poor in 1996-97, 1997-98 and 1998-99, with over a third of all finished episodes having missing values in these years. Data quality of PCT of general practitioner (GP) practice and SHA of GP practice in 1997-98 and 1998-99 are also poor, with a high proportion missing values where practices changed or ceased to exist. There is less change in completeness of the residence-based fields over time, where the majority of unknown values are due to missing postcodes on birth episodes. Users of time series analysis including these years need to be aware of these issues in their interpretation of the data.
7. Assessing growth through time
HES figures are available from 1989-90 onwards. During the years that these records have been collected the NHS there have been ongoing improvements in quality and coverage. These improvements in information submitted by the NHS have been particularly marked in the earlier years and need to be borne in mind when analysing time series.
Changes in NHS practice also need to be borne in mind when analysing time series. For example a number of procedures may now be undertaken in outpatient settings and may no longer be accounted in the HES data. This may account for any reductions in activity over time.
Source:
Hospital Episode Statistics (HES), the Information Centre for health and social care

Barking, Havering and Redbridge NHS Trust: Health Services

Andrew Rosindell: To ask the Secretary of State for Health what new services and buildings (a) have been provided and (b) are planned for the Barking, Havering and Redbridge NHS Trust since the approval of the NHS Local Improvement Finance Trust in the area. [179667]

Mr. Bradshaw: The national health service local improvement finance trusts (LIFTs) are mainly designed to support primary care trusts and local authorities to develop their primary health and

community care services. Therefore, no new services and buildings have been provided, or are planned, for Barking, Havering and Redbridge NHS Trust through the NHS LIFT established in its area.

However, Redbridge and Waltham Forest LIFT has delivered £15 million of investment to deliver three new one stop primary care health centres. Barking and Havering LIFT has also delivered £66.5 million investment to deliver eight new facilities open to patients with two more under construction.

	Barking and Havering LIFT schemes
Completed	Thames View Healthcentre, Barking (Primary Care Centre)
	Harold Hill Centre, Gooshays Drive, Harold Hill (Primary Care Centre)
	Broad Street Centre, Dagenham (Support facilities for Community Mental Health team)
	Cranham (GP/Community services)
	Church Elm Lane, Dagenham (GP/Community Services)
	South Hornchurch, Rainham (GP/Community Services)
	Chadwell Heath Healthcentre (GP/Community services)
	Marksgate, Romford (GP/Community services)
Under construction	Barking Town Centre (general practitioner (GP)/Community services
	Porters Avenue (GP/Community services)

	Redbridge and Waltham Forest LIFT schemes
Completed	Wood Street, Waltham Forest (Primary Care and Children Specialist Health Centre)
	Comely Bank, Waltham Forest (GP/Community services)
	Manford Way, Hainault (GP/Community services)

Barnet Hospital: Standards

Mr. Dismore: To ask the Secretary of State for Health what assessment he has made of the quality of *(a)* nursing care and *(b)* cleaning services at Barnet hospital. [177994]

Ann Keen: The quality of nursing care and cleaning services are matters for the local national health service.

On 5 July 2007, the Healthcare Commission (HCC) issued Barnet and Chase Farm hospitals NHS Trust with an improvement notice.

The improvement notice related to the 'Code of Practice for the Prevention and Control of Healthcare Associated Infections'. The code outlines compulsory duties to prevent and manage healthcare-associated infections such as meticillin resistant Staphylococcus aureus and Clostridium difficile. All NHS trusts should be compliant with these duties.

Further to a follow up visit on 31 October 2007, the HCC announced on 20 December 2007 that the trust had made improvements in infection control and was compliant with the requirements of the improvement notice that had been issued on 5 July.

Barnet Primary Care Trust: Waiting Lists

Mr. Dismore: To ask the Secretary of State for Health what steps he is taking to reduce diagnostic waiting times for patients in Barnet primary care trust area; and if he will make a statement. [177899]

Mr. Bradshaw: Rapid accurate diagnosis is key to delivery of the 18 week target. The Department has developed three clinically-led national programmes, in imaging, endoscopy and physiological measurement, to support the national health service in reducing waiting times for diagnostic tests including residents in Barnet primary care trust (PCT).

The Independent Sector London Diagnostics scheme, offering a range of diagnostic assessments, is also available to patients in the Barnet PCT area. Diagnostics available through the London Diagnostics scheme include magnetic resonance imaging, x-ray, ultrasound, echocardiography, echocardiography (screening), electrocardiogram, blood pressure monitoring, endoscopy and phlebotomy.

Mr. Dismore: To ask the Secretary of State for Health what the *(a)* average and *(b)* longest waiting time was in the Barnet Primary Care Trust area for (i) operations for (A) cataracts, (B) heart disease, (C) hip replacement, (ii) cancer, (iii) an MRI scan and (iv) a CT scan in (1) 2006-07, (2) 2007-08 to date and (3) 1997; in each category of treatment how many procedures were conducted; and if he will make a statement. [177930]

Mr. Bradshaw: The following tables show the average (median) and longest waiting times and total admissions in the Barnet Primary Care Trust (PCT) area for the trauma and orthopaedic speciality (including hip replacements) the ophthalmology speciality (including cataract surgery), and the cardiothoracic speciality (including heart surgery) for 2006-07, 2007-08 to date and 1996-97, and waiting times and total activity for MRI and CT scans for 2006-07, 2007-08 to date. Figures for waiting times and activity for MRI and CT scans in 1997 is not available.

Statistics on average waiting times for cancer patients and average waiting times for different types of cancer treatment are not collected centrally. Cancer waiting times' standards of a maximum wait of 31 days from diagnosis to first cancer treatment, and a maximum wait of 62 days from urgent referral for suspected cancer to first cancer treatment were introduced for all cancer patients from December 2005. In the last quarter (July to September 2007) national performance against these standards was 99.7 per cent. and 97.2 per cent. respectively. This information is not available by individual PCTs.

Today waiting times are at a record low; patients can expect a maximum 13 week wait for their first out-patient appointment and a maximum six month wait for an operation.

Latest data show that over half of admitted patients (patients who require admission to hospital for treatment) and over three quarters of non-admitted patients are treated within 18 weeks.

In-patient waiting statistics concerning the trauma and orthopaedic specialty for the Barnet PCT area

	Month ending	Area	Median waiting time (weeks)	Longest wait	Total admissions
2007-08	September	Barnet PCT	7.3	22-23 weeks	2,701
2006-07	March	Barnet PCT	7.1	22-23 weeks	2,747
1996-97	March	Barnet HA	18.0	18-20 months	1,825

In-patient waiting statistics concerning the cardiothoracic surgery specialty for the Barnet PCT area

	Month ending	Area	Median waiting time (weeks)	Longest wait	Total admissions
2007-08	September	Barnet PCT	n/a	10-11 weeks	49
2006-07	March	Barnet PCT	n/a	8-9 weeks	162
1996-97	March	Barnet HA	13.76	9-11 months	283

In-patient waiting statistics concerning the ophthalmology specialty for the Barnet PCT area

	Month ending	Area	Median waiting time (weeks)	Longest wait	Total admissions
2007-08	September	Barnet PCT	5	22-23 weeks	979
2006-07	March	Barnet PCT	5.5	25-26 weeks	1,691
1996-97	March	Barnet HA	14.32	12-14 months	1,484

Diagnostic waiting statistics concerning MRI scans in the Barnet PCT area

	Month ending	Area	Median waiting time (weeks)	Longest wait	Total activity
2007-08	October	Barnet PCT	2.8	12-13 weeks	3,914
2006-07	March	Barnet PCT	4.5	31-32 weeks	4,928

Diagnostic waiting statistics concerning CT scans in the Barnet PCT area

	Month ending	Area	Median waiting time (weeks)	Longest wait	Total activity
2007-08	October	Barnet PCT	2.4	12-13 weeks	5,394
2006-07	March	Barnet PCT	3.2	11-12 weeks	8,011

Notes:

1. The data are reported as a snapshot at a point in time. For this purpose the latest available period within the financial year is used.
2. The figures for trauma and orthopaedics, cardiothoracic and ophthalmology specialities show the median waiting times for patients still waiting for admission at the end of the period stated. In-patient waiting times are measure from decision to admit by the consultant to admission to hospital.
3. Median waiting times are calculated from aggregate data, rather than patient level data, and therefore are only estimates of the position on average waits. This should be taken into account when interpreting the data.
4. The parliamentary question states heart, hip and cataract operations. These are sub-sets of the cardiothoracic, trauma and orthopaedic and ophthalmology specialities respectively.
5. Data are not collected for the 1997 period for MRI and CT scan waiting times.
6. For the cardiothoracic speciality, when there is less than 50 waiters in the category, no median has been calculated as the small data set may lead to statistical inaccuracies.
7. Activity numbers are provided for MRI and CT scans, and admission data are provided for the trauma and orthopaedics, cardiothoracic and ophthalmology specialities. These terms both directly relate to the number of procedures undertaken.

Bexley Care Trust: Cancer

Mr. Evennett: To ask the Secretary of State for Health how much was spent by Bexley care trust on cancer services in each of the last three years. [178078]

Mr. Bradshaw: Expenditure by Bexley care trust on cancers and tumours for the past three financial years is shown in the following table. Figures were collected as part of the programme budgeting returns.

Bexley care trust net expenditure on 'cancer and tumours'

Financial reporting year	Net expenditure (£000)
2004-05	15,978
2005-06	16,224
2006-07[1]	15,690

[1] Due to definitional changes in data, it may not be appropriate to compare expenditure in 2006-07 with earlier years.

Chiropody

Ben Chapman: To ask the Secretary of State for Health whether he plans to collect centrally information on *(a)* the allocation by primary care trusts of funding to chiropody services and *(b)* the number of chiropody clinics. [179647]

Ann Keen: There are no central plans to collect information about funding for chiropody services or the number of chiropody clinics. It is for primary care trusts in partnership with local stakeholders to determine how best to use their funds to meet national and local priorities for improving health and to commission services accordingly. This process provides the means for addressing local needs within the health community, including the provision of chiropody.

Death: Barnet

Mr. Dismore: To ask the Secretary of State for Health what progress has been made in improving mortality rates in Barnet for *(a)* cancer, *(b)* heart disease and *(c)* stroke; and if he will make a statement. [178069]

Ann Keen: Cancer mortality rates can be found in the following table, which gives the age-standardised mortality rate from cancer, for all persons aged under 75 years in Barnet for the years 2002-06:

Age-standardised mortality rate from cancer[1], all persons aged under 75 years[2], in England, strategic health authorities and primary care organisation[3], 2002-06[4]

	Rate per 100,000 (persons)				
	2002	*2003*	*2004*	*2005*	*2006*
Barnet	100	105	105	101	99

[1] Cause of death was defined using the International Classification of Diseases, Tenth Revision (ICD-10) codes C00 to C97.

[2] Age-standardised rates are used to allow comparison between populations which may contain different proportions of people of different ages.

[3] Based on boundaries as of 2007. The 152 primary care organisations include 148 primary care trusts (PCTs), and four care organisations (COs).

[4] Figures are for deaths registered in each calendar year.

The Department is committed to reducing the mortality rate from cancer. Major progress has been made over the past 10 years and especially since the publication of the National Health Service Cancer Plan, which set out the first ever comprehensive strategy to tackle cancer and was the first time any Government had drawn up a major programme of action linking prevention, diagnosis, treatment, care and research. Significant achievements include:

extending breast screening to women aged 50 to 70 years. The number of new cancers diagnosed through breast screening has increased by over 60 per cent.;

rollout of the bowel cancer screening programme—the first programme to target both men and women;

major reductions in waiting times for patients with suspected cancer referred urgently by their general practitioner's (99 per cent. seen within 14 days, up from 63 per cent. in 1997);

over 99 per cent. of patients receiving their first cancer treatment within one month of diagnosis (the 31 day target);

over 97 per cent. of urgently referred patients being treated within two months of referral (the 62 day target);

expansion of the cancer work force; and

provision of unprecedented numbers of new equipment.

With regard to heart disease and stroke, the information requested is not held centrally. However, the Department's target as set out in "Our Healthier Nation" is to reduce deaths from cardiovascular disease (coronary heart disease and stroke and related diseases) by 40 per cent. in people under 75 by 2010 has been met five years early. The mortality rate has fallen 40.3 per cent. between 2004-06 over the 1995-97 baseline.

Dental Services: Barnet

Mr. Dismore: To ask the Secretary of State for Health what steps he is taking to improve access to NHS dentists in Barnet; and if he will make a statement. [177987]

Ann Keen: The dental reforms implemented in 2006 gave primary care trusts (PCTs), for the first time, the responsibility for providing or commissioning dental services in their area. It is for PCTs to assess local needs, review current service provision and develop services to meet local needs. Increasing the number of patients seen within national health service dental services is now a formal priority in the NHS Operating Framework for 2008-09 and we have supported this with a very substantial 11 per cent. uplift in overall allocations to PCTs from 1 April 2008.

Departmental ICT

Susan Kramer: To ask the Secretary of State for Health how many *(a)* male and *(b)* female members of staff in his Department were issued with personal digital assistants in each year since 2001; and if he will make a statement. [181357]

Mr. Bradshaw: At the end of 2007, there were 672 personal digital assistants in issue in the Department; 334 to male and 338 to female members of staff. It would incur disproportionate expense to provide the information by gender for each year from 2001 to 2006 as the asset register does not contain an audit trail of allocation to members of staff. Mobile assets are assigned and reassigned as staff join, leave or change roles within the Department.

Eastern Area Strategic Health Authority: Vetting

Bob Spink: To ask the Secretary of State for Health how many hospitals in the Eastern Area Strategic Health Authority have experienced delays in appointing new staff as a result of changes made to the fast track system of Criminal Records Bureau checks. [179589]

Mr. Ivan Lewis: This information is not held centrally. Staff recruitment is a matter for local NHS employers.

Edgware Hospital: MRSA

Mr. Dismore: To ask the Secretary of State for Health how many cases of *(a)* MRSA and *(b)* C. difficile occurred at Edgware hospital in (i) 2006-07 and (ii) 2007-08 to date; and if he will make statement. [178328]

Ann Keen: The mandatory scheme for surveillance of health care associated infections comprises data from acute NHS hospital trusts. Mandatory surveillance does not cover hospitals, such as Edgware hospital, that are managed by primary care trusts.

Emergency Calls

David Davis: To ask the Secretary of State for Health how many emergency calls were made to the ambulance service in each region in each of the last five *(a)* years and *(b)* new year periods; and how many of these calls were for alcohol-related health problems in each case. [181682]

Mr. Bradshaw: Information on the number of emergency calls made to the ambulance service in each region between 2002-03 and 2006-07 (the latest data available) can be found in the following table:

Emergency calls received

Ambulance service	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*thousand 2006-07*
England	4,934.7	5,322.8	5,623.8	5,960.1	6,333.4
North East	244.1	262.7	279.7	291.8	362.0
North West	705.8	751.2	779.7	832.0	887.0
Yorkshire	469.9	503.8	522.6	552.6	555.5
East Midlands	419.7	451.3	473.2	459.7	523.3
West Midlands	411.0	441.5	472.8	511.7	541.5
Staffordshire	121.0	125.0	134.8	156.3	125.3
East of England	436.2	492.1	543.3	581.1	625.6
London	1,030.6	1,088.6	1,153.9	1,231.6	1,288.8
South East Coast	403.3	436.1	460.3	493.0	494.4
South Central	277.8	323.1	330.0	336.6	356.1
Great Western	179.2	189.0	200.9	219.8	232.5
South Western	224.9	246.6	259.5	280.5	328.1
Isle of Wight	11.1	11.8	13.0	13.4	13.3

The information in the table is taken from the latest Statistical bulletin "Ambulance Services, England 2006-07", published by the Information Centre. The data are split by ambulance trust configuration at 31 March 2007. However, it should be noted that there were mergers of the majority of NHS trusts providing ambulance services in 2006 (with the exception of London and the Isle of Wight, where the boundaries did not change). For the other trusts, excluding London and the Isle of Wight, the data up to and including 2005-06 for the new trusts are based upon data provided by the trusts in their previous configurations to arrive at the composite figures shown. In addition, with the exception of Great Western Ambulance Trust (which was established on 1 April 2006) the new trusts were established on 1 July 2006 and therefore 2006-07 data for those trusts consist of similarly mapped composite data from 1 April to 30 June 2007 together with the actual figures returned by the new trusts for the remainder of 2006-07. Further details about how the figures were arrived at can be found at page 1, and the footnote to table 3 of "Ambulance Services, England 2006-07".

There is no defined 'new year' period in the collection of the number of emergency calls. Information on the number of emergency calls that were alcohol-related is not collected centrally.

Emergency Calls: Standards

Andrew Rosindell: To ask the Secretary of State for Health if his Department will collect information on the average response time to emergency calls by each national health service ambulance trust. [181647]

Mr. Bradshaw: The Department has no plans to do so. The ambulance response time data that are collected, and which include the number of emergency calls received by ambulance trusts across England and their performances against the targets set, are published annually. The latest statistical bulletin, "Ambulance Services, England, 2006-07" was published in June 2007 and is available in the Library and on the Information Centre for health and social care website at:

www.ic.nhs.uk/pubs

Gastrointestinal System: Health Services

Mr. Lansley: To ask the Secretary of State for Health how much was spent on treating gastrointestinal disease in England in each of the last five financial years for which figures are available. [178034]

Ann Keen: The Department published figures in the annual resource accounts showing the following gross expenditure on 'problems of the gastro intestinal system' for the last four financial years.

Financial reporting year	*Gross expenditure (£000)*
2003-04	3,164,671
2004-05	3,526,063
2005-06	3,973,450
2006-07	3,851,576

The figures are calculated from programme budgeting data, which were collected for the first time in financial year 2003-04.

Comparison between 2005-06 and 2006-07 figures is not straightforward due to a combination of factors:

the use of new Healthcare Resource Group data (HRG4) to calculate costs;

a reassignment of primary diagnosis codes to programme budgeting category;

the introduction of the new programme budgeting sub-categories; and

a change in the methodology for calculating non-admitted patient care costs.

General Practitioners: Barnet

Mr. Dismore: To ask the Secretary of State for Health what steps he is taking to improve access to GP services in Barnet; and if he will make a statement. [177992]

Mr. Bradshaw: It is the responsibility of the local national health service to improve access to general practitioner (GP) services in their own areas.

However, we are advised by NHS London that 2007-08 will see an extra £250,000 made available to practices by Barnet primary care trust (PCT) to improve access to GP services. From 2008-09, £400,000

will be accessible on a recurrent basis to be mainly used to keep surgeries open longer.

The Department's aim nationally is that at least 50 per cent. of GP practices in each PCT area will be providing extended opening hours at weekends and/or at weekday evenings offering access to routine appointments, based on patients' expressed views and preferences.

Health Professions: Employment

Lynne Jones: To ask the Secretary of State for Health what progress has been made in implementing the Social Partnership Forum's action plan to maximise employment opportunities for newly qualified health care professionals; and if he will make a statement. [177824]

Ann Keen: Since the Partnership Agreement was launched in February 2007, the Social Partnership Forum has overseen the development and promulgation of work supporting the maximisation of graduate employment opportunities and launched an action plan in April 2007.

NHS Employers is responsible for monitoring progress against each of the action plan recommendations.

The Social Partnership Forum considered a draft interim report in November 2007, which will be published in due course.

Since July 2007, the Department has monitored the number of candidates registered in the newly qualified health care professional pools. There has been a 19 per cent. reduction registered between 11 July 2007 and 7 January 2008.

Health Services: Screening

Mr. Lansley: To ask the Secretary of State for Health what representations his Department has received from the National Screening Committee in favour of *(a)* universal and *(b)* targeted screening for (i) heart disease, (ii) kidney disease, (iii) stroke and (iv) diabetes. [178259]

Ann Keen: The United Kingdom National Screening Committee (UK NSC) recommended to the Department that screening certain subgroups of the population who are at high risk of type 2 diabetes is feasible, but that it should be undertaken as part of a vascular risk management programme in which the whole population should be offered a risk assessment that could include, among other risk factors, measurement of blood pressure, cholesterol and glucose.

The National Service Framework for Kidney Disease in England recommends that people at increased risk of developing or having undiagnosed chronic kidney disease, especially people with diabetes or hypertension are identified, assessed and their condition managed to preserve kidney function.

Following this, the Department is developing detailed proposals for the programme in England and the UK NSC is working with them.

Hearing Aids: Digital Technology

Norman Lamb: To ask the Secretary of State for Health what data are used for determining funding for digital hearing aids and NHS audiology services. [181072]

Mr. Ivan Lewis: Funding for hearing aids and audiology services is provided to primary care trusts (PCTs) as part of their general allocations. It is the responsibility of local health organisations to determine the level of audiology funding based on their knowledge of the needs of their local populations.

The PCT general allocations are calculated on a weighted capitation basis.

Heart Diseases: Health Services

Mr. Willis: To ask the Secretary of State for Health (1) what plans his Department has to co-ordinate local NHS trusts' cardiac rehabilitation programmes; [175539]

(2) what steps his Department plans to take to assist local NHS trusts to meet the target for the availability of cardiac rehabilitation services set out in the National Service Framework 2003. [175540]

Ann Keen: Cardiac rehabilitation is an evidence based, cost effective and life saving treatment, delivered by nurses and professionals allied to medicine. At best, it is multi-disciplinary, helping with the medical, behavioural, psychological and social restoration of the whole patient. Nurses and physiotherapists have key roles to play but others such as pharmacists, dieticians and psychologists should also be involved.

Chapter seven of the Coronary Heart Disease National Service Framework, published in March 2000, issued appropriate guidance to the national health service about the provision of cardiac rehabilitation services. The National Institute for Health and Clinical Excellence clinical guideline 48, "MI: secondary prevention" was subsequently issued in May 2007. This provided updated guidance to the NHS on secondary prevention in primary and secondary care for patients following heart attack and emphasised the importance of rehabilitation for these patients.

The Heart Improvement programme, an NHS support team for cardiac networks, includes cardiac rehabilitation within its work programme. A new National Cardiac Rehabilitation Audit has been introduced across England, jointly sponsored by the British Heart Foundation and the Healthcare Commission. This will provide stronger evidence on effectiveness and encourage providers to appraise and improve their cardiac rehabilitation services.

Putting guidance into practice is a matter for the NHS, working in partnership with stakeholders, including cardiac networks, and the local community. It is the responsibility of NHS organisations to plan and develop services based on their specific knowledge and expertise.

Tim Farron: To ask the Secretary of State for Health how many hospital coronary care units have closed in the last 10 years. [180106]

Ann Keen *[holding answer 21 January 2008]*: This information is not collected centrally. The decision to close hospital coronary care units is a matter for the local national health service.

Hospital Wards: Gender

Mr. Mark Field: To ask the Secretary of State for Health what progress is being made on the phasing out of mixed sex wards in NHS hospitals; and if he will make a statement. [177823]

Ann Keen: Guidance issued to the national health service requires the provision of single sex accommodation, which can take a number of forms. NHS trusts may provide single rooms, single sex bays within a mixed ward, single-sex wards or combinations of these types. We do not collect information on the number of trusts who have mixed sex wards per se.

The NHS Operating Framework for 2008-09 includes a requirement for primary care trusts to agree, publish and implement stretching local plans for improvement, with identified time scales and monitoring mechanisms. The NHS Institute for Improvement and Innovation published "Privacy and Dignity—the elimination of mixed sex accommodation. Good practice guidance and self assessment checklist", in December 2007 to support the NHS in delivering this.

Mr. Randall: To ask the Secretary of State for Health (1) what recent discussions he has had on the phasing out of mixed sex wards in hospitals; and if he will make a statement; [179340]

(2) how many mixed sex wards there are in *(a)* England and *(b)* Greater London, broken down by London borough. [179341]

Ann Keen: Single-sex accommodation should be the norm for elective care, and remains the ideal for all admissions. We have made this clear in this year's operating framework.

Guidance issued to the national health service requires the provision of single sex accommodation, which can take a number of forms. NHS trusts may provide single rooms, single-sex bays within a mixed ward, single-sex wards or combinations of these types. We do not collect information on the number of trusts who have mixed sex wards per se.

The NHS Operating Framework for 2008-09 includes a requirement for primary care trusts to agree, publish and implement stretching local plans for improvement, with identified timescales and monitoring mechanisms.

Hospitals: Cleaning Services

Daniel Kawczynski: To ask the Secretary of State for Health how much additional funding has been given to *(a)* Shrewsbury and Telford Hospital Trust and *(b)* all other hospital trusts for a deep clean. [177837]

Ann Keen: Information on the costs of individual trust plans for deep cleaning is not held by the Department. All trusts were required to submit and agree their deep clean plans, including costs, with primary care trusts and providers in their area by 14 December 2007 and this process has been monitored and assessed by the strategic health authorities.

I refer the hon. Member to the written ministerial statement issued on 21 November 2007, *Official Report*, columns 134-35WS, in which the Department made available information on the funding to support the deep clean of the national health service at regional level.

Mr. Spring: To ask the Secretary of State for Health (1) when *(a)* West Suffolk, *(b)* Addenbrookes and *(c)* Ipswich hospitals will receive a deep clean; [179187]

(2) how many hospitals in the eastern area have been deep cleaned in the last 12 months. [179239]

Ann Keen: All trusts were required to submit and agree their deep clean plans with primary care trusts in their area by 14 December 2007 and this process has been monitored and assessed by strategic health authorities (SHAs). An interim local progress report about the implementation of deep cleans will be published by SHAs shortly. All deep cleans will be complete by the end of March 2008.

Hospitals: Waiting Lists

Mr. Lansley: To ask the Secretary of State for Health what the *(a)* mean and *(b)* median (i) inpatient and (ii) outpatient waiting times were in each year from 1993-94 to 2006-07, as given by (A) Korner and (B) Hospital Episodes Statistics data. [174779]

Mr. Bradshaw: The figures are shown in the following tables.

It should be noted that Korner data measure the numbers still waiting at the end of a period, while Hospital Episodes Statistics (HES) measure the time waited for patients admitted during a year. HES figures do not take into account periods of suspension for medical and social reasons.

The NHS has delivered access targets through better waiting list management. This means that routine cases are seen "in turn" once clinical priorities have been treated. Median waits initially increase as the longest wait patients are treated and this is reflected in the HES figures.

Inpatient mean and medians in weeks from 1994

	Korner aggregate returns		*HES*	
Year ending	*Median commissioner*	*Mean commissioner*	*Median provider*	*Mean provider*
March 1994	14.4	20.2	5.9	13.0
March 1995	12.5	17.8	6.1	12.9
March 1996	11.8	15.9	6.0	12.6

Inpatient mean and medians in weeks from 1994

	Korner aggregate returns		HES	
Year ending	*Median commissioner*	*Mean commissioner*	*Median provider*	*Mean provider*
March 1997	13.2	18.1	5.7	11.8
March 1998	14.9	20.0	5.9	12.8
March 1999	12.9	18.6	6.4	14.1
March 2000	12.9	18.7	6.1	12.9
March 2001	12.6	18.1	6.3	13.3
March 2002	12.7	17.4	6.7	13.7
March 2003	11.9	15.6	7.0	14.1
March 2004	10.2	12.4	7.1	13.6
March 2005	8.5	10.6	7.4	12.0
March 2006	7.3	8.7	7.3	11.1
March 2007	6.2	7.4	7.0	10.4
October 2007	5.0	6.2	n/a	n/a

Notes:
1. HES figures relate to patients admitted during financial year ending March.
2. Korner figures relate to numbers waiting as at 31 March (or at 31 October for the current figures).

QM08R return, HES.

Incontinence: Medical Equipment

Mr. Grogan: To ask the Secretary of State for Health what patients groups and professional and industry representatives he has met in relation to his Department's consultation arrangements under Part IX of the Drug Tariff for the provision of stoma and incontinence appliances and related services to primary care. [179172]

Dawn Primarolo: On 9 March 2006, the former Minister of State met Lord Campbell-Savours and a representative from the Ileostomy and Internal Pouch Support Group. The Disability Lobby raised the review during a meeting with the Parliamentary Under-Secretary of State (Ivan Lewis) on 26 April 2007.

Lambert Hospital

Miss McIntosh: To ask the Secretary of State for Health (1) what plans he has for the future of the Lambert hospital; [179258]

(2) what the staffing levels are at Lambert hospital in Thirsk. [179268]

Ann Keen: The organisation or reconfiguration of local services is a matter for the national health service locally; in this instance the North Yorkshire and York primary care trust (PCT) working in conjunction with clinicians, patients and other stakeholders.

Information on staffing levels at the Lambert hospital is not held centrally. This can instead be obtained direct from the North Yorkshire and York PCT.

Liver Diseases

Mr. Amess: To ask the Secretary of State for Health what steps *(a)* he has taken in each year since 1997 and *(b)* plans to take in each of the next three years to reduce the incidence of liver disease; what discussions (i) he, (ii) Ministers in his Department and (iii) officials have had since January 2007 with representatives of *(A)* the medical profession and *(B)* the brewing industry on the matter; and if he will make a statement. [177131]

Dawn Primarolo: We are concerned about the increasing incidence of—and mortality from—liver disease. Since 1997, we have taken important action on a number of fronts to combat the primary causes of liver disease, namely alcohol misuse, viral hepatitis and obesity.

In 2004, the Government published the first ever cross-Government alcohol strategy. The Government's renewed alcohol strategy, 'Safe. Sensible. Social—the next steps in the National Alcohol Strategy', published in June 2007, builds on this and focuses on 18-24 year-old binge drinkers, young people under 18 who drink alcohol and harmful drinkers.

In 2007, the Department negotiated a ground breaking agreement with the drinks industry and by the end of this year we expect the majority of alcoholic drink labels to include alcohol unit information.

As part of the recent spending review, the Chancellor of the Exchequer announced that a new national priority for the national health service would be to reduce the rate of hospital admissions for alcohol related conditions. This is expected to encourage earlier identification of, and intervention for, people who drink too much, linked to advice and support from general practitioners or hospitals—shown to be the best way of reducing the kind of 'everyday' drinking which, over time, can lead to liver disease and other problems.

The Government will shortly be embarking on a £10 million advertising campaign on alcohol and health—the biggest ever. This will focus on daily drinking guidelines, so that people are better able to estimate how much they are drinking.

We have in place a range of measures to prevent and control Hepatitis B and C, which can cause serious liver disease. For example, the Hepatitis C Action Plan for England, launched in 2004, sets out a framework of action to improve the prevention, diagnosis and treatment of hepatitis C, and is supported by a centrally funded awareness campaign.

Evidence shows a direct link between obesity and fatty liver disease. Reducing obesity across the population is a key Government priority. Action to tackle obesity in both adults and children will be taken forward through the new cross-Government obesity strategy.

In addition, we are considering the possibility of developing a strategy for liver disease, which would cover health promotion as well as the full range of health services. Decisions will be informed by preliminary work undertaken in 2007, which has included a series of informal meetings with members of the medical profession and other stakeholders.

I recently met with Professor Ian Gilmore, president of the Royal College of Physicians, to discuss tackling alcohol related harm. Since January 2007, Ministers and officials have also met with the Food and Drink Federation, Alcohol Concern, the Wine and Spirits Trade Association, British retail Consortium and other representatives of the alcohol industry.

Macular Degeneration

Mr. Dismore: To ask the Secretary of State for Health what progress has been made by the National Institute for Health and Clinical Excellence on decisions relating to treatment for macular degeneration. [179055]

Ann Keen: The National Institute for Health and Clinical Excellence (NICE) has published a second Appraisal Consultation Document (ACD) on Lucentis (ranibizumab) and Macugen (pegaptanib) for the treatment of wet age-related macular degeneration. Stakeholders had until 14 January 2008 to provide comments on the ACD and these comments will be considered by NICE's Appraisal Committee before the guidance is finalised. NICE expects to publish its final guidance later in 2008.

Further detailed information on this appraisal is available on NICE's website at:

http://guidance.nice.org.uk/page.aspx?o=207024

Mental Health

Mr. Burrowes: To ask the Secretary of State for Health (1) what steps have been taken to increase provision of mental health in-reach teams in prison for those with mental illnesses which are not severe or enduring; [181487]

(2) how much funding is allocated for mental health in-reach teams in prisons in 2007-08. [181489]

Mr. Ivan Lewis: Since 2005-06, primary care trusts have been allocated £20 million a year for mental health in-reach teams in prisons.

This investment funds 102 mental health in-reach teams, which employ 360 (whole time equivalent) mental health staff.

In addition, this year an additional allocation of £2.5 million was made to further develop mental health services within male and female local prisons in line with guidance set out in the Offender Mental Health Care Pathway, published in 2005 by the Department.

Mental Health Services: Greater London

Mr. Boris Johnson: To ask the Secretary of State for Health how many mental health wards have been closed in hospitals in Greater London since 1997, broken down by primary care trust. [178458]

Mr. Ivan Lewis *[holding answer 14 January 2008]*: The information requested is not collected centrally.

National Institute for Health and Clinical Excellence

Mr. David Jones: To ask the Secretary of State for Health when the National Institute for Health and Clinical Excellence is expected to complete its assessment of Sunitinib. [181497]

Dawn Primarolo: The National Institute for Health and Clinical Excellence (NICE) is currently appraising sunitinib (Sutent) along with three other drugs, bevacizumab, sorafenib and temsirolimus, for renal cell carcinoma. We understand that subject to appeals, NICE expects to publish final guidance to the NHS in early 2009. Further information on this appraisal can be found on NICE's website at:

www.nice.org.uk/guidance/index.jsp?action=byID&o=11817

The Department has made it clear to national health service organisations that it is not acceptable to refuse to fund a treatment simply because if has not yet been appraised by NICE.

NHS: Cleaning Summit

Mr. Lansley: To ask the Secretary of State for Health on what date the NHS chief executive's Cleaning Summit will be held. [179115]

Ann Keen: The date for the Cleaning Summit will be finalised shortly.

NHS: Complaints

Dr. Richard Taylor: To ask the Secretary of State for Health how many complaints about care in the national health service are under investigation by the Healthcare Commission; and what the average length of time between the start of an investigation and the publication of a report on it has been in the last 12 months. [180164]

Mr. Bradshaw: As at 17 January 2008, the Healthcare Commission had 1,795 open independent reviews about national health service care. This compares with approximately 4,000 at the same time in 2007. At the end of December 2007, the average length of time for independent reviews was less than four months; this compares with 7.2 months at the end of December 2006.

NHS: Disease Control

Mr. Lansley: To ask the Secretary of State for Health if he will place in the Library a copy of the guidance he has issued to the NHS on,procedures for induction and training on infection prevention and control for staff. [179116]

Ann Keen: There is a statutory obligation for all national health service organisations under the code of practice for the prevention and control of healthcare associated infections, to ensure that all staff are suitably educated in the prevention and control of healthcare associated infections. In addition, the Knowledge and Skills Framework includes health, safety and security as a core aspect of all jobs under "Agenda for Change". The Knowledge and Skills Framework makes clear that it is vital that each member of staff takes responsibility for promoting the health, safety and security of patients, clients, the public, colleagues and themselves. This would include reducing the risks of healthcare associated infections.

Skills for Health has developed competence frameworks and national occupational standards for healthcare staff in all sectors of the workforce. These include competencies and national occupational standards in infection prevention and control. More information on this can be found on the Skills for Health website at:

www.skillsforhealth.org.uk/page/competences/completed-competencesprojects/list/infection-prevention-and-control#

The Department is currently working together with partners in the Social Partnership forum, such as trade unions and employers, to develop and implement workforce policies in relation to tackling healthcare associated infections. This will include producing a guide this year for local employers on how Human Resources processes such as training, induction and disciplinary action can be best used to encourage good practice in infection control.

In addition, the Department is working with undergraduate and postgraduate deans, the General Medical Council, the Medical Royal Colleges and the Nursing and Midwifery Council to ensure that training in infection prevention and control is embedded at all stages of medical and nurse training.

There are a number of resources that are available to train staff in best practice in infection prevention and control. These include:

the NHS Infection Control programme, a free online resource funded designed to increase understanding of infection control practice in clinical and non-clinical staff this is available at: www.infectioncontrol.nhs.uk;

the National Resource for Infection Control, a one-stop shop for infection control guidance which is available at: www.nric.org.uk; and

online training for doctors on methicillin resistant Staphylococcus aureus and Clostridium difficile which is available at: www.doctors.net.uk.

NHS: Drugs

Anne Milton: To ask the Secretary of State for Health what representations he has received from manufacturers of medical consumables on the classification of their products by his Department; what steps he plans to take in response; and if he will make a statement. [165559]

Mr. Bradshaw: Following publication of "Arrangements under the Part IX of the Drug Tariff for the provision of stoma and incontinence appliances and related services to Primary Care revised proposals" on 6 September 2007, the Department received a number of representations that indicated that some errors highlighted in the item classification table in the November 2006 consultation had not been corrected in the latest published consultation document.

In summary, 478 editorial changes have been requested; the majority could be considered errors, for example incorrect reference codes.

In addition, 124 omissions have been identified mainly as a result of companies change of ownership during the course of this consultation.

These will be corrected when the classification is revisited.

NHS: Expenditure

Mr. Hoban: To ask the Secretary of State for Health (1) what public funds in addition to those announced in the 2007 Spending Review have been allocated to the *(a)* programme of preventative care, *(b)* checks in GP surgeries and *(c)* screening programme announced by the Prime Minister on 7 January 2008; [180229]

(2) how much funding will be provided for the screening programme announced by the Prime Minister on 7 January 2008. [180340]

Dawn Primarolo: I refer the hon. Member to the answer I gave to the hon. Member for South Cambridgeshire (Mr. Lansley) on 14 January 2008, *Official Report*, column 1033W.

NHS: Greater London

Robert Neill: To ask the Secretary of State for Health how much revenue was received from the sale of NHS property in London in each year since May 1997. [180635]

Mr. Bradshaw: Information is collected on the cash receipts from the sale of NHS capital assets in annual audited summarisation schedules. Information is not available on the sale of assets which have not been capitalised. The following table includes sales by health authorities, strategic health authorities, primary care trusts and national health service trusts in London from 1 April 2000 to 31 March 2007 by financial year. Receipts include sales to other NHS organisations as well as to the private sector. Information is not held prior to 2000 by individual NHS bodies therefore 2000-01 is the earliest year which can be provided.

Receipts from the sale of NHS capital assets in London

	Receipts from all capital assets (£000)
2000-01	141,962
2001-02	136,075
2002-03	93,876
2003-04	142,550
2004-05	143,272
2005-06	123,951
2006-07	84,122

NHS: Negligence

Mr. Lansley: To ask the Secretary of State for Health pursuant to paragraph 21, page 67 of his Department's resource accounts for 2006-07, on what basis his Department calculated the periods over which clinical negligence provisions are expected to be payable. [178286]

Ann Keen: All clinical negligence claims are managed and accounted for by the NHS Litigation Authority. In arriving at its valuation of provisions when constructing its own annual accounts the authority effectively reviews the value of individual reported claims against the national health service.

This review is part of the continuous legal process adopted by the authority and includes an assessment of the likely timing of settlement of each claim, ie the point at which any damages payable are likely to be agreed along with associated third party costs. For claims not yet reported but where the negligent incident is considered to have already occurred the authority makes a global incurred but not reported (IBNR) provision in its accounts. This IBNR provision is an actuarially assessed value based upon extensive data, held by the authority, relating to the level of reporting of negligent incidents within the English NHS.

The value of this IBNR provision is also subject to an assessment of likely timing both in regard to when the claims are likely to become reported but also when they are likely to settle.

Essentially the authority then combines the individual claims data for all known claims with the global IBNR calculation in order to arrive at a forecast regarding the future timing and value of the settlement of claims against the NHS and it is these results which are reported within paragraph 21 on page 67.

Mr. Lansley: To ask the Secretary of State for Health pursuant to paragraph 21, page 67 of his Department's resource accounts for 2006-07, for what reason provision for clinical negligence was increased during 2006-07. [178288]

Ann Keen: The reporting of clinical negligence provisions referred to in paragraph 21 are essentially data reported from the activities of the NHS Litigation Authority. There are several reasons for the increases in value of clinical negligence provisions in any given financial period and during 2006-07 the main ones were:

the value of new claims reported to the authority where the negligent treatment had been delivered in the same financial period, ie where a patient has brought a claim for negligence in the same financial year that they allege negligent treatment. (Claims reported in 2006-07 where the negligent treatment was in an earlier financial year would already have been provided for in the accounts of the authority as incurred but not reported (IBNR));

where the value of existing claims has required alteration due to improved or further knowledge regarding the individual claim, eg where the courts have established new values for specific heads of damage or where original valuations excluded damage which is subsequently agreed to be relevant through the litigation process; and

actuarial review of IBNR suggests that forecast values of claims to be reported in the future require amendment, for example because claim reporting patterns appear to suggest more claims than originally forecast are being reported for a particular financial period or periods.

NHS: PFI

David Wright: To ask the Secretary of State for Health how many *(a)* primary care trusts, *(b)* hospitals and *(c)* other NHS bodies are involved in litigation with private finance initiative contractors. [180725]

Mr. Bradshaw: There are no instances of legal proceedings taking place between an national health service body and a private finance initiative contractor.

NHS: Standards

Mr. Dismore: To ask the Secretary of State for Health what steps he is taking to ensure patients *(a)* at Barnet and Chase Farm hospital, *(b)* at the Royal Free hospital, *(c)* at Edgware hospital and *(d)* in the NHS (i) are treated with dignity and respect and (ii) have their human rights observed. [179107]

Mr. Bradshaw: Treating service users with dignity and respect is an important part of hospital care. Hospitals are aware of the need to improve the way in which services are offered to promote dignity and are monitored against it through Healthcare Commission inspections.

I understand that in the most recent Healthcare Commission assessments, for 2006-07, Barnet primary care trust, Barnet and Chase Farm hospitals NHS trust and Royal Free Hampstead NHS trust all met all of the assessments criteria that relate to dignity and respect.

Northwick Park Hospital: Maternity Services

Mr. Dismore: To ask the Secretary of State for Health what progress is being made in improving maternity services at Northwick Park hospital; and if he will make a statement. [179016]

Mr. Bradshaw: The provision of maternity services at Northwick Park hospital is a matter for the local national health service.

In 2005, the Department introduced "special measures" at the maternity unit at Northwick Park hospital following a report from the Healthcare Commission. Following improvements to the service, these were lifted on 30 September 2006.

We have been informed that the NHS Litigation Authority has recently awarded the maternity unit at Northwick Park hospital level 2, the highest level being 3, in the Clinical Negligence Scheme for Trusts—a national scheme to gauge the safety of clinical care, meaning that the

'maternity service proactively uses internal and external information to improve clinical care'.

Nurse Family Partnerships

Mr. Hoban: To ask the Secretary of State for Health what plans there are to extend the services offered by nurse-family partnerships. [180230]

Beverley Hughes: I have been asked to reply.

Over the 2007 spending review period we will be investing £30 million to:

Conduct the final year of the small scale testing phase of the family nurse partnership (called nurse-family partnership in the US), begun in March 2007 on 10 sites in England and running until March 2009;

increase the number of sites testing and delivering the family nurse partnership intervention in England by 20 sites in 2008-09, with the decision about possible further expansion in subsequent years being informed by evaluation outcomes from operating the first 30 sites;

conduct a research trial into the impact of the family nurse partnership in England; and

support integration of the family nurse partnership into the universal child health promotion programme.

Nurses: Training

Mr. Lansley: To ask the Secretary of State for Health how many training posts for nurses specialising in *(a)* inflammatory bowel disease, *(b)* upper gastrointestinal cancer, *(c)* lower gastrointestinal cancer, *(d)* stoma care and *(e)* liver disease there were in the last five years. [178033]

Ann Keen: This information is not collected centrally.

The annual national health service workforce census does not separately identify the number of post-registration training posts from the rest of the nursing workforce.

The Government have supported the development of a range of specialist roles within nursing. However it is for local NHS organisations to commission training places and to deploy specialist nurses in accordance with their local needs.

Osteoporosis: Females

Mr. Burstow: To ask the Secretary of State for Health how many women have been diagnosed with osteoporotic fractures in each age cohort in the London region in each of the last five years; and if he will make a statement. [178417]

Mr. Bradshaw: The information requested is not held centrally.

Physiotherapy: Barnet

Mr. Dismore: To ask the Secretary of State for Health what steps he is taking to improve access to physiotherapy services in Barnet; and if he will make a statement. [177997]

Ann Keen: The provision of physiotherapy services in Barnet is the responsibility of the local national health service.

Nationally, the Department is implementing a therapies improvement programme to improve the available information and data management, and improve access to services provided by allied health professionals. This includes the development of a tool designed to improve access to physiotherapy services.

The Department is also collaborating with the Chartered Society of Physiotherapy to pilot introducing self-referral to physiotherapy.

Royal National Orthopaedic Hospital Stanmore

Mr. Dismore: To ask the Secretary of State for Health if he will make a statement on the future of the Royal National Orthopaedic hospital, Stanmore. [178070]

Mr. Bradshaw: The future of the Royal National Orthopaedic hospital (RNOH) is a matter for the local national health service (NHS).

However, I am informed that NHS London's Capital Investments Committee discussed proposals for the future of the Royal National Orthopaedic hospital in a meeting on 14 January 2008. The Capital Investments Committee confirmed that it is seeking an outline business case for development of the RNOH's Stanmore site. NHS London expects to receive a fully worked up outline business case from the Trust by the end of February 2008.

Screening

Mr. Lansley: To ask the Secretary of State for Health (1) what estimate he has made of the number of adults who received a regular check up on the NHS in the latest period for which figures are available; [167792]

(2) how many more adults in each year from 2007-08 to 2010-11 he expects will receive a regular check-up on the NHS; and how frequently each adult will receive these check-ups; [167793]

(3) by what date he expects his programme for every adult to receive a regular check-up on the NHS to be fully implemented; [167794]

(4) what guidance he has issued to trusts to ensure that every adult receives a regular NHS check-up. [167795]

Mr. Bradshaw: The General Medical Services contract requires general practitioner practices to:

invite all newly registered patients for a consultation within six months of registration;

provide, on request, a consultation to all patients aged 75 or over who have not had a consultation within the last 12 months; and

provide, on request, a consultation for patients aged 16 to 74 who have not had a consultation within the last three years.

There are no data collected centrally on the number of adults who receive such consultations.

The Department is currently developing proposals for a screening programme. The purpose of the screening programme will be to identify people's levels of risk for cardiac and vascular disease so that they can be offered preventive measures.

The exact nature of a vascular risk assessment and management programme—and the operational timescales for implementing the programme—are still the subject of developmental work.

Written Answers to Questions

Friday 25 January 2008

CULTURE, MEDIA AND SPORT

Overseas Sports Programmes

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport how much has been allocated by *(a)* his Department and *(b)* UK Sport to overseas sports programmes until 2012. [181786]

Mr. Sutcliffe *[holding answer 24 January 2008]*: No firm allocations from departmental or UK Sport budgets have been made for overseas sports programmes beyond 2008-09.

Allocations to date for the years 2007-08 and 2008-09 are:

£

	2007-08	*2008-09*
(a) From the Department for Culture, Media and Sport		
Total	£200,000	
(b) From UK Sport		
Total	1,609,000	1,530,000

Sportsmatch UK

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport what the Government's plans are for Sportsmatch UK; and if he will make a statement. [181782]

Mr. Sutcliffe *[holding answer 24 January 2008]*: Management of the Sportsmatch programme in England successfully transferred to Sport England's direct control in April 2007. Sport England is in the process of developing and agreeing with Ministers their new three-year strategy for 2008-11. We envisage that small grants, with matched funding, will form a part of the new strategy. Sport England is consulting partners and stakeholders on whether the Sportsmatch brand should continue.

Trade Unions

Mr. Hoban: To ask the Secretary of State for Culture, Media and Sport what meetings he has had with trades union officials since 1 July 2007; on what dates; and with which trades unions. [179857]

Mr. Sutcliffe: Ministers meet many people as part of the process of policy development. It is not normal practice to disclose details of such meetings.

NORTHERN IRELAND

Departmental Accountancy

Mr. Hoban: To ask the Secretary of State for Northern Ireland what items of his Department's *(a)* revenue and *(b)* expenditure are uprated using (i) the consumer prices index, (ii) the retail prices index and (iii) other measures of inflation. [179940]

Mr. Woodward: The requested information is as follows:

(a) Revenue generated by the Northern Ireland Office is based on prices set by Government legislation and therefore the Department does not increase prices through indexation or any other measure of inflation.

(b) The Northern Ireland Office carries out an annual indexation exercise on its Fixed Assets using the Price Index Numbers for Current Cost Accounting as well as the Building Cost Information Service (BCIS), Residential Land Index and the Dwellings Index in relation to Land and Buildings.

Inflation is also taken into consideration in the preparation of business cases for future expenditure in accordance with Treasury guidance.

Departmental ICT

Susan Kramer: To ask the Secretary of State for Northern Ireland how many *(a)* male and *(b)* female members of staff in his Department were issued with personal digital assistants in each year since 2001; and if he will make a statement. [181363]

Mr. Woodward: The figures shown in the following table include the numbers of personal digital assistants, including blackberries and most recently smart phones issued to staff each year within the NI0. It should be made clear however that some of these items may be re-issued when there are staff changes.

	Male	*Female*
2001	0	0
2002	0	0
2003	4	2
2004	3	2
2005	4	2
2006	6	2
2007	4	1
2008	5	4

Please note none of these devices are allowed to be connected directly to the NIO confidential ICT network.

DEFENCE

Afghanistan: Peacekeeping Operations

Ann Winterton: To ask the Secretary of State for Defence how many of the helicopters in Afghanistan not fitted with winches are fitted with an alternative device capable of extracting personnel from situations where landing is impossible, broken down by device. [181044]

Mr. Bob Ainsworth: None of the Apache or Lynx helicopters deployed to Afghanistan are equipped with a winch or any other device designed to extract personnel from situations where landing is impossible. That is not the purpose of those helicopters. All UK Sea King and all UK Chinooks deployed in Afghanistan are equipped with winches.

Armed Forces Compensation Scheme

Dr. Murrison: To ask the Secretary of State for Defence what estimate he has made of the effect on costs of the changes in arrangements for payment of lump sums under the Armed Forces Compensation Scheme coming into force on 8 February 2008. [180518]

Derek Twigg: There are at present 24 personnel with serious multiple injuries who have submitted a claim and will benefit from the change to the multiple injury rule which comes into effect on 8 February 2008. Under the rules of the Armed Forces Compensation Scheme, individuals have up to five years in which to make a claim, accordingly, there maybe others who have yet to claim. However, it is estimated that the 24 cases will cost an additional £2-4 million following the revised rule coming into effect.

Estimating the numbers of potential claimants and therefore future costs is always difficult. The Ministry of Defence will meet its obligations to pay entitlements to compensation in accordance with the rules of the Armed Forces Compensation Scheme.

Armed Forces: Pensions

Dr. Fox: To ask the Secretary of State for Defence what work is being undertaken by his Department on the cost and structure of the Armed Forces' Pension Scheme. [179671]

Derek Twigg: The costs of the Armed Forces Pensions Schemes are routinely monitored by officials. The last significant review of the Armed Forces Pensions Schemes resulted in the Armed Forces (Pensions and Compensation) Act 2004 and the creation of the pension scheme known as AFPS 05 in April 2005. As part of the ongoing process of providing such benefits we are keeping under review how to manage the Schemes' long term liabilities.

Athena Mechanism

Dr. Fox: To ask the Secretary of State for Defence how much expenditure from the public purse has been spent on European Security and Defence Policy military operations *(a)* under the Athena mechanism and *(b)* not under the Athena mechanism since January 2004, broken down by operation. [177526]

Mr. Bob Ainsworth *[holding answer 10 January 2008]:* The amount spent on ESDP military operations since January 2004 under the Athena mechanism is set out as shown.

The amount spent on ESDP military operations since January 2004 not under the Athena mechanism format includes national borne costs which are held theatre wide rather than for NATO/ESDP (for example in the Balkans). Further work is therefore required to determine these costs as accurately as possible. I will write to the hon. Member as soon as this work is complete.

EU operation	*Where*	*When*	*Under ATHENA (£ million)*
ALTHEA	(Bosnia and Herzegovina	Since July 2004	15.177
EUFORDRC	Democratic Republic of Congo	April 2006 to November 2006	1.417
EUFOR CHAD/ CAR	CHAD/ Central African Republic	Yet to deploy	5.902
Total	—	—	22.496

Substantive answer from Mr. Bob Ainsworth to Dr. Fox:

I undertook to write in answer to your Parliamentary Question of 14 January 2007, *Official Report*, column 878W, with more detail on the amount spent on ESDP military operations since January 2004 not under the Athena mechanism format.

In addition to the figures already provided, the national borne cost for NATO and ESDP missions is £208.95 million for the period requested. As this figure represents a national pan-Balkans commitment it has not been possible to disaggregate further between the NATO-led mission in Kosovo and the missions in Bosnia and Herzegovina, at first led by NATO and after July 2004 led by the EU.

For the EUFOR mission to the Democratic Republic of Congo mission, two staff officers were deployed, but it has not been possible to disaggregate this figure.

For the EUFOR mission to Chad and the Central African Republic, two staff officers have deployed to the French OHQ in Paris and two staff officers will deploy with the Force Headquarters to Chad, but the figure for these costs has not yet been identified.

Departmental Data Protection

Dr. Fox: To ask the Secretary of State for Defence pursuant to the statement of 22 January 2008, *Official Report*, column 1225, on MOD (data loss), whether the laptop stolen on 9 January 2008 was a departmental laptop or a privately owned laptop. [182389]

Des Browne: The laptop stolen on 9 January 2008 was a departmental laptop.

Departmental Equipment

Dr. Fox: To ask the Secretary of State for Defence (1) pursuant to the answer on 19 January 2007, *Official Report*, columns 1363-4W, on departmental equipment, how many of the computers which have been stolen since 1998 contained information with a classification of *(a)* none, *(b)* restricted, *(c)* confidential, *(d)* secret and *(e)* top secret; [182387]

(2) pursuant to the answer of 10 December 2007, *Official Report*, column 58W, on departmental computers, how many of the computers which were stolen in 2007 had a classification of *(a)* no classification, *(b)* restricted, *(c)* confidential, *(d)* secret and *(e)* top secret. [182390]

Mr. Bob Ainsworth: As a result of the theft of the Royal Navy laptop, the Ministry of Defence has initiated an investigation into the details of all lost or stolen computers since 2003.

I will write to the hon. Member when the information is available and arrange for a copy of my reply to be placed in the Library of the House.

Devonport Naval Base

Mr. Streeter: To ask the Secretary of State for Defence which ships are base-ported at Devonport Naval Base, Plymouth. [182119]

Mr. Bob Ainsworth: There are 26 Royal Navy vessels currently base ported at HM Naval Base Devonport, as shown in the following table :

Class of vessel	*Name of vessel*
Nuclear submarines	HMS Trafalgar
	HMS Turbulent
	HMS Tireless
	HMS Triumph
	HMS Torbay
	HMS Talent
	HMS Trenchant
Amphibious vessels	HMS Ocean
	HMS Albion
	HMS Bulwark
Type 22 Frigates	HMS Campbeltown
	HMS Cumberland
	HMS Chatham
	HMS Cornwall
Type 23 Frigates	HMS Montrose
	HMS Northumberland
	HMS Monmouth
	HMS Sutherland
	HMS Somerset
	HMS Portland
	HMS Argyll
Survey vessels	HMS Echo
	HMS Scott
	HMS Gleaner
	HMS Roebuck
	HMS Enterprise

Health Services: Armed Forces

Richard Younger-Ross: To ask the Secretary of State for Defence pursuant to the answer of 10 December 2007, *Official Report*, column 312W, on health services: armed forces, what funding is to be made available for care home funding for war pensioners in each financial year until 2016-17. [179747]

Derek Twigg: Under the War Pensions Scheme the Department has the discretionary power, in Article 21 of the Service Pensions Order, to meet the cost of any necessary expenses in respect of the medical, surgical or rehabilitative treatment of a member of the armed forces that arise wholly or mainly as a result of the disablement due to service before 6 April 2005 where it is not provided free of charge under other legislation of the United Kingdom. This power predates the NHS and is now little used because health care is through the normal mechanisms of the health service.

MOD continues to fund the fees of a small number of war pensioners who are in homes that provide skilled nursing care for the condition for which they receive a war pension. Funding is provided on a case-by-case basis. Funding under the War Pensions Scheme comes from Annually Managed Expenditure, is demand led and is not subject to forecast other than for the purposes of the War Pensions supply estimate.

Lobbying

Mr. Carswell: To ask the Secretary of State for Defence how many lobbyists have passes giving them access to his Department's building in Whitehall; and if he will make a statement. [174786]

Mr. Bob Ainsworth: MOD security policy allows the issue of passes to persons who, for business reasons, require frequent access to MOD buildings and who meet relevant security criteria. Details of the company each individual is employed by are held, but their post title or function is not usually recorded.

Military Aircraft: Helicopters

Ann Winterton: To ask the Secretary of State for Defence what progress has been made in hiring helicopters for use in theatre by *(a)* the UK and *(b)* NATO. [181041]

Des Browne: As the Prime Minister announced on 12 December 2007, *Official Report*, column 304, NATO has negotiated a contract to lease commercial helicopters to move routine freight in Afghanistan, which will free up military helicopters for other tasks. This contract will commence shortly and will be of significant benefit to UK forces. There are no separate UK commercial helicopter leasing initiatives planned although commercial helicopters were leased for a few days in December 2007 to help deliver Christmas mail and parcels to troops in Afghanistan.

HOME DEPARTMENT

Community Policing

Mr. Duncan Smith: To ask the Secretary of State for the Home Department what the recommended minimum number per ward is of participants in key individual networks. [179820]

Mr. McNulty *[holding answer 17 January 2008]:* Key individual networks (KINs) are intended as a mechanism for neighbourhood policing teams to canvass the opinions of the local public on a broad range of policing-related issues.

The KIN structure is flexible in nature; the minimum number of participants per ward or boundary in KINs is governed by the needs of the community that it

serves. For example, the Metropolitan Police Service has identified its neighbourhoods based on existing ward boundaries. Other police forces have used different methodologies to identify their neighbourhoods such as discussions with local residents and partnerships, together with an analysis of local crime and demographic data.

Community Support Officers: Humberside

Mr. Graham Stuart: To ask the Secretary of State for the Home Department what the retention rate of police community support officers was in the Humberside Police Authority area in each year since 2002-03; and if she will make a statement. [180784]

Mr. McNulty: Information on the retention rate of police community support officers in Humberside is a matter for the chief constable and his police authority.

Crime: Databases

Mr. Laws: To ask the Secretary of State for the Home Department what discussions *(a)* Ministers and *(b)* officials in her Department have had with (i) foreign governments and (ii) foreign intelligence services on granting access to UK databases to foreign law enforcement and intelligence agencies; and if she will make a statement. [180149]

Mr. McNulty: This Government believe that the sharing of data with other countries is fundamental to our ability to tackle serious crime, terrorism and illegal immigration. We have therefore been engaging with our EU partners to pursue a number of projects to improve the exchange of law enforcement data including through the joining up of national databases on DNA, fingerprints and vehicle registration (the Prüm Council Decision), and through the joining up of criminal records databases.

The United Kingdom is a significant provider of information to Europol and Eurojust to facilitate the cross-border prosecution of terrorism and organised crime. We are also in the process of implementing the Schengen Information System II, which will provide us with alerts on matters such as missing persons, fugitives and stolen vehicles.

As part of the G8 the UK has encouraged all states to contribute data to and participate in the Interpol 1-24/7 database for lost and stolen passports and identity documents. G8 states took the lead by being among the first states globally to submit all of their data on both issued and unissued lost and stolen documents to Interpol.

Furthermore, the UK is participating in a project to evaluate the extent that G8 countries share data between their own migration authorities and police and other competent security authorities with a view to development of best practice procedures for this. The UK has also led a project to create the G8 DNA 1-24/7 Sear Request Network, which involves access between national databases (although on a hit/no hit basis only for DNA). It does not include the creation of a common data base, automatically link databases or allow automatic access to an existing database or information held on the database of a G8 state from outside that state itself. All participating states retain direct in-country control to enable them to decline any inquiry.

We have numerous bilateral relationships with key partners both in Europe and beyond, including the United States, which enable our law enforcement and intelligence agencies to cooperate effectively to protect the security of the public in the UK and other countries.

In all cases where the Government shares personal data with other countries, it must ensure the relevant arrangements comply with legal obligations to provide appropriate safeguards for privacy rights, including those set out in the European Convention on Human Rights and the Data Protection Act 1998 (which implemented EC Directive 95/46 on the protection of individuals with regard to the processing of personal data). Many of the key instruments providing for the sharing of personal data between law enforcement agencies at the EU level incorporate data protection safeguards tailored to the specific types of data to be shared. The Data Protection Framework Decision will, when adopted, set uniform data protection standards for personal data sent from one member state to another, and also to European bodies such as Europol, for the purposes of the prevention, investigation, detection or prosecution of criminal offences or the execution of criminal penalties.

Dogs: Children

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department how many attacks on children by dogs have been have been recorded in each year since the Dangerous Dogs Act 1991 came into force by *(a)* Rottweilers and *(b)* each category of dog banned under the Act. [181153]

Mr. McNulty: The information requested is not available centrally from the recorded crime statistics. Attacks by dogs are not crimes as defined in law. The relevant offences under the Dangerous Dogs Act 1991 relate to an owner or person in charge allowing a dog to be dangerously out of control in a public place injuring any person or allowing a dog to enter a non-public place and injure any person. These offences would generally be recorded under the Home Office classification 'Less serious wounding' and cannot be separately identified from other offences recorded within that classification.

Essex Police Authority: Costs

Mr. Amess: To ask the Secretary of State for the Home Department what the *(a)* staff and *(b)* administrative costs of Essex police authority were in each year since 1997. [180626]

Mr. McNulty: This information is not held centrally. The staffing and related costs of the authority are a matter for the Essex police authority.

Essex Police: Emergency Calls

Mr. Amess: To ask the Secretary of State for the Home Department if she will make a statement on the performance of the Essex police emergency call system. [174063]

Mr. McNulty: HMIC inspected all forces in England and Wales across a number of police business areas as part of their Baseline assessments up until 2007. Contact management was one of those business areas. In the three years to 2007, Essex police had been graded Fair (2003-04), Fair (2004-05) and GOOD (2005-06), indicating steady and continual improvement.

In the year to date Essex have been performing very well in respect of their 999 emergency call-handling, answering 92.5 per cent. of call received within 10 seconds, which is 2.5 per cent. above the expected target of 90 per cent. in 10 seconds as laid down in the National Call Handling Standards.

Liberation Tigers of Tamil Eelam

Keith Vaz: To ask the Secretary of State for the Home Department (1) what restrictions are placed on the activities of the Liberation Tigers of Tamil Eelam within the UK; [181339]

(2) what plans she has to reconsider the restrictions placed on the activities of the Liberation Tigers of Tamil Eelam; [181340]

(3) how often she reviews the proscription of organisations considered to be involved in terrorism; [181341]

(4) whether the proscriptions of organisations under the Terrorism Act 2000 are indefinite; and if she will make a statement. [181405]

Mr. McNulty: The Liberation Tigers of Tamil Eelam (LTTE) was proscribed by the then Home Secretary in 2001. The Terrorism Act 2000 contains a number of offences relating to proscribed organisations including membership, fundraising, inviting support and wearing clothes or displaying articles so as to arouse reasonable suspicion that the wearer is a member or supporter of any such organisation. The Police and Crown Prosecution Service are responsible for, respectively, investigating and prosecuting offences under this legislation.

The proscription of organisations is not subject to a time limit. And an organisation which is proscribed can only be de-proscribed by an order subject to the positive resolution procedure removing it from schedule 2 of the Terrorism Act 2000. However, it is our policy and practice to review regularly proscribed organisations on the current list and to assess whether they should continue to be proscribed. Any person who is affected by an organisation's proscription can apply to the Secretary of State for it to be de-proscribed, and we take any such requests very seriously.

Members: Correspondence

Jenny Willott: To ask the Secretary of State for the Home Department when she will reply to Question 164672 tabled by the hon. Member for Cardiff Central, on 12 November 2007 for answer on 15 November; and if she will make a statement. [175550]

Meg Hillier: I refer the hon. Member to the answer given on 23 January 2008, *Official Report*, column 2062W.

Merseyside Police: Modernisation

Mr. Frank Field: To ask the Secretary of State for the Home Department what representations she has received on the compatibility of the restructuring of the Merseyside police with the framework laid down by her work force modernisation agenda. [164457]

Mr. McNulty *[holding answer 15 November 2007]:* I am not aware of any restructuring being undertaken by Merseyside police and have received no representations about it.

National Bureaucracy Advisor on Police Reform

Mr. Ruffley: To ask the Secretary of State for the Home Department who the current National Bureaucracy Advisor on Police Reform is; and whether the position is vacant. [176054]

Mr. McNulty: The National Bureaucracy Advisor role has been vacant since July 2006. Sir Ronnie Flanagan's Review of Policing, which began on 26 April 2007, is taking forward the work on reducing bureaucracy in the service.

Recommendations for reducing police bureaucracy were made in Sir Ronnie's interim report and are being taken forward by the National Policing Improvement Agency. The agency will be shaping the staffing and leadership of this work to meet the requirements made in Sir Ronnie's report.

Sir Ronnie's final report will be published shortly.

Police Patrolling

Mr. Burns: To ask the Secretary of State for the Home Department pursuant to the answer of 10 December 2007, *Official Report*, column 90W, on police patrolling, what the respective figures are for each year from 1997-98 to 2005-06 based on the same definition used in the answer. [174000]

Mr. McNulty *[holding answer 18 December 2007]:* The information requested on the percentage of time spent on front-line duties by the Essex police is set out in the following table. This measure was only introduced in 2003-04 and is not available for earlier years, and the definition is kept under review.

Essex police—time spent on front-line duties 2003-04 to 2006-07

	Percentage time spent on front-line policing
2003-04	56.8
2004-05	60.9
2005-06	62.9
2006-07	64.8

Police: Complaints

Jeff Ennis: To ask the Secretary of State for the Home Department how many formal complaints were made against *(a)* South Yorkshire police and *(b)* English police forces to the Independent Police Complaints Commission and its predecessor in each of the last five years; and how many of those complaints were upheld. [181045]

Mr. McNulty: Responsibility for the collation and publication of complaints against the police rests with the Independent Police Complaints Commission.

Police: Finance

Mr. Dai Davies: To ask the Secretary of State for the Home Department what assessment she has made of the effects on police involvement in community services of the planned reduction in funding for police authorities in 2008-09. [180295]

Mr. McNulty: There is no reduction in funding for police authorities in 2008-09.

The provisional police funding settlement for the next three years was announced on 6 December 2007. General grant will increase by 2.7 per cent. in each year with each police authority in England and Wales receiving a minimum increase in general grant of 2.5 per cent. for each of those years. In addition, a range of other funding will be made available to all police authorities. In line with the Government's commitment to neighbourhood policing, the settlement includes an increase from £315 million to £324 million for neighbourhood policing provision for 2008-09.

Police: Manpower

Mr. Ruffley: To ask the Secretary of State for the Home Department how many and what percentage of police officers left the police service *(a)* within two to five years, *(b)* within five to 10 years and *(c)* after over 10 years of joining, in each year since 1997, broken down by police force area. [176315]

Mr. McNulty: Data are available from 2002-03 onwards, and the Home Office only started collecting this level of detail from that year.

These figures are given in the following tables, and are on the same basis as the ones given for police officers who left the service within two years of joining—28 November 2007, *Official Report*, columns 471-75W. The number of transfers between forces has been separately identified as these officers, while leaving individual police forces, have not left the police service itself.

Number of police officers leaving the force (with the number of transfers separately identified) and the percentage of total police officer leavers that this figure represents, from 2002-03 to 2006-07[1]

[1] Leaving figures include police officers leaving the force within the designated range of years of joining or re-joining the service, due to dismissals (including requirement to resign), voluntary resignations, medical retirements, ordinary retirements, all transfers and all deaths.
[2] Data for Lancashire were not available in 2002-03.
[3] Data for Leicestershire were not available in 2004-05.
[4] In order to compare data between 2002-03 and 2006-07 Lancashire and Leicestershire have been excluded from the total.

Police: Training

Mr. Ruffley: To ask the Secretary of State for the Home Department how many police officer recruits in England and Wales began residential training in each year since 1999. [176038]

Mr. McNulty: The number of police officer recruits in England and Wales who began residential training in each of the year from 1999 to 2006 is given in the following table. The new Initial Police Learning and Development Programme commenced in April 2006 and, apart from recruits to the Metropolitan Police Service, negated the requirement for a residential element as training is provided locally.

	1999-2000	*2000-01*	*2001-02*	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*Total 1999-2006*
Forces in England and Wales[1]	3,613	5,787	7,421	7,760	8,434	6,023	3,641	42,679
Metropolitan Police Service[2]	994	1,350	2,748	3,489	3,362	2,351	1,332	15,626
Total	4,607	7,137	10,169	11,249	11,796	8,374	4,973	58,305
Non Home Office force recruits trained for service inside England and Wales								
Total	73	109	101	119	183	311	264	1,169
Non Home Office force recruits trained for service outside England and Wales (Channel Islands)								
Total	53	46	48	29	26	21	19	242

[1] Excludes Metropolitan police force, British Transport police, NCS/NSPIS, Channel Island police and non-Home Office police forces
[2] This figure includes transferees from other forces who underwent residential training

Reoffenders

Mr. Ruffley: To ask the Secretary of State for the Home Department how many persistent and prolific offenders have been identified in each police force area in each of the last three years for which figures are available. [176119]

Mr. McNulty: Data from the performance management arrangements for the prolific and other priority offender programme (JTrack) provides the number of such offenders identified through partnership arrangements in each police force area. The data are provided in the following table. The data cover the two calendar years 2005 and 2006. Figures for the calendar year 2007 are not yet available for publication.

Sum of prolific and priority offenders

Police force area	*At December 2005*	*At December 2006*
Avon and Somerset	239	245
Bedfordshire	123	139
Cambridgeshire	93	110
Cheshire	182	180
City of London	5	12
Cleveland	127	145
Cumbria	66	70
Derbyshire	368	373
Devon and Cornwall	395	365
Dorset	208	208
Durham	61	58
Dyfed Powys	93	82
Essex	258	235
Gloucestershire	100	106
Greater Manchester	739	846
Gwent	79	85
Hampshire	209	274
Hertfordshire	247	149
Humberside	181	214
Kent	334	261
Lancashire	424	367
Leicestershire	330	353
Lincolnshire	155	232
Merseyside	410	445
Metropolitan police	1,080	1,185
Norfolk	131	110
North Wales	159	120
North Yorkshire	56	89
Northamptonshire	195	229
Northumbria	208	236
Nottinghamshire	505	558
South Wales	190	204
South Yorkshire	249	252
Staffordshire	157	252
Suffolk	173	173
Surrey	151	191
Sussex	320	320
Thames Valley	326	351
Warwickshire	74	88
West Mercia	155	120
West Midlands	714	768
West Yorkshire	284	243
Wiltshire	81	73
All forces	10,634	11,116

Notes
1. Figures represent those PPOs in each area who were known to be members of schemes in December of the year concerned, based on JTrack data. 2. If a PPO belonged to more than one scheme during the December of the year concerned then they would be counted more than once.

WORK AND PENSIONS

Departmental Freedom of Information

Norman Baker: To ask the Secretary of State for Work and Pensions what percentage of Freedom of Information requests received by his Department have given rise to responses that have been published by his Department. [180214]

Mrs. McGuire: This Department has adopted a selective disclosure log whereby only the most interesting and high profile pieces of information released in response to Freedom of Information requests are published. In 2005 and 2006 around 1 per cent. of such responses were published on the Department's web-based Freedom of Information disclosure log. The Department does however routinely publish large amounts of information on its website including policy documents and research, analysis and statistics.

Departmental Manpower

Tom Brake: To ask the Secretary of State for Work and Pensions how many and what proportion of posts in his Department have been re-categorised from back office to frontline posts as classified by the Gershon efficiency review in each year since 2004. [172264]

Mrs. McGuire: The Department for Work and Pensions' target for spending review 2004 is that 10,000 posts will be redeployed from back office to front line posts by March 2008. By March 2007 10,228 posts had been redeployed to the front line. The following table shows the breakdown by year:

By March	*Number of posts redeployed*	*Proportion of total headcount redeployed (percentage)*
2005	1,607	1.3
2006	6,667	5.8
2007	10,228	9.4

Departmental Ministerial Policy Advisers

Mr. Hoban: To ask the Secretary of State for Work and Pensions whether any of his Department's special advisers also work for organisations outside his Department. [178474]

Mrs. McGuire: Special advisers are appointed under terms and conditions set out in the Model Contract and Code of Conduct for Special Advisers, copies of which are in the Library of the House.

Housing Benefit: Havering

Andrew Rosindell: To ask the Secretary of State for Work and Pensions how many people were in receipt of local housing allowance in Havering on the most recent date for which figures are available. [181656]

Mr. Plaskitt: Nobody is being paid local housing allowance in the London borough of Havering; it has not yet been rolled-out to that borough.

Local housing allowance will roll-out nationally for all new claims in the deregulated private rented sector from 7 April 2008.

Incapacity Benefit

Mr. Chope: To ask the Secretary of State for Work and Pensions when his Department will pay the award of current incapacity benefit and arrears from 3 April due to Mr. Hudspith of Christchurch following the decision of the Appeal Tribunal (Ref. 185/07/00866) on 14 November 2007; and what the reasons are for the time taken to make the payment. [173856]

Mrs. McGuire *[holding answer 13 December 2007]:* The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Lesley Strathie. Details of benefit claims are confidential so she will write to the hon. Member directly on the matter in question.

Letter from Lesley Strathie, dated 25 January 2008:

The Secretary of State has asked me to reply to your question asking when the award of incapacity benefit arrears due to Mr Hudspith of Christchurch following the decision of the Appeal Tribunal (Ref. 85/07/00866) on 14 November and what the reasons are for the time taken to make the payment. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Details of benefit claims are confidential and I will write to you directly on the matter in question.

Mr. Chope: To ask the Secretary of State for Work and Pensions when the claim for incapacity benefit by Mr. Bernard Pierce of Verwood, Dorset will be determined; and what the reason is for the time taken. [181135]

Mrs. McGuire *[holding answer 22 January 2008]:* The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide the hon. Member with the information requested.

Letter from Lesley Strathie, dated 25 January 2008:

The Secretary of State has asked me to reply to your question asking when the claim for incapacity benefit by Mr. Bernard Pierce of Verwood Dorset will be determined and what the reason is for the time taken. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Details of benefit claims are confidential and I will write to you directly on the matter in question.

New Deal Schemes

Mr. Clappison: To ask the Secretary of State for Work and Pensions pursuant to his answer of 11 December 2007, *Official Report*, column 467W, on new deal schemes, what employment-related schemes his Department provides for non-EU citizens. [177735]

Caroline Flint: All employment-related schemes are available to non-EU citizens subject to the participant meeting the eligibility criteria of the programme. For the new deals, this usually involves being in receipt of a qualifying benefit.

Pensions

Dr. Kumar: To ask the Secretary of State for Work and Pensions what steps his Department plans to take to ensure that those eligible for having pensions restored following the collapse of company schemes are aware of their entitlement. [179725]

Mr. Mike O'Brien: There are two methods by which those who have lost their pensions might receive restoration of up to 90 per cent. of their loss. These are the Pensions Protection Fund (PPF) and the Financial Assistance Scheme (FAS).

Scheme trustees are responsible for informing scheme members where an approach to the PPF or the FAS is necessary. Both FAS and the PPF provide assistance to trustees with member communications. Both also have websites where scheme details are displayed.

The FAS Operational Unit (FAS OU) which is administered by the Department, contacts individual members once a scheme has been assessed and the trustees have provided the necessary information. Eligible scheme members receive a form and an explanatory leaflet about FAS. The FAS OU may also contact some members by telephone for example where forms have not been returned and people might be missing out on assistance.

Following the Secretary of State's announcement on 17 December extending FAS assistance, the Department has embarked on a programme of communication with trustees, is in the process of restructuring the FAS website, and updates the media regularly on progress.

Personal Accounts: Advisory Services

Danny Alexander: To ask the Secretary of State for Work and Pensions what steps his Department has taken to establish a strategy for providing advice and information on personal accounts. [178292]

Mr. Mike O'Brien: Information about personal accounts will be provided, as with other pension schemes, by the scheme itself. We are also considering what general information will be needed by all those auto-enrolled, whether into personal accounts or another pension scheme.

We already produce information on retirement planning, alongside a number of other organisations, such as the Citizens Advice Bureau, the Pensions Advisory Service and the Financial Services Authority. We have a programme of research underway, the results of which will be published, to establish what more might be needed.

The Thoresen Review, and the Government's action plan on financial capability, will assess the need to add to the services on offer. We will work with these and other organisations to ensure that a range of information and help is available to those who are making decisions about their retirement.

Social Security Benefits: Fraud

Danny Alexander: To ask the Secretary of State for Work and Pensions (1) how many benefits claimants were prosecuted for fraudulently claiming an amount (*a*) less and (*b*) more than £103,000 in each year since 1997; [181386]

(2) how many benefits claimants were imprisoned for fraudulently claiming an amount (*a*) less and (*b*) more than £103,000 in each year since 1997. [181387]

Mr. Plaskitt: The information is not available in the format requested as it is not centrally collated.

The Department does hold figures for the total number of prosecutions and the total number of people imprisoned, but these are not centrally available broken down by the amount of the overpayment and could be obtained only at disproportionate cost.

Unemployment Benefits: Peterborough

Mr. Stewart Jackson: To ask the Secretary of State for Work and Pensions how many children in Peterborough constituency were living in a household in receipt of at least one out-of-work benefit in each year since 1997. [181356]

Mr. Plaskitt: Information is not available prior to 2004. The available information is in the following table.

Children under 16 years of age living in households in receipt of out-of-work benefits in the Peterborough parliamentary constituency, as at April each year

	Number
2004	5,910
2005	5,640
2006	5,415
2007	5,470

Notes:
1. All figures supplied have been rounded to the nearest 10.
2. All data represent a snapshot in time of claimants on the computer system, and will therefore exclude a very small number of cases that are held clerically.
3. Data represent children dependent on a parent or guardian who is claiming one or more of incapacity benefit, severe disablement allowance, jobseeker's allowance, income support or pension credit.
4. Due to the introduction of child tax credits in April 2003, information on child dependents are not reliably completed on the benefit computer system, therefore children's data has been merged onto JS/JSA/IB/SDA/PC claims from child benefit records with permission from HMRC.

Source:
DWP Information Directorate

Written Questions

Mr. Clappison: To ask the Secretary of State for Work and Pensions (1) when he expects to answer question 162357, tabled by the hon. Member for Hertsmere on 6 November 2007, on incapacity benefit claimants. [171135]

(2) when he expects to answer question 162358, tabled by the hon. Member for Hertsmere on 6 November, on incapacity benefit. [171148]

Mrs. McGuire: I replied to the hon. Member's questions on 6 December 2007, *Official Report*, column 1505W.

WOMEN AND EQUALITY

Females: Prisoners

Mr. Jim Cunningham: To ask the Minister for Women what steps the Government has taken to reduce the number of women in prison since 1997. [164686]

Barbara Follett *[holding answer 19 November 2007]:* The Government launched the Women's Offending Reduction Programme (WORP) in March 2004 to tackle women's offending and to reduce the number of women in prison. This multi-agency strategic programme of work aims to provide a more appropriate response in the community to the particular factors that lead to women offending.

In March 2005, the Government allocated £9.15 million to help support a more local response to women's offending and to establish new initiatives to tackle women's offending in the community—the Together Women Programme. This is the first time that the Government have dedicated funds specifically to tackling women's offending and to exploring how alternatives approaches to custody could work effectively for women.

The Together Women Programme is being delivered over four years through demonstration projects in two regional offender manager regions—Yorkshire and Humberside and the North West. Centres are located in Doncaster, Leeds and Bradford (YH) and Liverpool and Salford (NW). The centres provide a one-stop shop where women from the local community can access appropriate services and interventions such as mental, physical and sexual health, drug misuse, physical and sexual abuse, housing advice and debt, and benefits service.

On 6 December 2007, the Government published its response to Baroness Corston's Review of Women with Particular Vulnerabilities in the Criminal Justice System. This sets out our commitment to build on the work already under way to meet the needs of women offenders and those at risk of offending in the community in order to divert women from custody.

Members' Correspondence

Mr. Harper: To ask the Minister for Women and Equality how many letters her Office and its predecessors received from hon. Members and Peers in each session of Parliament since 1997. [174926]

Barbara Follett: The Cabinet Office, on an annual basis, publishes a report to Parliament on the performance of Departments in replying to Members/peers correspondence. Information relating to 2007 will be published as soon as it has been collated. The report for 2006 was published on 28 March 2007, *Official Report*, columns 101-04WS. Reports for earlier years are available in the Library of the House.

Trade Unions

Mr. Hoban: To ask the Minister for Women and Equality what meetings she has had with officials of trades unions since 1 July 2007; and what the date and union or unions involved were in each case. [181011]

Barbara Follett: Ministers meet many people as part of the process of policy development and advice. It is not normal practice to disclose details of such meetings.

ELECTORAL COMMISSION COMMITTEE

Departmental ICT

Susan Kramer: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission how many (*a*) male and (*b*) female members of staff of the Electoral Commission were issued with personal digital assistants in each year since 2001; and if he will make a statement. [181349]

Peter Viggers: The Electoral Commission informs me that 23 male and 23 female members of staff have been issued with personal digital assistants since 2006, which was the first year such devices were used.

These figures are broken down as follows:

	Male	*Female*
2006	6	3
2007	17	19
2008	0	1
Total	23	23

Departmental Travel

Mr. Jeremy Browne: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission how much the Electoral Commission spent on travel (*a*) within and (*b*) outside the UK for officials in each year since it was established; and what percentage of the Commission's overall expenditure was spent on such travel in each such year. [181539]

Peter Viggers: The Electoral Commission informs me that it only holds information on travel expenditure dating back to the financial year 2003-04. This information is set out in the following table.

	April to December 2007	*2006-07*	*2005-06*	*2004-05*	*2003-04*
Local travel costs (£)	186,957	227,147	202,337	266,574	269,480
Overseas travel costs (£)	18,092	5,055	13,931	39,227	32,693
Local travel (Percentage total expenditure)	1.25	1.02	0.92	1.07	1.36
Overseas travel (Percentage total Expenditure)	0.12	0.02	0.06	0.16	0.16

These figures include travel costs for both staff and Commissioners.

Departmental Visits Abroad

Mr. Jeremy Browne: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission how many overseas visits were made by staff of the Electoral Commission in each year since it was established; which countries were visited; and what the cost of the visits was in each year. [181459]

Peter Viggers: The Electoral Commission informs me that the costs associated with international visits by staff are only available from 2003 onwards. No visits have taken place in 2008. The information requested is set out in the following table.

	Number of Visits[1]	*Country visited*	*Cost (£)*
2001	7	Australia	
		Canada	
		Croatia	
		New Zealand	
		Republic of Ireland	
		Spain	
		Sweden	
2002	9	Kosovo (Election Observation)	
		Mauritius	
		Poland	
		Republic of Ireland	
		Russia	
		Spain	
		Sweden	
2003	17	Antigua and Barbuda (Election Observation)	28,773.27
		Armenia (Election Observation)	
		Australia	
		Belgium	
		Canada	
		Germany	
		India	
		Mexico	
		Poland (Referendum Observation)	
		Serbia and Montenegro (Election Observation)	
		Sweden (Referendum Observation)	
		Switzerland	
		Ukraine (Election Observation)	
		USA	
		Zanzibar (Election Observation)	
2004	22	Albania	41,943.79
		Australia (Election Observation)	
		Austria	
		Belgium (Election Observation)	
		Canada (Election Observation)	
		Chile	
		Cyprus (Election Observation)	
		Georgia (Election Observation)	
		Germany (Election Observation)	
		Italy (Election Observation)	
		Latvia (Election Observation)	
		Malta (Election Observation)	
		Netherlands (Election Observation)	
		Poland (Election Observation)	
		Republic of Ireland (Election Observation)	
		Spain (Election Observation)	
		Sweden (Election Observation)	
		USA	
2005	13	Austria	14,361.92
		Canada (Referendum Observation)	
		France	
		Hungary	
		India	
		Mexico	
		Poland	
		Russia	
		Spain (Referendum Observation)	
		USA	
2006	4	Canada (Election Observation)	3,892.68
		Latvia	
		Poland	
2007	9	Canada	12,159.04
		Poland	
		Republic of Ireland	
		Russia	
		South Africa	
		Sweden	
		Switzerland (Election Observation)	
		USA	

[1] Some countries were visited more than once in any given year.

Political Parties: Donations

Ian Lucas: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission (1) how many donations by registered political parties to regulated donees were recorded by the Electoral Commission in each year since 2000; [181777]

(2) how many individual donations to regulated donees by registered political parties were registered by individual regulated donees in each year since 2000. [181778]

Peter Viggers: The Electoral Commission informs me that it records donations to regulated donees in its register, available on its website. The register indicates that the number of donations reported by regulated donees from political parties were as follows each year since reporting began in 2001:

	Cash donations	*Non-cash donations*	*Overseas visits provided*
2001	0	0	0
2002	0	1	0
2003	0	3	0
2004	0	3	0
2005	1	3	0
2006	0	0	1
2007	1	2	0
2008 (to date)	0	0	0

Ian Lucas: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission what steps the Electoral Commission takes when a regulated donee does not register a donation made to him or her by a registered political party at the request of a donor. [181779]

Peter Viggers: The Electoral Commission informs me that when it has reason to suspect that a donation to a regulated donee may not have been correctly reported under the Political Parties, Elections and Referendums Act 2000, the Commission may make enquiries to establish whether statutory reporting obligations have been met. If the enquiries suggest a breach of the requirements, the Commission may decide to refer the matter to the police and/or to the relevant prosecuting authority, as appropriate. The Commission may also issue further advice and guidance.

Ian Lucas: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission how the Electoral Commission monitors compliance with the requirement by registered political parties to advise regulated donees to register donations passed to them at the request of donors. [181780]

Peter Viggers: The Electoral Commission informs me that there is no requirement that a political party advise regulated donees to report donations.

However, the Commission works closely with regulated organisations and individuals to ensure that they are aware of the rules. The Commission publishes guidance, runs training sessions and responds to requests for advice.

Political Parties: Finance

Mr. Maude: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission what research the Electoral Commission has conducted on spending by local party associations under £25,000 a year; and what accounts of associations have been collected as part of that research. [181313]

Peter Viggers: The Electoral Commission informs me that, in 2004 and in 2007, it canvassed all registered accounting units to inquire as to whether their total income or gross expenditure was greater than £25,000 for the prior financial year. Those that were under this threshold were asked to confirm so in writing.

The purpose of the exercise was to confirm which accounting units should be submitting accounts to the Commission and which should not. The Commission has conducted no research into spending by those associations under the threshold.

In the course of each canvass, some associations under the threshold provided sets of accounts to the Commission. These were not requested and the Commission has no plans to undertake research into them.

PRIME MINISTER

China

Mr. Carmichael: To ask the Prime Minister (1) whether he plans to discuss the human rights situation in Tibet on his forthcoming visit to China; [180054]

(2) whether he plans to raise the issue of the human rights situation in Burma with Chinese officials on his forthcoming visit to China; [180055]

(3) whether he plans to discuss China's use of the death penalty with Chinese officials on his forthcoming visit to China. [180057]

Mr. Amess: To ask the Prime Minister whether he discussed *(a)* the Chinese One Child Policy and *(b)* forced abortion with the authorities during his visit to China; and if he will make a statement. [182896]

The Prime Minister: I discussed a wide range of issues on my visit to China. I refer the hon. Members to the press conference I held with Premier Wen of China in Beijing on 18 January 2008. A transcript of this is available on the No. 10 website:

http://www.pm.gov.uk/output/Page14307.asp

and a copy has been placed in the Library of the House.

Departmental Correspondence

Mr. Wallace: To ask the Prime Minister when he will reply to the letter from the President of the European Parliament of 5 December 2007, on the report by the European Parliament's Committee of Inquiry in the crisis of the Equitable Life Assurance Society. [182432]

The Prime Minister: My right hon. Friend the Chancellor of the Exchequer has replied to the letter.

Official Visits: English Heritage

Mr. Hunt: To ask the Prime Minister how many official visits he has made to English Heritage sites since taking office. [181950]

The Prime Minister: A list of my UK visits will be published in the usual way following the end of the financial year. My visits cover a range of matters and details of them can be found on the No. 10 website.

Written Questions

Norman Baker: To ask the Prime Minister whether it is his practice personally to approve replies to written parliamentary answers in his name. [181977]

The Prime Minister: Yes.

JUSTICE

Driving Under Influence: Prosecutions

Mr. Hoban: To ask the Secretary of State for Justice how many prosecutions for drink driving offences were pursued against *(a)* males and *(b)* females in each criminal justice area in each of the last 10 years; and how many resulted in conviction. [180411]

Maria Eagle: Available information held on prosecutions and resultant convictions for driving under the influence of alcohol or taking drugs from 1996 to 2005 (latest available) are provided in the following tables. 2006 data will be available later this year.

The data provided cover both drink and drugs offences combined, as they cannot reliably be distinguished separately.

Table A: Proceedings at magistrates courts for offences of driving etc. after consuming alcohol or taking drugs by gender and police force area: England and Wales, 1996 to 2005

[1] Offences of aiding, abetting, causing or permitting driving etc. after consuming alcohol or taking drugs under the Road Traffic Act 1988 s4(1), 4(2), 5(1)(a), 5(1)(b), 6(4), 7(6), 7A (as added by Police Reform Act 2002 s56); and Transport & Works Act 1992 s31A (as added by Police Reform Act 2002 s52).
[2] Data covers summary offences of driving etc. after consuming alcohol or taking drugs (which cannot reliably be distinguished).
Notes:
1. It is known that for some police force areas, the reporting of court proceedings, in particular those relating to summary motoring offences, may be less than complete.
2. Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Rape: Sentencing

Nick Herbert: To ask the Secretary of State for Justice how many offenders convicted of rape were given indeterminate sentences for public protection in each of the last three years for which information is available. [179910]

Mr. Straw: A research study into prisoners received into prisons in England and Wales under indeterminate sentences for public protection (IPP) between April 2005 and March 2006 found that 46 IPPs had been given for rape or attempted rape. This research study involved confirming individual case details with prisons and has not been repeated. However, data held

in administrative IT systems suggest the number of IPPs given for rape or attempted rape was around 170 in the year from April 2006 to March 2007, and around 140 from April 2007 to November 2007 (the most recent data available).

These figures have been drawn from data returns from prisons and administrative IT systems which, as with any large scale recording system, are subject to possible errors with data entry and processing.

High Sheriffs

Mr. Beith: To ask the Secretary of State for Justice, if he will list those counties in which the names on the most recent list of nominations for the position of High Sheriff were chosen *(a)* following open advertisement and *(b)* by a selection committee or board where membership is published. [170231]

Mr. Wills: None of the names on the most recent list of nominations for the position of High Sheriff were chosen following open advertisement, or by a selection committee or board, where membership is published. The arrangements for seeking nominees are a matter for individual counties. It is the responsibility of High Sheriffs in office to provide the names of people suitable to serve in the future. With the help of local selection panels, they should cast the net as widely as possible and consider candidates from a wide variety of backgrounds.

HEALTH

Childbirth: Greater London

Mr. Dismore: To ask the Secretary of State for Health how many babies were born at *(a)* Barnet, *(b)* Royal Free and *(c)* Edgware hospitals in (i) each of the last three years and (ii) 2007-08 to date; in each hospital how many pregnancies resulted in complications; how many Caesarean sections were performed in each hospital; and if he will make a statement. [178077]

Mr. Bradshaw: The information requested can be found in the following tables. However, the latest figures for birth rates at each hospital are only available to 2006-07.

Table 1: Count of finished consultant delivery episodes and total caesarean deliveries for Royal Free Hampstead national health service trust, Barnet hospital and Edgware hospital for 2006-07, 2005-06 and 2004-05. NHS hospitals England and as trusts performed in the independent sector in England commissioned by English NHS

	Royal Free Hampstead NHS trust (RAL)		Barnet hospital (RVL01)		Edgware hospital (RVL07)[1]	
	Total finished consultant delivery episodes	Total caesarean deliveries	Total finished consultant delivery episodes	Total caesarean deliveries	Total finished consultant delivery episodes	Total caesarean deliveries
2006-07	3,227	810	3,651	733	274	6
2005-06	3,217	901	3,331	689		
2004-05	3,178	858	3,027	757		

[1] No data available for this organisation for the periods 2005-06 and 2004-05.

Table 2: Count of finished consultant delivery episodes with complications (see separate Diagnosis codes)

	Total finished delivery episodes with complications (Diagnosis codes 060 - 075)		
	Royal Free Hampstead NHS trust (RVL01)	Barnet hospital	Edgware hospital (RVL07)[1]
2006-07	2,159	2,680	153
2005-06	2,284	2,182	
2004-05	2,071	2,141	

[1] No data available for this organisation for the periods 2005-06 and 2004-05.

Notes:

Data Quality:

Hospital Episode Statistics (HES) are compiled from data sent by over 300 NHS Trusts, and Primary Care Trusts (PCTs) in England. Data is also received from a number of Independent sector organisations for activity commissioned by the English NHS. The Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. While this brings about improvement over time, some shortcomings remain.

Maternity Coverage and data quality:

The maternity tail data coverage is not as complete as the rest of HES data. There are a number of reasons for the coverage and data quality issues such as:

Trusts submitting a significantly higher number of delivery episodes compared to birth episodes

Trusts failing to submit data on the number of birth episodes where they record a high number of delivery episodes

Trusts failing to submit delivery—the reason for this is that approximately 20 trusts have a stand alone maternity system which is not linked to the Patient Administration System

Trusts identifying a high number of maternity beds available, but not recording any information about deliveries or births

Trusts identifying that they have no maternity beds available, but recording a high number of birth and delivery episodes

Some trusts have space in their maternity system to record 9 birth tails, whereas other systems have space for 18. As deliveries, miscarriages and abortions are all recorded in the birth tail, there are cases where 9 tails is not enough to record all of the relevant data

All Diagnoses count of episodes

These figures represent a count of all FCE's where the diagnosis was mentioned in any of the 14 (7 prior to 2002-03) diagnosis fields in a HES record.

See table 3 for Diagnosis codes used.

Finished Consultant Episode (FCE)

An FCE is defined as a period of admitted patient care under one consultant within one healthcare provider. Please note that the figures do not represent the number of patients, as a person may have more than one episode of care within the year.

Episode Type:

2 - Deliver/ Event

5 - Other Delivery Event

Ungrossed Data

Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).

073	Retained placenta and membranes without haemorrhage
074	Complications of anaesthesia during labour and delivery
075	Other complications of labour and delivery NEC

Departmental Public Expenditure

Mr. Lansley: To ask the Secretary of State for Health how much was spent in near cash in 2005-06 for each activity in figure A.2 of his Department's Annual Report 2007; and what the level of near cash *(a)* overspend or *(b)* underspend was in relation to each activity. [178011]

Mr. Bradshaw: Departmental expenditure limits, including near cash, apply to the aggregate level of departmental expenditure not individual programmes within the overall budget. The near-cash expenditure in 2005-06 for each activity in figure A.2 of the 2007 departmental report is shown in the following table.

Consumption of resources by activity	*Near cash outturn 2005-06 (£000)*
National health service	72,156
Of which	
Hospital and community health services	68,955
Of which[1]	
Health authorities unified budgets and central allocations and grants to local authorities	68,955
Family health services	2,131
Of which	
General dental services	1,038
General ophthalmic services	358
Pharmaceutical services	1,162
Prescription charges income	-427
Central health and miscellaneous services	793
Of which	
Welfare food departmental expenditure limit	104
European economic area medical costs	343
Other central health and miscellaneous services	346

Personal social services (PSS)	2,060
Of which	
PSS	181
Local authority social services grants	1,880
Of which	
Training support programme for social services staff	
Grants for adults	1,459
Grants for children	91
Human resources development strategy	63
Grants funded form the invest to save fund performance fund	
NHS superannuation—England and Wales[1]	—
Credit guarantee finance[1]	—
NHS annually managed expenditure[1]	—
Total Department of health resource budget	74,232

[1] This expenditure is outside the Department's expenditure limit and near cash controls.

Departmental Reorganisation

Greg Mulholland: To ask the Secretary of State for Health what his policy is on the future of the Commercial Directorate of his Department; and by what date he intends to introduce any changes to its structure and responsibilities. [181988]

Mr. Bradshaw: The Commercial Directorate will continue to play a major role in providing commercial expertise to the Department and in helping build commercial capability across the national health service. It will

exercise its role in partnership with strategic health authorities and other NHS organisations.

The Commercial Directorate will be reshaped to ensure it is ready for its future responsibilities. This transition is under way and will continue over the coming months.

Dermatology: Finance

Mr. Bruce George: To ask the Secretary of State for Health how funding for dermatology services in primary care will change as a result of the recent comprehensive spending review. [181293]

Mr. Bradshaw: In the 2007 comprehensive spending review the national health service received annual growth in revenue resources of 3.7 per cent., above inflation, increasing total revenue expenditure from £86.8 billion in 2007-08 to £104.8 billion in 2010-11. Of these over 80 per cent. is allocated to primary care trusts to provide them with funding to deliver local and national priorities. It is not possible to provide an estimate of how funding for dermatology services will change as it is for local NHS organisations to commission services to meet their local health needs.

English Language

Damian Green: To ask the Secretary of State for Health how much his Department has spent on English language classes for staff in the last year for which figures are available. [177484]

Mr. Bradshaw: We do not hold central records of expenditure on English language classes. A survey to gather relevant information would involve disproportionate costs. Informally, we believe that a survey would identify very little or no expenditure on such classes.

General Practitioners

Mr. Hoban: To ask the Secretary of State for Health what measures his Department uses to monitor patients' access to out-of-hours general practitioner services. [180337]

Mr. Bradshaw: We do not collect this information centrally. Primary care trusts have a responsibility to ensure they provide, or secure provision of a high quality, sustainable service that meets the needs of their local population.

All out-of-hours services must be delivered to the national quality requirements, ensuring patients have access to consistently high quality and responsive care, regardless of where they live. Providers must deliver services that meet the quality requirements, as a contractual obligation. The requirements stipulate that:

- patients will be guaranteed a general practitioner consultation—including a home visit if there is a clinical need;
- patients are treated by the clinician best equipped to meet their needs in the most appropriate location; and
- services will be regularly audited to ensure that patients are receiving quality care.

Health Professions: Barnet

Mr. Dismore: To ask the Secretary of State for Health how many *(a)* hospital doctors, *(b)* nurses, *(c)* GPs, *(d)* GP practice nurses, *(e)* nurse practitioners, *(f)* modern matrons, *(g)* community matrons and *(h)* NHS managers there were in Barnet in (i) 1997 and (ii) 2006-07; and if he will make a statement. [177908]

Mr. Bradshaw: The information requested is held at national health service trust level only.

The table shows the data held for Barnet and Chase Farm Hospitals NHS Trust, Barnet primary care trust and the Royal Free Hampstead NHS trust, which serve the Barnet area, and the former Barnet health authority. 1997 data is available only for the Royal Free Hampstead NHS trust, and Barnet health authority. Latest available data is for 2006.

Over 1.33 million people were employed in the NHS in England as at September 2006. Between September 1997 and 2006 the total number of NHS staff increased by over 280,000 (27 per cent.); the number of doctors and hospital dentists employed in the NHS in England increased by 35,993 (40 per cent.) to 125,612; the number of nurses employed in the NHS in England increased by 79,479 (25 per cent.) to 398,335; and the total number of qualified scientific, therapeutic and technical staff employed in the NHS in England increased by 38,200 (40 per cent.) to 134,498.

We are now moving away from year-on-year growth in the NHS workforce to more of a steady state where there is a closer match between demand and supply. The focus now is strengthening frontline capacity through increases in productivity and skill mix. In some cases, productivity gains may mean that fewer staff are needed to deliver the same service outcomes.

All qualified nursing, midwifery and health visiting staff, medical and dental staff[1], general practitioners (GPs) (excluding retainers and registrars)[2] and practice nurses in each specified organisation as at 30 September each specified year

Administrative managers	[3]—	89
Barnet health authority*		
GPs (excluding retainers and registrars)[2]	195	n/a
Practice nurses	135	n/a

All qualified nursing, midwifery and health visiting staff, medical and dental staff[1], general practitioners (GPs) (excluding retainers and registrars)[2] and practice nurses in each specified organisation as at 30 September each specified year

	Number (headcount)	
	1997	2006
Barnet PCT specified staff total	[3]—	711
All doctors	[3]—	246
Of which:		
Medical and dental staff[1]	[3]—	28
GPs (excluding retainers and registrars)[2]	[3]—	218
Qualified nursing, midwifery and health visiting staff	[3]—	389
Of which:		
Practice nurses	[3]—	133
Modern matron	[3]—	3
Community matron	[3]—	0
Administrative managers		76
Royal Free Hampstead NHS trust	1,965	2,877
All doctors	462	737
Of which:		
Medical and dental staff[1]	462	737
GPs (excluding retainers and registrars)[2]	[3]—	[3]—
Qualified nursing, midwifery and health visiting staff	1,402	2,035
Of which:		
Practice nurses[4]	[3]—	[3]—
Modern matron	[3]—	10
Community matron	[3]—	0
Administrative managers	101	105

[1] Excludes medical hospital practitioners and medical clinical assistants, most of whom are GPs working part time in hospitals.
[2] General medical practitioners (excluding retainers and registrars) includes GP Providers and GP Others.
[3] Data not available. The numbers of modern matrons were not collected until 2005, and community matrons were not collected until 2006.

Note:
1. Due to a high number of organisation mergers in the Barnet area it is impossible to accurately map figures from predecessor to current trust organisation structures to provide data for 1997. The Royal Free Hampstead NHS trust has remained consistent, so figures are included.
[4] The exception is GPs and their staff recorded in the former Barnet health authority in 1997 which is consistent with the current Barnet PCT. In 1997 there were 195 GPs (excluding retainers and registrars) and 135 Practice Nurses in Barnet Health Authority.
2. GP Census does not display nurse practitioners as a separate work area.

Health Services: Thames Gateway

Dr. Stoate: To ask the Secretary of State for Health what administrative arrangements have been put in place at departmental level to co-ordinate the delivery of new health care facilities and resources in the Thames Gateway growth area to meet the demands of new house building within the region. [174219]

Mr. Bradshaw: The Thames Gateway Cross Government Board, comprising several officials from a number of Government Departments, including the Department, is responsible for the co-ordination of central Government investment in the Thames Gateway growth area, including the provision of health services.

Incontinence

Greg Mulholland: To ask the Secretary of State for Health whether he intends to make it his policy to consult further before making any final decision upon the details and impact of any revised option for the proposed changes to Part IX of the Drug Tariff when he considers the responses to the consultation Arrangements under Part IX of the Drug Tariff for the provision of stoma and incontinence appliances—and related services—to Primary Care. [181987]

Mr. Ivan Lewis: The latest consultation closed on 28 December 2008. Ministers have agreed that the Department can meet with industry and other relevant parties to discuss the best way to conclude this review.

No further decisions have been made.

Meat Products: Origin Marking

Tim Farron: To ask the Secretary of State for Health pursuant to the answer of 10 December 2007, *Official Report*, columns 710-11W, on pork, what minimum level of substantial change is required in order to permit the country in which a pork product was processed to be described as the country of origin on its labelling. [181992]

Mr. Ivan Lewis: There is no definition of place of 'last substantial transformation/change' in European Union law. However, the Food Standards Agency suggests in its "Guidance on Country of Origin Labelling" that, for example, the transformation of pork into bacon, ham or pies should be regarded as a treatment or process resulting in a substantial change, while simply slicing, cutting and/or packing meat does not amount to such a change.

Mental Health Services: Greater London

Mr. Boris Johnson: To ask the Secretary of State for Health what the budget was for each mental health primary care trust within Greater London in each year since 1997. [178457]

Mr. Ivan Lewis *[holding answer 14 January 2008]*: The information is not available in the format requested. There are no mental health primary care trusts (PCTs). Furthermore, the Department does not hold information on the budgets of PCTs. However, the following tables shows the net operating costs, which relates to the size of the PCT, of all London PCTs and the spend on secondary mental illness from 2000-01 to 2006-07.

£000

Notes:
1. Health authorities were responsible for commissioning health care up to 2002-03 therefore figures by PCT are not comparable in these earlier years.
2. Where indicated by '—', the PCT was not in existence in that year.

Source:
Audited summarisation schedules of London PCTs for 2000-01 to 2006-07.

NHS Direct: Standards

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 19 November 2007, *Official Report*, column 611W, on NHS Direct, what the date was of each quarterly performance review meeting in the past two years; and if he will place copies of the *(a)* agenda and *(b)* minutes of such meetings in the Library. [169866]

Mr. Bradshaw: Performance review meetings were held on:

23 March 2006
18 May 2006
20 June 2006
26 July 2006
31 August 2006
21 September 2006
25 October 2006
29 January 2007
26 April 2007
9 August 2007
1 November 2007.

Making available minutes of performance review meetings could prejudice the Department's ability to performance manage NHS Direct effectively, but copies of agendas for these meetings have been placed in the Library. In future, we will publish agendas and a summary of the minutes on the Department's website.

NHS: Reorganisation

Anne Milton: To ask the Secretary of State for Health if he will list the work commissioned by his Department that *(a)* has been finished and *(b)* is ongoing on the implications of merging the Healthcare Commission, the Commission for Social Care Inspection and the Mental Health Act Commission. [182073]

Mr. Ivan Lewis: The Department of Health is working closely with the Healthcare Commission, the Commission for Social Care Inspection and the Mental Health Act

Commission to prepare for the establishment of the Care Quality Commission. As part of this, two pieces of work have been commissioned by the Department:

a scoping study to more clearly understand what information technology work is needed to support the establishment of the Care Quality Commission. This work is finished; and

a study to identify options for the location(s) of headquarter functions of the Care Quality Commission. This work is ongoing.

NHS: Telephone Services

Martin Horwood: To ask the Secretary of State for Health what his Department's policy is on the use of non-geographic telephone numbers for lines used by members of the public; which of the primary care trusts in England advertise such telephone numbers to the public; and what estimate he has made of the number of calls to these numbers in the last 12 months. [179558]

Mr. Bradshaw: The provision of telephone services for patients and the public is a matter for the local national health service. The Department did however issue guidance in December 2006 clearly setting out that patients should not be charged more than the equivalent of a local call.

Information on which of the primary care trusts in England advertise non-geographical telephone numbers and how many calls were made to these numbers in the last 12 months is not collected centrally.

Peterborough Primary Care Trust

Mr. Stewart Jackson: To ask the Secretary of State for Health whether he plans to ask the Advisory Committee on Resource Allocation to review the weighted-capitation formula in respect of the allocation to Peterborough primary care trust with reference to the provision of general practitioners; and if he will make a statement. [180416]

Mr. Bradshaw: The weighted-capitation formula is used to determine primary care trusts' (PCTs') target shares of available resources, to enable them to commission similar levels of health services for populations in similar need.

The Advisory Committee on Resource Allocation (ACRA) continually oversees the development of the formula. ACRA's objective is to ensure equity in resource allocation to all PCTs.

ACRA's current work programme includes a review of the market forces factor, the need element of the formula and the population base for revenue allocations. ACRA's current review of the formula will be used to inform revenue allocations post 2008-09.

INTERNATIONAL DEVELOPMENT

International Assistance

Mr. Moore: To ask the Secretary of State for International Development how many country governance assessments have been carried out in the last 18 months; and what account has been taken of these assessments in his Department's *(a)* development decisions, including budget support decisions and *(b)* formulation of country and regional development assistance plans. [181742]

Mr. Douglas Alexander: DFID Country Offices were provided with guidance about how to undertake Country Governance Analysis (CGAs) in February 2007. Since then, 16 CGAs have been completed. These have been used, alongside other tools such as Drivers of Change Analysis, to inform programming decisions and Country Assistance Plans (CAPs). They are now a mandatory component of all CAPs. We are currently reviewing experience over the past nine months, and plan to update our guidance in April once that review is completed.

Members: Correspondence

Sir Michael Spicer: To ask the Secretary of State for International Development when he will reply to the letter from the hon. Member for West Worcestershire of 23 November 2007, on funding to support the new AIDS strategy. [182183]

Mr. Douglas Alexander: A reply to the hon. Member for West Worcestershire's letter of 23 November 2007 has been issued.

Natural Resources: Armed Conflict

Mr. Moore: To ask the Secretary of State for International Development how many staff in his Department are working on policy on conflict resources. [181746]

Mr. Douglas Alexander: The Department for International Development's work on conflict resources is managed by advisory and administrative staff in both the UK and in our offices overseas where conflict is a significant barrier to development. We also contribute indirectly to conflict policy development managed by the large multi-lateral donor organisations and non governmental organisations.

As an indicator of the numbers involved, we have 110 staff working centrally on conflict and security issues, including specialist advisory staff, plus 165 staff overseas in countries such as Iraq, Afghanistan, Sudan and the Democratic Republic of the Congo.

There will also be a number of other not readily identifiable staff working indirectly in support of those mentioned above.

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Carbon Sequestration

Gregory Barker: To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether carbon capture and storage technology will be made exempt from the Climate Change Levy. [175433]

Angela Eagle: I have been asked to reply.

The climate change levy is a tax on non-domestic use of energy aimed at promoting energy efficiency. There are currently no commercial-scale power generation

plants in the UK which deploy carbon capture and storage, so the issue of liability to pay the levy does not arise.

HMT consulted on the barriers to carbon capture and storage (CCS) deployment in 2006 and the Government announced in the Energy Review that the next logical step would be a full-scale demonstration project. A competition to design and build one of the first ever-commercial CCS demonstration projects was launched by the Prime Minister on 19 November. This demonstration will provide the evidence, which will enable us to take informed policy decisions, including on taxation issues.

All taxes and reliefs are kept under review and any changes are announced by the Chancellor as part of the Budget process.

INNOVATION, UNIVERSITIES AND SKILLS

Europe for Citizens

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills what elements of the Europe for Citizens programme are operating in the UK. [181085]

Margaret Hodge: I have been asked to reply.

The elements of the Europe for Citizens programme currently operating in the UK include town twinning co-operation projects and structural support for public research and civil society organisations.

DUCHY OF LANCASTER

Labour Party: Marketing

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster what permission the *(a)* Cabinet Office and *(b)* Office of Public Sector Information have given to the Labour Party to reproduce Crown copyright photographs of the Prime Minister on the Labour Party website; and what payments have been made by the Labour Party to the Exchequer in relation to such photographs in the last 12 months. [171386]

Mr. Wills: I have been asked to reply.

The majority of Crown copyright material can be re-used without charge under the terms of the online Click-Use Licence. The Labour party has a licence. Charges may be made for re-use of multiple Crown copyright photographs. No payments have been made by the Labour Party in this period.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Climate Change

Peter Bottomley: To ask the Secretary of State for Environment, Food and Rural Affairs when he *(a)* last met and *(b)* next plans to meet the Chairman of the Environment and Energy Committee of the International Chamber of Commerce, United Kingdom to discuss the United Nations Framework Convention on Climate Change. [181138]

Mr. Woolas: The Secretary of State has not met, and has no immediate plans to meet, the Chairman of the Environment and Energy Committee of the International Chamber of Commerce UK, to discuss the United Nations Framework Convention on Climate Change.

However, there is a regular formal dialogue between UK Government officials and International Chamber of Commerce members on a range of energy and climate related issues.

Floods: Crosby

Mrs. Curtis-Thomas: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the risk of flooding in Crosby constituency from *(a)* climate change and *(b)* river overflow; and what proposals he has considered to tackle such (i) flooding and (ii) flood risk. [181148]

Mr. Woolas: The Environment Agency (North West Central Area) is currently undertaking a study into tidal flood risk in the Crosby constituency as part of their "Tidal Areas Benefiting from Defences" study.

This study is due for completion at the end of March 2008, and will produce a tidal flood outline which takes into account sea level rise due to climate change by the year 2115.

The Environment Agency completed a study of the River Alt taking into consideration fluvial flood risk in 2000. The results of this study are already included in the Environment Agency's Flood Map.

The River Alt and Crossens Catchment Flood Management Plan, which incorporates the Crosby constituency, is currently under development and at the consultation stage.

The Environment Agency is investing approximately £8 million over the next three years in the Crosby constituency, which includes the refurbishment of the Altmouth pumping station, a major and key asset vital to flood protection is this area.

Mrs. Curtis-Thomas: To ask the Secretary of State for Environment, Food and Rural Affairs if he will allocate funding to strengthen the sea defences in Crosby against the increasing number of storm force gales and related flooding. [181175]

Mr. Woolas: A strategic management plan for the coast between Crosby and Formby Point is being developed by Sefton metropolitan borough council with support from the Environment Agency. This plan is considering the most sustainable means of managing the risk posed by coastal erosion and tidal flooding over the next 100 years, incorporating the effects of climate change.

Consultation took place with local communities and interest groups between September and December 2007 and the comments are currently being collated and

assessed. The plan will be finalised during the coming year. Any proposals to refurbish, replace or upgrade defences at Crosby will be evaluated further and incorporated into the national prioritised capital works programme based on their relative merits.

Fuel Poverty: Targets

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what progress his Department has made towards its public service agreement target to eliminate fuel poverty in vulnerable households in England by 2010 in line with the Government's Fuel Poverty Strategy objective; and if he will make a statement. [181503]

Mr. Woolas *[holding answer 24 January 2008]:* We have been successful in reducing fuel poverty between 1996 and 2005 by 3 million vulnerable households across the UK. However, as indicated in our most recent UK Fuel Poverty Strategy fifth annual progress report, available on the website of the Department for Business, Enterprise and Regulatory Reform, rising energy prices since 2003 have had an impact on households and we estimate that there may still be 1.2 million vulnerable households in fuel poverty in England by 2010.

Game Birds

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 14 January 2008, *Official Report*, column 859W, on game birds, what steps are taken by his Department to assess the *(a)* qualifications and *(b)* objectivity of those who peer review reports referred to by him in answers to parliamentary questions; what steps were taken to assess the objectivity of Professor Emeritus David Coleman; and if he will make a statement. [181098]

Joan Ruddock: In my answer of 14 January 2008, *Official Report*, column 859W, on game birds, I confirmed that, in general, scientific data referenced in parliamentary questions are drawn from peer reviewed publications or are reviewed by staff within the Department or statutory advisers. As is usual practice, the peer review was organised by the organisation which funded the report.

New Forest Verderers

Mr. Swayne: To ask the Secretary of State for Environment, Food and Rural Affairs if he will re-appoint the current Official Verderer; and if he will make a statement. [180918]

Joan Ruddock: The current Official Verderer was appointed in May 2002 and was re-appointed in 2005 for a second term of office, with the expectation that he would serve until 2008.

The Official Verderer wrote to the Office of the Prime Minister in October 2007 placing his office at the disposal of the Crown, and this offer was accepted. The appointment process for a new Official Verderer, which is being administered by the Forestry Commission and which will follow the Code of Practice for Ministerial Appointments to Public Bodies, is now under way.

Rural Areas: Community Development

Mr. Morley: To ask the Secretary of State for Environment, Food and Rural Affairs what arrangements are being made to ensure the continuity of funding hitherto provided through the Rural Social and Community Programme. [181345]

Jonathan Shaw: I was pleased to announce, on 14 December, a new investment of £3.45 million to support the network of rural community councils (RCCs) in England for each of the next three years. This funding will be channelled through Action with Communities in Rural England (ACRE), the lead body for the RCC network. The Government has no plans to continue with other elements of the Rural Social and Community Programme, which was designed to be a two-year investment in building rural community capacity.

Mr. Morley: To ask the Secretary of State for Environment, Food and Rural Affairs when the Rural Communities Action Network budget details for Humber and the Wolds Community Council will be announced. [181348]

Jonathan Shaw: I refer my right hon. Friend to the answer given on 21 January 2008, *Official Report*, column 1493W.

Rural Areas: Energy

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what steps his Department is taking to provide energy efficiency measures suitable for rural consumers in hard to heat homes that do not respond to traditional energy efficiency measures; [180867]

(2) what *(a)* measures his Department is taking and *(b)* advice and support is available to encourage rural consumers in hard to heat homes to become more energy efficient. [180897]

Mr. Woolas: Details of grants and offers for energy efficiency measures are available, by postcode, on the website of the Energy Saving Trust, which is funded by DEFRA to promote and support energy efficiency in the household sector. The trust's Innovation Programme has included four projects relating to the use of energy efficiency measures in hard to treat homes.

Rural Areas: Housing

Mr. Morley: To ask the Secretary of State for Environment, Food and Rural Affairs when details of the Rural Housing Challenge Fund will be announced. [181347]

Jonathan Shaw: As part of its preparations for the comprehensive spending review (CSR) during the summer of 2007, DEFRA asked the Housing Corporation to provide advice on the feasibility of a potential funding

programme to improve the delivery of affordable rural housing at local level. That advice will be carefully considered in decisions about departmental spending priorities over the CSR period. No decisions about the fund have yet been made. We are currently finalising the Department's overall funding package and an announcement will be made shortly.

FOREIGN AND COMMONWEALTH OFFICE

Arms Trade: Treaties

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps are being taken by the Government to secure agreement to an international legally-binding arms trade treaty. [181727]

Dr. Howells: The UK is a strong supporter of the UN process towards securing a legally binding Arms Trade Treaty (ATT). My right hon. Friend the Prime Minister made this clear in his recent speech at the Delhi Chamber of Commerce.

In 2006, the UK co-sponsored the original UN Resolution that called for work towards an ATT and which 153 countries voted to adopt. Since then the UK has worked closely with the defence industry and with non-governmental organisations, and has lobbied internationally to attract support for an ATT. Nearly 100 countries, including the UK, have submitted their views on an ATT for publication on the UN website:

http://disarmament.un.org/cab/att/Views_Member_States.html

The UK maintains a dialogue with its international partners to work towards a legally binding global ATT, and will participate in the UN organised Group of Government Experts' meetings, which start in February to take this process forward.

British Council: Film

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will prevent the closure of the British Council's dedicated film office until a public consultation has taken place. [180949]

Mr. Jim Murphy: I refer my hon. Friend to the answer I gave him on 24 January 2008, *Official Report*, column 2196W.

Chad: Peacekeeping Operations

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what shortages of equipment and manpower have been identified for the European Union force for Chad; and if he will make a statement. [180803]

David Miliband: We understand that the minimum requirements for deployment of this force have now been met. The EU General Affairs and External Relations Council is therefore expected to confirm the launch of the force on 28 January, and deployment will be initiated in February. We expect that the force should reach full operating capacity by May.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what progress has been made in securing the deployment of the European Union force for Chad; and if he will make a statement. [180804]

David Miliband: The requirements for deployment of the EU force to Chad and the Central African Republic were discussed at a force generation conference on 11 January 2008. The operation commander for the mission, Lieutenant General Nash, confirmed that he now has enough forces and assets available to recommend launching the mission.

The EU General Affairs and External Relations Council on 28 January is therefore expected to confirm the launch of the force, and deployment will be initiated in February. We expect that the force should reach full operating capacity by May.

Departmental Accountancy

Mr. Hoban: To ask the Secretary of State for Foreign and Commonwealth Affairs what items of his Department's *(a)* revenue and *(b)* expenditure are uprated using (i) the consumer price index, (ii) the retail price index and (iii) other measures of inflation. [180037]

Meg Munn: We do not link any changes in the Foreign and Commonwealth Office's revenue or expenditure directly to the consumer price index or the retail price index.

We adjust the cost of living allowances, which we pay to staff serving overseas, every six months. We base changes in these allowances (up or down) on indices and data collected by Employment Conditions Abroad.

Departmental Consultants

Mr. Gauke: To ask the Secretary of State for Foreign and Commonwealth Affairs how much his Department spent on consultants in each financial year since 2000, broken down by consultancy. [180818]

Meg Munn: I refer the hon. Member to the reply I gave to my hon. Friend the Member for Hemsworth (Jon Trickett) on 6 December 2007, *Official Report*, column 1427W. I also refer the hon. Member to the reply the Minister for Europe gave to the hon. Member for Fareham (Mr. Hoban) on 9 October 2007, *Official Report*, columns 542-43W.

Departmental Freedom of Information

Norman Baker: To ask the Secretary of State for Foreign and Commonwealth Affairs what percentage of Freedom of Information requests received by his Department have given rise to responses that have been published by his Department. [180222]

Meg Munn: The Foreign and Commonwealth Office (FCO) has published 5 per cent. (165) of responses to 3,125 Freedom of Information Act requests received

between January 2005, when the Act came into force, and the end of September 2007. The FCO has adopted a selective disclosure log whereby only the most interesting and high profile pieces of information are published.

Developing Countries: International Assistance

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs how many staff in his Department are working to promote the OECD Guidelines for Multinational Enterprises. [181732]

Meg Munn: The UK's National Contact Point for the Organisation for Economic Co-operation and Development Guidelines is currently managed by officials from the Department for Business, Enterprise and Regulatory Reform, the Department for International Development and the Foreign and Commonwealth Office. The Department for Business, Enterprise and Regulatory Reform dedicates one full time official to work on the National Contact Point and is in the process of recruiting a second, while the Foreign and Commonwealth Office and the Department for International Development each currently contribute 20 per cent. of one official's time.

Embassies: Manpower

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs how many posts at each embassy have been *(a)* created and *(b)* abolished in each year since 1997. [180806]

David Miliband: The Foreign and Commonwealth Office (FCO) currently has 261 posts overseas. 43 are staffed exclusively by locally-recruited staff. 218 are staffed by UK-based civil servants and locally-recruited staff. The latest FCO departmental report (2006-07) sets out the total number of FCO UK-based staff worldwide as 6,364. The 1997-98 FCO departmental report stated that there were then 5,971 UK-based staff.

We keep the number of FCO staff at each post under constant review in the light of changing world circumstances, operational requirements and financial constraints. We are not able to compile data for changes in staffing at each post for each of the last 10 years as this would incur disproportionate cost.

European Commission: Manpower

Mr. Hayes: To ask the Secretary of State for Foreign and Commonwealth Affairs what proportion of staff in each Directorate-General of the European Commission is of British nationality *(a)* overall and *(b)* at senior grades. [181029]

Mr. Jim Murphy: We do not hold this information centrally. However, information on the proportion of staff holding British nationality in each directorate-general is available at:

http://ec.europa.eu/civil_service/about/figures/index_en.htm

Horn of Africa: Terrorism

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment has been made of the potential threat to the UK from terrorist activity in the Horn of Africa; and if he will make a statement. [180739]

Meg Munn: Al-Qaida and its local affiliates have a long history of terrorist activity in East Africa, from the Nairobi and Dar-es-Salaam bombings of 1998 through to more recent activity in Somalia. Al-Qaida has exploited the absence of an effective Government in Somalia to use the country as a base for both terrorist training and planning. This is mainly focused on the region, but some has been directed against the UK. The UK is home to a small number of extremists of East African origin, as the failed 21 July 2005 attacks in London demonstrated.

The Government's policy are to promote peace, stability and good governance in the horn of Africa. We are working, with our international partners, through the UN, EU and other international fora, to support programmes in the region that will assist development in these areas. We also support programmes to reduce the instability and lack of governance in Somalia. These mechanisms will help counter the terrorist threat to the UK from the horn of Africa.

International Contact Group for Somalia

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs when the next meeting of the International Contact Group for Somalia will take place. [180726]

Meg Munn: The next meeting of the International Contact Group for Somalia is due to be hosted by the African Union in Addis Ababa. A date for the meeting has not yet been set.

Kenya: Christianity

Mr. Dodds: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the safety of Christians in Kenya; and what steps he is taking to promote their safety. [180629]

Meg Munn: We have had no reports of religious conflict or of targeting of Christians during the post-election violence. The Government are appalled by and condemn the incidents of violence that have broken out across Kenya, including horrific killings in several Kenyan cities and towns. We call for calm and for any grievances to be dealt with through the appropriate legal channels.

Kenya: Politics and Government

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps his Department has taken to encourage other African countries not to intervene in the internal affairs of Kenya. [180777]

Meg Munn: The Government are deeply concerned about the post-election crisis in Kenya. We are supportive of the African Union initiative to facilitate talks between the political parties and the mission, led by Kofi Annan, to assist them in doing so. We have been in touch with regional, and other African, leaders to underline our support for this African led process aimed at restoring peace, stability and prosperity to Kenya.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps his Department has taken at *(a)* bilateral, *(b)* Commonwealth, *(c)* EU and *(d)* United Nations levels to assist in restoring peace and stability in Kenya. [180778]

Meg Munn: The Government are working tirelessly with all our international partners to support the African Union's leadership in trying to find a way forward. We believe Kofi Annan's mission is the best way to assist the parties to agree a solution, which will restore peace and stability to Kenya.

The Commonwealth Secretariat has undertaken a visit to Kenya since the elections to find out what more can be done to help. The EU presidency statement of 11 January set out the EU's key concerns. The EU is a key element to the broad international support for the African Union's lead and for Kofi Annan's mission. The UN is focused on the humanitarian situation in Kenya and is working to ensure a swift and effective response to the humanitarian needs.

Kenya: Uganda

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of reports of Ugandan soldiers entering Kenya during the current political unrest; and if he will make a statement. [180805]

David Miliband: We have no evidence to support reports of Ugandan soldiers entering Kenya during the current unrest. The Kenyan and Ugandan authorities have assured us that this has not happened.

Members: Correspondence

Sir Michael Spicer: To ask the Secretary of State for Foreign and Commonwealth Affairs when he will reply to the letter from the hon. Member for West Worcestershire of 18 December 2007, on Iraqi interpreters. [182184]

Dr. Howells: I replied to the hon. Member on 21 January.

Middle East: Diplomatic Service

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs how many UK diplomats are serving in each post in *(a)* the Middle East and *(b)* South Asia. [179170]

David Miliband: The Foreign and Commonwealth Office (FCO) employs staff at its posts under a variety of terms and conditions, for example as casual staff and contractors. In addition, staff from other Government Departments, such as the Department for International Development, also work at our posts. The number of UK diplomats employed by the FCO at our posts in the Middle East and South Asia are listed in the following table.

	Number
Middle East	
Abu Dhabi	13
Alexandria	1
Algiers	13
Amman	27
Bahrain	9
Baghdad	33
Basra	11
Beirut	16
Cairo	33
Casablanca	1
Damascus	12
Doha	14
Dubai	26
Jedda	5
Jerusalem	12
Kuwait	20
Muscat	11
Rabat	12
Riyadh	29
Sana'a	14
Tehran	27
Tel Aviv	15
Tripoli	19
Tunis	8
South Asia	
Chennai	21
Colombo	19
Dhaka	34
Islamabad	118
Kabul (includes Lashkar)	70
Karachi	6
Kathmandu	10
Kolkata	4
Mumbai	31
New Delhi	69

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs how many staff are expected to require additional language training as a result of the decision to increase the number of UK diplomats in the Middle East and South Asia by 30 per cent.; and if he will make a statement. [179171]

David Miliband: I refer the right hon. Member to my written ministerial statement of 23 January 2008, *Official Report*, columns 52-53WS.

We will provide training for staff going to the Middle East and South Asia in languages such as Arabic, Farsi, Dari, Pashto and Urdu wherever there is an operational requirement. We do not yet know precisely how many staff will require this. It will depend on a range of factors, including the location, role and existing language skills of each officer.

British Nationals: Overseas Detention

Mr. Hayes: To ask the Secretary of State for Foreign and Commonwealth Affairs how many UK nationals *(a)* are serving life sentences and *(b)* have been sentenced to death and are imprisoned in prisons overseas. [181709]

Meg Munn: As at 31 December 2007, British consular officials were aware of 2,419 British nationals detained overseas. We do not compile separate statistics on those detainees serving life sentences. We provide the same consular assistance regardless of sentence.

We are currently aware of 10 British nationals abroad who have been sentenced to death. A further eight British nationals have been charged with offences that may carry the death penalty.

Mr. Hayes: To ask the Secretary of State for Foreign and Commonwealth Affairs how many UK nationals are currently in prison overseas; and what estimated proportion of these cases relate to *(a)* violent crime and *(b)* drugs offences. [181710]

Meg Munn: As at 31 December 2007, British consular officials were aware of 2,419 British nationals detained overseas. We do not keep statistics on the numbers of British nationals detained for violent crime.

We do, however, keep statistics for those detained on drug offences. Of the total number of British nationals currently detained abroad, 40 per cent. are for drugs related offences.

Pakistan: Nuclear Power

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of nuclear safety and security in Pakistan; and whether he has raised the matter with his Pakistani counterpart. [180802]

David Miliband: We continue to monitor closely issues of nuclear safety and security within Pakistan. The Government of Pakistan has recently given the UK assurances about the security around its nuclear installations.

Somalia: Armed Conflict

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the effect of the security situation in Somalia on peace and stability in the Horn of Africa. [180740]

Meg Munn: The Government are very concerned about the continuing potential for the security situation in Somalia to affect peace and stability in the horn of Africa.

The UK is working with the international community and the UN to encourage the development of government institutions in Somalia that will enable the authorities to develop the capacity to tackle insecurity in Somalia and reduce the risk to neighbouring countries.

Somalia: Human Rights

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the Government is taking with its international partners to improve the monitoring of the human rights situation in Somalia. [180724]

Meg Munn: The Government attach great importance to the protection of human rights. In Somalia, the security situation means that monitoring the human rights situation and gathering reliable information is very difficult. The UK is working with EU and UN agencies to find practicable solutions to increasing monitoring without endangering the individuals tasked with investigating allegations of abuse.

We urge the Transitional Federal Government of Somalia to embrace its responsibility to protect the human rights of its citizens. We believe the improvement of governance and rule of law in Somalia is the best way to improve human rights situation in the country. We are therefore working closely with international partners and the Transitional Federal Government to support improvement in governance institutions in Somalia.

Somalia: Peacekeeping Operations

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what *(a)* financial and *(b)* logistical support the Government are providing to the AU Mission in Somalia. [180741]

Meg Munn: During the financial year (FY) 2007-08, the Government have committed the following expenditure for support to the African Union for their mission to Somalia:

£4.5 million for Ugandan and Burundian troop sustainment (fuel, food, rotation costs, airlift);

£2.3 million for Burundian troop allowances (per diems for 2 battalions up to end of FY);

£1.3 million for supplies to the Ugandan battalions (trucks, vehicle spares, paint etc.);

£120,000 (maximum) for subsistence payments and accommodation for military planners;

£20,000 for a Burundian military reconnaissance visit to Mogadishu;

£20,000 for a Burundian liaison officer in Kampala (subsistence and accommodation); and

£40,000 (maximum) committed for a potential Nigerian reconnaissance visit to Mogadishu.

The current total UK commitment for supporting the African Union mission to Somalia during FY 2007-08 is £8,300,000.

Sudan: Peace Negotiations

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs which five key posts the UK is filling in the Darfur-Darfur dialogue and consultation. [180798]

Meg Munn: The Darfur-Darfur Dialogue and Consultation (DDDC) is the main mechanism for engaging Darfurian civil society in the Political Process, and will be the main mechanism for engaging Darfurian civil society in longer-term reconciliation and rehabilitation.

The five key posts being filled by the UK for an initial six-month period are: Chief of Operations, Communication Officer and three Field Co-ordinators. This support over the next six months will help the DDDC to increase its financial management, planning and implementation capacity.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the UK is taking to secure a ceasefire in Darfur; and what progress has been made in achieving that objective. [180800]

David Miliband: The UK welcomed the Government of Sudan's announcement on 27 October 2007 of a unilateral cessation of hostilities. We have urged others to make the same commitment and all parties to honour their commitments. We are working with the UN, the African Union (AU), key allies and troop contributing countries to ensure that the AU/UN hybrid operation in Darfur is an effective peacekeeping force; and with the UN, the AU and other international partners to ensure that any new agreement on a cessation of hostilities can be effectively monitored.

Sudan: Peacekeeping Operations

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 7 January 2008, *Official Report*, column 97W, on Sudan: peacekeeping operations, what *(a)* issues have been discussed and *(b)* conclusions have been reached in discussions with the UN Department of Peacekeeping Operations on the UN-EU mission in Chad/Central African Republic and the UN-AU hybrid mission in Darfur. [180835]

Meg Munn: We have repeatedly discussed with the UN Department of Peacekeeping Operations and the appropriate EU authorities the issue of co-ordination between the African Union/UN hybrid peacekeeping mission in Darfur (UNAMID), which assumed authority on 31 December 2007, and the UN/EU mission in Chad/Central African Republic (EUFOR) which is scheduled to start deploying in February. UNAMID has a number of liaison officers deployed in Abeche in Eastern Chad and we understand EUFOR may also deploy liaison officers in Darfur.

We have also extended the Joint Action of the EU Special Representative to Sudan to cover the EUFOR deployment in Chad, and to encourage co-ordination between the two missions. We are monitoring incursions across the Chad-Sudan border and, in bilateral contacts, we have urged both the Government of Sudan and the Government of Chad to exercise restraint.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 7 January 2008, *Official Report*, column 98W, on Sudan: peacekeeping operations, what action is planned at the UN Security Council in light of the lack of full co-operation by the Government of Sudan over the UNAMID deployment; and if he will make a statement. [180857]

David Miliband: The UN Security Council will continue to take a close interest in the African Union/UN hybrid operation in Darfur (UNAMID) deployment throughout 2008. In response to the attack on a UNAMID convoy on 7 January, the UN Security Council issued a presidential statement on 11 January that called on the Government of Sudan to conclude

> "all the necessary arrangements for the expeditious deployment of an effective UNAMID force".

We will continue to press the Government of Sudan to resolve outstanding issues, including force composition, the Status of Forces Agreement and night flying rights. We will also continue to discuss this issue with EU partners and to reiterate with them our readiness to consider further measures in the UN framework against any party that obstructs the prompt deployment of an effective force.

Terrorism: Detainees

Mr. Tyrie: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the US administration on the destruction of videotapes of interrogations with suspected al-Qaeda operatives by the CIA in 2005. [181472]

Dr. Howells: My right hon. Friend the Foreign Secretary has not discussed this subject with the US administration.

USA: Detainees

Mr. Tyrie: To ask the Secretary of State for Foreign and Commonwealth Affairs whether any information has been passed to the UK from detainees held by the US administration since 2001, obtained through the use of interrogation techniques which may constitute torture, or cruel, inhuman or degrading treatment under British law, including the technique known as waterboarding. [182070]

Dr. Howells: It is the long-standing policy of the Government not to comment on matters relating to intelligence issues.

The UK unreservedly condemns the use of torture as a matter of fundamental principle. The Government, including its intelligence and security agencies, never uses torture for any purpose, including obtaining information. Nor would we instigate action by others to do so.

TRANSPORT

A2: Gravesham

Mr. Holloway: To ask the Secretary of State for Transport what the cost is of replacing the underpass connecting Down's Road and Hog Lane under the A2 in Gravesham. [180186]

Mr. Tom Harris: No estimate was made of the cost of replacing the underpass connecting Down's Road and Hog Lane under the A2 in Gravesham.

However, the estimated cost of the road and road bridge due to replace the underpass is £1.1 million.

A27: Selmeston

Norman Baker: To ask the Secretary of State for Transport what steps are being taken to improve safety on the A27 in the Selmeston area; and what the timetable is in each case. [181978]

Mr. Tom Harris: The Highways Agency undertook investigations into accident types in the Selmeston area in 2006-07. As a result, a programme of schemes has been developed to address safety concerns.

In December 2007 the Highways Agency extended the double white lines and the existing 40 mph speed limit by approximately 400 metres west of Selmeston village where accidents have occurred due to vehicle movements at a bend and lay-by.

During the next three years the Agency is planning, subject to funding, to improve safety on the A27 in the Selmeston area in two other locations:

Between Selmeston and Middle Farm localised widening, introduction of a central hatched area and physical islands to discourage inappropriate overtaking.

Improvements to the junctions between the A27 with Common Lane, Bopeep Lane and The Street.

A303

Mr. Laws: To ask the Secretary of State for Transport when she plans to upgrade the *(a)* A303 and *(b)* A358; and if she will make a statement. [181799]

Mr. Tom Harris: Further work on plans to upgrade the A303 and the A358 has been put on hold while the implications of the A303 Stonehenge decision for the wider strategy of improving the A303/A358 corridor are resolved between the Department of Transport and the South West region.

A303: Stonehenge

Robert Key: To ask the Secretary of State for Transport who will fund *(a)* proposed road junction improvements on the A303 at Long Barrow Roundabout and Countess Roundabout near Stonehenge and *(b)* a proposed new roundabout at the junction of the A344 and A360 at Airman's Corner as a result of the Government's decision to build a new visitor centre at Stonehenge by 2012. [180946]

Mr. Tom Harris: No decisions have yet been taken on whether or not junction improvements are to be pursued on the A303 at Countess and Longbarrow roundabouts or on the A344/A360 at Airman's Corner. Such measures will be considered as part of the development of proposals for improving the visitor facilities at Stonehenge. Decisions about funding will be made when decisions are made in due course about what, if any, improvement measures are to be pursued.

A38: Plymouth

Mr. Streeter: To ask the Secretary of State for Transport if she will assess the causes of road traffic accidents on the A38 between Marsh Mills and Ivybridge in Devon over the past 12 months. [182123]

Mr. Tom Harris: Any investigation by the Highways Agency would have to await the outcome of police investigations. The agency obtains details of accidents from the police, who provide this data once their own investigations and those of any coroner's inquest, if appropriate, have finished. This process can take up to a year to complete.

Mr. Streeter: To ask the Secretary of State for Transport if she will order an inquiry to be carried out into the number of road traffic accidents on the A38 between Plymouth and Ivybridge in Devon. [182124]

Mr. Tom Harris: It is not possible to justify an inquiry into the number of road traffic accidents on this section of the A38, as the collision rate for the last five years is more than 10 per cent. lower than the national average for this type of trunk road. The Highways Agency continually monitors safety on its roads with a view to implementing improvements as priority allows.

A5

Andrew Selous: To ask the Secretary of State for Transport when a copy of the full progress report on the A5-M1 link will be sent to the hon. Member for South West Bedfordshire. [180649]

Mr. Tom Harris *[holding answer 21 January 2008]:* Following the meeting of officials with the hon. Gentleman and representatives of regional groups in December 2007, opportunities to advance the scheme have been reviewed.

I have asked that all these opportunities should be considered before the report is finalised. The Government Office for the East of England is working with the Department for Transport and other partners to finalise the report. I expect to receive the report during February 2008 and will send a copy of it to the hon. Member for South West Bedfordshire as soon as possible.

Aviation: Radioactive Materials

Norman Baker: To ask the Secretary of State for Transport how many aeroplane flights occurred in which spent nuclear fuel was carried within UK airspace in each of the last 10 years; what the origin and destination was of each case; and what volume of fuel was carried in each case. [180659]

Jim Fitzpatrick *[holding answer 21 January 2008]:* This Department holds information on one shipment of spent nuclear fuel by air within UK airspace in the last 10 years. This was a shipment in 1998 from Tbilisi, Georgia to Dounrey, Caithness containing approximately 4 kg of uranium.

Aviation: Security

Norman Baker: To ask the Secretary of State for Transport how many flights to the US operating out of *(a)* Heathrow and *(b)* Gatwick were accompanied by armed air marshals in 2006-07; what the nationality of such marshals was; and to whom they are accountable. [178153]

Jim Fitzpatrick: For security reasons, it would be inappropriate to comment on the specific security arrangements which have been put in place at UK airports.

Bus Services: Concessions

Mrs. Curtis-Thomas: To ask the Secretary of State for Transport how many individuals living in *(a)* Formby (L37), *(b)* Crosby (L23), *(c)* Hightown (L38) and *(d)* Seaforth and Waterloo (L22 and L21) have been awarded a free bus travel pass in 2007-08; what proportion of bus travellers this represents in each area; and how much this benefit has cost the public purse in each year since 1997. [181152]

Ms Rosie Winterton: The Department does not hold information about the number of passes issued at the level requested. Merseyside Passenger Transport Executive (Merseytravel) administers the Concessionary Travel Scheme that covers *(a)* Formby, *(b)* Crosby, *(c)* Hightown and *(d)* Seaforth and Waterloo. In October 2007 Merseytravel reported to the Department that they had a total of 286,794 concessionary travel passes currently in circulation.

The Department does not have information about the number of bus trips taken by concessionaires at the level requested. Merseytravel is responsible for administering the scheme and may hold this data.

Funding for concessionary travel is within Revenue Support Grant (RSG), so it is not possible to disaggregate information for the cost of this to the public purse since 1997. When the statutory minimum concession was raised from half fare to free off-peak local bus travel from 1 April 2006 an additional £350 million was added to RSG in 2006-07, with a further £367.5 million in 2007-08. From April 2008 an additional £212 million will be paid directly to local authorities by special grant to fund the new national concession, rising to £217 million in 2009-10 and £223 million in 2010-11. In the provisional distribution of the grant in 2008-09 Merseytravel would receive £6.519 million through special grant in addition to the existing RSG funding.

Cars: Exhaust Emissions

Norman Baker: To ask the Secretary of State for Transport what percentage of new cars sold in 2006 emitted less than 100g of carbon dioxide per kilometre; and what projection she has made of the percentage emissions that will be allowed in each year up to 2040. [178137]

Jim Fitzpatrick: In 2006, cars with less than 100 g/km CO_2 tailpipe emissions accounted for no UK sales and 0.002 per cent. of the total EU market.

Neither we nor the European Commission have any plans to set a limit per car. The Commission intends that new cars emit an average of 130 g/km from 2012, but has not yet proposed any figures for the longer term. We do not yet have a view for 2040; but we believe that 100 g/km as an average should be achievable by 2020 (or 2025 at the latest). We are urging the Commission, Parliament and Council to seek consensus on this as soon as possible.

The dossier containing the Commission's proposal will be debated in Europe during 2008.

Crossrail Line

Mr. Pickles: To ask the Secretary of State for Transport how much funding will be raised from the new Statutory Planning Charge for Crossrail; for how long the charge will be collected; on what developments it will be levied; and which local authorities it will affect. [176367]

Mr. Tom Harris: The Planning Bill introduced to Parliament on 28 November 2007 provides for a Community Infrastructure Levy. As part of the funding agreement between Transport for London and the Department for Transport, it is envisaged that the levy will be used to secure contributions from developers to provide funding for Crossrail. I refer the hon. Member to the written statement made by the Secretary of State on 26 November 2007, *Official Report*, columns 133-34WS.

The timing of the charge, the type of developments and local authorities affected, and other details will depend on the final form of the legislation, the regulations laid under the proposed powers in the Planning Bill, and on the Mayor of London's policies established in line with the legislation and the regulations.

Gatwick Airport

Mr. MacShane: To ask the Secretary of State for Transport for what reasons passengers travelling through Gatwick Airport continue to be restricted to one item of hand luggage. [179478]

Jim Fitzpatrick: The Secretary of State announced last year that the one bag restriction would be lifted from 7 January 2008, subject to airports demonstrating that they would be able to handle the additional bags without adversely affecting security. 23 airports have been approved to fully lift the restriction. Gatwick Airport's South Terminal Flight Connections Centre has also been approved. We expect the other parts of Gatwick Airport to achieve this aim later in the year.

Heathrow Airport: Noise

Justine Greening: To ask the Secretary of State for Transport what estimate she has made of the proportion of planes landing at Heathrow Airport using the continuous descent approach; what assumptions have been made regarding the proportion of planes landing at Heathrow Airport using the continuous descent approach in the noise modelling findings contained in the Adding Capacity at Heathrow Airport public consultation document; and if she will make a statement. [181715]

Jim Fitzpatrick *[holding answer 24 January 2008]*: The current daytime levels of continuous decent approach (CDA) are around 80 to 85 per cent.

Noise modelling for future Heathrow scenarios is based on the airspace arrangements described in the supporting technical reports by NATS. This assumes full CDA capability on all approaches to a three runway airport; but reduced CDA capability under the

mixed mode ('maximum capacity, baseline') option, at around 35-40 per cent., as explained in paragraphs 3.102 to 3.105 of the consultation document. As the document states, the main noise benefits from CDA are felt further from the airport, outside the area of the 57 dBA noise contour.

Heathrow Airport: Public Participation

Justine Greening: To ask the Secretary of State for Transport what criteria are to be used to assess the appropriateness of the need for a public consultation on flightpaths for a third runway at Heathrow airport once detailed design and simulation work has been carried out, as noted on paragraph 1.24, page 24 of the Adding Capacity at Heathrow Airport public consultation document; and if she will make a statement. [181717]

Jim Fitzpatrick *[holding answer 24 January 2008]:* It is not for the Secretary of State for Transport to determine consultation criteria for airspace changes.

Changes to airspace arrangements are subject to the independent Airspace Change Process, governed by the Civil Aviation Authority (CAA). CAA Guidance on the Application of the Airspace Change Process (CAP725) provides detailed advice on the application of the process, including consultation requirements. It makes clear that all airspace changes will require some form of consultation but that the level of consultation will be determined by the impact that the change will have on others and not the size of the change itself.

Specific consultation requirements on airspace changes in support of a third runway at Heathrow would be a matter for the sponsor of the airspace change, in this case the airport operator, BAA, with the support of NATS, the air traffic service provider, to discuss with the regulator, the CAA, as and when a detailed proposal is developed.

M25: Contracts

Andrew Rosindell: To ask the Secretary of State for Transport which companies have been invited to tender for the widening of the M25. [181644]

Mr. Tom Harris: There are three organisations that have been invited to tender for the M25 Design, Build, Finance and Operate (DBFO) contract. These are:

A consortium of Amey, Laing O'Rourke and Ferrovial

Connect Plus—Balfour Beatty, Skanska, Atkins and Egis Projects

Flow—Costain, Carillion, Vinci and Laing Roads.

Network Rail: Bridges

Bill Wiggin: To ask the Secretary of State for Transport for what reasons Network Rail are required to replace their bridges that bear a load of 24 tonnes. [181385]

Mr. Tom Harris: Network Rail-owned bridges over railways most commonly carry local authority roads. EC directives 85/3/ECC and 89/460 ECC require member states' "principal roads" to be made accessible to 40 tonne vehicles with 11.5 tonne axle weights. Network Rail-owned bridges are statutorily required to be able to carry 24 imperial tons. They are covered by a national programme of assessment and works (Bridgeguard 3), and a national cost sharing agreement with local authorities relating to the costs of assessment and strengthening.

There is no obligation on Network Rail to strengthen its bridges carrying roads to accommodate 40 tonne lorries. If such carrying capacity were required, it would be for the local highway authority to provide the funding.

Public Transport: Rural Areas

Mr. McLoughlin: To ask the Secretary of State for Transport what steps are being taken to ensure adequate spending on public transport in rural and remote areas of the country. [181158]

Ms Rosie Winterton: Local and central Government are currently spending £2.5 billion a year on buses—including those operating in rural and isolated areas. This includes bus service operators grant (BSOG), the costs of mandatory concessionary fares, local authority subsidy of non-commercial services and capital expenditure on bus-related infrastructure schemes. It is for local authorities to decide what resources to devote to the support of rural bus services within their area.

However, recognising the particular needs of rural areas, we have provided funding to local authorities in the form of rural bus subsidy grant. This grant is currently supporting over 2,000 new and enhanced services on which over 33 million passenger journeys are made annually. This year's allocations total £55.6 million, bringing the grant's total to nearly £450 million since its introduction in 1998.

Demand responsive, flexibly routed and community transport services provide essential links in rural areas. To assist these types of services, we changed the regulations that govern the operation of bus services to enable more flexibly routed services to be registered with the traffic commissioner. We have also provided support for many community transport services by making them eligible for the first time to receive BSOG.

The Local Transport Bill will benefit rural areas as well as towns and cities by modernising the regulatory framework for buses, giving local authorities a bigger role where this is necessary and providing strengthened arrangements for partnerships between local authorities and bus operators.

The Bill also contains measures to expand the role of community transport and enable private hire vehicle operators to provide local bus services, extending the existing taxibus provisions to this sector for the first time. Both these measures are of particular relevance to meeting rural transport needs.

Railway Stations: Chelmsford

Mr. Burns: To ask the Secretary of State for Transport when a decision will be taken on whether to build a new railway station in the North Chelmsford-Springfield area; and if she will make a statement. [181333]

Mr. Tom Harris: The proposed new station in north Chelmsford is being privately promoted in connection with a major development in the Beaulieu Park area. The promoter is in active discussion with Network Rail, the train operator ('One Railway'), the Department for Transport, local authorities, and the Highways Agency.

Railway Stations: Chorley

Mr. Hoyle: To ask the Secretary of State for Transport when work will begin on the construction of the new railway station at Buckshaw Village, Chorley. [181704]

Mr. Tom Harris: This is a project that is being led by Lancashire county council with Network Rail. It is being funded largely by developer contributions. There is an active dialogue between the local authority and Network Rail, who will be responsible for project managing and delivering the station, provided the funding is fully in place. They are planning for the station to be operational by 2009 subject to funding.

Railway Stations: Easington

John Cummings: To ask the Secretary of State for Transport what plans she has to re-open rail stations at Horden, Easington and Blackhall in Easington constituency; and if she will make a statement. [182376]

Mr. Tom Harris: We have no plans to re-open rail stations at Horden, Easington and Blackhall. It would be for the local authorities to propose and fund any new stations provided that they have a business case and if they consider that new stations are the best way of meeting local transport needs.

Railways: Chorley

Mr. Hoyle: To ask the Secretary of State for Transport how many trains stopped at *(a)* Chorley and *(b)* Adlington on weekdays in the most recent period for which figures are available. [181454]

Mr. Tom Harris: 97 passenger trains stop at Chorley and 42 passenger trains stop at Adlington (Lancashire) on weekdays.

Mr. Hoyle: To ask the Secretary of State for Transport what plans there are to increase the *(a)* number and *(b)* capacity of trains calling at (i) Chorley and (ii) Adlington. [181796]

Mr. Tom Harris: The rail White Paper was published in July 2007. It sets out the resources we intend to make available to the rail industry and the increases in capacity, as well as safety and performance that we expect the industry to deliver in return.

The Department for Transport is currently reviewing the Association of Greater Manchester Authorities' bid for funding from the Transport Innovation Fund (TIF). The proposal seeks to address congestion issues within the Greater Manchester area through introducing a road congestion charge bid while also investing in providing additional public transport opportunities, as part of the TIF bid.

Railways: Colchester

Bob Russell: To ask the Secretary of State for Transport what recent assessment she has made of train *(a)* punctuality and *(b)* overcrowding on the line between Colchester and London. [180368]

Mr. Tom Harris: Improving rail performance is a key objective for the Department for Transport. Joint action plans are in place between Network Rail and 'one' to address performance issues. These are monitored monthly.

The most recent published PPM figures are those shown on Network Rail's website for the rail industry as a whole. This shows confirmed PPM figures up to period 9 (ending 8 December 2007). The website shows that 'one's PPM for period 9 was 84.7 per cent. and the moving annual average ('MAA') was 89.7 per cent., compared to whole industry figures of 86 per cent. and 89.2 per cent. respectively.

Railways: North West Region

Janet Anderson: To ask the Secretary of State for Transport what recent discussions her Department has had with Blackburn and Darwen borough council on a funding bid to upgrade the rail track and service between Blackburn, Darwen and Manchester Victoria. [180503]

Mr. Tom Harris: Officials from the Department, along with Network Rail, met officers from Blackburn and Darwen borough council in November 2007 to discuss improvements to the railway line between Blackburn and Bolton that would be necessary to deliver the council's aspiration for half hourly off-peak services between Blackburn, Darwen and Manchester Victoria. A funding bid has not been received from the council for this scheme.

Mr. Hoyle: To ask the Secretary of State for Transport how many trains operate between Preston and Manchester via Chorley on a daily basis. [181795]

Mr. Tom Harris: 97 passenger trains operate between Preston and Manchester via (and calling at) Chorley, Monday to Friday.

Railways: Overcrowding

Mr. Hoyle: To ask the Secretary of State for Transport what assessment she has made of the levels of overcrowding on trains running between Preston and Manchester at peak times; and if she will make a statement. [181453]

Mr. Tom Harris: There are no specific requirements regarding levels of crowding on this route. The Department's general requirements for crowding are that passengers should not be expected to stand for more than 20 minutes.

The rail White Paper was published in July 2007. It sets out the resources we intend to make available to the rail industry and the increases in capacity, as well as safety and performance, that we expect the industry to deliver in return.

Railways: Prices

Mr. Gale: To ask the Secretary of State for Transport pursuant to the answer of 21 January 2008, what measure of inflation is used by her Department in determining rail price increases under the terms of the South Eastern Franchise Agreement for 2008. [181858]

Mr. Tom Harris *[holding answer 24 January 2008]:* The measure of inflation used for Southeastern's January 2008 regulated fares was the July 2007 retail prices index figure—3.8 per cent.

Southeastern may price unregulated fares at its discretion.

Road Traffic

Norman Baker: To ask the Secretary of State for Transport what the average delay was on England's motorways and trunk roads, expressed in minutes per 10 miles, in respect of *(a)* all journeys and *(b)* the slowest 10 per cent. of journeys in each year since 1997. [180959]

Mr. Tom Harris *[holding answer 22 January 2008]:* The average delay on England's motorways and trunk roads, expressed in minutes per 10 miles in respect of all journeys and the worst 10 per cent. of journeys in each year since 2004-05 is shown in the following table. The earliest available data are for the period August 2004 to July 2005 and the latest for November 2006 to October 2007. Data before 2004-05 are not held centrally on this basis.

Average delay on England's motorways and trunk roads for all journeys and worst 10 per cent. respectively, for each year since 2004-05 (minutes per 10 miles)

	Average delay (minutes per 10 miles)	
	All journeys	*Worst 10 per cent.*
August 2004 to July 2005	1.16	3.78
August 2005 to July 2006	1.24	3.78
August 2006 to July 2007	1.32	4.18
November 2006 to October2007	1.29	4.08

Source:
Information derived from the Highways Agency Traffic Information Systems database

These figures represent average daytime delays (6 am to 8 pm) on the 91 routes currently used for monitoring performance on the strategic road network.

Delay is the difference between observed journey time and a reference journey time (the time that could theoretically be achieved when the traffic is free flowing).

Road Traffic Offences

Mr. Morley: To ask the Secretary of State for Transport what the appeal process is in the event of a disagreement in the application of a traffic regulation order. [180765]

Ms Rosie Winterton: Where traffic regulation orders are subject to civil enforcement by local authorities, a motorist wishing to dispute a penalty charge notice may make formal representations to the relevant local authority. If these are rejected, the motorist may appeal to the independent parking adjudicator. The grounds on which a formal representation and any subsequent appeal can be made include that the "alleged contravention did not occur". This might be the case if there was a dispute as to whether the traffic regulation order applied to the conduct complained of (for example if there was a question as to when parking restrictions applied under the order).

Where civil enforcement has not been introduced, issues as to the application of a traffic regulation order would need to be raised in the first instance before the magistrates court.

Roads: Accidents

Norman Baker: To ask the Secretary of State for Transport how many accidents on roads in England involved drivers who were aged 17 in 2007. [180663]

Jim Fitzpatrick: The information requested is not available. Statistics on reported personal injury road accidents in 2007 are due to be published in June 2008.

Norman Baker: To ask the Secretary of State for Transport how many and what percentage of *(a)* drivers and *(b)* vehicle passengers who were (i) killed and (ii) seriously injured on roads were not wearing seat belts in 2007. [180665]

Jim Fitzpatrick: The information requested is not available. Research reported in the published "Second Review of the Government's Road Safety Strategy" and "Road Safety Research Report No. 76: Trends in Fatal Car-occupant Accidents" both published on 26 February 2007, estimates that about a third of fatally injured car occupants were not wearing their seatbelts. For 2005 figures, it represents about 565 people, and it is estimated that about 370 people might have survived if they had been properly restrained. These reports are available at the following links and have also been deposited in the Libraries of the House.

http://www.dft.gov.uk/pgr/roadsafety/strategytargetsperformance/2ndreview/

http://www.dft.gov.uk/pgr/roadsafety/research/rsrr/theme5/76?version=2

A research report giving further details on seat belt wearing has also been published by TRL limited.

http://www.trl.co.uk/store/report_detail.asp?srid=6160&pid=220

Norman Baker: To ask the Secretary of State for Transport how many *(a)* road traffic accidents, *(b)* road traffic fatalities, *(c)* accidents involving motorcyclists, *(d)* fatalities involving motorcyclists, *(e)* accidents involving bicyclists and *(f)* fatalities involving bicyclists there were in each county in the UK for each year since 1997. [180961]

Jim Fitzpatrick *[holding answer 22 January 2008]:* Tables showing the number of *(a)* reported personal injury road accidents, *(b)* fatalities, *(c)* reported personal

injury road accidents involving at least one motorcycle, *(d)* motorcycle fatalities, *(e)* reported personal injury road accidents involving at least one pedal cycle and *(f)* pedal cycle fatalities in each county in GB for 1997 to 2006 have been deposited in the Libraries of the House.

Mr. Streeter: To ask the Secretary of State for Transport what procedures her Department uses to collect statistics on the number of road traffic accidents, with particular reference to accidents in Devon. [182118]

Jim Fitzpatrick: The national collision statistical reporting form (commonly known as STATS19) is used to collect standard information, when a personal injury road accident is reported to the police. The information is collected by the police at the scene of the accident or, in a minority of cases, it is reported by a member of the public at a police station. Some 50 data items are collected for each accident, including the time, location and circumstances of the accident, the vehicles involved and some information on each casualty. After processing this information is forwarded by each police force (via local processing authorities in the case of some forces) to the Department electronically and entered into a database. The data are checked, analysed and detailed results published annually in "Road Casualties Great Britain".

Personal injury road accident data in Devon are collected on behalf of the Department by Devon and Cornwall constabulary. Accident and casualty totals for the year are agreed with Devon county council at the year end.

Roads: Colchester

Bob Russell: To ask the Secretary of State for Transport when she expects work to commence on the junction from the A12 Colchester Northern by-pass to the Northern Approach Road near the Colchester Community Stadium. [180903]

Mr. Tom Harris: Delivery of the junction is tied to planning consent and is a matter for developers to take forward in line with plans for delivery of proposed housing, employment and leisure facilities in North Colchester. Both English Partnerships and the Highways Agency are working to help bring forward time scales for delivery. In view of this, start date is not currently available, although it is anticipated that work could start during 2009, subject to the completion of statutory procedures.

Roads: Tolls

Norman Baker: To ask the Secretary of State for Transport what recent discussions she has had with *(a)* the Prime Minister and *(b)* the Chancellor of the Exchequer on the national roll-out of road pricing. [181975]

Ms Rosie Winterton: My right hon. Friend the Secretary of State speaks regularly to both the Prime Minister and the Chancellor about transport issues across the range of her responsibilities.

We continue to take forward work on road pricing, notably supporting local authorities in the development of local pricing schemes, and working with industry to explore how more advanced technologies might support schemes on a wider scale in due course. No decisions have been taken on national road pricing.

South West Trains

Mr. Hancock: To ask the Secretary of State for Transport what factors underlay her decision to allow South West Trains to close their existing travel centres and not require them to be retained for railway purposes; and if she will make a statement. [181093]

Mr. Tom Harris: The South West Trains franchise agreement does not require the provision of Travel Centres at its stations, nor does the Ticketing and Settlement Agreement (TSA) which governs station ticket offices.

However, the change of use of part of a station or facility at that station, such as a Travel Centre, to another use which is non rail related is governed by the Network Modifications (Closures) regime contained in the Railways Act 2005 ("the Act"). Should South West Trains propose to change the use of Travel Centres with a non rail facility, their proposals will be dealt with under the provisions of the Act.

Virgin Rail: Rolling Stock

Michael Fabricant: To ask the Secretary of State for Transport what progress is being made in discussions between her Department and Virgin Trains on the elongation of Pendolino trains from nine to 11 cars. [181442]

Mr. Tom Harris: The Department received in 2007 an unsolicited proposal from Virgin Trains to extend their franchise for two years (2012-14), which included a plan to lengthen Pendolino trains, which was analysed in considerable detail. The Department concluded that this proposal provided significantly less value for money compared with the likely outcome of the refranchising exercise scheduled for completion in 2012. The Department is preparing its own proposals to introduce extra capacity on the west coast main line.

COMMUNITIES AND LOCAL GOVERNMENT

Allotments: Chorley

Mr. Hoyle: To ask the Secretary of State for Communities and Local Government what assessment she has made of whether Chorley borough council makes adequate provision for allotments. [181705]

Mr. Iain Wright: The provision of allotments is the responsibility of local authorities. The Small Holdings and Allotments Act 1908 places a duty on local authorities to provide allotments where they perceive demand for them in their area.

Written representations may be made to the local authority on the need for allotments by any six resident registered electors or persons liable to pay council tax, and the local authority must take those representations into account (section 23(2) of the Small Holdings and Allotments Act 1908). The council must assess whether there is a demand for allotments in their area. If the council then decides that there is a demand for them, they have a statutory duty to provide a sufficient number of plots. In terms of the duty to provide under section 23 of the Small Holdings and Allotments Act 1908 there is no time limit for provision once it has been established that there is a demand.

The local government White Paper provides new opportunities for citizens to hold their local providers to account for quality of services and facilities.

Planning Policy Guidance Note 17 (Planning for Open Space, Sport and Recreation) requires local authorities to assess the needs of their communities for a range of open spaces, and to address any identified deficiencies in provision. This is consistent with our wider policy to give local authorities flexibilities and freedoms to determine what is most appropriate for their local area.

To further support local authorities, we are currently revising the good practice guide for the management of allotments in conjunction with the Local Government Association.

Community Development: Finance

Mr. Prisk: To ask the Secretary of State for Communities and Local Government what her Department's planned expenditure on business support, promotion of enterprise and economic development is from 2007-08 to 2010-11; and which elements of this expenditure are planned to be funded through the regional development agencies' single pot. [179275]

John Healey: Communities and Local Government will provide £1,586 million in 2007-08, £1,548 million in 2008-09, £1,510 million in 2009-10 and £1,474 million in 2010-11 to the regional development agencies' single budget. The RDA single budget is intended to deliver a range of statutory objectives including regeneration, business support, employment, skills and sustainable development. The RDAs' detailed proposals for business support covering the next three years will be set out in their corporate plans which will be published in the spring.

Communities and Local Government does not hold separate expenditure data for the range of the Department's planned spending on business support or promotion of enterprise and economic development, although the Department's funding is expected to contribute significantly to these areas, including through the RDAs.

Departmental Visits Abroad

Grant Shapps: To ask the Secretary of State for Communities and Local Government on how many occasions since her appointment as Secretary of State she has travelled outside the United Kingdom on official business; for what purposes; and at what cost. [182565]

Mr. Iain Wright: I refer the hon. Member to my reply to the hon. Member for Beckenham (Mrs. Lait) on 15 October 2007, *Official Report*, column 844W.

Green Belt

Grant Shapps: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Brentwood and Ongar (Mr. Pickles) of 10 December 2007, *Official Report*, columns 131W-9W, on the green belt, how many hectares of green belt there were in *(a)* Durham and *(b)* Easington in 1997. [182887]

Mr. Iain Wright: I refer the hon. Member to the answer I gave him on 23 January 2008, *Official Report*, column 2046W.

Housing: Planning

Mr. Hoban: To ask the Secretary of State for Communities and Local Government what guidance has been issued to planning authorities on the density of housing development. [173541]

Mr. Iain Wright: Using land efficiently is a key consideration in planning for housing. Guidance to local planning authorities on developing appropriate housing density policies is set out in Planning Policy Statement 3 (PPS3), published last November. While PPS3 advises a national indicative minimum density figure of 30 dwellings per hectare, it also grants more flexibility to local planning authorities to take account of local circumstances and set their own local standards for density by setting out a range of densities across their plan area, rather than one broad density range.

Housing: South West Region

Steve Webb: To ask the Secretary of State for Communities and Local Government if she will estimate for each of the unitary authority and district council areas covered by the draft Regional Spatial Strategy for the South West the percentage increase proposed in the independent panel report over the 2006 base in the number of new houses. [182182]

Mr. Iain Wright: The Secretary of State is currently considering all the recommendations made by the Panel and she is planning to publish her Proposed Changes to the Draft Regional Spatial Strategy in the spring. I would like to stress to the hon. Member that no conclusions have yet been reached on any of the Panel's recommendations.

The following table has been prepared using information at Appendix (ii) of the Panel's report.

	Overall net increase in dwellings (number) for period 2006-26		Percentage increase
	Draft Regional Spatial Strategy as submitted to Government in April 2006 by South West Regional Assembly	Recommendations of Independent Panel in their report December 2006	Between Panel report and Draft Regional Spatial Strategy
West of England Housing Market area	110,200	126,950	15.20
Bristol City	28,000	30,000	7.14
South Gloucestershire	23,000	30,800	33.91
North Somerset	26,000	26,750	2.88
Bath and North East Somerset	15,500	18,800	21.29
West Wiltshire	10,500	12,300	17.14
Mendip	7,200	8,300	15.28
Swindon Housing Market area	49,000	53,900	10.00
Swindon	34,000	34,200	0.59
North Wiltshire	10,000	13,700	37.00
Kennet	5,000	6,000	20.00
Gloucester and Cheltenham Housing Market area	48,600	56,400	16.05
Gloucester	11,500	11,500	0.00
Cheltenham	8,500	8,100	-4.71
Tewkesbury	10,500	14,600	39.05
Stroud	6,700	9,100	35.82
Cotswold	6,000	6,900	15.00
Forest of Dean	5,400	6,200	14.81
Exeter Housing Market area	38,400	46,900	22.14
Exeter City	10,500	12,000	14.29
East Devon	11,400	17,100	50.00
Elsewhere in Exeter JSA (Exeter City/East Devon/ Teignbridge) [4]	1,500	—	-100.00
Mid Devon [3]	6,400	7,400	15.63

[3] Excludes part in Dartmoor National Park.
[4] The draft RSS distinguishes between allocations for complete districts and allocations for "elsewhere" within the HMA.

Housing: Waiting Lists

Mr. Evennett: To ask the Secretary of State for Communities and Local Government how many households were on waiting lists for housing in each London borough in each of the last three years for which figures are available. [180906]

Mr. Iain Wright: I refer the hon. Member to the answer I gave to my right hon. Friend the Member for Oldham, West and Royton (Mr. Meacher) on 13 November 2007, *Official Report*, column 116W.

Local Authorities: Grants

Grant Shapps: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 29 October 2007, *Official Report*, columns 667-68W, on local authorities: grants, what the grant per capita to each local authority was in *(a)* 2006-07 and *(b)* 2007-08; and what the average grant per capita to (i) district councils, (ii) unitary councils, (iii) county councils, (iv) metropolitan councils and (v) London boroughs was in (A) 2006-07 and (B) 2007-08. [180197]

John Healey: I have placed in the Library of the House a table showing the information on central Government grant per capita for each local authority in 2006-07 and budget estimates for 2007-08.

The average central Government grant per capita by class of authority in 2006-07 and budget estimates for 2007-08 is in the following table.

Class of authority	2006-07	£ per head 2007-08
District councils	91	90
Unitary councils	1,085	1,109
County councils	800	833
Metropolitan councils	1,288	1,316
London boroughs (including City of London)	1,359	1,402

Source:
Communities and Local Government Revenue Outturn (RO) 2006-07 returns and Revenue Account (RA) 2007-08 budget estimates returns.

Central Government grant is defined here as the sum of formula grant (revenue support grant, police grant, general GLA grant and redistributed non-domestic rates) and specific grants inside Aggregate External Finance (AEF), i.e. revenue grants paid for councils' core services.

Figures exclude grants outside AEF (i.e. where funding is not for authorities' core services, but is passed to a third party; for example, rent allowances and rebates), capital grants, funding for the local authorities' housing management responsibilities and those grant programmes (such as European funding) where authorities are simply one of the recipients of funding paid towards an area.

Per capita figures for 2006-07 and 2007-08 are based on Office for National Statistics' (ONS) 2006 Mid-Year Population estimates. 2007 Mid-Year Population estimates are not published yet.

Comparisons across years may not be valid due to changing local authority responsibilities.

Local Government Finance: Disabled

Mr. Harper: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 10 December 2007, *Official Report*, column 148W, on local government finance: disabled, when she expects to make an announcement on funding for the disabled facilities grant. [177236]

Mr. Iain Wright: Further to the announcement on 6 December of the national funding for Disabled Facilities Grant programme of £146 million for 2008-09, individual local authority allocations are currently being calculated. Government offices are due to submit their recommendations for ministerial approval shortly. Additionally the Government announced an extra £11.5 million for the Disabled Facilities Grant programme for 2007-08 on 14 January, individual local authority allocations for 2007-08 can be viewed on the following link:

http://www.communities.gov.uk/documents/corporate/doc/646786

Minister for the South East

Norman Baker: To ask the Secretary of State for Communities and Local Government if she will make a statement on the work undertaken by the Regional Minister for the South East since his appointment; and what towns he has visited since appointment. [182071]

Mr. Dhanda: My hon. Friend the Under-Secretary of State, Department for Environment, Food and Rural Affairs (Jonathan Shaw), in his role as Regional Minister for the South East, has acted as a champion for the region, with particular focus on housing and skills issues and on taking forward the sub-national review of economic development and regeneration in the best way for the region. My hon. Friend has held meetings with and visited key stakeholders to encourage coordination between different areas of government policy and discuss the unique requirements of the South East region. During the recent floods and animal health crises, my hon. Friend visited farms in affected areas across the region.

My hon. Friend has visited the following towns in the South East in his capacity as Regional Minister: Newhaven, Hastings, Reading, Newbury, Thatcham, Cranbrook, Winslow, Guildford, Portsmouth, Aylesbury, East Mailing, Lymington, Winchester, Leatherhead, Folkestone, Ramsgate, Dover, Elstead, Icklesham and Hungerford.

Out of Town Shopping Centres: Carbon Emissions

Mr. Pickles: To ask the Secretary of State for Communities and Local Government whether her review of Policy Planning Statement 6 on planning for town centres will include an assessment of *(a)* the effect on levels of carbon emissions and *(b)* the effect on small shops of permitting out-of-town retail development. [182219]

Mr. Iain Wright: We will shortly conduct a 12-week consultation on our proposals to review Planning Policy Statement 6: Planning for Town Centres (PPS6). As explained in the Planning White Paper, "Planning for a Sustainable Future", our objectives for this review include the continued support for the Government's environmental goals, and the promotion of competition and improvement of consumer choice. The consultation will invite views on our proposals, including these two issues.

The Planning White Paper also made clear that planning has an important role to play in meeting the challenges of climate change. That is why, at the end of 2007, we published a new Planning Policy Statement (PPS): Planning and Climate Change, which makes cutting carbon emissions a key Government priority for the planning system in England. The PPS sets out how planning can help secure enduring progress against the UK's emissions targets, by direct influence on energy use and emissions, and in bringing together and encouraging action by others. As part of this contribution, planning authorities are expected to prepare and manage the delivery of spatial strategies that help secure the fullest possible use of sustainable transport and make the most of existing and planned opportunities for decentralised and renewable or low-carbon energy. This document should be read alongside our forthcoming consultation on revisions to PPS6.

Planning Permission

Grant Shapps: To ask the Secretary of State for Communities and Local Government which Minister in the Office of the Deputy Prime Minister authorised the choice of pilot planning delivery agreement projects to be undertaken by the Planning Advisory Service and the advisory team on large applications. [182578]

Mr. Iain Wright: Ministers were not involved in the selection of Pilots for Planning Delivery Agreements (PDAs, which have since been renamed to Planning Performance Agreements). The Pilot programme was managed by the Planning Advisory Service and all nominations put forward by local authorities and developers were accepted on to the programme. The Planning Advisory Service is part of the Improvement and Development Agency.

Planning Permission: Appeals

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government how many appeals to the planning inspectorate led to the local planning authority paying costs in each region in England in each of the last five years; and what costs were paid in each case. [181862]

Mr. Iain Wright *[holding answer 24 January 2008]:* Over the last 5 years 1,663 appeals led to local planning authorities being liable to pay costs, following awards made against them by inspectors and the Secretary of State.

The breakdown by financial year is:

	Number
2002-03	307
2003-04	352
2004-05	338
2005-06	304
2006-07	362

No further detail of authorities by regions is readily available.

The actual amount to be paid is not determined by a costs award. This is for the parties to settle by negotiation initially in accordance with longstanding Government guidance contained in DOE Circular 8/93. Accordingly, no records are available of costs paid in each case.

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government how many planning inspectorate site visits had not taken place 12 months after the date an appeal was lodged in each of the last five years. [181863]

Mr. Iain Wright *[holding answer 24 January 2008]:* The following table shows the numbers of planning appeals lodged (received) in England and determined by the Planning Inspectorate for the five-year period 2002 to 2006, where a site visit was carried out, together with the number of appeals where a site visit had not taken place 12 months after the appeal was lodged.

	Appeals lodged where a site visit was carried out	*Number of site visits not taken place 12 months after appeal lodged*
2002	12,150	10
2003	14,192	18
2004	17,786	66
2005	15,329	77

	Appeals lodged where a site visit was carried out	*Number of site visits not taken place 12 months after appeal lodged*
2006	17,200	26

Note:
Data for 2007 has not been included as a proportion of the appeals lodged in that year are still to be allocated site visits and the period of a year from receipt has only been reached for those appeals lodged in January 2007

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government how many appeals were *(a)* lodged with the planning inspectorate and *(b)* successful in each region of England in each of the last five years. [181864]

Mr. Iain Wright *[holding answer 24 January 2008]:* The following table provides the information requested.

	Received	*Decided*	*Allowed*
2003

Total	21,630	20,536	7,331

Rough Sleepers

Mr. Evans: To ask the Secretary of State for Communities and Local Government how many rough sleepers there were in England in each of the last 10 years; and what proportion of these were estimated to be military veterans. [182265]

Mr. Iain Wright: A national estimate of the number of rough sleepers in England is published every September. The estimate is based on the results of local authority street counts in those areas where a known, or suspected, rough sleeping problem has been identified. The following table sets out the national rough sleeping estimate over each of the last 10 years.

	Number
1998	1,850
1999	1,633
2000	1,180
2001	703
2002	596
2003	504
2004	508
2005	459
2006	502
2007	498

We do not hold national data on the proportion of rough sleepers who are military veterans. However, there is specific data for London provided under the Combined Homelessness and Information Network (CHAIN) recording system. In 2006-07, for those rough sleepers in London contacted by services, CHAIN records show around 5 per cent. of rough sleepers had spent time in the armed forces in the past.

Standards Board for England

Mr. Burstow: To ask the Secretary of State for Communities and Local Government how many complaints were *(a)* made to, *(b)* investigated by, *(c)* dismissed by and *(d)* upheld by the Standards Board

for England in each of the last five years; and what sanctions were imposed in each case upheld by the Board. [182186]

John Healey: The information requested, which has been provided by the Standards Board, is set out in the following table. The power to impose sanctions rests with either a local authority standards committee or the Adjudication Panel for England, following their consideration of the results of the investigations by either a local authority monitoring officer or one of the Standards Board's ethical standards officers.

	2003-04	*2004-05*	*2005-06*	*2006-07*	*2007-present*
Total complaints received	3,566	3,861	3,836	3,549	2,550
Complaints referred for investigation	1,105	949	857	634	389
Complaints not referred for investigation	2,144	2,756	2,842	2,591	2,224
Other (for example, outside the SBE's remit)	317	273	244	164	139
Complaints referred for investigation					
Complaints referred to the Standards Board's ethical standards officers (ESO) for investigation	1,105	1,009	465	241	127
Complaints referred by the ESO for local investigation by the local authority monitoring officer	n/a	96	385	347	203
Directions issued by ESO to the local authority monitoring officer[1]	n/a	n/a	7	46	58
Completed cases by final findings (investigated by ESO)					
No evidence of breach of the code of conduct	154	310	119	128	65
No further action	462	947	459	182	93
Referred for local determination by monitoring officer	58	78	66	12	10
Referred to Adjudication Panel for England	89	111	94	9	7
Standards Committee decisions and sanctions					
No breach of the code of conduct	2	4	3	1	0
No further action	3	8	5	1	0
Censured	18	26	18	7	1
Suspended for up to 2 months	14	19	12	6	5
Suspended for up to 3 months	2	15	19	2	3
Adjudication Panel decisions and sanctions					
No breach of the code of conduct	3	8	12	5	1
Breach but no sanction imposed	3	7	24	5	0
Suspended 0-6 months	13	13	5	3	2
Suspended 6 months-1 year	0	6	13	0	0
Disqualified for up to 6 months	3	1	5	0	3
Disqualified for 6 months-1 year	19	11	15	5	1
Disqualified for 18 months	4	4	1	1	1
Disqualified for 2 years	12	3	7	0	0
Disqualified for 3 years	10	2	1	0	0
Disqualified for 4 years	2	3	2	0	0
Disqualified for 4.5 years	0	0	1	0	0
Disqualified for 5 years	1	1	0	0	1

[1] Direction issued by an ESO to a local authority monitoring officer for action falling short of full investigation, for example conciliation or training to be undertaken by the member.

TREASURY

Capital Gains Tax: Second Homes

Adam Price: To ask the Chancellor of the Exchequer what assessment he has made of the impact his proposals for changes in the capital gains tax regime applied to second homes will have on the housing market in rural areas. [182305]

Jane Kennedy: The 2007 pre-Budget report announced a reform of the capital gains tax regime for individuals. The impact on investors will depend on their personal circumstances and economic conditions more generally. The Government continue to monitor such issues.

Child Tax Credit: Poland

Andrew Selous: To ask the Chancellor of the Exchequer how many Polish children living in Poland are in receipt of *(a)* child tax credits and *(b)* child benefit; and how much was spent on those payments in the last year for which figures are available. [174673]

Jane Kennedy *[holding answer 17 January 2008]:* Further to the answer given on 3 December 2007, *Official Report*, column 1018W, to the hon. Member

for Runnymede and Weybridge (Mr. Hammond), at the end of September 2007, out of the 16,286 ongoing awards to Polish nationals, child benefit was being paid for around 26,000 children. The other information requested is not available.

Migrants from the new EU member states continue to come to the UK to work and contribute to the success of the UK economy.

Departmental Equality

Philip Davies: To ask the Chancellor of the Exchequer how much has been spent by his Department *(a)* in total and *(b)* on staff costs on promoting equality and diversity in each of the last three years for which figures are available; and how many people are employed by his Department for this purpose. [173817]

Angela Eagle: The Treasury is fully committed to the equality and diversity agenda. In the last three years the Treasury has promoted equality of opportunity for all, supported internal employee-diversity networks, funded diversity and equality events in the Department and funded diversity awareness raising seminars.

The Treasury has spent the following amounts on reasonable adjustments for staff with disabilities, on promoting equality and diversity by awareness raising events and on subscriptions (for example membership of the Employers Forum on Disability):

	Amount (£)
2004-05	46,000
2005-06	61,679
2006-07	96,196

The Treasury introduced a Child-Care Voucher Scheme in 2004 as part of its work to promote equality and diversity. The costs for child-care vouchers are:

	Amount (£)
2004-05	120,000
2005-06	172,531
2006-07	139,370

In 2004-05 the staff costs for the Treasury's diversity team (three members of staff) were £91,000.

Following a restructuring, in 2005, the staff costs for one member of staff were:

	Amount (£)
2005-06	26,500
2006-07	27,000

Another 80 to 100 employees are involved in promoting diversity in the Department i.e. members of diversity support groups, diversity champions and senior staff sponsors. Staff costs for this work are not available.

Employment

Mr. Hepburn: To ask the Chancellor of the Exchequer (1) how many people in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* the UK were in full-time employment in each year since 1997; [181287]

(2) how many people in *(a)* the Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* the UK were employed in each year since 1997; [181288]

(3) how many people in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* the UK were unemployed in each year since 1997; [181289]

(4) how many people in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* the UK were in part-time employment in each year since 1997; [181372]

(5) how many people in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* the UK were in temporary employment in each year since 1997. [181373]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 25 January 2008:

As National Statistician, I have been asked to reply to your Parliamentary Questions concerning employment and unemployment in (a) Jarrow constituency, (b) South Tyneside, (c) the North East and (d) the UK. (181287, 181288, 181289, 181372, 181373)

Questions 181288 and 181289 ask for the same information on total employment and unemployment as questions received in July and October of last year, and I refer you to the answer given in official report volume 463 of 26 July, column 1460, copies of which are available in the House of Commons Library, and volume 464 of 8 October, column 577.

The above answers were compiled using the most up to date datasets available. Annual estimates are compiled from the annual Labour Force Survey (LFS) and the Annual Population Survey (APS) following International Labour Organisation definitions.

Table 1, attached, shows the number of people, who were (i) aged 16 and over, (ii) working age (Males 16-64, Females 16-59) resident in the Jarrow constituency, South Tyneside metropolitan borough, the North East and United Kingdom who were in full time, part time and temporary employment for the 12 months ending February 1997 to 2003, from the LFS and for the 12 months ending March 2004 to 2007, from the APS.

Some estimates in Table 1 are for a subset of the population in small geographical areas; they are based on small sample sizes, and are therefore subject to large margins of uncertainty.

In this case, the sample sizes for the Jarrow constituency and South Tyneside metropolitan borough are not sufficient to give an accurate estimate of even the direction of the change over time. The information on the number of people in temporary employment is unavailable for 1997.

Mr. Hepburn: To ask the Chancellor of the Exchequer how many people in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* the UK were employed by agencies in each year since 1997. [181295]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 25 January 2008:

As National Statistician, I have been asked to reply to your Parliamentary Question on how many people in (a) Jarrow constituency, (b) South Tyneside, (c) the North East and (d) the UK have been employed by agencies in each year since 1997. (181295)

The answer was compiled using the most up to date datasets available. Annual estimates are compiled from the annual Labour Force Survey (LFS) and the Annual Population Survey (APS).

The attached table gives figures of those (i) aged 16+ (ii) of working age (males 16-64, females 16-59) employed by agencies, resident in the UK, North East, South Tyneside and Jarrow constituency for the 12 months ending February 1998 to 2003, from the LFS and for the 12 months ending March 2004 to 2007, from the APS. Comparable estimates are not available before 1998.

The LFS estimates at this detailed level are only consistent with the UK population estimates published in February and March 2003 and they do not incorporate the more recent population estimates that are used in the monthly Labour Market Statistics First Release.

As with any sample survey, estimates from the LFS are subject to a margin of uncertainty.

People employed by agencies[1], 1998-2006[2] UK, not seasonally adjusted

Thousand

	UK	North East	South Tyneside	Jarrow
1998[4]				
Age 16+	238	7	[3]	[3]
Working age	233	7	[3]	[3]
1999[4]				
Age 16+	263	11	[3]	[3]
Working age	259	11	[3]	[3]

People employed by agencies[1], 1998-2006[2] UK, not seasonally adjusted

	UK	North East	South Tyneside	Thousand Jarrow
2000[4]				
Age 16+	266	11	[3]	[3]
Working age	260	11	[3]	[3]
2001[4]				
Age 16+	268	9	[3]	[3]
Working age	260	9	[3]	[3]
2002[4]				
Age 16+	254	9	1	[3]
Working age	245	8	1	[3]
2003[4]				
Age 16+	248	8	1	1
Working age	240	8	1	1
2004[5]				
Age 16+	217	9	1	[3]
Working age	209	9	1	[3]
2005[5]				
Age 16+	221	10	1	[3]
Working age	215	10	1	[3]
2006[5]				
Age 16+	249	11	1	[3]
Working age	242	11	1	[3]

[1] In the LFS these are people who are employed as an agency temp in a non-permanent job.
[2] For 1998-2003 the period covered is the 12 months ending in February the following year. For 2004-07 the period covered is the 12 months ending in March the following year.
[3] Sample sizes too small to provide reliable estimates.

Internet Access: Lone Parents

Danny Alexander: To ask the Chancellor of the Exchequer what estimate he has made of the number of lone parents with internet access, broken down by income decile. [181258]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 25 January 2008:

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking what estimate has been made of the number of lone parents with internet access, broken down by income decile (181258).

Estimates are not available for income deciles due to incomplete responses from those surveyed and an insufficient sample size. The small sample size also means that the estimate provided below has a wide margin of statistical error associated with it and should be used with caution.

With this caveat in mind, the estimated proportion of lone parents in the UK in 2007 with Internet access is 44 per cent.

More detailed information on Internet access is available in the published tables from the 2007 e-Society module of the Integrated Household Survey. The relevant estimates can be found on the National Statistics website at:

http://www.statistics.gov.uk/pdfdir/inta0807.pdf

The e-Society module is used to collect data in the first quarter of the year using the Integrated Household Survey and is the most comprehensive source of household and individual Internet activity in the UK.

Members: Correspondence

Sir Gerald Kaufman: To ask Mr Chancellor of the Exchequer when he will reply to the letter of 23 November 2007 from the right hon. Member for Manchester, Gorton, with regard to Mr. A. Ali. [179333]

Jane Kennedy: The Chancellor has today written to the right hon. Gentleman.

Northern Rock

Mr. Kenneth Clarke: To ask the Chancellor of the Exchequer what the Government's estimate is of the impact on the measurement of national debt of the latest package of guarantees for Northern Rock plc;

and how it will be accounted for in the published accounts of the national finances. [181989]

Jane Kennedy: Guarantees are contingent liabilities, and will be recorded as such in the Treasury's accounts. Contingent liabilities only impact on public sector net debt if they become actual liabilities.

Office for National Statistics: Relocation

John McDonnell: To ask the Chancellor of the Exchequer whether his Department has conducted a sustainability appraisal in respect of the relocation of the Office for National Statistics. [181300]

Angela Eagle: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Karen Dunnell, dated 25 January 2008:

As National Statistician I have been asked to reply to your recent question asking if a sustainability appraisal has been made in respect of the relocation of the Office for National Statistics. (181300)

The decision to relocate some posts to South Wales was driven by the need to respond positively to the Lyons Report and move posts out of London and the SE. In taking this decision we considered the impact of the additional posts on the infrastructure at our existing Newport site. In London we are vacating a large building and moving the remaining posts to an existing smaller site.

ONS is consistently ranked among the top performing departments in the Sustainable Development Commission's annual report on progress against government environmental targets. Our policies and efforts are directed towards maintaining, if not improving our position. While there has not been a formal sustainability appraisal in respect of our relocation, we are confident that the decision has no negative environmental impact.

Energy Efficiency

John McDonnell: To ask the Chancellor of the Exchequer (1) whether his Department is on course to meet the Sustainable Operations on the Government Estate targets to *(a)* source at least 10 per cent. of its electricity from renewables by 31 March 2008 and *(b)* increase recycling figures to 40 per cent. of waste by 2010; [181296]

(2) whether his Department has adopted the Carbon Trust's Carbon Management Programme; [181297]

(3) whether his Department met the target in the Sustainable Operations on the Government Estate to reverse the then upward trend in carbon emissions by April 2007; [181298]

(4) whether his Department is working towards an accredited certified environmental management system for *(a)* its whole estate and *(b)* some of its buildings. [181299]

Mr. Kemp: To ask the Chancellor of the Exchequer what steps he has taken to reduce his Department's carbon dioxide emissions in 2008-09. [181821]

Angela Eagle: The Treasury sources 100 per cent. of its electricity from renewable sources. The department recycled 49.8 per cent. of the waste it produced as at December 2007. As part of its strategy to reduce carbon emissions, the department has adopted the Carbon Trust Management Programme. The Treasury has reduced carbon emissions progressively since 1999-2000, achieving a total reduction of 19 per cent. and has achieved certification for its environmental management system which covers the Treasury's main building, 1 Horse Guards Road. Work is under way to extend this coverage to offices the Treasury occupies in Norwich. The Treasury is currently reviewing with the Carbon Trust the progress we have made in reducing carbon emissions and are looking to identify ways in which further reductions can be made in 2008-09 and beyond.

Revenue and Customs: Data Protection

Mr. Philip Hammond: To ask the Chancellor of the Exchequer what proportion of total deliveries of computer discs made on behalf of his Department and its agencies were carried out by mail carriers employed by HM Revenue and Customs in the last 12 months. [169889]

Jane Kennedy *[holding answer 3 December 2008]:* This information is not gathered by HM Treasury.

Stamp Duties

Justine Greening: To ask the Chancellor of the Exchequer (1) how many homes have claimed the zero rate of stamp duty on zero carbon homes in *(a)* 2007 and *(b)* 2008 to date; and if he will make a statement; [182306]

(2) what estimate he has made of the number of zero carbon houses that will qualify for stamp duty land tax relief which are currently under construction; and if he will make a statement. [182433]

Jane Kennedy: Since the relief has been available in October 2007, the stamp duty land tax relief for new zero carbon homes has been claimed for six transactions. Figures are not yet available for 2008.

The tax relief will help stimulate the market for new highly efficient technologies in homes, both for the fabric of the building and in the use of microgeneration, and sets a gold standard for green homes.

No estimate has been made of the number of houses that will qualify for the stamp duty land tax relief which are currently under construction. But we expect the numbers of qualifying transactions to rise as more properties eligible to claim the relief go on the market.

The Government are committed to conducting an interim review of the relief in 2010 which will examine the effectiveness of the relief in stimulating the innovation necessary to ensure that all new homes are built to a zero-carbon standard from 2016.

Tax Allowances

Harry Cohen: To ask the Chancellor of the Exchequer how many individuals *(a)* have and *(b)* have had in the last 20 years, tax immunity or privileges in the UK as a result of involvement in an international activity. [181911]

Jane Kennedy: The information requested is not available.

Taxation: Domicil

Mr. Dunne: To ask the Chancellor of the Exchequer (1) how many individuals indicated non-domicile status on a P86 form in the last five years; and how many of those did not submit a self-assessment tax return in the 2005-06 tax year; [181543]

(2) how many individuals filed a DOM1 form with HM Revenue and Customs in the last five years; and how many of those did not submit a self-assessment tax return in the 2005-06 tax year. [181544]

Jane Kennedy: The information requested is not available.

VAT: Bingo

Mr. Ellwood: To ask the Chancellor of the Exchequer whether there are plans to zero-rate VAT for bingo establishments. [181981]

Angela Eagle: The Chancellor keeps all taxes under review and decisions about gambling taxation are made at Budget alongside all other tax decisions.

FOREIGN AND COMMONWEALTH OFFICE

The Akhtar Family

Dr. Howells: We have not issued new passports because Mrs. Akhtar has started court proceedings in Pakistan under the protocol, seeking the return of the children to the United Kingdom. Under the terms of the protocol, we must await the outcome of the proceedings before issuing passports.

[Official Report, 13 December 2007, Vol. 469, c. 573.]

Letter of correction from Dr. Howells:

An error has been identified in the response given by myself to the hon. Member for Rochdale (Paul Rowen) on 13 December 2007, *Official Report*, column 573. The correct answer should have been:

Dr. Howells: We have not issued new passports because Mrs. Akhtar has started court proceedings in Pakistan under the protocol, seeking the return of the children to the United Kingdom. It is our policy to await the outcome of the proceedings before issuing passports.

JUSTICE

Prison Officers: Dismissal

Mrs. Gillan: To ask the Secretary of State for Justice what the reasons were for the dismissals of each of the *(a)* prison officers, *(b)* senior officers and *(c)* principal officers from each of the Welsh prisons in (i) 2005, (ii) 2006 and (iii) 2007. [166183]

[Official Report, 21 November 2007, Vol. 467, c. 975-76W.]

Letter from Mr. Hanson to Mrs. Gillan:

I am writing to apologise for the errors in the written answer I gave in response to your parliamentary question of 21 November 2007, *Official Report*, columns 975-76W, asking about the reasons for dismissal of officers from Welsh prisons in 2005, 2006 and 2007. Your subsequent question of 27 November 2007 alerted me to the discrepancies between this answer and another previous question which also included information on dismissals of officers from Welsh prisons.

The correct answer should have been:

Mr. Hanson: Information on the reasons for dismissal of each of the officers dismissed from Welsh Prisons in 2005, 2006 and 2007 is shown in the list. Due to the different grading structure in public sector and contracted prisons it is not possible to break down the information by grade.

2005

Ill health (x2)

Failure to comply with operational procedures

Gross misconduct

Unacceptable attendance (x2)

Continued unacceptable attendance

Failure to disclose information

Failed probation period

2006

Committing criminal offence during employment

Expiry of retention period

Gross misconduct (sexual harassment claim)

Failure to notify company of his arrest and subsequent charges

Assault on a prisoner

Gross Misconduct (drinking whilst on duty)

Conduct Case

2007

Failure to carry out roll count

Making untrue statements with intent on deceiving or defrauding the company

Failure to comply with operational procedures (x3)

Inappropriate and unprofessional conduct

Inappropriate and unprofessional behaviour towards a prisoner

Failed probation period

Funding of Political Parties

The Minister for Europe (Mr. Jim Murphy): ...The Government support the proposal in the draft regulation to enable European political parties to carry over funding. Political parties will be allowed to carry over 20 per cent. of annual total income from one year to the first quarter of the following year.—*[European Standing Committee, 11 December 2007; c. 3]*

Letter of correction from Mr. Murphy:

I should like to correct what I said in my opening speech in the European Standing Committee debate on "Funding of Political Parties". In fact, European political parties will be allowed to carry over 25 per cent. of annual total income.

I am copying this letter to John Cummings, Chairman of the Standing Committee.

TREASURY

Cancer

Mr. Jamie Reed: To ask the Chancellor of the Exchequer what the incidence of cancer was in each *(a)* constituency, *(b)* primary care trust area, *(c)* hospital trust area, *(d)* region and *(e)* social demographic group in the most recent period for which figures are available. [171907]

[Official Report, 11 December 2007, Vol. 469, c. 358W.]

Letter of correction from Angela Eagle:

Errors have unfortunately been identified in Table 1 and 2 of the written answer given on 11 December 2007, *Official Report*, column 358W by Mr. Colin Mowl on behalf of the National Statistician. The tables should have read as follows:

HEALTH

Consent to Medical Treatment

Mr. Hancock: To ask the Secretary of State for Health what steps *(a)* he has taken and *(b)* he is planning to take to ensure that healthcare professionals comply with a patient's advance decision to refuse treatment in certain circumstances; and if he will make a statement. [165447]

[Official Report, 20 November 2007; Vol. 467, c. 820W.]

Letter from Mr. Ivan Lewis:

An error has been identified in the written answer given to Mike Hancock, MP (Portsmouth, South), on 20 November 2007. The correct answer should have been:

Mr. Ivan Lewis: The Mental Capacity Act (MCA), which applies in England and Wales, came fully into force in October 2007 and puts advance decisions to refuse treatment onto a statutory footing. The MCA Code of Practice, issued in April 2007, gives details of the Act's provisions on advance decisions and sets out health professionals' responsibilities. The Code and the trajning materials we have issued make clear that healthcare professionals must follow an advance decision to refuse treatment if it is valid and applies to particular circumstances. If they do not, they could face civil liability or criminal prosecution.

It is for individual trusts to put in place procedures for implementing the MCA locally. The Act requires the Public Guardian to produce an annual report, which we expect will include information on the implementation of the MCA.

TREASURY

VAT

Mr. Gauke: To ask the Chancellor of the Exchequer (1) how many and what proportion of VAT registration applications were processed within the target time in each of the last three calendar months; [162849]

(2) how many and what proportion of VAT registration applications received in 2007 were not processed within *(a)* 40, *(b)* 50 and *(c)* 60 days; [162850]

(3) what the average processing time for VAT registration applications has been for each VAT registration unit since 31 July. [162834]

[Official Report, 12 November 2007; Vol. 467, c. 23W.]

Letter from Jane Kennedy:

An error has been identified in the table in the written answer given to the hon. Member for South-West Hertfordshire (Mr. Gauke), on 12 November 2007, col. 23W. The correct figures should have been:

Month	*Number processed within target time*	*Percentage processed within target time*
August	3,985	14.4
September	5,687	19.75
October	17,075	45.45

COMMUNITIES AND LOCAL GOVERNMENT

Regional Government: South East Region

Mrs. May: To ask the Secretary of State for Communities and Local Government what the *(a)* date and *(b)* purpose has been of each visit made by the Minister for the South East to (i) Kent, (ii) Sussex, (iii) Surrey, (iv) Hampshire, (v) the Isle of Wight, (vi) Oxfordshire, (vii) Buckinghamshire and (viii) Berkshire. [174656]

[Official Report, 18 December 2007: Vol. 469, c. 1345-46W.]

Letter of correction from Hazel Blears:

An error has been identified in the table provided in the written answer given to the right hon. Member for Maidenhead (Mrs. May) on 18 December 2007. The entry: "UNISON Regional Policy Weekend" relates to Hampshire, not Sussex. The revised table is as follows:

(iii) Sussex	30 July 2007	Fisheries visit
(iii) Sussex	3 December 2007	Visit arranged by SEEDA on skills theme
(iv) Hants	15 October 2007	Visit to meet Partnership for Urban Hampshire
(iv) Hants	12 November 2007	Visit to New Forest National Park
(iv) Hants	14 November 2007	Regional Assembly Plenary Meeting
(iv) Hants	25 November 2007	UNISON Regional Policy Weekend

INTERNATIONAL DEVELOPMENT

African, Caribbean and Pacific Countries: EC External Trade

Mr. Clifton-Brown: To ask the Secretary of State for International Development when his Department's website will be updated in relation to the conclusion of economic partnership agreements by the 31 December 2007 deadline. [177798]

[Official Report, 14 January 2008, Vol. 470, c. 1072W.]

Letter of correction from Mr. Thomas:

An error has been identified in the written answer given to the hon. Member for Cotswold (Mr. Clifton-Brown) on 14 January 2007. The correct answer should have been:

Mr. Thomas: The Department for International Development's website pages on Economic Partnership Agreements were updated on 10 December 2007 and will be again on 15 January 2008.

HOME DEPARTMENT

Illegal Immigrants

Stewart Hosie: To ask the Secretary of State for the Home Department how many illegal immigrants were found at each of the main ports of entry to the United Kingdom in 2007. [171193]

[Official Report, 10 December 2007; Vol. 469, c. 84W.]

Letter of correction from Mr. Byrne:

An error has been identified in the written answer given to the hon. Member for Dundee, East (Stewart Hosie) on 10 December 2007.

The correct answer should have been:

Mr. Byrne: Illegal entry action is initiated against those people who are detected having entered or attempted to enter the country clandestinely or by means of deception, either verbal or documentary. The figures in the table represent illegal entrants detected from 1 January 2007 to 30 November 2007. These figures relate predominantly to clandestine entrants but may also include other categories of illegal entry. Figures may include in-country enforcement cases located in the specific areas.

Initiating port	*Total*
Ashford	9
Birmingham International Airport	2
Brussels Control	2
Calais Ferryport	3,199
Calais Hoverport	1
Cheriton	10
Coquelles	721
Dorset Ports Office	219
Dover East Ports Office	4
Dunkerque Ports Office	700
Felixstowe	86
Heathrow TN3	5
Holyhead	1
Humber Ports	47
Newcastle	1
Newhaven	25
North Shields	2
Plymouth Ports Office	91
Portsmouth Ports Office	21
Ramsgate	2
Tees Ports Office	5
Tilbury Ports Office	14
Grand total	5,167

Note:
The data provided are based on locally collated management information, which may be subject to change and does not represent published national statistics. Some of the statistical data may include illegal entrants picked up in-country.

Police: Pay

Mr. Ruffley: To ask the Secretary of State for the Home Department what *(a)* total and *(b)* average overtime payments were for police officers in each police force area in England and Wales for each year since 1997. [176062]

[Official Report, 9 January 2008; Vol. 470, c. 538W.]

Letter from Mr. McNulty:

An error has been identified in the second table in the written answer given to the hon. Member for Bury St. Edmunds (Mr. Ruffley) on 9 January 2008. The average overtime per officer for the North Yorkshire, Northamptonshire and Northumbria police forces should read as follows:

North Yorkshire	1,578	1,729	2,280	2,913	2,746	2,494	2,215	2,413	3,169	2,660
Northamptonshire	1,585	1,866	1,897	1,967	—	2,214	1,083	2,414	1,773	633
Northumbria	1,370	1,328	1,034	1,167	1,238	1,582	1,636	1,830	1,911	2,042

TRANSPORT

Network Rail

Ruth Kelly:...and in which Government investment, far from increasing—as it is, by £10 billion over the next five-year period—returns to a level of chronic under-investment.

[Official Report, 8 January 2008; Vol. 470, c. 172.]

Letter of correction from Ruth Kelly:

An error has been identified in an answer given by the Secretary of State to the right hon. Member for Wokingham (Mr. Redwood) in the course of the Opposition day debate on Network Rail on 8 January 2008. The correct answer should have been:

Ruth Kelly:...and in which Government investment in capacity, far from increasing—as it is, to £10 billion over the next five-year period—returns to a level of chronic under-investment.

Network Rail

The Parliamentary Under-Secretary of State for Transport (Mr. Tom Harris):...Network Rail came to the rescue of Railtrack. When Railtrack was drowning in its own inefficiencies, and costs for the updating of the west coast main line had gone to above £20 billion with no prospect of the project finishing...

[Official Report, 8 January 2008; Vol. 470, c. 211.]

Letter of correction from Mr. Tom Harris:

An error has been identified in the comments made by Mr. Harris in the course of his response to the Opposition day debate on Network Rail on 8 January. The correct wording should have been:

The Parliamentary Under-Secretary of State for Transport (Mr. Tom Harris): ...Network Rail came to the rescue of Railtrack. When Railtrack was drowning in its own inefficiencies, and costs for the upgrading of the west coast main line had gone to above £14 billion with no prospect of the project finishing...

HEALTH

Tobacco

Sandra Gidley: To ask the Secretary of State for Health what funding his Department has provided towards national tobacco strategies in each of the last five years. [166697]

[Official Report, 26 November 2007; Vol. 468, c. 262W.]

Letter from Dawn Primarolo:

An error has been identified in the written answer given to Sandra Gidley MP (Romsey) on 26 November. The figure given as £300,000 should have read £3,000,000. The correct reference should read:

....A further grant of £3,000,000 was made in 2006-07 for CRUK's media campaign on the harmful constituents of secondhand smoke.
